BACKGROUND:

The Rural zone, the Rural Living Zone and the Resource Zone under Local Planning Scheme No. 3 (LPS 3) are retained for rural pursuits, rural living or resource protection purposes. In addition, portions of the City are affected by the Kwinana Air Quality buffer and inappropriate subdivision within these areas has the potential to compromise strategic planning objectives.

The City is required to make recommendations to the Western Australian Planning Commission (WAPC) regarding applications to subdivide land within these zones and as the matter is not addressed by TPS 3, this Policy provides the basis for consistent responses to the WAPC on subdivision proposals.

PURPOSE:

To recommend against the ad hoc subdivision of land that is proposed to be retained for rural pursuits, rural living or resource protection under the Local Planning Scheme or which is affected by the Kwinana Air Quality Buffer.

POLICY:

(1) Resource Zone:

1. The Council may support subdivision in this area if the proposal is in accordance with the Jandakot Groundwater Protection Policy (SPP No. 2.3) and the land is being suitable and capable of subdivision for the proposed purpose.
