

Hi, I'm out here on Jandakot Road, where we're going to be constructing two lanes in both directions from Solomon Road through to Berrigan Drive. The works will improve safety and also quicker travel times with works completed by early 2022. Some of the other benefits will be a shared foot path, which will enable people to be able to run along the area or use their pushbike, plus further trees to the medium island. These works are a follow on to the upgrades of Stage 1 of Jandakot Road, which was from Fraser Road to just before Solomon Road
