

GENERAL INFORMATION ON PLANNING APPROVALS

Planning Information Sheet

WHAT IS A PLANNING APPROVAL?

A Planning Approval is required prior to undertaking development in the City of Cockburn (some exemptions do apply see below). This can include construction of a house, shed, undertaking a home occupation or business and includes the use of an existing building. Please note that planning approval is separate to a building permit and that in many instances, both a planning approval and building permit are required prior to the commencement of development.

WHY IS PLANNING APPROVAL REQUIRED?

Planning approval is required to ensure that any development being undertaken within the City of Cockburn complies with the relevant planning requirements and legislation. This includes the City's Town Planning Scheme No. 3 (TPS 3), Residential Design Codes (R-Codes), Local Planning Policies and other statutory documents.
