

What's being done about traffic congestion in Cockburn Video Transcript

Are you shifting me?

This traffic is *honk honk*

Don't worry, something is being done

All levels of Government are working together to reduce the traffic congestion and
Cockburn Central

And around Kwinana Freeway at Berrigan Drive

They are bad spots

To improve traffic flow at Cockburn Central, part of Spearwood Avenue and Armadale
Road

From Tapper road through to Anstey Road has been duplicated

And a new bridge is being built over Kwinana Freeway

To connect North Lake Road to Armadale Road

And to reduce congestion getting on and off the Freeway at Berrigan Drive

They have widened the Freeway from Russell Road to Farrington Road

And are duplicating parts of Jandakot Road and Karel Avenue

Other things that will help include the new Thornlie rail link

The upgrade to Stock Road and Beeliar Drive Intersection

The Smart Freeway and our ever-expanding network of walking and bike paths and roads
so it is going to improve

They are working on it
