

Why I send my kids to the Cockburn Youth Centre – Video Transcript

It offers such a variety for my kids but it's also such a central location so that I can literally drop them and go do any of the other jobs and things that I need to do. I would describe the centre as being very well fitted out, there's a lot of activities for the kids to do from the kitchen to being able to cook and play basketball, listen to music, play the Playstation, it's fantastic. It's definitely secure, I'm comfortable in sending my kids to the Youth Centre. They're 12 and 10, and they always feel very safe and well looked after. The kids in general that come here are just normal kids, they're loud and noisy and rambunctious, but they are really respectful and they seem to enjoy being in the space.
