

Additional Information

I moved to Bibra Lake over 12 years ago, and I am proud to now call Cockburn home. I've been involved in the community for over six years, volunteering my time to make this area a vibrant, safe and connected community, forging relationships with community, sporting and school groups and collaborating on local events, projects and advocacy matters. You may have even seen me around at community events - cooking sausages, planting or even inside a Santa suit.

I'm passionate about our community, and I am seeking your support in this election, with a promise to communicate and engage with you and take your voice into the Council chambers to guide decision making - acting with integrity, transparency and accountability.

There are opportunities for growth across Cockburn, from local investment in our sporting and community hubs to major state projects and the Cockburn Central precinct but these projects need to be done correctly, balancing development with community needs and our environment and ensuring that we have the roads and transport infrastructure to complement them. To achieve these outcomes we need an approach anchored in community engagement, transparency and accountability.

I am committed to listening and providing new opportunities for you to connect with Council, through monthly catch ups, community forums, newsletters and surveys to give every resident an opportunity to engage and have their say.

I am passionate about taking action to protect our natural environment and wildlife, increase urban canopy, invest in our local infrastructure including roads and buildings, advocating for increased public transport and empowering local residents to create change in their communities.

There is much to do, but I am energised by the opportunities that lay ahead. I hope that you will support me so that we can work together to make Cockburn the best it can be.
