

CoSafe, we're here to keep your family, local neighbourhood and business safe.

So how do we do this, and how can you help make Cockburn the best place to be?

It's a team effort between CoSafe, our community, including local businesses and the WA Police.

Our community play an integral role in allowing for more eyes in the street

So, if you see any antisocial or suspicious behaviour, vandalism or excessive noise on your street

Call CoSafe first, operating 24 hours, 365 days a year

We are here to help, but we need to work together

So please, if it doesn't look or feel right, it probably isn't

So, call us to know when issues are unfolding and to be able to resolve them quickly

We have a state-of-the-art control room, linked to our growing CCTV camera network, AI monitoring and alert software

To keep our residential streets even safer, we encourage residents with home CCTV cameras to register them with WA Police

So, as you can see, it's a team effort to make sure Cockburn remains the best place to be and continues to be a safe, happy and healthy place for our growing community and local businesses
