OCM	13/10/2022	21.1	Request from Banjup Residents Group for New Local Planning Policy "Banjup Preservation"	That Council: (1) NOTES the submission made to Council by the Banjup Residents' Group, dated 13 September 2022; and (2) ADVISES the Banjup Residents Group that: 1. Adoption of a policy on Banjup would be premature and unlikely to be supported by the WA Planning Commission given the City's Local Planning Strategy is currently under review. 2. The City's current Local Planning Strategy, Town Planning Scheme, and Local Planning Policy 2.1 – Rural Subdivision already supports, in broad terms, the desire to retain the rural and environmental qualities of the Banjup area. 3. The City's Local Planning Strategy is the appropriate document to set out long-term objectives and changes to development across Cockburn. While still in draft form, it does not propose any changes to planning for the Banjup area. 4. Consultation for the Draft Local Planning Strategy commences on 22 September 2022 and runs until 21 November 2022. 5. In responding to any strategic planning proposals, the City is guided by the overarching strategic direction given by Perth and Peel @3.5M and the Sub-Regional Planning Framework which currently indicates Banjup as rural. 6. Denying traffic permeability along roads within Banjup will transfer pressure on other areas, such as Aubin Grove, which is a breach of Road Safety Guidelines where risks must be appropriately managed and not just transferred to other areas. The request to treat all roads within Banjup as 'local roads' is not supported.	That Council: (1) NOTES the submission made to Council by the Banjup Residents Group, dated 13 September 2022; (2) AFFIRMS the following set of principles for the preservation of Banjup: 1. The City's continuing strategic intent for Banjup that its natural landscapes maintain a positive and memorable rural appearance 2. Banjup is a highly appreciated, rural locality whose character and amenity will be preserved by the City 3. Banjup will be advocated as a highly appreciated, naturally rich, rural locality to: i. State and Commonwealth governments, particularly when planning its long-term future, ii. Property developers contemplating changes to Banjup's rural status. 4. The City will earnestly seek to resolve the zoning anomaly in the south west corner of Banjup 5. The intended function of the roads in Banjup is for traffic within its local area and not for traffic between outside areas and they will be managed as such 6. Reserves in Banjup will be preserved as accessible places of peace and quiet with rich flora and fauna 7. Ecological linkages within and between reserves in Banjup will be developed and maintained for the enjoyment and amenity of residents and visitors 8. The City will continuously encourage and inform Banjup landowners in the safe and sustainable stewardship and preservation of their lands so that future generations living in Banjup can enjoy increasingly richer flora and fauna; and (3) REQUESTS the City to write to the Minister for Transport; Planning; Ports to express Council's strong desire for there to be no change in recommended land use for the Banjup area, and for it to remain zoned for rural residential use.

OCM	10/11/2022	14.1.1	Recommendation on Final Adoption - Scheme Amendment 152 to Local Planning Scheme 3 and Structure Plan - Various Lots Comprising the Former Glen Iris Golf Course	Refer to Minutes document for Officer Recommendation	That Council: (1) ENDORSES and ADOPTS the Schedule of Submissions prepared in respect of Amendment No.152 to the City of Cockburn Town Planning Scheme No.3 (Scheme) and Glen Iris Estate Structure Plan; (2) NOT ADOPTS Scheme Amendment No.152 and pursuant to Part 5, Division 2, regulation 41(3)(c) of the deemed provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 and RECOMMENDS that the Hon. Minister for Planning REFUSES the Amendment on the following grounds: 1. Consistent with the overwhelming feedback received during the public advertisement period, the proposal represents an unacceptable impact to the established character of the area, the expectations derived from the City's long established planning framework and the amenity of surrounding landowners, 2. The incompatibility of the proposal with the City's Strategic Community Plan, Climate Change Strategy and Urban Forest Plan due to the removal of 700 trees which will create a significant reduction of the City's urban tree canopy over a set period of time and also negatively impact on the existing foraging grounds for the endangered Carnaby cockatoos. (3) RECOMMENDS to the Western Australian Planning Commission, pursuant to Schedule 2, Part 4, clause 20 of the deemed provisions of the Planning and Development (Local Planning Schemes) Regulations 2015, that the proposed Structure Plan be REFUSED on the following grounds: 1. In the absence of a Development Zone and specific Development Area, the local planning scheme does not suitably enable enforcement of a local structure plan to manage future subdivision and development of the land, 2. The form of development currently proposed is not capable of modification to address the considerable range and levels of concerns raised through the public advertisement process; and (4) ADVISES those parties that made a submission of Council's decision accordingly.
OCM	10/11/2022	14.1.2	Proposed Structure Plan Amendment - Lots 114, 123-125 Wattleup Road, Hammond Park - Amendment No.3	Refer to Minutes document for Officer Recommendation	That Council: (1) NOTES the Schedule of Submissions prepared in respect of the proposed Structure Plan Amendment; (2) Pursuant to Schedule 2, Part 4, Clause 20 of the deemed provisions of the Planning and Development (Local Planning Schemes) Regulations 2015, RECOMMENDS to the Western Australian Planning Commission that the proposed Structure Plan Amendment be REFUSED on the basis that: 1. By virtue of the land's immediate interface with existing residential lots, the proposal will have an unacceptable impact on the amenity of adjoining landowners (in terms of noise, odour, light spill, privacy and security), 2. The proposal will generate a level of traffic unsuitable for the adjoining local road network, in a manner that will have a negative impact on the intended residential character of the area, 3. The proposed scale of the facility will have an adverse impact on the established and emerging activity centre hierarchy in the locality, 4. Is inconsistent with surrounding landowner and commercial operator expectations, as derived from the City's Local Commercial and Activity Centre Strategy and existing approved Structure Plan over this land; and (3) ADVISES the applicant and those who made a submission of Council's decision.
