The Council of the City Of Cockburn

Ordinary Council Meeting Thursday, 8 December 2022 at 7pm

Agenda

1. Declaration of Meeting

2. Appointment of Presiding Member (If required)

3. Disclaimer (To be read aloud by Presiding Member)

Members of the public, who attend Council Meetings, should not act immediately on anything they hear at the Meetings, without first seeking clarification of Council's position.

Persons are advised to wait for written advice from the Council prior to taking action on any matter that they may have before Council.

4. Acknowledgement of Receipt of Written Declarations of Financial Interests and Conflict of Interest (by Presiding Member)

5. Apologies & Leave of Absence

Cr C Stone	-	Leave of Absence
Ms V Green, Executive Corporate Affairs	-	Apology
Ms E Milne, Executive Governance & Strategy	-	Apology

6. Response to Previous Public Questions Taken on Notice

The following questions were taken on notice at the 10 November 2022 Ordinary Council Meeting. The following responses have been provided:

Anthony Certoma, Coogee

Item 14.2.1 Payments made from Municipal Fund and Local Procurement Summary – September 2022

- Q1. With reference to two separate credit card payments listed on page 337, made by the Senior Youth Justice and Outreach Worker on 22 August 2022 at McDonalds, being \$28.15 and \$22.25 respectively, and described as meeting/workshop catering, can the City clarify the exact nature of the expenses?
- A1. \$22.25 The Youth Justice and Outreach Worker attended a sensitive and challenging appointment with a young person and his legal guardian.

The process they were attending would be long and difficult and as neither had eaten that day some breakfast was provided to sustain them through the difficult and lengthy appointments ahead.

The breakfast meals provided included coffee and orange juice drinks.

\$28.15 - On a separate day the Youth Justice and Outreach Worker attended an official complex and difficult meeting with young person who is a client of the service and their parent (different from the above mentioned).

Breakfast for the two was provided as both were anxious about the appointment which would take several hours to complete.

The breakfast meals provided included coffee, apple, and orange juice drinks.

- Q2. Given the recent reports identifying seven out of 10 adults in Australia as being overweight or obese, and that fast food outlets have also been identified as one of the root causes of this health issue, is it appropriate from a public health and local government perspective, to take youths or adolescents to such places to conduct meetings with catering included?
- A2. Fast food was purchased for the young people during transit to an appointment.

The City and Youth Services agree that part of developing positive life skills includes looking at healthy eating options, eating regularly and being intentional with nutrition.

Most meetings with young people are conducted at the Youth Centre, where they are able to use the kitchen facilities and cook healthier options and encourage young people to join the cooking program to develop skills in the kitchen. Fast food however is at times the most practical option when transporting young people to external appointments where meal provision was not anticipated.

It is well understood that fast food is not the ideal option and balanced nutrition is promoted.

- Q3. Doesn't this just reinforce and justify patterns or behaviours that aren't appropriate given the public health crisis facing the majority of Australians now and into the future and it's associated required increase in health spending.
- A3. This is acknowledged and as per previous answer, Youth Services regularly discuss healthy eating and positive nutrition options with young people.

Youth Services Staff are cognisant and measured about visits to fast food outlets to ensure regular fast-food options are not provided to young people on a regular basis and healthy options are provided where possible.

- Q4. Will the City commit to developing an appropriate policy regarding spending ratepayer funds on fast food outlets and it's potential negative impact on public health as it doesn't appear to currently have one?
- A4. As mentioned above, promoting health healthy eating and nutritious food preparation programs form part of the Youth Centre activities.

The funding used by the Youth Justice and Outreach Worker to supply breakfast on occasions when transporting young people were externally provided grant funds and not municipal (ratepayer) funds.

7. Written Requests for Leave of Absence

Nil

8. Public Question Time

9. Confirmation of Minutes

9.1 Minutes of the Special Council Meeting – 3/11/2022

Recommendation

That Council confirms the Minutes of the Special Council Meeting held on Thursday, 3 November 2022 as a true and accurate record.

9.2 Minutes of the Ordinary Council Meeting - 10/11/2022

Recommendation

That Council confirms the Minutes of the Ordinary Council Meeting held on Thursday, 10 November 2022 as a true and accurate record.

9.3 Minutes of the Special Council Meeting - 17/11/2022

Recommendation

That Council confirms the Minutes of the Special Council Meeting held on Thursday, 17 November 2022 as a true and accurate record.

RECOMMENDATION

That Council:

- (1) AMENDS the City of Cockburn Town Planning Scheme No. 3, pursuant to Section 75 of the *Planning and Development Act 2005*, by
 - Amending Table 10 Development Contribution Plans of the Scheme Text by inserting additional provisions on the 'period of operation' and 'timing and priority for Development Contribution Plans 1, 4, 5, 6, 8 and 11 to align with the requirements of State Planning Policy 3.6, as follows (additional wording shown in **bold text**) –

Ref No:	DCA 1
Area:	Success North
Provisions:	All landowners within DCA 1 shall make a proportional contribution to the widening and upgrading of Hammond Road between Beeliar Drive and Bartram Road, Success.
	The proportional contribution is to be determined in accordance with the provisions of clause 5.3 and contained on the Development Contribution Plan.
	Contributions shall be made towards the following items:
	 Land reserved for Hammond Road under the Metropolitan Region Scheme;
	Full earthworks;
	 Construction of a two-lane road and where the reserve width is less than 40 metres wide, kerbing to the verge side of the carriageway shall be provided;
	Dual use path (one side only);
	 Pedestrian crossings (where appropriate at the discretion of the local government);
	Drainage;
	Costs to administer cost sharing arrangements – preliminary

	engineering design and costings, valuations, annual reviews and audits and administrative costs;
	Servicing infrastructure relocation where necessary.
Period of operation:	30 June 2033
Timing and priority:	The widening and upgrade of Hammond Road between Beeliar Drive and Bartram Road, Success, is to be completed within 1-3 years.
Participants and	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 1.

Ref No:	DCA 4
Area:	Yangebup West
Provisions:	All landowners within DCA 4 and DCA 5 with the exception of Lots 500 and 600 Shallcross Street and Lots 500 and 504 Storey Place within DCA 4 shall make a proportional contribution of 40.88% of the total cost of constructing Beeliar Drive between Stock Road and Spearwood Avenue.
	The proportional contribution is to be determined in accordance with the provisions of clause 5.3 and contained on the Development Contribution Plan.
	The contribution shall include the following: -
	 Land requirements for the Other Regional Road reservation between Watson Road and Spearwood Avenue under the MRS;
	• Land requirements for an average 45 metre wide road reserve between Watson Road and Stock Road and where necessary to accommodate channelisation at intersections and drainage;
	Full earthworks;
	Construction of a four lane median divided kerbed road;
	 Dual use path (both sides);
	 Pedestrian crossings (where appropriate at the discretion of the local government);
	Lighting;
	Landscaping;
	Traffic signals and roundabouts at major intersections;
	Drainage
	Costs to administer cost sharing arrangements including

preliminary engineering design and costings, valuations, annual reviews and audits and administration costs;
Servicing infrastructure relocation where necessary;
Costs for the repayment of any loans raised by the local authority for the purchase of any land for Beeliar Drive or for any of the abovementioned works.
30 June 2033
Construction of the infrastructure item has been completed.
In accordance with the Cost Contribution Schedule adopted

Ref No:	DCA 5
Area:	Yangebup East
Provisions:	All landowners within DCA 4 and DCA 5 with the exception of Lots 500 and 600 Shallcross Street and Lots 500 and 504 Storey Place within DCA 4 shall make a proportional contribution of 40.88% of the total cost of constructing Beeliar Drive between Stock Road and Spearwood Avenue and all landowners within DCA 5 south of Beeliar Drive shall make a proportional contribution of 30.65% of the cost of Spearwood Avenue between Beeliar Drive and Fancote Avenue and all landowners north of Beeliar Drive shall make a proportional contribution to 100% of the cost of closing Yangebup Road at the Railway Line.
	The proportional contribution is to be determined in accordance with the provisions of clause 5.3 and contained on the cost contribution schedule.
	Contributions shall be made towards the following items for Beeliar Drive:
	 Land requirements for the Other Regional Road reservation between Watson Road and Stock Road;
	 Land requirements for an average 45 metre wide road reserve between Watson Road and Stock Road and where necessary to accommodate channelisation at intersections and drainage;
	Full earthworks;
	Construction of a four lane median divided kerbed road;
	Dual use path (both sides);

	 Pedestrian crossings (where appropriate at the discretion of the local government);
	Lighting;
	Landscaping;
	• Traffic signals and roundabouts at major intersections;
	Drainage
	Costs to administer cost sharing arrangements including preliminary engineering design and costings, valuations, annual reviews and audits and administration costs;
	Servicing infrastructure relocation where necessary;
	Costs for the repayment of any loans raised by the local authority for the purchase of any land for Beeliar Drive or for any of the abovementioned works.
	Contributions shall be made towards the following items for Spearwood Avenue:
	 Land requirements for a 25 metre wide road reserve; Full earthworks;
	 Construction of a two lane kerbed road with channelisation at intersections;
	Dual use path (one side only);
	Traffic Management devices;
	Drainage;
	 Servicing infrastructure relocation where necessary;
	Costs to administer cost sharing arrangements including
	preliminary engineering design and costings, valuations, annual reviews and audits and administration costs.
Period of operation:	30 June 2033
Timing and priority:	Construction of all infrastructure items has been completed.
Participants and Contributions:	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 5.
Ref No:	DCA 6
Area:	Munster
Provisions:	All landowners within DCA6 shall make a proportional contribution to 23.4% of the cost of widening and upgrading of Beeliar Drive (Mayor Road) between Stock Road and Cockburn Road, Munster.

	The proportional contribution is to be determined in accordance with the provisions of clause 5.3 and contained on the Development Contribution Plan.
	Contributions shall be made towards the following items:
	Land requirements for the Other Regional Road reservation between Stock Road and Cockburn Road as reserved in the Metropolitan Region Scheme;
	Additional land where necessary to accommodate channelisation at intersections and drainage;
	Full earthworks;
	Construction of a two lane kerbed road;
	 Dual use path (both sides);
	 Pedestrian Crossings (where appropriate at the discretion of the local government);
	Lighting;
	Landscaping;
	Traffic management devices;
	Drainage;
	Servicing infrastructure relocation where necessary;
	Costs to administer cost sharing arrangements including preliminary engineering design and costings, valuations, annual reviews and audits.
	Costs for the repayment of any loans raised by the local government for the purchase of any land for the road reserve or any of the abovementioned works.
Period of operation:	30 June 2033
Timing and priority:	The widening and upgrade of Beeliar Drive (Mayor Road) between Stock Road and Cockburn Road, Munster, is to be delivered within 10 years.
Participants and contributions:	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 6.
Ref No:	DCA 8
Area:	Solomon Road
	Landowners within DCA 8 shall make a proportional
Provisions:	contribution to the cost of common infrastructure for the Solomon Road Arterial Drainage System.

Aroo:	Murial Court								
Ref No:	DCA 11								
Participants and contributions	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 8.								
Timing and priority:	The construction of drainage infrastructure and associated works for the Solomon Road Arterial Drainage System, Jandakot, is to be delivered within 10 years.								
Period of operation:	30 June 2033								
	 (a) Full earthworks; (b) Provision of drainage infrastructure; (c) Supply and boring of a pressure main under the Kwinana Freeway and works associated with the proposed pump station; (d) Servicing infrastructure relocation where necessary; (e) Landscaping works around the drainage basin; (f) Cost of land required for the Arterial Drainage basin; (g) Costs to administer cost sharing arrangements including preliminary engineering design and costings, valuations, annual reviews and audits and administration costs. 								
	Contributions shall be made towards the following items associated with the proposed Solomon Road Arterial Drainage System –								
	accordance with the provisions of Clause 5.3 of TPS 3 and contained on the Development Contribution Plan. The Council in its discretion may exclude properties from the DCA area which it deemed to have no development or subdivision potential.								

Ref No:	DCA 11							
Area:	Muriel Court							
Provisions:	All landowners within DCA 11 shall make contribution to land and infrastructure works required as part of the development of the Muriel Court Development Contribution Area.							
	With the exception of existing lots 3 and 21 Verna Court and Lots 52 and 150 Semple Court, the contribution is to be calculated on the potential number of dwellings that can be constructed on each lot or lots and calculated in accordance with the following:							
	 R20 lots – 450m² 							
	 R25 lots – 350m² 							
	• R40 lots – 220m ²							

	 R60 lots – 166m² 	
	 R80 lots – 125m² 	
	 R160 lots – calculated by dividing the lot area (m²) by 62.5 to give the number of dwellings. 	
	No contribution required in respect to land and lots required for public open space, drainage, the widening and extension of Muriel Court and Kentucky Court and the widening and realignment of Semple Court.	
	Contributions shall be made towards the following items by all landowners within DCA 11.	
	 Pro-rata contribution to the upgrading of North Lake Road between Kentucky Court and Semple Court including upgrading the existing carriageway, construction of the future carriageway, drainage, lighting, landscaping and service relocation where necessary. 	
	 The cost of land and works for the widening and realignment of Semple Court between Verna Court and North Lake Road as shown on the Muriel Court Structure Plan. The cost of works is the cost over and above that of providing a normal subdivision road with drainage, lighting, footpaths and parking embayments which will be a cost to the owners of the adjoining land. 	
	• The cost of land and works for the realignment of Semple Court shown on the Muriel Court Structure Plan between Berrigan Drive and Verna Court. Works are to include the cost of the carriageways, median landscaping, drainage, lighting and paths.	
	 Traffic management devices along realigned Semple Court and traffic lights at the intersection of Semple Court with Berrigan Drive and North Lake Road. 	
	 Modifications to existing Semple Court including closures and pavement modifications shown on the Muriel Court Structure Plan. 	
	 Cost of land and works for the realignment of Elderberry Drive between Berrigan Drive and Jindabyne Heights. 	
	• The cost of land and works for the widening of Muriel Court and Kentucky Court between realigned Semple Court and North Lake Road as shown on the Muriel Court Structure Plan. The cost of works is the cost over and above that of providing a normal subdivision road with drainage, lighting, footpaths and parking embayments which will be a cost to the owners of the adjoining land.	
	 Traffic management devices along Muriel Court and traffic lights at the intersection of Kentucky Court and 	

	Widening and realignment of Semple Court between
	Depending on the timing of subdivision and development within the area and where practical, the following infrastructure is to be delivered within 10 years:
	Traffic lights at Kentucky Court & North Lake Road intersection
priority.	Upgrading North Lake Road between Kentucky Court & Semple Court
Timing and priority:	Construction of infrastructure completed:
Period of operation:	30 June 2033
Denie di st	
	 Lot 3 Verna Court 7.6% of the total cost Lot 21 Verna Court 1.5% of the total cost
	Lot 52 Semple Court 1.25% of the total cost
	The following lots shall make a contribution to the cost to administer cost sharing arrangements of the DCA and a proportional contribution to the road and drainage works listed above unless rezoned to residential in which case all of the above requirements will apply.
	 Cost including fees and interest of any loans raised by the local government to undertake any of the works associated with DCA 11.
	• Costs to administer cost sharing arrangements of the DCA including detailed engineering design of drainage and roads the subject to the DCA provisions, cost estimates and schedules, valuations, annual reviews of land and works, audits and administrative costs.
	 Further detailed studies and design including design guidelines and engineering design of drainage and major roads.
	 Preliminary professional services including drainage, services, geotechnical, site contamination, traffic and planning.
	 Land and works for internal and off site groundwater control and drainage infrastructure including detention basins, gross pollutant traps, nutrient stripping and landscaping.
	 Provision of land for public open space area shown on the Muriel Court Structure Plan and the cost of landscaping and bushland/wetland restoration.
	North Lake Road.

		Verna Court & North Lake Road	
		 Widening and realignment of Semple Court between Berrigan Drive & Verna Court 	
		Traffic management devices – Muriel Court	
		 Public open space – Land, development & bushland/wetland Restoration 	
		Groundwater control & drainage infrastructure	
and	rticipants d htributions:	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 11.	
(2)	Developm	e Amendment is 'complex' under the provisions of the <i>Planning and</i> <i>ent (Local Planning Schemes) Regulations 2015</i> as it proposes to levelopment contribution plan.

Regulation 38 dvertising must not be less than a period of 60 days.	3

Background

The purpose of this report is for Council to consider initiating an amendment to Town Planning Scheme No. 3 (TPS 3) to introduce provisions for the 'period of operation' and 'priority and timing' of infrastructure delivery for several existing Development Contribution Plans (DCPs) operating under TPS 3.

There are 12 existing DCPs for development contributions towards infrastructure through the subdivision and development process.

The establishment and operation of a DCP is guided by State Planning Policy, and more recently the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations). Some of TPS 3's existing DCPs pre-date this framework.

A modified *State Planning Policy 3.6 – Infrastructure Contributions* (SPP 3.6) in April 2021 required DCPs without a lifespan or review period to be amended to include:

- 1. The anticipated lifespan (period of operation) of the DCP
- 2. The priority and timing for the delivery of infrastructure.

SPP 3.6 requires this within three years of the modified policy (i.e. by April 2024).

The following DCPs do not have a lifespan or review period:

- DCP 1 Success North
- DCP 4 Yangebup West
- DCP 5 Yangebup East
- DCP 6 Munster
- DCP 8 Solomon Road
- DCP 11 Muriel Court.

The provisions are based on guidance provided by SPP 3.6.

Submission

N/A

Report

A summary of the proposed amendment is provided below, with discussion on the key considerations.

	Summary of Proposed Amendment									
DCP No.	Period of Operation	Timing and Priority of Infrastructure Delivery								
DCP 1	30 June 2033	1-3 years								
DCP 4	30 June 2033	N/A – Construction of infrastructure has been completed								
DCP 5	30 June 2033	N/A – Construction of infrastructure has been completed								
DCP 6	30 June 2033	Within 10 years								
DCP 8	30 June 2033	Within 10 years								
DCP 11	30 June 2033	Depending on the timing of subdivision and development within the area and where practical, infrastructure is to be delivered within 10 years.								

Period of Operation (Lifespan)

A DCP is intended to operate for a limited time, or until the redevelopment process is complete, and the funded infrastructure is delivered.

The Regulations and SPP 3.6 require the timeframe for a DCP in the local planning scheme, and should the period of operation be extended, a scheme amendment is required.

SPP 3.6 recommends a maximum period of 10 years, however, notes that the selected timeframe should correspond with any related strategic, infrastructure and financial planning.

It should also reflect the anticipated growth rates and be some certainty the infrastructure items can be delivered within the timeframes.

The DCPs subject of this amendment pre-date the requirement to specify a period of operation.

They were intended to operate for as long as necessary until all the identified infrastructure is funded.

The areas subject of the DCPs are characterised by fragmented landownership and land constraints, which has slowed the rate of development and led to payment of contributions over an extended period.

This amendment proposes a period of operation to 30 June 2033, representing an approximate period of 10 years. This timeframe has been proposed based on the following:

- All DCP areas subject of this amendment contain lots that have yet to be developed and therefore contributions have not been paid by every landowner
- Whilst the extent of undeveloped land varies, it is considered unlikely that all contributions will be made in the short to medium term due to various constraints, requirements, and/or landowners' willingness or ability to develop
- Infrastructure funded through DCPs 1, 6, 8 and 11 is yet to be delivered
- A longer period of operation affords additional time for the delivery of infrastructure and/or the collection of contributions as development occurs over time
- The proposed timeframe aligns with SPP 3.6's recommended DCP maximum lifespan of 10 years.

If infrastructure has not been delivered and/or the required contributions paid at or near the end of the lifespan of a DCP, the City may seek to extend the period of operation through a further scheme amendment.

Priority and Timing of Infrastructure Delivery

A DCP needs to include a summary of the estimated timing and priority for the delivery of the infrastructure, which should align with the local government's long-term strategic planning.

The proposed priority and timing identified by this amendment reflect existing circumstances, specifically:

- A short timeframe of one to three years for DCP 1 as construction of the funded infrastructure, being the upgrade of Hammond Road, between Beeliar Drive and Bartram Road, commences this financial year
- Infrastructure funded by DCPs 4 and 5, which included construction of Beeliar Drive between Stock Road and Spearwood Avenue, has already been delivered
- A longer timeframe of up to 10 years is proposed for DCP 6, as the extension of Beeliar Drive, from Stock Road to Cockburn Road, is unlikely to be delivered in the short term due to the complexity of the project and other City-wide infrastructure priorities
- A longer timeframe of up to 10 years is proposed for DCP 8 as the drainage upgrades funded for the Solomon Road Arterial Drainage Scheme area are not urgent and the rate of development in the area has been slow with approximately 24 percent of contributions having been collected to date
- For DCP 11, whilst a longer timeframe of 10 years is proposed for infrastructure delivery, the priority and timing of that delivery is wholly dependent on the uptake of development in the area and is therefore beyond the City's control.

Irrespective, SPP 3.6 recognises flexibility is required when estimating the timing and delivery of infrastructure.

A DCP is subject to an annual review process that can identify changes to priority and timing of infrastructure delivery.

Notwithstanding, should significant changes be identified, it may be appropriate to adjust TPS 3 through a scheme amendment.

Amendment Type

The Regulations specify three different types of Scheme amendments, being 'basic', 'standard' and complex'. Clause 35(2) of the Regulations requires a resolution of the local government specifying the type of amendment and the reasons for the classification.

The proposed amendment is considered to be a 'complex' amendment on the basis that it proposes to amend a DCP.

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

N/A

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015
- City of Cockburn Town Planning Scheme No. 3
- State Planning Policy 3.6 Infrastructure Contributions

Community Consultation

As per Part 5 of the Regulations, there are three amendment types: basic, standard, and complex. These are defined in Part 5, Division 1, Regulation 34.

A 'complex' amendment (such as that proposed) requires consultation for a period of 60 days.

Risk Management Implications

Should Council resolve to not initiate this amendment, there is a risk that the Minister may, pursuant to clause 76 of the *Planning and Development Act 2005*, order the City to amend TPS 3 to comply with the requirements of SPP 3.6.

Should this occur, the City may lose the ability to influence the drafting of provisions for such an amendment.

It may also cause reputational damage to the City due to its failure to take requisite steps for having a satisfactory local planning scheme.

The introduction of a 'period of operation' for a DCP poses a risk that should insufficient contributions be collected prior to the expiry of the DCP, the WAPC may not support an extension to the lifespan of the DCP.

This may result in the City needing to make up for the shortfall through other funding sources.

The identification of the 'priority and timing' for infrastructure delivery establishes an expectation that the City will deliver funded infrastructure within the specified timeframes.

Whilst there are many factors influencing the City's ability to deliver capital works projects, there is a potential for reputational damage should the City's timing for delivery not align with TPS 3.

14.1.2 Initiation of Amendment No.157 (Omnibus Amendment) to Town Planning Scheme No.3

Responsible Executive	Chief of Built and Natural Environment
Author(s)	Strategic Planning Officer
Attachments	1. Draft Scheme Amendment No.157 Report 4

RECOMMENDATION

That Council:

- (1) AMENDS the City of Cockburn Town Planning Scheme No.3, pursuant to Section 75 of the *Planning and Development Act 2005*, by:
 - a. Modifying Table 1 Zoning Table of the Scheme Text to include 'Motor Vehicle Wash' as 'A' use in the Local Centre Zone.
 - b. Modifying Clause 4.9.2 (e) (Commercial and Industrial Uses Landscaping) of the Scheme Text to be re-worded to state 'There shall be not less than one (1) shade tree planted for every 10 linear metres of verge frontage or for every 50 square metres of the total landscaped area provided on the lot and within the street verge, whichever results in the greater number of trees'.
 - c. Modifying Clause 4.9.2 (f) (Commercial and Industrial Uses Landscaping) of the Scheme Text to be re-worded to state 'There shall be not less than one (1) shade tree planted in the car parking area for every three (3) side-by-side car parking spaces provided on the lot'.
 - d. Modifying Clause 4.10.1 (b) (Rural Uses) of the Scheme Text to be reworded to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be responsible for providing a potable water supply where it is proposed to use the land for the agistment of stock or for residential uses in the Rural Zone'.
 - e. Introducing Clause 4.10.1 (d) (Rural Uses) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Rural Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only'.
 - f. Introducing Clause 4.10.11 (f) (Resource Zone) to the Scheme Text to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be responsible for providing a potable water supply where it is proposed to use the land for the agistment of stock or for residential uses in the Resource Zone'.
 - g. Introducing Clause 4.10.11 (g) (Resource Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses and a potable water supply is not available, the landowner shall be responsible

for providing a rainwater storage tank with a minimum capacity of 90,000 litres in the Resource Zone'.

- h. Introducing Clause 4.10.11 (h) (Resource Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Resource Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only'.
- i. Introducing Clause 4.10.12 (k) (Rural Living Zone) to the Scheme Text to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be responsible for providing a potable water supply where it is proposed to use the land for the agistment of stock or for residential uses in the Rural Living Zone'.
- j. Introducing Clause 4.10.11 (I) (Rural Living Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses and a potable water supply is not available, the landowner shall be responsible for providing a rainwater storage tank with a minimum capacity of 90,000 litres in the Rural Living Zone'.
- k. Introducing Clause 4.10.12 (m) (Rural Living Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Rural Living Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only'.
- (2) NOTES the Amendment is 'standard' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it satisfies the following criteria of Part 5, Division 1, Regulation 34:
 - an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
 - an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
 - any other amendment that is not a complex or basic amendment.
- (3) REFERS the Amendment to the Environmental Protection Authority (EPA), pursuant to Section 81 of the *Planning and Development Act 2005*, by giving to the EPA written notice of this resolution and such written information about the amendment as is sufficient to enable the EPA to comply with Section 48A of the *Environmental Protection Act* 1986 in relation to the proposed scheme amendment.

(4) Subject to Sections 81 and 82 of the Planning and Development Act 2005, ADVERTISES the proposed Amendment pursuant to the details prescribed within Regulation 47 of the Planning and Development (Local Planning Schemes) Regulations 2015. Regulation 47 specifies advertising must not be less than a period of 42 days.

Background

Omnibus amendments to a planning scheme often cover diverse and sometimes unrelated issues. Most amendments to the City of Cockburn Town Planning Scheme No.3 (TPS3) deal with a specific subject or proposal.

Omnibus amendments are a positive practice to ensure our planning scheme is constantly improved.

This report relates to a proposed omnibus amendment (Amendment No 157).

The proposed changes have been identified through the application of the scheme in practice, recent planning enforcement cases, and where improvements to the existing provisions have been highlighted through development applications and conditions.

Submission

N/A

Report

The purpose of this amendment is to modify, correct and introduce various controls in the Scheme Text to improve its operation.

Proposed changes as part of this Amendment include:

- Improving landscaping requirements for car parking areas for commercial and industrial development as detailed at Clause 4.9.2 in the Scheme Text
- Modifying the land use permissibility classification for Motor Vehicle Wash in the Local Centre Zone from 'X' to 'A'.
- Clarifying the requirement for water supply for potable water for drinking water for residential uses and/or the agistment of the land for stock in the Rural, Resource and Rural Living Zones
- Introducing requirements for water supply solely for bushfire fighting purposes for land in Bushfire Prone Areas where the land is used and developed for residential uses in the Rural, Resource and Rural Living Zones.

Full details of the proposed changes to the TPS3, including justification and history, are included in the Proposed Amendment No.157 Report (refer Attachment 1).

Amendment No.157 is to be progressed and considered as a standard amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations* 2015 for the following reasons:

It is an amendment to the local planning scheme that:

- would have minimal impact on land in the scheme area that is not the subject of the amendment;
- does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
- would not constitute a complex or basic amendment as defined in the regulations.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• A City that is 'easy to do business with'.

City Growth & Moving Around

A growing City that is easy to move around and provides great places to live. • An attractive, socially connected and diverse built environment.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

Best practice Governance, partnerships and value for money.

Budget/Financial Implications

N/A

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015

Community Consultation

Under Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, there are three amendment types: basic, standard and complex.

Amendment No.157 is considered a standard amendment, therefore, formal advertising is required for a minimum of 42 days in accordance with Part 5, Regulation 47 of the *Planning and Development (Local Planning Schemes) Regulations 2015.*

Risk Management Implications

Omnibus amendments are a positive practice to ensure our planning scheme is constantly improved.

Without this, the City risks a planning scheme which does not reflect best planning practices, current State policy direction, achieve desired outcomes or becomes difficult to enforce.

Planning and Development Act 2005 RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn Town Planning Scheme No.3 Amendment No.157

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No.3 by:

- 1. Modifying Table 1 Zoning Table of the Scheme Text to reflect an 'A' use for a 'Motor Vehicle Wash' in the Local Centre Zone.
- 2. Modifying Clause 4.9.2 (e) (Commercial and Industrial Uses Landscaping) of the Scheme Text to be re-worded to state 'There shall be not less than one (1) shade tree planted for every 10 linear metres of verge frontage or not less than one for every 50 square metres of the total landscaped area provided on the lot and within the street verge, whichever results in the greater number of trees'.
- Modifying Clause 4.9.2 (f) (Commercial and Industrial Uses Landscaping) of the Scheme Text to be re-worded to state 'There shall be not less than one (1) shade tree planted in the car parking area for every three (3) side-by-side car parking spaces provided on the lot'.
- 4. Modifying Clause 4.10.1 (b) (Rural Uses) of the Scheme Text to be re-worded to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be **responsible** for providing a **potable water supply** where it is proposed to use the land for the agistment of stock or for residential uses in the Rural Zone'.
- 5. Introducing Clause 4.10.1 (d) (Rural Uses) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Rural Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only'.
- 6. Introducing Clause 4.10.11 (f) (Resource Zone) to the Scheme Text to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be **responsible** for providing a **potable water supply** where it is proposed to use the land for the agistment of stock or for residential uses in the Resource Zone'.
- 7. Introducing Clause 4.10.11 (g) (Resource Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses and a potable water supply is not available, the landowner shall be responsible for providing a rainwater storage tank with a minimum capacity of 90,000 litres in the Resource Zone'.

- 8. Introducing Clause 4.10.11 (h) (Resource Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Resource Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only'.
- 9. Introducing Clause 4.10.12 (k) (Rural Living Zone) to the Scheme Text to state 'Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be **responsible** for providing a **potable water supply** where it is proposed to use the land for the agistment of stock or for residential uses in the Rural Living Zone'.
- 10. Introducing Clause 4.10.11 (I) (Rural Living Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses and a potable water supply is not available, the landowner shall be responsible for providing a rainwater storage tank with a minimum capacity of 90,000 litres in the Rural Living Zone'.
- 11. Introducing Clause 4.10.12 (m) (Rural Living Zone) to the Scheme Text to state 'Where it is proposed to use the land for residential uses in the Rural Living Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a **separate water storage tank** (constructed in accordance with the technical requirements of the *Guidelines for Planning in Bushfire Prone Areas*), with a minimum capacity of 10,000 litres per habitable building to be used **for firefighting purposes only**'.

The Amendment is standard under the provisions of the *Planning and Development* (*Local Planning Schemes*) *Regulations* 2015 for the following reason(s):

It is an amendment to the local planning scheme that:

- would have minimal impact on land in the scheme area that is not the subject of the amendment;
- does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
- would not constitute a complex or basic amendment as defined in Part 5 Division 1 Regulation 34.

Dated this ______ day of _____ 20___

(Chief Executive Officer)

AMENDMENT REPORT

1.0 INTRODUCTION

The purpose of this standard amendment is to:

- Improve the requirement for landscaping in car parking areas detailed at Clause 4.9.2 in the Scheme Text for commercial and industrial development;
- Modify the land use permissibility classification for Motor Vehicle Wash in the Local Centre Zone from an 'X' (not permitted) to an 'A' (discretionary after advertising) use;
- Clarify the requirement for water supply (water tanks) for potable water and for firefighting purposes for residential development in the Rural, Resource and Rural Living Zones.

Full details of the proposed changes to the TPS3, including justification and history are included throughout this report.

2.0 BACKGROUND

The most recent Omnibus Scheme Amendment that the City undertook, Amendment No.154 (gazetted on 15 July 2022), made a number of minor changes to the Scheme Text and corrected zone mapping anomalies.

Initiated and processed in parallel, Amendment No.155 (gazetted 13 May 2022), also made minor Scheme Text changes that brought the provisions relating to the 'Resource' Zone into alignment with *State Planning Policy 2.3 – Jandakot Groundwater Protection*.

This Scheme Amendment proposes further changes that were not identified or had not been fully considered through the preparation of the above Amendments.

They have been identified through the daily use of the Scheme by City's planning officers, recent planning enforcement cases, and/or where the need for improvements to the existing Scheme provisions have been highlighted through development applications and conditions.

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes) Regulations 2015,* identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This amendment is considered to be a 'standard' amendment, which Regulation 34 describes as:

standard amendment means any of the following amendments to a local planning scheme —

- (a) an amendment relating to a zone or reserve that is consistent with the objectives identified in the scheme for that zone or reserve;
- (b) an amendment that is consistent with a local planning strategy for the scheme that has been endorsed by the Commission;
- (c) an amendment to the scheme so that it is consistent with a region planning scheme that applies to the scheme area, other than an amendment that is a basic amendment;
- (d) an amendment to the scheme map that is consistent with a structure plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme does not currently include zones of all the types that are outlined in the plan;
- (e) an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
- (f) an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area;
- (g) any other amendment that is not a complex or basic amendment.

This proposed amendment satisfies parts (e), (f) and (g) of the above criteria.

4.0 TOWN PLANNING CONTEXT

4.2 State Planning Framework

This amendment does not propose any changes to Town Planning Scheme No.3 (TPS3) which would contravene or be inconsistent with the State Planning Framework or Metropolitan Region Scheme (MRS). State Planning Framework documents of relevance, as referenced in section 5.0 of this report, include:

- State Planning Policy 2.5 Rural Planning
- DRAFT State Planning Policy 2.9 Planning for Water
- State Planning Policy 3.0 Urban Growth and Settlement
- State Planning Policy 3.7 Planning in Bushfire Prone Areas
- Guidelines for Planning for Bushfire Prone Areas
- State Planning Policy 4.2 Activity Centres for Perth and Peel
- State Planning Policy 7.0 Design of the Built Environment

4.1 City of Cockburn Local Planning and Environmental Framework

City documents are of relevance to the changes proposed by this amendment, as referenced in section 5.0 of this report, include:

- Strategic Community Plan (2020 2030)
- Climate Change Strategy (2020 2030)
- Urban Forrest Plan (2018 2028)
- Local Planning Policy 3.9 Industrial Development
- Local Planning Policy 5.9 Rainwater Tanks and Renewable Energy System
- Local Planning Policy 5.18 Subdivision and Development Street Trees
- Commercial Lot Development Good Practice Guide (2013)

5.0 PROPOSAL

Proposal 1

Proposal 1 seeks to change the land use permissibility of 'Motor Vehicle Wash' from an 'X' (*not permitted*) to an 'A' (*not permitted unless the local government has exercised its discretion and has granted planning approval after advertising the proposal in accordance with Clause 64(3) of the deemed provisions*) use within the Local Centre Zone within the TPS3.

Such an outcome would be consistent with the Council's resolution to accommodate a Motor Vehicle Wash land use via TPS3 Amendment No.153 for Berrigan Quarter, and Amendment No.5 to the Cell 6 Yangebup / Beeliar Local Structure Plan for the Beeliar Hive Shopping Centre. It would also be consistent with the permissibility that relates to Service Stations on Local Centre zoned land.

The proposed change does not mean that the use is suitable or will be recommended or approved on all Local Centre zoned land but will provide the flexibility for it to be more readily considered in appropriate locations across the broad spectrum of Local Centre zoned properties that currently exist within the City.

Should the amendment be successful, a Local Planning Policy will be prepared (for Council's future consideration) to help guide applicants and decision makers in considering appropriate locations and the information required to accompany such proposals.

For example, the use is unlikely to be considered suitable within immediate proximity to residential use and is expected to trigger the requirement for a Traffic Impact Statement, Acoustic Report / Noise Management Plan and/or an Operation Management Plan, that will be advertised for public comment prior to determination.

Proposals 2-3

Current TPS3 development standards are not achieving the expected and desired landscaping outcomes on verges and in car parking areas for commercial and industrial development throughout the City. Proposals 2 and 3 seek to improve these outcomes.

Specifically, Clause 4.9.2 (e), which currently requires one shade tree to be planted for every 50 square metres of total landscaped area (on the lot and within the street verge), is overly simplistic and fails to adequately address scenarios such as narrow verge and/or garden bed depths that often apply in commercial and industrial development sites.

Similarly, Clause 4.9.2 (f), which currently requires only one shade tree to be planted for every 10 car parking spaces, often results in shade tree spacings (trunk to trunk) of up to 25m. This fails to adequately shade expansive paved areas or cars that park on them for extended periods, thereby doing little to improve employee/customer comfort and exacerbates problems associated with the local urban heat island effect.

As landscaping in commercial and industrial areas is largely limited to within or adjacent public verges or involves the provision of shade trees for consolidated car parking areas, a more practical and easily understood arrangement would be to specify tree requirements based on the linear lot width to a public reserve, and spacing between a specific number of adjoining car parking bays, as per the recommended modifications outlined in the table below:

		Tracked changes	Reason for proposed change		
⊃ropo:	sals 2-	3			
1.9.2	Lands	scaping	Update clause 4.9.2 (e) and (f):		
	a)	A minimum on-site provision of ten percent (10%) of the total area of the lot or of a defined portion of the lot, the subject of an Application for Planning Approval, shall be set aside, developed and maintained as a landscaped area.	To improve worker and customer comfort and reduce the urban heat island affect, consistent with the climate change objectives of the City's:		
	b)	Despite <i>clause 4.9.2 a)</i> the local government may reduce the minimum on-site provision to not less than five percent (5%) of the total area of the lot to be set aside, developed and maintained as a landscaped area where the owner agrees in writing either as part of the Application for Planning Approval or separately that all of the street verge abutting the lot shall be included in the landscape area in accordance with <i>clause 4.9.2 c</i>).	 Strategic Community Plan (2020-2030); Climate Change Strategy (2020-2030); & Urban Forrest Plan (2018- 2028). To improve the landscaping outcome on commercial and 		
	c)	Where the street verge is included in the landscaped area it shall be developed and maintained by the owner as an integral part of the on-site provision referred to in <i>clause 4.9.2 b</i>).	industrial zoned land consistent with the Landscape Quality, sustainability and Amenity design principles set out in:		
	d)	The landscaped area provided on the lot shall have a minimum width of not less than 1.5 metres and distributed in areas of not less than 4.0 square metres .	• State Planning Policy 7.0 – Design of the Built Environment.		
	e)	There shall be not less than one (1) shade tree planted for every <u>10 linear metres of frontage to a public</u> reserve, or not less than one for every 50 square metres of the total landscaped area provided on the lot and within the street verge, whichever results in the greater number of trees.	 To improve consistency with the standards set out in the City's: Local Planning Policy 3.9 – Industrial Development; Local Planning Policy 5.18 – Subdivision and Development – Street Trees); & 		
f	f)	There shall be not less than one (1) shade tree planted in the car parking area for every <u>three (3) side-by-side</u> 10-car parking spaces provided on the lot.	Commercial Lot Development Good Practice Guide (20		
	g)	The landscaping is to be confined to the area of the lot between the building or the use of the land and the boundaries of the lot adjoining the public road reserve, or other public reserve, unless the local government agrees otherwise in any special circumstance.			

Proposals 4-11

Proposals 4-11 seek to clarify the requirements for water tanks for both potable and fire-fighting purposes within the Rural, Resource and Rural Living Zones.

Recent legal advice obtained by the City has cast doubt over its ability to rely on Clauses 4.10.1 (b) and (c) to require that a potable water tank be provided for residential uses / dwellings located in the Resource and Rural Living Zones that aren't capable of connection to a reticulated water supply. To ensure enforceable measures are included within the Scheme it has been recommended that Clause 4.10.1 (b) be adjusted to specify application to the Rural zone and additional provisions be specifically inserted into Clauses 4.10.11 (Resource Zone) and

4.10.12 (Rural Living Zone) mandating the requirement for a 90,000 litre rainwater tank for any residential use within those zones.

This change also ensures compliance with the City of Cockburn Heath Local Laws 2000, Division 3 which carries penalties if found to be in contravention.

In reviewing the change, it was further identified that in the Explanatory Notes relating to Element 4: Water of the latest *Guidelines for Planning in Bushfire Prone Areas (Version 1.4 – December 2021)*, the use of a combined tank for drinking and fire-fighting purposes is no longer recommended.

Separation in accordance with section 4.2.3 of AS/NZS 3500.1:2018 is necessary, as stagnant water may alter the quality of the drinking water and the emergency services, by law, may not be able to take water from the water supply to suppress a bushfire. The use of household potable drinking water for firefighting purposes is prohibited under the *Bushfires Act 1954*.

To address this limitation and reflect latest best practice, it is proposed that an additional clause inserted to require the provision of a separate water tank with a minimum capacity of 10,000 litres per habitable building, specifically for fire-fighting purposes.

To avoid any uncertainty identically worded provisions are also proposed for the Resource and Rural Living zones as per the recommended modifications outlined in the table below:

	Tracked changes Reason for proposed change		
Proposals 4	-5		
4.10 Rural	Uses	Update clause 4.10.1 (b):	
	Water Supply The use and development of land within the Rural Zone shall be in accordance with the provisions of The Statement of Planning Policy No. 2.5 – Agricultural and Rural Land Use Planning.	To clarify the requirements for potable water tanks in the Rural Zone where a reticulated water supply is not available, consistent with the principles and requirements of:	
b)	Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be responsible for providing a potable water supply where it is proposed to use the land for the agistment of stock or for residential <u>purposesuses in the Rural</u> <u>Zone</u> . 	f)	A person shall not clear or cause, permit or suffer to be cleared any existing vegetation nearer to a boundary of a Lot than the minimum Building Setback distances referred to in clause 4.10.2 d) and 4.10.2 e) from any road reserve except for the construction of a vehicular accessway and for the purpose of complying with the requirements of the Bush Fires Act.	 State Planning Policy 3.7 - Planning in Bushfire Prone Areas; & Guidelines for Planning in Bushfire Prone Areas.
	g)	The local government, in considering any application for planning approval to clear existing vegetation outside the building envelope on any Land shall have regard to the effects of the proposed clearing on erosion, water quality and other elements of the physical environment and may refer such applications to the Department of Water and Environmental Regulation or the Department of Primary Industries and Regional Development or both for investigation and recommendation, and shall have due regard to those recommendations in its determination of the application for planning approval.	
	h)	The local government may, by notice served upon any Owner or occupier of Land to require the preservation of specified trees or groups of trees whether located within or outside the building envelope and thereafter no Owner or occupier shall cut remove or otherwise destroy or cause or suffer to be cut removed or otherwise destroyed any tree or trees so specified unless the local government rescinds the requirement.	
	i)	The local government may by notice served upon any Owner or occupier of Land to require that person within the time limited by the notice to plant trees on that Land where in the opinion of the local government the land has been degraded, neglected or allowed to erode to the extent that the condition of the land detracts from the amenity of the locality.	
	j)	The erection of buildings and structures shall be of a design and scale and built of materials which will result in the buildings and structures being, in the opinion of the local government, in harmony with the natural environment or rural surroundings in which they are situated.	

Tracked changes	Reason for proposed change
k) Where reticulated water supply is not provided to a lot the landowner, or the subdivider shall be responsible for providing a potable water supply where it is proposed to use the land for the agistment of stock or for residential uses in the Rural Living Zone.	
I) Where it is proposed to use the land for residential uses and a potable water supply is not available, the landowner shall be responsible for providing a rainwater storage tank for drinking water purposes only with a minimum capacity of 90,000 litres in the Rural Living Zone.	
m) Where it is proposed to use the land for residential uses in the Rural Living Zone and the land is in a Bushfire Prone Area, the landowner shall be responsible for providing a separate water storage tank (constructed in accordance with the technical requirements of the Guidelines for Planning in Bushfire Prone Areas), with a minimum capacity of 10,000 litres per habitable building to be used for firefighting purposes only.	

5.0 CONCLUSION

The proposed amendment will provide for corrected and improved planning controls for specific land use and development throughout the City as detailed in the report.

ADOPTION

14.1.3 Global Advanced Industry Hub - Proposed Collaboration on Strategic Intent and Statutory Planning Controls

Responsible Executive	Chief of Built and Natural Environment	
Author	Senior Strategic Planner	
Attachments	 Global Advanced Industries Hub - Draft Memorandum of Understanding J 	
	 Global Advanced Industries Hub - Planning Strategy and Scheme Proposal <u>J</u> 	

RECOMMENDATION

That Council:

- (1) AUTHORISES the Mayor to endorse the Memorandum of Understanding as set out in Attachment 1, with minor amendments as required by other parties, subject to:
 - 1. Clarification of the study area boundary to exclude land indicated in the City of Cockburn draft local planning strategy as Rural, Rural Living, part of the existing urban footprint or subject to any of the Planning Area's as identified in the draft local planning strategy map.

Background

The Western Australian Planning Commission (WAPC), together with the Minister for State Development, has been working with the Cities of Rockingham, Kwinana and Cockburn to prepare a Memorandum of Understanding (MoU) regarding the Global Advanced Industries Hub (GAIH).

This proposal is part of the State Government's plan to promote and coordinate industrial development in the area in anticipation of substantial investment expected over the coming decades.

Submission

The stated purpose of the MoU is:

"To work towards a more harmonious statutory approval framework across the Global Advanced Industry Hub (GAIH), with consistent approaches to planning and development proposals within the region. This will enhance this period of growth, simplify administration of the area, improve user experience, and work towards better and more consistent outcomes."

A copy of the draft MoU is provided (refer Attachment 1).

A second document, the *Planning Strategy and Scheme Proposal*, is also provided (refer Attachment 2).

42 of 610

This document details of the work to be undertaken should the MoU be endorsed by all three Councils.

Submission

N/A

Report

Project Background

Figure 1 – Planning regions of the Global Advanced Industries Hub

The GAIH is the State Government's name for the coastal industrial areas of Cockburn, Kwinana and Rockingham.

Previously this area was known as the Western Trade Coast.

The figure above has not been produced by the City of Cockburn and indicates areas of contention, such as parts of Hammond Park and Lake Coogee.

It also indicates parts of the City's Rural zones which are not part of the employment areas.

To ensure all parties are clear what areas are not part of this proposal, clarification of the study area is needed. Part (1)1 of the recommendation seeks to address this.

In December 2021 the State Government formed a taskforce to help drive economic investment and development in the area, noting the existing industrial and naval manufacturing capabilities, emerging green energy industries and the future container port.

The CEOs of the three local governments sit on this taskforce, along with key State/industry representatives and the Minister for State Development, Jobs and Trade, Roger Cook.

One area the taskforce is investigating is an alignment of planning controls across the three local governments.

The concern is with three local governments and a redevelopment area managed by Development WA (Latitude 32), the planning controls vary widely, and has detrimental impacts on overall development and ease of doing business in the area.

To this end, an MoU is presented for Council's endorsement (refer Attachment 1).

The MoU sets out the principles and process for the three local governments to work collaboratively to consider amending their planning schemes and policies to create a consistent planning framework.

Need for Planning Control Alignment

The three local governments currently have separate planning schemes with little consistency.

There is also the Hope Valley Wattleup Masterplan, which functions in the same manner as a local planning scheme in the redevelopment area known as Latitude 32.

Combined, there are at least 12 zones, numerous reserves and complex planning areas including the Australian Maritime Complex (AMC), Latitude 32 (Hope Valley Wattleup Act) and Mandogalup Improvement Plan Area 47 (IP47).

While each separate area is relatively well planned, there is little cohesion between the areas given they have been developed at different points in time.

44 of 610

This lack of coordination can create significant confusion for businesses.

It is difficult for businesses to know which sites are best suited to their needs and makes 'approval shopping' possible where investors may propose to develop in multiple Council areas with the hope of gaining more favourable approvals.

This type of behaviour undermines the objectives of orderly planning and increases the likelihood of poor long-term outcomes.

Benefits and Risks

The potential benefits of participating in this project are:

- Making the industrial area more competitive locally and internationally due to ease of doing business
- Enhancing cooperation between the three Councils and State Government, building capacity to work together
- Focussing State Government attention on the area
- If successful, may invite further funding to develop strategic planning across the industrial area to ensure long-term needs are met.

Whilst generally supportive of the initiative, the City has previously raised a number of potential concerns with the proposal, including:

- Proper articulation and understanding of the problem this approach is seeking to solve, before forming up solutions
- The likely difficulties in achieving a one-size-fits-all approach to planning across the area, given the range of industries involved
- The need to involve Development WA. As Latitude 32 contains the largest area of undeveloped industrial land, this will significantly reduce the benefits of aligning planning controls
- The project aims to achieve 'quick wins' in aligning planning schemes and policies ahead of preparing a strategic vision. As a result, some of the 'quick wins' changes may need to be revisited should more detailed strategic planning follow
- Long-standing disagreements over the use of buffers to protect industry have not been resolved (in particular the potential inclusion of buffer areas encompassing land around Lake Coogee and Hammond Park – refer Figure 1). Clarity is suggested in Part (1) 1 of the recommendation to ensure all parties are clear what is excluded from this proposal.

Strategic Planning

The 2012 Economic and Employment Lands Strategy: non heavy industrial (EELS) represents the State Government's response to an identified shortage of supply of light and general industrial land.

The aim of the Strategy is to ensure that adequate forward planning is undertaken to provide employment land in both the Perth metropolitan and Peel regions over the next 20 years and beyond.

The provision of sufficient industrial land was also part of the scope of the 2018 Perth and Peel @ 3.5M strategic planning framework.

These strategies are high level in nature and do not address the localised issues described briefly in this proposal.

Each Council is required to have a Local Planning Strategy for their local government area, but there is no broader work that looks at the GAIH across those boundaries and considers implementation matters.

Process and Deliverables

The attached document *Global Advance Industries Hub: Planning Strategy and Scheme Proposal* (refer Attachment 2) sets out the proposed schedule of works and deliverables.

A staged approach is intended which ensures the longer-term items can respond to the initial scope of works covered by the \$200,000 budget, which is:

Strategic Review

- Review all relevant schemes and strategies, highlighting the collective vision for the area
- Identify key short-term opportunities to be explored that will add benefit to the region
- Identify further opportunities that require longer term resolution to consider at later stages.

Short-Term Actions

- The identified quick wins from the Strategic Review will be considered to bring greater alignment to the planning frameworks across the three local governments, along with identified policy standards and potential conditions, where appropriate, by reviewing each local government, best practice examples and identifying the preferred way forward
- Prepare any necessary amendments or policy documentation as templates each local government can consider.

The timeframe for the above is 24 months (half would involve the consideration period for any scheme amendments or policy changes).

46 of 610

Obligations on Councils

The recommended amendments to planning schemes and local planning policies will be presented to each Council to consider independently.

While there is no legal obligation to agree to the amendments, the expectation is that the local governments will use their best efforts to implement a single approach.

In the event of a dispute about the most appropriate way forward, the three local governments could meet with the Chair of the WAPC for guidance.

Consideration by Kwinana and Rockingham Councils

The City of Kwinana considered this item at its Ordinary Council Meeting on 28 September 2022.

The City of Rockingham considered the item at Committee held 17 October and was endorsed at the Ordinary Council Meeting on 25 October 2022.

Included in both determinations was the ability to accept minor amendments to the MoU.

This is primarily to allow for different signatories to the document as required by each party.

It would also allow minor changes to the content however neither has proposed changes.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• A City that is 'easy to do business with'.

• Increased Investment, economic growth and local employment.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The Western Australian Planning Commission will fund and manage the project, with an estimated budget of \$200,000 provided over 24 months.

The funding will allow for employment of a consultant to devise the recommended planning standards and policies to adopt across the region.

It is hoped that, if successful, this will lead to further funding to undertake the more difficult strategic alignment.

No direct funds are required from Council however some staff time will be needed to support the project. This draws City staff away from their regulatory functions and existing project work.

With vacancies in both the strategic and statutory planning teams, this has an impact and the amount of staff time involved will be closely managed.

Once the project is complete, staff time and a small amount of direct financial costs will be needed to undertake any Scheme and policy amendments.

This will not occur until the 2023-24 financial year at earliest and Council will be asked to determine whether to proceed at this point.

Legal Implications

An MoU is not legally binding.

Community Consultation

N/A

Risk Management Implications

Some risk:

- If the study area is not clarified there is potential to cause further confusion and uncertainty to landowners adjacent to, but outside of the employment areas. Several of these are highlighted in other documents such as Perth and Peel @ 3.5 M or the City's draft Local Planning Strategy
- Potential reputational risk with the WAPC and other participating Councils should the City determine not to participate in this project
- Potential for project to not achieve goals given the complexity of industrial needs across the area and the lack of involvement from Development WA (Latitude 32).

The working group for the MoU has found some differences in approach and aims that need to be addressed.

These differences are outweighed by the potential benefits. Overall, the identified risks are considered manageable.

Advice to Proponent(s)/Submitters

GLOBAL ADVANCED INDUSTRIES HUB

MEMORANDUM OF UNDERSTANDING

BETWEEN

MINISTER FOR STATE DEVELOPMENT

WESTERN AUSTRALIAN PLANNING COMMISSION

CITY OF KWINANA

CITY OF ROCKINGHAM

and

CITY OF COCKBURN

Global Advanced Industries Hub Memorandum of Understanding

PARTIES

The parties to this Memorandum of Understanding (MOU) are:

The Minister for State Development (State)

The Western Australian Planning Commission (WAPC)

The City of Kwinana (Kwinana);

The City of Rockingham (Rockingham); and

The City of Cockburn (Cockburn)

(together the parties)

BACKGROUND

The State has committed to positioning the Western Trade Coast as a Global Advanced Industries Hub (GAIH), and as an investment and trade destination for new and emerging industries.

The Western Trade Coast is a major industrial complex in Perth's south metropolitan area covering 3,900 hectares between Munster and Rockingham. It includes, amongst other things, the Australian Marine Complex, Kwinana Industrial Area, Rockingham Industry Zone and Latitude 32.

The region is home to a range of strategic and advanced industries, including existing critical minerals processing, chemical manufacturing, energy generation and most recently, large-scale ammonia and hydrogen production and export.

The region will become even more significant with the progress of Westport, Western Australia's new container port at Kwinana. Westport will unlock further industrial development, technology innovation and local jobs – linked directly to our export markets.

Combined, the Kwinana, Rockingham and Cockburn areas contribute \$20 billion to the State's GDP and support more than 13,000 jobs. Over the coming decades, the region will be a major focus of industrial development, with unprecedented investment in the areas of defence, port construction, lithium processing and ship-building.

TERM

This MoU between the parties will be for a term of five (5) years commencing on the date when the last party to sign, signs this MoU.

PURPOSE

To work toward a more harmonious statutory approval framework across the GAIH, with consistent approaches to planning and development proposals within the region. This will enhance this period of growth, simplify the administration of the area, improve user experience, and work toward better and more consistent outcomes.

The parties acknowledge that the provisions of this MoU are not intended to create binding legal obligations between them.

UNDERTAKINGS

Kwinana, Rockingham and Cockburn

The three local governments will work collaboratively with a consultant to identify the best practice approach to the statutory mechanisms and will:

- review planning frameworks;
- identify and implement "quick win" outcomes to align statutory provisions;
- participate as key partners in the strategic planning of the region; and
- undertake further improvements to the harmonisation of the statutory administration of the GAIH, as informed by the strategic planning for the region.

State

The State Government will:

- support the work of the local governments through supporting funding; and
- work collaboratively with the local governments to plan and promote the region.

WAPC

The WAPC will:

- assist with the provision of professional advice; and
- support the progression of changes to statutory planning instruments in a timely manner.

DESIRED OUTCOME

The parties will work constructively towards the unified planning goal. Notwithstanding the individual roles of the local governments in initiating changes to their planning schemes, the local government parties will present all recommended modifications to create a single approach to their respective elected members for consideration in a timely manner. In the event that the parties cannot agree on what constitutes best practice in a particular circumstance, the parties will be guided by the advice of the Chair of the WAPC.

GOVERNANCE

Project Sponsor – Chairman WAPC

Steering Group

The steering group will manage the appointment of the consultant and measure progress of the project across agreed outcomes.

The Working Group will meet regularly with the consultant to determine the practical changes that can be implemented across the statutory planning and policy framework.

Global Advanced Industries Hub: Planning Strategy and Scheme Proposal

August 2022

Introduction

The Global Advanced Industries Hub stretches for 15km along Perth's south-western coastline, encompassing three separate local authorities and a range of planning controls.

The State Government is committed to relocating Perth's container port to Kwinana, as well as growing the State's naval construction capability and developing the battery industry in the region.

The region in host to a range of unique industrial sites with operations from numerous multinational corporations. Decisions to come to the region are often based on global economic trends, making the investment decisions comparisons of a range of international options. Therefore, it is important that the region is internationally competitive for potential investors across a range of areas, including planning controls.

Subject Area

The Global Advanced Industries Hub encompasses approximately 3900 hectares and includes the Australian Marine Complex, Latitude 32, Kwinana Industrial Area and Rockingham Industry Zone. The region contributes \$20 billion to the WA economy every year and employs 13,000 people directly.

While the area may present to investors as a single precinct, there is a complex arrangement of planning and tenure controls, which could be streamlined to simplify the approval processes.

Objectives

This proposal seeks to find quick win opportunities to help remove the variances between the various planning authorities and find ways of improving industrial planning in the region with the following objectives:

- > Single unifying vision for the Global Advanced Industries Hub
- Working towards the development of a coordinated strategic plan to guide the development of the area
- > Consistent approach to the planning of the area
- > Determine applications efficiently and promptly
- > Simplify planning approaches for Industry

History

In 2010, the State Government lead the development of the Western Trade Coast Spatial Plan. The Land Use Strategy Outcome (figure 1) could serve as the basis for a review of the current strategic objectives of the area. It is noted that the then Western Trade Coast Industries Committee actions were to "promote consistency between Local Governments" as well as other planning jurisdictions. With the area becoming more contested, this objective appears to be more relevant than ever.

Figure 1 Western Trade Coast Land Use Strategy Concept (2010)

Figure 2 Planning Regions of Global Advanced Industries Hub

Current Regulatory Framework

The Subject Area is the subject of the following zones and reservations:

City of Cockburn

Strategic Industry Light and Service Industry Development zone Special Use zone Rural Rural Living Public Purpose Parks and Recreation

City of Kwinana

General Industry Service Commercial Rural A Rural B

City of Rockingham

General Industry Special Industry Light Industry Special Use zone

In addition to this, there are a range of Metropolitan Region Scheme, Local Planning Scheme reserves and Improvement Plans as well as the Hope Valley Wattleup Redevelopment Act area (where the local planning schemes do not apply)

There is a lack of consistency with regard to zone names, definitions, permissibility of land uses, development standards and processing methods. As an applicant, this can cause confusion as permissibility and development standards can change across what is a conceived by the applicant as a single development area. Equally, developers may currently choose to "shop around" for more lenient planning approvals, where the authorities should be focussed on good planning outcomes only. While adoption of model scheme provisions

may simplify land use and zone names in due course, the development standards will not necessarily become aligned over time without purposeful intervention.

With the Hope Valley Wattleup Redevelopment Act (Latitude 32) and Improvement Area 47 (IP47) areas being controlled by the State, at some point in the future this land will need to be normalised into a scheme. By creating a series of planning instruments that anticipate this normalisation, the local governments can ensure that this can occur with minimal disruption for land owners and developers. Opportunity to bring consistencies into the Latitude 32 planning framework can also be considered as part of this body of work.

Strategic Framework

Each local government is currently progressing its strategic framework for their collective areas. While this entails the industrial areas, the planning strategies cover a more extensive area of each local authority.

The City of Cockburn is about to advertise their new Local Planning Strategy, having received consent from the WAPC. Similarly, the City of Kwinana has undertaken preliminary consultation for the City's draft Local Planning Strategy and is awaiting consent to advertise.

The City of Rockingham has undertaken significant community consultation in preparation of drafting a new Local Planning Strategy and have undertaken regular reviews of the industrial provision of their scheme to ensure it remains contemporary.

While all three local governments recognise the importance of the region to the State's economy, there remains no single agreed vision or framework for the region.

The second part of the scope would facilitate further studies and development of a joint planning strategy for the area to identify key advantages, protect environmental features and coordinate the orderly planning of the region. The plan would build upon the geographical advantages that the area has and allow for the coordinated planning the development of the new container port, expanded AMC operations and demand for industrial land. The plan would further address the need for further investigation of the optimum interface between the industrial and urban land uses. The development of the strategic plan would complement the spatial planning work completed by the Perth South West Metropolitan Alliance, but offer greater detail regarding spatial requirements and implementation.

Air Quality Buffer

There is currently significant debate about the appropriate planning controls and location for the air quality buffer that extends around the industrial area. This is a highly contested and immensely complex issue and it is not the purpose of this body of work to address where the buffer should extend in the short term. This issue may be recommended for further exploration as part of a longer term and more detailed study of the strategic planning needs of the region.

Statutory Framework

One of the objectives of the work package in the short term would be to examine the statutory frameworks situation and identify potential for short term refinements which each local government could discuss as a collective, then progress individually.

Steering Committee

In order to ensure that the planning controls met State and industry requirements, it is proposed to report to the Global Advanced Industries Taskforce with access to the wider Industry Reference Group to ensure to the proposed changes meet the needs of industry. Management of the project would be determined by the Taskforce. Notwithstanding the involvement of State and industry experts, amendments to individual planning schemes would require adoption of each Council independently.

Benefits

The benefits of the proposal include simplifying the planning system for applicants and decision-makers, ensuring that government (state and local) have a common understanding of development standards. The updated and uniform approvals system will also demonstrate to investors that the area has a united approach to development, with consistent application of conditions, design guidance and access arrangements.

The future coordinated development of the region has a positive impact more broadly, as economic development in the Global Advanced Industries Hub has significant benefits across the state, particularly in the industrial processing spaces. Additionally, the project will allow for consideration of planning controls needed to support the container port locating to the area, and the freight and logistics uses that will be introduced into the area. Through the application of land use controls, the limited core areas can be preserved for the most critical and heavy industrial uses, whereas other land can be used for less offensive industries as it integrates into the wider metropolitan area.

Consideration can also be given to how Development Assessment Panels apply in the area, where highly expensive, but low complexity applications, such as fuel tanks, are routinely delayed by overly regulatory approval systems. This could create further efficiencies in the processes and help to speed up approvals for simple applications.

Risks

While this work could occur at a later date, once the redevelopment of Latitude 32 area has been completed, the opportunities from a more holistic planning system may be lost through the anticipated demand created by the Westport Project. Ideally this work should have occurred earlier, however due to competing priorities within local governments, important planning such as this is often overlooked due to prioritisation of residential infill and development.

The biggest risk for the State is that its approval processes are not internationally competitive. While there are benefits to being able to demonstrate a fair, green and ethical supply chain for industry, there remains a requirement for approval pathways to be efficient and address contemporary development issues. With investment decisions being made between Australia, Europe and North America, we cannot afford a regulatory system that does not support a unified position from all tiers of government.

In order to act upon the opportunities that this project would bring and noting the requirement for debating the best practices that each local government and agency bring, this project is best suited to be led by an independent consultant. This would allow for a range of opinions to be brought together and an independent expert provide commentary, facilitation and recommendations of the taskforce.

The project would occur over a number of stages to identify the simple improvements that could be implemented in the short term, while noting longer term strategic issues and opportunities that can be addressed during wider strategic planning for the region.

Deliverables

The proposed works would deliver the following outcomes, in chronological order:

Memorandum of Understanding

The Local Governments and State Government agree to a cooperative process that is geared towards facilitating enhanced planning outcomes for Industry.

Strategic Review

Review all relevant schemes and strategies, highlighting the collective vision for the area. Identify key short-term opportunities to be explored that will add benefit to the region. Identify further opportunities that require longer term resolution to consider at later stages.

Short-Term Actions

The identified quick wins from the Strategic Review will be considered to bring greater alignment to the planning frameworks across the three local governments, along with identified policy standards and potential conditions, where appropriate, by reviewing each local government, best practice examples and identifying the preferred way forward. Prepare any necessary amendments or policy documentation as templates each local government can consider.

Develop United Planning Strategy

Longer term, the three local governments will seek to work with the State Government on the development of a united spatial vision that looks to strategically locate industry in a way that cluster development, efficient movement of supply chains and prioritisation of finite land resources can be implemented to leverage the greatest economic opportunities for the region. This may include a Planning Strategy or approach for the region that considers the future role of the as a focus for Port uses, Green Energy, Battery Metals and Defence.

Develop Long Term Statutory Framework

In the longer term, opportunities may arise for the area to develop the range of statutory documents or powers that give effect to the changes (such as amendments to Town Planning Schemes, identification of other statutory functions that would assist in the delivery of the collective vision). This would include consideration of opportunities for a more internationally competitive approval process. This could be informed through the identification of more complex issues in the Strategic Review.

It is anticipated that the Strategic Review will be guided by the Steering Group, with regular engagement of the Working Group. In addition, the *Planning and Development Act 2005* will offer further engagement opportunities through the adoption of the planning documents, as required under that legislation.

Costs

It is anticipated that *Strategic Review* and *Short-Term Actions* will cost \$200,000 in consultant fees. As further development of the regional strategic planning occurs, a second stage, creating greater alignment of statutory functions can be scoped.

The three local governments would contribute in-kind resources to the project through officer time to participate and develop best practice processes, along with the costs of advertising and implementing Scheme and Policy amendments. This is subject to the resourcing and budgeting constraints each local government will face over this period. There will be limitations given existing workloads and resources for the current financial year are already set.

These learnings could then be applied to other Strategic Industrial Areas throughout the State to ensure that the high order industrial estates across WA share a common statutory environment.

Timeframe

The proposed timeframe to develop the first stages of the project are as follows:

Development of MOU

- 2 Months
- Appointment of Consultant
 - 2 Months

Meeting with Stakeholders to determine extent of short term wins

• 2 Months

Review of Strategic Plans, meetings with stakeholders and identification of long-term issues and opportunities.

- 4 Months
- Development Short-Term wins
 - 4 Months + 12 Months adoption

Total: 24 Months

14.2 Finance

14.2.1 RFT13/2022 - Coogee Beach Swimming Enclosure (Design, Construct, Installation and Maintenance)

Responsible Executive	Chief of Built and Natural Environment
Author(s)	Head of Sustainability and Environment
Attachments	1. Evaluation Summary (Confidential)

RECOMMENDATION

That Council:

- (1) ACCEPTS the tender submitted by Craig Justin Moss (Ultimate Limestone) for RFT13/2022 - Coogee Beach Swimming Enclosure (Design, Construct, Installation and Maintenance) for an estimated sum of \$776,550 (Ex GST) over five (5) years from the date of contract award, with a principal instigated option to extend up to a further five (5) years in accordance with the submitted Schedule of Rates for determining variations and / or additional services; and
- (2) AUTHORISE the City to finalise the contract with Craig Justin Moss (Ultimate Limestone) following a review of the existing barrier and infrastructure.

Background

The City of Cockburn has sought submissions through a public tender to lease for a suitably qualified and experienced contractor for a swimming enclosure at Coogee Beach.

The existing lease of the eco shark barrier located at Coogee Beach is due to expire in November 2022. To ensure a continuance of this service over summer the existing lease has been extended to enable the Tender to be finalised.

The existing barrier has proven to be very popular with the local community as well as those from the surrounding region, with schools from other areas visiting the barrier to attend swimming lessons.

The barrier at Coogee Beach compliments the Coogee Marine Trail with each being a popular attraction. Both help to support Council vision to make Cockburn the best place to be and invest in within the Perth Metropolitan area.

Community consultation was conducted in 2017, with community feedback to retain the existing shark barrier after the initial trial, that indicated 98.8% of respondents wanted the barrier to remain in place.

While there have been no reported shark attacks at Coogee Beach, the barrier does allow the community to experience the joys of swimming safely in the ocean.

All relevant State Government departments or agency approvals are currently in place and held in the name of the City of Cockburn. The following are required;

- 1. The Department of Transport Coastal Infrastructure Branch issue an annual jetty license for the structure. Currently the City holds Jetty License number 4332. The license is required to be renewed each year in November.
- 2. The Department of Lands have issued a Section 91 License (a licence to occupy crown land) to Ultimate Limestone.

Each license would be extended to accommodate any continued deployment of the swimming enclosure.

The City is now seeking to appoint a suitably qualified and experienced contractor to design, supply, install and maintain a swimming enclosure at Coogee Beach.

The existing enclosure has a dimension of 50metres x 300metres x 50metres and is anchored by four pylons. The new enclosure will occupy a similar footprint.

The proposed Contract shall be in force for a period of five (5) years from the date of contract award, with a Principal instigated option to extend up to a further five (5) years.

The Contract is expected to commence in February 2023.

RFT13/2022 – Coogee Beach Swimming Enclosure - Design, Construct, Installation and Maintenance, was advertised on Wednesday, 31 August 2022 within the Local Government tender section of the West Australian newspaper.

The Tender was displayed on the City's E-Tendering website between Wednesday, 31 August 2022 and Thursday, 6 October 2022 inclusive.

Submission

The request for tender closed at 2:00pm (AWST) Thursday,6 October 2022 with two (2) submissions received from:

Tenderers Name	Registered Entity Name
Shark Shield	Shark Shield Pty Ltd
Ultimate Limestone	Moss, Craig Justin

Report

Compliance Criteria

The following criteria were used to determine whether the submissions received were compliant:

	Compliance Criteria		
(a)	Compliance with A01 – RFT13/2022 – Request Document		
(b)	Compliance with the General and Special Conditions of Contract		
(C)	Compliance with and completion of the Price Schedule in the format provided		
(d)	Completion of Qualitative Criteria		
(e)	Compliance with ACCC Requirements and completion of Certificate of Warranty		
(f)	f) Acknowledgment of an Addenda Issued		
(g)	Attendance at the mandatory site / tender briefing		

Compliance Tenderers

Procurement Services undertook an initial compliance assessment, and all submitted Tenderers were deemed compliant and released for evaluation.

Evaluation Criteria

Evaluation Criteria	Weighting Percentage
Demonstrated Experience	20%
Tenderer's Resources	10%
Methodology	10%
Sustainability	10%
Local/Regional	10%
Tendered Price	40%
TOTAL	100%

Tender Intent/ Requirements

The City is seeking submissions to lease through the public tender process by Contractors that are suitably qualified and experienced to Design, Construct, Install and Maintain a Swimming Enclosure at Coogee Beach.

Evaluation Panel

The Tender submissions were evaluated by the following City of Cockburn Officers. The Procurement Services representative attended in a probity role only.

Name	Position
Christopher Beaton	Head of Sustainability and Environment
Samantha Standish	Marina Manager
Sabina Rahman-Horstmann	Coastal Management and Planning Engineering
Probity Role Only	
Stephen White	Contracts Officer

Scoring Table - Combined Totals

	Percentage Score		
Tenderer's Name	Non-Cost Evaluation	Cost Evaluation	Total
	60%	40%	100%
Ultimate Limestone**	41.83%	40%	81.83%
Shark Shield	31.67%	25.92%	57.59%

** Recommended Submission

Evaluation Criteria Assessment

Demonstrated Experience

Ultimate Limestone demonstrated that they have the required experience to design, construct, install and maintain a swimming enclosure. They provided three examples of other swimming enclosures, all of which were in WA. Ultimate Limestone enclosures are Australian made. Good detail was provided about the organisation.

Shark Shield only provided one example that was similar that has been installed in the Bahamas. Details was not provided on how well the enclosure functioned, or issues encountered. Limited details were provided on the organisation.

Tenderer's Resources

Ultimate Limestone provided good detail in respect to the available resources and measures to attend to incidents. Materials are locally made and available to repair the enclosure with resources deemed adequate by the panel.

Shark Shield provided limited detail around available resources or how they would maintain the enclosure. It was not clear if equipment required to repair the enclosure was locally available.

70 of 610

Methodology

Ultimate Limestone demonstrated a good understanding of the requirements of the tender and a good understanding of the location.

Sufficient detail was provided about installation, inspections and repairs of the enclosure with available materials.

Minimal detail was provided about how urgent repairs would be carried out in the event the owner of the enclosure was not contactable.

Shark Shield provided good detail in a Gant Chart of the proposed installation. However, no detail was provided on the inspection routines (onsite) with an alternative system monitoring the enclosure remotely.

No detail was provided on how patrons would be notified if the system went down. This enclosure would need to be removed in extreme weather events.

Sustainability

Ultimate Limestone was assessed as providing the best response in terms of sustainability. Reference was made to the preparation of an Environmental Management Plan with good understanding of the implications of the social and community aspects of sustainability.

Shark Shield indicated they were planning on developing policies in relation to this criterion with a good understanding of environmental governance. Insufficient detail was provided across the criterion that reflected their score.

Local/Regional

Neither organisation demonstrated adequate local / regional benefit to Cockburn or the South West Metropolitan region. Shark Shield indicated they would use contractors in Henderson which reflected their score.

Summation

The Evaluation Panel recommends that the submission by Craig Justin Moss trading as Ultimate Limestone be accepted as the most advantageous submission to deliver Tender RFT13/2022 Coogee Beach Swimming Enclosure (Design, Construct, Installation and Maintenance)

Ultimate Limestone provided the best submission in respect to the qualitative and cost criteria as rank 1 with Shark Shield rank 2. The cost evaluation was determined with equivalent components to ensure fairness in the evaluation.

The recommendation is based on;

- The level of demonstrated experience in completing similar work.
- The resources and experience of the personnel to undertake the work
- Sound understanding of the requirements and methodology.
- The best overall value for money and the most advantageous outcome.

The City will need to determine if the existing barrier is fit for purpose and recommend a further amendment to the contract if part of the existing barrier is to be retained. Noting, that the obligation is for the lessee to maintain a swimming enclosure that is fit for purpose for the length of the contract.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

• A safe and healthy community that is socially connected.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The current tendered cost per year to lease a swimming enclosure for the Coogee Beach is \$155,310. The service has been budgeted in the City current operating budget using the existing contract costing.

The existing shark barrier contract did not allow for any price increase over the last five years.

The new budget value will be amended to suit the new contract. This cost may be reduced if the review on the existing infrastructure demonstrates fit for purpose and the option to retain part of the existing barrier is endorsed.

Legal Implications

Section 3.57 of the Local Government Act 1995 and Part 4 of the Local Government (Functions and General) Regulations 1996 refers.

A continued Section 91 Licence with the Department of Lands plus an annual Jetty Licence with the Department of Transport will be required, under the name of the City of Cockburn, to enable the barrier to remain.

Community Consultation

In 2017 community consultation was undertaken prior to the commencement of the existing lease to determine if the community was supportive of retaining a swimming enclosure at Coogee Beach. 98 percent of respondents supported keeping an enclosure at Coogee Beach

Risk Management Implications

While there has never been a reported shark encounter at Coogee Beach, there is a risk that, should the barrier be removed and an encounter occurs resulting in injury, the City may be held liable.

The removal of the shark barrier has the potential to increase the risk of shark encounters in the area.

Consideration should be given to the potential for Council to be blamed, although unfairly, if a shark attack were to occur at Coogee Beach after the barrier is removed.

There is also the risk that the removal of the shark barrier will reduce the number of people visiting the area which may impact on the local economy.

Given the popularity of the barrier there is also a risk of community backlash if the barrier is removed.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 8 December 2022 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

14.2.2 Payments Made from Municipal Fund and Local Procurement Summary - October 2022

Author	Acting Chief Financial Officer		
Attachments	1. Payments Report Oct 2022 😃		
	2. Credit Cards Report Sep (paid Oct) 2022 🕹		

3. Fuel Card Report Sep (paid Oct) 2022 J

RECOMMENDATION

That Council:

- (1) RECEIVES the list of payments from the Municipal Fund during the month of October 2022, as attached to the Agenda; and
- (2) AMENDS the detailed expenditure reporting requirements for Monthly Corporate Credit Card and Store Card (fuel cards) to only include those cards issued in the name of an Officer (ie: not to include fuel cards issued to the City's fleet).

Background

Council has delegated its power to make payments from the Municipal or Trust Fund to the Chief Executive Officer and other sub-delegates under Delegated Authority *Local Government Act 1995* - Payment from Municipal and Trust Funds'.

Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996* requires a list of accounts paid under this delegation to be prepared and presented to Council each month.

It should be noted that the City no longer holds any funds within the Trust Fund, following legislative amendments requiring public open space (POS) cash in lieu contributions to now be held in Municipal reserves.

Submission

N/A

Report

Payments made under delegation during the month of October totalled \$17.497 million, and a listing of these is attached to the agenda for review by Council.

These comprise:

- EFT payments (suppliers and sundry creditors) \$14.074 million (770 payments)
- Payroll payments \$3.33 million (2 fortnights)
- Corporate credit cards total of \$84,814 (64 cards used)
- Bank transactional fees (BPay and merchant fees) \$7,714.

74 of 610

The City has several payment runs each month to ensure its trade suppliers are paid on a timely basis, particularly local and small businesses.

Also attached is the monthly credit card payments report, showing September transactions (paid in October) by cardholder position. There was one transaction made on the Acting CEO's credit card for \$2.67.

The City's fuel card report for September (paid in October) shows total spending of \$26,161, (detailed by fleet vehicle), with usage restricted to applicable fuel purchases for the City's fleet.

These are currently reported to comply with Council's decision at the March 2022 Ordinary Council Meeting to introduce 'detailed Monthly Corporate Credit Card and Store Card (fuel cards) Expenditure reporting for all officers issued with a corporate credit card(s)'.

It is recommended that Council stops receiving these in future given their operational nature, are not captured by the upcoming local government reform for employee credit card reporting and are not providing useful public information.

Local Procurement

Monthly statistics on local and regional procurement spend are summarised below, showing the spend amounts and percentages against total spend:

Procuremen	October	2022				
Monthly	Total SWG Spend	\$1,328,676	CoC Local \$	23.4%	Local/Regional \$	30.2%
Statistics	CoC Local Spend	\$1,027,847	CoC Local %	32.5%	Local/Regional %	38.5%

In October, local spending within Cockburn made up 23.4 percent of the City's monthly spend, comprising 32.5 percent of all procurement transactions made for the month.

Within the Perth South West region, this increased to 30.2 percent of monthly spend from 38.5 percent of transactions.

The following one year rolling chart to October 2022 tracks the City's procurement spend with businesses located within Cockburn and the Perth South West region:

The rolling 12-month cumulative local Cockburn spend was \$47.84 million, representing 31.3 percent of the City's total spend, with \$67.33 million or 44.0 percent of total spend within the Perth South West regional area.

These results track the City's performance in achieving Council's "local and regional economy" principle contained within its Procurement Policy (i.e. a buy local procurement preference).

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment

• Thriving local commercial centres, local businesses, and tourism industry.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation

- Best practice Governance, partnerships, and value for money
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

All payments made have been provided for within the City's Annual Budget, as adopted and amended by Council.

Legal Implications

This item ensures compliance with s6.10(d) of the *Local Government Act 1995* and Regulations 12 and 13 of the *Local Government (Financial Management) Regulations 1996*.

Community Consultation

N/A

Risk Management Implications

Council is receiving the list of payments already made by the City under delegation in meeting its contractual obligations.

This is a statutory requirement and allows Council to review and clarify any payment that has been made.

Go paperless and receive your invoices and statements via email. Provide your BP Plus account number along with your email address to aucustcare@bp.com and our team will help you make the switch. If you have paid your account via credit card, your Service Fee will appear on your summary Tax Invoice. Please Note: if you are disputing a transaction, this needs to be lodged in writing within 30 days from the date of issue of this Fleet Control Report.

14.2.3 Monthly Financial Reports - October 2022

Author(s)	Acting Chief Financial Officer
Attachments	1. Monthly Financial Report October 2022 J

RECOMMENDATION

That Council:

(1) ADOPTS the Monthly Financial Report containing the Statement of Financial Activity and other financial information for the month of October 2022, as attached to the Agenda.

Background

Local Government (Financial Management) Regulations 1996 prescribe that a Local Government is to prepare each month a Statement of Financial Activity.

Regulation 34(2) requires the Statement of Financial Activity to be accompanied by documents containing:

- 1. Details of the composition of the closing net current assets (less restricted and committed assets)
- 2. Explanation for each material variance identified between year to date (YTD) budgets and actuals
- 3. Any other supporting information considered relevant by the Local Government.

Regulation 34(4)(a) prescribes that the Statement of Financial Activity and accompanying documents be presented to Council within two months after the end of the month to which the statement relates.

The regulations require the information reported in the statement to be shown either by nature or type, statutory program, or business unit.

The City has chosen to report the information according to nature or type and its organisational business structure.

Local Government (Financial Management) Regulations 1996 - Regulation 34 (5) states "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards, to be used in statements of financial activity for reporting material variances."

This regulation requires Council to annually set a materiality threshold for the purpose of disclosing budget variances within monthly financial reporting.

The materiality threshold has been set by Council at \$300,000 for the 2022-23 financial year (FY23).

150 of 610

Detailed analysis of budget variances is an ongoing exercise, with necessary budget amendments either submitted for Council approval through the Expenditure Review Committee or included in the City's mid-year budget review required by legislation.

Submission

N/A

Report

The attached Monthly Financial Report for October 2022 has been prepared in accordance with the Local Government Act and the associated Financial Management Regulations.

This was reviewed by management, with the following commentary addressing key financial results and the City's budgetary performance to the end of the month.

Opening Surplus

The amended budget opening surplus is now \$8.06 million and includes the \$5.56 million municipal funding for the City's carry forward projects adopted by Council at its September meeting.

The other \$2.5 million was a conservative estimate of the uncommitted closing surplus from FY22 used in balancing the funding commitment in the FY23 budget.

The unaudited opening surplus amount reported in the October financial report is \$11.93 million, (\$3.87 million greater than the budget surplus).

Once the City's audit is complete, the confirmed additional funds will be brought to Council (via the Expenditure Review Committee) for determination in accordance with Council's Corporate Strategic Planning and Budget Policy.

Closing Surplus

The City's YTD closing surplus to the end of October was \$107.47 million, versus a YTD budget of \$93.17 million.

This represents a favourable variance of \$14.29 million, inclusive of the additional (unaudited) opening surplus and other variances across the FY23 operating and capital budget reported in the sections following.

Operating Revenue

Operating revenue of \$140.19 million was \$2.80 million ahead of YTD budget for October.

The following table summarises the operating revenue budget performance by nature:

Revenue from	Ameno	ded	YTD	YTD
operating activities	Full Year Budget	YTD Budget	Actual	Variance
dottvitico	\$	\$	\$	\$
Rates	118,200,000	117,271,087	117,178,438	(92,649)
Specified Area Rates	624,000	613,000	598,751	(14,249)
Operating Grants, Subsidies, Contributions	14,639,274	3,917,562	3,286,653	(630,909)
Fees and Charges	36,770,902	14,044,709	16,652,418	2,607,709
Service Charges	500,000	500,000	0	(500,000)
Interest Earnings	2,725,280	1,246,788	2,103,897	857,109
Profit/(Loss) Asset Sale	4,202,648	(208,284)	367,166	575,450
Total	177,662,104	137,384,862	140,187,323	2,802,461

Material variances identified in the City's operating revenue were identified as follows:

- Fees and Charges (\$2.60 million ahead of YTD budget):
 - Landfill operations revenue was \$2.45 million ahead of budget due to higher volumes of waste coming through (tracking to outperform full year budget).
- Service Charges (\$0.50 million under YTD budget):
 - Underground power charges have not been levied due to delay in finalising the agreement and commencing construction (will be addressed in the midyear budget review).
- Interest Earnings (\$0.85 million over YTD budget):
 - Interest on invested funds was \$0.90 million ahead of YTD budget (will significantly outperform the budget and will be addressed in the mid-year budget review).
- Operating Grants, Subsidies, Contributions (\$0.63 million under YTD budget)
 - Community Development service funding is under by \$0.40 million, with Cockburn Care (\$0.26m under – timing issue) and Family Day Care services (\$0.18m under – lower numbers).

152 of 610

Operating Expenditure

Operating expenditure to the end of October of \$51.55 million was under YTD budget by \$3.58 million.

The following table summarises the operating expenditure budget variance performance by nature:

	Ame	nded	YTD	YTD
Expenditure from operating activities	Full Year Budget \$	YTD Budget \$	Actual \$	Variance \$
Employee costs	69,123,007	21,859,743	20,011,060	(1,848,683)
Materials & Contracts	44,214,029	13,542,249	10,844,959	(2,697,290)
Utility charges	6,100,264	2,053,311	1,849,892	(203,419)
Depreciation/Amortisation	37,563,705	12,012,030	11,426,234	(585,796)
Interest/Finance Costs	500,939	12,168	12,566	398
Insurance expenses	2,015,300	2,015,300	2,102,898	87,598
Other expenditure	11,465,513	3,640,580	5,301,427	1,660,847
Total	170,982,757	55,135,381	51,549,036	(3,586,345)

Significant variances identified in the City's operating expenditure were identified as follows:

- Employee Costs (\$1.85 million under YTD budget):
 - There are salary budget variances across all business units totalling \$1.57 million, due to the Enterprise Agreement increase factored into the budget not being paid, lower leave entitlement (reduced provisions) and above average staff vacancies due to tight labour market.
 - Leave entitlement reductions contributed a net \$0.57 million to the variance, reflecting the positive impact of leave management strategies.
- Materials and Contracts (\$2.69 million under YTD budget):
 - Environment, Parks & Streetscapes service unit showing a \$0.51 million underspend against YTD budget mostly due to seasonal factors.
 - City Facilities service unit had a \$0.46 million underspend variance in contract costs across the facilities maintenance program.
 - Environmental Management, Policy & Planning service unit had a net underspend of \$0.45 million against YTD budget (includes rehabilitating former Roe 8 reserve \$0.16m under).
 - Cockburn ARC was showing an underspend of \$0.30 million in its YTD contract spend.
- Other Expenditure (\$1.66 million over YTD budget):
 - Landfill levy was showing a \$1.44 million overspend variance, correlating with the additional tonnage presented.

Capital Expenditure

Council adopted a capital works program of \$50.9 million in the FY23 annual budget, that is now \$81.0 million with the carry forward projects adopted by Council.

The City spent \$11.87 million on its capital program to the end of October, representing an underspend of \$4.34 million against YTD budget (timing variances).

	Amei	nded		
Capital acquisitions	.	YTD	YTD	YTD Actual
	Budget \$	Budget \$	Actual \$	Variance \$
Land	1,680,000	1,680,000	1,680,000	0
Buildings	9,161,386	3,253,368	1,691,589	(1,561,779)
Furniture & Equipment	126,000	74,332	9,127	(65,205)
Plant and equipment	10,022,490	546,088	755,374	209,286
Information technology	5,092,605	493,200	184,440	(308,760)
Infrastructure - roads	34,681,234	3,512,003	4,654,835	1,142,832
Infrastructure - drainage	3,210,098	1,288,452	634,509	(653,943)
Infrastructure - footpath	2,105,832	363,624	268,419	(95,205)
Infrastructure - parks hard	6,475,499	2,114,797	1,038,001	(1,076,796)
Infrastructure - landscaping	1,940,005	623,668	207,678	(415,990)
Infrastructure - landfill site	3,050,878	1,121,944	76,262	(1,045,682)
Infrastructure - marina	2,333,098	746,823	596,799	(150,024)
Infrastructure - coastal	1,132,552	396,087	72,230	(323,857)
Total	81,011,677	16,214,386	11,869,263	(4,345,123)

The following table shows the budget performance by asset class:

Significant variances identified in the City's capital expenditure were identified as follows:

- Landfill infrastructure (\$1.04 million under YTD budget):
 - Enabling works for the Henderson landfill redevelopment were \$0.95 million behind YTD budget (timing issue).
- Roads infrastructure (\$1.14 million over YTD budget):
 - Hammond Road (Branch to Bartram) construction project was \$1.83 million over YTD budget (timing issue – full year budget of \$14.33m).
 - Jandakot Road (Berrigan to Solomon) was \$0.39 million over budget due to final costs for the completed project. These are covered by private contributions (to be adjusted in mid-year budget review).
 - Rowley Road & Lyon Road is \$0.53 million under YTD budget (timing issue)
 - Rockingham Road & Phoenix Road roundabout project is contributing a YTD underspend budget variance of \$0.35 million (project to be addressed in midyear review).

154 of 610

- Parks Hard Infrastructure (\$1.07 million under YTD budget):
 - Beeliar Reserve irrigation renewal project for \$0.40 million was \$0.30 million under YTD budget (timing issue).

Non-Operating Grants, Subsidies and Contributions

The City's budget for capital grants and contributions is a net \$19.24 million. This includes \$23.14 million in funding to be received, less an outgoing contribution of \$3.90 million to the State Government for underground power in South Lake.

Non-operating revenue of \$3.77 million was recognised to the end of October, \$2.18 million over YTD budget (timing issue only).

Financial Reserves

A detailed schedule of the City's financial reserves is included in the financial report, showing a balance of \$178.82 million held at the end of October (\$179.48 million last month).

Council funded reserves made up \$151.19 million of the balance, \$11.66 million for restricted and legislated purposes, and another \$15.97 million for developer contribution plans.

Transfers in and out of financial reserves are made in accordance with budgetary requirements.

Cash and Financial Assets

The City's closing cash and financial assets investment holding at month's end totalled \$264.30 million (up from \$258.47 million last month).

This balance included financial assets (term deposits and investments) of \$252.39 million, and cash and cash equivalent holdings (cash at bank and at call deposits) of \$11.90 million.

\$182.84 million of these funds were internally and externally restricted, representing the City's financial reserves and liability for bonds and deposits held.

The remaining \$81.46 million represented unrestricted municipal funds for the City's operating activities and liabilities.

Investment Performance, Ratings and Maturity

The City's term deposit portfolio running yield has continued increasing to an annualised 2.50 percent as of 31 October (up from 2.21 percent last month and 2.04 percent the month before).

This underperformed the City's KPI target rate of 3.10 percent, comprising RBA cash rate of 2.60 percent (end of October) plus a 0.50 percent performance margin.

The swiftness of back-to-back increases made to the official cash rate by the Reserve Bank of Australia (RBA), means many of the City's existing term deposits are yielding well under the City's current KPI target.

The latest cash rate increases have been for 0.25 percent (rather than 0.50 percent), indicating the RBA may be nearing the top of this tightening cycle.

Performance against the KPI target continues to improve each month with the City's new deposits being placed at relatively higher rates.

New investments placed during the month were at rates ranging between 4.22 and 4.59 percent over various durations.

Current term deposit investments are fully compliant with Council's Investment Policy requirements, as indicated below:

Investment Policy Compliance		
Legislative Requirements	√	Fully compliant
Portfolio Credit Rating Limit	√	Fully compliant
Institutional Exposure Limits	√	Fully compliant
Term to Maturity Limits	√	Fully compliant

The portfolio also includes several reverse mortgage securities purchased under previous policy and statutory provisions.

These have a face value of \$2.469 million and market value of \$1.610 million, although the City currently carries them at a book value of \$0.894 million (net of a \$1.575 million impairment provision made several years ago).

The City continues receiving interest and capital payments, with \$0.531 million returned to date of the original \$3.0 million invested.

The City's investments were held with the following financial institutions at 31 October (inclusive of accrued interest):

lssuer	Market Value	% Total Value
AMP Bank Ltd	15,095,652.43	5.70%
Australian Unity Bank	7,076,290.41	2.67%
Bank of Queensland Ltd	19,909,947.71	7.52%
Commonwealth Bank of Australia Ltd	82,902,953.01	31.32%
Emerald Reverse Mortgage Trust	1,610,205.16	0.61%
Macquarie Bank	10,019,873.24	3.78%
Members Equity Bank Ltd	7,062,438.33	2.67%
MyState Bank Ltd	22,629,903.26	8.55%
National Australia Bank Ltd	39,718,896.05	15.00%
Suncorp-Metway Ltd	24,638,112.33	9.31%
Westpac Banking Corporation Ltd	34,065,986.57	12.87%
Portfolio Total	264,730,258.50	100.00%

The City's short-term deposits (less than 12 months) made up 53.8 percent (\$142.42 million) of the City's portfolio, compared to 54.4 percent (\$140.19 million) last month.

These were classified under the following credit ratings:

Deposits invested between 1 and 3 years made up 46.20 percent (\$122.31 million) of the City's portfolio, compared to 45.6 percent (\$117.58 million) last month.

These were classifed under following credit ratings:

Investment in Fossil Fuel Free Banks

At month end, the City held \$63.47 million (24.0 percent) of its investment portfolio with banks considered non-funders of fossil fuel related industries (up from \$50.97 million or 19.8 percent last month).

The amount invested with fossil fuel free banks fluctuates depending on the competitiveness of deposit rates being offered and the capacity of fossil fuel free banks to accept funds.

The City will always endeavour to preference a fossil fuel free investment, given a similar deposit rate.

Rates Debt Recovery

The collectible rates and charges for 2022-23 (comprising arrears, annual levies and part year rating) totals \$141.88 million.

To the end of October, the City had collected \$93.19 million (65.7 percent), leaving a balance outstanding of \$48.69 million (34.3 percent).

The City has also received \$0.79 million in prepayments for future year's rates.

In terms of overdue and delinquent rates accounts under formal or legal debt recovery processes, the City had 73 properties owing a total of \$0.59 million in combined rates and legal fees (down from 75 properties last month owing \$0.61 million).

Given the size of the City's ratepayer base (around 53,000 properties), this reflects the City's effective processes in controlling and managing overdue rates from the previous year.

158 of 610

Formal debt recovery processes for overdue FY23 rates will commence in November.

Formal debt recovery activities are commenced when ratepayers have overdue rates and have not committed to instalment or other payment arrangements or sought relief under the City's Financial Hardship Policy.

Trade and Sundry Debtors

The City had \$3.02 million in outstanding trade and sundry debtors to the end of October (\$4.03 million last month).

Those debts overdue by more than 90 days made up \$402k or 13.3 percent of total debts outstanding (\$417k or 10.3 percent last month).

The 90-day debtors included debts owing by State Government related entities totalling \$308k (no risk) and lease monies owed by naval base tenants totalling \$66k (on payment plans).

Strategic Plans/Policy Implications

Listening and Leading

A community focused, sustainable, accountable and progressive organisation

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Budget amendments are referred to Council's Expenditure Review Committee for recommendation.

Council's adopted budget surplus for FY23 of \$360,899 has since reduced to a deficit of \$10,847 due to various Council decisions.

These budget surplus changes are listed at Note 8 in the financial report.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

It is important that Council reviews the performance of its adopted budget each month for revenue, expenditure, and the closing financial position. This enables it to be informed on and identify any potential financial risks.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Actual and YTD Actual data as per the adopted materiality threshold.

Refer to Note 9 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

KEY TERMS AND DESCRIPTIONS FOR THE PERIOD ENDED 31 OCTOBER 2022

REVENUE

RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refers to all amounts received as grants, subsidies and contributions that are not non-operating grants.

NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of identifiable non financial assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES

Service charges imposed under Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996 identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME

Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL

Excess of assets received over the net book value for assets on their disposal.

NATURE OR TYPE DESCRIPTIONS

EXPENSES

EMPLOYEE COSTS

All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL

Shortfall between the value of assets received over the net book value for assets on their disposal.

DEPRECIATION ON NON-CURRENT ASSETS

Depreciation expense raised on all classes of assets.

INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE

Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

KEY INFORMATION

Indicates a variance between Year to Date (YTD) Actual and YTD Actual data as per the adopted materiality threshold. Refer to Note

threshold. Refer to Note 9 for an explanation of the reasons for the variance.

The material variance adopted by Council for the 2022-23 year is \$300,000 or 0.00% whichever is the greater.

This statement is to be read in conjunction with the accompanying Financial Statements and notes.

MONTHLY FINANCIAL REPORT FOR THE PERIOD ENDED 31 OCTOBER 2022

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996*, *Regulation 34*. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The Local Government (Financial Management) Regulations 1996 take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of AASB 1051 Land Under Roads paragraph 15 and AASB 116 Property, Plant and Equipment paragraph 7.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 31 October 2022

BASIS OF PREPARATION

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

NOTE 1 STATEMENT OF FINANCIAL ACTIVITY INFORMATION

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

	Notes	Amended Budget	YTD Budget (a)	YTD Actual (b)
Non-cash items excluded from operating activities		Ś	Ś	Ś
			·	·
Adjustments to operating activities				
Less: (Profit)/loss on asset disposals	3	(4,202,648)	0	(367,166)
Less: Movement in liabilities associated with restricted cash		(3,410,835)	1,187,281	2,272,275

Closing funding surplus / (deficit)		11,927,765	91,423,613	107,467,100

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

	81,455,711	182.842.722	264,298,434

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and

- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

14.3 Community Services

14.3.1 Uluru Statement From The Heart

Responsible Executive	Head of Community Development and Services
Author	Aboriginal Cultural and Visitor Centre Manager
Attachments	N/A

RECOMMENDATION

That Council:

(1) ENDORSES the Uluru Statement from The Heart.

Background

Uluru Statement

Australia, unlike other first world countries, has not yet achieved meaningful recognition of the First Nations people of this country.

The legal fiction of *terra nullius* was finally overturned with the Mabo High Court decision on 2 June 1992.

This case was a landmark decision that finally recognised the pre-colonial land interests of Indigenous people within Australia's common law.

Despite on-going calls by Aboriginal people since the early days of settlement, for a respectful and equal relationship, successive governments continue to ignore calls for constitutional recognition of the rightful place of Australia's First Nations peoples.

First Nations Regional Dialogues

In the lead up to the Uluru Dialogue – First Nations Constitutional Convention, a series of three-day Regional Dialogues commenced in December 2016 which were held consecutively in Hobart, Broome, Dubbo, Darwin, Perth, Sydney, Melbourne, Cairns, Ross River (Central Australia), Adelaide, Brisbane and Thursday Island, with an additional meeting in Canberra.

The purpose of the Regional Dialogues was to engage First Nations peoples from local communities and community-based organisations in a conversation about their aspirations for meaningful recognition of the rights of the First Nations peoples, how these rights might be recognised and protected, and the reforms necessary to give lasting effect to these aspirations.

Who participated in the regional dialogues?

First Nations participants at Regional Dialogues was decided locally - involving local traditional owners, community-controlled organisations and First Nations leaders, elders, and young people.

178 of 610

The Regional Dialogues selected their nominated representatives to attend the First Nations Constitutional Convention held at Uluru.

The **Uluru Statement from the Heart** is an invitation from First Nations to "walk with us in a movement of the Australian people for a better future."

It was a call to the Australian people in May 2017 following two years of engagement and consultations with First Nations people from across the country.

The Uluru Statement calls for constitutional change to establish a new relationship between First Nations people and the Australian nation.

Report

Several Local Governments in Western Australia have endorsed the Uluru Statement from the Heart, in turn supporting Aboriginal and Torres Strait Islander community members.

The City of Bayswater, City of Fremantle, City of Stirling, Shire of Denmark, and Mayors across Australia have all made this decision.

The City of Cockburn can join this growing list of local governments to endorse their support by signing the Uluru Statement from the Heart, detailed in full below:

"Our Aboriginal and Torres Strait Islander tribes were the first sovereign Nations of the Australian continent and its adjacent islands and possessed it under our own laws and customs.

This our ancestors did, according to the reckoning of our culture, from the Creation, according to the common law from 'time immemorial', and according to science more than 60,000 years ago.

This sovereignty is a spiritual notion: the ancestral tie between the land, or 'mother nature', and the Aboriginal and Torres Strait Islander peoples who were born therefrom, remain attached thereto, and must one day return thither to be united with our ancestors.

This link is the basis of the ownership of the soil, or better, of sovereignty. It has never been ceded or extinguished and co-exists with the sovereignty of the Crown.

How could it be otherwise?

That peoples possessed a land for sixty millennia and this sacred link disappears from world history in merely the last two hundred years?

With substantive constitutional change and structural reform, we believe this ancient sovereignty can shine through as a fuller expression of Australia's nationhood.

Proportionally, we are the most incarcerated people on the planet.

We are not an innately criminal people. Our children are aliened from their families at unprecedented rates.

This cannot be because we have no love for them. And our youth languish in detention in obscene numbers. They should be our hope for the future.

These dimensions of our crisis tell plainly the structural nature of our problem. This is the torment of our powerlessness.

We seek constitutional reforms to empower our people and take a rightful place in our own country.

When we have power over our destiny our children will flourish.

They will walk in two worlds and their culture will be a gift to their country.

We call for the establishment of a First Nations Voice enshrined in the Constitution.

Makarrata is the culmination of our agenda: the coming together after a struggle.

It captures our aspirations for a fair and truthful relationship with the people of Australia and a better future for our children based on justice and selfdetermination.

We seek a Makarrata Commission to supervise a process of agreementmaking between governments and First Nations and truth-telling about our history.

In 1967 we were counted, in 2017 we seek to be heard.

We leave base camp and start our trek across this vast country.

We invite you to walk with us in a movement of the Australian people for a better future."

The Uluru Statement from the Heart is a call for the establishment of a First Nations Voice enshrined in the Constitution.

Voice, Treaty, Truth.

This action further strengthens our commitment to our First Nations Community and provides a public statement that supports change.

This further supports the City's Reconciliation Action Plan.

180 of 610

Our commitments will be strengthened by Council support of Aboriginal and Torres Strait Islander peoples' call for the establishment of a First Nations Voice to be enshrined in the Constitution and for a referendum on these matters.

We welcome the opportunity to work with other levels of government and all Australians to take this next step in our shared future.

Forms of support could include:

Information on City website, newsletter, emails, and other identified communication streams.

Potential media story regarding City support of the Statement.

Making information available to staff and residents.

Using networks to inform other Local Governments of the position we have taken.

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• Aboriginal and Torres Strait Islander cultures and other diverse cultures and heritage are recognised and celebrated.

• A safe and healthy community that is socially connected.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Employer of choice focusing on equity, innovation and technology.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

There may be members of the community who may be opposed to the concept of the Uluru Statement from the Heart. Council's signing of the Statement has a low risk of negative feedback from a small minority of the community should Council endorse the recommendation.

14.4 Governance and Strategy

14.4.1 WALGA - Best Practice Governance Review

Responsible Executive	Executive Governance and Strategy				
Author	Manager Legal and Compliance				
Attachments	 WALGA Best Practice Governance Review Consultation Paper - Model Options WALGA Best Practice Governance Review - Background Paper ↓ 				

RECOMMENDATION

That Council:

- (1) SUPPORTS Option 2 as the preferred governance model; and
- (2) ENDORSES the order of preference as 2, 4, 3, 1, 5.

Background

On 24 October 2022, WALGA requested Council feedback, by way of a resolution of Council, was requested by local governments on the governance model options presented in the consultation paper prepared by WALGA, before 23 December 2022.

In order to facilitate this, Elected Member responses were requested on 7 November 2022.

This report presents the consultation paper for consideration by Council.

Submission

N/A

Report

WALGA is undertaking a Best Practice Governance Review to ensure their governance model is contemporary, agile and maximises engagement with members.

A significant body of work, which is summarised in the Background Paper, has been undertaken by the Project's Steering Committee.

Member feedback, in the form of a Council decision, is requested from Local Governments on the governance model options presented in the Consultation Paper by 23 December 2022.

Member Local Governments are asked to consider this paper and the governance model options put forward and provide a Council endorsed position to WALGA.

The WALGA suggested approach to the feedback was that Councils endorse a preferred model (which could be the Current Model) and provide a ranking in terms of an order of preference.

In addition, to supplement Council feedback, WALGA will be undertaking independent consultation to gain deeper insights from the perspective of CEOs and Elected Members.

Elected Member feedback supported option 2 as the preferred governance model, with the order of preference being 2, 4, 3, 1 and 5.

No other responses were received.

It is recommended Council support option 2, and the order of preference as identified above.

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

There are no budget implications from the recommendation in this report.

Legal Implications

There are no legal implications from the recommendation in this report.

Community Consultation

N/A

Risk Management Implications

The City has been requested to provide its preferred governance model from the options presented in the consultation paper prepared by WALGA before 23 December 2022.

Failure to endorse a position will mean the Council's decision is not received by WALGA.

There is a low risk associated with this report.

Best Practice Governance Review

1. Introduction

Introduction

Background

The Western Australian Local Government Association (WALGA) developed it's Corporate Strategy 2020-25, and in doing so identified a key strategic priority, to undertake a Best Practice Governance Review. The objective of the review is to ensure WALGA's governance and engagement models are contemporary, agile, and maximise engagement with members.

Other drivers for the review included: misalignment between key governance documents; constitution amendments for State Councillors' Candidature for State and Federal elections; and legislative reforms for the *Local Government Act 1995*, and for the *Industrial Relations Act 1979*.

In March 2022, State Council commissioned the Best Practice Governance Review (BPGR) and established a Steering Committee to guide the Review.

The BPGR Steering Committee had five meetings between 5 May 2022 and 10 August 2022. There was wide-ranging discussion on WALGA's current governance model, the need to engage broadly with the membership, and opportunities for change. Key outputs from the BPGR Steering Committee meetings included:

- Agreement on five comparator organisations Australian Medical Association (AMA) WA, Chamber of Commerce and Industry (CCI) WA, Chamber of Minerals and Energy (CME), Australian Hotels Association (AHA) WA and the Pharmacy Guild (PG).
- Review of governance models of Local Government Associations in other Australian States and Territories, and New Zealand.
- · Drafting of governance principles that will underpin future governance models.
- Finalisation of governance principles and principle components across the domains of: Representative, Responsive and Results Oriented.

These activities are outlined in more detail in the Background Paper.

This document

This document outlines:

Principles: The governance model principles and principle components across the domains of: Representative, Responsive and Results Oriented. The principles were endorsed at the WALGA AGM on 3 October 2022.

Governance model options: Presents four potential governance model options and the structure and roles associated with each option. The four options are:

- Option 1: Two tier model, existing zones
- Option 2: Board, regional bodies
- Option 3: Board, amalgamated zones
- Option 4: Member elected board, regional groups
- Option 5: Current model

Alignment to principles: Each of these options are then assessed as to whether they align with the principles and their components. The assessment considers the option and whether it meets, partially meets or does not meet the principle component. Alongside this assessment are some discussion points. An example of this relates to diversity.

Diversity is a component of the governance model being representative. Diversity here may include consideration of whether the governance model comprises an appropriate diversity of skills and experience. It also provides opportunity to consider whether the governance model provides opportunity for members of diverse backgrounds e.g. people of Aboriginal and Torres Strait Islander descent, people with Culturally and Linguistically Diverse backgrounds.

Within all the model options, direct relationship with WALGA and regional / subregional collaboration would continue to be encouraged.

Best Practice Governance Review

2. Governance Principles

Governance Principles

The following Governance Principles were endorsed by members at the 2022 AGM

Principle	Principle component	Component description	Governance implications
WALGA unites and	Composition	The composition of WALGA's governance model represents Local Government members from metropolitan and country councils.	The governing body will maintain equal country and metropolitan local government representation.
represents the entire local government sector in WA and understands the	Size	An appropriate number of members/representatives oversees WALGA's governance.	Potential reduction in the size of the overarching governing body.
diverse nature and needs of members, regional communitie and economies.	Diversity	WALGA's governance reflects the diversity and experience of its Local Government members.	Potential for the introduction of a mechanism to ensure the governance model comprises an appropriate diversity of skills and experience.
	Election Process	Considers the processes by which WALGA's governance positions are elected and appointed.	Consideration of alternative election and appointment arrangements, with the President to be elected by and from the governing body.
WALGA is an agile	Timely Decision Making	WALGA's governance supports timely decision making.	WALGA's governance model facilitates responsive decision making.
WALGA is an agile association which a quickly to respond to the needs of Local Government membri	Engaged Decision Making	WALGA's Local Government members are engaged in decision making processes.	WALGA's governance model facilitates clear and accessible processes for Local Government members to influence policy and advocacy with consideration to alternatives to the existing zone structure.
and stakeholders.	Agility	Considers the flexibility of WALGA's governance to adapt to changing circumstances.	WALGA's governance model is agile and future proofed for external changes.
WALGA dedicates resources and effort to secure the best	is Focus	Considers the clarity and separation of responsibilities and accountabilities of WALGA's governance.	Governance bodies have clearly defined responsibilities and accountabilities, with the capacity to prioritise and focus on strategic issues.
outcomes for Local Government membraic and supports the delivery of high-gua	Decision Making	Facilitates opportunities for value to be added to decision making.	Adoption of best practice board processes, and introduction of governance structures that are empowered to inform decisions.
 delivery of high-qua projects, programs and services. 	lity Continuous Improvement	Considers regular review processes for components of the governance model, their purpose and achieved outcomes.	WALGA's governance is regularly reviewed every 3 to 5 years to ensure the best outcomes are achieved for Local Government members.

Best Practice Governance Review

5. Consultation Process and Next Steps

WALGA Best Practice Governance Review

Consultation Process and Next Steps

Consultation Process

Council Position

Member Local Governments are asked to consider this paper and the governance model options put forward and provide a Council endorsed position to WALGA.

It is suggested that Councils endorse a preferred model (which could be the Current Model) and provide a ranking in terms of an order of preference.

Submissions to WALGA are sought by 23 December 2022.

Supplementary Market Research

An independent market research company has been engaged to ascertain insights from Elected Members and Chief Executive Officers about WALGA's governance model. Qualitative interviews and a quantitative survey will be undertaken to supplement Council positions.

Workshops and Forums

Requests for presentations on the work undertaken by the Steering Committee and the model options, as well as facilitation of workshops and discussions will be accommodated where practicable.

Next Steps

Timetable

- Consultation and engagement with Members on this paper and governance model options will be undertaken from October 2022 until 23 December 2022.
- The Steering Committee will consider the outcomes of the consultation process during January 2023.
- A Final Report with a recommended direction will be the subject of a State Council Agenda item for the March 2023 State Council meeting.

Thank you

Best Practice Governance Review

1. Background, Approach and Timeline

Background and Approach

Background and approach that led to the development of the governance principles for the Best Practice Governance Review.

Background

The Western Australian Local Government Association (WALGA) developed it's Corporate Strategy 2020-25, and in doing so identified a key strategic priority, to undertake a Best Practice Governance Review. The objective of the review is to ensure WALGA's governance and engagement models are contemporary, agile, and maximise engagement with members. Other drivers for the review included:

- Misalignment between key governance documents; Constitution, Corporate Governance Charter, State Council Code of Conduct, and Standing Orders – stemming from varying amendments.
- State Council's 3 September 2021 resolution requesting amendment to the Constitution to "deal with matters related to State Councillors' Candidature for State and Federal elections".
- Proposed legislative reforms to remove WALGA from being constituted under the Local Government Act 1995 (WA).
- Constitutional requirements for WALGA to become a registered organisation under the Industrial Relations Act 1979 (WA), which would enable WALGA to make applications in its own right to the Western Australian Industrial Relations Commission

In March 2022 State Council commissioned the Best Practice Governance Review (BPGR) and established a Steering Committee to guide the Review.

The BPGR Steering Committee had its first meeting on 5 May 2022. There was wide-ranging discussion on WALGA's current governance model, the need to engage broadly with the membership, and opportunities for change. At the meeting, five comparator organisations were identified to be used in a governance model comparative analysis. Steering Committee meetings 2 to 5 had a focus on the development of governance model principles.

WALGA

This document

This document presents the key insights from the jurisdictional and comparator organisation analysis that supported the development of the governance principles. The final section presents the endorsed governance principles.

Jurisdictional Analysis – This section compares WALGA to equivalent jurisdictional associations (e.g. LGASA). This provides key insights into the size and election processes of WALGA compared to equivalent associations.

Comparator Organisations – This section compares WALGA's governance arrangements to five comparator organisations that were agreed a the BGPR Steering Committee meeting 1. This provides key insights into the size, election processes and recent governance changes of these five comparator organisations.

Governance Model Principles – The governance model principles were developed through BPGR Steering Committee meetings 2 to 5. This provides a structure for understanding how the current governance model of WALGA and any future governance model aligns to these principles.

The following slide outlines the timeline of key events and meetings that formed part of the BPGR.

Timeline Timeline of key events with a focus on the BPGR Steering Committee meetings throughout May to August 2022 WALGA Corporate Strategy 2020-25 Third BPGR Steering In 2019, a five-year Corporate Committee meeting held Principles shared Strategy was developed and On 28 June 2022, an In September 2022 identified that a governance model First BPGR Steering Commissioning of Best options paper was reviewed. agreement on the next was key to delivery of the strategy. Best Practice Governance Review

2. Jurisdictional Analysis

Analysis: Jurisdictional equivalents to WALGA

Jurisdictional equivalents of WALGA have been analysed according to their size and election methods.

Background

Prior to the BPGR Project commencing in March 2022, work was undertaken to understand governance arrangements in other jurisdictions. The focus of this work was on associations from other Australian states, as well as New Zealand.

The full list of associations are:

- Local Government NSW (LGNSW)
- Municipal Association Victoria (MAV)
- Local Government Association of Tasmania (LGAT)
- · Local Government Association of South Australia (LGASA)
- · Local Government Association of Queensland (LGAQ)
- · Local Government Association of Northern Territory (LGANT)
- · Local Government Association of New Zealand (LGNZ)

The assessment of these associations focused on providing insights into the following domains:

- Size of Board: How many board members are there in comparison to the 25 WALGA board members?
- · Method of Election of President: How is the President elected to the board?
- Method of Election of Board Members: How are board members elected?

Key Insights

Key insights following the comparison of WALGA to equivalent associations are outlined below:

- Size of Board while WALGA's board (State Council) contains the largest number of representatives, it can be seen that boards of Local Government Associations tend to be relatively large. The average board size (using Queensland's policy executive, not board) is 15.4.
- Method of Election of President WALGA is an outlier: all other Presidents are elected directly by the membership. Perhaps this is a reflection of the prevalence of Council elected Mayors and Presidents in WA.
- Method of Election of Board Members The majority of associations use regional groupings (equivalent to our Zones) to elect board members. The New Zealand hybrid model of electing representatives from geographic zones and sector groups (metro, provincial, rural, regional) is of interest.

The following slide presents this information for each of the seven associations.

Best Practice Governance Review

3. Comparator Organisations

Comparator organisations

Comparison of WALGA's governance model to the governance models of five comparator organisations.

Background

The BPGR Steering Committee had its first meeting on the 5 May 2022. There was wide-ranging discussion on WALGA's current governance model, the need to engage broadly with the membership, and opportunities for change.

At the meeting, five comparator organisations were identified to be used in a governance model comparative analysis. The organisations were selected on the basis of their similarity to WALGA as WA member-based peak industry organisations.

The selected organisations were: Australian Medical Association (AMA) WA, Chamber of Commerce and Industry (CCI) WA, Chamber of Minerals and Energy (CME), Australian Hotels Association (AHA) WA and Pharmacy Guild (PG) WA Branch.

Process

WALGA supplied a range of background documents to assist in undertaking the initial desktop comparison. This included the Constitution, Corporate Governance Charter, Corporate Strategy 2020-2025, Standing Orders, Elected Member Prospectus, Flow Chart – WALGA Zone and State Council Process, Final Report – State Councils and Zone Structure and Process Working Group.

The documentation used for the comparator organisations were typically the:

- · Constitution which serves as the instrument for establishment of the association;
- · Annual reports which contains information about an association's performance over a 12-month period; and
- Organisational website which may outline the structure and current composition of the board, council and the leadership team of the organisations.

Interviews were successfully arranged with three of the five organisations. They were AMA WA, CCI WA and CME WA. The document analysis and interviews provided insights into the size, election methods and recent changes within these organisations.

Key insights

Key insights through the comparison of WALGA to the five comparator organisations are outlined below:

- Size of Board WALGA's board (State Council) was larger than all other comparator organisation's boards.
- Election methods election methods varied across the comparator organisations but many involved election through the membership.
- Change three of the five organisations had recently undergone changes or reviews of their governance structures. There were a range of drivers for this change including: to
 increase the decision making ability of the board; to use specific working groups to focus on specific topics of interest and to increase representativeness of specific groups
 (e.g. Aboriginal and Torres Strait Islanders).

The following slide presents summary information on the size and election methods of the five comparator organisations. This is then followed by more detailed background into each organisation, their governance structure and any outcomes from conversations with these organisations.

Summary: Governance structure analysis

Summary: Govern WALGA's governance structure was ana		•		
Organisational Comparisons	Number of Board Members	President Elected by	Board Members elected by	
WA Local Government Association (WALGA)	25	The Board	Zones	
Australian Medical Association (AMA)	9	AMA WA Members	Members of the Association	
Chamber of Commerce and Industry WA (CCIWA)	7 to 10	The Board	 Up to 12 elected by Members Up to 8 appointed by the Board Up to 8 appointed by the Council 	
Chamber of Minerals and Energy (CME)	6 to 11	Ordinary Members	Executive Councillors	
Australian Hotels Association (AHA) WA	17	The Branch Committee of Management	The Branch Committee of Management	
Pharmacy Guild (PG) – WA branch	16 to 22	The Branch	Financial Members from the same region as the Branch	

Note: The Council, Branch, or Board chosen from the organisations above were chosen for how appropriate their structure is as a comparison to the WALGA State Council.

Organisational Analysis: Australian Medical Association (AMA) WA

With over 5,000 members, the AMA (WA) is the largest independent professional organisation for medical practitioners and medical students in the State. Total revenue and other income for AMA nationally in 2020 was reported as \$21,928,000.

Organisational Information

The AMA (WA) Board was created in 2017 and is comprised of the President, Immediate Past President, two Vice Presidents and five members of Council who are elected to sit on the Board (9 in total).

The AMA (WA) Council consists of four office bearers (President, Immediate Past President, two Vice Presidents). Additionally, there are the Specialty Group Representatives (e.g. General practice, surgery); Practice Group Representatives (e.g. rural doctors, public hospital doctors); Ordinary Council Members; and, Co-opted Council Members. Majority of the representatives and members represent their specialty (e.g. anesthetics) or group of representative (e.g. medical student society).

The AMA Federal Council meets quarterly and is the AMA's main policymaking body. It is a forum to identify and debate emerging issues of relevance to the membership. The Federal Council's primary role is to: Form the policy of the AMA; Propose changes to existing policy; and Elect representatives to roles and committees. There is one State and one Area nominee from WA on the Federal Council.

The Leadership team consists of seven staff. CEO, CFO, COO, General Manager Training and Recruitment, Operations Manager, General Manager Financial Services and an HR manager.

WALGA

Governance Structure*

The Board comprises of approximately 9 members.	The Board focuses on governance, managing the Association's conduct and business, and ensuring conformity with the constitution.
The Board may increase or decrease the number of Advisory Council members as needed. However, it currently has 4 members.	The General Council focuses on advocacy, policy making, and representation of the association.

The Board and Council is also supported by Specialty Group Representatives, Practice Group Representatives, Ordinary Council Members, and Co-Opted Council Members.

Outcomes of Organisation Discussion

- Governance Review: The 2020 annual report mentions that an organisation-wide review was undertaken with the transformation in the process of being implemented until March 2020 (COVID).
- Representation: It is more important to restrict the number of Board members than Councillors. Board
 members are involved in making policy and governance decisions, requiring a greater decision-making
 capability; Councillors are more involved in stakeholder engagement and solving specific issues through
 working groups, therefore Council size has less impact to efficiency and effectiveness of the model.
- Engagement: The president is the spokesperson when it comes to policy issues. Councillors represent the views of Specialty Groups, Practice Groups, and the medical profession as a whole.
- Feedback on the current model: Board members have previously taken the role because they are
 passionate, but do not necessarily have the right expertise, resulting in poor governance. Board
 members who have leadership and governance experience have proven to be effective in the updated
 model. The Board would benefit from an independent audit partner and increased diversity in specialty, a
 simplified purpose of the Board and Council Advisory, and a reduced number of meetings each year.

*The AMA WA Constitution does not specify the number of Board or Council members. Member numbers are indicative and have been taken from the current Board & Council.

Organisational Analysis: Chamber of Commerce and Industry (CCI) WA

CCIWA is a not-for-profit member organisation providing information, professional services and support for businesses in Western Australia, with over 2,000 WA members. Total revenue and other income for 2021 was reported as \$34,270,130.

Organisational Information

The CCIWA operates as a company limited by guarantee. This came into effect on 11 January 2019. The change in status means that CCIWA is now incorporated under the *Corporations Act 2001* (Cth) rather than the State legislation covering incorporated associations.

Based on the constitution, the number of board members can be between 9-12 (including President & Vice President). The current board has only 6 members including the President and Vice President.

There is a General Council. The constitution states that Councillors can be up to certain numbers depending on who they were elected by. The resulting effect is a council that does not have consistent numbers of members and does not need to fill all positions. This is unlike WALGA's governance model where representatives are elected by zones.

The Board is responsible for the sound governance of the organisation, whereas the General Council provides input to the organisations policy; provides advice to the Board; acts as a point of interface; elects and appoints Council Elected Directors; and passes resolutions relating to specific handling of assets and raising and borrowing funds.

The Board comprises of 9 – 12 members.	The Board focuses on strategic priorities, financial performance and compliance issues.
The General Council consists of up to 28 Councillors.	The General Council focuses on developing and being spokespersons on public policy frameworks and positions.

The governance structure is supported by bespoke working groups, formed from Councillors as relevant for specific strategic and policy issues.

Outcomes of Organisation Discussion

- Governance Review: CCIWA conducted a review of their 2018 Constitution, resulting in changes contained in the 2021 Constitution, including: The governance model was revised to increase the decision-making capability of the board; The structure of the General Council was determined to be too generic causing low Councillor attendance. After the review, Councillors were split into bespoke working groups for specific policy issues for the upcoming 12-month period. This resulted in higher councillor attendance, than the previous governance model.
- Representation: In the new revision of the constitution, two new types of Councillors were included to increase representation for their respective groups. Future Leader Councillors, from members of University business schools; and First Nations Business Councillors, elected from First Nations Members.
- Feedback on the current model: In the current governance model, when a board member leaves, a
 temporary team member is appointed since board members can only be elected in general meetings.

Organisational Analysis: The Chamber of Minerals and Energy (CME) WA

CME WA is the peak resources sector representative body in Western Australia whose member companies generate 95% of all mineral and energy production and employ 80% of the sector's workforce in the State.

Organisational Information

The Corporate Governance Charter (Charter) provides guidance on the respective roles, responsibilities and authorities of members of the Executive Council (Executive Councillors) and members of the Advisory Board (Advisory Board Members) in setting the direction, management and control.

The number of Vice Presidents is determined by the Executive Council, the constitution contains no limit on the number of Vice Presidents and so the number of Vice Presidents is excluded from the diagram to the right.

Executive Councillors are elected by Ordinary Members, and there can be no less than 10.

The Role of the Advisory Board is to act as a traditional board providing strategic oversight on behalf of the Chamber. Key interface with the Executive Management Team on organisational matters, including strategy, operating accounts, governance and risk.

Governance Structure

Advisory Board comprises of 5-10 members.	The Advisory Board provides strategic oversight and acts as the key interface with the Executive Management team on strategy, operating accounts, governance and risk.
Executive Council (10+ members).	The Executive Council most senior interface to guide and prioritise the agenda of the Chamber and its respective committees and holds final decision-making authority re: annual financial reports/statements.

The governance structure is supported by committees including bespoke working groups, appointed by Executive Council as relevant for specific strategic and policy issues.

Outcomes of Organisation Discussion

- Governance Review: CME recently engaged in a governance review. In April 2020, CME put in place a
 governance charter. This codified processed and structures, clarified lines of accountability and included
 a director's code of conduct.
- Representation: Members who express an interest, get a seat at the table for the Executive Council.
 There are approximately 60 ordinary members with 16-20 regularly attending council meetings. This group is intended to provide a litmus check that the broader membership needs are being met.
- Engagement: Although the board is strongly engaged in the work and responsibilities it holds, there is
 the varying engagement of the executive council this is broadly because due to the large array of
 issues it covers the organisation would love to see stronger engagement in this area.
- Feedback on the current model: Based on the age of the organisation, the current pyramid structure works. This is successful largely due to the governance charter which provides clarity in role and structure for the organisation.

Organisational Analysis: Australian Hotels Association (WA)

The Australian Hotels Association (AHA) represents more than 5,000 members across Australia serviced by a network of branches based in every state and territory, plus a Canberra-based National Office. Total revenue and other income for AMA nationally in 2020 was reported as \$2,257,963.

Organisational Information

AHA was founded in 1892 and now represents more than 80% of the Western Australian hotel and hospitality industry.

The organisation has a branch in each state and territory, including a division in each branch known as the National Accommodation Hotels Division. The organisation and each of its branches have their own set of rules by which they are governed. However, ultimate authority is deferred to the National Board of the organisation.

All issues and opportunities are addressed by The Branch Committee of Management (The Branch). Consisting of six ordinary members, elected by members of the branch, and the president from each of the Territorial and Non-Territorial Divisions of the Branch. This includes a President, Senior Vice President, Vice President, Treasurer, Accommodation President and Country Representative. The President, Senior Vice President (SVP) and Vice President (VP) are elected by The Branch.

AHA developed a subsidiary known as 'Tourism Accommodation Australia (TAA)'. TAA publicly represents and lobbies specifically for accommodation hotels separately from the AHA's general hospitality members. However, membership to both AHA and TAA is granted to accommodation properties. There are 11 Divisional Presidents – 7 represent different Areas/Regions and 4 represent different membership groups.

Governance Structure*

Branch Committee of Management has 6 Ordinary members & the president of each Territory/Non-Territory Division (11). Focuses on staff remuneration/conditions, branch transactions, disbursements, funds and resolves delegated Commonwealth industrial disputes.

There is no council or other governing entity to provide support to the Branch Committee of Management.

Relevance to WALGA BPGR

AHA was contacted to schedule an interview; however, there was no response following multiple requests. The following insights have been made by research on their publicly available governance information and documentation.

- Composition: Similar to WALGA's State Council, the AHA Governance structure only has one governing entity, The Branch Committee of Management. The number of branch members (17) is smaller than WALGA (25).
- Responsibilities: The AHA Branch Committee of Management is responsible for financial activities; however, the Rules document does not mention that they are responsible for activities that other comparator organisations governing entities are, such as policy creation or ensuring compliance.
- Lack of compliance with constitution: The Rules of the AHA WA Branch document acts as the Association's constitution. However, there are many conflicts between the governance structure in the Branch Rules document, and the governance structure depicted on AHA WA's website. For example, in the document the supreme governing body of the Branch is the Branch Committee of Management, whereas on the website it is the Executive Management team. Additionally, there is no mention of a board in the Rules document, but there is a Board of Management on the website.

*The governance structure has been taken from the Rules of the AHA WA Branch document instead of the current governance structure depicted on the website, due to conflicting information.

Organisational Analysis: Pharmacy Guild (WA Branch Focus)

Pharmacy Guild supports over 5,800 pharmacies across Australia. It is broken up into Territory Branches with more than 600 pharmacies as members in WA (est. 2017).

Organisational Information

The Pharmacy Guild's WA Branch's Annual Report can only be viewed by Members of the Organisation.

The Branch consists of the Branch Executive, and the Branch Committee. Where the Branch Executive consists of the Branch President, Branch Vice President(s) and the National Councillor(s). Additionally, in the Branch Executive, the position of Branch President and Vice President can also be held by a National Councillor, resulting in different numbers of Branch Executives between states.

The National council has the power to determine and direct policy, settle disputes, control the national fund, appoint an auditor and other activities relating to being the supreme governing entity.

The constitution does not specify who exactly elects the Branch President, or the Branch Vice Presidents, only that they are elected from the Branch. Whereas Branch Committee Members are elected by financial members in that region.

The Branch and the National Council shall appoint their own auditor. Resulting in potential conflicts of interest, as hypothetically the Branch and the National Council can appoint an auditor who audits in their favour.

Branch Executive consists of 2 – 6 Executive Members.	A b	Il powers and functions of the Branch Committee etween meetings of the Branch Committee.	
Branch Committee consists of 7 - 14 committee members (excluding the Branch executive).		Control the Branch fund, decide the agenda for and ttend special meetings.	

There is only one governing entity in WA for Pharmacy Guild, however the WA Branch consists of National Councillors, from the National Council which is the supreme governing body for the Pharmacy Guild. However, the Branch Committee can create subcommittees to carry out particular functions.

Relevance to WALGA BPGR

Pharmacy Guild WA was contacted to schedule an interview; however, they responded that they do not have time to discuss their governance model. The following insights have been made by research on their publicly available governance information and documentation.

- Representation: The interests of members are represented by the Branch Committee Members who are elected by the financial members of the same regions. Additionally, the interests of the National Council are represented in Branches by the National Councillors appointed in each Branch.
- Composition: The governance structure of the Branches of the Pharmacy Guild is adaptable to the needs of the Branch. Since the Branch Committee members can decide the number of Committee members needed in their branch, they can do so based on the needs of the Branch at any point in time, making the composition and size of the Branch adaptable to emerging needs. Also, the creation of additional branches and amalgamations of current branches is up to the decision of the National Council, enabling the National Council to alter the composition of the governance model nation-wide as needed.

*Since the number of members in governance entities is mentioned in the Constitution, the numbers have been estimated based on the current membership as per the Guild's website.

Best Practice Governance Review

4. Governance Principles

Development of Governance Principles

BPGR Steering Committee (SC) meetings and how they lead to the development of the proposed governance principles.

BPGR Steering Committee meetings

The BPGR Steering Committee (SC) was established by State Council to guide the review. SC Meetings 2 through to 5 acted as key inputs into the development of the Governance Model principles. The focus of SC Meetings two through to five led to the development of the governance principles.

SC Meeting 2 - On 8 June 2022, the initial draft of the comparator organisations and their governance structures was presented. The SC identified four assessment criteria for the purposes of assessing potential governance models. The assessment criteria were: (1) representation, (2) efficiency, (3) contemporary, and (4) sustainable. An Options Paper was then developed, using the assessment criteria against two governance model options.

SC Meeting 3 - On 28 June 2022, a discussion of the DRAFT Options Paper took place. The SC decided that a workshop was required to take a step back and develop the core governance principles (rather than assessment criteria) that needed to underpin any future governance model for WALGA.

SC Meeting 4 - On 18 July 2022, the SC discussed the principles and identified four principles that should guide WALGA's governance. They were Representative, Responsive, Results Oriented and Renewal. Renewal was the principle that some SC members deemed as optional and is not included as a separate principle. Some elements of renewal are incorporated into the other three principles.

SC Meeting 5 - On 10 August 2022, the SC discussed and finalised the proposed principles. Discussion focused on the principle components and their likely governance implications. Several activities also occurred around this SC meeting. This include an update to State Council at the Information Forum on 3 August 2022, finalisation of principles on 17 August 2022 to inform AGM Item and finalisation of Agenda Item for 2022 AGM, including approval by State Council.

Key outcomes

The SC agreed on the proposed governance model principles, their component parts and the implications of these principles. Specifically:

- Principle definition the definition of each of the three principles.
- · Principle component the key component parts of each principle.
- Principle component description a description of each principle component.
- Governance implications the governance implications of each of the principle components.

The following slide presents the principles, their components and a description and their governance implications.

14.4.2 Annual Electors' Meeting and Annual Report

Responsible Executive	Executive Governance and Strategy
Author	Manager Legal and Compliance
Attachments	1. Annual Report 2021-22 <u>J</u>

RECOMMENDATION

That Council:

- (1) ENDORSES the 2021/22 Annual Report for the year ending 30 June 2022 pursuant to section 5.54 of the *Local Government Act 1995*, accept, as presented in the attachment to this report*; and
- (2) HOLDS the Annual Electors' Meeting on Tuesday, 7 February 2023 at 7pm in the Council Chamber at Council's Administration Centre, 9 Coleville Crescent Spearwood, pursuant to section 5.27 of the *Local Government Act 1995.*

***TO BE CARRIED BY AN ABSOLUTE MAJORITY OF COUNCIL**

Background

The *Local Government Act 1995* (the Act) requires Council to accept the report no later than 31 December each year.

This is the last formal meeting in 2022 in which this can be undertaken.

Elected Members will be provided with the Financial Report and Auditor's Report at the Audit Risk and Compliance Committee on 7 December 2022, with the report and committee recommendation to be presented at this Council Meeting, by approval of the Presiding Member.

There will be a website link provided in the Annual Report to the full Financial Report in time for the Annual Electors Meeting.

The full financial report will be available on the City's website.

In accordance with Section 5.27 of the Act, an Annual Electors' Meeting (AEM) is to be held once every financial year on a day selected by the local government.

The Act and associated legislation prescribe the matters that are to be discussed.

Report

The purpose of this Report is for Council to:

228 of 610

- a) consider and accept (by absolute majority resolution) the 2021/22 Annual Report pursuant to the requirements of section 5.54 of the Act; and
- b) dermine the date, time and place of the Annual Meeting of Electors (AEM) pursuant to the requirements of section 5.27 of the Act.

The Annual Report is to contain the following information:

- A report from the Mayor and Chief Executive Officer
- An overview of the plan for the future of the district including major initiatives that are proposed to commence or to continue in the next financial year
- The financial report for the financial year
- The Auditor's report for the financial year
- Information as prescribed in relation to payments made to employees
- Information relating to the City's Disability Access and Inclusion Plan
- Information relating to the register of complaints about the conduct of certain officials
- Other information as prescribed including reference to the City's Information Statement, Public Interest Disclosure Act and Record Keeping requirements.

The CEO is to give local public notice of the availability of the Annual Report as soon as practicable after the report has been accepted by the Council and must publish the Annual Report on the local government's official website within 14 days after acceptance.

Once an Annual Report has been accepted by Council, an AEM is to be held within 56 days.

As prescribed by Regulation 15 of the *Local Government (Administration) Regulations 1996,* the purpose of an AEM is to discuss the Annual Report for the previous financial year and then any other general business.

The AEM presents an opportunity for electors to ask questions of Council and propose motions (recommendations).

Elector's present will then be asked to vote on proposed motions, which will allow Councillors to gauge what type of community support there is for different proposals.

Motions that are carried are considered by Councillors at the next appropriate Ordinary Meeting of Council.

Only electors are entitled to participate at the meeting.

In accordance with Section 1.4 of the Act, an elector is defined as, "elector, in relation to a district or ward, means a person who is eligible to be enrolled to vote at elections for the district or ward," and as depicted in section 5.26 of the Act this also includes ratepayers.

The AEM is proposed to be held on Tuesday 7 February 2022.

As was the case last year, the City will print no more than ten copies of the Annual Report in house, to have available at the Annual Electors Meeting.

After the meeting these copies will be re-distributed to the Administration Building and Cockburn Libraries.

A digital copy will be available on the website.

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable, and progressive organisation.

• Best practice Governance, partnerships and value for money.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

The City is required to effect local public notice of the meeting details of the Annual Electors Meeting, the costs of which are met by existing budget provisions.

Legal Implications

Local Government Act 1995

s5.27 Electors' general meetings s5.32 Minutes of electors' meeting s5.33 Decisions made at electors' meetings s5.54 Acceptance of annual reports s5.55 Notice of annual reports s5.55A Publication of annual reports

Community Consultation

Local public notice is required under the Local Government Act 1995.

Risk Management Implications

The City must hold an Annual Electors Meeting within 56 days of acceptance of the Annual Report.

The proposed date of Tuesday, 7 February 2022 meets this requirement.

Advice to Proponent(s)/Submitters

Electors of the City of Cockburn are informed by local public notice in accordance with the *Local Government Act 1995*.

Implications of Section 3.18(3) Local Government Act, 1995

About the Annual Report

The *Local Government Act 1995* requires local governments to adopt an annual report by 31 December each year or within two months of the Auditor General's report on the City's financial statement being available. The City of Cockburn meets this requirement by producing a detailed report annually.

The City's Annual Report is an important part of the Integrated Strategic Planning and Reporting Framework. It details the City's financial and operational performance in the 2021-2022 financial year and documents the City's progress towards the Strategic Community Plan 2020-2030 (SCP).

The SCP provides the City's long-term strategic direction and guides the organisation's decision-making, services and financial commitments. The SCP outlines the City's promise to its community via its Vision, Purpose and Key Community Outcomes.

Purpose

Support our communities to thrive by providing inclusive and sustainable services which reflect their aspirations.

Key Community Outcomes

These are the five key community outcomes which the City seeks to deliver through the Strategic Community Plan.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

Listening and Leading

A community focused, sustainable, accountable and progressive organisation.

The City of Cockburn Annual Report includes a snapshot of performance against the Key Community Outcomes and an overview of the City's outlook for the future.

Mayor's Report

I am delighted to present my 14th annual report after another year of great achievement for the City, despite the continued impacts of COVID-19 and cost of living pressures.

Council adopted the City's 2022-23 fiscally responsible budget in June 2022, with Cockburn households continuing to pay some of the lowest rates in Perth.

The City's 2021 population forecast was 118,091¹ and is estimated to grow to 165,989² by 2041. We must continue to expand our infrastructure and manage our assets, with finite resources.

Last year, the City gave \$1.23m back to Cockburn in grants and donations for community groups and environmental, sporting and cultural projects.

I proudly opened the \$10.5m Frankland Park Sports and Community Facility and the \$7.3m Treeby Community and Sports Centre, both significant assets that enable communities to recreate and gather together.

The opening of the City's new look environment hub was the culmination of 20 years of planning. Cockburn Wetlands Precinct is home to not-for-profit organisations WA Wildlife, The Wetlands Centre and Cockburn and Bibra Lake Scout Groups. We continued our successful Turtle Tracker program co-created with Murdoch University to monitor and protect the near-threatened Southwestern snakenecked turtle.

The efforts of professional and volunteer wildlife carers, volunteer citizen scientists and Cockburn staff saved potentially hundreds of native freshwater turtles from death during the 2021-22 nesting season. The program will now be expanded across WA.

Climate change continues to be a major risk for all levels of government. In an Australian first, 135 precast concrete modules were craned 100m offshore at C.Y. O'Connor Beach to form an engineered fringing reef to reduce coastal erosion.

The International Association for Public Participation named the City and the City's partner Perth-based Town Team Movement winners at its 2021 Core Values Awards for community consultation for the City's Climate Change Strategy (2020-2030).

The City's Cockburn Youth XLR8 Motocross program was also shortlisted at the Institute of Public Administration Australia WA 2021 achievement awards. This grassroots City program reduced illegal and unsafe motorbike use in our suburbs.

¹ = Source: ABS, ² = Source: REMPLAN

The City's unique Coogee Live 2021 beachside festival won a prestigious national accolade at the 2021 Australian Event Awards, with its accessibility and culturally diverse features gaining the judges' attention.

The Cities of Cockburn and Melville were recognised by Reconciliation Australia for a ground-breaking program that empowers staff to support First Nations workmates impacted by racism.

The 'Let's Talk About Racism' initiative featured as a case study in Reconciliation Australia's 2021 Reconciliation Action Plan Impact Report.

The City continued to support the arts with its annual 'Show Off' art exhibition attracting more than 65 artists.

The City's Community Fund provided \$60,000 sponsorship to Fremantle Biennale's 'Moombaki', a choreographed drone light show recreating the first stories of Whadjuk Nyungar Country.

People living with disability enjoyed a range of all-abilities sports at the City's inaugural Disability Sporting Day on International Day of People with Disability.

The Aboriginal Cultural and Visitors Centre moved a step closer with the finalisation of designs. Council is

set to consider going out to tender to start building in 2023.

The City is excited by its \$12m expansion of Cockburn ARC and co-located facilities at Fremantle Football Club.

The project will provide oval seating for 250 spectators, community changerooms with female and gender-neutral facilities, new changerooms for Fremantle's AFL Women's team plus an extra 550sqm of gym floorspace at ARC's three health studios.

I would like to thank outgoing CEO Tony Brun for his invaluable input and impact during the City's significant structural reform and transformation program.

Finally, thanks to the hundreds of dedicated volunteers in the City who give up thousands of hours each year to help make Cockburn the best place to be.

Logan Yow lett.

His Worship the Mayor Logan K. Howlett, JP

Remembrance Day at Memorial Hall: (L-R) Mayor Logan Howlett, Councillor Tarun Dewan, Councillor Phoebe Corke, Councillor Michael Separovich - November 2021

Chief Executive Officer's Report

Service delivery, infrastructure and strategic planning were the standout achievements for Cockburn this year.

Council and the Administration prioritised strategic planning commitments by reviewing the Strategic Community Plan objectives and Corporate Business Plan activities.

A successful organisation has the right people, with the right skills at the right time to collectively achieve its purpose.

The City developed a new Workforce Plan 2022-26, to create and sustain a skilled workforce. It ensures

we continue to attract, retain and upskill our most valuable assets to fulfil our vision of being an employer of choice.

Significantly, the Council adopted a range of strategic documents to take our City's transparency and strategic processes to the next level and reinforce Cockburn as the benchmark local government.

With a performance index score of 73, as rated by you, our community, Cockburn is a leader among similar Councils.

We're always striving to improve, and the research highlights the priorities the City should focus on. These include safety and security and streetscapes, particularly in our older suburbs. We will continue to work with State and Federal governments, stakeholders, industry and the community to achieve the best outcomes.

In a major boost to the priority of improved traffic and transport congestion, several major capital works projects are now complete. The final stage of Jandakot Road has transformed a once dangerous two-way rural road into a safer contemporary fourlane carriageway.

The City welcomed completion of the Karel Avenue upgrade and the Armadale Road to North Lake Road bridge after several years of advocating to ease traffic congestion in Cockburn Central.

At a time of high national inflation and construction costs, rising interest rates and a tight labour market, it is critical we continue to deliver value-formoney services for our community.

We have reduced recurrent and capital works expenditure without negatively impacting service delivery. Council, in consideration of prevailing market conditions, delayed or deferred several capital works projects. A focus on supporting our local economy, including creating jobs and skills, has enabled us to provide our 8,500 local businesses with educational workshops, scholarships and reduction in government red tape.

The City granted more than \$184,000 to nearly 50 Cockburn businesses during the period.

In closing, I would like to acknowledge the work of outgoing CEO Tony Brun and wish him all the best for the future.

A Snapshot of our City

Based on Australian Bureau of Statistics 2021 Census data

Cultural Diversity in Cockburn

Diversity statistics in Cockburn from the 2021 Census

Australian Census 2021 results show that the City of Cockburn is becoming more culturally diverse. Overall, 34.2 per cent of the population was born overseas.

The most common ancestries

The most common countries of birth

The common languages other than English spoken at home

In 2021, 26.1 per cent of residents spoke a language other than English at home, above the average for WA (21.2 per cent).

5.3	Undertake three strategic service reviews.						

Governance Report

Compliance

The Department of Local Government, Sport and Cultural Industries (DLGSCI) requires all local governments to complete a Compliance Audit Return March 2022 (CAR 2021).

The City utilised the services of Macri Partners to subject the CAR 2021 to an external audit before submitting the CAR 2021 to Council. Based on the audit methodology employed, Macri Partners confirmed that the City's responses to the questions in the audited sections of the CAR 2021 are correct.

The City utilises an online compliance management system for statutory forms such as financial disclosures, gifts, travel contributions and delegated authorities.

Legislative Review

Section 3.16 of the *Local Government Act* 1995 requires that all of the Local Laws of a local government must be reviewed within an eight-year period after their commencement to determine if they should remain unchanged or be repealed or amended. The City commenced a review of the *Standing Orders Local Law* 2016, expected to be completed in FY23.

Freedom of Information

The Freedom of Information (FOI) Act 1992 gives members of the public the right to access documents held by local governments, subject to limitations. The City prepared, as required by section 96 of the FOI Act, an up-to-date information statement and made it available to the public. The City had 29 FOI requests in the 2021-2022 financial year.

Public Interest Disclosure

The Public Interest Disclosure (PID) Act 2003 promotes accountability within state and local government agencies and organisations by facilitating the disclosure of public interest information involving misconduct, offences and misuse of public resources or risks to public health or safety. The Act aims to protect informers who make public interest disclosures. In the 2021-2022 financial year, the City had no disclosures under the PID Act.

Audits – External and Internal

External

The Western Australian Office of the Auditor General is responsible for auditing the local government sector and conducted audits on local government in the following areas:

- Local Government COVID-19 Financial Hardship Support, 15 October 2021
- Cyber Security in Local Government, 24 November 2021
- Viable Cycling in the Perth Area, 9 December 2021
- Information Systems Audit Report 2022 Local Government Entities, 28 June 2022.

The City has adopted the recommendations from the audit findings.

Internal

On 15 March 2020, pursuant to section 56 of the *Emergency Management Act 2005*, the Western Australian Minister for Emergency Services, declared a State of Emergency in Western Australia effective 12am, 16 March 2020, due to the pandemic caused by COVID-19. A range of restrictions were put in place to limit the spread of COVID-19. Subsequent lockdowns ensued which meant prioritising the operations and services delivery of the City and requiring non-essential employees to begin a work from home regime.

In view of the restrictions imposed by COVID-19, and following discussions with audit plan stakeholders, internal audits which had been scheduled were postponed.

28

Governance Report (continued)

Competition Principles Agreement

In 2007, all Australian governments recommitted to the Competition Principles Agreement (CPA), (11 April 1995). The CPA is an inter-governmental agreement between the Commonwealth and state/territory governments that sets out how governments will apply National Competition Policy Principles to public sector organisations within their jurisdiction.

The National Competition Policy itself concluded in 2005-2006 and has been succeeded by Australia's National Reform Agenda which is an addition to, and continuation of, the National Competition Policy reforms. The Competition Principles Agreement (as amended 13 April 2007) sets out nominated principles from the agreement that now apply to local government. The provisions of Clause 5 within the CPA require local government to report annually on the implementation, application and effects of Competition Policy. Competition Policy does not require contracting out or competitive tendering. It does not preclude local government from continuing to subsidise its significant business activities from general revenue, nor does it require privatisation of government functions. It does require local governments to identify their significant business activities and apply competitive disciplines to those businesses which compete with the private sector.

A number of the City's services are exempt from the Competition Policy, as it applies only to business activities that generate income in excess of \$200,000 from fee revenue that is directly generated from external users and an operating expenditure greater than \$2m. Activities undertaken by the City which have previously been considered for market testing, owing to the competitive nature of the service include:

Cockburn ARC (Aquatic and Leisure Centre).

The City has resolved to retain the in-house provision of Cockburn ARC, domestic waste collection and its waste disposal business.

Risk Management

Following tender RFT26/2020, Risk Management and Safety Systems Pty Ltd, trading as RMSS, was retained by the City and awarded a threeyear contract with the City. RMSS is a cloudbased online enterprise risk management software, and version 16 of the software was brought online for the City on 26 April 2022.

Business Continuity

Since the declaration of the State of Emergency in WA on 15 March 2020, as a result of the COVID-19 pandemic, the City has been working under the guidelines issued by the WA Health Department while updating its Infectious Disease Pandemic Business Continuity Plan. This plan has enabled the City to identify and manage resources to continue its critical operations and delivery of essential services to the community.

A review of the City's business continuity planning is underway to ensure appropriate actions are taken by the City should any incident cause, or threaten to cause, serious impact to the continuity of its operations and service delivery to the community.

Recordkeeping Compliance Report

Evaluation of Recordkeeping Systems

Work was undertaken with the organisation's Corporate Affairs Division and Management Accounting Service Unit to review their recordkeeping practices through the Knowledge Management project. This resulted in a number of changes to processes to improve recordkeeping within the teams and reduce the amount of information being stored outside of the recordkeeping system.

The City's Recordkeeping Plan was reviewed on 7 April 2022 and the review report submitted to the State Records Commission. The report commits to submitting an amended Recordkeeping Plan by 31 March 2023.

Recordkeeping Training Program

All new staff are required to undertake an online Records Awareness Training (RAT) course. The interactive course outlines the recordkeeping roles and responsibilities of all employees at the City. Participants must undertake and pass a short assessment at the completion of the course. Employees must then repeat the course every two years.

An online course outlining the specific recordkeeping responsibilities of managers and supervisors has also been implemented.

Regular training for new and existing staff is also held on the use of the organisation's electronic document and records management system called Enterprise Content Management (ECM).

Evaluation of the Recordkeeping Training Program

All participants who attend ECM training are asked to complete a training feedback form. The feedback forms are regularly reviewed and suggestions for improvements are incorporated into the training program.

Recordkeeping Induction Program

New staff must complete the RAT and where relevant ECM training as part of their induction. New managers/supervisors are also required to complete the online Recordkeeping Training for managers and supervisors.

Breaches by Elected Members

Minor breach complaints

In the financial year ended 30 June 2022, there were no complaints upheld regarding an elected member's conduct under Section 5.121 of the *Local Government Act* 1995 (WA).

30

Building and Statutory Planning Approvals Report

Building

- 2,554 building permits issued
- 薞 Total value of building works \$502m
- Average time of 13 working days to issue all building permits

Building approvals for the previous four years are as follows:

- The average issuance time for a building permit in 2021-22 was:
 - Certified 7 working days
 - Uncertified 19 working days.

Year Ending	Number of Permits	\$million Value	\$million Fee	Residential	Commercial	Industrial	Other
30 June 2019	2,230	506	0.848	988	27	46	1,433
30 June 2020	2,247	349	0.712	1,076	80	14	1,169
30 June 2021	3,444	616	1.24	1,993	121	9	1,321
30 June 2022	2,554	502	0.973	1,132	129	18	1,276

Statutory Planning

Statutory Planning received 1,141 development applications, a 24.68 per cent increase from the previous year

564 development applications were required to be determined within 60 days. The City determined 81.86 per cent of those applications within 60 days

174 development applications were required to be determined within 90 days. The City determined 71.60 per cent of those applications within 90 days 131 new lots were approved (green title, survey strata and built strata), an increase of 34.17 per cent from the previous year

The estimated construction value of all development applications received over the year increased by 18.73 per cent over the previous year to \$49.7m.

Community Engagement and Customer Satisfaction

The City is committed to engaging with its community and providing exceptional service. This section summarises the engagement undertaken in this financial year and outlines the results of the customer surveys.

Community Engagement Report

The City undertakes community engagement throughout the year to seek feedback on various initiatives and to inform the community of its priorities.

The City's focus is to inform, consult and provide opportunities for active participation in City projects and activities. The City uses a variety of methods to seek feedback including listening posts, workshops, surveys, meetings, one-on-one conversations and more.

These projects are communicated using a number of mediums. Some examples include direct mail, newspaper advertisements, e-newsletters, social media and signage.

Over the past 12 months, the City has attracted community input via its Comment on Cockburn community engagement website which had:

Cockburn, the best place to be

Community Engagement and Customer Satisfaction (continued)

Customer Satisfaction

The City undertakes independent customer satisfaction surveys across a number of service units each year. The percentage of satisfied customers reported is the number of customers who scored the service seven or more out of 10.

State of Sustainability Report

The City of Cockburn's 12th annual State of Sustainability Report is a snapshot of the City's collective efforts in working towards a sustainable future.

The City had 76 indicators for sustainability across the organisation along with a number of high-level targets across five key sustainability areas: water conservation, waste minimisation, energy and emissions reduction, biodiversity and liveability. One hundred per cent of the key performance indicators were in progress or achieved during 2021-2022 reflecting the City's ongoing commitment to pursuing sustainability excellence. Below is a snapshot of the City's sustainability highlights for 2021-2022.

Sustainability Highlights

Our Operations

Retained Gold Waterwise Council status

Maintained a zero emissions fleet via the carbon offset program.

Our Projects

City of Cockburn Wetlands Precinct upgrade complete

Rehabilitation of 4.5ha of bushland and planted 55,000 seedlings

Installed a 100m artificial fringing reef and 35m seawall at C.Y. O'Connor Beach, to reduce coastal erosion impacts of climate change.

Fringing reef at C.Y. O'Connor Beach - March 2022

To read full story scan QR code

Our Facilities

Installed additional 60kW solar photovoltaic systems on the Treeby Community and Sports Centre and the Frankland Park Sport and Community Facility

Frankland Park Sports and Community Facility and Treeby Community and Sports Centre completed with integrated Environmentally Sustainable Design features.

Supporting our Community

Delivered two carbon neutral events, Christmas on the Green and Cockburn Rotary Spring Fair

Awarded 14 sustainability grants

Awarded \$99,500 to 27 local businesses through the Local Economic Development Grants.

State of Sustainability Report (continued)

Disability Access and Inclusion Report

The City's Disability Access and Inclusion Plan (DAIP) provides a framework for translating the principles and objectives of the *Disability Services Act 2003* into achievable initiatives. Below are the highlights for implementation of the DAIP for the 2021-2022 financial year.

Outcome 1: People with disability can access City of Cockburn services and events

The City hosted its first Disability Sports Day event at the Cockburn ARC to celebrate International Day for People with Disability. It was attended by over 120 people

The City trialled the use of communication boards at the Disability Sports Day to assist people with communication needs to access City facilities. The trial is continuing throughout the pool areas and stadium at the Cockburn ARC

The City is piloting a music program targeting people with disability. The program targets individuals who do not engage in sport as an alternative program to gauge appetite for an arts-based activity.

Outcome 2: People with disability have equal opportunity to access the buildings and other facilities at the City of Cockburn

The Treeby and Frankland Sports and Community facilities have been completed. The design and development of both centres included an access assessment to ensure universal use of the facilities

Accessible toys for children with disability have been purchased for the Treeby Community Centre toy library

The City's marina upgrade has been completed and included refurbishment of the Coogee jetty along with the installation of an access ramp to the water's edge.

Outcome 3: People with disability receive information that is readily accessible from the City of Cockburn

The City was proud to be one of the finalists for the 2021 Australian Access Awards for its accessible website and content

During the COVID-19 pandemic the City provided one-on-one support to residents to navigate COVID-19 information such as providing proof of vaccination, myGov access and assistance to understand the restrictions on community.

Outcome 4: People with disability receive the same level of quality service as other people in the community from staff at the City of Cockburn

The City has a mandatory induction requirement for new staff to undertake disability awareness training

Staff were trained in creating accessible documents and easy to read documents to continue the commitment to providing accessible information

Cockburn Libraries introduced an Auslan workshop to staff and community members, to build awareness of this method of communication for the deaf and hard of hearing community and offered basic language skills to build confidence.

Disability Access and Inclusion Report (continued)

Outcome 5: People with disability have equal opportunity to lodge complaints to the City of Cockburn

The website offers several ways to connect with the City through either a web form, phone contact, email message and social media

The City encourages in-person contact and our customer service staff are well equipped to support those interactions

The City supplies hearing loops to support those requiring specific assistive technology to communicate effectively with staff. The trial of the communication boards will hopefully identify additional means to provide feedback.

Outcome 6: People with disability receive the same level of quality service as other people in the community from staff at the City of Cockburn

The City has worked hard to develop its Disability Reference Group which now has a balance in favour of people with disability over service providers

The Disability Access & Inclusion Officer has attended several community group public speaking events to build awareness of access and inclusion matters related to our community and provide pathways to connect and provide feedback

The City, as standard practice, provides a variety of methods for people to engage and participate in consultations using the website, phone, email, in person or in writing.

Outcome 7: People with disability receive the same level of quality service as other people in the community from staff at the City of Cockburn

The City has been reviewing the way it advertises its vacant positions, aiming to attract more people with disability, Aboriginal and Torres Strait Islander people and people from a culturally diverse background.

WA Blind AFL Eagles and Dockers training at Cockburn ARC - March 2022

Disability Sports Day at Cockburn ARC December 2021

The Plan for the Future

This section of the annual report outlines the City's plans for the future, identifies emerging issues and provides an overview of the Strategic Community Plan and the Corporate Business Plan.

Emerging Issues

COVID-19 Pandemic

The unprecedented challenges presented by the COVID-19 pandemic are evolving as the world shifts into recovery. The social and economic impacts of the pandemic are still palpable and continue to present challenges to local government. The City will continue to support the community while finding solutions to the current labour and materials market shortages.

Economic Challenges

While Australia's unemployment rate as at August 2022 was 3.5 per cent, WA's rate is the lowest in the country at 3.1 per cent. Significant challenges remain as the State recovers from the lockdowns and restrictions implemented at the height of the COVID-19 pandemic. The City will focus on supporting economic recovery as Australia moves away from restrictions imposed at the height of the pandemic.

Environmental Challenges

Climate change impacts have been identified as a key factor for future planning. The City will need to be prepared for a possible rise in sea level, an increase in erosion impacts on vulnerable coastal areas, an increase in temperatures and a drying climate. The reduction of the City's tree canopy, decrease in groundwater availability and bushfire mitigation are also key environmental challenges for the future.

City Growth and Moving Around Challenges

Traffic congestion will continue to be a priority area due to population growth. It is anticipated that improvements in car driving behaviour, public transport and transport networks will reduce traffic congestion. The City will need to identify strategic partnerships and work collaboratively with the State and Federal governments to address this issue.

Community, Lifestyle and Security Challenges

Services to enhance safety and security, and services to support our ageing, culturally diverse and growing community, continue to be important priorities into the future. Community safety and crime prevention issues are complex in nature and require all levels of government and the community to work together to achieve significant change over the life of this plan. An increase in mental health and social issues will require the City to continue to increase provision or facilitation of responsive local social support and mental health services for the community.

Listening and Leading Challenges

Financial sustainability challenges will continue, including pressure for rate capping, increasing ratepayer expectations and demand to decrease 'red tape', labour market shortages, and increased materials costs. Over the next 10 years it is anticipated that society will continue its digital transformation journey that will enable new innovative products and services, drive efficiency and allow better decision-making. Legacy systems are also an emerging issue that are creating challenges for large organisations to be agile and quickly adapt to change. Cybersecurity continues to be a global and local risk that will need to be managed into the future.

Integrated Planning and Reporting Framework

Strategic Community Plan

The City's Strategic Community Plan 2020-2030 sets the strategic direction for the organisation. A minor review of the plan was undertaken in 2021 and the next major review is scheduled for 2024. The City continues to deliver on the vision and outcomes identified through the Strategic Community Plan.

Corporate Business Plan

The Corporate Business Plan 2020-2021 to 2023-2024 outlines the City's activities to deliver against the Strategic Community Plan 2020-2030. The Corporate Business Plan hinges on the acceptance of priorities, outcomes and strategic objectives included in the Strategic Community Plan.

Coogee Community Garden: (L-R) Councillor Phoebe Corke, Councillor Philip Eva JP, Simone Sieber Community Development Lead, Councillor Kevin Allen and Mayor Logan Howlett - August 2021

The Year Ahead

Below are the priority projects the City is undertaking in the 2022-2023 financial year to deliver against each of the community outcomes, as outlined the Corporate Business Plan. For full details on the City's priority projects please refer to the City of Cockburn Corporate Business Plan 2020-2021 to 2023-2024.

Local Economy

Increased investment, economic growth and local employment

Position Cockburn as a leader in the Blue Economy

Develop visitor economy approach.

Thriving local commercial centres, local businesses and tourism industry

Deliver business grants program supporting economic development principles, policy and guide

Small Business Friendly Approvals Project implementation.

Environmental Responsibility

Tr)

Protection and enhancement of our natural areas, bushland, parks and open spaces

Coogee Beach Masterplan review

Review Urban Forest Plan 2018-2028

Undertake Yandjet Park Yangebup improvements.

Sustainable resource management including waste, water and energy

Electric vehicles chargers at all City infrastructure with solar

Waterwise Council Action Plan 2018-2028

Henderson Waste Recovery Park redevelopment

Develop the Coastal Management and Development Plan.

Community, Lifestyle and Security

Accessible and inclusive community recreation and cultural services and facilities that enrich our community

Review the Disability Access and Inclusion Plan

Malabar BMX Park redevelopment

Beale Park redevelopment

Port Coogee community space

Wally Hagan Recreation Centre redevelopment

Cockburn ARC – health and fitness expansion

Coogee Golf Course review

Beeliar Reserve redevelopment

Tempest Park redevelopment

Santich Park upgrade

Manning Park Master Plan implementation

Review the Community, Sport & Recreation Facilities Plan 2018-2033

Multicultural Centre for Sport and Education – ARC Precinct.

A safe and healthy community that is socially connected

Smart Buildings project.

Aboriginal and Torres Strait Islander cultures and other diverse cultures and heritages are recognised and celebrated

Aboriginal Cultural and Visitors Centre development

Review the Reconciliation Action Plan 2018-2021.

40

City Growth and Moving Around

An attractive, socially connected and diverse built environment

Prepare the new Local Planning Strategy for the district

Prepare the new Local Planning Scheme for the district

Cockburn Central town centre parking facility feasibility study

Reconnecting Hamilton Hill (post Roe 9) urban renewal project

Spearwood civic precinct renewal

Spearwood land development.

Cockburn Central as the capital of Perth's South Metro Region

Cockburn Civic and Cultural Centre

Cockburn Central West car parking (Poletti Road).

An integrated, accessible and improved transport network

Review and update the City's District Traffic Study 2018

Advocacy for Cockburn Road upgrade, pedestrian crossing and car parking

Semple/Berrigan realignment

Hammond Road duplication.

Listening and Leading

Best practice governance, partnerships and value for money

Deliver divisional strategy reform

Review organisational risk management maturity

Undertake three strategic service reviews

Review and implement the Corporate Governance Framework

Refine the long-term financial planning methods to better integrate with the City's Strategic Community Plan objectives

Operations Centre expansion.

High quality and effective community engagement and customer service experiences

Progress community priorities highlighted in MARKYT Community Scorecard 2021

Deliver Elected Member civic support.

Employer of choice focusing on equity, innovation and technology

Develop and implement Smart Cities projects in partnership with South West Group

Review requirements for required website upgrades.

14.5 Corporate Affairs

14.5.1 Indonesian Delegation Visit - 12 to 18 March 2023 - Elected Member Participation

Responsible Executive	Executive Corporate Affairs
Author	Executive Corporate Affairs
Attachments	N/A

RECOMMENDATION	
That Council:	

- (1) ENDORSES the following two Elected Members to join the Indonesian Delegation:
 - 1. _____
 - 2. _____

Background

At the 11 August 2022 Ordinary Council Meeting, Council endorsed the following:

- (1) NOTED the opportunities identified in developing a strategic economic partnership with Indonesia; and
- (2) ENDORSED the recommendations for development and engagement with Indonesia in FY23, including a delegation visit to Jakarta and Surabaya – Recommendation for Council to be represented by the Mayor, CEO, Executive Corporate Affairs, Lead, Business and Economic Development and up to two Elected Members.

Submission

N/A

Report

The delegation to Indonesia is an economic exchange and there is no formal relationship in place, the CEO ballot process is considered the most appropriate selection process is to be undertaken in the event more than two nominations for Elected Member participation are received.

Elected Members are requested to submit a nomination in writing to the CEO ahead of the Ordinary Council Meeting.

In the event more than two nominations are received, a CEO ballot will be conducted.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

Budget/Financial Implications

Cost estimated for the delegation visit indicate a total of \$20,268 (excluding food and beverage) will be required for the Council nominated representatives to attend.

Estimates were tabled at the 24 November 2022 Expenditure Review Committee Meeting, seeking approval as an additional budget item.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

There is a moderate risk to Council if the recommendation is not endorsed.

There is also a significant risk to nominated elected members in planning for the event and securing a passport in the time available.

Advice to Proponent(s)/Submitters

15. Reports-Standing Committee

15.1 Expenditure Review Committee Meeting – 24/11/2022

15.1.1 Manning Park - Cost of Closing and Rehabilitating Unsanctioned Trails

Responsible Executive	Chief of Built and Natural Environment				
Author	Environmental Coordinator - Management, Planning and Policy				
Attachments	 Request for Indicative Quotation - Manning Park Trail Closures <u>1</u> 				

Officer Recommendation

That the Committee recommends Council:

(1) NOTES the officer's report.

Committee Recommendation That Council:

(1) NOTES the officer's report; and

(2) ALLOCATES \$50,000 for consideration in the draft 2023-24 Budget to identify and map, through aerial imagery and ground truthing all trails, both formal and informal, in the upland area of the Manning Park Reserve

Reason

There is value in identifying mapping the existing trail network with a short (1 day) site visit to verify the assumptions from the mapping.

It is not uncommon that this sort of work should cost in the order of \$15,000 to \$25,000 based on the size and the density of the vegetation.

I have done many of these projects in my professional capacity and it is quite simple to run through.

There is value in a site visit, that is not particularly expensive to do, given we are in the metropolitan area and no travel/airfare costs will be incurred, to ensure the requirements of the DBCA process to have the data done ahead of time as quickly as we can.

Background

The City of Cockburn is responsible for the management of Manning Park.

There are a variety of people using the trails in the upland area of the Park.

The upland area is described as area 30 in the Beeliar Regional Park Management Plan.

Trail users include walkers, trail runners, orienteers and mountain bikers.

Numerous unsanctioned trails have been created by mountain bikers in the upland area without authorisation from the City.

Left unmanaged, the continued creation of unsanctioned trails will increase the risk of weed invasion, erosion and vegetation degradation.

A Community Engagement Group (CEG) was established to work through some of the issues, including those relating to the Manning Park Mountain Bike Concept Plan.

Advice from the CEG was used to inform a Council Report which was presented to Council at the 12 May Ordinary Council Meeting.

The resulting recommendation from the Council meeting was that Council:

- (1) Defers any decision regarding trails in the Manning Park upland area (Area 30 – as described in the Beeliar Regional Park Management Plan), until such time as the Expenditure Review Committee (ERC) have been provided, for consideration and recommendation to Council, a report detailing costs and presumptive timings for:
 - (i) A full evaluation of the biodiversity and environmental values of the area
 - (ii) An Aboriginal Heritage Assessment
 - (iii) A European Heritage Assessment
 - (iv) Creation of a derailed specific Management Plan for Area 30
 - (v) Commencing a structured process regarding trails development following the DBCA Trails Development Process – Eight Staged Planning Process.
- (2) Forms a Community Advisory Group for the area once the Management Plan is completed, to guide and inform the Management Plan and future management of Manning Park.
- (3) Requests said report to be presented, at the latest, to the September 2022 meeting of the Expenditure Review Committee (ERC).

As per the Council recommendation, a report was presented to the 21 September 2022 ERC.

The ERC report provided cost estimates and an implementation timeline for the activities listed in the Council recommendation.

As a result of the report the ERC recommendation was that Council:

(1) NOTES the officer's report

278 of 610

- (2) ALLOCATES funds from the FY23/24 Municipal Budget for a combined Flora and Fauna Survey, and for a detailed Aboriginal and European Assessment
- (3) ADOPTS and ENDORSES the Department of Biodiversity, Conservation and Attraction's 8 Step Plan as a framework for investigating formalised trails in Manning Park
- (4) REQUESTS a report to the November 2022 Expenditure Review Committee which provides an indication of the likely interim costs to protect and maintain Manning Park.

Council, at the 13 October 2022 Ordinary Council Meeting subsequently resolved to adopt the Committee's recommendation.

This report has been prepared to address Recommendation (4) above, which has been interpreted as: to identify costs to close and rehabilitate trails currently used by mountain bikers.

Submission

N/A

Report

The protection and maintenance of the Manning Park upland area from unsanctioned trail development and use would be addressed through two phases of project delivery:

Phase 1 Trail Identification, Closure and Site Remediation

Phase 2 Ongoing Compliance Enforcement and Public Education Messaging

Phase 1 – Trail Identification, Closure and Site Remediation

To estimate the cost of protecting and maintaining Manning Park, the spatial extent of all unsanctioned trails needs to be determined.

This is likely to be a challenging exercise due to the long history of unauthorised trails being established in the reserve over many decades.

Some of these unsanctioned trails have become so well used, by both mountain bikers and other park users, that they now appear as formal tracks.

As some of these well-established trails now form an important part of the movement network for Manning Park, the City would need to consider the implications that closing these trails would have on the broader community. Despite being unsanctioned, these trails provide an important function and further analysis and consultation would be required to determine the level of impact of closing some trails.

As further investigation is required, Phase 1 has been broken down into smaller steps to help get a better understanding of the overall cost of trail closure and remediation. These steps are outlined below:

- 1. Undertake a Trails Audit to determine the location, length and average width of all trails (both formal and informal) with the upland area of the reserve. <u>To be undertaken by a consultant</u>.
- 2. Categorise each of the trails according to condition (good/medium/poor). <u>To be undertaken by a consultant.</u>
- Categorise each of the identified trails according to level of usage (low/ medium/high).
 It is envisaged that this would be determined through smartphone applications like Strava and through onsite observations.
 To be undertaken by a consultant.
- 4. Categorise each of the identified trails according to the predominant type of usage (predominantly walking/predominantly biking/other). <u>To be undertaken by a consultant</u>.
- Categorise each of the identified trails according to underlying gradient and the potential to cause environmental harm (unlikely/likely/environmental harm observed onsite).
 Note: erosion and vegetation degradation are exacerbated on steep terrain. <u>To be undertaken by a consultant</u>.
- 6. Prepare a Trail Categorisation and Mapping Report to display the information obtained through the implementation of Steps 1-5. <u>To be undertaken by a consultant</u>.
- 7. Consult with the existing Manning Park Trails Community Engagement Group to select trails for closure based on a review of the Trial Categorisation and Mapping Report with the aim of developing a Trail Closure Plan. <u>To be independently facilitated</u>.
- 8. Advertise the Trail Closure Plan to the City of Cockburn community. <u>To be undertaken by the City</u>.
- 9. Make adjustments to the Trail Closure Plan based on community input. <u>To be undertaken by the City</u>.
- 10. Install signage in the reserve to advise of impending trail closures. <u>To be undertaken by the City</u>.

- 11. Close off and revegetate all selected trails. <u>To be undertaken by the City</u>.
- 12. Maintain the revegetation areas with watering and weed control over the standard five-year establishment period. <u>To be undertaken by the City</u>.

Costs for Step 1 to Step 6

Indicative quotes were sought from two (2) specialist trail design consultants to undertake Step 1 to Step 6 (inclusive).

One consultancy quoted \$50,000 to perform the works and the second consultancy declined the quotation request.

Steps 1 to 6 could be implemented in the 2023-2024 financial year should funding be made available.

Costs for Step 7

The cost of implementing Step 7 is estimated to be \$15,000.

This estimate is based on the costs expended in 2021 for appointing a facilitator and hiring venues to consult with the CEG on issues associated with the Manning Park Mountain Bike Trail Concept Plan.

Step 7 could be implemented in the 2023-2024 financial year should funding be made available.

Costs for Steps 8 and 9

The community consultation required to perform Step 8 and Step 9 requires no additional budget allocation.

It is anticipated that roughly ten (10) hours of officer time would be required to complete these tasks.

Step 8 and Step 9 could be implemented in the 2023-2024 financial year.

Costs for Steps 10, 11 and 12

It is very difficult to estimate the cost of executing Steps 10, 11 and 12 as the actual extent of trails requiring closure, revegetation and maintenance would be dependent on the outcomes and recommendations of the assessment of trails outlined above.

The cost estimates provided for Steps 10, 11 and 12 have been provided using the limited information available at this time and should therefore be viewed as indicative only.

Figure 1, below, depicts the extent of trails used by mountain bikers in Manning Park, with over 17km of trails being used. However, some of these may also be used by other trail users.

The number of trails to that would actually be closed down would be identified in the Trails Closure Plan. Steps 10, 11 and 12 will be calculated based on the assumption that 10km of trails would be closed and there are 10 trails, each 1km in length.

Figure 1: Trails used by Mountain Bikers in Manning Park.

Source: http://www.trailforks.com/region/manning-park-1486544341

282 of 610

To implement Step 10, temporary signage would be deployed at the beginning and at the end of each trail for a two-week period.

This would require the print and design of 20 corflute signs, for which the current market rate is for \$10 per sign.

These signs would then be deployed using the City's existing supply of star pickets. The cost of implementing Stage 10 has therefore been estimated at \$200.

Step 10 could be implemented in the 2024-2025 financial year should funding be made available.

Trail closure would then be initiated by installing two metres of temporary fencing at each end of the 10trails to prevent access.

The City currently purchases temporary fencing at a rate of \$15 per linear metre.

Using this price, the overall cost of temporary fencing has been estimated to be 600 (10 trails x 2 entrances x 2m per entrance x 15 per metre = 600).

The overall area of the closed trail network is estimated to be 1.5 hectares (10 trails x $1,000m \times 1.5m = 1.5$ hectares).

The cost of revegetating 1.5 hectares of native vegetation has been estimated by using the City's Natural Area Management Strategy (NAMS) as a basis for cost per area.

The most recent review of the NAMS in 2017 indicated that \$90,300 was required to revegetate one hectare of good condition vegetation.

To account for substantial inflation since 2017, a price rise of 30% has been applied.

As a result, the cost per hectare for revegetation is estimated to be \$117,390. Therefore the overall cost of revegetation is estimated to be \$176,085.

Step 11 (trail closure and revegetation) could be implemented in the 2024-2025 financial year should funding be made available.

Following the initial planting, maintenance of the revegetation areas will be undertaken in accordance with the costings provided by the NAMS and the 30% inflation multiplier.

These costs include weed control, infill planting and watering and are outlined in Table 1, below.

Revegetation Maintenance Costs per Hectare					
Task	Year 2	Year 3	Year 4	Year 5	
Weed control – grass	\$780	\$650	\$390	\$390	
Weed control – broad-leaved / bulbous	\$1,430	\$650	\$390	\$390	

Woody weed removal	\$2,860	\$1,300	\$650	\$260
Infill tubestock	\$7,800	\$1,300	\$0	\$0
Infill – greenstock	\$19,500	\$3,900	\$0	\$0
Maintenance and watering	\$25,350	\$5,070	\$0	\$0
TOTAL	\$57,720	\$11,570	\$1,430	\$1,040

The overall cost of revegetation maintenance in the four (4) years following initial planting is therefore estimated to be 107,640. (57,720 + 11,570 + 1,430 + 1,040) x1.5 = 107,640).

Step 12 (revegetation maintenance) could be implemented between 2026 and 2029 should funding be made available.

Overall cost of Phase 1: Trail Identification, Closure and Site Remediation.

- Preparation of the Trail Categorisation and Mapping Report: \$50,000
- Consultation with the CEG: \$15,000
- Signage: \$200
- Temporary Fencing: \$600
- Revegetation: \$176,085
- Revegetation maintenance: \$107,640
- Phase 1 Total: \$349,525

Phase 2: Ongoing Compliance Enforcement and Public Education Messaging.

There are two options available.

Mountain bikes can be banned completely from Manning Park or mountain bikes permitted with an ongoing surveillance program to ensure no new tracks are created and rehabilitated trails not reopened.

For the purposes of this report, the latter option has been chosen.

As soon as the unsanctioned trails are closed off, the City would need to maintain an active presence at the reserve.

Given that Manning Park is 117 hectares in size and that there are multiple points of entry, permanent surveillance of the entire reserve is not possible.

The most effective means of surveillance would be to install mobile CCTV at selected points and conduct regular Ranger patrols of the upland area.

284 of 610

Mounted CCTV cameras could be purchased at an estimated cost of \$10,000 each with four (4) being deployed at any one time.

Ranger patrols could be accommodated in the current budgets.

The mounted security cameras could be deployed in the 2024-2025 financial year if funding were to be made available.

Even with an active security presence, enforcing breaches of compliance will be challenging and seldom successful.

Identifying people on CCTV footage is difficult and Local Government officers are not authorised to make arrests.

It is therefore anticipated that investing in surveillance will only serve to reduce instances of unauthorised trail construction, rather than to rule them out altogether.

This means that closing off and rehabilitating trails will likely be an ongoing exercise as it is anticipated that new unsanctioned trails will continue to be developed into the future.

Educating the public on the environmental and social impacts of creating unauthorised trails would need to be undertaken to complement the onsite security initiatives.

This could be achieved by conducting community workshops and mailing flyers to local residents on a periodic basis.

These engagement initiatives are estimated to cost roughly \$20,000 per annum.

Overall cost of Phase 2: Ongoing Compliance Enforcement and Public Education Messaging

- Installation of mounted CCTV cameras: \$40,000
- Community Education Initiatives: \$20,000
- Phase 2 Total: \$60,000.

Estimated Cost of Protecting and Maintaining Manning Park

The cumulative cost of implementing Phase 1 and Phase 2 is \$409,525 Both phases could be commenced in 2023-2024 if sufficient funds were to be provided.

Strategic Plans/Policy Implications

<u>Environmental Responsibility</u>A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation. • High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

The cost of protecting and maintaining Manning Park by closing down unsanctioned trails is estimated to be \$409,525.

To commence this option \$65,000 would need to be allocated in the 2023/2024 budget, with the remainder of the funding to be provided in subsequent years.

Further funding of \$344,525 would need to be made available spread across the next 4 years for trail closure, rehabilitation, and ongoing surveillance.

Legal Implications

N/A

Community Consultation

The Trail Closure Plan would need to be advertised for community consultation in 2023-2024.

Education initiatives would be undertaken on an ongoing basis following trail closure.

Risk Management Implications

There is a risk that significant investment into protecting and maintaining Manning Park would only result in a reduction to the number of unsanctioned trails being developed rather than eliminating all trail construction.

There is a risk that an increased security presence will detract from the amenity of Manning Park.

There is a risk that further delay in making a decision on trails development at Manning Park will result in ongoing degradation of the area, continued community angst and further staff time commitments.

Specification / Scope of Works

1 INTRODUCTION

The City of Cockburn Expenditure Review Committee has requested that a report be prepared to estimate the cost of closing all unsanctioned Mountain Bike Trails within Manning Park that are considered to be causing environmental degradation.

The City of Cockburn (The Principal) is therefore seeking a suitably qualified and experienced consultant to provide an indicative quote to prepare the report to address the requirements of the Scope of Works, as outlined in Section 2 of this document.

2 SCOPE OF WORK/SPECIFIC REQUIREMENTS

As there are several steps to trail closure, the Expenditure Review Committee directive has been broken down into smaller components to help get a better understanding of the overall cost. These components are outlined below.

- Undertake a trails audit to determine the location, length and average width of all trails (both formal and informal) within the upland area of the reserve. <u>To be undertaken by a</u> <u>consultant</u>
- 2. Categorise each of the identified trails according to condition (good/medium/poor). <u>To be</u> <u>undertaken by a consultant</u>
- Categorise each of the identified trails according to level of usage (low/medium/high). It is envisaged that this would be determined through applications like Strava and through onsite observations. <u>To be undertaken by a consultant</u>
- 4. Categorise each of the identified trails according to predominant type of usage (predominantly walking / predominantly biking / other). <u>To be undertaken by a consultant</u>
- 5. Categorise each of the identified trails according to potential to cause environmental harm (unlikely / likely /environmental harm observed onsite). <u>To be undertaken by a consultant</u>
- 6. Prepare a Trail Categorisation and Mapping Report to display the information obtained through the implementation of Steps 1-5. <u>To be undertaken by a consultant.</u>
- 7. Select trails for closure based on a review of the Trail Categorisation and Mapping Report. <u>To be undertaken by the City</u>
- 8. Advertise the trail closure strategy to the City of Cockburn community. <u>To be undertaken</u> by the City
- 9. Make adjustments to the Trail Closure Strategy based on community input. <u>To be</u> <u>undertaken by the City</u>

City of Cockburn |

Page 3 of 5

Specification / Scope of Works

- 10. Install signage in the reserve to advise of impending trail closures. <u>To be undertaken by</u> <u>the City</u>
- 11. Close off and rehabilitate all trails. To be undertaken by the City
- 12. Watering and weed control of revegetation areas. To be undertaken by the City.

In light of the above, the City is requesting that consultants prepare indicative quotations to undertake Step 1 to Step 6.

3 STUDY AREA

The study area encompasses the upland area of Manning Park and is identified as area 30 within the Beeliar Regional Park Management Plan. The road reservation to the west of the park needs to be included within the management plan and considered as part of the reserve. See Figure 1.

It is expected that the successful consultant spends time visiting the site to gain an understanding of the varying terrains and constraints associated with the site.

City of Cockburn |

4 KEY INFORMARTION FOR CONSULTANTS

At this stage cost estimates have been requested in order to inform future budgeting. As such, there is no need to complete a full project proposal, a dollar value estimate is all that is being requested.

For your information, the study area for this assessment is shown in the figure below. It is envisaged that the successful consultant will spend time visiting the site to complete the tasks outlined above.

The City advises that all information relating to this request must be treated as confidential.

15.1.2 Budget Amendments for the FY 23 Municipal Budget

Responsible Executive	Acting Chief Financial Officer
Author	Acting Chief Financial Officer
Attachments	N/A

Officer/Committee Recommendation That Council:

(1) AMENDS the FY23 Municipal Budget as detailed and summarised below:

Nature	Budget Surplus Impact \$
Operating Revenue - Increase	\$6,240,740
Operating Expenditure - Increase	-\$4,221,994
Capital Expenditure - Decrease	\$96,000
Transfers from Reserves - Increase	\$1,192,815
Transfers to Reserves - Increase	-\$3,275,000
Net Budget Surplus - Increase	\$32,561
Existing Budget Deficit (Oct 22 OCM)	\$10,847
Amended Budget Surplus	\$21,714

TO BE CARRIED BY ABSOLUTE MAJORITY OF COUNCIL

Background

The Expenditure Review Committee (ERC) will review amendments to the adopted Municipal Budget before Council amends the budget, as required under the Terms of Reference of the ERC.

Submission

N/A

Report

A number of budget expenditure amendments have been submitted for consideration of the ERC.

The following expenditure amendments are submitted for consideration and recommendation to the next Ordinary Council Meeting, in this case 8 December 2022:

Description (Service Unit)	Expend. \$	Income or Funding \$	Budget Surplus Impact

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The impact on the City's budget surplus from the budget amendments recommended in this report will be a net increase of \$32,561.

This will result in a net budget surplus of \$21,714 if adopted by Council

An Absolute Majority of Council will be required to amend the FY23 Municipal budget.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The budget amendments required are for the good governance of the City.

There is a low-level risk impact to the City's operational and budget performance should Council not approve the budget amendments contained in this report. Advice to Proponent(s)/Submitters

15.1.3 Grants, Donations and Sponsorship Allocations for 2022-2023

Responsible Executive	A/Chief Executive Officer
Author	Head of Community Development and Services
Attachments	 Grants, Donations and Sponsorship Recommended Allocations Budget 2022-23 J Melville Cockburn Chamber of Commerce Report
	2022 🖞

Officer Recommendation

That Council:

(1) ADOPTS the revised Grants, Donations and Sponsorship allocations for 2022-23 as attached to the Agenda.

Committee Recommendation

That Council:

- (1) ADOPTS the revised Grants, Donations and Sponsorship allocations for 2022-23 as attached to the Agenda, with the following amendments:
 - AMENDS the Cooby Youth Space donation request category to a Community Grant allocation and fully funds the amount requested of \$6,000;
 - AMENDS the Meeples, Decks and Dice donation request category to a Community Grant allocation and fully funds the amount requested of \$4,104;
 - 3. FULLY FUNDS the Cockburn Volunteer Sea Search and Rescue Group application to the amount requested of \$15,000;
 - 4. FULLY FUNDS the Cockburn Community and Cultural Council Inc. application to the amount requested of \$10,000;
 - **5.** INCREASES the funding to Southern Lions Rugby Union Football Club application by \$500 for the amount \$9,500.

Reason

All organisations provide significant benefit for their local community.

Officer Comment

Funds the Cooby Youth Space application to a value of \$6,000

The application was not supported due to not meeting the Donation Guidelines:

- The Donations category provides a financial contribution towards an organisation's day-to-day operational running costs, donations do not fund a project or activity, this type of support is met in other grants.
- The application requested funding of the Stephen Michael Foundation Nightfields

Program, while the program has merit, it delivers one weekly session for a sixweek fixed period only. The cost of the six-week program is not sustainable as an on-going operational model.

- Applicant did not contact Community Grants Officer to discuss application prior to submission, this is required to support applicant in submitting an application that meets the guidelines and category. Donation Application Form states "Your application will be deemed ineligible if you do not contact a Community Grants Officer".
- Priority is given to applicants that can demonstrate other funding sources so that the donation is subsidising operations and are not solely reliant on funding from the City.

Funds the Meeples, Decks and Dice application to a value of \$4,104

The application is not supported due to not meeting the following Sponsorship Guidelines:

- The Sponsorship (Group) program category provides a financial contribution for a significant event, activity, service or endeavour and in return, the City receives brand exposure and public recognition for the sponsorship contribution. While Meeples, Decks and Dice provide a valuable, fortnightly recreational and social activity for approx. 30-40 local residents, this does not provide the City with brand exposure and public recognition benefits commensurate with an "official sponsorship" arrangement.
- The sponsorship application submitted requests funding of the group's annual room hire costs at the Beeliar Community Centre, this request cannot be met under the sponsorship category.
- Applicant did not contact Community Grants Officer to discuss application prior to submission, this is required to support applicant in submitting an application that meets the guidelines and category. Sponsorship Application Form states "Your application will be deemed ineligible if you do not contact a Community Grants Officer".

Background

Council approved a budget for Grants and Donations for 2022-23 of \$1,455,000.

The Expenditure Review Committee is empowered to recommend to Council how these funds are to be distributed.

At the Grants and Donations Committee meeting on 28 July 2022, the Committee recommended a range of allocations of grants, donations, and sponsorships which were duly adopted by Council on 11 August 2022.

The September funding round was advertised to close on 30 September 2022.

A total of 43 applications were received, including 21 applications for Community Grants and four applications for Cultural Grants, which are being reviewed under the delegated authority of the Head of Community Development and Services.

The remainder includes 14 applications for Donations and four applications for Sponsorship to be considered by the Expenditure Review Committee.

Submission

N/A

Report

In the summary of Grants, Donations and Sponsorship Recommended Allocations Budget 2022-23 (refer Attachment 1) there are the following items for the Committee to consider:

- one recommended adjustment to the committed/contractual allocation for 2022-23 (shaded blue).
- 14 applications for donations (shaded grey)
- four applications for sponsorship (shaded grey)

Committed And Contractual Funding

As per the attached budget, a number of donations are deemed to be committed by legal agreements, such as leases, or by Council decision.

There is one recommended adjustment to the committed/contractual allocation for 2022-23.

Applicant: Melville Cockburn Chamber of Commerce

Requested: \$10,000.00

Recommended: \$10,000.00

The Melville Cockburn Chamber of Commerce (MCCC) is an incorporated not-forprofit organisation that seeks to promote the interests of business within the Melville and Cockburn local government areas.

The MCCC is the major business association for the City and its purpose is to:

- Raise business issues and advocate on their behalf to local and state government
- Provide networking opportunities for local business owners
- Facilitate training and skill development for local business owners.

The City supports this organisation to drive its economic development agenda and facilitate the City's engagement with the business community and the commercial sector overall.

In particular, the MCCC provides the City:

- A dedicated organisation focused on commercial priorities across the region
- A dedicated organisation to assist in the implementation of the economic development framework
- A resource to review and advise on policy development relevant to business sector.

At the 13 August 020 Ordinary Council Meeting, Council approved the following:

"the development of a Memorandum of Understanding (MOU) with MCCC, which formalises sponsorship funding of \$20,000 (ex. GST) per annum for two years (2020-21 and 2021-22) subject to MCCC providing annual reports and meeting agreed obligations and Key Performance Indicators".

MCC have provided their report for 2021-22 (refer Attachment 2).

The MOU was signed in November 2020 with the two-year funding agreement expiring in November 2022, which is inconsistent with the financial year.

To correct this and bring the funding commitment into alignment with the annual budget, MCCC is requesting a further \$10,000 funding for the remaining 2022-23 financial year (six months).

The City's Business and Economic Development Department are satisfied with the performance of the MCCC overall.

Approval is recommended for a further \$10,000 for the remaining 2022-23 financial year.

If adopted an MOU with KPI's will be actioned.

The recommended allocation for committed/contractual funding for 2022-23 is \$482,971.

Donations

The donations recommended to Council for the September grants round are as follows:

Applicant	Comment	Requeste d Amount	Recommended Amount
Cockburn Volunteer Sea Search and Rescue Group Inc	The City supported a donation of \$12,000 in September 2021, an increase from \$9,000 in 2020. Insufficient evidence to support additional \$3,000	\$15,000	\$12,000
Cockburn Branch- Returned and Services League (RSL)	As requested	\$10,000	\$10,000
St Vincent de Paul Society Yangebup	As requested	\$5,000	\$5,000
Cockburn Central YouthCARE Council (CCYC)	As requested	\$20,000	\$20,000
Cockburn Community and Cultural Council Inc	Information provided indicates that service usage has declined	\$10,000	\$8,000
Cockburn Toy Library	As requested	\$7,000	\$7,000
Friends of the Community Inc	As requested	\$2,000	\$2,000
Yangebup Family Centre Inc.	As requested	\$13,125	\$13,125
Meerilinga Young Children's Service	As requested	\$10,000	\$10,000
Volunteer Home Support	Need for a donation of \$6,500 is not substantiated	\$6,500	\$2,000
Cooby Youth Space	Ineligible-doesn't meet grant criteria	\$6,000	\$0.00
Imagined Futures (formerly Southwest Metropolitan Partnership Forum)	As requested	\$15,000	\$15,000
Anglicare WA	As requested	\$15,000	\$10,000
PortCare	Contribution based on number of Cockburn residents using the service	\$20,000	\$5,000
Total			\$119,125

Allocated donations for 2022-23 is \$210,000.

The recommended donations allocation for the September 2022 grants round is \$119,125.

The recommended remaining balance for the March 2023 round of applications is \$90,875.

The applications for donations are summarised below:

Applicant: Cockburn Volunteer Sea Search and Rescue Group

Requested: \$15,000.00

Recommended: \$12,000.00

The Cockburn Volunteer Sea Search and Rescue Group Inc. is a not-for-profit, volunteer run organisation that aims to ensure the safety of the Cockburn community and wider boating public.

The group provides around-the-clock radio communications and emergency rescue and recovery services for a 1,000-square-kilometre area that is increasingly used by recreational boaters, and other aquatic users such as kite surfers, kayakers, and swimmers.

Annually, on average the groups 60 volunteers respond to more than 250 calls for assistance, while logging thousands of radio registrations 24 hours per day, 365 days of the year, bringing over 1,000 seafarers safely back to shore.

A high proportion of those receiving assistance reside within the City of Cockburn, and all boat owners using Coogee Marina store their details in the group's database which are made available, should they require assistance.

Rescues and specialist tasks include day and night searches for missing people, recovery of kite surfers, sinking vessels, vessels aground, and the recovery of countless broken down and out of fuel vessels that were out at sea.

Cockburn Volunteer Sea Search and Rescue Group Inc. report that in the past three years the number of active volunteers has risen from 20 to their current number of approximately 60.

This has been necessary to match the demand for additional shifts in response to increased calls for assistance.

The group work closely with, and support other rescue groups including, the Water Police when requested to do so.

The group receives funding from the State Government through the Emergency Services Levy, and other income from donations and memberships.

The group has previously received funding from the City as follows:

- September 2021 \$12,000
- September 2020 \$9,000
- September 2019 \$9,000
- September 2018 \$9,000
- September 2017 \$8,500
- September 2016 \$8,500
- March 2015 \$8,500
- March 2014 \$8,500
- September 2011 \$8,500
- March 2010 \$8,500
- September 2008 \$8,000
- October 2007 \$8,000
- October 2006 \$6,000

The purpose of the donation request is to support the ongoing operations of the group, including active recruitment, training and purchase of specialist safety equipment for operational members to provide an optimum level of service to the public.

Recommendation

The application received a score of 14/18 and provides a valuable service to the community, however there is insufficient evidence to support an increase of \$3,000 funding from \$12,000 in September 2021 to \$15,000 in September 2022-23.

It is recommended to maintain the current level of support with a donation of \$12,000.

Applicant: Cockburn Branch-Returned and Services League (RSL)

Requested: \$10,000.00

Recommended: \$10,000.00

The Cockburn Branch of the Returned and Services League (RSL) supports the welfare of ex-service and serving members of the Australian Defence Forces and their families in Cockburn.

There are over 320 members, including service members, affiliate members as well as social and youth members.

There has been an increase in service members of about 30 since this time last year which is largely due to the services offered both socially and through the Veterans Welfare Hub.

Several new recreational groups are hosted at the RSL including a sewing group with approximately12 members, a veteran's motorcycle group with approximately 50 members and a Veteran's Prospecting Group with approximately100 members.

The group conducts six commemorative services throughout the year for Cockburn residents and for the wider community, including the bombing of Darwin, Korean and Vietnam veteran's services, ANZAC youth Parade, ANZAC dawn service and ANZAC Day march and service.

Remembrance Day services in November 2021 had high numbers of attendees and the ANZAC Day services in April this year were back to pre COVID-19 numbers of 3,500 upwards.

The group also promotes ANZAC history and military service in local schools by providing speakers from the veteran community (twelve schools booked to date) and providing an annual ANZAC Memorial Award and certificate to schools in the Cockburn area.

The Cockburn Branch opened a Veterans Welfare Hub in October 2019 to provide volunteer trained welfare and pension officers to assist with pensions, advocacy and welfare issues for serving and past service members and their families.

Since the start of 2022, 80 people have used this service which is an increase of around 40% on last year. If the RSL was able to attract additional trained advocates, they would be able to increase this support.

RSL also offer a Welfare Fund that can provide short term assistance to eligible members of the veteran community.

This is financed by collections during November, where poppies are distributed to the public, with 50% of what is raised going to RSL WA headquarters main Welfare Fund, and 50 percent is retained in the branch account for use with local veterans when required.

The Cockburn Branch of the Returned and Services League (RSL) has received funding from the City in previous years, as follows:

- September 2021 \$10,000
- September 2020 \$10,000
- June 2020 \$2,500 (COVID-19 Response Grant)
- September 2019 \$10,000
- September 2018 \$10,000
- September 2017 \$10,000
- September 2016 \$10,000
- September 2015 \$10,000

- September 2014 \$10,000
- September 2013 \$10,000
- September 2012 \$10,000
- September 2011 \$8,000
- September 2010 \$8,300
- September 2009 \$8,000
- September 2008 \$8,000
- October 2007 \$8,000
- March 2007 \$7,500.

The Cockburn Branch of the Returned and Services League (RSL) group is supported by RSL WA, a Lotterywest ANZAC Day Grant and in-kind support from Joint Logistics Unit West, SES Cockburn, Bibra Lake Scout Group and 56 Army Cadet Unit.

Recommendation

The application received a score of 15/18 and provides a valuable service of serving and ex-service veterans, their families and the wider community.

It is recommended to maintain the current level of support with a donation of \$10,000.

Applicant: St Vincent de Paul Society Yangebup Conference

Requested: \$5,000.00

Recommended: \$5,000.00

St Vincent de Paul Society Yangebup Conference is a volunteer run charitable organisation offering a 'hand up' to those in need with; food, clothing, furniture, bedding, assistance with rental costs, utility bill arrears, medical scripts, companionship, advocacy and referral, to counselling services and financial guidance.

Over the past twelve months, the organisation has supported over 400 families or approximately1,500 people.

In 2021-22 the Yangebup Conference provided emergency relief directly to the Yangebup community to the value of \$71,800. Assistance included:

- Food (\$43,135)
- Bedding & Furniture (\$12,197)
- Clothing (\$2,975)
- Assistance with rental arrears (\$305)
- Assistance with utility accounts (\$6,993)
- Other Assistance (\$6,195).

Each week twelve volunteers visit families requiring support, providing companionship, assessing their needs and providing material aid.

Many currently homeless or at risk of homelessness are also assisted with finding alternative arrangements or paying their arrears.

Donations of food and other household necessities are provided by the Catholic Church and local schools. The shortfall is purchased from food outlets with the funds provided by donations.

The Yangebup Conference receives a small amount of funds, as required, from St Vincent de Paul Society via a federal recurrent operational grant and Lotterywest Emergency Relief funding.

Small donations and resources are provided by local schools through fundraising and food drives.

The application is supported by Mater Christi Catholic Parish Yangebup, Mater Christi Catholic College Yangebup, Emmanuel Catholic College, Success, Hammond Park Catholic Primary School and the St Vincent De Paul Society (WA) Inc.

St Vincent de Paul Society Yangebup Conference has received funding from the City in previous years, as follows:

- September 2021 \$5,000
- September 2019 \$5,000
- September 2018 \$5,000
- September 2017 \$5,000
- September 2016 \$5,000
- September 2015 \$5,000
- September 2014 \$5,000
- September 2013 \$5,000.

Recommendation

This application scored 16/18 and has demonstrated how disadvantaged and vulnerable people within Cockburn benefit from this service.

It is recommended to maintain the current level of support with a donation of \$5,000.

Applicant: Cockburn Central YouthCARE Council (CCYC)

Requested: \$20,000.00

Recommended: \$20,000.00

YouthCARE works in partnership with school communities and the Department of Education to foster the psychological, social, intellectual, emotional, spiritual, and physical development of students.

The local Cockburn Central YouthCARE Council (CCYC) arranges for chaplains to work collaboratively within each school community to deliver pastoral care and support to young people in the school, as well as their families and school staff.

Chaplains support students with concerns such as peer relationship and family relationship stresses, anxiety, mental health issues, behavioural issues and school attendance.

Chaplains also support parents and carers with personal concerns or concerns about their child, school, and/or parenting and they also support school staff, as required.

At a program level, Chaplains arrange breakfast clubs to address poor eating patterns, lunchtime groups to assist with socialisation, lead social, emotional and physical programs to strengthen wellbeing and resilience among students and, undertake one-on-one mentoring.

The work of Chaplains improves educational, social and spiritual outcomes for students, particularly those experiencing stress or difficulty, thereby benefitting the wider community through young people being better equipped for adult life.

Families and staff are also supported to fulfil their roles in the students' lives and in the broader community.

In 2021, CCYC hosted seventeen chaplains in fifteen Cockburn public schools (an increase on the previous year) and had 3,545 conversations with students, 278 with staff and 170 with parent/carers.

The main issues raised include mental health, school concerns, family relationships and peer relationships.

CCYC also served 4,672 meals at Breakfast Clubs, provided 540 social and emotional sessions, compared to 181 in 2020 and 230 community service sessions.

In 2022-23, chaplaincy will be provided at Atwell College three days per week and at Lakeland Senior High School four days per week, funded by a combination of WA Department of Education funding, school contributions, and this donation.

At Hammond Park Secondary College, chaplaincy will be provided two days per week (previously two days per fortnight) due to increased enrolments in 2022, funded by a combination of YouthCARE support, a school contribution, and this donation.

CCYC, with the support of local churches will also contribute to other operating costs of services in these schools, together with its support of primary school chaplains in Cockburn.

During 2021 and 2022, with the impact of COVID-19, CCYC Chaplains have been an important part of delivering essential services in schools.

This is evidenced with 540 social and emotional sessions compared to 181 in 2020 and 34 in 2019.

CCYC has received funding from the City in previous years, as follows:

- 2021, March \$3,000
- 2021, September \$20,000
- 2020, September \$20,000
- 2019, September \$20,000
- 2018, September \$20,000
- 2017, September \$20,000
- 2016, September \$20,000
- 2015, September \$13,000
- 2014, September \$48,100
- 2013, March \$24,000
- 2012, March \$9,450
- 2011, March \$9,000
- 2010, March \$11,600
- 2008, September \$9,000
- 2007, October \$9,000
- 2006, October \$9,000.

Recommendation:

This application received a score of 16/18, and has demonstrated how local students, their parents, carers, and teachers have benefited from this service.

It is recommended the current level of support is maintained with a donation of \$20,000.

Applicant: Cockburn Community and Cultural Council (CCCC)

Requested: \$10,000.00

Recommended: \$8,000.00

Cockburn Community and Cultural Council (CCCC) supports, sponsors, and promotes artistic, cultural and leisure activities within the City of Cockburn.

Annually, CCCC facilitates a Youth Arts Exhibition at Memorial Hall featuring ten schools and more than 1,000 people in attendance, including students, their families, teachers and the general public.

The 10 schools are also supported with a \$200 donation each towards transport to attend the exhibition or for equipment hire.

CCCC also organises an annual Arts and Crafts Exhibition at Spearwood Dalmatinac Club, which enables local artists to sell their artwork and crafts, with approx. 350 people attending for a gold coin donation.

CCCC provides low-cost venue hire for their members and local not-for-profit organisations and low-cost equipment hire for schools, for their own exhibitions, which included four schools in 2021.

Venue hirers and member groups include Artzplace (50 members), Wednesday Ledger Painters Group (25 members) and Keep Fit Group (15 members), with the majority of users aged and/or are people with disabilities, approximately 50-70 people per year.

CCCC also advised they have 15 independent members, a Laos Group that runs a term-based youth arts program, a mailing list of 300 people and their website continues to be popular with local arts/crafts groups to advertise their activities.

They receive financial support from art exhibition sales, member fees, venue and equipment hire and the Department of Community Services and Fremantle Port Community for the Youth Art Exhibition.

The City's donation subsidises costs for the group's website, advertising, equipment, utilities and exhibition costs including \$200 each, for 10 schools towards transport to attend the exhibition or for equipment hire.

The donation also enables CCCC to keep venue and equipment hire costs low.

CCCC has received funding from the City in previous years, as follows:

- September 2021 \$10,000
- March 2021 \$3,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2020 \$10,000

- September 2019 \$10,000
- May 2019 \$3,000 Alcoa Cockburn Community Projects Fund for the Cockburn Visual and Performing Arts Festival
- September 2018 \$10,000
- March 2018 \$2,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2017 \$9,000
- March 2017 \$9,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2016 \$9,000
- March 2016 \$2,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival.

Recommendation:

This application received a score of 11/18. The applicant's website does not list any upcoming events or local arts classes and information provided about member groups is limited and outdated.

There also appears to be less users of the service in comparison to previous years.

It is recommended that funding be decreased to \$8,000 to more accurately reflect current level of service users.

Applicant: Cockburn Toy Library

Requested: \$7,000.00

Recommended: \$7,000.00

The Cockburn community, and in particular families/carers with young children who become members of Cockburn Toy Library, benefit by being able to borrow an extensive range of high-quality toys for a low membership fee.

Cockburn Toy Library enables children to access a wide variety of educational and recreational toys to stimulate their imaginations, develop fine and gross motor skills, practice communication skills and learn the value of sharing.

Parents and carers benefit from saving money on toy purchases, as children often grow tired of them very quickly.

There are range of membership types to provide members with flexibility with both "active" and "non-active" membership types and Health Care Card concession membership is also available.

The Toy Library has created a small local community where members come together to assist in providing the service and get to know each other.

This in turn creates support networks and promotes well-being.

Cockburn Toy Library is the largest and only multi branch toy library in WA.

They currently have around 185 active member families with approximately 200 children who are directly benefiting from the service.

The children range from birth to thirteen years with the majority aged one to four years.

Over the past twelve months members have borrowed 10,586 toys up from 7,767 for the previous twelve months and they regularly have over 500 toys on loan at any one time.

Over the past few years member numbers have increased from 45 in 2016, to 102 in 2019, to 120 in 2021 and are currently 185.

While some of the increase in the last twelve months can be attributed to the merger with Atwell Toy Library they have continued to grow steadily since the merger.

The donation will be used to cover Cockburn Toy Library's recurrent costs including utilities, insurance, waste disposal and cleaning costs.

In 2023, Cockburn Toy Library plans to continue to improve their service by moving into two new rooms at Meerilinga, enabling a dedicated beginners playroom and STEM room, expanding the Atwell branch, revitalising existing spaces to create a more inviting space for young members, e-vamping the Cockburn Toy Library web page and run events to engage the local community and educate families about the types and benefits of play.

Cockburn Toy Library has received funding from the City in previous years, as follows:

- September 2021 \$7,000 Donation
- September 2020 \$3,500 COVID-19 Recovery Grant 2020
- September 2020 \$7,000 Donation
- September 2019 \$7,000 Donation
- September 2018 \$6,000 Donation
- September 2017 \$6,000 Donation
- September 2016 \$6,000 Donation
- September 2015 \$4,000 Donation
- September 2014 \$4,000 Donation
- September 2013 \$4,000 Donation
- September 2012 \$4,000 Donation
- September 2011 \$4,000 Donation
- March 2008 \$2,000 Community Grant new toys
- March 2003 \$1,283 Community Grant new venue.

This application is supported by Autism Association of Western Australia, Meerilinga Children's Services and the City's Children's Development Officer.

Recommendation:

The application scored 14/18 and demonstrates a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$7,000.

Applicant: Friends of the Community

Requested: \$2,000.00

Recommended: \$2,000.00

Friends of the Community (FOC) are a not-for-profit group made up entirely of volunteers, of which there are currently 45.

This group raises funds through a variety of activities, predominantly the sale of food, drinks and equipment hire, with profits and fundraising all returned to the community through donations.

The group has a small food van which sells sandwiches, healthy snacks, tea, coffee, ice cream and cool drinks; however, their main source of income comes from running sausage sizzles.

They also have some equipment and resources available for community groups to hire, and they manage the community trailer for the City of Cockburn.

FOC attend an average of 40 events per annum, with many throughout the City of Cockburn and for other organisations such as P&Cs, the Repair Café, and Coogee Surf Life Saving Club, to list a few.

The group supports the local community, as follows:

- Homelessness: assists with food, clothing, and referrals to appropriate services
- Students: provision of up to three \$1,000 scholarships
- Medicinal assistance and support requests
- Support for people to access sport or recreation groups by providing funds for fees, uniforms, kit bags
- Supporting local P&Cs and other smaller groups with a one-off donation to
- increase membership
- Providing support and referral services to individuals or organisations
- Volunteer opportunities for wide cross section of people, including students, to gain experience, skills and formal qualifications.

The group report they have provided over \$180,000 (over \$11,375 per year) in funding to worthy organisations such as Cancer Council WA, Heart Association WA, Starlight Children Foundation, St Pats and local groups Beeliar Spirit Soccer Club, Yangebup Family Centre and CWA.

FOC has received funding from the City in previous years, as follows:

- September 2021 \$2000 Donation
- March 2021 \$4,800 Donation
- September 2020 \$3,000 COVID-19 Recovery Grant
- March 2020 \$3,660 Community Grant
- September 2018 \$2,000 Donation
- March 2018 \$2,000 Donation
- March 2017 \$2,000 Donation
- March 2015 \$5,000 Donation
- March 2014 \$2,000 Donation
- March 2013 \$2,160 Donation
- September 2011 \$1,300 Donation
- March 2010 \$1,799 Community Grant
- March 2007 \$4,00 Community Grant.

The organisation will use the donation as a contribution towards running the office, internet, telephone and mobile, including insurances and licenses.

There is also the requirement for servicing and maintenance and, an allocation to a renewal program for vehicles, food vans and computers.

The group reports that since the COVID-19 pandemic hit, they have experienced increased demand for services, ranging from assistance with transport to medical appointments, food parcels, ready-made meals and assistance paying for bills.

The City's various resident's associations support the group, and often draw on them for event food services and hire of equipment, as do many other community groups, sporting clubs and schools who benefit from the assistance offered.

Recommendation:

This application scored 16/18 and has demonstrated how disadvantaged and vulnerable people within the City of Cockburn and the broader community benefit from the service.

It is recommended to maintain the current level of support with a donation of \$2,000.

Applicant: Yangebup Family Centre

Requested: \$13,125.00

Recommended: \$13,125.00

The Yangebup Family Centre (YFC) is a community managed not-for-profit organisation that supports and promotes connection and wellbeing within the local community.

The centre is a cultural hub where children, families, individuals, and seniors can embrace diversity and belonging. Over 500 families attend the centre weekly, and they maintain an e-news database of over 1400 people.

Services include programs for children, community workshops and events, parenting information and support services, and community group meeting facilities.

The YFC services a large culturally and linguistically diverse community and supports vulnerable and disadvantaged families and low-income families with free or low-cost activities.

The centre is funded by the State Government through the Department of Communities and the City of Cockburn, and has over 80 volunteers who assist with governance, management, program delivery, administration, social media management and marketing, grant applications, problem solving, capacity building, program design, fundraising, events, and community initiatives.

It is estimated the financial contribution of these volunteers is more than \$160,000 per annum.

The YFC crèche was initially established in 2002 to support the needs of a craft group.

There are now three crèche sessions per week each with 19 places available, providing 57 places for children from 0-6 years on a weekly basis.

In 2021-22 over 120 families participated in programs supported by the crèche, such as 'Tuning into Kids', 'Food Sensations', 'Infant First Aid, Craft n Chat, Yarn Bombing and Cultural Cooking. Parents can also participate in Play Club, a program designed to prepare children for kindy, for children 2-3 years, while their younger children attend the creche.

Annual survey results indicated that 98% of people are either very satisfied or satisfied with programs and the services provided and, 85% feel better supported from having attended the centre.

By providing a crèche, YFC can address issues of social isolation, mental health, and financial hardship by providing a way for families with young children to have an

affordable social activity or to attend workshops to gain parenting or life skills with other families from the community.

Crèche provision is an engagement strategy to reduce barriers so that families are supported to build on their knowledge, confidence, and skills to effectively manage their own lives and, to increase their participation in community activities.

Yangebup Family Centre has received funding from the City in previous years, as follows:

- September 2021 \$13,125
- May 2021 \$3,000 Community Grant
- September 2020 \$13,125
- September 2020 \$4,800 COVID-19 Recovery Grant
- May 2020 \$4,000 Sustainability Grant
- September 2019 \$13,125
- August 2018 \$11,776 Auspice for Cockburn Creates
- March 2018 \$3,603 Sustainability Grant
- September 2017 \$12,000
- March 2017 \$2,000 Community Grant for 25th Anniversary Open Day
- September 2016 \$12,000
- September 2015 \$12,000
- August 2015 \$1,637 Donation for Health Nurse Clinic
- March 2015 \$2,500 Sustainable Events Grant Community Open Day
- September 2014 \$12,000
- September 2013 \$9,500
- September 2013 \$3,025 Alcoa Project Grant for Open Day
- September 2012 \$7,000
- September 2011 \$5,000
- September 2010 \$5,000
- September 2009 \$5,000
- September 2008 \$5,000
- October 2007 \$5,000
- October 2006 \$5,000.

YFC has strong relationships with Cockburn Integrated Health, Yangebup Progress Association, Beeliar Community Voice, Connecting Communities for Kids, Child and Adolescent Health (Yangebup and South Lake), Southwest Metropolitan Parenting Service and Cockburn Chinese Community Association.

Recommendation:

The application scored 14/18 and demonstrated a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$13,125.

Applicant: Meerilinga Children and Community Services Cockburn

Requested: \$10,000.00

Recommended: \$10,000.00

Meerilinga is a not-for-profit organisation and registered charity that promotes the United Nations Convention on the Rights of the Child, working with children, families, professionals, planners and the community to raise the status of children in Western Australia.

The organisation is recognised for excellence in promoting and supporting the education, care and wellbeing of children, and providing a diverse range of professional resources and support to children, the health and education sectors, child protection, parents, the community and volunteers.

Meerilinga Cockburn, is in Coolbellup and is a well situated, safe facility that enables community to engage widely with various groups within the community.

The service itself is well resourced with ample onsite car parking, meeting and activity rooms and a well-equipped kitchen.

It has large outdoor nature play spaces designed in extensive consultation with children, families, and community, with ample shade provided.

The City's funding supports Meerilinga operational costs and is an investment in the Cockburn community through services that support parents, over 50's, youth, adult education programs, volunteering, early learning programs such as the Bindi Kindi Program, Pre-Kindy Program and Playgroups, school holiday activities, street library, workshops such as Boost your Wellbeing, Social Media and Mental Health, first aid, parenting courses, community celebrations and activities that reflect the diverse cultural and community context.

Meerilinga is committed to supporting the Cockburn community and in particular families that are facing disadvantage and adversity that may lead to increased vulnerability.

They provide low cost and free, high-quality services and programs that support and strengthen families and the community's capacity to thrive and achieve their personal and life goals.

They provide sponsorship to children facing disadvantage to attend the early learning programs including playgroups, and source inclusion support for children with additional needs to access the early learning programs.

The organisation reports approximately 120 children enrolled in the Pre-Kindy program and 142 families in playgroup in 2021-22. To date 25 children are enrolled in Bindi Kindi program.

In 2021, 66 children participated in the school holiday program and 86 children in 2022.

Throughout 2021-22 various community education workshops were held which included social media and Mental Health, a Waste Education Workshop and Playtime Parenting Program which attracted 55 participants.

Meerilinga has a registered training arm and can offer a national accredited skill set and courses.

Targeted at unemployed culturally diverse women and youth at risk, training is offered 15 hours a week during term for adults to attain first aid and part of a Certificate III in Early Childhood. 62 women, five youth and two men have participated.

Meerilinga Cockburn, has received funding from the City in previous years, as follows

- March 2022 Cultural Grant \$1600
- September 2021 \$10,000
- September 2020 \$10,000
- September 2019 \$10,000
- September 2018 \$10,000 Plus \$3,000 once off contribution
- August 2018 \$16,437 Cockburn Creates Project
- March 2018 \$900 Cultural Grant for NAIDOC Celebration
- September 2017 \$10,000
- September 2016 \$10,000
- September 2015 \$10,000
- September 2014 \$10,000.

In 2022-23, Meerilinga Cockburn will continue to implement their Reconciliation Action Plan to strengthen their connections and positive relationships with Aboriginal and Torres Strait Islander elders, families and community groups, deliver adult education, career development and local traineeships, and deliver free or low-cost activities for children and families during school holidays, to strengthen parent/child relationships/connections, to learn new skills, to connect community members and provide a safe environment.

Recommendation:

The application scored 14/18 and demonstrated a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$10,000.

Applicant: Volunteer Home Support

Requested: \$6,500.00

Recommended: \$2,000.00

Volunteer Home Support (VHS) was established in 1986 and provides government subsidised domestic cleaning, transport, handyman, lawn, and gardening services to people that are frail, aged and, individuals with disability for a reduced cost of \$10 p/h.

Specifically, for those under 65 years and ineligible for NDIS through the State Continuity of Support Program and those aged over 65 years (or over 50 years for Aboriginal and Torres Strait Islanders) through the Commonwealth Home Support Program.

VHS services the Cities of Cockburn, Fremantle, Melville, Kwinana and Rockingham, funded by State Home and Community Care and Commonwealth Home Support Programs (CHSP).

VHS's lawn and gardening service generally disposes of client's garden and lawn waste at the Henderson Waste Management site rather than placing it in the client's green waste bin.

In 2021-22, 413 Cockburn residents required this service approximately every 4-6 weeks and paid \$4 each time for this service, which is a 50% reduced fee due to the City's annual donation. 88 of these clients had the \$4 fee waived due to their financial circumstances.

Prior to May 2012, VHS was not charged tipping fees, however once the fees were charged VHS has received funding from the City as follows:

- September 2021 \$6,000
- September 2020 \$6,000
- September 2019 \$5,000
- September 2018 \$6,000
- September 2017 \$6,000
- March 2016 \$5,000
- March 2015 \$5,000
- March 2014 \$5,000
- March 2013 \$5,000
- October 2006 \$5,000.

Based on client data provided by VHS funds received from clients at \$4 generates between \$5,200 and \$7,800 income annually, which currently covers VHS's annual tipping fees, without the City's donation.

In 2021-22 VHS paid to Henderson Waste Facility \$7,085 in tipping fees.

In addition, VHS has requested an increase in funding from \$6,000 in 2021 to \$6,500 in 2022 to allow for additional tipping fees due to weed removal, as weed spraying has ceased due to new Work, Health and Safety laws.

The Service provided by VHS is funded by the Commonwealth Government as part of the CHSP. There are many other CHSP providers within the City including Cockburn Care that provide this service, no other CHSP provider receives a donation from the City.

Recommendation:

The application scored 12/18 and the need for a donation of \$6,500 has not been substantiated.

It is recommended that a donation of \$2,000 is provided to support the service.

Applicant: Cooby Youth Space

Requested: \$6,000.00

Recommended: \$0

Cooby Youth Space, in Coolbellup, is a newly incorporated entity, which provides a drop-in space and access to activities, programs and support for young people, particularly those at risk between the ages of 12 and 18 years.

It aims to create a safe space for young people to get something to eat, feel cared for and access information and support services.

Cooby Youth Space is requesting funding to engage the Stephen Michael Foundation to deliver their Nightfields Program, which runs for six weeks and actively engages young people in sporting and recreational opportunities, as well as access to mental health services, such as Headspace.

Cooby Youth Space has received funding from the City in previous years, as follows:

• March 2022-Community Grant \$3,000 (Equipment)

Recommendation:

The application is ineligible as the applicant did not contact the City's Grants Coordinator to discuss their proposal prior to submitting the application, which is a mandatory requirement.

Also, the application does not meet the donation grant criteria, as outlined in the grant guidelines.

The request is not for the day to day running costs of the service and is not to subsidise operations, rather it is solely reliant on funding from the City.

It is recommended that the application is not supported.

Applicant: Imagined Futures (formerly Southwest Metropolitan Partnership Forum)

Requested: \$15,000.00

Recommended: \$15,000.00

Imagined Futures (IF) was established in 2013 through a Social Innovation Grant from the Department of Local Government and Communities to trial collaborative and innovative approaches to respond to complex social issues in three local government areas of Cockburn, Fremantle, and Melville.

Previous grant agreements ceased in July 2017, and IF was granted a reduced amount of funding (\$200,000) by the Department of Communities to cover a two-year period until 31 July 2019, and a further \$80,000 per annum for five years commencing in July 2019.

IF also secured funding from Lotterywest to undertake a codesign project aimed at linking emerging cohorts of people experiencing disadvantage to the right help at the right time to prevent them entering an entrenched cycle of disadvantage.

IF is auspiced by St Patrick's Community Support Centre to manage any funds received.

IF is a collective of over 60 organisations, both government and non-government, business, philanthropy, and community members, which brings innovative approaches to addressing complex issues for communities in the Southwest metropolitan region, including Cockburn.

IF recognises that the only way to effect large-scale social change is through working together, pooling and mobilising the vast resources available in our community to achieve shared goals.

The organisation employs a collective impact approach across four working groups, the outputs of which, are delivered in Cockburn.

The IF partnership provides a mechanism to unlock the power that exists in the community by harnessing collective knowledge and resources and translating them into effective action.

Imagined Futures:

- partners to foster information sharing and strong relationships
- advocates to raise awareness of community needs, emerging issues, priorities, and service gaps
- connects by optimising opportunities to access funding to deliver collective projects
- trials through testing new and innovative service delivery models and ways of working.

IF does this by:

- convening strategic leadership group meeting for the Southwest metropolitan region to identify priorities and develop innovative ways of responding
- supporting four working groups including a youth initiative working group aimed at promoting the agency and capacity of young people, a place-based community intervention, a strategic housing and homelessness group and a mental health (Alliance Against Depression) working group
- supporting a time limited working group which aims to connect people new to hardship to the right support, at the right time, at the right place.

IF has four priority areas of focus:

- youth contributing to improvements in engaging in school, socio-emotional resilience, and overall wellbeing for students
- community partnering with residents in a highly disadvantaged community to build social connection and foster a safer, more liveable community
- Housing and Homelessness developing a regional plan to assist local communities to design place-based solutions that address local issues
- mental health implementing a model proven to improve the treatment and care of people affected by depression.

IF acts as a mechanism for improving service delivery for vulnerable people across the Southwest metropolitan region.

The community benefits because of less duplication of services, less competition for resources, more strategic allocation of these resources and more programs delivered in partnership.

The youth initiative is concerned with improving outcomes for young people across a variety of projects:

- Keeping Kids Engaged Program- ongoing engagement in school has been demonstrated to reduce disadvantage in later life
- brokering suicide prevention/ capacity building workshops using their relationship with the Department of Education and Neami National to engage with schools
- a new project that seeks to connect aboriginal children in care to family, cultures, and community (there are 147 aboriginal children in care in the Fremantle District

which includes the City of Cockburn). Providing opportunities for children to remain connected to their siblings and their cultures will serve as enduring sources of strength for these young people.

Similarly, IF's strategic work across their other priority areas is all aimed at improving outcomes for disadvantaged and/or vulnerable communities

In Cockburn, during the period July 2021 to June 2022:

- 89 young people participated in the Keeping Kids Engaged Program between South Lake Primary School and Lakeland Senior High School
- Across the four pillars of the Alliance Against Depression framework, IF convened a stall at the Black Dog on Lead event in Cockburn which was estimated to have 600 people attend where they launched their Mental Health Online Support tool
- 164 GPs across Cockburn received resource packs designed to improve treatment and care of people affected by depression including through promoting local community mental health referral options (with each GP having hundreds of patients)
- The metro bus awareness campaign is estimated to have a total of 300 000 contacts, and our social media campaign reached 27 000 people across the three LGAs of Cockburn, Fremantle and Melville
- IF's tailored mental health resource for front line police officers was distributed to 260 front line officers across the district
- IF offered mental health training in partnership with the City of Cockburn to fifteen parents, local front line service providers (20 participants), sporting clubs (ten participants) In addition to the harder to quantify benefits of facilitating collective impact work.

The Imagined Futures Keeping Kids Engaged program continues to be delivered at Lakeland Senior High School.

There are currently 30 young people taking part in the two-term program.

It is intended that another 30-50 students will participate in Terms one and two in 2023.

IF is currently liaising with East Hamilton Hill Primary school with the intention of starting the program there in Term one 2023, with preliminary workshops taking place in Term four 2022.

The primary school program will be available to up to 20 students.

They are also in the planning phases of offering suicide prevention/ capacity building workshops to a broader range of schools across the City during 2023.

It is anticipated that these workshops will reach a minimum of 150 students.

IF are continuing to seek out opportunities to broker mental health training and Moorditj Koort have indicated that they would like to participate (up to 20 workers).

The partnership is continuing to seize opportunities to raise awareness in line with our Alliance Against Depression work.

Further, the Where is the door? project is designed to connect people to the help they need when they need it.

IF have previously received the following funding from the City to assist with their operations:

- 2021 March \$15,000
- 2020, March \$15,000
- 2019, March \$10,000
- 2017, September \$10,000

Recommendation:

This application received an assessment score of 15/18 due to its work with disadvantaged youth in Cockburn.

The City's Children's Development Officer is supportive of the program.

It is recommended that the City support the donation request for \$15,000 to support the work IF does within the City of Cockburn.

Applicant: Anglicare WA

Requested: \$15,000.00

Recommended: \$10,000.00

Anglicare WA is a leading not-for-profit organisation that works to alleviate disadvantage in Western Australian communities.

They currently provide 89 social services across 74 communities in Western Australia, supported by over 600 staff and 250 volunteers.

Anglicare's Making Ends Meet Program supports renting families who are experiencing significant 'housing stress'.

They offer immediate relief to clients struggling with debts, as well as providing longlasting skills and tools to assist in long-term stability.

The Housing Support Workers and Financial Counsellors liaise with Centrelink, real estate agents and relevant community services to achieve the best possible outcomes for clients.

They advocate on behalf of tenants to secure practical repayment plans, negotiate rent reductions, and reassess tenancy terminations.

Furthermore, they collaborate with clients to develop a household budget, giving them the tools to manage it on a weekly basis.

Making Ends Meet is completely unique to other financial support services.

It provides working tenants with the financial assistance they need to keep their private rental home, whether this means providing grants to help pay bills, securing practical repayment plans, negotiating rent reductions, reassessing tenancy terminations, advocating for families to receive child support and educating families on budgeting.

At present, 21.8 percent of the City of Cockburn residents are renting (up to 42 percent in Cockburn Central).

Within the City, the median rent has increased 7.5 percent for houses and 11 percent for units in the past year.

Tenants are often living pay to pay, and an unexpected obstacle can put their lease in jeopardy. Many events can lead to critical financial insecurity, sudden illness or injury, not receiving child support, relationship breakdown, or escaping family and domestic violence.

The City of Cockburn currently has a 0.52% current vacancy rate, meaning that tenants who are facing eviction are not even able to find new rentals, increasing their likelihood of experiencing overcrowded crisis accommodation, backpacker hostels, 'couch surfing' or homelessness.

Clients receive financial support from Making Ends Meet to pay for rent, internet, car registration and other utilities. But Making Ends Meet is not simply a quick fix.

Anglicare continues to support clients until their financial and housing situation has stabilised, ensuring they have the tools to manage without further assistance. The effects of the program last long after the initial support.

Making Ends Meet is designed to help working families retain their rentals, however with the current housing crisis, Anglicare is reporting higher and higher numbers of single/childless tenants in need, particularly within Cockburn.

In receiving a donation from the City of Cockburn, Anglicare would expand their target demographic to include single and childless renters. In so doing, they hope to bridge an identified gap in services.

Previously, Anglicare engaged with Cockburn clients by providing in-reach at the South Lake Ottey Centre, however this unfortunately ceased due to COVID-19.

It is intended that this service would be reinstated with the Making Ends Meet Program on a part-time (0.2-0.4 FTE) basis, and they are currently in discussions with the South Lake Ottey Centre to determine which days of the week they will operate the service.

This model of delivery will enable Anglicare to support an additional ten to fifteen clients financially in 2023, all residing within the City of Cockburn.

In addition, Anglicare expects to support dozens of Cockburn residents' referrals to other pathways, such as the City of Cockburn's free financial Helping Minds' mental health support in Success, and Anglicare WA's state-wide Emergency Relief services.

Funding is being sort, to support Making Ends Meet's ongoing operation, specifically brokerage within the Cockburn area.

This means that not only will the funding be used solely within the City of Cockburn, but in fact it will be redistributed to Cockburn residents in need.

Anglicare has previously received the following funding from the City to assist with their operations:

• September 2020, COVID-19 Recovery Grant \$1,250.

Recommendation:

This application received an assessment score of 14/18.

The City's Support Services Lead is supportive of this proposal which provides a point of referral for the City's financial counsellors and vice versa.

The applicant has requested \$15,000 which is not in commensurate with the number of Cockburn residents that would be supported by the service.

It is recommended to support with a donation of \$10,000.

Applicant: PortCare

Requested: \$20,000.00

Recommended: \$5,000.00

PortCare is a not-for-profit charity established since 2000 based in O'Connor.

It provides free bread and fresh produce to the disadvantaged and the financially vulnerable, operates a low-cost supermarket and opshop, provides food relief for people experiencing financial hardship, offers free community meals and school

breakfast programs and works with support agencies like Centrelink, hospital social workers, chaplains, job network providers by accepting referrals for assistance.

PortCare currently employs 3.5 FTE (fulltime equivalent) staff, three of whom are Cockburn residents and supported by a team of 30+ volunteers.

Every month, PortCare distributes an average of 800+ boxes of fruit and vegetables.

PortCare also host weekly community meals twice a week with an average weekly attendance of 120 people.

PortCare also provides emergency food parcels to those experiencing financial hardships or homelessness.

In 2020, PortCare assisted a total of 556 people (364 adults, 192 children), 171 of those were residents of Cockburn (103 adults, 68 children).

In 2021, PortCare assisted a total of 561 people (363 adults, 197 children) of whom 167 were Cockburn residents (91 adults, 76 children).

PortCare customers come from all walks of life across diverse socio-economic and cultural backgrounds.

This is evidence of the inclusive and safe environment they have created in their shop.

Everyone who walks through the door is treated with respect and dignity by staff and volunteers.

It is not surprising that more than 50 percent of those who accessed their services are First Nations Australians or people from disadvantaged backgrounds.

PortCare also supports people experiencing homelessness directly by helping them with food relief, supplying them with sleeping bags, blankets, and warm clothing if they are sleeping rough.

They work closely with Homeless Healthcare when their clients are moving into permanent housing by donating furniture items like beds, basic furniture items where required.

In 2022-23, with the continual rise in living cost, especially in a tight rental market and increasing interest rates for homeowners, PortCare are expecting that more families will access their emergency food relief programs.

They estimate 200 Cockburn residents will benefit from their service during this period.

PortCare have not received funding from the City previously.

Portcare receives funding from their supermarket sales and has requested \$5,000 from the City of Fremantle for Christmas grocery hampers for 40 families.

Recommendation:

This application received an assessment score of 14/18 due to the benefit they provide to disadvantaged Cockburn residents.

The City's Support Services Lead is supportive of the proposal as Cooby Cares has ceased to operate more Cockburn residents may use this service in the future.

Although it is not based in Cockburn it is assessable to Cockburn residents.

The applicant has requested \$20,000 which is not in commensurate with the number of Cockburn residents that currently use the service.

It is recommended to support with a donation of \$5,000.

Sponsorship

The sponsorship recommended to Council are as follows:

Applicant	Comment	Requested Amount	Recommended Amount
Cockburn Masters Swimming Club Inc	As requested	\$11,000	\$11,000
Southern Lions Rugby Union Football Club	The City supported a donation of \$10,000 in September 2020. Insufficient evidence to support an additional \$2,500. Applicant has already received \$3,000 funding from the City in 2022.	\$12,500	\$9,000
Perth Glory Football Club	As requested	\$5,824	\$5,824
Meeples, Decks and Dice Inc	Ineligible-application doesn't meet grant criteria	\$7,500	\$0
Total			\$25,824.00

Allocated group sponsorship for 2022-23 is \$90,000.

Swimming WA Official Sponsorship of \$7,500 for the Open Water Series 2022/23 Coogee Round was approved at the Ordinary Council Meeting on 13/10/22.

The recommended sponsorship allocation for the September 2022 grants round is \$25,824.

The recommended remaining balance for the March 2023 round of applications is \$56,676.

Following are the latest round of proposal summaries.

Applicant: Cockburn Masters Swimming Club

Proposal: Coogee Jetty to Jetty Swim "Major Event Partner"

Requested: \$11,000.00

Recommended: \$11,000.00

Cockburn Masters Swimming Club is a not-for-profit, incorporated association, affiliated with Masters Swimming Australia.

Masters swimming is for anyone aged 18 and over, and promotes "fun, fitness and friendship" through swimming.

The Club offers a wide range of activities to actively encourage participation and promote health and fitness, including the annual Coogee Jetty to Jetty Swim, the largest community-based swim in WA.

The 2022 event was cancelled due to COVID and in 2021 (a reduced capacity of over 50%) attracted 600 swimmers and 75 volunteers and, the 2020 event (previous full-sized event) attracted over 1,300 registered swimmers (1,128 participated on the day) and has been a sell-out event for the previous four years in the 1500m and 750m events.

In 2023, their vision continues to be based on "giving back" to the community by hosting a memorable and fun event and will include all the traditional features, 250m Try It Swim, 750m Splash, 1500m Classic, Beach Walk, Kid zone & fun activities and Community Breakfast.

The event will be delivered by the club's event committee, who have a great deal of event management experience from continuity in key roles such as the Event Coordinator and Race Director and, which will work closely with all stakeholders including the City of Cockburn as the Major Event Partner.

As a truly genuine community swimming event, the target range of participants includes community-based swimmers and their families, across all ages and abilities.

The 250m Try-It Swim offers a swim for younger children (8-10 years) who are too young to enter the traditional "jetty to jetty", families often with multi-generations taking part and novice swimmers attempting an ocean swim for the first time or seeking confidence to do more.

The 250m Try-It has become a key component of the event since being introduced and is a highlight for the volunteers.

Traditional 750m & 1500m races will attract a broad range of swimmers, again with a family focus and with participants ranging from 10 years to 90+ years.

With 1300+ swimmers expected to take part, safety and enjoyment is maintained by separating the races into "wave starts", each one gaining equal focus, support, and attention at all times by the volunteers.

This all aligns with the Club's primary objective of encouraging the broadest possible range of community participation in this swimming event as a healthy, fun, and safe activity.

Around 20% of swimmers are Cockburn residents and a priority period is offered to Cockburn residents in advance of public entries.

The Club will promote the event via:

- Electronic communications
- Regular electronic database mailouts (EDM's) to their past swimmer database of 4,000+ emails
- Direct contact with local sporting clubs, groups, masters and other swimming clubs
- 3rd party communications through sponsor and partner databases (e.g., ASB branded merchandise, BlueChip Timing
- Brand creation & awareness campaigns
- Event website used extensively for promotions and event/sponsor information
- Social media platforms (Facebook & Instagram) used extensively
- Event posters limited number printed for display on community boards
- Event flyers electronic versions emailed to recreation centres, sponsors, other groups & used on social media
- WOW Swims website features & other promotions coordinated by MSWA
- Other events cross-promotions through other events they have associations with (e.g., Christmas 10K Swim & Champs of the Bay).

Local businesses are also involved as suppliers and sponsors and Coogee Beach Surf Life Saving Club provides contracted water safety services.

Wherever possible, the Club aims to use services from within the Cockburn community.

The City has been involved for many years and has been a Major Event Partner for the last seven years.

This role is publicised and acknowledged through the website, Facebook, media releases and event flyers and posters. A showcase article will also be included in an electronic database email (EDM).

The Club proposes that as Major Event Partner, the City will receive excellent exposure and branding opportunities over and above all other sponsorship categories, including brand recognition through this year's naming convention, "Coogee Jetty to Jetty Swim 27 in partnership with the City of Cockburn".

Other branding opportunities include:

- Exclusive naming rights for the "City of Cockburn Community Breakfast"
- Exclusive naming rights for the "City of Cockburn Kid zone activities"
- Logo on event swim caps
- Logo on all posters and flyers
- Logo incorporated into event email signature
- Logo on event display boards
- Opportunity for City to provide promotional display banners
- Opportunity for City to host a promotional marquee/tent
- Web and social media cross-promotions
- Logo on adverts placed in print media
- Web and social media cross-promotions
- Opportunities are also provided for promotion of other City services past
- examples include marquees and promotions for Cockburn ARC and Co-Health.

There is also flexibility to work collaboratively with the City for other support opportunities ensuring that the City's recognition as Major Event Partner will be maximised.

In the past, the Club has offered:

- An invitation to Elected Members to attend and participate
- An invitation to the Mayor to attend and take part in presentation of prizes during post-event announcements
- Up to four complimentary swim entries to use as the City sees fit (e.g. a promotion to the City's co-workers or a City-coordinated prize-giveaway through social media channels and/or the Cockburn Soundings newsletter)
- Cross-promotion of the Cockburn ARC.

Cockburn Masters Swimming Club has received funding from the City in previous years, as follows:

- September 2021 \$17,000 (25th anniversary event in 2022)
- August 2021 \$3,000 Small Events Sponsorship, Christmas 10K Swim
- September 2020 \$11,500
- July 2020 \$3,000 Small Events Sponsorship, Christmas 10K Swim
- September 2019 \$13,000
- August 2019 \$7,660 Freo Ports Partnership, Christmas 10K Swim
- September 2018 \$12,500
- August 2018 \$7,675 Alcoa Partnership, Christmas 10K Swim
- September 2017 \$12,500
- September 2016 \$12,500
- September 2015 \$10,000
- September 2014 \$10,000 Naming Rights Sponsor of 2015 Event
- September 2013 \$10,000 Naming Rights Sponsor of 2014 Event
- March 2012 \$10,000 Naming Rights Sponsor of 2013 Event

- September 2011 \$10,000 Naming Rights Sponsor for 2012 Event
- September 2010 \$3,500
- September 2009 \$2,000
- October 2007 \$1,000.

The proposal is supported by letters from Masters Swimming WA and Coogee Beach Surf Life Saving Club.

Recommendation:

The application for sponsorship achieved an assessment score of 17/21.

The recommendation for sponsorship is \$11,000.

Applicant: Southern Lions Rugby Union Football Club

Proposal: 10's Rugby Competition "Naming Rights"

Requested: \$12,500.00

Recommended: \$9,000.00

The Southern Lions Rugby Union Football Club (SLRUFC) is a not-for-profit sporting club with a support base of over 500 members/players with the majority calling the City of Cockburn home.

The Club have teams in juniors under six years and under eighteen years, senior men's x three grades, master's, women's community grade and an upcoming women's premier grade.

The Club has been chosen to represent Australia in France, for the first Amateur World Cup Rugby Tournament 2023 and will host the 2027 event.

The all-abilities team was the first of its kind in the southern hemisphere and has been invited to participate in the World Golden Oldies Festival in Perth in 2023.

Players range in age from five to 65, come from diverse backgrounds and nationalities, and bring with them a vocal and supportive fan base.

The Club has been based at the Success Regional and Sporting Facility since 2010 and are in the WA Premier Grade competition.

The Club provides a place for people to play and/or learn a sport with like-minded people in a fun, family friendly and competitive (when older) environment.

The Club invites and welcomes anybody and everybody to play or support the game.

The Club is seeking financial assistance, specifically to assist with the costs of hosting the international sporting event, the 2023 City of Cockburn 10s Rugby Invitational Tournament on the 25th of February 2023.

They are sending invitations to all Rugby WA Teams, including all premier teams, WA Police, Navy and Army.

They will also be extending an invitation to all east coast based premier grade teams.

The 2023 event will be advertised to over 60 state, national and international teams and on Rugby WA and Rugby Australia's websites.

They expect a minimum of 24 international, national and WA based 10s teams to participate.

The event will be attended by up to 1000 people and will see both their club and the City of Cockburn receive invaluable exposure in the community.

All short forms of rugby like 10s rugby continue to grow at a fast rate throughout the world, in popularity and participation.

7s and 10s rugby provides an opportunity for players new to rugby to take their first steps into the sport. Many countries are now embracing the game and sending many grass roots teams to international tournaments.

There is also an increase in women's participation.

The annual tournament welcomes teams from around WA, Australia, and Asia to the Success Regional Sporting Facility to compete in Men's, Women's and under twenties competitions.

The 2022 tournament built on the great success of the previous events with positive feedback received from all clubs, Rugby WA, and club members, all keen to participate again in 2023.

The club advises that renewed sponsorship would assist greatly with community based advertising campaigns, event equipment; hosting of visiting teams, complimentary attractions i.e. entertainers, face painting, bouncy castle, introductory rugby clinics, prizes, tournament referees, first aid, trophies, photography for posting online, increasing general awareness of the Southern Lions and City facilities throughout the City of Cockburn and, encourage community participation in social activities and promoting an active, outdoor lifestyle including promotion of rugby union as an inclusive sport.

The City of Cockburn 10s event will be actively promoted via:

- Event correspondence to all competing and invited teams including emails, event flyers and team nomination forms
- Southern Lions, Rugby WA and Western Force and local Cockburn Facebook pages
- Community groups (including cultural) e.g., WA Fijian Association
- Local radio
- Event posters
- Event sound system throughout the day
- Banner placement around the event location
- The City of Cockburn website

As naming rights sponsor, the City of Cockburn will benefit from:

- Inclusion on all event advertising including local media coverage via radio
- Logo inclusion on event signage
- An opportunity to display City signage at the event
- Logo inclusion and sponsor recognition on all advertising and promotional material
- Flyers/posters
- Rugby Australia events website
- Event Facebook page (Cockburn10s Rugby Invitational Tournament)
- Event program

The City of Cockburn is also welcome, to advertise the event through all available channels and to display messages, publications, banners, or other items at the event.

In addition, the event is free to the public, so all City of Cockburn residents are welcome to attend.

As in previous years, the Mayor will also be invited to make the presentations to the winning teams.

The Club has previously received the following funding from the City:

- 2022 Sept \$3,000 Small Events Sponsorship
- 2021 February \$1,500 Small Events Sponsorship
- 2020 September \$10,000 (Naming Rights Sponsor of 2021 event)
- 2019 September \$10,000 (Naming Rights Sponsor of 2020 event)
- 2018 September \$10,000 (Naming Rights Sponsor of 2019 event)
- 2017 September \$10,000 (Naming Rights Sponsor of 2018 event)
- 2016 September \$10,000 (Naming Rights Sponsor of 2017 event)
- 2015 September \$12,500 (Naming Rights Sponsor of 2016 event)
- 2014, September \$12,500 (Naming Rights Sponsor of 2015 event)
- 2013 September \$12,500 (Naming Rights Sponsor of 2014 event).

The Club has also previously received \$4,000 Minor Capital Works Grant towards floodlighting upgrades, and at least one \$1,000 Sports Equipment Grant.

Save Our Sons Duchenne Foundation has provided a letter of support for the proposal, as SLRUFC host an annual charity game for the foundation.

Australian Rugby Union and Rugby WA have endorsed the event each year; with Rugby WA providing rugby equipment and Referees WA provide referees for the day.

Recommendation:

This application received a score of 15/21. The event provides branding and promotional benefits to the City and club.

An increase in funding from \$10,000 in 2020 to \$12,500 in 2022 has not been justified.

The applicant has also received Small Event Sponsorship of \$3,000 in 2022 for a Junior 7's competition.

It is recommended to support sponsorship of \$9,000.

Applicant: Perth Glory Football Club

Proposal: Women's A League Training Beale Park "Partner"

Requested: \$5,824.00

Recommended: \$5,824.00

Perth Glory Women's A League team competes in the National Liberty A-League, representing the state of WA.

They are an elite football team and are the culmination of the player pathway in WA for talented female players.

The club head office has recently moved from Floreat to Fremantle, and as a result are now in the position of develop new partnerships for team training locations.

As a result, they have developed a partnership with the Cockburn City Soccer Club, which is located within the City of Cockburn.

Perth Glory Women's A League are keen to establish strong relationships with local clubs and the City to help promote the 'female game' to all stakeholders.

The Club aim to be visible in the local community and work with local clubs to promote football as a healthy and safe community sport.

They will be conducting open days and clinics to promote the game at Beale Park in collaboration with all stakeholders.

They would also like to work with coaches from local clubs to assist them in upskilling, with support from their Women's League Head Coach, who will in essence create a 'coach the coaches' style clinic.

This proposal will benefit the Cockburn community by having the elite football team present, visible, and accessible to the community.

Everyone who has an interest in the world game will be of benefit from this project.

The Women's A League training and associated activities will be actively promoted via social media and Perth Glory's newsletter that has a distribution size of 110,000 people.

As a partner, the City of Cockburn will benefit from the presence of signage at clinics and brand association at specific appearances on request, as well as tickets to games or merchandise to use for competitions.

The funding will support venue hire at Beale Park.

Recommendation:

This application received an assessment score of 15/21.

The City's Lead, Community Venues supports the application.

It is recommended to support sponsorship of \$5,824.00.

Applicant: Meeples, Decks and Dice

Proposal: Board Game Meets "Official Sponsor"

Requested: \$4,104.00

Recommended: \$0

Meeples, Decks & Dice Inc. (MDD) is a local Cockburn community group for modern board gaming enthusiasts and hobbyists.

MDD seeks to provide a group for all ages and abilities, regardless of their experience, with modern board gaming.

They provide a community group for people who want to meet people.

They currently run board game meets twice a month on the first and third Saturday at Beeliar Community Centre.

In 2023, they would like to introduce more events and special gatherings for their members, including open days to assist family groups to play board games.

MDD is requesting official sponsorship funding to support with the delivery of more events including venue hire.

MDD has received funding from the City in previous years, as follows:

• June 2022 Small Events Sponsorship \$1,566.00

Recommendation:

The application is ineligible as the applicant did not contact the City's Grants Coordinator to discuss their proposal prior to submitting the application, which is a mandatory requirement.

Also, the application does not meet the donation grant criteria, as outlined in the grant guidelines, as the applicant is not a not-for-profit, benevolent organisation that directly assists the disadvantaged and/or vulnerable within the Cockburn community.

It is recommended that the application is not supported.

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Council approved a budget for Grants and Donations for 2022-23 of \$1,455,000.

Following is a summary of the proposed grants, donations, and sponsorship allocations for 2022-23.

Both the September 2022 and March 2023 grants rounds have not yet been approved and therefore are not included in expenditure until approved.

Summary of Proposed Allocations	Budget for FY23	Year to Date Expenditure (paid	Amount still to be allocated
		and/or committed	
Committed/Contractual Donations	\$472,971	\$472,971	\$0
Donations	\$210,000	\$0	\$210,000
Sponsorship (Including Individual)	\$100,000	\$8,150	\$91,850
Specific Grant Programs	\$672,029	\$96,508	\$575,521
Total	\$1,455,000	\$336,523	\$877,371

Legal Implications

N/A

Community Consultation

In the lead up to the September 2022 round, grants, donations, and sponsorship funding opportunities were promoted through the local media and Council networks.

The promotional campaign has comprised:

- Three advertisements in the Perth Now Cockburn Gazette on 26 August, 9 September and 16 September 2022
- City of Cockburn Facebook promotional posts on 26 August and 16 September 2022
- Promotion to community groups through the Community Development Service Unit email networks, contacts, and community group meetings
- Additional advertising through Community Development promotional channels
- Cockburn Community Group E News September 2022 edition
- School email update August 2022 edition
- Information available on the City of Cockburn website
- Reminder email sent to previous and regular applicants and, people who made enquiries during the application period
- Distribution of promotional flyers.

Risk Management Implications

The Council allocates a significant amount of money to support individuals and groups through a range of funding programs.

There are clear guidelines and criteria established to ensure that Council's intent for the allocation of funds is met.

To ensure the integrity of the process there is an acquittal process for individuals and groups to ensure funds are used for the purpose they have been allocated.

The reputation of the City of Cockburn could be seriously compromised should funds be allocated to individuals or groups who did not meet the criteria and guidelines and/or did not use the funds for the purposes they were provided.

Adherence to these requirements is essential.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 24 November 2022 Expenditure Review Committee.

Implications of Section 3.18(3) Local Government Act 1995

MELVILLE COCKBURN CHAMBER OF COMMERCE AND CITY OF COCKBURN

REPORT 2022

MEMORANDUM OF UNDERSTANDING

Overview of 2022

As the Executive Officer I can proudly report that the Melville Cockburn Chamber of Commerce (MCCC) is in the best financial position since its inception. Mainly due to the Chamber being awarded a contract for 2022 through Department of Education Skills and Employment to deliver 3 programs for Empowering Women to employment in the Perth South.

As in the previous year Covid19 did present a few challenges with events and workshops, however this was mitigated by following government guidelines. Events continued with capped numbers, rescheduling, and social distancing.

Membership numbers were slightly down on the previous year due to the resignation in September 2021 of our Business Development Manager Shelley Tamsitt. After 5 years Shelley decided to move on and the Chamber only recently employed Emily Grandoni. Already we are seeing a positive impact on membership. We continue to offer half price membership category for start-ups within the City of Cockburn and Melville with an (ABN) less than two years. We also offer this membership category to Business Foundation NEISS program and Women Start Ups. Our value proposition continues to offer a one-on one marketing review to members, and we offer the opportunity to use of MCCC function rooms. In addition, working with Business Stations (Pink Owls) we introduced the <u>DIGITAL SOLUTIONS PROGRAM</u> to MCCC members, a 7hr Digital Solutions package PLUS a bonus 1/2hr 1:1 as a start up to the program.

Retention continues to be a challenge for the (MCCC) however we are anticipating our monthly payment option will help prevent this leakage in the coming years. Along with improvements in our value proposition

Despite a few challenges, we recently celebrated 1 year at our new premises at the Cockburn Integrated Health Building. Thanks to the incredible support of the City of Cockburn. The newly refurbished rooms, with bigger offices and function/board room is welcomed. It supports our board meetings, workshops and functions, which has not only benefited the Chamber but benefits the members with extra opportunities. Moreover, we offer this space to our members for B2B meeting and hosting their own functions and workshops which has been warmly received by the membership. We recently hosted Business Foundations partnered with City of Cockburn to delivery the Amplify Program a 4-week series supporting micro business with digital marketing. We continue to support the charity "Feed it Forward" offering free use of the venue to host their AGM and other activities.

During the past year, the (MCCC) was continually active in events space, with no fewer than 32 events/workshops/training throughout the year. A mix of professional development, training, industry forums and networking. We listened to our members from the past survey to deliver more breakfast and small groups networking events.

This year we launched the Business Mastermind series four in total. Mastermind sessions involve business owners sharing their challenges with a group of like-minded business people with a view to finding guidance, ideas, and solutions. The "Business after Hours" networking continues to be our most popular and best attended monthly event.

The MCCC was privileged to win a contract through the Department of Education Skills and Employment in 2021/22, Empower Me to Employment (EMtE). Collaborating with "Local Jobs Program" (Perth South), job active provider "atWork" and Workskil in designing a program supporting mature aged women re-entering the workforce, with a focus on job and emotional readiness. A program warmly supported by members and key stakeholders from City of Cockburn and Melville. To date MCCC has delivered 2 of the 3 EMtE program. And successfully placed women in the aged care, hospitality, and administration sectors.

This year's AGM in schedule for 27th October 2023. This past year a few have resigned from the board, and we are now targeting potential nominees with a focus on youth to potentially lead to fresh ideas supporting the MCCC's 2023 strategic plan.

Our key objectives

1. Events, Education Plan with a focus - Training / Workshops- upskilling

 Membership – Reviewing Value proposition and enhancing the experience of members,
 Conference/ Function rooms - Using rooms for training/workshop and hiring rooms to members and the wider business community.

KEY PERFORMANCE INDICATORS

The funding agreement is subject to satisfactory annual reports on the following Key Performance Indicators, as nominated by the MCCC:

5.1.1 Formation of a Business Development Group

The MCCC will develop a development group within the first six months. They will develop a term of reference for this group with which the City is willing to assist if required. The group must have at least one City of Cockburn staff member.

Response:

Into its second term the MCCC terms of reference task force of board members and key stakeholders. It continues to Identify the shared goals in delivery of MCCC objectives. The taskforce acts as an advisory group to consider, discuss and identify key issues and expectations. Furthermore, has provided advice to the Executive Officer on any other matter related to the objectives. The taskforce does not impact the day-to-day activities of the MCCC.

Business Development Group Objectives

- 1. Capital expenditures (Capex) funds used by a MCCC to acquire, upgrade, and maintain physical assets such as property, plants, buildings, technology, or equipment: -
- 2. Job Ready Program with Federal Government MCCC and atWork, Workskil "Empower me to Employment: - Review, consult contracts and seek legal advice where necessary
- 3. Business Awards 2023

Development Group (Taskforce)

Tony Romano (Nai Harcourts), Phil Charles (Sylex Ergonomics), John Tedesco (Innovation Services), Gary Hitch (Ark Services) and Monique Williams Executive officer

Sarah Kahle City of Cockburn (resigned)

Jo Arbel City of Melville

At this stage City of Cockburn / Melville representatives have only been involved individually, one on one meetings with updates, views, support, and consultations with Executive Officer. However, with new Economic development team led by Michael Faulkner from City of Cockburn we look forward to further collaboration.

5.1.2 Events and Activities

Commitment to deliver no fewer than 18 events per year, half of which are to be held in the City of Cockburn. which could include a selection of the following:

- Two Development Group meetings (required) and a mix, according to need, of:
 - Professional development workshops.
 - Industry forums.
 - Business After Hours events.

Response:

Two Development Group Meetings (required) – Yes Events TABLE (below)

2022 MCCC EVENTS

MCCC delivered over 30 events of which more than half held in the City of Cockburn. A good mixture of professional development workshops (training) Industry forums and Networking. (*not included indirect businesses & members training*)

Review MCCC EVENT GALLERY

5.1.3 Memberships

Provision of a new membership category, with a reduced first year membership fee (\$179.50), for companies who have held an ABN for less than two years.

Response:

City of Cockburn: - 4 new members with an ABN less than 2 years. 01st October – 31st Aug

Silk Property & Development Agency	Rob Dalais
Greenspace Bookkeeping Pty Ltd	Pamela Taylor
Brightside Webdesign	Alex Bettink
Maltia Caffe	Tennile Caruana

5.1.4 Identification of local needs

Conducting a bi-annual survey of businesses to identify key needs including skills gap analysis – to complement and not duplicate the City's own surveys. The City requests to partner on this survey, and provide input into the survey questions, and will assist the MCCC to promote the survey. The MCCC will share the results with the City.

Response:

MCCC Customer Research Summary Results (see link)

MCCC Business survey

In summary 67% of our members who responded to the survey, were either satisfied to very satisfied and 28% were neither satisfied nor dissatisfied with the Melville Cockburn Chamber of Commerce. "A friendly fun and supportive organisation" and "The Chamber offer great events and value for money." Main reason for joining the MCCC is the networking opportunities. However, some responded with suggesting we should offer variation of events and more structured networking. Though current members thought the MCCC offered value for money for membership others believe the MCCC should consider a higher membership category and build on the benefits to members.

The objectives (survey) - response

1. Events – Networking, workshops, self-development training.

Introduced alternative networking opportunities with a focus on small groups. Offered breakfast training on LinkedIn, Innovation, social media, coaching and sales. Introduced Mastermind series small groups of 15

2. New Membership Category: attract broader range of younger demographic

Promote half price membership category CoC **"New Business"** (abn) less than 2 years Start-up **"Women in Business**" working with Business Station - half price New Start up business **"NEIS"** program half price membership.

3.Build on members benefits: (Value Proposition)

Digitial Solutions Mentoring 1:1 Members access to MCCC facilities for meetings, training, and workshops Marketing review with marketing firm "Space Station" Introduced members only access to website to view marketing training modules. New Customer Relationship Management (ongoing)

5.1.5 Continuous Improvement

Demonstrated improvement in the following questions as per the Business Scorecard Survey:

- Awareness of MCCC.
- Performance Index Score of MCCC.

2021 Results (waiting on 2022) results from City of Cockburn Performance index score 59 (up 2%) Familiarity with service of MCCC 37% (down 12%)

Positive rating 79% (up 3%)

5.1.6 Governance

Submission of annual reporting including:

- Audited financial statements (as per Council requirements). -
- Report on the relevant achievements (addressing Key Performance Indicators and outlining events and activities).
- Future action plan and event schedule.
- Following the MCCC Annual General Meeting, a copy of the Annual Report and minutes of the AGM are to be forwarded to the City.

Response: (see attached 2021) waiting on 2022 to be forwarded after AGM 2022 (October) Audited Financial AGM Minutes Constitution

Future Action Plan for 2023

The Melville Cockburn Chamber of Commerce strategic planning day held in January 2023 with the board and staff reviewing 2022 and planning 2023 with support of sub committees and development group.

Our future to be guided by the KPI's set out in the City of Cockburn MOU and our objectives

Our objectives: - (KPI's) **Membership** / increase membership from 2023, (kpi) 50 new members. Retention 63%. (KPI) Implement a customer relationship management (CRM) program (ZOHO).

Events / Host a minimum of 18 events over the year to include networking, workshops and targeted self-development skills guided by the results on MCCC members survey December 2022.

Room Hire – increase occupancy 20 %

1. Capital expenditures (Capex) funds used by a MCCC to acquire, upgrade, and maintain physical assets such as property, plants, buildings, technology, or equipment: -

We request financial support of 15k from the City of Cockburn for the following:-

- a) A hot water system to be installed at the current premises. Currently no running hot water.
- b) Automatic entry device for small business to access venue independently
- c) Signage to premises to assist in identify our venue and our affiliation with City of Cockburn
- d) Blinds / Awnings for the board/ training room.

(Quotes available upon request)

15.1.4 Proposed Amendment to Locality Boundaries for North Coogee

Responsible Executive	Executive Governance and Strategy		
Author	Manager Legal and Compliance		
Attachments	 Assessment Process for Name Change Requests Email from Landgate to Community Groups Landgate Policies and Standards for Geographical Naming in Western Australia Pre-contact Indigenous Fremantle - Anthropology from the Shed South Beach Community Group - Alternative Name Flyer 		

Officer/Council Recommendation

That Council:

- (1) SUPPORTS the Port Coogee Community Association and South Beach Community Group in development of a proposal which conforms with the requirements of Landgate's Policies and Standards for Geographical Naming in Western Australia; and
- (2) ALLOCATES \$50,000 in the 2022-23 Budget to Amendment to Locality Boundaries for North Coogee project with a further allocation of \$20,000 in the 2023-24 Budget, subject to Landgate assessing and supporting a proposal that demonstrates a compelling need for change.

TO BE CARRIED BY ABSOLUTE MAJORITY OF COUNCIL

Background

On 11 August 2022 Council resolved:

That Council:

- (1) RECEIVES the update for the Proposed Amendment to Locality Boundaries for North Coogee;
- (2) FORMS a working group to progress this matter comprising two representatives each from:
 - a) City staff
 - b) Elected members
 - c) Port Coogee Community Association
 - d) South Beach Community Group;
 - (3) ENDORSES Councillors Allen, Corke and Separovich as the Elected Member representatives on the working group;
- (4) ENSURES the working group first meets before the end of September 2022; and

(5) The meeting is to DETERMINE what consultation is needed going forward and formulate a plan to be put to the Expenditure Review Committee for consideration.

In May 2021 Council endorsed its support of the renaming of part of the locality of North Coogee as Port Coogee, and the remaining part of the current locality of North Coogee as South Beach.

Since that time a submission was made to Landgate, however it was not supported.

The Port Coogee Community Association and South Beach Community Group (the Community Groups) together with the City have engaged with Landgate to further understand the position of the geographic Names Committee, and what is required of the Community Groups in the continued pursuit of the name change for the locality of North Coogee.

The City has supported the formation of a Working Group, whose objective was to determine what consultation is needed going forward and formulate a plan for consideration.

The objective of this report is to inform Council, via the Expenditure Review Committee, of the outcome of the September meeting, the assessment process for name change requests, and the City's role in that process.

Submission

N/A

Report

Meeting

On 27 September 2022, City representatives met with West Ward Councillors and representatives of the Community Groups.

The objective of the meeting was to determine what consultation is needed going forward and to formulate a plan to be put forward to the Expenditure Review Committee for consideration.

Since the meeting on 27 September 2022, further information has been provided by Landgate to the Community Groups and the City regarding the process.

It is also understood that the Community Groups have been in consultation with the Minister's officer, though the City is not aware of the outcome of those discussions.

Name Changes

Landgate's *Policies and Standards for Geographic Naming in Western Australia* (Policy) includes the fundamental requirements for naming of roads, administrative boundaries, cultural and typographical features.

The objective of the Policy is to comply with relevant legislation and provide an open and transparent naming process.

The City and the Community Groups have received feedback from Landgate at this stage advising that a proposal must be prepared in accordance with the Policy.

Landgate have drawn the Community Groups and the City to section 1.1.4 of the Policy which provides:

Any change to an existing approved name is discouraged. As all official names are meant to be enduring, any proposals to change the name of a feature, administrative boundary or road must include evidence of a compelling reason for such a change, for example the proposal is deemed to be in the public interest for safety reasons.

The changing of a name merely to correct or re-establish historical usage shall not be considered in itself a reason to change a name.

Evidence of community consultation and feedback from all relevant agencies and jurisdictions must be included with the submission. All such requests will be required to be presented to Landgate for consideration.

If Landgate determines that the name change is unnecessary or non-essential, yet there is enough community support for the change and it is compliant with the relevant naming policies and standards, it may be approved, but it shall incur a service charge.

Landgate have a documented policy position on what it deems as "unnecessary name changes".

This does not mean the objective of the Community Groups would not be entertained, however it is critical that the proposal demonstrates a compelling need for change, and that the proposed names are compliant with the relevant naming policies and standards.

The Policy sets out naming requirements and standards.

Section 1.3.4 states that cardinal indicators (North, South etc) shall not be permitted for new road and locality names.

It is understood this Policy is the basis for the position that the name "South Beach" would not be supported, as well as an issue identified by Landgate that the name is a direct duplication of the officially names South Beach in Fremantle (refer Attachment 2).

It is the responsibility of the City to ensure that any name change proposal confirms with the Policy, particularly those prescribed in section 1 of the Policy.

On 9 November 2022, the South Beach Community Group (SBCG) presented the City with the name the group intends to present in its proposal for part of the locality of North Coogee.

SBCG have advised they undertook community consultation with regards to identifying an alternate suburb name for the "South Beach" name proposal that could then be provided as part of the City led community consultation.

The group advised the community accepted and proposed alternate suburb name change selected to be considered in conjunction with the South Beach name is Nara Beach (refer Attachments 4 and 5).

This community consultation was very well supported with over 250 respondents to the survey that was conducted for the South Beach/Shoreline Residential areas.

It is important to recognise the SBCG advised the name Nara Beach is to be considered in conjunction with South Beach, however Landgate has made the position clear with respect to the South Beach name.

At this stage, there is no proposal which meets the requirements of the Policy, with a compelling driver for change needing to be established in the proposal.

Proposal

As identified herein, a proposal is required to be prepared which meets the requirements of the Policy.

This includes a requirement for the proposed names to conform with the general naming policies and standards (section1).

Landgate have indicated the name South Beach does not confirm with section 1 and therefore does not meet the requirements. The name Nara Beach has not been presented to Landgate for consideration, given it was only recently identified by the SBCG as a proposed alternative.

The proposed name Nara Beach contains an Aboriginal word and therefore the name must confirm with the requirements of the Aboriginal Naming Guidelines (Landgate).

The City has also been advised there is no evidence of a compelling reason for the change, which is a requirement to be addressed in the proposal.

The proposal must include maps or diagrams clearly defining the area, and extent to which the name will apply.

Any proposal requesting the renaming of an approved name, or any new naming proposal considered to be of significance to the immediate or extended community must include evidence of consultation with the community.

Local governments must ensure that the level and form of consultation undertaken reflects the significance of the naming proposal.

The immediate community is defined as including residents, ratepayers and businesses within the immediate area, who are directly affected by the submission.

The extended community includes residents, ratepayers and businesses surrounding the area directly affected by the proposal, any visitor groups to the area, and government or non-government organisations with an interest in the area.

Consultation

Section 9 of the Policy provides guidance on the consultation standards and principles.

As advised above, the Policy makes a distinction between 'immediate community' and 'extended community'.

The consultation process involves the five steps below. It should be noted the costs of community consultation are met by the City.

At this stage there is not a proposal in a form which meets the requirements of the Policy, therefore the first step in the process is to prepare a proposal.

The community groups have already completed their own consultation processes (the petition) which has shown evidence of support for the name changes, however this consultation does not meet the requirements of the Policy.

It is noted that at this stage the name "South Beach" is not supported, and Landgate has indicated it is unlikely this position would change as it does not meet the requirements of the Policy (as detailed herein).

The proposed name of Nara Beach will require some additional consultation to ensure the City meets the requirements of the Aboriginal Naming guidelines, identified as section 7A of the Policy.

The names that conform could be shortlisted and formed into a proposal subject to the compelling need for change being met.

The City's Advocacy and Engagement department have considered the Policy and recommended a two-phase approach.

Phases One (Community Survey)

- 1. Do you want to change the name of the suburb? (Yes/No)
- 2. Define the area of this new suburb? (if including City of Fremantle area, City of Fremantle Council must be involved as well)
- 3. What should the area be named?
- 4. Suitable names presented to the Working Group for shortlisting

Phase Two

- 1. Community engagement activities (workshops, surveys) to review name change sentiment, boundary options, and short-listed names
- 2. Council to consider report and make recommendation to Landgate.

Consultation Phase costs:

should the name change take place			

The matter will require referral to the Cockburn Aboriginal Reference Group (ARG) at minimum, as part of the process.

Landgate has also indicated to the City that due to the locality boundaries, consultation with the City of Fremantle, and endorsement by the Council of the City of Fremantle will be required.

This may impact the timeline of consultation, as the ARG meet on set dates, and the City will be subject to the City of Fremantle's own decision-making process.

The City does not undertake consultation activities from mid-December to the end of January, as it is a common period for holiday travel to occur and this may impact engagement with the consultation process.

If supported by Council, the consultation process would be planned for the second half of FY23.

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• Aboriginal and Torres Strait Islander cultures and other diverse cultures and heritage are recognised and celebrated.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

This project is currently unfunded, and the costs are required to be met by the City.

A budget amendment is required to fund the cost, the detail of which is provided in this report.

The project will require officer time to facilitate the Working Group meetings which has not been accounted for in the costing detail and will be managed in consideration of funded projects and KPIs.

It is recommended \$50,000 be allocated for the 22-23 Budget, and a further \$20,000 to the 23-24 Budget should the name change take place.

Legal Implications

In Western Australia the practice of officially naming features, localities and roads is covered under s26 and 26A of the *Land Administration Act 1997*.

26. Land districts and townsites, constitution etc. of

- (1) In this section townsite
 - (a) means townsite constituted under subsection (2); and
 - (b) except in subsection (2)(a), includes land referred to in clause 37 of Schedule 9.3 to the Local Government Act 1995.
- (2) Subject to section 26A, the Minister may by order
 - (a) constitute land districts and townsites; and
 - (b) define and redefine the boundaries of, name, rename and cancel the names of, and, subject to this section, abolish land districts and townsites; and
 - (c) name, rename and cancel the name of any topographical feature, road or reserve.
- (3) An order made under subsection (2) may include such matters enabled to be effected under an order made under another provision of this Act as the Minister thinks fit.

26A. New subdivisions, names of roads and areas in

- (1) If a person delivers a diagram or plan of survey of a subdivision of land approved by the Planning Commission to a local government, and the proposed subdivision includes the provision of a road for use by the public, that person must also deliver to the local government the name proposed to be given to the road.
- (2) The local government may require the person so subdividing the land
 - (a) to propose a name for the proposed road or, if a name has already been proposed, to alter that name; and
 - (b) to propose a name for the area the subject of the proposed subdivision, or if a name has already been proposed, to alter that name.
- (3) If the local government approves a name proposed under subsection (1) or (2), the local government is to forward the proposal to the Minister.
- (4) The Minister may
 - (a) approve the proposed name; or
 - (b) direct the local government to reconsider the proposed name, having regard to such matters as the Minister may mention in the direction; or
 - (c) refuse to approve the proposed name.
- (5) A person must not —

- (a) assign a name to the area or road unless the name is first approved by the Minister;
- (b) alter or change a name that has been so assigned, whether initially or from time to time, to the area or road unless the Minister first approves of the alteration or change of that name.

Penalty: \$1 000 and a daily penalty of \$100.

Any proposal for a name change or change to administrative boundaries must conform with Landgate's *Policies and Standards for Geographical Naming in Western Australia*.

Community Consultation

Community consultation is not applicable for this report, however, will be required in the future in the event Council supports the City's role in this matter.

Risk Management Implications

At this stage the City does not have a proposal for consideration which meets the Policy requirements of Landgate.

The key stakeholders, being the Community Groups, will need to establish a position for the proposal which conforms with the requirements of the Policy.

The Community Groups also need to identify a compelling driver for change which Landgate considers to be a compelling driver for change.

Without these minimum requirements being met there is a moderate risk to the City of committing to expenditure for community consultation for a proposal which will not be accepted due to not meeting the minimum requirements of the Policy.

This risk can be mitigated by supporting the Community Groups to develop a proposal which meets the requirements of the Policy.

There is a low reputational risk to Council in not supporting the Community Groups given the past demonstrated community support for the administrative boundary name change for the locality of North Coogee.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 24 November 2022 Expenditure Review Committee.

Implications of Section 3.18(3) Local Government Act 1995

Proposal requirements

Official names of places are intended to be enduring, particularly locality and street names which impact a property address. It takes significant time to progress the change through the many systems of both public and private service providers and poses a significant risk of confusion, particularly to essential services such as Emergency Services and Australia Post.

To progress a proposal for a name change, there must be substantiated evidence of a compelling need for change. This must include evidence of demonstrated, real life examples, not statements of claim.

- Examples of a possible compelling need for change include:
 Evidence of address duplication, leading to confusion.
 Evidence that the address / name causes confusion to essential services, such as Emergency Services and Australia Post.
 Evidence of substantial and compelling historical ties with the proposed name.

Any proposed names must adhere to the Policies and Standards for the Geographical Naming in Western Australia (the policy).

Proceed with formal approval process through Landgate

Peter Birkett
Info - South Beach Community; "Debra Shorter"
Proposal to split and change the name of the locality of North Coogee to Port Coogee and South Beach
Assessment process for name change requests.pdf

Dear Debra & Maja,

As we discussed at our meeting in May, official names of places are intended to be enduring, and this is particularly important for locality names which are an integral component of a property address. Changes to locality names create a higher risk of confusion as the name change inevitably takes significant time to progress through the many different systems used by both public and private service providers. Name changes to both locality names and street names are not taken lightly, and under section 1.1.4 of the *Policies and Standards for Geographical Naming in Western Australia* (Policy) name change proposals must contain substantiated evidence of a compelling need for change.

At our meeting with you and the City of Cockburn (on 31 May 2022) we discussed the process and what is required to support a renaming proposal. I have attached a flowchart to provide further clarity on the process. Landgate also met with the City of Cockburn on 12 September 2022 to discuss Landgate's position and the process.

Landgate's position, in accordance with the Policy, is that there needs to be a compelling need for change demonstrated first and foremost. If a compelling need for change is demonstrated (substantiated with evidence), then the proposed name changes for North Coogee would be assessed as follows:

- The name Port Coogee would be supported.
- The name South Beach (or variations thereof) will not be supported, and an
 alternative compliant name would need to be considered for this area if the
 proposal for a name change was supported. The reasons for this are as follows:
 - direct duplication with the officially named South Beach in Fremantle, and
 - the use of cardinal indicators such as "South" which is not permitted as per Policy section 1.3.4 for new locality names.

If a compelling need for change can be substantiated, North Coogee will need to remain in its entirety until two compliant names can be identified and supported by formal community consultation.

We encourage Local Government to engage with Landgate early in the process so that names and supporting evidence can be assessed and substantiated before proceeding with formal community consultation, which can be an expensive and time-consuming process.

Following our meeting in May, Landgate has reviewed all documents and supporting evidence provided to support the proposal. Landgate's assessment is that the evidence is anecdotal with no specific references to causes of confusion that can be further investigated and validated.

- The examples provided cannot be linked to the name North Coogee as the cause of confusion.
- The evidence provided frequently refers to the physical barrier created by the old power station which dissects the locality. Whilst Landgate understands the impact of a physical barrier, this is not sufficient justification to split and change the name

of a locality. The connection between, and issues with commuting between areas within a locality is not uncommon and are not resolved by a name change.

- Specific details of emergency services confusion (such as dates, times and location) that enable validation with the relevant emergency services provider have not been provided in the documentation. Emergency Services providers have been approached for comment and have advised there has been no dispatch issues for North Coogee. Further to this, we have been advised that using the name South Beach is likely to cause issues regarding emergency service attendance.
- Specific details of examples of mail delivery confusion due to the name North Coogee have not been provided that enable validation with Australia Post. It is essential that if a resident is experiencing mail delivery issues, feedback is provided to Australia Post or the equivalent provider so a root cause can be investigated. Australia Post has been approached and they have advised of no mail delivery issues relating to the locality name.
- Landgate's assessment has found that when an official North Coogee address is used, a reasonable person can locate the property using either phone or vehiclebased navigation and hard-copy maps.

Thank you for providing the documentation for assessment. In consideration of this assessment, Landgate cannot recommend approval as the proposal does not demonstrate a compelling need for change as required by the Policy, nor satisfy naming requirements.

We have attached a process diagram to provide you with clarity on the process for assessing name change proposals.

Should you wish to progress your proposal to the Minister for Lands for consideration, the requirements as shown in the process diagram will need to be met, including the provision of impartial evidence to substantiate a compelling need for change. As the proposal will affect the community adjacent to the existing South Beach, it is likely the Minister would require your submission to include evidence of consultation with this community by the City of Fremantle and a formal decision by the City of Fremantle to support the proposal. This is in addition to City of Cockburn's consultation on the proposal with its own community.

Please note I am currently on leave until 18 October. I can be available to discuss after my return, should you wish to clarify the above.

Regards,

Peter Birkett | Director Data Collaboration Location Services Landgate 1 Midland Square, Midland WA 6056 t +61 (0)8 9273 5932 e peter.birkett@landgate.wa.gov.au w landgate.wa.gov.au

Section 1: General naming policies and standards

Background

For Western Australia, features on the surface of the earth, man-made or built structures and political/administrative boundaries are considered collectively according to their form (feature class), for example. roads, localities, river, desert, forest, lake etc. Within this policy, these are referred to collectively as geographic features.

The *Policies and Standards for Geographical Naming in Western Australia* includes a number of fundamental requirements for the naming of roads, administrative boundaries, cultural and topographical features. They include legislative considerations, external policies and cultural factors to ensure a sound toponymic heritage for future generations of Western Australians.

The benefits of naming

Geographic nomenclature or toponyms are usually the first point of reference used when referring to a spatial location and are a fundamental component of culture. They are indispensable when used as public and personal references for location description and identification for example defence, emergency service responders and postal services, addresses, navigation.

Benefits of recording and preserving geographic names are associated with the past, present and future of a community. They form an integral part of personal identity by defining where people were born, live, have lived and from where their ancestors have come from. Such names are key elements of maps and charts and their practical benefits include the intelligence relating to the location of a place.

Why is there a need for these policies and standards?

In order to comply with relevant legislation and to provide an open and transparent naming process, policies and standards are required. This document has been developed to provide a basis on which the assignment of names to places, features, administrative boundaries and roads can be undertaken. They serve the long-term interests of the community by identifying, protecting and reflecting our culture, heritage and landscape, and apply to all nomenclature within Western Australia.

The benefits of a consistent writing system (or orthography) of geographic naming is important to a wide range of local, national and international communities who engage in:

- communications such as postal and news services
- emergency service response and natural disaster relief
- environmental management
- map and atlas production
- navigation and tourism
- property determinations and cadastre
- road maintenance and development
- statistic and census information
- trade and commerce
- urban and regional planning
- vegetation and mineral mapping.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

How do these policies and standards work?

In Western Australia the practice of officially naming features, localities and roads is covered under Section 26 and 26A of the *Land Administration Act 1997*. The legislation is supported by policies and processes which provide the necessary information for any person or group interested in the naming and the determination of extents for roads, topographical features, points of interest, administrative boundaries and localities.

The use of these standards and policies is mandatory and they have been developed through consultation with local government, government departments, emergency service responders, public service providers and the wider community.

The information in this document has been divided into the following sections

Section 1: General naming policies and standards Section 2: Roads Section 3: Topographic features Section 4: Localities Section 5: Local parks and recreational reserves Section 6: Administrative boundaries Section 7: Appropriate use of Aboriginal and dual naming Section 8: Role of the Minister for Lands, Landgate and the Geographic Names Committee Section 9: A guide to consultation

Section 1 includes general information about the naming processes and details the principles and standards which apply to all naming, renaming or changing the position or boundary of a feature, locality or road. The information in Section 1: General Naming Policies and Standards must be used in combination with the various policies and procedures as outlined in the other sections of this document.

Legislation and standards

Land Administration Act 1997

These policies and standards are provided for under the Land Administration Act 1997, Part 2 – General administration, Division 3 – General; 26. Constitution, etc. of land districts and townsites; 26A Names of roads and areas in new subdivisions.

Land Information Authority Regulations 2007

These policies and standards are also provided for under the Land Information Authority Regulations 2007; 3 – Information prescribed as fundamental land information

Australian/New Zealand Standard AS/NZS 4819:2011 Rural and urban addressing

All Western Australian rural and urban address allocations are recorded by Landgate is in accordance with *AS/NZS 4819:2011*. This Standard was prepared by the Street Address Working Group of the Intergovernmental Committee on Surveying and Mapping (ICSM).

Names covered by other legislation or regulations

The naming of local government authorities and wards - *Local Government Act* 1995. The naming of Electoral Districts - *Electoral Act* 1907.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Requesting and processing submissions

Any person, community group, organisation, government department or local authority can request a new name or an amendment to an existing name or boundary by contacting Geographic Names within Landgate in the first instance.

Consultation with the relevant local authority is required in each case. To expedite the process, such requests should be put to the relevant local authority for their comment and/or endorsement prior to the submission being sent to Landgate for consideration.

Further information on the process of submitting naming requests can be found inAppendix 1A of this section.

Members of the public

Members of the public are welcome to participate in the naming process. They may do so by submitting such proposals to the relevant local government or other government authority responsible for the feature, locality or road they are interested in naming/renaming or adjusting the position/boundaries of.

Further specific details of the naming proposal procedures, and the information that should be provided in such submissions, are outlined in the relevant sections of this document.

Stakeholders

Stakeholders such as emergency service responders and other service providers may request a naming action in three ways:

- propose a name or boundary for a feature, locality or road to the responsible local government or other government authority
- alert the responsible local government or other government authority and Landgate to an issue with an existing name or boundary for a feature, locality or road and request that the matter be investigated
- assist Landgate in providing advice in the determination of whether a naming request conforms to these policies.

Local Governments and other government authorities

Local Government and government departments/authorities responsible for the administering of land within Western Australia are required to make submissions to Landgate for any naming proposals for place names, features, administrative boundaries, localities or roads within their jurisdiction.

Cooperation between agencies

Geographic information and the systems which use such data are ever present and of constant interest to the general public, developers, surveyors, state and commonwealth government agencies, and of particular importance to emergency service responders.

All such agencies and groups are encouraged to collaborate on naming issues when necessary. This is particularly important when naming issues extend across local government boundaries or are of great significance to the wider community.

Minister responsible for the Land Administration Act 1997

The Minister for Lands (the Minister) is responsible for the *Land Administration Act 1997.* Through delegated authority, the Minister enables Landgate to review submissions and identify, capture and maintain new place names, features, administrative boundaries, localities and roads within Western Australia and formally approve these actions on the Minister's behalf.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

The Minister appoints the Geographic Names Committee (GNC) to provide expert advice on submissions considered to be controversial, of state significance or those seeking special consideration due to their non-compliance with the naming policies. Further information on the role of the Minister, Landgate and the GNC can be found in Section 8: Role of the Minister for Lands, Landgate and the Geographic Names Committee.

Western Australian Gazetteer

Landgate is responsible for maintaining the State's Gazetteer and nomenclature database which is known as GEONOMA. This information system contains official, recorded, historical and administrative names and geographical coordinates of places, localities, features, points of interest, public and private roads for all of Western Australia and its territories. Information (attributes) considered to be essential to these names such as the official spelling of the name, feature type, classification, derivation, map number, coordinates and if known, any alternative and historical names is also recorded.

GEONOMA is recognised by the Western Australian government as the primary source of truth and the official register for all approved names for topographic features, administrative boundaries and roads, including their positions and extents. Names added to or amended within GEONOMA are automatically propagated to features in other linked government systems.

Use of official names

Names that have been formally approved by the executive officer, chairman of the GNC or the Minister are deemed to be 'official' or 'approved' names. Such names are recorded within the State Gazetteer as approved and these names must be used for all official maps and spatial data products within Western Australia.

Gazetteer of Australia

The Gazetteer of Australia is a composite database which contains recorded geographical names within Australia. This database is maintained in cooperation with ICSM and the Permanent Committee on Place Names (PCPN). The information within this gazetteer is provided by the jurisdictions. The copyright for the information resides with the relevant state, territory or Australian jurisdiction that remains the official custodians of this information. Further information about the Australian Gazetteer can be obtained from Geoscience Australia

Policies

1.1 Purpose of the geographic naming policies

The following policies must be used in conjunction with the relevant policies outlined in the other relevant sections of this document. They have been established to ensure that no confusion, errors or discrimination may be caused by the naming, renaming or boundary change process.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Page 4

Document Set ID: 11306636 Version: 1, Version Date: 01/12/2022

1.1.1 Retrospective application of policies

These policies are not intended to be applied retrospectively except in those instances where the application of these are considered to be in the public's best interest for the provision of essential and emergency service responders.

They do, however, set new, and reinforce existing, policies and standards for geographic naming in Western Australia. The intent of this document is to ensure that past issues and problems resulting from little or no regulation of the naming process are not repeated.

1.1.2 In the public interest and safety

Any new, or change to existing, names for topographic features, administrative boundaries or roads shall not risk public and operational safety, interfere with emergency service responders, or cause confusion for transport, utility, communication and mail services. Any submissions to change existing names will only be considered when the long-term benefits to the community can be shown to outweigh any private or corporate interests, or short-term effects.

1.1.3 Names on private land

Any topographic feature, locality or administrative boundary within a private property, retirement village, mining town or any other non-public area shall be named in accordance with these policies and standards.

It is recommended that all roads on private land are named in accordance with these policies however those that are used for addressing or accessing services must adhere to these policies for reasons of public safety.

1.1.4 Unnecessary name changes

Any change to an existing approved name is discouraged. As all official names are meant to be enduring, any proposals to change the name of a feature, administrative boundary or road must include evidence of a compelling reason for such a change, for example the proposal is deemed to be in the public interest for safety reasons.

The changing of a name merely to correct or re-establish historical usage shall not be considered in itself a reason to change a name.

Evidence of community consultation and feedback from all relevant agencies and jurisdictions must be included with the submission. All such requests will be required to be presented to Landgate for consideration.

If Landgate determines that the name change is unnecessary or non-essential, yet there is enough community support for the change and it is compliant with the relevant naming policies and standards, it may be approved but it shall incur a service charge.

1.2 Language and spelling

1.2.1 Australian English

Names in Western Australia shall only be adopted in a single language form, although it is acknowledged that other forms may be pre-existing and in use. All new submissions will require a single language form only and shall only be written in standard Australian English^{*}.

A name derived from languages other than Australian English should be written according to the considered opinion of linguistic specialists and be acceptable to the appropriate language communities concerned.

1.2.2 Recognition and use of Aboriginal names

The use of Aboriginal names and words for naming features, administrative boundaries and roads are a way of recognising the different enduring cultural and language groups. Names originating from an Australian Aboriginal language local to the area of the topographical feature, locality or road, must be written in a standard recognised format and their use is subject to agreement from the relevant Aboriginal communities

Named features may remain in their traditional language without translation of the generic descriptor. A descriptive term may be added to indicate the true nature of the feature.

Dual naming

In Western Australia, the use of dual naming is supported as a means of giving concurrent and shared recognition of two cultures. Dual names shall always consist of two distinct name parts; usually one part of Australian English and the other of Aboriginal Australian language origin. Dual names may not be applied to most administrative boundaries, infrastructure or constructed features such as roads, bridges or communication towers. They may be applied to natural topographic features, bounded areas such as state forests, national parks and crown land reserves.

Further information regarding the use of Aboriginal languages and the dual naming policy can be found in Section 7: Appropriate use of Aboriginal and dual naming.

Consultation

Consultation with the relevant Aboriginal communities should be undertaken prior to any public consultation on the proposed name(s). In instances when there is more than one relevant Aboriginal group, consultation with all parties must be undertaken. Further information regarding an Aboriginal consultation process is included in Section 7: Appropriate use of Aboriginal and dual naming.

1.2.3 Pronunciation and use

Names should be easy to pronounce, spell and write. They shall not exceed more than three (3) words including the generic for a topographical feature; three (3) words including the road type for roads; and one (1) word for localities. Names used for roads and localities should be short. All name submissions should include pronunciation.

An exception to this policy is in the use of Aboriginal words. It is accepted that whilst the traditional names may appear to be complex at first, they will over time become familiar and easier to use within the community.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

⁽Australian English is a variety of the English language and was recognised as being different from British English by 1820.)

1.2.4 Spelling of geographic names

Spelling of names should conform to Australian English where possible. When determining the spelling of names, it is recognised that spelling rules that apply to other words in the English language may not apply. Although these standard spellings generally conform to rules of Australian English, they may reflect historical spellings or forms commonly used, or preferred, by the community and may therefore include what appear to be grammatically incorrect, misspelled, improperly combined, or clipped words.

1.2.5 Uniformity of spelling

Names of the same origin applying to various service facilities in a community shall conform in spelling with the official name of the community. Associated features with the same specific shall also agree in form and spelling.

Associated names, such as Balgowlah and Balgowlah Heights, or names deriving from the same source such as McLaren Flat and McLaren Vale, should have the same spelling, rather than for example Girraween and Girrawheen.

1.2.6 Discriminatory, derogatory and inappropriate names

Discriminatory or derogatory names are those perceived, at a given point in time, to be offensive, demeaning, or harmful to the reputation of individuals, or to social, ethnic, religious, or other groups. It is recognised that the perception of discriminatory or derogatory may vary through time and from place to place. In response to requests from the public, and on a case by case basis, Landgate will investigate the appropriate status of any existing names deemed to be discriminatory or derogatory.

All new names submitted for official use shall be recognisable words or acceptable combinations of words which must be euphonious, in good taste and are found in presentday local usage. Exceptions to this occur when a name is shown to be offensive or derogatory to a particular group, gender or religion. In such instances, Landgate will not approve the use of these names for official purposes.

Names that are composed from unnatural or inappropriate combinations of words, including combinations of words of different languages and fusions of forename and surname elements shall not be accepted.

Any request to change a currently used name on the grounds that the name is derogatory or patently offensive shall be forwarded to Landgate in the form of an official application and must include the reasons why the present name should not remain in use.

In considering a change proposal, careful consideration will be given to all relevant factors, including the extent and distribution of usage, historical context, user perceptions and intent, and lexical meanings.

1.2.7 Names in general use

Preference shall be given to the names with extensive usage on official maps, to names in government records and names which have been proven to be of direct historical and/or local significance. Where long-established forms on maps and in records conflict with extensive, preferred local usage, the matter shall be referred to Landgate for resolution.

Names which have geographical significance or are names of early explorers, discoverers, settlers, naturalists, surveyors etc are generally acceptable. They will be deemed appropriate where they are relevant to the history of Western Australia, its discovery by Europeans and the location in which they are to be applied.

The changing of long established place names shall not be accepted. Consideration may be given where it is necessary to avoid ambiguity or duplication.

1.2.8 Alternate or alternative names

An alternate or alternative name is any current or historical name or spelling for a topographic name other than its official name.

The use of such names shall not be allowed for official purposes and will be resolved by establishing one official name as outlined in these policies.

1.2.9 Dissemination of sensitive or secured names

There may be some instances where the details and location of a topographical feature name may need to be held back from appearing in the public domain. In these instances, Landgate will decide if it is in the state's interest to have the details of such names suppressed from public access. Examples of such instances may include the location of Aboriginal heritage sites where there may be state or national security implications or where Landgate has identified other reasons such as public safety concerns.

These names and their locations will still be registered within the State's Gazetteer, but they will be assigned the name type of 'sensitive/secured' name and will only be released to individuals, agencies or groups who make a written formal request to Landgate justifying access to such information.

1.3 Characteristics of geographic names

Geographic names (toponyms) originated in, and continue to be, influenced by spoken language; therefore, consideration must be given to this when adopting them into a written form. Often emphasis is placed on the written forms of names, including matters of spelling, capitalisation, word form, and writing marks, when these may have very little to do with the way names are to be spoken.

1.3.1 Specifics and generics

A geographical name usually includes both a specific (also known as a proper name) and a generic (an entire group or class) element. For example, Cannington (Canning – town), Israelite Bay or Lake Argyle. The generic part tells the kind of place, feature, or area to which the name refers, and the specific part uniquely identifies the particular place, feature, or area.

The specific part may consist of one or more words such as Meharry, 80 Mile and Nallah Nallah. The generic part of the name is usually a single topographic term such as brook, hill, bay, peak, or lake. If a watercourse is smaller than named 'rivers' nearby, the use of another term, such as 'brook', 'creek', or 'stream' would be more appropriate.

The binomial (two-part) form is strong, and in written usage often leads to combining words in the specific part of the name, such as Arnold Park Brook and Cairnhill Park. The names of some features can be long, especially if that specific part is a prepositional phrase: Archipelago of the Recherche, Diamond of the Desert Spring, Champ de Mars and St Alouarn Island Nature Reserve.

Some names have rare generic forms; for example, Shinbone Alley (valley), Imorogu Tabletop (hill), Devils Elbow (place name), and Rundle Patch (reef). New names shall contain the generic term appropriate to the nature of the feature. The generic term shall be recorded in English, or in an Aboriginal language appropriate to the area in which the feature is located.

In English, the generic normally follows the specific. However, 'lake', 'mount', 'cape', and 'point' may either precede or follow. 'Mount' generally precedes a personal name, as in Mount Meharry and Mount Augustus. All generics shall be recorded in full, for example, Mount not MT or Mt and Point not PT or Pt.

Occasionally a name of Aboriginal origin, when fused with the specific, has a generic term that is similar in meaning to the French or English generic of the toponym. Examples are Badjirrajirra Creek, Whingawarrena Hill and Mount Gnurdungning. Whilst names such as these are quite acceptable the use of a generic term with an Aboriginal name is not mandatory.

1.3.2 Names starting with 'The'

A definite article is a part of speech which is used in front of a noun. They are sometimes used in reference to certain types of topographic locations. 'The' is the only definite article used in Australian English. Some examples where one-word names required a capitalised article include, The Arrows, The Causeway, The Deadwater and De Grey.

New road and locality names shall not include the definite article 'The', for example, The Avenue, The Esplanade or The Strand.

The use or retention of the definite article 'The' will only be considered in exceptional circumstances and then only where necessary to give emphasis to a unique or outstanding topographical feature.

1.3.3 Use of prepositions

Prepositions shall not be used when naming topographical features, administrative boundaries or roads. Common prepositions include, 'about', 'above', 'between', 'inside', 'near', 'of', 'onto', etc.

1.3.4 Name extensions, destinations, suffixes or prefixes

The use of name extensions, qualifying terminology, cardinal indicators, prefixes or suffixes (for example, Upper, New, North, South, Park, Grove, Heights, Waters etc.) shall not be permitted for new road and locality names.

Suffixes for roads, localities and topographic feature names shall not be used, for example, Babakin North West Road, Dead Horse Hill West Road, Wyening West Road. The use of directional or other similar devices as suffixes to uniquely define a name can lead to confusion and unnecessary duplication and therefore will not be approved for use.

New destination-to-destination names, for example, Midland-Perth Road, shall not be permitted.

Pre-existing road names that include a hyphen in the official name shall remain and be shown with the hyphen in all usage, for example, Miling-Moora Road.

The use or retention of name extensions, cardinal indicators, prefixes or suffixes will only be considered in exceptional circumstances and then only where necessary to give emphasis to a unique or outstanding topographical feature.

1.3.5 Use of the words 'city', 'town' or 'shire'

The use of the words 'city', 'town' or 'shire' shall not be approved as part of a road, administrative boundary, locality or topographic feature, alone or in combination with other words unless assigned under the *Local Government Act 1995* or the *Land Administration Act 1997*.

1.3.6 Accepted use of capitalisation

Capitalisation is writing a word with its first letter as a capital letter (upper-case) and the remaining letters in lower case. Words considered to be a part of a proper topographic name shall be capitalised, including all the adjectives, common nouns, and the definite article.

Examples include:

Aurillia Creek Racecourse Branch Big Ti Tree Creek De La Poer Range Nature Reserve

Exceptions to the rule of capitalisation include articles and prepositions within multiple word names. When the generic part of a name is purposely omitted, the definite article preceding the specific name shall not be capitalised.

Archipelago of the Recherche King of the West Lake Pass of the Abencerrages

Proper names of topographic entities such as regions, political divisions, populated places, localities, and physical features shall be capitalised in both the singular and plural.

Beaufort Plains (Homestead) Badgingarra Ward, Dandaragan (local government ward boundary) Samson Brook Catchment Area

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

1.3.7 **Possessive apostrophe**

When naming roads, administrative boundaries or topographical features the possessive apostrophe shall not be used. The use of such an apostrophe in the English language denotes ownership, possession, or reflects association or affiliation to something.

In all cases of topographic features, localities and roads which have been named in the past containing an element that has historically been written with a final –'s or –s', the apostrophe is to be removed completely, for example St Georges Terrace, Gentles Corner, Keanes Point.

An apostrophe forming part of a name may be included, for example O'Connor, A'Dale, D'Orlando.

1.3.8 Use of hyphens and the word 'and'

The use of hyphens to connect parts of names shall not be used. However, hyphens used in administrative names, for example, City of Kalgoorlie-Boulder, Shire of Augusta Margaret River, may be used.

In all cases of topographic features and roads which have been named in the past containing an element that has historically been written with a hyphen, the hyphen as part of the name shall be retained, for example, Bee-Eater Creek, Baulu-Wah Community, Minilya-Exmouth Road.

The word 'and' is not to be used

1.3.9 Diacritical marks

Diacritical marks, also known as diacritics, are not used in Australian English names. In the case of names derived from languages other than English, any diacritical marks shall not be carried over to the English form, for example, Géographe Bay becomes Geographe Bay and Cape Péron is Cape Peron.

1.3.10 Punctuation

The following types of punctuation as used in Australian English, shall not be included as part of a geographic name: period (full stop), comma, colon, semi-colon, quotation marks, exclamation mark, question mark, ellipsis, hyphen, dash, apostrophe and parenthesis.

1.3.11 Symbols and logo grams

Symbols or logograms are used in written language to represent an entire word or unit of speech. Examples in English include numerals and symbols such as &, @, o, o, s, m or o # and %.

When naming roads, administrative boundaries or topographical features symbols or logograms shall not be used.

1.3.12 Numbers in names

Numbers or roman numerals included as all or part of a road, administrative boundary or topographical feature name shall be written in full, for example, One Arm Point and not 1 Arm Point, Seventh Avenue and not 7th Avenue or VII Avenue.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

1.4 Commemorative names

In the past, many topographical features and places in Western Australia were often named after living persons, an event or another place. It was common practice to bestow the names of benefactors, members of the Royal Family, international and national figures, crews of vessels, members of expeditions, survey assistants, and family members left at home, many of whom had no connection with the feature that was named after them. This practice is no longer supported.

A commemorative name applied to a locality shall only use the surname of a person posthumously.

A commemorative name applied to a road should use the surname of a person posthumously; although it is preferable that only the surname is used, consideration may be given to using the first name. For example, Alma Road in Donnybrook was approved to commemorate Alma Williams where the surname was deemed non-compliant due to overuse and duplication in the area.

Where the first name is not suitable, consideration may be given to applying both the first name and surname to the road. For example, Barry Marshall Parade was approved to commemorate Barry Marshall where both the first name and surname were deemed non-compliant due to overuse and duplication in the area of similar sounding names.

A commemorative name applied to local parks and recreational reserves may use the first name and surname of a person; although, it is preferred that only the surname is used.

1.4.1 New commemorative naming proposals

Landgate recognises the significance of historic commemorative naming and encourages the continued recognition of outstanding achievements, contributions to the community and significant events.

The following policies shall apply to all commemorative naming proposals:

- all commemorative name proposals shall meet the same criteria required of any other name proposal
- all commemorative naming proposals must include evidence of support by the wider community and reach beyond a single local government, person or special interest group
- a commemorative name shall not be used to commemorate victims of, or mark the location of, accidents or tragedies
- prior or current ownership of land does not confer the right or entitlement to apply a commemorative name
- the use of unofficial commemorative names in publications, or in landscape dedications or markers, is no assurance that they will be adopted into official names records
- a commemorative name shall not be considered for adoption if a well-established and acceptable name already exists for the feature.

1.4.2 Use of personal names

Landgate will not accept a commemorative naming proposal of a person whilst they are still alive for a road or locality.

Requests to approve names that commemorate, or that may be construed to commemorate, living persons will also not be accepted.

The approval of a name to commemorate an individual will only be considered;

- posthumously
- permission of the immediate family must be obtained. Where the person has been deceased for more than 10 years and contact with the immediate family could not be established appropriate consultation must be carried out
- based on a demonstrated record of achievement

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- having had a direct and long-term association with the location and made a significant contribution to the area
- the proposal commemorating an individual with an outstanding national or international reputation has had a direct association with the area in which it is to be located
- such application is in the public interest
- there is evidence of broad community support for the proposal.

The following will not be considered as appropriate grounds for a commemorative naming request:

- current or past ownership of the land is not considered sufficient grounds
- precedence of existing names
- past or ongoing public service within all levels of government
- names will not be supported after a person who has sponsored the development of the area, or was a commercial developer.

Use of nicknames, epithets or informal names

The use of nicknames or other informal names may also be used but only in combination with the surname, for example, Snow Bennett Park. The approval of such names will be at the GNC's discretion as the preference is for only the surname to be used. The use of elongated names such as Harold 'Snow' Bennett Park will not be considered.

Alternate commemorative naming options

If a local government or community group wishes to commemorate a living person, they should consider an alternative option. Section 5: Local parks and recreational reserves, may meet their needs for commemorative naming of living people.

The local government may prefer to commemoratively name buildings and/or other community infrastructure after living people. It is however requested that the normal naming policies and standards should still be applied to avoid duplications and any possible confusion with other such facilities.

1.4.3 Honouring living people by the Minister

In rare circumstances the Minister at his or her discretion may approve a commemorative name of a living person for a road or locality, where they have attained exceptional achievements at state, national or international level, requiring special recognition.

The Minister will not approve a name:

- that could be considered offensive
- exposes the State Government to legal risk or widespread public criticism
- is connected to a religious group, political group or commercial enterprise where they are likely to cause public divisiveness.

1.4.4 Use of initials

The initials of a given name shall not to be used in any instances. For example, a feature named Smith Park is easier to identify than one named J.K. Smith Park as it could be incorrectly referred to as JK Park, K Park, Smith Park by the public.

1.4.5 Titles, honorifics and post nominals

A title is added to the beginning of someone's name to signify respect (such as the honorific of Sir, Madam etc), an official position or a professional or academic qualification.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Some titles are also hereditary. Post nominals are the letters or abbreviations often seen after someone's name signifying that the individual holds a position, office or honour.

When naming a topographic feature, administrative boundary or road after a person who has earned the honour of a title or postnominal, these shall not form part of the official name. For example, the use of Doctor, Professor, or General is not permitted as part of a name. Similarly, military, service and academic post nominals (for example QC, JP, MBE, AC) are not permitted as part of a name either.

When submitting a naming request for a person who has a relevant title, honorific or post nominal, information pertaining to the origin of the name must be submitted with the naming application and contain all relevant references to the titles or honour/s the person may hold.

1.4.6 Use of animal names

The use of animal names shall only be approved in certain circumstances. Animal names and breed names of significance to the area or state will be considered where supported by appropriate evidence.

The use of pet names will not be supported.

1.4.7 Commemorating events

When submitting a request to commemorate an event, at least five years must have elapsed since the event occurred. A commemorative name shall not be used to mark the location of accidents or tragedies.

1.4.8 Use of the word 'Bicentennial'

Requests to use 'Bicentennial' as an official name, or as part of a name, previously required the written approval from the relevant Federal Minister responsible for the *Australian Bicentennial Authority Act 1980 (Commonwealth)*. This responsibility has been removed as a result of the act being repealed by the *Statute Stocktake Bill 1999 (Commonwealth)*, however each application requesting the use of this word will be reviewed on a case by case basis to ensure it is being used decorously and in context.

1.4.9 Use of the word 'Royal'

In the past, the use of 'Royal' was only able to be used as an official name, or as part of a name, if such a proposal had been granted a Royal Charter as permitted by the sovereign on the advice of the Privy Council which advises the head of state (Commonwealth) on state, historic and other matters which fall outside the jurisdictions of Ministerial portfolios.

The administration of the use of the word 'Royal' is now overseen by the Constitutional Settlement Division of the Cabinet Office (UK) and no longer denotes the existence of a Royal Charter.

Examples of its use are Royal Perth Hospital, Royal Geographical Society and the Royal Western Australian Historical Society.

1.4.10 Abbreviations

Abbreviations shall not be accepted for any official topographical features, administrative boundaries, localities or road name nomenclature in Western Australia. The use of Mount and Point in a name shall not be abbreviated to 'Mt' or 'Pt', they are to be used in full.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

The only exception to this policy is in the use of the honorific Saint which is able to be shortened to the internationally recognised abbreviation of 'St'.

For the purpose of consistency, names which begin with Mc, Mac, M' or O' must not have a space included between the Mc, Mac, M' or O' and the rest of the name.

1.4.11 Defence words and acronyms

Commonwealth legislation, *Defence (prohibited words and letters) Regulations 1957*, controls the use of any word, words or groups of letters pertaining to the Naval, Military or Air Forces or a service or body of persons associated with the defence of the Commonwealth.

Any applications seeking the consent to use such words shall be made in writing to the Minister of Defence and must state the grounds upon which the application is being made. The Minister may then either give consent for or refuse the application.

All applications for the use of such a word, words or groups of letters must still be made as a part of a normal naming application to Landgate and they will only be considered if the proposed names meet all the other required naming policies.

Examples of prohibited word/s and letters are (but not limited to):

- Australian Air Force
- Australian Air Force Reserve AAFR
- Australian Army
- Australian Defence Force ADF
- Australian Navy
- Defence Force
- Her Majesty's Australian Ship HMAS
- Royal Australian Air Force RAAF
- Royal Australian Navy RAN.

1.4.12 Protection of the word Anzac

The word Anzac is a proper noun and as such the first letter is upper case and the rest of the word is lower case. ANZAC should be used where the Australian and New Zealand Army Corps as an army formation or battle grouping is being referred to, for example 'the landing of the ANZAC' or 'the ANZAC forces'. Legislation in Australia, New Zealand and the United Kingdom has been enacted to protect the word 'Anzac'.

In Australia, the Protection of Word 'Anzac' Regulations were made in 1921 under the War Precautions Act Repeal Act 1920 to protect the word 'Anzac', and any word which resembles *it, from inappropriate use.*

Under the Regulations no person may use the word 'Anzac', or any word resembling it, in connection with:

'any trade, business, calling or profession or in connexion with any entertainment or any lottery or art union or as the name or part of the name of any private residence, boat, vehicle or charitable or other institution, or any building in connexion therewith.' (Regulation 2 (1))

without the authority of the Federal Minister for Veterans' Affairs.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Uses which are allowed under the regulations

While most uses of the word 'Anzac' require the authority of the Minister for Veterans' Affairs, there are a couple of uses that are excluded from this requirement under the Regulations.

These are:

- the naming of a street, road or park in which, or in the immediate vicinity of which, there
 is situated a public memorial relating to the war which commenced on the fourth day of
 August, 1914, or the war which commenced on the third day of September, 1939;
 (Regulation 3 (2a)); and
- the naming or re-naming of a street, road or park the name of which at the commencement of this regulation contained the word 'Anzac' or any word resembling the word 'Anzac'. (*Regulation 3 (2b)*).

Applications for obtaining consent for the use of the word Anzac where it does not comply with the uses as outlined above will require the Minister for Veterans Affairs' consent. Please contact the relevant Minister for advice where required.

Naming applications for use of the word 'Anzac' in any topographic road, locality or feature, name must be made as a part of the normal process to Landgate. Where the proposed name meets all other naming policies Landgate will provide guidance to the applicant in obtaining prior permission from the Minister for Veterans Affairs.

1.5 Naming places of state significance

The Minister at their discretion may name a place of state significance as identified by the state government.

Where a local government, or member of the public may have identified a place of state significance requiring naming, or a place that is of significance to the state, they should liaise with their local Member of Parliament before requesting Landgate to review the proposed name for suitability.

The Premier and Ministers may also refer to the Minister for Lands a name or place of state significance.

The Minister on behalf of the state government may at their discretion approve the name.

Landgate will record names of state significance that have been identified on behalf of, and endorsed by the state government for future use.

1.6 Government, residential and commercial names and facilities

1.6.1 Nomenclature governed by other statutory authorities

The names of local governments, and other legal entities as created by, or resulting from, legislation by the appropriate government shall be accepted by Landgate.

Such naming should adhere to the spelling and language form of names specifically legislated by commonwealth or state governments. Commonwealth and state government departments and agencies with statutory authority to establish such named features should consult with Landgate when considering names for new municipalities and similar legal land divisions.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Names for facilities established by postal authorities, railway companies, and major public utilities should be in keeping with the Landgate naming policies and standards. Names established for land divisions by federal, provincial, and territorial departments should also comply with Landgate naming policies and standards and shall also be accepted.

Uses which are allowed under the regulations

Where a feature is within an area in the state of Western Australia that falls under the control of the Commonwealth it shall be officially named by Landgate.

Before Landgate assigns a name to a feature under commonwealth control, it shall consult with the relevant commonwealth authority and all relevant naming policies must apply.

Under section 52(ii) of the Australian Constitution the Commonwealth is granted exclusive power over places it controls, for example airports, post offices and defence establishments. Although the Commonwealth has control, it does not have the legislative power to assign or alter official names.

1.6.2 Naming of government facilities

Some names are governed by other agencies, authorities or commonwealth, state, territory or local governments. It is expected that the required naming policies will be applied to avoid unnecessary duplications and any possible confusion.

Landgate is to be notified of such naming actions so that the information is included in the State's Gazetteer and made available for use by the community, essential and emergency service responders.

1.6.3 Naming buildings, infrastructure and facilities

The naming of buildings, infrastructure and facilities of significance to the community provides an opportunity to honour individuals and groups who deserve recognition in a visible and enduring way. They also present an opportunity to emphasise important landmarks, topographical features or historical events and should not be given lightly.

It is important that any new name for a building, infrastructure or facility does not conflict with existing names.

Suitable names for such features should be assessed against the following criteria:

- whether the name has geographical, historical, cultural or local significance
- if a living person is nominated, they must have contributed time, money or services to the community that were not part of their work, for at least 10 years
- named after people who have been recognised in their field of expertise at a state, national or higher level, for at least 10 years
- names shall not include persons who have been convicted of criminal offences
- family names that have already been used are not to be considered even though it refers to a different family. Consideration may be given to using the person's full name for example Joe Smith Library
- buildings, infrastructure and facilities named after a person may include an appended functional title where this would serve to clarify the location of the building or assist in identification.

Corporate names should be avoided for permanent recognition.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

1.6.4 Business and commercial names

Approval shall not be given to the naming of roads, administrative boundaries or topographic features after commercial businesses, trade names and not-for-profit organisations. This policy is to ensure that no commercial advantage or disadvantage arises from such naming proposals.

Exceptions allowed due to historical context

Exceptions may apply where the business or organisation has had a proven historic association with the area in which the proposal is located. This association with the area must be proven to have existed over a substantial period of time and is held in strong regard by the community. In such instances, all applications must outline the reasons for proposing the name and provide evidence of the business or organisation's association with the area.

The formal approval of such names will be at the GNC's discretion.

1.6.5 Use of 'Limited' or 'Proprietary' in a name

The use of the words 'Limited' or 'Proprietary', or their abbreviations, either in combination with other words or alone shall not be permitted.

1.6.6 Estate, promotional, neighbourhood and regional names

Estate, subdivisional or promotional (vanity) names of a subdivision or development used for the marketing of real estate shall not be accepted as a substitute for an official locality name. Such names undermine the correct use of property street addressing and create potential for confusion to emergency service responders and future residents. They shall not have any official recognition within Western Australia.

Such names shall only be used by developers in marketing documents in the early stages of a development and must be used in conjunction with the official locality name. They cannot be used without the official locality name being used (for example, Ranford Estate, Canning Vale or Brighton Estate, Butler) when advertising houses or land for sale and in general correspondence.

When such names are selected for use, they should conform to general naming policies and standards, such as avoiding duplication and only using a locality name as an estate name when the estate is actually situated within the locality of that name.

Landgate is to be informed of all such names so that they can be recorded for information purposes to assist with emergency service response coordination.

The names of existing infrastructure such as shopping precincts, schools and other facilities shall not be considered as suitable names for a locality unless they conform to the general naming policies and standards.

1.7 Name assignment, duplication and extents

1.7.1 Names associated to a place

Names submitted for features and administrative boundaries should be relevant to the local area. Infrastructure features should where possible use the name of the locality it is situated within. If a historic 'theme' is chosen for road names, that theme must relate to the area in which the roads are to be located.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

When a feature, administrative boundary or road is of greater than local significance, the name should be relevant to the wider community.

Examples of where a feature, administrative boundary or road is considered to be of greater than local significance include:

- it is located in two or more local government areas
- it is located in a significant tourist precinct
- it is proposed to be created as part of a state or federal government project
- it is a major waterway
- it is a major undersea or shoreline feature
- it has major cultural, natural or recreational landscape features
- it is linked to a significant Aboriginal feature, story or landscape.

1.7.2 Ensuring names are not duplicated

Names proposed for unnamed topographic features and administrative boundaries shall not be duplicated. Duplicated names are considered to be two or more names which are within the same locality, within close proximity and those which are identical or have similar spelling or pronunciation. Duplicated names may lead to confusion for the public and to emergency service responders.

Where established names are duplicated or are similar in sound or spelling (homonymous), and are likely to cause confusion, consultation with the relevant government agency, local government and, if required, the wider community shall be undertaken to achieve a differentiation between them.

Consideration of proposed duplicated names

This policy does not preclude the use of duplicated names with a different generic and when Landgate is satisfied that the duplication will not cause confusion. Such features shall be situated within reasonable proximity to the associated source, for example Beedelup Falls is situated on Beedelup Brook within Beedelup National Park.

Close proximity to existing names

Close proximity for duplication is considered to be the following:

- metropolitan and urban area, within 10km (a metropolitan area which consists of a city and its surrounding localities, for example regional urban areas such as the Cities of Albany, Bunbury, Busselton, Greater Geraldton and Kalgoorlie-Boulder. For the purpose of this policy the Perth metropolitan area extends (and includes) north from the City of Wanneroo, east to the City of Swan, City of Kalamunda, Shire of Mundaring, City of Armadale and south to the City of Mandurah.
- rural or remote area within 50km (a rural or remote area is an area located outside of cities and major towns).

Topographical feature names near state boundaries

If a topographical feature is situated near a state boundary, care must be taken to avoid duplication with names used in the other states or territories according to the distances prescribed above.

Locality names are to be unique within Australia. When considering assignment of locality names, applicants should refer to Section 4: Localities.

Locality names

There shall be no duplication of locality names within the state or nationally. Duplicated names are considered to be any existing locality or administrative boundary name which is spelt exactly or is considered to have a similar spelling or pronunciation.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

1.7.3 Assigning extents to a feature, administrative boundary or road

When a proposal to name a feature, administrative boundary or road is being considered, the application must include maps or diagrams clearly defining the area and/or extent to which the name will apply.

At a minimum, a proposal for a feature (excluding a waterway) must include the centroid coordinates, an administrative boundary must include the full polygon extent and its relationship to the exiting cadastre and a road or waterway must include the full start and end points of its linear extent, for example the name of a road should apply from one end of the road to the other - to the points where the road finishes or intersects with other roads and the names of waterways should apply from the beginning of the watercourse to its confluence with another waterway or body.

1.7.4 Features which cross state and territory borders

In accordance with national naming policies, the name for any feature that crosses a state/territory boundary must be the same on both sides of that boundary. The selection of a name for such a feature shall be by agreement between Landgate and the Northern Territory and/or South Australian governments.

The primary responsibility for obtaining consensus should rest with the authority in the state or territory in which the feature was first named or that which has the largest extent within its boundaries.

1.7.5 **Coastal and maritime features**

Coastal waters and high water features

The naming of features which are exposed at low tide, those permanently above sea level (high water features) and seabed features which are situated within Western Australia's coastal waters, is the responsibility of the relevant statutory authority or agency.

In general terms, Landgate has the jurisdiction to name features in all areas which are three nautical miles seaward off the coast.

Undersea features and maritime names

When assigning or altering the name of an undersea or prominent coastal feature, Landgate shall consult with the Australian Hydrographic Service (AHS) which is responsible for the management of undersea features and maritime names.

The AHS's responsibilities encompass all aspects of researching, processing and management of:

- · undersea feature names external to the coastal waters of Australia
- the limits and names of oceans and seas adjacent
- names of maritime and navigational features, and coastal, hydrographic and oceanographic features not managed by commonwealth and state place names bodies.

The AHS maintains the Maritime Gazetteer of Australia which comprises of names shown on Australian nautical paper charts. This gazetteer can be accessed at http://www.hydro.gov.au/.

Limits of oceans and seas

The AHS has the responsibility for maintaining and administering the limits of oceans and seas adjacent to Australia, the external territories and the Australian Antarctic Territory.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

The limits are published in the International Hydrographic Organization (IHO) publication S-23 'Limits of Oceans and Seas'. S-23 is used as a technical reference document and has been determined solely for hydrographic purposes and is not to be interpreted as having any legal or political associations.

Source: Limits of Oceans and Seas fact sheet – Australian Hydrographic Service

1.8 Community consultation and lodging objections

1.8.1 Consulting with the community

Any proposal requesting the renaming of an approved name or any new naming proposal considered to be of significance to the immediate or extended community must include evidence of consultation with the community. Local governments must ensure that the level and form of consultation undertaken reflects the significance of the naming proposal.

This policy does not apply to the naming of new roads within subdivisions where there are currently no residents, businesses or ratepayers who will be directly affected. With the use of Aboriginal names, Section 7: Appropriate use of Aboriginal and dual naming applies.

The immediate community is defined as including residents, ratepayers and businesses within the immediate area who are directly affected by the submission.

The extended community includes residents, ratepayers and businesses surrounding the area directly affected by the proposal, any visitor groups to the area, and government or non-government organisations with an interest in the area.

Where there is a risk to public safety, Landgate may endorse naming proposals in the absence of community support if it is deemed that the proposal will reduce the risk to safety. Formal approval of the Minister will then be sought.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

This further information regarding community consultation requirements and procedures can be found within Section 9: A Guide to Consultation.

1.8.2 Lodging and considering objections

An objection is a way for members of the community to inform the proposer of a naming application that one or more person disagrees with a naming or renaming proposal.

Lodging objections

Any person or organisation may lodge objections to a naming, renaming or boundary change proposal during the public consultation period administered by the relevant local government. Objections must be lodged directly with the local government within the allocated time for feedback.

Considering objections

Any objections received during the public consultation period must be given consideration by the local government. All objections must be included in an assessment report, stating the objection and indicating relevance to the guidelines and council's consideration/response to said objection. Consideration need only be given to those objections that relate to concerns of non-conformance to the naming. Further information to assist with public consultation and administering objections is available in Section 9: A Guide to Consultation.

1.9 Referenced documents

The following are referred to within this document:

- AS 1742.6-2004 Manual of uniform traffic control devices Tourist and service signs
- AS/NZS 4819:2011 Rural and urban addressing

1.10 Definitions, terminology and acronyms – Sections 1-9

AAD	Australian Antarctic Division.
Abbreviation	A shortened form of a word or phrase. Usually consists of a letter or group of letters taken from the word or phrase. For example, the
	word abbreviation can itself be represented by abbr., abbrv. or abbrev.
Access point	The position along the road where the public may access an address site.
Acronym	A word formed from the initial letters or groups of letters of words in
Kerenym	a set phrase or series of words, as ANZAC for the Australian and New Zealand Army Corps.
Address site	A site for which an address is being assigned.
AHS	Australian Hydrographic Service.
Alternative name	A name that is an alternative to another name for the same feature.
ANPS	Australian National Placenames Survey.
Apostrophe	' is used as a substitute for a missing letter or letters in a word
	(cannot = can't), to show the possessive case (Jane's room) and in the plural of letters, some numbers and abbreviations.
Approval	A written report enabling the adoption of road, administrative
	boundary or feature names on behalf of the Minister for Lands via delegated authority.
ASEPSW	Asia South East, Pacific South West Division, one of 23
	linguistic/geographical divisions within UNGEGN.
Binomial	Consisting of or relating to two names or terms.
CNGA	Committee for Geographical Names in Australasia.
Colon	: is used to direct attention to matter (such as a list, an explanation,
	a quotation, or amplification) that follows.
Comma	, is used to indicate the separation of elements within the
	grammatical structure of a sentence.
Dash	 is used to indicate a break in the thought or structure of a sentence.
Definite Article	'The' is the only definite article used in English. It is used to restrict the meaning of a noun to make it refer to something that is known by both the speaker or writer and the listener or reader:
Dual name	A name that consists of two names that must be used together, usually one Aboriginal and one European.
Endonym	Name of a geographical feature in an official or well-established language occurring in that area where the feature is located.
Established Name	A geographic name that has appeared consistently in written usage
Lotabiloned Name	and (or) has been expressed consistently in verbal usage, and that
	is supported by historical and (or) current written materials and (or)
	in folklore.
Euphonious	An agreeableness in sounds, pleasant to the ear, harmonious.
Exonym	Name used in a specific language for a geographical feature situated
	outside the area where that language is spoken, and differing in its
	form from the name used in an official or well- established language
	of that area where the geographical feature is located.
Formed	In relation to a road, means that it is physically constructed or
	prepared for passage by vehicles or pedestrians.
Gazetteer	A geographical dictionary or directory which contains important
	reference information about geographical features, localities and
	roads. Can contain information such as the location of places,
	dimensions of physical features, origins and derivations.
GBRMPA	Great Barrier Reef Marine Park Authority.
Generic	Relating to or descriptive of an entire group or class, general.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Geographic	Something of or relating to geography; concerning the topography of a specific region.
Geographic Feature	Natural or man-made feature on the earth. There are two types; natural geographic features and man-made geographic features.
Geographic Name	A name applied to a geographic feature; is the proper name,
•	specific term, or expression by which a particular geographic entity
	is, or was, known; any relatively permanent part of the natural or
	manmade landscape or seascape that has a recognisable identity
	within a particular cultural context; may refer to any place, feature,
	or area on the Earth's surface, or to a related group of similar places,
	features, or areas.
GEONOMA	A technical database maintained by Landgate which contains the
	official Western Australian gazetteer and other pertinent
GNC	geographical names information. Geographic Names Committee
Guideline(s)	Information provided to assist in understanding a principle, policy, or
Culdeline(3)	procedure.
Historical Name	A geographic name given and used during the early history of a
	place or feature; the name may be either obsolete or in current use.
Historic	= 100 years
Homonymous	Having the same or corresponding sound or name.
Honorific	A title, phrase or grammatical form conveying respect.
Hyphen	- is used between parts of a word. It can be used to split a word by
10014	syllables to fit on a line of text.
ICSM LGA	Intergovernmental Committee on Surveying and Mapping.
LGA Local Government	Local government authority. The third tier of government administered by states and territories.
Local Government	They may be referred to as shires, towns or cities.
Local Usage	A geographic name commonly and currently used for an entity,
	whether in verbal and (or) written form, by persons having frequent
	enough contact with the entity to use the name on a frequent basis.
Locality	A geographical area defining a neighbourhood or community of
	interest. Localities are usually rural in character though the name is
	interchangeable with suburb which is used to describe more urban
	areas.
Logogram	Is a conventional abbreviated symbol for a frequently recurring word
MRWA	or phrase, for example &, @, \$ or © . Main Roads Western Australia
Official Name	A geographic name, and its written form and application, approved
	or recognized as official by the Geographic Names Committee for
	use throughout Western Australia. An official name is established
	either by policy or decision of the secretariat and/or the Geographic
	Names Committee.
Orthography	Specifies or defines the set of symbols (script) used in a language,
	and the rules about how to write these symbols. It generally refers
	to spelling but this is considered only part of orthography, with other
	elements including hyphenation, capitalization, word breaks,
Parenthesis	emphasis, and punctuation.
Falentilesis	() is used to amplify or explain a word, phrase, or sentence inserted in a passage.
PCPN	Permanent Committee on Place Names
Period or Full Stop	, is used to mark the end of a sentence.
Placename	Same as geographic name.
Policy	A statement of regulation(s) relating to particular toponymic
-	circumstances; used to guide and determine present and future
	decisions.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Posthumous Preposition	Published or awarded after a person's death. Usually indicates the temporal, spatial or logical relationship of its
reposition	object to the rest of the sentence as in the following examples; the book is on the table; the book is beneath the table. The most common prepositions are 'about' 'above' 'across' 'after' 'against'
	'along' 'among' 'around' 'at' 'before' 'behind' 'below' 'beneath' 'beside' 'between' 'beyond' 'but' 'by' 'despite' 'down' 'during' 'except' 'for' 'from' 'in' 'inside' 'into' 'like' 'near' 'of' 'off' 'on' 'onto' 'out' 'outside'
	'over' 'past' 'since' 'through' 'throughout' 'till' 'to' 'toward' 'under'
Drinsinis	'underneath' 'until' 'up' 'upon' 'with' 'within' and 'without'.
Principle	An accepted or professed rule of action or conduct that applies to all toponymic conditions that fall under its scope; used to guide and determine present and future decisions.
Procedure(s)	A set of instructions outlining steps to accomplish a particular goal, such as submitting name proposals to the Geographic Names
	Committee; an act or a manner of proceeding in any action or process; conduct.
Quotation Marks	' ' are used chiefly to indicate the beginning and the end of a
	quotation in which the exact phraseology of another person, or of a text, is directly cited.
Reserve Register	A register of road name prefixes reserved by a local government for
	its specific future use. They are recorded within the State's
Road	Gazetteer with the feature class of RVRD. For the purpose of this document, roads are all open ways for the
litoud	passage of vehicles and people and they may or may not be formed
	or constructed. They also include private roads that are open to
	public use and the delivery of services.
SCAR	Scientific Committee on Antarctic Research.
SCUFN	Sub-Committee on Undersea Feature Names.
Secretariat	An office (team) responsible for the administrative affairs of a
Semicolon	legislative body, committee or organisation.
	; is used to connect independent clauses indicating a closer relationship between the clauses than a period, or full stop, does.
Sequential Shall	In a logical order, not necessarily uniformly. Indicates that a statement is mandatory.
Should	Indicates a recommendation which may indicate a highly desirable outcome that is not mandatory only because of exceptional cases.
Specific	Explicitly set forth, definite.
State Road	A road managed by Main Roads Western Australia.
Suburb	A geographical area defining a neighbourhood or community of interest. A suburb is urban in character though the name is interchangeable with Locality which is usually used to describe a
Symbol	rural area. Is a character mark, for example ☺, 髦,ඤ or #.
Topographic	A detailed, precise description of a place or region; a graphic
ropographic	representation of the surface features of a place or region on a map, indicating their relative positions and elevations.
Topography	The science or practice of describing a particular place, city, town,
	tract of land; the accurate and detailed delineation and description of any earth feature or cultural place.
Toponomy	The scientific study of place names (toponyms), their origins, meanings, use and typology.
Unnamed Feature	A geographic entity that is not known to have had a verbal or written name.
Unofficial Name	A geographic name not formally recognised as official.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Variant Name	A name or spelling, once or currently used to refer to a particular			
	geographic entity, other than the official name.			
Verbal Name	A name used by people when referring to a place, feature, or area			
	in their own language as commonly spoken every day.			
Written Name	A geographic name in handwritten or printed form; for example,			
	handwritten letters, diaries, and logs or names printed in			
	newspapers or on maps or recorded in official, digital records.			

1.11 Updating these policies and procedures

With constant improvements and changes in the spatial information sector, it may be necessary to occasionally update these policies to ensure up-to-date standards are reflected.

Minor Policy updates should be endorsed by the GNC. Major Policy updates shall be endorsed by the GNC and approved by the Minister.

The current Policy will be published on the Landgate webpage.

Version	Date	Section	Amendment
Draft	01/09/2015	Whole Document	
Draft	20/10/2015	Whole Document	Editing
Update 0.1	14/6/2017	Foreword, Sections 1, 2 & 5	Updates to Policy endorsed by GNC; Reserve Name Register Commemorative Naming State Significant Names Naming of Parks and Reserves (minor edit)
Update 0.1	26/06/2017	Whole Document	Minor edits, updated to comply with Landgate Style Guide
Update 0.2	5/03/2020	Sections 1.4 & 2.3 Whole Document	Updates to Policy endorsed by GNC Editing to Australian/New Zealand Standard title
Update 0.3	11/11/2020	Forward, Section 7 and 9	Removed Forward Section 7 – Removed and replaced with Aboriginal and Dual Naming Policy Section 9 – Removed Consulting with Aboriginal Groups Appendix 3A – Missions – text updated Appendix 7B – removed reference to Section 9

1.11.1 Update register

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Section 2: Roads

Introduction

For the purposes of these policies, a road is considered to be any public or private landbased thoroughfare or course navigable by vehicle or foot that can be used for assigning addresses or allowing access between points or to a feature. Examples of roads include alleyways, roads, streets, highways, fire tracks, bike paths and walking tracks.

Using this section of the policy

Within Western Australia road naming is standardised to facilitate the application of correct address information and to ensure that a consistent approach is undertaken to benefit emergency service responders, transport and service delivery. If established policies for road naming were not applied, the provisions of emergency service responders, utilities and postal deliveries would be compromised.

In Western Australia the following shall be applied:

- all roads shall be named, including private roads which are open to public access or for the delivery of services. This includes but is not limited to:
 - major state roads, highways, motorways and freeways
 - roads within complexes such as universities, hospitals and retirement villages
 - roads within conservation reserves, state forests, water reserves and any other government administered land
 - pedestrian-only roads such as paths, trails, malls or steps
- all road naming proposals shall be submitted to Landgate for approval.

Any proposal to name, rename or extend a road shall clearly indicate the full extent of the road to which the name will apply. The extent of a road is considered to be its start and end points. This includes bends, divided carriageway sections and curves which are included between these two points.

A road name shall not be applied in a way that is ambiguous or could cause confusion for road users. The road name should be applied to a single, unobscured and unobstructed roadway that leads from point A to point B, in a clear and logical manner.

Roads are not suitable for dual naming and approval will not be given to such proposals.

Who can officially name roads?

Under the provisions in the *Land Administration Act 1997*, the Minister for Lands (the Minister) has the authority for officially naming and unnaming roads in Western Australia. Through delegated authority, Landgate acts on the Minister's behalf to undertake the administrative responsibilities, including the development of policies and procedures, required for the formal approval of road names.

Which roads can be named?

All roads, whether they are public or private, shall be named and formally approved by Landgate.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Therefore, any land course navigable by vehicle or foot and of interest to local governments, public groups, emergency service response and public service providers must be officially named according to the policies and procedures outlined in this document.

Note: driveways that give access to five or fewer address sites do not need to be named if the properties are adequately addressed on the main road that provides access. Driveways on private land or common property should not be named, unless it can be shown there is a risk to public safety or the name is causing confusion in the delivery of goods and services.

Public roads

A public road is any road that is opened, dedicated or declared to be a public road, whether under the Land Administration Act 1977, Part 2 – General administration, Division 3 - General or any other Act.

As a prerequisite to lodgement, all survey documents creating, extending or showing abuttals to roads must show the correct approved road names. If no approved name exists, the new road names must be formally approved by Landgate before the survey can be lodged. To help expedite this process, the developer or their agent should be prompt in lodging a concept plan and a proposal for road names with the relevant local government. Local governments shall then propose the names to Landgate for approval.

Private roads and rights-of-way

A private road is any road that is not a public road which is open to public access or for use by other services. Private roads and rights-of-way must be clearly identified and uniquely named to facilitate the application of standardised addressing to all land parcels in Western Australia.

The delivery of emergency and other services to residents and businesses are often impeded when private road names are not officially recorded. To minimise confusion, standardise address allocations and support emergency service responders, all road naming policies and addressing standards must be applied.

Private roads include but are not limited to:

- some roads or driveways to battle-axe blocks
- roads indicated on community subdivision plans
- roads in various cluster developments
- roads on private property, for example, roads in caravan parks
- other forms of 'rights of way'.

Naming a road on private land does not mean that Landgate, the secretariat, the GNC or the Minister is accepting responsibility for that road other than of ensuring its name meets the required naming policies for Western Australia.

Reserved road names

Local governments may no longer request that eligible road names be reserved for future use within their boundaries. Prior existing reserved road names will automatically lapse five years from original approval, with the Reserve Register to contain no local government requested names from 1 January 2022.

Local governments are encouraged to maintain their own reserve register, using the Landgate on-line form to check for suitability.

Road naming policies

Local governments and other authorities are to ensure that all naming submissions conform to the policies outlined in Section 1, as well as all the policies outlined in this Section.

2.1 Australian/New Zealand Standard AS/NZS 4819:2011 Rural and urban addressing

Except where provisions are already made in these policies, the naming of any road must conform to the provisions of <u>AS/NZS 4819:2011 Rural and urban addressing</u>. The Standard outlines how to derive datum points and how address numbers are assigned.

2.1.1 Road extents

Any proposal to name or rename a road needs to clearly indicate the extent to which the name will apply. The extent of a road is considered to be its start and end points, and the course (including bends, divided carriageway sections and curves) of the road between these two points.

Contiguous navigable roads

A named road shall include only one navigable section. If a road design has become obstructed, due to construction of other roads or features, and is separated to become two unconnected navigable sections of road then these road extents must be assigned separate unique road names. This is particularly important when emergency service responders cannot navigate the entire course of the road from one end to the other.

Common separations may include unbridged streams, pedestrian segments, railings etc.

The above does not apply when the separate sections are either of the following:

- two sides of the same road separated by a median strip; or
- part of a classified highway that is split by a section that is assigned a local name where it passes through a town or city.

2.1.2 Laneways and short roads

The increase in urban density in new developments and urban redevelopment has resulted in many narrow short lanes and rights-of-way requiring names. Laneways shall be named if a name is required for addressing purposes or has been created as a public road by survey.

The naming of such roads is supported with a preference for use of the road type LANE and short names consisting of no more than six letters. The leg of a battle-axe lot shall not be considered a laneway.

Roads which are regarded as short, for example a small cul-de-sac or private road with five or less address sites, that are not proposed to be lengthened or will not have additional address sites needed in the future, may not need a separate name. Any address numbers required may be assigned on to the road on which it connects.

2.1.3 Naming malls and pedestrian access ways

Malls and pedestrian access ways shall be named according to the current road naming policies and standards. The names shall be recorded as private road names and may be used for the allocation of street addresses if required.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

If a mall or public access way is created as an official reserve and a name is required for the actual reserved area, then the name shall be recorded separately as a road name and as a topographic feature name (reserve).

2.2 Components of a road name

All road name submissions must conform to the policies as outlined in Section 1.

2.2.1 Name element requirements

Every road name should consist of a single name element followed by a road type, for example Smith Road, Jones Street etc. not Black Swan Drive, John Smith Avenue.

A single length of road shall have only one name.

Road names without a type shall not be used, for example Broadway, Causeway, The Avenue, The Boulevard, The Esplanade, The Mews, The Strand etc.

2.2.2 Road types

All road names shall include a road type.

The road type must be selected from the list as shown in Australian/New Zealand Standards AS/NZS 4819:2011 Rural and urban addressing – Appendix A, Road Types – Australia. A copy of this road types list has been provided in this document in Appendix 2A: Road types suitable for use in Australia.

The road type shall be chosen to convey the function and characteristics of the road as described in the 'description' field of the road type list. Road types may be chosen with the final configuration in mind, for example a road that is first constructed as a cul-de-sac may be given an open-ended street type if it can be confirmed that the road structure will be modified and eventually become a through road.

Road types shall not be used to distinguish different roads of the same or similar sounding names, for example Reed Street, Reed Crescent and Reed Way. Such roads shall be considered as duplicates and are not acceptable.

This also applies to similar sounding names such as Read Street, Rede Crescent and Reid Way.

Other road types suitable for use in Western Australia

In addition to the road types listed in Appendix 2A, there are exceptions where the use of an alternate road prefix or suffix may be requested.

The word 'Jalan' is used as a prefix on roads situated on the Cocos (Keeling) Islands and Christmas Island. The word 'Jalan' is a Malay word for road or street, for example, Jalan Guru and Jalan Perak.

Aboriginal words used to describe paths or tracks may also be used. For example, the word 'Banan' is used exclusively within the Kimberley area as a road type, for example Berewereng Banan and Templetonia Banan.

2.2.3 Unacceptable names

The official naming parameters as detailed in Section 1: Policies and Standards must be applied for all road naming submissions.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

As outlined in Section 1: Policy 3.1, names starting with 'the definite article 'THE' shall not be approved for use as a road name, for example The Boardwalk, The Esplanade, The Strand are no longer acceptable road names.

The use of road types as part of a road name shall not be used for example Swan View Road, Southern Crest Road, Beachview Drive, Lakeview Avenue, View Street or Boulevard Way.

As outlined in Section 1: Policy 1.3.4, the use of prefixes and suffixes is not supported. The only exception that may be considered by Landgate is when the name is derived from a local feature of historical significance such as 'Lake Clifton Drive' or 'Mount Meharry Way'.

Destination-to-destination names, for example Harvey-Quindanning Road, are not acceptable, see Section 1: Policy 1.3.4. Where previous naming actions have allowed the use of a hyphen as part of the name, there shall be no space between the names and the hyphen, for example Quairading-York Road is acceptable, Quairading – York Road is not.

The use of numerals in a road name may cause confusion between the name of the road and an address number. Therefore it is not acceptable for a road name to include numbers/numerics, either in full alphabetised or numeric format for example neither Eight, Eighth, 8 or 8th, see Section 1: Policy 1.3.12

2.3 Name duplication

All road name submissions must conform to all the mandatory policies outlined in Section 1: Policy 1.6.

2.3.1 Existing duplicated or similar sounding names

Road names submitted for approval shall not be, regardless of road type:

- homonymous, for example similar in spelling to an existing road name
- similar in sound to an existing road name
- in the same locality as an existing road name
- · in an adjoining locality
- in the same Australia Post postcode delivery area
- less than 10km from the existing duplication in the metropolitan area
- · less than 50km from an existing duplication in rural areas.

These exclusions shall also apply to similar sounding or written names, and to those within similar sounding localities even if they are more than 10km away, for example Forrestfield / Forrestdale, Woodbridge / Woodridge, Fremantle / East Fremantle etc.

Road name duplication should be avoided in adjoining local governments.

2.4 Naming amendments

Road names are intended to be enduring. The renaming of any road is discouraged unless there are good reasons for a change of name.

Reasons that may be considered in support of a name change are:

- · redesign of a road layout
- changed traffic flow
- mail delivery problems
- the misspelling of a name in the original application
- name duplication issues
- property street addressing issues.

Renaming shall be necessary when a road is made into a cul-de-sac, resulting in two or more separated sections of road. Such separations can cause difficulties for emergency service responders and the delivery of other services to the area. The renaming of a portion of separated road may also be used to solve address numbering problems.

Where a change to the name of a road is proposed, the new name selected shall conform to all the necessary naming policies and standards.

For regional roads the change of name must have broad community support, and for local roads, there must be majority support from the affected land owners and residents.

The requirements of emergency service responders for clear, unambiguous road naming shall also be a consideration.

Proposals normally require the support of local government, but the Minister is the final authority in all such matters.

Submissions for road name changes deemed to be non-essential or unnecessary shall incur a service charge.

2.5 Naming roundabouts and rotaries

Roundabouts and rotaries are circular intersections in which traffic travels clockwise around a central island. They are constructed to control traffic, to minimise delay by being able to accommodate large volumes of traffic movements, and to provide adequate sight distances. The primary difference between the two is that rotaries have a significantly larger diameter than roundabouts.

All entrances and exits to roundabouts and rotaries must be clearly named and labelled with adequate signage.

2.5.1 Roundabouts

Roundabouts are circular intersections with specific design and traffic control features. These features include yield control of all entering traffic, channelised approaches, and geometric curvature and features to induce desirable vehicle speeds. They may also include more extensive pedestrian and bicycle features.

Roundabouts shall not have names or address ranges.

2.5.2 Rotaries

Rotaries are characterised by a large diameter (a minimum of 40m). Unlike most roundabouts, lane changes may be required within a rotary for some movements.

Rotaries may be named however all such naming requests shall adhere to the following:

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- the naming of state road rotaries shall be undertaken through consultation with MRWA
- local government is to be consulted for the naming of rotaries which are under their control
- rotary names shall be unique and not duplicated anywhere within Western Australia
- rotary names should be short and preferably of local Aboriginal origin
- rotary names shall not be named the same as any of their intersecting roads.

Rotaries shall not have address ranges.

2.6 State roads

Main Roads Western Australia (MRWA) is responsible for the management of all freeways, highways and main roads in Western Australia, which are collectively referred to as state roads. Management includes all ramps and rotaries associated with state roads. A list of state roads is available on the MRWA website (<u>www.mainroads.wa.gov.au</u>).

The naming of major state roads shall conform to these naming policies and standards and shall be referred to the Minister for approval. The process for the selection of names shall include consultation with relevant state and local government agencies and should include consultation with the wider community.

The Minister for Transport has determined that, for all new major roads funded by the state government, MRWA shall consult with government before any action is initiated to identify a suitable name. Advice will then be provided on whether the government is to choose a name, or if MRWA should undertake community consultation or some other action to identify a suitable name or shortlist of names, for consideration by government. MRWA must advise Landgate of the government's chosen or endorsed name.

The official naming parameters as detailed in Section 1: Policies and Standards must be applied for all such naming actions.

2.7 Government managed land

All roads administered by other government agencies and authorities other than local governments, must adhere to all of the relevant Landgate naming policies.

Commonwealth, state, territory or local government authorities or agencies responsible for the management of roads or tracks on land administered by them, shall liaise with Landgate to develop practices and processes for their naming.

Because of the varied nature of roads that fall under the jurisdiction of different state government departments and authorities, Landgate prefers to establish individual naming policies and practices for each department or authority as required.

If a unique set of naming policies and practices has not been established for a relevant government department or authority, then the general Landgate policies shall apply.

2.8 Private, residential and commercial developments

The intention of this subsection is to outline the process for naming or renaming roads created as part of a private, residential or commercial subdivision.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

It should be noted that whilst the selection of new road names within new subdivisions is usually the developer/landowner's role, endorsement from the relevant local government(s) is necessary prior to any submissions being made to Landgate.

The developer and the local government(s) should work collaboratively to develop compliant road names for the subdivision.

2.8.1 Roads on private property

Private roads include (but are not limited to) any formed roads and tracks within a commercial logging site, caravan park, retirement village or closed-gate community. If the intention is for these private roads to be used for property street addressing, way finding purposes or for general public access, they must be named in accordance to these policies.

All private roads should be named and submitted for approval, especially if the road gives access to one or more properties that cannot be assigned an alternative unambiguous urban or rural address.

The irregular and ungoverned naming of roads within complexes can lead to confusion and interruption to the efficient delivery of emergency and other essential services. The official approval of road names within such complexes ensures that the details are accessible to the wider community and are included on the majority of relevant organisational and public mapping products.

2.8.2 Compliance

All roads within private, residential or commercial subdivision must be named in accordance with Section 1: General policies and standards.

When plans of subdivision are lodged for registration with Landgate, an audit of the road names will be undertaken. If it can be shown that the road names on a lodged plan have not been officially approved, this will result in delays affecting the approval of lodged surveys and consequently the issuing of certificates of title.

Owners of private land and complexes should liaise with the relevant local government when developing roads on the site. Owners must ensure that road names conform to the Policies and Standards for Geographical naming in Western Australia.

2.9 Tourist drives / routes

To assist the promotion of Western Australia's diverse range of landscapes, scenery and other 'special places' to overseas and eastern states visitors, state tourist and local scenic drives may be determined and named.

2.9.1 State tourist drives

A state tourist drive shall be a quality route which is considered to be of state-wide significance. It should portray and link some of the state's unique natural features or exceptional scenic areas. It must provide a meaningful route for tourists to experience something 'special' and enhance a visitor's tour of the state.

It shall be a requirement that the standard of routes recognised as state tourist drives be kept at a high level. If this criterion is not adhered to, then the value of such routes will be undermined and the value of such an initiative will be diminished.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

A route simply linking features such as national parks, state forests, lookouts or other built or natural features is not sufficient to justify a designation as a state tourist drive. They can be used to enhance such a route, but cannot be the sole purpose for it. Similarly, a route that links together a township's normal features and facilities would also not constitute justification for a state Tourist Drive.

2.9.2 Local scenic drives

If a route which does not meet the assessment criteria for a state tourist drive has been recognised as having a reasonable tourism value, then it may be recognised as a local scenic drive.

If the route does not have any tourism merit and may have a negative or misleading impact on tourists and visitors to an area, then no approval for such a route shall be given.

2.9.3 General assessment criteria

Tourism value shall be assessed by the following:

- the tourist drive/route must have significant tourism interest and shall offer an array of significant scenic or natural features which should be of greater interest than the general topography or sights as seen on a regular through route
- the theme and name of the route must reflect its unique characteristics and not conflict with its natural or physical surroundings or any other official feature, road or route within the state or nationally
- routes with generic names like 'Marine Tourist Drive', 'Heritage Tourist Drive' or 'Wildflower Tourist Drive' shall not be approved as they are not unique to a specific location within the state
- the tourist drive/route should not rely on attractions which are strictly seasonal or are not a permanent feature of the route, such as wildflowers
- the proposed tourist drive/route shall be endorsed by the relevant local government(s), local Visitor Centre(s), WA Tourism Commission and a majority of the local community and businesses
- be as safe as possible for motorists who may be unfamiliar with the local area
- only include sealed maintained roads and avoid any hazardous alignments or grades, or single lane roads which may not be suitable for the volume of tourist traffic that may be attracted to the route
- not follow main arterial roads such as major local government roads and national or state highways except where necessary for short distances (no more than 5kms) to maintain the continuity of the tourist drive/route
- not be located in built up areas or town centres
- avoid intersections or sections of road which may at times be relatively congested with heavy haulage or other non-tourist traffic
- be capable of leading motorists back to the main through route from which they deviated with adequate signage to assist them with continuing their journey.

Tourist information on the general area, including brochures, maps and guides should be made available from tourist centres and other outlets along the route. The route will also need to be marked on maps in roadside information bays wherever they exist.

2.9.4 Submission process to recognise tourist route

Applications for a route to be recognised as a state tourist drive shall be submitted to Landgate.

The application must:

- be supported with a formal resolution from the relevant local government(s)
- indicate that the proposed route is supported by the WA Tourism Commission, Regional Travel Association, local visitor centre, as well as the local community and businesses
- identify the jurisdiction(s) responsible for the erection and ongoing maintenance of direction and other related signs along the route, including the cost of removing the signs if the route fails to meet the criteria for a state tourist drive at some point in the future
- · clearly describe the route on a large scale map
- · describe the unique natural features or scenic attributes which exist along the route;
- list all significant natural and built attractions along the route with a brief description of each
- include a one or two word name for the route which will be suffixed with the words 'Tourist Drive'
- include a description of how the state tourist drive will be promoted and what marketing collateral will be produced.

2.9.5 Review of current state tourist drives and routes

State tourist drives/routes will be subject to review on a regular basis to ensure that the quality of the route has not diminished or been compromised over time. If a state tourist drive/route loses that special quality it had when first assessed and recognised then the route shall be deleted.

2.9.6 Identification of state scenic drives, tourist drives and routes

Local government is responsible for the establishment and maintenance of such drives and routes including the cost of road signage and its maintenance. The signage of state tourist drives is governed by Australian Standard AS1742. Part 6: Manual of uniform traffic control devices – Tourist and service signs.

Local governments will be required to obtain approval from Main Roads WA (MRWA) for the erection of any route signs which occur on highways and roads under its control.

Supplementary or any other associated Tourist Attraction and Tourist Service signs will be subject to the established approval and funding guidelines available from MRWA and respective local governments.

Road name submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government for their endorsement and submission to Landgate.

General information on the process for submitting naming applications is shown at Appendix 1A.

In addition, each road name proposal shall include the following information:

- the reason for the proposal or name change
- origin of each road name and its source
- a location by local government, locality and estate name if known
- identification on a map clearly indicating extent and precise start and end points
- photographs or sketches

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- any other supporting information such as historic articles, reference materials, publications etc
- where applicable, evidence of landowner, family or community support
- if the name is Aboriginal in origin, evidence of support from relevant Aboriginal Community
- if the application is for a renaming, evidence of consultation from the affected residents and property owners is required.

Please refer to Landgate's <u>help guide</u> on Landgate's website for assistance specific to road naming submissions.

Incomplete applications will not be progressed until all the necessary information has been provided.

Section 3: Topographic features

Introduction

For the purposes of these policies, a topographic feature is considered to be a unique geographical place or attribute on the surface of the earth that is easily distinguished within the landscape. Examples include a mountain, watercourse, bay, valley etc.

Using this section of the policy

The naming of topographical features provides instantly recognisable labels to identify geographic entities. As with all naming processes, the duplication of names within an area often causes confusion and misunderstandings even though such duplications have been common within a local government area, the state or nationally in the past.

For Western Australia, features on the surface of the earth are considered collectively according to their form (feature class), for example river, desert, forest, lake etc. These are referred to as geographic or topographic features. The term topographic features for the purposes of this policy will refer to natural features only. The use of the term geographic features will refer to all natural, political and cultural entities.

This section outlines how features can be named, renamed or have their boundaries and spatial reference points determined or realigned.

Who can officially name topographic features?

As per the provisions in the *Land Administration Act 1997*, the Minister for Lands (the Minister) has the authority for officially naming and un-naming all topographic features in Western Australia. Through delegated authority, Landgate acts on the Minister's behalf to undertake the administrative responsibilities, including the development of policies and procedures, required for the formal approval of topographic feature names.

Which features can be named?

All topographic features may be named and formally approved by Landgate. Therefore, any land feature of interest to local governments, public groups, emergency service responders and public service providers should be officially named according to the policies and procedures outlined in this document.

Topographic feature naming policies

Local governments and other authorities are to ensure that all naming submissions conform to the policies outlined in Section 1: General Policies and standards, as well as all the procedures outlined in this section.

3.1 Components of a topographic feature name

All topographic feature name submissions must conform to the policies as outlined in Section 1: General policies and standards.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

3.1.1 Name element requirements

A topographic feature name shall usually consist of a single name element (specific) followed by a feature class (generic), for example Nangetty Hills and not Hills Nangetty. However for topographic features, some may include the feature class (generic) before or after the name, for example lake, mount, cape and point. Each of these may either precede or follow the name. Further information regarding their appropriate use can be found in Section 1: Policy 1.3.1 of the Policies and Standards for Geographical Naming in Western Australia

In instances where the name is of Aboriginal origin, the use of a generic term with an Aboriginal name is not mandatory. Further information regarding the appropriate use of Aboriginal names and terms can be found in Section 7: Appropriate use of Aboriginal names and dual naming.

3.1.2 Feature classes (generics)

All topographic names shall include as part of that name a feature class or generic.

The feature class must be selected from the official list of feature classes used within Western Australia as shown in this document as Appendix 3A: Topographic feature classes suitable for use in Western Australia. The correct use of feature classes alleviates any possible confusion as to which feature the name is being applied to.

Exceptions to this only occur with the use of Aboriginal names or words which already include details of the feature class within the name.

3.1.3 Unacceptable names

The official naming parameters as detailed in Section 1: General policies and standards must be applied for all topographic feature naming submissions.

The use of road types as part of a feature name shall not be used, for example Street Brook or Road Hill.

The use of cardinal indicators and suffixes/prefixes which are not topographic feature specific (Mount, Lake, etc.) are not supported. Where possible unique names should be applied and the use of these terms may only be considered by Landgate when the name is derived from a historical reference indicating that the name in this form has been in use for some extended period of time.

The use of numbers in a topographic feature name may only be used as words (eight, eighth) or as numbers, such as 8 (for example 8th, 3rd, 2nd are not allowed), and only if the proposed name is derived from a historical reference indicating that the name in this form has been in use for some extended period of time. In all other cases it is not acceptable for a topographic feature name to include numbers/numerics, either in full alphabetised or numeric format, for example Section 1: Policy 1.3.12

3.1.4 Recommended sources for new or changes to names

The following sources are recommended when seeking a new topographic feature name or amending an existing one:

- names from Aboriginal languages formerly identified with the general area
- descriptive names appropriate to the features
- names of pioneers who were relevant to the area

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- · names of persons who died during war service
- names associated with historical events connected with the area.

Proposed names with significance to specific groups only (this excludes Aboriginal names) or names with no relevance to a particular area are not acceptable for approval.

3.2 Name duplication

Names proposed for unnamed topographic features shall not be duplicated. Duplicated names are considered to be two or more names which are identical or have similar spelling or pronunciation.

There shall be no topographic feature name duplication within a local government. All topographic feature name submissions must conform to all of the mandatory policies outlined in Section 1: Policy 1.6.

3.2.1 Existing duplicated or similar sounding names

Where established names are duplicated or are similar in sound or spelling (homonymous), and are likely to cause confusion, consultation with the relevant local government and community shall be undertaken to achieve a differentiation between them.

This policy does not preclude the use of duplicated names with a different generic and when Landgate is satisfied that the duplication will not cause confusion. Such features shall be situated within reasonable proximity to the associated source, for example Beedelup Falls is situated on Beedelup Brook within Beedelup National Park.

3.3 Assigning named extents

All topographic feature naming submissions must clearly define the area or extent to which the name shall apply. Any decisions on a naming submission shall specify the limits of the feature to which the name officially applies.

Point features

Point topographic features are those which are too small to represent as lines or polygons on maps and may include pools, peaks, etc. and are associated with a single location in space.

Coordinates for the feature must be included within a naming submission.

Linear features

Linear topographic features are those features which have length and are able to be represented as a line, but do not have an area. Therefore these are represented by a line or set of lines (a string) on a map. They include such feature classes as watercourses, ridges, breakaways, etc.

Coordinates for the start, mid and end point of the feature to be named must be provided. Full extents clearly indicating the start and finish points of the linear feature must be included within a naming submission. The midpoint may not be strictly the mathematical midpoint, but a representative point of the feature near its middle.

Coordinates for linear features should use a high level of precision, commensurate with features' small width, not great length, to ensure that the coordinate locations are centred on, not merely near, the feature.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Area features

Area features are defined as a topographic feature which may be represented by a defined area on a map. They include such feature classes as bays, lakes, mountain ranges etc.

Area features are most commonly captured as 'polygons' as this is the most common way of describing topographical features. Coordinates for the midpoint of the area (polygon) and a set of coordinates for its boundary must be included within a naming submission.

3.4 Naming amendments

Official topographic feature names are expected to be enduring. Landgate discourages any changes to official names without good reason, however each such proposal will be considered on an individual basis, and the merits of each case will be carefully evaluated.

Reasons that may be considered in support of a name change are:

- · changes made to bring official usage into agreement with well-established local usage
- proposals to eliminate naming issues such as derogatory names, duplication or those previously approved on the basis of incorrect information
- proposals previously made at the request of persons or organisations (public or private) for commemorative or other reasons important to the proposer.

Where a change to the name of a topographic feature is proposed, the new name selected shall conform to all the necessary naming policies and standards.

The requirements of emergency service responders for clear, unambiguous topographic feature naming shall also be a consideration.

Proposals normally require the support of local government, but the Minister is the final authority in all such matters.

Submissions for topographic feature name changes deemed to be non-essential or unnecessary shall incur a service charge.

3.5 Topographical feature names crossing or near state boundaries

If a topographic feature is situated near a state boundary, care must be taken to avoid duplication with names used in the other states or territories.

If a topographical feature crosses a state or territory border, the process for the selection of a suitable name shall include consultation with relevant state and applicable local government agencies and may require consultation with the wider community.

3.6 Government managed land

All topographic features situated on land administered by other government agencies and authorities other than local governments, must be named in accordance with the relevant Landgate naming policies.

Commonwealth, state, territory or local government authorities or agencies responsible for the management of land administered by them, shall liaise with Landgate to develop practices and processes for the naming of topographical features within these areas.

Because of the varied nature of topographic features that fall under the jurisdiction of different state government departments and authorities, Landgate prefers to establish individual naming policies and practices for each department or authority as required.

If a unique set of naming policies and practices has not been established for a relevant government department or authority, then the general Landgate policies shall apply.

3.7 Private, residential and commercial developments

The intention of this subsection is to outline the process for naming or renaming topographic features situated within a private, residential or commercial subdivision.

All topographic features situated within private, residential or commercial development areas must be named in accordance with the relevant Landgate naming policies.

The land owner/developer and the local government(s) should work collaboratively to develop compliant names for the topographic features within these areas.

3.7.1 Features on private property

All topographic features which are located on private property but accessed by the local or wider community, or are visited/used for recreational activities, should be submitted for approval.

The irregular and ungoverned naming of topographic features can lead to confusion and interruption to the efficient delivery of emergency service responders. The official approval of such topographic feature names ensures that the details are accessible to the wider community and are included on the majority of relevant organisational and public mapping products.

3.7.2 Compliance

All topographic features within private, residential or commercial subdivision must be named in accordance with Section 1: General policies and standards.

3.8 Topographic features of greater than local significance

A topographic feature is considered to be of greater than local significance when it is:

- located in two or more local government areas
- located in a significant tourist precinct
- proposed to be created as part of a state or federal government project
- a major waterway
- a major undersea or shoreline feature
- a major cultural, natural or recreational landscape feature
- linked to a significant Aboriginal feature, story or landscape.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Name submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government for their endorsement and submission to Landgate.

General information on the process for submitting naming applications is shown at Appendix 1A.

In addition, each topographic feature name proposal shall include the following information:

- The location of the topographic feature including coordinates latitude and longitude, decimal degrees or Map Grid of Australia (MGA) coordinates
- The 1:250 000 and 1:50 000 mapsheet names and numbers the feature(s) are situated on
- Evidence that there is no existing Aboriginal name for the feature
- If the name is Aboriginal in origin, evidence of support from relevant Aboriginal Community
- Submission of the completed worksheet which is located in this document as Appendix 3B to clearly indicate which policies in Sections 1 and 3 the proposal conforms to
- Supporting information as to why Landgate should consider naming or changing the topographic feature name(s) (if relevant, why the current name is considered to be less appropriate than the new proposed name)
- The proposed name(s), the origin/source/historical context, and any supporting evidence that may be appropriate such as maps, photographs, references or sketches
- A current map or plan correctly marked with clearly defined topographic feature extents and name(s)
- Where applicable, evidence of landowner, family or community support
- If the application is for a renaming, evidence of consultation from the immediate and/or wider community is required.

Landgate has provided a checklist at Appendix 3B to assist with submission of topographic feature naming requests. Incomplete applications will not be progressed until all the necessary information has been provided.

Section 4: Localities

Introduction

For the purposes of these policies, a locality is a uniquely and clearly defined administrative geographical area which may also be commonly referred to as a 'suburb' in an urban area. Every locality has officially approved boundaries and are a mandatory component of an address.

Estate names, neighbourhood names, generalised place names will not be considered as official locality names. These names will not be formally approved and have not been allocated officially defined boundaries. Such names are used for marketing purposes and to distinguish smaller areas within an official locality for this purpose only. For this reason, such names cannot be used for addressing purposes.

Using this section of the policy

The naming of localities enables the delivery of essential and emergency service responders to all addressable land parcels within Western Australia. As with all naming processes, the duplication of names within the state (or nationally) often causes confusion and misunderstandings. Therefore, the names and future boundaries of new localities within Western Australia will follow these policies to ensure their uniqueness and their historical link to the state.

This section outlines how localities can be named, renamed or have their boundaries determined or realigned.

Who can officially name localities?

As per the provisions in the *Land Administration Act 1997*, the Minister for Lands (the Minister) has the authority for officially naming and un-naming all locality and other administrative boundaries in Western Australia. Through delegated authority, Landgate acts on the Minister's behalf to undertake the administrative responsibilities, including the development of policies and procedures, required for the formal approval of locality names and boundaries.

Locality naming policies

Local governments and other authorities are to ensure that all naming submissions conform to the policies outlined in Section 1: General policies and standards, as well as all the procedures outlined in this section.

Selection of a locality name must take into consideration the impact the name will have on the wider community. The selection shall recognise that locality names may bear specific provenance to the history, geography or junction of another state or territory. Investigation into this level of association must be included as part of any assessment in determining the assignment of a new locality name.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

4.1 Components of a locality name

All locality name submissions must conform to the policies as outlined in Section 1.

4.1.1 Name element requirements

A locality name shall consist of a single name element (specific) and shall not include a second word to form a double-barrelled name.

4.1.2 Unacceptable names

The official naming parameters as detailed in Section 1: General policies and standards must be applied for all locality naming submissions.

There shall be only one official name for a locality; dual or alternative names shall not be assigned.

The use of road types as part of a locality name shall not be used, for example Glendalough Street.

No locality name shall be preceded or followed by a feature class (generic) or a cardinal indicator. The use of such is not considered an appropriate means to create a unique name. For example, East Bullsbrook, Wanneroo Brook, Mount Northam and Swan Valley North are not acceptable. Further information regarding their appropriate use can be found in Section 1: Policy 1.3.1.

The use of numerals in a locality name may cause confusion between the name of the locality and an address number. Therefore it is not acceptable for a locality name to include numbers/numerics, either in full alphabetised or numeric format, for example neither Eight, Eighth, 8 or 8th, see Section 1: Policy 1.3.12

Locality names which are not directly related to the area in which they are to be located will not be accepted.

4.1.3 Recommended sources for new or changes to names

Locality names are expected to be enduring and changes to names will only occur if there is a proven risk to life if the current name is retained.

The following sources are recommended when seeking a new locality name:

- names from Aboriginal languages formerly identified with the general area
- descriptive names appropriate to the features
- names of pioneers who were relevant to the area
- · names of persons who died during war service
- · names associated with historical events connected with the area
- flora or fauna native to the area.

Proposed names with significance to specific groups only (this excludes Aboriginal names) or names with no relevance to a particular area are not acceptable for approval.

Locality naming proposals will not succeed if:

the proposal seeks to adopt a developer's estate/promotional name coined to endorse a development

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- the proposal seeks to adopt the names used for existing infrastructure, for example schools, shopping precincts, hospitals etc
- the proposed name has no relationship to the area or is a made up name
- the proposed name is duplicated or similar in spelling or sound to an existing locality name within Australia
- petitions presented in support only represent one point-of-view
- the proposal is not supported by local government
- no broad-based community survey has been undertaken
- · the proposal does not have strong local community support
- the proposal is to rename all or part of a locality after urban development occurs.

Use of Aboriginal names

In instances where the name is of Aboriginal origin, all submission must conform to the information regarding the appropriate use of names and terms which can be found in Section 7: Use of Aboriginal names and dual naming.

Any locality name derived from an Aboriginal source must be local to the area and shall be endorsed by the recognised local community. Evidence of this endorsement must be included with the naming proposal.

4.1.4 Boundary delineation

The submission for the creation of new or modification of existing locality boundaries shall only be reviewed if the following has been taken into consideration:

- all boundaries shall be clearly defined, contiguous and must not overlap another locality boundary
- boundaries shall align with road centrelines (major highways, divided carriageways and railways), cadastral information or obvious topographical features such as rivers, shorelines, creeks
- locality boundaries for corner blocks shall be the same as those for neighbouring properties accessed from the same road
- if a property is situated on a corner and the block is subdivided with one or more of the new properties accessed from a road generally defined as being addressed to a different locality, the locality boundary shall be changed to incorporate the new subdivided properties
- if a natural feature such as a waterway is to be used as the boundary for a locality, the boundary should be applied to the centreline of such a feature
- a locality shall not be defined as an island within another locality. For instance, all localities should have boundaries that run alongside two or more other localities or one other locality and a state or sea boundary
- a locality boundary should not separate any areas which are considered to be of community interest
- boundaries shall not bisect single lots or land parcels. Exceptions that may be considered by Landgate for endorsement may include large areas such as forest, lakes or national parks.

4.2 Name duplication

Names proposed for new localities shall not be duplicated or sound similar to names used within the state or nationally.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

For example Girraween (NT), Girraween (NSW), Girraween (Qld) or Girrawheen (WA) or Mount Alford (Qld) and Mount Alfred (Vic). Duplicated names are considered to be any existing locality or administrative boundary name which is spelt exactly the same or is considered to have a similar spelling or pronunciation.

There is a national requirement that consultation with all other states and territories mustbe undertaken for all locality name proposals to ensure that the proposed name is not recorded on any reserved names list for future use within those jurisdictions. Landgate will provide assistance with such consultation on request from the local government proposing the name.

All locality name submissions must conform to all of the mandatory policies outlined in Section 1: Policy 1.6.

4.2.1 Existing duplicated or similar sounding names

Whilst these policies are not expected to enact changes to precedents where established locality names are duplicated or are similar in sound or spelling (homonymous), if such names are found to have caused, or are likely to cause a risk to life and confusion in the delivery of essential services, consultation with the relevant local government and the affected community should be undertaken to have a unique and compliant name approved.

If no agreement can be met between the relevant local government and the community in the application of a new unique locality name for an area, and the Minister agrees such a change is in the community's best interests, a formal name change may still be endorsed by the Minister.

4.3 Assigning named extents

All locality naming submissions must clearly define the area to which the name shall apply. Any decisions on a naming submission shall specify the limits of the area to which the name officially applies.

4.3.1 Locality sizes

A locality will be defined for the purposes of assisting delivery of emergency service responders or postal services. Therefore, a locality cannot be so small that it makes it difficult to distinguish from the surrounding area nor can it be so large that it confuses members of the public about where the boundaries are situated. All submissions must be able to demonstrate that proposed boundaries for a locality will make sense to local residents and businesses as well as visitors.

The requirements as to the size and number of available lots required for urban and rural localities are:

- localities within metropolitan and urban areas shall be a minimum size of 100ha, with the minimum number of lots to be 1000. The maximum size shall be 10,000ha. The ideal size for an urban locality is approximately 500ha
- localities with rural areas shall have a minimum size of 1000ha and have no maximum size. The ideal size for a rural locality is approximately 2500ha.

4.4 Naming and boundary amendments

The official locality names are expected to be enduring. Landgate discourages any changes to official names without good reason, however each such proposal will be considered on an individual basis and the merits of each case will be carefully evaluated.

4.4.1 Proposed boundary amendments

The need to amend a locality boundary will arise when there is an impediment to the efficient delivery of services to an area, the inability to assign a correct street address, further land development or as a result of the construction of a new major road.

The implementation of such changes will occur if a significant benefit to the community is identified. This includes:

- the amendment supports the requirements of the WA Police, emergency service responders and Australia Post
- the amendment alleviates difficulties by the community in gaining access to and from the area
- the benefits of the proposal to the community as a whole
- the size of the area and the proposed boundaries
- the amendment facilitates correct street addressing requirements as included in Australian/New Zealand Standard AS/NZS 4819:2011.

Submissions seeking changes for reasons of perceived status or financial benefit shall not be supported.

4.5 Locality names crossing local government and state boundaries

Where a locality boundary extends across two or more local government boundaries, the boundaries of the locality shall be reviewed with the intention of aligning them with the local government area.

A locality boundary shall not extend beyond the Western Australian state border.

4.6 Assignment of postcodes

Australia Post is responsible for the allocation of four digit numeric postcodes. These codes are allocated to geographic areas to facilitate the efficient processing and delivery of mail.

The decision to assign a new postcode or an existing postcode to a locality is based on operational efficiency. Issues that underpin this decision include the configuration of the Australia Post network, transportation connections and delivery arrangements.

Landgate shall consider Australia Post requirements when reviewing all locality boundary proposals.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

4.7 Government managed land

All localities situated on land administered by other government agencies and authorities other than local governments, shall be named in accordance with the relevant Landgate naming policies.

Commonwealth, state, territory or local government authorities or agencies which are responsible for the management of land administered by them, shall liaise with Landgate to develop practices and processes for the naming of localities within these areas.

4.8 Private, residential and commercial developments

The intention of this subsection is to outline the acceptable use of official locality names in which private, residential or commercial subdivisions may exist.

Estate, commercial, subdivisional or promotional (vanity) names of a subdivision or development used for the marketing of real estate shall not be accepted as a substitute for an official locality name. Such names undermine the correct use of property street addressing and create potential for confusion to emergency service responders and future residents. They shall not have any official recognition within Western Australia.

Such names shall only be used by developers in marketing documents in the early stages of a development and must be used in conjunction with the official locality name. They cannot be used without the official locality name being used (for example, Ranford Estate, Canning Vale or Brighton Estate, Butler) when advertising houses or land for sale and in general correspondence.

When such names are used, they should conform to general naming policies and standards, such as avoiding duplication and only using a locality name as an estate name when the estate is actually situated within the locality of that name.

Landgate should be informed of all such names so that they can be recorded for information purposes to assist with emergency service response coordination.

The names of existing infrastructure such as shopping precincts, schools and other facilities shall not be considered as suitable names for a locality unless they conform to the general naming policies and standards.

4.8.1 Compliance

The irregular and ungoverned naming of private, residential or commercial development areas within a locality can lead to confusion and interruption to the efficient delivery of essential and emergency service responders. Therefore, developers of such areas are encouraged to select such names in accordance with Section 1: General policies and standards.

4.9 Review of localities

Boundaries of localities in areas that are subject to urban development and residential infill shall be reviewed regularly and amended where appropriate.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Such revisions will determine whether the boundaries continue to adequately define the existing situation of the area. If major developments create a unique area and are readily distinguishable from the surrounding landscape, or a major road infrastructure creates a division, then the creation of a new locality may be deemed necessary by Landgate.

Name and extent submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government for their endorsement and submission to Landgate.

General information on the process for submitting naming applications is shown at Appendix 1A.

In addition, each locality name proposal shall include the following information:

- the location of the locality feature including coordinates latitude and longitude, decimal degrees or Map Grid of Australia (MGA) coordinates for the centroid of the locality polygon
- the 1:250 000 and 1:50 000 mapsheet names and numbers the locality is situated on
- if the name is Aboriginal in origin, evidence of support from relevant Aboriginal community
- submission of the completed worksheet which is located at in this document as Appendix 4A to clearly indicate which policies in Sections 1 and 4 the proposal conforms to
- supporting information as to why Landgate should consider naming or amending the locality name or boundary (if relevant, why the current name and/or boundary is considered to be less appropriate than the new proposed name and boundary)
- the proposed name(s), the origin/source/historical context, and any supporting evidence that may be appropriate such as maps, photographs, references or sketches
- a current map or plan correctly marked with clearly defined locality boundary extents and name(s)
- where applicable, evidence of landowner, family or community support
- if the application is for a renaming, evidence of consultation from the wider community is required.

Landgate has provided a checklist at Appendix 4A to assist with submission of locality naming requests. Incomplete applications will not be progressed until all the necessary information has been provided.

Section 5: Local parks and recreational reserves

Introduction

For the purposes of these policies, a local park and recreational reserve is a uniquely and clearly defined administrative geographical extent. It may be freehold or crown land parcels which have been established for public purpose, such as recreational use and/or for the protection of local habitat areas. They may include public gardens, infrastructure such as shelters, ablutions, playground equipment, barbeques or other features such as ponds, lakes, bushland and walking trails.

Using this section of the policy

The naming of local parks and recreational reserves provides instantly recognisable labels to identify these geographic entities. As with all naming processes, the duplication of names within an area often causes confusion and misunderstandings even though such duplications have been common within a local government area, the state or nationally in the past.

This section outlines how local parks and recreational reserves can be named, renamed or have their boundaries and spatial reference points determined or realigned.

Who can officially name local parks and recreational reserves?

As per the provisions in the *Land Administration Act 1997*, the Minister for Lands (the Minister) has the authority for officially naming and un-naming all local parks and recreational reserves in Western Australia. Through delegated authority, Landgate acts on the Minister's behalf to undertake the administrative responsibilities, including the development of policies and procedures, required for the formal approval of local parks and recreational reserve names.

Which local parks and recreational reserves can be named?

All local parks and recreational reserves should be named and formally approved by Landgate. It is in the public interest and important for the ease of identification and dispatch of emergency service responds that local parks and recreational reserves are officially named in accordance to the policies and procedures outlined in this document.

Local parks and recreational reserve naming policies

Local governments and other authorities are to ensure that all naming submissions conform to the policies outlined in Section 1: General policy and standards, as well as all the procedures outlined in this section.

Selection of a local park or recreational reserve name must take into consideration the impact the name will have on the wider community.

5.1 Components of a local park or recreational reserve name

All local park and recreational reserve naming submissions must conform to the policies as outlined in Section 1.

5.1.1 Name element requirements

A local park or recreational reserve name should consist of a single name element (specific) followed by a feature class (generic), for example Queenscliff Park and not Park Queenscliff. Further information regarding their appropriate use can be found in Section 1: Policy 1.3.1.

In instances where the name is of Aboriginal origin, the use of a generic term with an Aboriginal name is not mandatory. Further information regarding the appropriate use of Aboriginal names and terms can be found in Section 7: Appropriate use of Aboriginal names and dual naming.

5.1.2 Acceptable feature classes (generics)

All local park or recreational reserve names shall include as part of that name a feature class (or generic).

It is preferred that all local park or recreational reserves use the feature class PARK as part of the name.

The word RESERVE should only be used as part of a name if the whole of the area to be named is an official reserve as created under the *Land Administration Act 1997* and has been allocated an official reserve number. The name is to be applied to the whole extent of the reserve. It will not be applied to disconnected parcels of land; however the same name may be applied to multiple adjoining reserves.

5.1.3 Unacceptable names

The official naming parameters as detailed in Section 1: Policies and standards must be applied for all local park or recreational reserve naming submissions.

The use of road types as part of a local park or recreational reserve name shall not be used, for example Smith Street Park.

The use of cardinal indicators and suffixes/prefixes which are not locality specific (Mount, Lake, etc) are not supported. For example, Mount Lawley Park will only be accepted if it is to be applied to a large recreational area within the locality of Mount Lawley. Where possible the names of the adjoining roads should be applied.

The use of a unique name may only be considered by Landgate when the name is derived from a historical reference indicating that the name has been in use in the same area for some extended period of time.

The use of numbers in a topographic feature name may only be used as words (eight, eighth) or as numbers, such as 8 (for example 8th, 3^{rd,} 2nd are not allowed), and only if the proposed name is derived from a historical reference indicating that the name in this form has been in use for some extended period of time. In all other cases it is not acceptable for a park or reserve name to include numbers/numerics, either in full alphabetised or numeric format, for example Section 1: Policy 1.3.12

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

5.1.4 Recommended sources for new names

It is expected that all new local parks or recreational reserves will be named after an adjoining road name.

If, due to duplication, an alternate name is required the following are considered suitable sources for such submissions:

- names from Aboriginal languages formerly identified with the general area
- · names of pioneers who were relevant to the area
- names of persons who died during war service
- names associated with historical events connected with the immediate area.

Proposed names with significance to specific groups only (this excludes Aboriginal names) or names with no relevance to a particular area are not acceptable for approval.

Local park or recreational reserve naming or renaming proposals will not be approved if:

- the proposal seeks to adopt a developer's estate/promotional name coined to endorse a development
- the proposal seeks to adopt the names used for existing infrastructure, for example schools, shopping precincts, hospitals etc
- the proposed name has no relationship to the area or is a made-up name
- petitions presented in support only represent one point-of-view
- the proposal is not supported by local government
- no broad-based community survey has been undertaken for a renaming
- the renaming proposal does not have strong local community support
- the proposal is to rename all or part of a local park or recreational reserve after urban development occurs.

Use of Aboriginal names

In instances where the name is of Aboriginal origin, the submission must conform to the information regarding the appropriate use of Aboriginal names and terms which can be found in Section 7: Appropriate use of Aboriginal names and dual naming.

Any local park or recreational reserve name derived from an Aboriginal source must be local to the area and shall be endorsed by the recognised local community. Evidence of this endorsement must be included with the naming proposal.

5.1.5 Boundary delineation

The submission for the creation of a new, or modification of an existing, local park or recreational reserve shall only be reviewed if the following has been taken into consideration:

- all boundaries shall be clearly defined
- must not overlap another cadastral parcel boundary
- must be contiguous
- boundaries shall align with cadastral information.

5.2 Name duplication

Names proposed for new local parks or recreational reserves shall not be duplicated or sound similar to names used within the state. Duplicated names are considered to be any existing local park or recreational reserve name which is spelt exactly the same or is considered to have a similar spelling or pronunciation.

All local park or recreational reserve name submissions must conform to all of the mandatory policies outlined in Section 1: Policy 1.6.

5.2.1 Existing duplicated or similar sounding names

Whilst these policies are not expected to enact changes to precedents where established local park or recreational reserves names are duplicated, or are similar in sound or spelling (homonymous), if such names are found to have caused, or are likely to cause, a risk to life and confusion in the delivery of essential services, consultation with the relevant local government and the affected community should be undertaken to have a unique and compliant name approved.

If no agreement can be reached between the relevant local government and the community in the application of a new unique local park or recreational reserve name for an area, and the Minister agrees such a change is in the community's best interests, a formal name change may still be endorsed by the Minister.

This policy does not preclude the use of duplicated names with a different generic and when Landgate is satisfied that the duplication will not cause confusion. Such features shall be situated within reasonable proximity to the associated source, for example Beedelup Falls is situated on Beedelup Brook within Beedelup National Park.

Local park or recreational reserve naming submissions requesting names other than the adjacent road name, will not be accepted if the suggested name exists as a road name within 10km of the proposed local park or recreational reserve or within the same local government area.

5.3 Assigning named extents

All local park or recreational reserve naming submissions must clearly define the area or extent to which the name shall apply. The same name shall only be applied to contiguous land parcels and will not be applied to unconnected land parcels.

Any decisions on a naming submission shall specify the limits of the feature to which the name officially applies.

5.3.1 Local park or recreational reserve sizes

There is no minimum or maximum size requirement for a named local park or recreational reserve. However, the names shall not bisect a lot and shall only apply to whole cadastral land parcels. They may be applied to more than one land parcel.

5.3.2 Naming of pavilions and other structures

Components of local parks or recreational reserves, for example pavilions, and other structures etc may be named in honour of living community members who have contributed towards the establishment of the particular feature or towards the community in general.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

The formal approval of such components is not required when the local park or recreational reserve has already been named as a whole. However the names shall conform to these naming policies and standards to ensure there is no duplication of names elsewhere within Western Australia. This assists in the provision of early responses from emergency service responders if the need should arise.

Landgate shall be informed of the names of such structures and facilities to ensure that the name, origin and position are recorded and available for inclusion on maps and for the unhindered provision of emergency service responders and essential services.

5.4 Naming amendments

Official local park or recreational reserve names are expected to be enduring. Landgate discourages any changes to official names without good reason, however such proposals will be considered on an individual basis, and the merits of each case will be carefully evaluated.

Reasons that may be considered in support of a name change are:

- · changes made to bring official usage into agreement with well-established local usage
- proposals to eliminate naming issues such as derogatory names, duplication or those previously approved on the basis of incorrect information
- proposals previously made at the request of persons or organisations (public or private) for commemorative or other reasons important to the proposer.

Where a change to the name of a local park or recreational reserve is proposed, clear justification outlining sufficient reasons for consideration is required. As names are meant to be enduring, the current name has already been in use within the public domain. The proposed new name selected shall conform to all the necessary naming policies and standards.

The requirements of emergency service responders for clear unambiguous local park or recreational reserve naming shall also be a consideration.

Proposals normally require the support of local government, but the Minister is the final authority in all such matters.

Submissions for local park or recreational reserve name changes deemed to be nonessential or unnecessary shall incur a service charge.

5.5 Local park or recreational reserves near state boundaries

If a local park or recreational reserve is situated near a state boundary, care must be taken to avoid duplication with names used in the other states or territories.

No local park or recreational reserve may cross a state or territory border.

5.6 Government managed land

All local parks or recreational reserves situated on land administered by other government agencies and authorities other than local government must be named in accordance with the relevant Landgate naming policies.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Commonwealth, state, territory or local government authorities or agencies which are responsible for the management of land administered by them, shall liaise with Landgate to develop practices and processes for the naming of local park or recreational reserves within these areas.

5.7 Private, residential and commercial developments

The intention of this subsection is to outline the process for naming or renaming local parks or recreational reserves situated within a private, residential or commercial subdivision.

All local parks or recreational reserves situated within private, residential or commercial development areas must be named in accordance with the relevant Landgate naming policies.

The land owner/developer and the local government should work collaboratively to develop compliant names for local parks or recreational reserves within these areas.

5.7.1 Compliance

All local parks or recreational reserves within private, residential or commercial subdivisions must be named in accordance with Section 1: General policies and standards.

5.8 Local park or recreational reserve of greater than local significance

A local park or recreational reserve is considered to be of greater than local significance when it is:

- located in two or more local government areas
- located in a significant tourist precinct
- proposed to be created as part of a state or federal government project
- a major cultural, natural or recreational landscape feature
- linked to a significant Aboriginal feature, story or landscape.

Name submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government for its endorsement and submission to Landgate.

General information on the process for submitting naming applications is shown at Appendix 1A.

In addition, each name proposal for a local park or recreational reserve shall include the following information:

- The location of the local park or recreational reserve including coordinates latitude and longitude, decimal degrees or Map Grid of Australia (MGA) coordinates for the centroid of the park/reserve polygon
- The 1:250 000 and 1:50 000 mapsheet names and numbers the park/reserve is situated on
- If the name is Aboriginal in origin, evidence of support from relevant Aboriginal Community

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- Submission of the completed worksheet which is located at in this document as Appendix 5A to clearly indicate which policies in Sections 1 and 5 the proposal conforms to
- Supporting information as to why Landgate should consider naming or changing the local park or recreational reserve name(s) (if relevant, why the current name is considered to be less appropriate than the new proposed name)
- The proposed name(s), the origin/source/historical context, and any supporting evidence that may be appropriate such as maps, photographs, references or sketches
- A current map or plan correctly marked with clearly defined local park or recreational reserve extents and name(s)
- Where applicable, evidence of landowner, family or community support
- If the application is for a renaming, evidence of consultation from the immediate and/or wider community is required.

Landgate has provided a checklist at Appendix 5A to assist with submission of naming requests for local parks and recreational reserves. Incomplete applications will not be progressed until all the necessary information has been provided.

Section 6: Administrative boundaries

Introduction

For the purposes of these policies, administrative boundaries are uniquely and clearly defined administrative geographical boundaries. Examples include electoral boundaries, local government boundaries, land divisions, port authorities etc.

Administrative boundaries are legally documented and attributed boundaries used to define the rights, responsibilities and interests on the land. These areas are recognised by governments or other organisations for administrative purposes. Landgate records and administers state and local government administrative boundaries only.

Using this section of the policy

The naming of administrative boundaries provides instantly recognisable labels to identify administrative geographic entities. As with all naming processes, the duplication of names within the state often causes confusion and misunderstandings even though such duplications have been common within a local government area, the state or nationally in the past.

This section outlines how administrative boundaries can be named, renamed or have boundaries determined or realigned.

Who can officially name administrative boundaries?

As per the provisions in the *Land Administration Act 1997*, the Minister for Lands (the Minister) has the authority for officially name and un-name all administrative boundaries in Western Australia which are not legally named under other state legislation. Through delegated authority, Landgate acts on the Minister's behalf to undertake the administrative responsibilities, including the development of policies and procedures, required for the formal approval of administrative boundary names.

Administrative boundary naming policies

Local governments and other government authorities are to ensure that all naming submissions conform to the policies outlined in Section 1, as well as all the procedures outlined in this section.

Selection of administrative boundary names must take into consideration the impact the name will have on the wider community. The selection shall recognise that such names may bear specific provenance to the history, geography or junction of another state or territory. Investigation into this level of association must be included as part of any assessment in determining the assignment of a new administrative boundary name.

6.1 Components of an administrative boundary name

All administrative boundary name submissions must conform to the policies as outlined in Section 1.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

6.1.1 Name element requirements

Where possible an administrative boundary name should consist of a single name element (specific) and not include a second word to form a double-barrelled name.

6.1.2 Feature classes (generics)

All administrative boundaries shall include as part of that name a feature class or generic.

The feature class must be selected from the official list of feature classes used within Western Australia as shown in this document as Appendix 6A: Administrative Boundary Feature types suitable for use in Western Australia. The correct use of feature classes alleviates any possible confusion as to which feature the name is being applied to.

Exceptions to this only occur with the use of Aboriginal names or words which already include details of the feature class within the name.

6.1.3 Unacceptable names

The official naming parameters as detailed in Section 1: Policies and standards must be applied for all administrative boundary naming submissions.

There shall be only one official name for an administrative boundary; dual or alternative names shall not be assigned.

The use of road types or feature classes as part of an administrative boundary name shall not be used.

No administrative boundary name shall be preceded or followed by a feature class (generic) or a cardinal indicator. The use of such is not considered an appropriate means to create a unique name. For example, East Bullsbrook Ward, South Wanneroo Water Catchment Area, Swan North Legislative Assembly District are not acceptable. Further information regarding appropriate use can be found in Section 1: Policy 1.3.1.

The use of numerals in an administrative boundary name may cause confusion between the name of the administrative boundary and an address number. Therefore, it is not acceptable for an administrative boundary name to include numbers/numerics, either in full alphabetised or numeric formal, for example. neither Eight, Eighth, 8 or 8th, see Section 1: Policy 1.3.12

Administrative boundary names which are not directly related to the area in which they are to be located will not be accepted.

6.1.4 Recommended sources for new names or changes to names

Administrative boundary names are expected to be enduring and changes to names will only occur if there is a proven risk to life if the current name is retained or if the form and purpose of the boundary has been changed.

The following sources are recommended when seeking a new administrative boundary name:

- names from Aboriginal languages formerly identified with the general area
- · descriptive names appropriate to the features
- · names of pioneers who were relevant to the area

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- · names of persons who died during war service
- · names associated with historical events connected with the area
- flora or fauna native to the area.

Proposed names with significance to specific groups only (this excludes Aboriginal names) or names with no relevance to a particular area are not acceptable for approval.

Administrative boundary naming proposals will not be approved if:

- the proposal seeks to adopt a commercial or developer's estate/promotional name coined to endorse a development
- the proposal seeks to adopt the names used for existing infrastructure, for example schools, shopping precincts, hospitals etc.
- the proposed name has no relationship to the area or is a made-up name
- the proposed name is duplicated or similar in spelling or sound to an existing administrative boundary name within Australia
- petitions presented in support only represent one point of view
- no broad-based community survey has been undertaken
- · the proposal does not have strong local community support.

Use of Aboriginal names

In instances where the name is of Aboriginal origin, the submission must conform to the information regarding the appropriate use of names and terms which can be found in Section 7: Appropriate use of Aboriginal names and dual naming.

Any administrative boundary name derived from an Aboriginal source must be local to the area and shall be endorsed by the recognised local community. Evidence of this endorsement must be included with the naming proposal.

6.1.5 Boundary delineation

The submission for the creation of new, or modification of existing, administrative boundaries shall only be reviewed if the following has been taken into consideration:

- all boundaries shall be clearly defined, contiguous and must not overlap another administrative boundary of the same function
- boundaries shall align with road centrelines (major highways, divided carriageways and railways), cadastral information or obvious topographical features such as rivers, shorelines, creeks
- if a natural feature such as a waterway is to be used as the boundary for an administrative boundary, the boundary should be applied to the centreline of such a feature
- an administrative boundary shall not be defined as an island within another administrative boundary of the same function
- boundaries shall not bisect single lots or land parcels. Exceptions that may be considered by Landgate for endorsement may include large areas such as forests, lakes or national parks.

6.2 Name duplication

Names proposed for unnamed administrative boundaries shall not be duplicated. Duplicated names are considered to be two or more names which are within close proximity and those which are identical or have similar spelling or pronunciation.

There shall be no administrative boundary name duplication within the state regardless of function. All administrative boundary name submissions must conform to all of the mandatory policies outlined in Section 1: Policy 1.6.

6.2.1 Existing duplicated or similar sounding names

Whilst these policies are not expected to enact changes to precedents where established administrative boundary names are duplicated or are similar in sound or spelling (homonymous), if such names are found to have caused, or are likely to cause, a risk to life and confusion in the delivery of essential services, consultation with the relevant managing jurisdiction (commonwealth or state government agency) and the affected community should be undertaken to have a unique and compliant name approved.

If no agreement can be met between the relevant managing jurisdiction and the community in the application of a new unique administrative boundary name for an area, and the Minister agrees such a change is in the community's best interests, a formal name change may still be endorsed by the Minister.

6.3 Assigning named extents

All administrative boundary naming submissions must clearly define the area to which the name shall apply. Any decisions on a naming submission shall specify the limits of the area to which the name officially applies.

6.3.1 Administrative boundary sizes

There is no minimum or maximum size requirement for a named administrative boundary. However, the names shall not bisect a lot and shall only apply to whole cadastral land parcels. They may be applied to more than one land parcel.

6.4 Naming and boundary amendments

Official administrative boundary names are expected to be enduring. Landgate discourages any changes to official names without good reason, however such proposals will be considered on an individual basis, and the merits of each case will be carefully evaluated.

6.4.1 Proposed boundary amendments

The need to amend an administrative boundary will arise when there is a change to the function of the boundary or needs of the managing jurisdiction.

The implementation of such changes will occur if a significant benefit to the community is identified.

Submissions seeking changes for reasons of perceived status or financial benefit shall not be supported.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

6.5 Local government and state boundaries

If an administrative boundary is situated near a state boundary, care must be taken to avoid duplication with names used in the other states or territories.

An administrative boundary shall not extend beyond the Western Australian state border.

An administrative boundary may extend across multiple local government boundaries.

6.6 Government managed land

All administrative boundaries situated across land administered by other government agencies and authorities other than local governments, shall be named in accordance with the relevant Landgate naming policies.

Commonwealth, state, territory or local government authorities or agencies responsible for the management of land administered by them, shall liaise with Landgate to develop practices and processes for the naming of administrative boundaries within these areas.

Because of the varied nature of administrative boundaries that fall under the jurisdiction of different state government departments and authorities, Landgate prefers to establish individual naming policies and practices for each department or authority as required.

If a unique set of naming policies and practices has not been established for a relevant government department or authority, then the general Landgate policies shall apply.

6.7 Private, residential and commercial developments

An administrative boundary shall extend across any private, residential and commercial development as required and as prescribed in relevant legislation.

The names of existing infrastructure such as shopping precincts, schools and other facilities shall not be considered as suitable names for an administrative boundary unless they conform to the general naming policies and standards.

Name and extent submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government or government agencies for their endorsement and submission to Landgate.

General information on the process for submitting naming applications is shown at Appendix 1A.

In addition, all administrative boundary naming proposals should include:

- the location of the administrative boundary including coordinates latitude and longitude, decimal degrees or Map Grid of Australia (MGA) coordinates
- the 1:250 000 and 1:50 000 mapsheet names and numbers the administrative boundary is situated on
- if the name is Aboriginal in origin, evidence of support from relevant Aboriginal

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

community

- submission of the completed worksheet which is located at in this document as Appendix 6B to clearly indicate which policies in Sections 1 and 6 the proposal conforms to
- supporting information as to why Landgate should consider naming or changing the administrative boundary name(s) (if relevant, why the current name is considered to be less appropriate than the new proposed name)
- the proposed name(s), the origin/source/historical context, and any supporting evidence that may be appropriate such as maps, photographs, references or sketches
- a current map or plan correctly marked with clearly defined administrative boundary extents and name(s)
- if the application is for a renaming, evidence of consultation from the immediate and/or wider community is required.

Landgate has provided a checklist at Appendix 6B to assist with submission of administrative boundary naming requests. Incomplete applications will not be progressed until all the necessary information has been provided.

Section 7: Appropriate use of Aboriginal names and dual naming

The Aboriginal and Dual Naming Guidelines are published separately on the Landgate webpage \underline{here} .

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Section 8: Role of the Minister for Lands, Landgate and the Geographic Names Committee

Introduction

The purpose of this section of the policy is to clearly explain the roles and responsibilities of the Minister for Lands (the Minister), Landgate and the Geographic Names Committee (GNC).

Using this section of the policy

This section is to provide a clear understanding to government agencies, developers, local government, community interest groups and the general public about the roles and responsibilities of the Minister, Landgate and the GNC in the formal approval of roads, administrative boundaries and topographic features within Western Australia.

The Minister for Lands' role and responsibilities

As part of the Lands portfolio, the Minister, as per the provisions in the *Land Administration Act 1997*, has the authority for officially approving all road, feature and administrative boundary names in Western Australia. The Minister also has the authority to un-name.

Landgate and the delegation of authority

Landgate is a statutory authority which is managed by a board. This Board of Management is accountable to the Minister for the delivery of Landgate related products and services.

Within Landgate, there are a number of roles responsible for designated functions under the *Land Information Authority Regulations, 2007* and the *Land Administration Act, 1997,* including the Commissioner of Titles, Registrar of Titles, Valuer-General, Surveyor General and the Geographic Names Committee and Secretariat.

Through delegated authority, under the *Land Administration Act, 1997*, Landgate acts on the Minister's behalf to undertake the administrative responsibilities required for the formal approval of naming submissions, including the development of policies and procedures.

GNC executive officer and the secretariat

The GNC is served by an executive officer and a secretariat, both of which are provided by Landgate. The executive officer assists the chairman in the planning and conducting of the GNC meetings and implementation of Committee resolutions. It is also the executive officer's role to represent Western Australia on national consultative committees which meet to focus on issues of common interest to all states and territories and to develop national guidelines for a more unified approach to nomenclature in Australia.

Standard naming operations are managed by the executive officer and the secretariat (the Geographic Names Team) as provided by Landgate. This office is responsible for managing the nomenclature needs of the community, local government, real estate, mapping industries etc., for topographical features, administrative boundaries, localities and roads.

The secretariat is also responsible for the maintenance of the state's gazetteer and nomenclature database which holds essential attribute information.

Secretariats terms of reference

- assign nomenclature to topographical features, localities and roads
- alter, when required, the nomenclature of topographical features, localities and roads
- determine whether the use of a topographical feature, locality or road name shall be discontinued
- adopt national and international rules of orthography, nomenclature and pronunciation with respect to naming topographical features, localities and roads
- investigate and determine the form, spelling, meaning, pronunciation, origin and history
 of any topographical feature, locality and road names
- investigate and determine the application of nomenclature to topographical features, localities and roads with regard to position, extent or otherwise
- maintain a gazetteer and geographic nomenclature database for Western Australia
- inquire into and make recommendations on any matters relating to the nomenclature of topographical features, localities and roads referred by the Minister.

Geographic Names Committee

GNC History

In 1936 the then Minister for Lands, the Hon M.F. Troy, appointed an advisory committee known as the Nomenclature Advisory Committee. The Committee consisted of Dr J.S. Battye (Chancellor of The University of Western Australia and State Archives Board Chairman) as the Committee Chairman and its appointed members included Mr J.A. Klein, MA (Director of Education), Mr J.P. Camm (Surveyor General), Mr P Hasluck (Western Australian Historical Society) and Mr F.I. Bray (Memorials Committee of the Western Australian Historical Society).

The Committee's name was changed in 1987 to the Geographic Names Committee and it performs a similar role today by providing advice to, and on behalf of, the Minister on geographical naming issues.

Committee membership

Appointments to the GNC are made by the Minister to represent different points of view from local communities, professional institutions and government agencies within Western Australia. It provides a mechanism to make democratic naming decisions for the state government and is comprised of representatives from the following organisations:

- Australia Post
- Community Representatives (2 positions)
- Department of Aboriginal Affairs
- Department of Fire and emergency service responders
- Department of Mines and Petroleum
- Department of Parks and Wildlife
- · Landgate Chairman and executive officer
- Main Roads Western Australia
- State Records Office of Western Australia
- Urban Development Institute of Australia (WA Division) Inc.
- Western Australia Police
- Western Australian Local Government Association (2 representatives).

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Responsibilities of the GNC

The GNC is responsible for:

- advice on geographical nomenclature matters
- development of policies to facilitate the approval and processing of nomenclature applications
- development of rules and processes to be followed in selecting, assigning or amending geographic nomenclature
- setting out processes and procedures for the selection or assigning of Aboriginal nomenclature
- specifying criteria for the assessment of cultural heritage or other significance in relation to the naming of places
- · establishing consultation requirements for geographic nomenclature actions
- specifying any other matter or item appropriate to geographic nomenclature in Western Australia
- advising to the Minister on the establishment and development of the naming policies and standards
- dissemination of information on the naming policies and standards
- monitoring and review of compliance with the naming policies and standards
- undertaking other functions as required in relation to nomenclature.

At the discretion of the Minister the Committee shall:

- Review naming actions, transactions and issues which impact on any government agency, authority or instrumentality or that may attract significant public, government or other external interest
- Review and approve papers and reports to third/external parties which contain naming issues or exceptions which may prompt media, public or government scrutiny.

GNC recommendations

Not all submissions for a naming approval are required to be presented to the GNC for endorsement. Through the *Land Administration Act 1997, Land Administration Regulations 2007* and the *Instrument of Delegations,* the chairman and the executive officer of the GNC, and other Landgate officers have the authority to approve and un-approve naming submissions. Through Landgate's Geographic Names, advice is provided to the applicant on how the naming proposal shall proceed or why it cannot.

The GNC is presented with naming actions that are considered to be of significance to the wider community, may be controversial in nature, are required in the interests of public safety or those applications seeking special consideration as they do not comply with the necessary policies and standards.

Each matter determined by the GNC is made on the basis of the unique circumstances associated with the particular issue. Such decisions are not to be taken as precedents in subsequent naming deliberations.

Naming submission presented to the GNC

When a naming action has been presented to the GNC, it shall:

- determine whether the naming proposal in its current form conforms to all required naming policies and standards
- seek further supporting evidence, if required, from the applicant, government departments or development bodies, and other interested parties such as affected local land owners, businesses or residents as required

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- consult with relevant emergency service response or public service organisations if a question of public safety or confusion might arise
- consider all information for its relevance to the principles, policies and procedures, especially all objections received from members of the public and emergency service responders or other public service organisations.

The GNC will determine the merits of each proposal and/or identify issues arising from the application before making a final decision.

Review of a GNC decision

Apart from requests from the Minister, after making a determination, the GNC will only reconsider an issue if new or additional relevant information is provided by the proponent.

The Minister may be asked to review a GNC decision on a naming matter within Western Australia if the proponent feels aggrieved by the decision of the GNC. A copy of the submission requesting the review is to be sent to Landgate for its information.

Presentation policy for the GNC

Individuals, interest groups or organisations with a direct interest in a topic to be considered by the GNC may request to make a short formal presentation to the Committee. The Committee will determine if they will hear the presentation or not. Submissions for such requests and any supporting documents must be provided to Landgate no less than fourteen calendar days before the scheduled meeting.

Presenters will be allocated a minimum time of fifteen minutes and a maximum of thirty minutes, prior to the scheduled GNC meeting and before the discussion of this matter where a decision is to be made by the GNC. The GNC members will be able to ask questions of the presenters and the executive officer will record any discussions and or questions which will be included as an appendix to the final version of the minutes.

Questions raised must relate to the matters being discussed on the GNC agenda or to a function of the committee. No debate or discussion will be permitted on any question or answer.

The Chairman may accept or reject any question, or determine that any requiring a complex response which may need further research, be answered in writing following the meeting and these will also be included as an appendix to the meetings minutes.

Other naming groups and organisations

Permanent Committee on Place Names (PCPN)

In 1984, to assist with the coordination and communication for the consistent use of place names within Australia and New Zealand, the Committee for Geographical Names in Australasia (CGNA) was formed. In 1993, it became a standing committee within the Intergovernmental Committee on Surveying and Mapping (ICSM) and is now known as the Permanent Committee on Place Names (PCPN).

All of the principle naming authorities in Australia and New Zealand are represented on the PCPN including the Australian National Placenames Survey (ANPS), Great Barrier Reef Marine Park Authority (GBRMPA), Australian Antarctic Division (AAD), Australian Hydrographic Office (AHO) and the Department of Defence.

The PCPN meets annually to discuss issues of common interest to all states and territories and develop guidelines to reflect a national approach to nomenclature.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Its terms of reference include:

- The promotion of a greater community awareness of geographical names
- Development and promotion of national guidelines for geographical names
- Promotion of the use of correct names by map, chart and electronic application procedures
- Support for the maintenance and development of jurisdictional and national gazetteers, PCPN, Scientific committee on Antarctic Research (SCAR), and the Sub-Committee on Undersea Feature Names (SCUFN)
- Support of initiatives for the appropriate use and preservation of geographical names, and for the recognition of their heritage and cultural importance
- Support of the United Nations Group of Experts on Geographical Names (UNGEGN) and its initiatives.

United Nations Group of Experts on Geographical Names (UNGEGN)

International naming uniformity

In 1958, the Economic and Social Council of the United Nations passed a resolution requesting that the Secretary General draft a plan for achieving international uniformity on geographical names at the national and international level. As a result of this resolution, efforts to standardise geographic names for international use became the role of the United Nations Group of Experts on Geographical Names (UNGEGN).

UNGEGN functions through 23 geographical/linguistic divisions and working groups which address issues such as training courses, digital data files and gazetteers, romanisation systems, country names, terminology and toponymic guidelines. Activities include the sponsoring of conferences and sessions of a group of experts in the interests of developing guiding principles for attaining uniformity in the name-processing procedures and in the promotion of national standardisation by all countries.

Pacific South-West Division

Through the PCPN, Australia and New Zealand are represented at UNGEGN in the Pacific South West Division (PSW). Countries participating in this division include Australia, Fiji, Nauru, New Zealand, Papua New Guinea, Samoa, Solomon Islands, Timor-Leste, Tonga and Vanuatu

Section 9 Consulting with the wider community

Introduction

Consultation is a key component in the process of naming and renaming topographic features, administrative boundaries, localities and roads. The following process is recommended when consulting with the immediate and extended community in relation to naming and renaming processes.

This section provides information on the nature and extent of consultation required and when it is appropriate.

Using this section of the policy

For the purposes of this document, there is a distinction between 'immediate community' and 'extended community' for consultation.

Immediate community is considered to be:

- people who live or work within the area
- · owners of properties or businesses in the area.

Extended community is considered to be:

- visitors to the area (shoppers, tourists, recreational or dining visitors etc)
- organisations that have an interest in the area (Aboriginal associations, local historical societies and eminent individual historians, service clubs such as Lions Clubs and Rotary Clubs, Country Women's Associations, farmers groups, State Emergency Service, brigades, school parents associations, Probus clubs, senior citizens centres, ethnic associations, etc)
- government or non-government organisations that service the area.

The area' is different depending on the circumstances of the proposal. In general, it is considered to include (but is not be limited to):

- features (other than waterways): the sites themselves and the localities within which they fall
- localities: properties within the current and proposed locality's boundary and a generous buffer zone of properties adjoining or within 200 metres of the boundary
- · roads: properties accessed from the road or major roads of state significance.

The consultation process

The consultation process involves five steps, which are illustrated in the diagram below and described in detail to follow.

Local government is expected to cover costs associated with public consultation.

Step 1: Prepare a naming proposal

The naming proposal must be prepared according to the relevant sections of the Policies and Standards for Geographical Naming in Western Australia 2017.

If the proposed name is a traditional Aboriginal name or derived from an Aboriginal Australian language relevant to Western Australia, local governments must consult with the relevant Aboriginal groups prior to submitting the naming proposal. Further details on consultation with the Aboriginal community are provided later in this document under Consulting with Aboriginal Groups.

This portion of the document provides information on consultation with the wider community following endorsement of the proposal by the Aboriginal community.

The information below should be used as a guide to assist with consultation.

Step 2: Develop a consultation strategy

A strategy for consulting with the wider community should detail who will be consulted, how they will be consulted and how feedback will be compiled and analysed. Information on each of these topics is provided below.

In addition to this information the strategy documentation should outline a timeline for the consultation process, allocate staff and resources to different tasks and define the background purpose and intended goals to be achieved through consultation.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Preparing this information in advance means that it can be referred to in different information campaigns throughout the consultation process.

Step 3: Determine who should be consulted

Consultation should be held with the communities that will be affected by the proposed naming/renaming or boundary adjustment of any feature, locality or road. The following guide may be used to identify which members of the community to consult.

Proposal	Who to consult	Type of consultation
New feature	Immediate and extended community	 Notices Surveys Public meetings (only if this is a potentially contentious issue)
New locality	Immediate and extended community	 Letters to affected residents, ratepayers or businesses; and to residents, ratepayers and businesses in properties adjacent to the proposed new boundaries Notices Surveys Public meetings (only if this is a potentially contentious issue)
New road	Immediate and extended community	Notices (only if this is a potentially contentious issue)
Renamed feature	Immediate and extended community	 Notices Surveys Public meetings (only if this is a potentially contentious issue)
Renamed locality	Immediate community	 Letters to affected residents, ratepayers or businesses Notices Surveys Public meetings (only if this is a potentially contentious issue)
Renamed road	Immediate community	 Letters to affected residents, ratepayers or businesses Notices Surveys Public meetings (only if this is a potentially contentious issue)
Boundary change of a feature	Immediate and extended community	 Notices Surveys Public meetings (only if this is a potentially contentious issue)
Boundary change of a locality	Immediate community	 Letters to affected residents, ratepayers or businesses, and residents, ratepayers and businesses in properties adjacent to the proposed new boundaries Notices (if it is a large-scale proposal or potentially contentious issue) Surveys Public meetings (only if this is a potentially contentious issue)
Boundary change of a road	Immediate community	 Letters to affected residents, ratepayers or businesses Notices (if it is a large-scale proposal or potentially contentious issue) Surveys Public meetings (only if this is a potentially contentious issue)

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Step 4: Build awareness of the proposal and invite feedback

The following methods can be used to build awareness of the proposal and invite feedback. Each method has its own strengths and prior to selecting one or more of the methods, naming authorities should give consideration to the proposal's aims and the required outcomes of community consultation.

Notices

This includes newspaper (including local and Aboriginal newspapers), radio and television. If an advertisement is to be placed and the local government is seeking to reduce costs, it is possible to place an advertisement or notice listing the basic details and referring readers to a website, phone number or council office for further details.

Advertisements in local newspapers alone are generally insufficient to draw people's attention to a proposal.

In addition to advertisements, notices can be placed in public places, for example:

- · at the site to be named or renamed
- local council offices
- libraries
- technical colleges and universities
- · community centres and learning exchanges
- shops with community noticeboards such as bookshops, supermarkets, organic food stores
- tourist information centres.

These notices should include the following:

- the proposed (new) name/boundary and why it has been nominated
- where the feature, locality or road is located
- information on how to provide feedback, such as a public meeting (give date, time and venue), phone number, mailing address, email details and the website's URL.

Alternatively, if there is no proposed name, notices should include the following:

- guidelines for nominating a name or names
- details of how the community can have input into endorsing or selecting a name (for example through a vote)
- information about how to provide feedback, such as at a public meeting (give date, time and venue), phone number, mailing address, email details and/or the website's URL.

Letters

Letters to members of the immediate or extended community should be clear and precise.

As a minimum they must refer to the principles and procedures of the relevant sections of the Policies and Standards for Geographical Naming in Western Australia 2017 and include the following information:

- the location and extent of the feature, locality or road proposed to be named or renamed (with a map and written description)
- the reason for choosing the proposed name
- the closing date for public feedback, which must be 30 days from the date of the letter and/or public advertisement (whichever is later)

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

- an indication that, if the name or boundary change affects addresses, Australia Post may continue to record and recognise the old address for a period of six to 12 months to ensure a smooth transition from the old address to the new; however, itshould also be stated that Australia Post might not guarantee the delivery of incorrectly addressed mail and customers should also be advised to use their official address.

NOTE: If property addresses are potentially affected by the proposal, the letter must include a survey seeking a response from the residents, rate payers and/or businesses in question. Refer to information below for further details about what should be included in the survey.

Surveys

Surveys should be used to gain an indication of community support or rejection of a naming/renaming or boundary change proposal. They must be used with the immediate community if they will be affected by an address change arising from the successful outcome of a proposal.

Surveys must refer to the Policies and Standards for Geographical Naming in Western Australia 2017 and include the following details:

- a statement outlining the background of the proposal
- information that the non-return of surveys will be treated as tacit consent for the proposal
- inclusion of two questions:
 - Do you approve the proposal to name/rename/adjust the boundaries of ______
 - Do you support the proposed name _____ or boundary location (as shown on map)?
- space for respondents to include their name, address and contact details.

If a local government is seeking to gain support from the extended community for a proposal, it should avoid using surveys and do it by publishing notices inviting written submissions. The local government could also consider establishing an online campaign site and facility for registering support, objections or comments (refer to the 'Internet' section below for further details).

Internet

Internet sites can be valuable for collating all relevant information in one area for the benefit of immediate and wider communities. A website can be developed within the local government's existing website or as an additional site with its own domain name.

Websites are very useful for allowing members of the extended community to lodge expressions of support or objection to a naming/renaming or boundary change proposal. They are also a very practical facility for accommodating a naming competition.

When a website is used as a platform upon which to hold a naming competition, clear information must be provided about the requirement for names to conform to the principles of the Policies and Standards for Geographical Naming in Western Australia 2017.

As a minimum, websites promoting a naming/renaming or boundary change proposal or competition should include the following information:

- · background to the proposal
- · maps indicating the location and extent of the feature, locality or road
- the closing date for submissions
- · information about how expressions of support or objection can be lodged
- details on how naming proposals can be lodged, if relevant

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

• reference and links to the online Policies and Standards for Geographical Naming in Western Australia 2017.

Public meetings

If it is considered necessary, a public meeting could be held. The need for this depends on how important the feature, locality or road is to the community and how controversial the naming/renaming/boundary changing may be.

If a public meeting is held then it should be organised and chaired by the local government. Consideration must be given to the location and timing of any public meetings so that those in full-time work can attend.

The venue should be one that is acceptable to all sections of the community and held at an appropriate time in the evening (for example. 7.30pm).

If one or more public meetings are held, a reasonable amount of time between the last meeting date and the closing date for feedback submissions should be provided. This will give people time to think about the issue, talk it over with their families, colleagues and friends, and give feedback to the local government by letter, email or through the website.

Comments made at the meeting should be noted by a nominated recorder and passed onto the local government for analysis and consideration.

If the awareness campaign results in some sections of the community being opposed to the proposed name, a group may form to present a case against the name. If this occurs, care must be taken to take notice of concerns and determine to what extent the group is representative of the wider community.

It may be that the group represents particular business interests that may not align with broader community values. The only time a group may be seen as representative of the whole community is when the community elects representatives to act on its behalf, specifically on the subject of a naming or renaming proposal.

Existing groups that have been formed for other purposes (for example charity and support or special interest groups), and generally represent a small proportion of the community, cannot be seen to have a mandate to speak on behalf of the wider community. However, if groups have discussed the issue at a general meeting with a vote taken to tender a submission, this may be submitted to the consultation group for consideration.

If there is opposition a new proposal may be put forward. In this instance, the local government will need to recommence the naming proposal process.

Step 5: Analyse feedback from the community

To assist in analysing the feedback, a spreadsheet should be developed to collate and organise the information.

The spreadsheet should include:

- the source of the feedback (whether it is an individual or a community organisation, protest group, business or government department or authority)
- · positive or negative responses to questions posed on the surveys
- if a respondent provided alternative suggestions.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

If there was no specific name proposed by the local government, the consultation process may have generated a detailed list of possible names. Naming authorities should collate this information and check that the names conform to the principles of the guidelines. The names that conform should be shortlisted and then formed into a proposal as per the procedures outlined in the guidelines. This will require further community consultation to determine support for the final name for the proposal.

Confirming responses from written submissions

If a local government is determining community support for a proposal, the statistics related to letters of support and objection are important to consider. The number of letters received should be categorised by their expressions of support or objection, and this information should then be represented as a percentage of the total amount of submissions received.

This information should then be further analysed. In particular, the statements of objection should be categorised as to whether they have raised issues regarding the proposal not conforming to the principles and/or procedures of the guidelines, or are related to other topics.

Statements of objection that do not refer directly to ways in which the proposal does not conform to the guidelines must be discarded and cannot be included in the data analysis of community support.

Objections must be addressed when they raise an issue of the proposal not complying with the principles and procedures outlined in the guidelines. If it can be shown that the proposal does not conform to the requirements of the guidelines the local government must alter or abandon the proposal.

If the proposal is then altered to ensure compliance with the guidelines, the local government must re-consult with the community to ascertain support or opposition to the revised proposal.

When community support for a proposal is minimal, but the proposal has been put forward based on public safety and/or emergency service responder concerns, the local government should attempt to refine and/or change the proposal so that it meets community expectations.

If the local government believes that community support will not be forthcoming and nonapproval of the proposal will maintain the risk to public safety, it should seek advice from Landgate, who can refer the matter to a Geographic Names Committee meeting for advice or support.

Confirming responses from survey material

When a survey is sent to the immediate community, consent is considered to be achieved when the number of respondents expressing consent, added to the number of nonrespondents (indicating tacit consent) is greater than 50 per cent of the total surveyed population.

For example:

Population in immediate community 1	00
Respondents who objected	30
Respondents who expressed consent	t 30
Non-responses (tacit consent)	40
Total community that consents	70%

This proposal can be considered to have community consent.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Population in immediate community100Respondents who objected55Respondents who expressed consent 40Non-responses (tacit consent)5Total community that consents45%

This proposal cannot be considered to have community consent.

When community support for a proposal is minimal, but the proposal has been put forward based on public safety and/or emergency service responder concerns, the local government should attempt to refine and/or change the proposal so that it meets community expectations.

If the local government believes that community support will not be forthcoming and nonapproval of the proposal will maintain the risk to public safety, it should seek advice from Landgate, which can refer the matter to a Geographic Names Committee.

Consulting with Aboriginal groups

Please refer to the Aboriginal and Dual Naming Guidelines (Section 7).

Appendix 1A: Naming submission process

Landgate accepts applications for new names relating to roads, localities, administrative boundaries and topographic features. Such applications should be directed to the relevant local government for their endorsement prior to submissions being made to Landgate.

If a proposal is to change the name of a feature located across multiple local government areas, the respective local governments need to coordinate the proposal's submission prior to it being lodged with Landgate.

1. Who may submit a naming application?

1.1. General public

Members of the general public and community interest groups may submit a proposal to the relevant local government to name or change the name of a road, topographic feature, locality or administrative boundary. Such submissions may only be made if the naming or renaming proposal can be demonstrated to be in the best interests of the community.

The proposal must then be endorsed by the relevant local government who is responsible for the area in/across which the road etc. is located.

Upon receiving a naming proposal from the general public or community interest group, the local government should initiate the naming process and make a formal submission to Landgate.

1.2. Emergency response or other public service providers

Organisations that deal with the provision of emergency or other essential services (such as power, water, postal or telecommunications) may submit a proposal to name, or change the name of, a feature to the relevant local government responsible for the area in/across which the feature is situated. Such submissions may only be made if the naming or renaming proposal can be demonstrated to be in the best interests of the community.

Upon receiving a naming proposal from the emergency or other essential service provider, the local government should initiate the naming process and make a formal submission to Landgate.

If a request is made in the interests of public safety, the local government must respond within 30 days and action the request within one council meeting of that initial response. Often, an emergency service response or other public service provider will not provide a suggestion for the proposed new name. In these instances, the local government must provide a suitable name.

1.3. Local government

Local governments may submit an application to name or rename a feature. Renaming of existing features will only be considered if the local government is able to demonstrate that the proposal is being made in the best interests of the community for reasons of safety.

It is possible for local governments to hold naming competitions. In these instances the local government should contact Landgate and the processes described in Section 9: A Guide to consultation should be adopted for use.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

If the local government is seeking to develop a naming or renaming proposal that uses an Aboriginal name(s), contact should be made with relevant Aboriginal communities to seek their input at the outset of the proposal process.

Once a name has been chosen, local governments should initiate the formal submission process.

2. General process steps

The following steps briefly outline local government requirements for preparing a naming submission:

Step 1 Check information

Local Governments are to ensure that all the necessary information has been provided by the party proposing the name. If insufficient, request additional information within a specified timeframe.

Step 2 Apply the policies

Upon selection of a new name, local governments must ensure the proposal conforms to all of the policies outlined in the relevant sections of this policy.

If the proposal does not comply with the relevant policies, or the local government determines that the proposal is frivolous in nature, the local government should seek more suitable names from the party proposing the name

Step 3 Consult with Aboriginal communities

If the proposed new name is derived from an Aboriginal language, from the outset the local government, or the party proposing the name, should consult with and obtain the input and approval of the relevant local Aboriginal community(s).

Details on the consultation process are provided in Section 7.

Step 4 Consult with emergency service response and other stakeholders

When local governments have ensured that the proposal adheres to the relevant naming policies, there should be no further need for consultation with emergency service response and other service providers. This is due to these policies having been endorsed by Landgate and the relevant agencies.

In instances of local governments not being certain whether the naming or renaming proposal conforms to the policies (for instance, in cases of possible duplication or confusion) they should consult with Landgate, and seek feedback from emergency service response and public service providers. Such consultation and feedback processes should be undertaken prior to any public consultation to ensure that unsuitable proposals are not unnecessarily provided to the public for their feedback.

Step 5 Consult with the public

The immediate community, including residents, ratepayers and businesses, must be consulted on any naming or renaming proposals that will affect their address.

Consultation with the immediate and/or extended community should only occur once Local Government is certain that the proposed name conforms to the relevant naming policies. If councils are uncertain of this, they should contact Landgate for further advice.

Step 6 Council consideration

Once the above steps have been undertaken a report must be prepared on the proposal.

The local government's decision to accept or reject a proposal needs to be formally recorded. This also applies when the decision has been made under delegated authority.

Step 7 Lodgement of submission to Landgate

If the local government endorses the proposal, a formal request seeking approval of the submission should be made to Landgate, via an online submission.

All naming proposals should include:

- applicant LGA Contact details
- developer/Agent/Proposer details
- the location of the development site in which the proposed road or feature will be situated
- supporting information as to why Landgate should consider naming or changing the name(s)
- the proposed name(s) and the origin/source/historical context
- a final road design plan (where applicable) correctly marked with road extents and names
- where applicable, evidence of landowner, family or community support
- if the name is Aboriginal in origin, evidence of support from relevant Aboriginal Community
- if the application is for a renaming, evidence of consultation from the affected residents is required.

2.1. Landgate's consideration of submissions

Upon receiving a submission to name or rename a road, Landgate will notify the requestor acknowledging it has received the submission. This notification will confirm that all the necessary information has been included or notify the requestor that further information is required before the approval process can continue.

If the submission is not from a local government, and supporting documentation has not been received confirming that the relevant local government has supported the request, the requestor will be notified that the approval process will not continue.

When considering the proposal, Landgate will check that the proposed naming or renaming conforms to all the relevant naming policies.

If Landgate finds that the submission is non-compliant, the relevant local government and original requestor (if required) will be issued with either a request for further information, or advice that the submission needs to be modified to confirm its compliance.

If Landgate deems that the submission is compliant, the formal approval process will be undertaken.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Once a name has been formally approved, the new or amended name is entered into the State's Gazetteer and information regarding the name's origin, location, derivation, historical name/s (if available), the local government(s) and locality in which the name is located and the official approval date is also recorded. Landgate's other corporate databases will then be able to reflect the necessary additions, amendments or a deletions, thus ensuring this information is made available to Landgate stakeholders and the wider community.

2.2. Notification of approvals

Once the approval process has been finalised, Landgate will notify the relevant local government(s) and the original requestor (if required) and provide a copy of the official naming approval for their records. The relevant local government(s) is required to notify any relevant stakeholders or service providers of the naming approval.

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Appendix 2A: Road types suitable for use in Australia

The following table is an extract from Australian/New Zealand Standard AS/NZS 4819:2011 Appendix A 'Road Types – Australia'. Road types used in Western Australia shall be chosen from this list for open ended roads, cul-de-sacs or pedestrian only roads.

Road Type	Abbreviation	Description	Open ended	Cul-de-sac	Pedestrian only
Alley	Ally	Usually narrow roadway in cities or towns, often through city block or squares.	×	~	
Approach	Арр	Roadway leading to an area of community interest (e.g. public open space, commercial area, beach etc.)	V		
Arcade	Arc	Passage having an arched roof, or any covered passageway, especially one with shops along the sides.	V		~
Avenue	Av	Broad roadway, usually planted on each side with trees.	√		
Boardwalk	Bwlk	Promenade or path, especially of wooden planks, for pedestrians and sometimes vehicles, along or overlooking a beach or waterfront.			~
Boulevard	Bvd	Wide roadway, well paved, usually ornamented with trees and grass plots.	×		
Break	Brk	Vehicular access on a formed or unformed surface, which was originally prepared as a firebreak.	V		
Bypass	Вура	Alternative roadway constructed to enable through traffic to avoid congested areas or other obstructions to movement.	√		
Chase	Ch	Roadway leading down to a valley	✓	~	
Circuit	Cct	Roadway enclosing an area.	✓		
Close	CI	Short, enclosed roadway.		×	
Concourse	Con	Roadway that runs around a central area (e.g. public open space or commercial area).	×		
Court	Ct	Short, enclosed roadway.		~	
Crescent	Cr	Crescent-shaped thoroughfare, especially where both ends join the same thoroughfare.	V		
Crest	Crst	Roadway running along the top or summit of a hill.	~	~	
Drive	Dr	Wide thoroughfare allowing a steady flow of traffic without many cross-streets.	~		
Entrance	Ent	Roadway connecting other roads.	~		
Esplanade	Esp	Level roadway, often along the seaside, lake or a river.	×		

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Firetrail	Ftrl	Vehicular access on a formed or unformed surface, which was originally prepared as a firebreak.	~		
Freeway	Fwy	Express, multi-lane highway, with limited or controlled access.	✓		
Glade	Glde	Roadway usually in a valley of trees.	~	~	
Grange	Gra	Roadway leading to a country estate, or focal point, public open space, shopping area etc.	~		
Grove	Gr	Roadway that features a group of trees standing together.	✓	Ý	
Highway	Hwy	Main road or thoroughfare, a main route.	~		
Lane	Lane	Narrow way between walls, buildings or a narrow country or city roadway.	~	~	
Loop	Loop	Roadway that diverges from and re-joins the main thoroughfare.	~		
Mall	Mall	Sheltered walk, promenade or shopping precinct.			~
Mews	Mews	Roadway in a group of houses.		√	
Parade	Pde	Public promenade or roadway that has good pedestrian facilities along the side.	~		
Parkway	Pwy	Roadway through parklands or an open grassland area.	×		
Passage	Psge	Narrow street for pedestrians.			√
Path	Path	Roadway used only for pedestrian traffic.			√
Place	PI	Short, sometimes narrow, enclosed roadway.		Ý	
Plaza	Plza	Roadway enclosing the four sides of an area forming a market place or open space.		V	
Promenade	Prom	Roadway like an avenue with plenty of facilities for the public to take a leisurely walk, a public place for walking.	✓		
Quays	Qys	Roadway leading to a landing place alongside or projecting into water.	√		
Ramp	Ramp	Access road to and from highways and freeways.	~		
Retreat	Rtt	Roadway forming a place of seclusion.		√	
Ridge	Rdge	Roadway along the top of a hill.	~		
Rise	Rise	Roadway going to a higher place or position.	~	~	
Road	Rd	Open way or public passage primarily for vehicles.	✓		
Square	Sq	Roadway bounding the four sides of an area to be used as an open space or a	~	~	

		group of buildings.			
Steps	Stps	Route consisting mainly of steps.			~
Street	St	Public roadway in a town, city or urban area, especially a paved thoroughfare with footpaths and buildings along one or both sides.	V		
Subway	Sbwy	Underground passage or tunnel that pedestrians use for crossing under a road, railway, river etc.			4
Terrace	Тсе	Roadway usually with houses on either side raised above the road level.	\checkmark	V	
Track	Trk	Roadway with a single carriageway. A roadway through a natural bushland region. The interpretation for both Track and Trail is limited to roadways, whereas in many areas (e.g. Tasmania) these are often associated with walking rather than vehicular movement.	V		
Trail	Trl	See 'Track'.	×		
View	View	Roadway commanding a wide panoramic view across surrounding areas.	√	~	
Vista	Vsta	Roadway with a view or outlook.	×	~	
Walk	Walk	Thoroughfare with restricted access used mainly by pedestrians.			~
Way	Way	Roadway affording passage from one place to another. Usually not as straight as an avenue or street.	√		
Wharf	Whrf	A roadway on a wharf or pier.	~	√	~

Appendix 3A: Topographic feature classes suitable for use in Western Australia

The following table is a list of feature classes suitable for use within Western Australia for topographic feature naming.

Feature Class Abbreviation	Feature Class	Description
AOS	Aboriginal Outstation	ABORIGINAL OUTSTATION = A station in a remote or sparsely populated location OR camps or settlements established by Aboriginal people on their ancestral lands, away from the government town or missions or;
		an area of land on which a small community of Aboriginal people lives away from larger settlements
AF	Airfield	AERODROME = A landing area that is smaller than an airport, or Any licensed airfield or government airfield maintained by the Federal Airports Corporation, other than those designated airports.
		AIRFIELD = A level tract of land, maybe equipped with hard surfaced runways and buildings etc. for the operation and maintenance of mainly light aircraft.
		AIRPORT = A facility, either on land or water, where aircraft can take off and land; usually consists of hard-surfaced landing strips, a control tower, hangars, and accommodations for passengers and cargo.
		AIRSTRIP = A facility that consists only of a runway with perhaps fuelling equipment. They are generally in remote locations, or A level tract of land, usually without a hard-surfaced runway or maintenance facilities, but otherwise suitable for landing and take-off by light aircraft.
		LANDING GROUND = An area of flat land used by aeroplanes for landing and take-off and having only rudimentary facilities, or none at all, or A level tract of land, usually without a hard-surfaced runway or maintenance facilities, but otherwise suitable for landing and take-off by light aircraft.
		WATER AERODROME = Any area of water that is used for aircraft arrival or departure, or A body of water designated for the operations of seaplanes and with facilities licensed for such craft to use.
ANCH	Anchorage	ANCHORAGE = A sheltered place near a coast with sufficient depth of water and a sea bottom below that will hold an anchor securely, so that a ship may lie still in that location for an extended period of time or;
		an area for ships to anchor, sufficiently sheltered by reefs, sandbanks or islands to give protection from seas.
		ROAD[S] = A partly sheltered anchorage or;
		an area for ships to anchor, sufficiently shellered by reefs, sandbanks or islands to give protection from seas.
		ROADSTEAD = An area near the shore, where vessels can anchor in safety; usually a shallow indentation in the coast or;
		an area for ships to anchor, sufficiently sheltered by reefs, sandbanks or islands to give protection from seas.
ARCH	Archipelago	ARCHIPELAGO = An archipelago is a landform which consists of a chain or cluster of islands. Archipelagos usually occur in the open sea; less commonly a large land mass may neighbour them.
		Archipelagos are often volcanic, forming along ocean ridges or hotspots, but there are many other processes involved in their construction, including erosion and deposition.
BANK	Bank	BANK = A portion of the sea bed raised above its surroundings, but covered with enough water to permit navigation or;
		the sloping ground along the edge of a river, stream or lake or;
		a broad elevation in the continental shelf lying some distance off the coast, over which the water is relatively shallow.
		BAR = A ridge or succession of ridges of sand (or other substances) extending across the mouth of a river or harbour and which may obstruct navigation.
		SANDBANK = An undersea bank of sand, which may be exposed at low tide.
		SANDBAR = A bar of sand formed in a sea or river by the action of the tides or

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

		currents or:
		an undersea ridge of sand, built up by the action of tides, currents, etc., and possibly exposed at low tide.
BAY	Вау	BAY1 = An open, curving indentation made by the sea or a lake into a coastline or
		a wide indentation in the coastline generally smaller than a gulf and larger than a cove or;
		a well-marked indentation made by the sea into a coastline, larger than a cove whose penetration is in such proportion to the width of its mouth as to partly surround its waters, and which thus constitutes more than a mere curvature of the coast.
		BAY2 = A well-marked indentation made by a lake into its shoreline, larger that a cove, whose penetration is in such proportion to the width of its mouth as to partly surround its waters, and which thus constitutes more than a mere curvature of the shore.
		FJORD= Long narrow arm of the sea between high cliffs, but the term bay has also been applied to such a feature
BCH	Beach	The sloping shore along a body of water that is periodically washed by waves or tides and is usually covered with sand or gravel or,
		The sloping shore of a lake usually covered with sand or gravel.
NAVB	Beacon,Light,Buoy	BEACON = A prominent specially constructed object forming a conspicuous mark as a fixed aid to navigation or;
		a navigational signal light on a tower or hill.
		BUOY = A floating object moored to the seafloor, as an aid to navigation or for other specific purposes or;
		a distinctively shaped and coloured float, anchored to the bottom, for designating moorings, navigable channels, or obstructions in a body of water.
		'BEACON = A prominent specially constructed object forming a conspicuous mark as a fixed aid to navigation or;
		a navigational signal light on a tower or hill.
		LIGHT = A lighted aid to navigation, i.e. a lighted buoy or;
		an aid to navigation, such as a buoy or minor structure, incorporating an illuminating source.'
BEND	Bend,Loop,Elbow,Mndr	BEND = A curve in the course of a stream and (or) the land within the curve; a curve in a linear body of water.
		ELBOW = A sudden turn in a channel, river, or shoreline OR a curve in the course of a stream.
		MEANDER = A curve in the course of a river which continually swings from side to side in wide loops, as it progresses across flat country or;
		a curve in the course of a stream, which because of the flat terrain, continually swings in wide loops as it progresses.
		RIVER BEND = A curved segment of a river or;
		a curve in the course of a stream.
BGHT	Bight	BIGHT = An indentation in the sea coast similar to a bay, but either larger or with a greater curvature or;
		a crescent-shaped indentation in the coastline usually of large extent and not more than a 90 degree sector of a circle.
BLHL	Blowhole	BLOWHOLE = A hole near the sea-shore which has been formed in the roof of a cave, and through which air and possibly water are forced by the rising tide or;
		a vent in a cliff connecting with a cave below through which spray is forced.
BORE	Bore	ARTESIAN BORE = A type of bore in which the water is forced to the surface by hydrostatic pressure or,
		a hole bored vertically into strata, producing a constant supply of water at the surface without pumping.
		BORE = A deep vertical hole of a small diameter made to obtain water; or to ascertain the nature of the underlying strata.
BRKY	Breakaway	Steep cliffs connecting the old and new plateaux formed by the collapse of the

		edges of a tabletop, mesa or similar.
BRKW	Breakwater	BREAKWATER - A natural or artificial structure along a coast capable of checking the force of the waves, thereby reducing beach erosion or sheltering vessels from rough seas or;
		a barrier built to protect a coastal beach from the force of the waves, or to provide additional protection for vessels in a harbour.
		GROYNE = A low artificial wall-like structure constructed of timber, stone, concrete or steel, usually extending roughly perpendicular to the shoreline and designed to protect the shore from erosion or to trap sand or;
		a low wall or other barrier built out from a beach to prevent erosion or drifting o sand.
		MOLE = A massive structure of masonry or large rocks, built to protect a coastal beach from the force of the waves, or to provide additional protection for vessels in a harbour.
		TRAINING WALL = A barrier built to protect a coastal beach from the force of the waves, or to provide additional protection for vessels in a harbour.
BRDG	Bridge	BRIDGE = A structure that spans and provides a passage over a road, railway river or some other obstacle or;
		a natural bridge, a bridge or arch of natural rock.
		CULVERT = A waterway, usually in the form of an arch or barrel of masonry, brickwork or concrete, beneath a road or channel
		or; a tunnel-drain for water crossing underneath a road, canal or similar feature
		CUTTING = An open excavation through high ground to enable road, rail or canal to pass with minimal gradient.
		FERRY = A vessel for transporting passengers and or vehicles across a body of water.
		RAILWAY CUTTING = An excavation in a piece of high land for a railway.
CP	Camp	CAMP = A group of tents or other temporary shelters in one place or;
		a place where tourists and holidaymakers can stay, in tents, cabins or vans.
		CAMPSITE = An area where a camp has been established or where it would be suitable to establish one; and area, often provided with amenities, where it is permitted to set up a camp.
		CAMPING GROUND = An area where a camp has been established or where it would be suitable to establish one; and area, often provided with amenities, where it is permitted to set up a camp.
		PICNIC AREA = A recreation site providing such facilities for outdoor meals as tables, benches, fireplaces, and sanitation for daytime use only.
CNAL	Canal	AQUEDUCT = A conduit or artificial channel for conducting water from place to place.
		CANAL = A large artificial channel used by vessels as a route over land or;
		a large artificial watercourse used for irrigation purposes.
		WATERWAY = A river, channel or other water feature which can be used for communication or transport.
CAPE	Cape	CAPE = A piece of land projecting into a body of water or;
		an elevated protrusion of land into the sea.
		NESS = A promontory or headland or an elevated protrusion of land into the sea.
CWAY	Causeway	CAUSEWAY = A raised way across a low or wet ground or water or;
		a raised roadway of solid structure built across low or wet ground or across a stretch of water.
CAVE	Cave	CAVE = A hollowed-out chamber in the earth, or in the side of a cliff or hill; especially a larger natural cavity in the earth with an opening to the surface or;
		a hollowed-out natural cavity in the earth with an opening to the surface.
		CAVERN = A term generally regarded as synonymous with CAVE, though sometimes implying one of the large dimensions or;

		GROTTO = A large cave produced in a limestone region; the term is sometimes loosely applied to other types of cave or;
		a small picturesque cave.
CEM	Cemetery	CEMETERY = A place (usually an enclosed area of land) in which dead bodie are buried. The term cemetery implies that the land is specifically designated as a burying ground or;
		a large burial ground.
		GRAVEYARD = A small burial ground, especially one in a churchyard.
CHAN	Channel	CHANNEL = A deeper or sufficiently deep waterway, natural or dredged, through a river, harbour, passage, strait or;
		a navigable route through shoals, which affords the best and safest passage for vessels or boats or;
		a comparatively deep and narrow marine route affording a passage for vessels through shallower waters.
		CUTTING (Waterway) = A navigable route through shoals, which affords a saf passage for vessels or boats.
		GUT = A narrow passage such as a strait or inlet in a bank or shoal, sometime forming a channel through it.
		GUTTER = A narrow passage such as a strait or inlet in a bank or shoal, sometimes forming a channel through it.
		LEAD = A narrow channel, especially through drift ice, or in rock or coral studded waters.
		PASSAGE = A narrow navigable channel, especially one through reefs or islands or;
		a comparatively deep and narrow route affording a passage for a vessel between two landmasses.
		RACE = A man made watercourse where the water velocity is significantly higher than in an earthen channel.
CLAY	Claypan	CLAY FLAT = A wide area of hardened impervious clay which retains water by resists the growth of vegetation.
		CLAYHOLE = A depression in the ground of hardened impervious clay which retains water.
		CLAYPAN = A shallow depression, generally circular in outline, varying in diameter from a few to several hundred metres. Floored with clay, bare of vegetation and holding water for a time after rain or;
		a depression in the ground of hardened impervious clay which retains water.
CLIF	Cliff	CLIFF = A perpendicular or steep face of rock of considerable height either inland or along the coast.
		BLUFF = A headland or cliff with a bold and almost perpendicular face or;
		a high steep bank or cliff, especially one with a broad face.
		BUTTRESS = A rugged, protruding rocky ridge or face on a mountainside or;
		a very steep spur projecting from a hill, mountain, plateau, range etc., having the appearance of supporting it.
		ESCARPMENT = The steep slope terminating into a plateau or any level or upland surface or;
		a continuous line of cliffs or steep slopes, formed by faulting or erosion.
		PRECIPICE = A vertical or steep face of rock, cliff, mountain, etc. (usually at least one hundred metres high) or;
		a cliff with a vertical, or nearly vertical, or overhanging face.
		ROCK FACE = A perpendicular or steep face of rock or;
		an area of exposed rock, generally in a vertical position on an elevated relief feature.
		SCARP = The steep slope terminating into a plateau or any level or upland surface.
		STEEPS = A steep place (as on a hill) or the very steep and deep sides of a mountain or high plateau.
		WALL = A perpendicular or steep face of rock considerable in height, either

		inland or along the coast.
COST	Coast,Shore,Shoreline	COAST = The part of the land adjoining or near the ocean or;
		applied to that part of an island or continent that borders and ocean or its saltwater tributaries
		COASTLINE = A line on a map indicating the disposition of a coast but the term is often used to refer to the coast itself.
		SHORE - The narrow strip of land in immediate contact with any body of water, including the area between high and low water lines.
		SHORELINE = Where the shore and water meet. Shoreline and coastline are generally used as synonymous or;
		the edge of a body of water.
COVE	Cove	ARM = An arm of the sea or a lake extending into the land or;
		a comparatively long, narrow and natural body of water extending from a sea o harbour into the neighbouring landscape or;
		a comparatively long, narrow and natural body of water extending from a lake into the neighbouring landscape.
		COVE = A sheltered recess in a coast; a small bay, a creek or inlet where boats may shelter or;
		an indention made by the sea in the coastline, smaller than a bay, but with sufficient curvature to provide shelter or;
		an indention made by the waters of a lake in its shoreline, smaller than a bay, but with sufficient curvature to provide shelter.
CRTR	Crater	The funnel-shaped hollow at the top of the cone of a volcano or;
		a cup-shaped depression in a hill or mountain, produced by volcanic eruption or;
		the hollow caused by the fall of a meteorite on to the earth's surface or;
		a bowl-shaped depression formed by the impact of a meteorite.
DAM	Dam	BARRAGE = A large structure across a river or estuary to constrain the limit of tidal influence, and thus the ingress of sea water or;
		a structure built to store water, generally for irrigation.
		CATCHMENT = A drainage basin or watershed, the region of land whose wate drains past a specific point along a river or into a specified body of water. The determination of the catmint area is important in the field of water supply and hydrology or the geographical area draining into a river or reservoir or;
		a large depression from which the rainwater that falls on it, apart from that removed by evaporation, is drained into a river or stream, which then carries the water into the sea or a lake; its boundary is defined by the ridge (or watershed) beyond which water flows in the opposite direction.
		DAM = A large manmade structure of earth, masonry, etc. built across a stream to impound water for any purposes or;
		a wall or barrier constructed of earth, masonry etc., to impound water or;
		an earthen structure in generally undrained areas, built to contain water for stock purposes.
		LEVEE = A broad low rise of alluvium which is formed in time of flood on the side of a river or stream or;
		an embankment built to confine a river within its bed or;
		an embankment built to confine a stream to its bed.
		WEIR = A dam across a stream over which the water is allowed to flow, although it raises the water-level. It is also used to measure the flow and control the depth of the water impounded or;
		a barrier erected across a stream to impound and raise the water level for the purpose of maintaining it at the level required for irrigation or navigation purposes.
DEPR	Depression	ARTESIAN BASIN = A basin-shaped, permeable layer of rock such as chalk, this is sandwiched between two.
		BASIN = A depression or hollow in the earth's surface, wholly or partly surrounded by higher land, particularly one which is drained by a river and its tributaries or;
		the tract of country drained by a river and its tributaries, or which drains into a

		particular lake or sea.
		DEPRESSION = A hollow or relatively sunken are, on land or in the sea.
		DOLINE = A small to medium sized closed depression, a few metres to a few hundred metres in diameter and depth. Formed by slow, concentrated solutional removal of rock in an area, from the surface downwards, or by the collapse of overlying rock into a cave or chamber beneath.
		DONGA = A shallow circular depression in the surface of a limestone plain.
		WATERSHED = The elevated boundary line separating the headstreams which are tributary to different river systems or basins.
DSRT	Desert	An almost barren tract of land in which the precipitation is barely sufficient or adequate that it will only support limited vegetation and is subject to extreme temperatures.
DOCK	Dock	ANCHORAGE = An area in port set aside for vessels to anchor.
		BASIN = An artificial basin which ships are built or repaired, also termed dry dock or;
		an artificial basin in which ships are maneuvered prior to being received for loading and unloading or;
		an artificial hollow place containing water, in which ships are docked.
		DOCK = An artificially enclosed body of water in which ships may be built, loaded or repaired.
		DRY DOCK = An artificial basin fitted with a gate, into which vessels can be floated and water pumped out to facilitate repairs on the vessel.
		WET DOCK = A dock in which the water can be maintained at the set level by opening or closing a gate.
DRN	Drain	BORE DRAIN = A man made drain to remove excess water from a free flowing bore or;
		a drain carrying water from an artesian bore to wherever it may be needed for sheep, cattle, irrigation, etc.
		CHANNEL = An artificial watercourse used for drainage or irrigation purposes.
		DRAIN = An artificially constructed watercourse designed for the purpose of removing surplus water from the land surface or,
		a channel constructed so that water is drained or gradually carried away.
DUNE	Dune	DUNE[S] = A mound, ridge or hill of drifted sand either in a desert, or along a sea coast. Formed by the action of wind or;
		a mound, ridge or hill of drifted sand, formed by the action of the wind.
		SANDRIDGE = A ridge of sand deposits or a mound, ridge or hill of drifted sand, formed by the action of the wind.
ENTR	Entrance	The seaward end of a channel, harbour, dock, etc. or;
		a passageway into enclosed waters or;
		an opening or passage into a harbour or lake.
ESTY	Estuary	ESTUARY = The mouth of a river where tidal effects are evident and where sal and fresh water occurs or;
		the widening out of the lower portion of a tidal river.
		RIVER MOUTH = The exit or point of discharge of a river into the sea, a lake, or another river or;
		the area at which a river makes contact with the sea.
FARM	Farm	FARM = A tract of land devoted for agricultural or horticultural purposes.
		FARM (Specialised) = An agricultural research station.
		RESEARCH ESTABLISHMENT = Land and associated facilities, devoted for agricultural or horticultural research purposes OR an agricultural research station.
		SPECIAL PURPOSE FARM = A tract of land, designated for special agricultural or horticultural purposes.
		SEWERAGE FARM = A farm equipped with apparatus for the disposal of sewerage and its utilisation as manure.
		TREE FARM = A farm for the propagation of trees.

FENC	Fence	A manmade barrier of relatively light structure used as an enclosure or boundary or,
		a freestanding structure designed to restrict or prevent movement across a boundary. It is generally distinguished from a wall by the lightness of its construction: a wall is usually restricted to such barriers made from solid brick or concrete, blocking vision as well as passage (though the definitions overlap somewhat) or;
		a structure that serves to enclose an area usually a garden or a field.
FORD	Ford	CROSSING = The shallower part of a river or other body of water where it is crossed or;
		a shallow part of a stream, approached by a roadway, where it may be crossed.
		FORD = The shallow part of a river or other body of water which may be crossed by wading or by vehicle or;
		a shallow part of a stream, approached by a roadway, where it may be crossed.
		RIVER CROSSING = A shallow part of a river, approached by a roadway, where it may be crossed.
FRST	Forest	BRUSH = A dense growth of bushes.
		BRUSHWOOD = The small growing trees or shrubs of a wood; a thicket of small trees or underwood.
		BUSH = A large wilderness area or;
		a tract of country, not large in extent, which is uncultivated and which bears a dense growth of low-growing bushes or shrubs.
		COPSE = A small wood or group of trees.
		FOREST = A bounded area of land covered mainly with trees; an area of land proclaimed to be a forest reserve under a Forest Act or Ordinance or;
		uncultivated tree-covered land of considerable extent.
		GLADE = An open space or passage in a wood or forest, either natural or produced by the felling of trees.
		GROVE = A small shady wood; a cluster of trees set about a small open space or a small wood or group of trees.
		HEDGE = A fence formed by a row of closely planted shrubs or bushes.
		RAINFOREST = Tropical rain forest, a dense mixed forest characterised by a thick canopy of branches and leaves, generally in excess of 25m above ground level, and in a virgin state providing more than 85% ground cover, annual rainfall exceeds 1000mm and dense undergrowth are usually present or;
		dense evergreen forest found in tropical and temperate areas with heavy and constant rainfall.
		SCRUB = A tract of bushland, undergrowth, or stunted trees or;
		a tract of country, not large in extent, which is uncultivated and which bears a dense growth of low-growing bushes or shrubs.
		THICKET = A small wood or group of closely set trees, especially one with dense undergrowth or;
		a tract of country, not large in extent, which is uncultivated and which bears a dense growth of low-growing bushes or shrubs.
		WOOD[S] = A large and thick collection of growing trees, usually less extensive than a forest or;
		a tract of country, not large in extent, which is uncultivated and covered with trees.
GAP	Gap	A low point or opening between hills or mountains or in a ridge or mountain range or;
		a deep sloping ravine or cleft cutting a mountain ridge.
GRDN	Garden	GARDEN = A tract of land devoted to the growing of flowers, fruit, or vegetables or;
		an area of land used for the cultivation of ornamental plants, herbs, fruit, vegetables etc.
		NURSERY = A plot of ground in which young plants are reared for transplantation, especially trees, etc. for sale.

		VINEYARD = A plantation of grapevines. For producing grapes for wine- making, etc. or;
		agricultural holdings where grapes are grown on the vine.
GPL	Gas Pipeline	A tube of wood, metal, concrete, etc., especially for the conveyance of water, natural gas, petroleum, etc. or;
		a long pipe used to transport natural gas.
GOLF	Golf Course	'GOLF CLUB = A cub with grounds for members to play golf on, often combined with various social amenities.
		GOLF COURSE = An area of ground laid out for the playing of golf.
		GOLF DRIVING RANGE = An area (usually fenced) for the practice of driving (hitting) golf balls.'
GORG	Gorge,Ravine,Chasm	CANYON = A deep valley, relatively narrow but of considerable size, bounded by steep slopes, and formed by a river or;
		a deep valley with steep sides, often with a stream flowing through it. Usually called a gorge in Australia.
		CHASM = A particularly narrow portion of a canyon, gorge or ravine where the width is notably exceeded by the depth and the sides are vertical or nearly so.
		CIRQUE = A deep rounded hollow or amphitheatre on a mountain side formed by glacial action.
		GLEN = A narrow wooded valley with generally steep sides, usually having a river or stream at the bottom (term not in general use in Australia) or;
		a narrow wooded valley with steep sides, often with a stream feature flowing through it.
		GORGE = A valley which is more than usually deep and narrow, with steep walls. This term is preferred to canyon and glen in Australia or;
		a deep valley, relatively narrow but of considerable size, bounded by steep slopes, and formed by a river.
GULF	Gulf	Part of the sea, extending into the land, usually larger than a bay or;
		an area of sea partly enclosed by land, taking the form of a long narrow stretch of water larger than a loop.
GLLY	Gully	A small valley or gorge eroded by running water, but through which water commonly runs only after rain.
HBR	Harbour	HARBOUR = A natural or artificially improved body of water providing protection for vessels, and generally anchorage and docking facilities or;
		a large, naturally enclosed and sheltered area of water where vessels can anchor or berth.
		HAVEN = A small enclosed and protected harbour or a small, naturally enclosed and sheltered area of water where vessels can anchor or berth.
		MARINA = A protected area provided with berthing and shore facilities (including toilets, water and rubbish disposal) particularly for yachts and other pleasure craft or;
		a docking facility for yachts and other pleasure boats.
HLPT	Helipad, Heliport	HELIPAD = A place for helicopter to land and take off, or a landing place for helicopters.
		HELIPORT = A place for helicopter to land and take off. An airport specifically designed for helicopters
HILL	Hill	BUTTE = A flat topped hill, similar to, but small than a mesa or an isolated hill with steep sides and a small flat top, formed by weathering or a small residual of a mesa, the level top being the upper surface of the hard stratum but little lowered by erosion; the slopes on all sides are escarpments and its maximum horizontal dimension in any one direction is about 400 metres.
		CONE = A hill shaped such that it has a circular base and tapers to a point at the top.
		HILL = A small portion of the earth's surface elevated above its surroundings. In general, an eminence is not considered a mountain unless its elevation from foot to summit is over 300m, but this distinction is arbitrary or a conspicuous natural elevation of the earth's surface, rising to a peak less than 300m above its surrounding terrain.
		HILLOCK = A small hill or mound.

		KATTA = An Aboriginal term for a hill in South Western Australia.
		KNOB = A prominent rounded or hill.
		KNOLL = A small hill or eminence of more or less rounded form, and its altitud should not exceed 30m above the surrounding country or a rounded hill, smaller than a knob, rising to less than 30m above the surrounding terrain.
		KOPJE = An isolated hill, often formed by the denudation of the land around i a South African term for a small isolated hill, presenting as a residual rock mass after desert denudation.
		MESA = A flat table-like upland, which falls away steeply on all sides as escarpments; it is larger in area than a butte but smaller than a plateau.
		PYRAMID = A high mountain peak formed by three or more adjacent steep- sided glacial basins.
		SANDHILL = A hill of sand deposits with a minimum height of less than one meter and a maximum height of about 50 meters. Found in hot deserts and along sandy coastlines or a mound, ridge or hill of drifted sand, formed by the action of the wind.
		SUGARLOAF = A hill or mountain, conical or cone shape, thus resembling a sugarloaf, i.e. a solid cone of refined sugar, the form in which it was previously distributed or a hill shaped such that it has a circular base and tapers to a poin at the top.
		TOWER = Anything tall and thin approximating the shape of a column or towe or a prominent hill which is perceived as approximately cylindrical in its elevation.
HLS	Hills	DIVIDE = A ridge of land between two drainage basins or;
		the topographic ridge that separates drainage basins or;
		a line of hills or mountains which acts as a watershed.
		HILLS = A range of hill on the earth's surface elevated above its surroundings or;
		a range of naturally elevated landforms, with a general elevation of less than 300m above their surrounds.
		SANDHILLS = A ridge of sand deposits with a minimum height of less than or meter and a maximum height of about 50 meters. Found in hot deserts and along sandy coastlines or;
		a mound, ridge or hill of drifted sand, formed by the action of the wind.
SLP	Hillside (Slope)	GRADIENT = Commonly used to describe the measure of a slope (also called steepness, fall or incline) of a straight line or a significant inclination of the surface of the ground on the side or end of an elevated relief feature.
		HILLSIDE = The slope or declivity of a hill. An inclination, slope or gradual descent of the surface of the ground; an inclination downwards or the side or slope of a hill.
		JUMPUP = A point on a cliff face where a road or track rises abruptly from on level to another or,
		a sudden steep rise or escarpment, especially presenting as an elevated, ste like obstacle on an ascending road or track.
		SCREE = Scree or detritic cone is a term given to broken rock that appears at the bottom of crags, mountain cliffs or valley shoulders. The maximum inclination of such deposits corresponds to the friction angle of the mean debr size or;
		a sloping mass of loose rocks at the base of a cliff or;
		a slope or base of a cliff consisting of broken rock fragments.
		SLOPE = A gradient on the side or end of an elevated relief feature or;
		a significant inclination of the surface of the ground on the side or end of an elevated relief feature.
		TERRACE2 = A nearby level strip of land extending along the edge of a sea, river or lake, or on the sides of a hill or valley. It is bounded above and below by rather abrupt slopes or;
		a series of level narrow strips of land, or one such strip, lying between a slope upwards to hills on one side and a slope, often abrupt, downwards on the other.
HMSD	Homestead	HOMESTEAD = A main residence on a horticultural or agricultural farm or a house with outbuildings, on a farm or station.

		OUTCAMP = An area of land on which a small community of Aboriginal people lives away from larger settlements.
		OUTSTATION = An area of land on which a small community of Aboriginal people lives away from larger settlements.
		RUN = A term for a property on which livestock are husbanded.
INLT	Inlet	A basin at the lower reaches of a river, connected to the sea by a narrow opening and subject to tidal movements or;
		a narrow opening by which the water penetrates into the land or;
		a narrow stretch of water reaching inland from a sea or;
		a narrow stretch of water reaching inland from a lake or other body of water.
		LOOP = A long narrow stretch of water protruding into the land, often rounded or loop shaped at its extremity or;
		an incursion into the coastline, smaller than a gulf, and taking the form of a long narrow stretch of water, rounded or loop-shaped at its extremity.
INTL	Intermittent Lake	INTERMITTENT LAKE = A water body which shrinks and may become dry for long periods until replenished by rainfall.
		SALT PAN = A small non-vegetated hollow, formerly containing water, in which a deposit of salt is left behind owing to evaporation of the water.
IS	Island	ATOLL = A coral island consisting of a ring or horseshoe shaped reef, nearly o entirely surrounding a central lagoon.
		CAY = A low flat island of sand, mud, coral, etc., awash or drying at low tide or
		a small sand or coral-fragment island with scant vegetation, formed by transier wind and sea action.
		CLUMPS = Mangrove islands. A cluster of small islands or a group of small islands, clustered closely together.
		CORAL ISLAND = An island principally or entirely formed of coral.
		EYOT = A small island in a river.
		ISLAND = A piece of land surrounded by water, in an ocean, sea, lake or river or;
		an area of land completely surrounded by the sea, and not large enough to be called a continent or;
		an area of land completely surrounded by the waters of a lake or other inland body of water.
		ISLE = A small island or an area of land completely surrounded by the sea, and not large enough to be called a continent or;
		an area of land completely surrounded by the waters of a lake or other inland body of water.
		ISLET = A small island, diminutive of isle or;
		an area of land surrounded by the sea, smaller than an island but larger than a cay or;
		a small island in a lake or other inland body of water.
ISGP	Island Group	A group or cluster of islands or;
		a group or chain of islands in the sea.
ISTH	Isthmus	ISTHMUS = A narrow strip of land bordered on both sides by water that connects two larger bodies of land.
		NECK = A narrow piece of land with water on each side or;
		a narrow strip of land bordered on both sides by water that connects two larger bodies of land.
LAGN	Lagoon	LAGOON = A relatively small enclosed area of water separated from the open sea by some more or less effective, but not complete, obstacle such as low sandbanks.
		An enclosed area of salt or brackish water separated from the open sea by some more or less effective, but not complete, obstacle such as low sand bank The name most commonly used for the area of water enclosed by a barrier ree or atoll OR a small fresh or saltwater lake.
		LAKE = A relatively large enclosed area of water separated from the open sea by some more or less effective, but not complete, obstacle such as low

		sandbanks.
LAKE	Lake	LAKE = A body of fresh or salt water, natural or artificial, enclosed or nearly enclosed by land. It may or may not have in and out-flowing water or;
		an area of fresh water surrounded by land.
		LOCH = A lake or arm of the sea or;
		an area of fresh water surrounded by land.
		LOUGH = An Irish term for lake or arm of the sea or;
		an area of fresh water surrounded by land.
		MOUNTAIN LAKE[S] = A lake formed in the crater of an extinct volcano.
		TARN = A small mountain lake.
LNDG	Landing (Hydro)	LANDING = A place where boats receive or discharge passengers, freight, etc.
		LANDING PLACE = A place where boats receive or discharge passengers, freight, etc.
LDGE	Ledge	A projecting ridge on a mountain or submerged under water or a narrow shelf- LIKE projection on a cliff, the side of a hill or a mountain.
LH	Lighthouse	A distinctive structure on or off the coast, exhibiting a major light designed to serve as an aid to navigation or;
		a large coastal tower exhibiting a major light source serving as an aid to navigation.
LKOT	Lookout	A man made structure which is used as an observation or viewing point or;
		a level area on a hill or mountain which affords a view of the surrounding terrain or;
		a place on a high vantage point, especially a mountain, from which one can admire the view.
MET	Meteorological Stn.	A facility with instruments and equipment to make weather observations by monitoring atmospheric conditions to study the weather.
MINE	Mine	ADIT = A type of entrance to an underground mining operation in which the entrance shaft is horizontal or nearly horizontal. They are usually built into the side of a hill or mountain. The use of adits is generally called drift mining or a horizontal tunnel into a mine or other underground workings which is used for entry, drainage, transport etc.
		CLAY PIT = An open mine for the extraction of clay which is generally used for manufacturing pottery or bricks or;
		a small but relatively deep depression in the ground of hardened impervious clay which retains water.
		COALFIELD[S] = An area where coal is or was removed from the earth or an area with subterranean supplies of coal, where coal mines are established.
		GASFIELD = An area in which natural gas occurs in quantities worthy of exploration or an area where natural gas occurs and is extracted.
		GOLDFIELD[S] = An area where gold is or was removed from the earth or;
		a region in which gold deposits have been found and where mines have been established.
		$MINE=An\xspace$ extracted or,
		a place or area from which ores, precious stones or minerals are or were extracted from the earth or any place in, on or under which mining operations are carried on for the purpose of removing commercial minerals.
		OILFIELD = An area of land or sea where oil is found and extracted or a region rich IN petroleum deposits, especially one with producing oil wells.
		OPALFIELD = An area where opals are mined.
		PIT = A hole made by digging for minerals or other industrial purposes.
		QUARRY = A place where stone or rock is extracted or;
		an open surface excavation or pit for the extraction of building stone, slate, marble etc.
		SAND PIT = An excavation in the ground for the extraction of sand for industria purposes or;

		a large pit in sandy ground from which sand is dug.
		SHAFT = A vertical hole serving as access to a mine or other underground workings which is used for entry, transport, etc. or a vertical hole serving as access to a mine or other underground workings.
		SLATE QUARRY = An open surface excavation or pit for the extraction of slate.
MC	Mining Centre	A facility built to support a mine or other area from which ores, precious stones or minerals are or were extracted from the earth.
MSSN	Mission	A body of persons sent into a region for the betterment of the inhabitants or;
		a remote locality situated where a missionary practice is, or was founded or;
		an establishment administered by a religious community for the spiritual and social welfare of others.
MONU	Monument	CAIRN = A pyramidal heap of stones to mark a summit, track boundary, historical event, or a memorial to a person.
		COLUMN = A pillar or solid body of wood or stone of considerably greater length than thickness. Used as a solitary monument. or;
		an upright structure shaped like a long cylinder, constructed as a memorial.
		CROSS = A monument in the shape of a cross.
		MARKER = A small structure marking the site of a historical event.
		MONUMENT = Anything by which the memory of persons or things are preserved; anything that serves as a memorial to a person, event or of past times or;
		an obelisk, statue or building erected to commemorate a person or event.
		OBELISK = A stone pillar having a rectangular cross section tapering towards a pyramidal top or;
		a tall, thin, four-sided, tapering monument which ends in a pyramidal top or;
		a tail tapering four-sided shaft of stone, erected to commemorate a person or an event.
		SHRINE = A place of worship hallowed by association with some sacred thing, person, an object or place, with or without buildings, memorialising a person, deity or event or;
		a place or site venerated for its association with a famous person or event.
MT	Mountain (300m+)	A natural elevation of the earth's surface rising more or less abruptly from the surrounding level, and attaining an altitude which, relative to adjacent elevations, is impressive or notable. In general, the height of a mountain is 300m or more from foot to summit, but this distinction is arbitrary or a natural elevation of the earth's surface rising more or less abruptly at least 300m from the surrounding level.
OPN	Ocean Place Name	A place situated on or within the ocean.
OIL	Oil Well	A well that yields or has yielded oil or any perforation through the Earth's surface designed to find and release both petroleum oil and gas hydrocarbons.
OS	Outstation	OUTCAMP = A camp in a remote or sparsely populated location
		OUTSTATION = A station in a remote or sparsely populated location.
PARK	Park	CARAVAN PARK = A bounded area in which caravans are, or can be, parked, or where caravan type accommodation can be obtained. Domestic facilities may be provided.
		OVAL = A flat area, oval shaped, on which sporting activities can take place OR a level area of ground usually enclosed in a circular or ellipsoid shape and designated for sporting activities.
		PARK = An area of land, usually within a town, often with recreational and other facilities, which is set aside for public use OR an area of land, either in its natural state or improved, set aside for recreational use by the public.
		PICNIC AREA = A tract of land reserved for day picnic purposes, with constructed fire-places and other facilities OR a tract of ground maintained with amenities suitable for people to bring food for outdoor eating.
		SPORTS FIELD = A reserve used for sporting fixtures.
		SPORTSGROUND = A reserve used for sporting fixtures.
PASS	Pass	COL = A depression in a range of mountains or hills, usually providing a pass

		through the range or;
		a low point on a ridge between two higher-standing parts of a mountain range
		OPENING = A narrow route across a relatively low notch or depression in a mountain barrier.
		PASS = A break or gap in a mountain range permitting easier passage from one side to the other, also called a col.
		PASSAGE = A narrow route across a relatively low notch or depression in a mountain barrier.
		SADDLE = A depressed part of a ridge between two summits or;
		a low point on a ridge between two higher-standing parts of a mountain range
PSTL	Pastoral Lease	A particular type of leasehold that allows Crown Land to be used for grazing o stock.
PEAK	Peak	HILLTOP = The top or summit of a hill.
		MOUNTAIN PEAK = The top or obvious summit of a mountain.
		PEAK = The top or obvious culmination of a mountain or;
		The separately named summit on a hill or mountain range or;
		a prominent point in a plateau or a range of hills or;
		a mountain with a pointed summit.
		POINT = A bluff or natural overlook or;
		the top or obvious summit of a mountain.
		SUMMIT = A point higher than all the ground immediately surrounding it or;
		the top or obvious culmination of a mountain.
PEN	Peninsula	PENINSULA = A piece of land almost surrounded by water, especially one connected with the mainland by only a narrow neck or isthmus or;
		a land feature which projects into the sea, and which is connected to the mainland by a narrow isthmus.
		PRONG = A pointed elongated arm of land protruding into the sea.
PIER	Pier,Wharf,Jetty	JETTY = A structure of stone, or timber projecting into water and serving as a pier or wharf.
		PIER = A long narrow structure extending into the water to afford a berthing place for vessels; to serve as a pleasure promenade or;
		a structure built out in to the water to serve as a landing place for ships.
		QUAY = A wharf approximately parallel to the shoreline and accommodating ships on one side only, the other side being to the shore. It is usually of solid construction or;
		an artificial landing place, built of masonry etc., for vessels to receive or discharge passengers or freight.
		RAMP = An inclined surface connecting two levels or;
		a slope, usually paved, set aside for the launching of small water craft.
PLNA	Place Name	JUNCTION = A place where rivers, roads or railways meet.
		NEIGHBOURHOOD = A surrounding or nearby region. A small local district in an urban or suburban area.
		PLACE NAME = A place at which there is or was relatively minor human occupation or activity.
		POCKET = A small isolated group of people or a small local district in an urba or suburban area.
		ROAD BEND = A curved segment of a road or an unbounded locality centred on a bend in a road.
		ROAD CORNER = Intersection of two roads or an unbounded locality centred on a place where two roads meet.
		RURAL PLACE = A rural area of significance or a place, site or precinct in a rural landscape, generally of small extent, the name of which is in current use
		URBAN PLACE = An urban area of significance or a place, site or precinct in an urban landscape, the name of which is in current use, but the limits of which have not been defined under the address locality program.

PLN	Plain	BOTTOM = Low-lying alluvial land adjacent to a river.
		CLEARING = A piece of land cleared for cultivation, especially the primeval forest or;
		an area of ground within a forest area, where a degree of cultivation has resulted in less than 15% of the ground being covered by trees or scrub.
		DOWNS = Open rolling grassland, usually in the high country with fairly smooth slopes.
		FLAT[S] = A relatively level piece of ground, smaller in extent than a plain, within an area of greater relief.
		GRASSLAND = A generally open and continuous, fairly flat area of grass. Often located between temperate forests at high latitudes and deserts at subtropical latitudes or;
		land where grass or grass-like vegetation grows and is the dominant form of plant life or;
		an area in which the natural vegetation consists primarily of perennial grasses.
		PLAIN = A tract of land, the general surface of which is a comparatively flat or slightly undulating, and sparsely if at all timbered or;
		RIVER FLAT = A relatively LEVEL tract OF country WITHOUT hills AND smaller THAN a plain, caused BY THE laying down OF sediment BY a river.
		TIDAL FLAT = A large area OF nearly LEVEL land, usually OF mud, covered AT high water AND attached TO THE shore.
		UNCULTIVATED LAND = Land NOT cultivated OR tilled FOR pasture.
PLAN	Plantation	ARBORETUM = A plot of land where different trees or shrubs are grown for study or popular interest or;
		a botanical garden facility where trees and shrubs are cultivated for exhibition.
		PLANTATION = A large quantity of trees that have been planted; a growing wood or;
		an estate where cash crops are grown on a large scale, especially in tropical areas or;
		a plot in which trees are planted and cultivated, usually for commercial purposes.
PL	Plateau	PLATEAU = An elevated tract of comparatively flat or level land or;
		an elevated tract of comparatively flat land with an extent of at least 2500 hectares.
		TABLELAND[S] = A plateau bounded by steep cliff-like faces which lead abruptly down to the sea or adjoining lowlands. An elevated tract of comparatively flat land with an extent of at least 2500 hectares.
PT	Point	BILL = A beak-like coast promontory or a small narrow beak-like projection of land into the sea.
		HEAD = A cape or promontory jutting seawards from a coastline, usually with significant sea-cliff or,
		a comparatively high protrusion of land into the sea, with a steep face or;
		a comparatively high protrusion of land into a lake or other inland body of water, with a steep face.
		HEADLAND = A high projecting cliff face at the end of a range of hills or an escarpment. Note: an un-named head is usually described as a head-land although headland is occasionally used as a generic form or;
		a comparatively high protrusion of land into the sea, with a steep face or;
		a comparatively high protrusion of land into a lake or other inland body of water, with a steep face.
		POINT = The extreme end of a cape; or the outer end of any land protruding into the water, usually less prominent than a cape or;
		a small protrusion of land into the sea or;
		a small protrusion of land into a lake or other inland body of water.
		POINT [STREAM] = A promontory extending out into a large body of water.
		PROMONTORY = A rocky coastal headland projecting significantly into the se

		an elevated protrusion of land into the sea or;
		an elevated protrusion of land into a lake or other inland body of water.
POOL	Pool	A small body of still or standing water, permanent or temporary, often in the bed of an intermittent river or stream, and sometimes spring fed, chiefly one of natural formation, or;
		a large partly enclosed arm of a sea or lake or;
		a small body of still water in a natural hollow.
PORT	Port	A place provided with terminal and transfer facilities for loading and dischargin cargo or passengers, usually located in a harbour or;
		a major commercial and industrial area alongside navigable water with facilities for the loading and unloading of ships.
RTRK	Racetrack	AUTO TRACK = A circuit or course used for motor racing.
		RACECOURSE = A piece of ground on which horseraces are held for public entertainment; any place where horse races are held or;
		a place with a track which has been licensed by government for the holding of horse races.
		RACETRACK = A track on which races, especially motor races, are held, a racecourse or a circuit or course used for motor racing.
		SPEEDWAY = A racetrack for racing automobiles or motorcycles or a track, usually oval in shape, on which car and motorcycle races are held.
		VELODROME = An arena with a suitably banked track for cycle races or an arena with a banked track, usually oval in shape, constructed for cycle races.
RLY	Railway	LOOP = A railway branch line which leaves the main line and re-joins it after a short distance.
		RAIL LOOP = A stretch of rail track that provides a place for a train to halt temporarily while other trains pass on an adjacent main line. This configuration allows the sequence of trains along a track to change or,
		a short branch off a railway track often connected at both ends to the main track, where trains can pass on a single line stretch of railway.
		RAILROAD = A track consisting of two parallel steel (or in older networks, iron rail tracks or;
		line that is the commercial organisation responsible for operating a system of transportation for trains that pull passengers or freight.
		RAILWAY = A track or set of tracks of iron or steel rails used for the passage of trains or;
		a permanent track composed of a line of parallel metal rails fixed to sleepers for transport of passengers and goods in trains.
		RAILWAY LINE = The road consisting of railroad track and roadbed or a permanent track composed of a line of parallel metal rails fixed to sleepers for transport of passengers and goods in trains.
		TRAMWAY = Usually a system of grooved tracks laid in urban streets. Forming routes for the conveyance of passengers in trams.
RSTA	Railway Station	RAILWAY SIDING or SIDING = A short branch off a railway track, often connected at both ends to the mainline track, and used for shunting or for loading, unloading and storing goods trucks or;
		a short branch off a railway track often connected at both ends to the main track, where trains can pass on a single line stretch of railway.
		RAILWAY STATION = A place where trains stop for passengers and/or freight or;
		a structure beside a railway line with facilities for receiving and discharging passengers and freight.
		STATION = A facility at which passengers may board and alight from trains and/or goods may be loaded or unloaded or;
		a structure beside a railway line with facilities for receiving and discharging passengers and freight.
RNGE	Range	HEIGHTS = The vertical dimension of extension, distance from the base of a landform to the top or the highest part of a range, especially the peaks of a set of hills or mountains.
		MASSIF = A block of the earth's crust bounded by faults and shifted to form peaks of a mountain range or a massif is a section of the earth's crust that is

		demonstration for the or flow was
		demarcated by faults or flexures.
		MOUNTAIN RANGE = A group of mountains bordered by lowlands or separated from other mountain ranges by passes or rivers.
		MOUNTAINS = A series of land masses that project well above its surroundings or a series or line of mountains with or without obvious peaks, in which the crests are relatively narrow, At least 16km in length.
		RANGE = A series or line of mountain or hill ridges with or without obvious peaks, in which the crests are relatively narrow, and are at least 16km in length.
		TOPS = The top point of a mountain or hill or the highest part of a range especially the peaks of a set of hills or mountains.
RAV	Ravine	A small narrow steep sided valley, larger than a gully and smaller than a canyon or,
		a deep valley, relatively narrow but of considerable size, bounded by steep slopes, and formed by a river.
RCH	Reach	A straight section of a river, especially a navigable river between two bends or
		a comparatively straight part of a river or channel between two bends.
		Can also be referred to as an ARM.
		A narrow portion of the sea or a lake projecting from the mainland.
REEF	Reef	CORAL REEF = A reef, often of large extent, composed chiefly of coral and its derivatives.
		REEF = A ridge of rocks or coral lying near the surface of the sea, which may be visible at low tide, but is usually covered by water.
		May include man-made reefs.
RESV	Reserve	COMMON = A tract of land which belongs to the local community as a whole, and is open to common use, particularly for recreation.
		CONSERVATION PARK = An area set aside for the conservation of fauna and flora, usually with restricted access.
		CONSERVATION RESERVE = A tract of public land set apart for a specific purpose.
		FLORA RESERVE = Crown land set aside for the protection of flora, with access controlled by state or federal authorities.
		RESERVE = A tract of public land set apart for recreation, as a public reserve, or for a specific purpose, i.e., Nature Reserve, Game Reserve, showgrounds, etc. OR an area proclaimed to be a public park by government legislation.
		SHOWGROUND[S] = A tract of land with pavilion(s) an arena(s) for the exhibition and display of livestock and produce OR a reserve used for fairs, field days, and local shows.
RES	Reservoir	ARTIFICIAL LAKE = The waters impounded by usually the constructions of a reservoir or,
		a lake constructed for the containment of water.
		DAM = A body of water, impounded by a constructed wall or barrier, and store for domestic or other uses.
		POND2 = A small body of still water; may be of natural or artificial formation of a relatively small body of water retained by a barrier, usually for drinking or irrigation purposes.
		PONDAGE = The holding back of water for later release for power development above the dam of a hydroelectric plant to, equalize daily or weekly fluctuations of stream flow or to permit irregular hourly use of water by the wheels to care for fluctuations in the load demand or;
		in general the holding back of water for later releases or;
		the storage capacity available for the use of such water or;
		water in excess of normal levels temporarily trapped by an embankment.
		PUBLIC WATERING PLACE = An artificial waterhole for the watering of stock
		RESERVOIR = An artificial lake for the storage, regulation and control of wate for domestic or other use or;
		an artificial lake or structure storing water for domestic or other uses.
		RETARDING BASIN = An artificially maintained flood-control area into which

RDGE	Ridge	floodwaters are deflected by means of a dam placed across a river channel. FAULT = A crack in the earth's crust resulting from the displacement or one
ILD OL	11090	side with respect to the other of;
		a fracture in the earth's crust along which movement has taken place and where the rock strata one the two sides do not match.
		NECK = A narrow elongated projecting strip or land or;
		a long and narrow stretch of elevated ground, generally with a length of less than 16km.
		RIDGE = A long and narrow stretch of elevated ground either isolated or located in a range or a long and narrow stretch of elevated ground, generally with a length of less than 16km.
FRNG	Rifle/Rocket Range	BOMBING RANGE = A tract of land on which the military conducts bombing practice.
		RIFLE RANGE = A tract of land on which rifle shooting contests are held or;
		an area designated for target practice with rifles.
		ROCKET RANGE = An area of land designated for the launching of rockets.
RH	Rockhole	GNAMMA HOLE = Small holes of varying shape, diameter and depth, found hard granite outcrops and in the decomposed granite of a breakaway, usually holding water or;
		a natural hole in a rock in which rainwater collects.
		ROCKHOLE = A hole excavated in solid rock by water action.
		SINK = A pit like hole in found in areas of karst. These features are caused b the weathering of limestone or dolomite by subsurface drainage or;
		a saucer shaped depression in the earth's surface, usually found in limestone regions, Through which water may enter the ground and pass along an underground course.
OFRK	Rocks (Offshore)	ROCK = An isolated rocky formation or a single large stone, usually one constitution a danger to navigation; can be submerged or partially submerged or;
		an isolated rocky formation submerged or partly submerged in the sea, which constitutes a danger to navigation or;
		a large rocky formation surrounded by the waters of an inland body of water.
		ROCKS = A large and isolated formation of rocky outcrops submerged or par submerged in the sea, which constitutes a danger to navigation or;
		a large formation consisting of rocky outcrops surrounded by the waters of an inland body of water.
MTRK	Rocks (On Land)	BOULDER[S] = A large water-worn or weather-worn stone(s) or;
		a large detached rock, rounded OR worn.
		COLUMN=A large detached rock, taller than it is wide and roughly cylindrica in shape or;
		a large rock which is part of an elevated relief feature but which is prominent its tall and cylindrical aspect.
		CRAG = A rough, steep rock or point of rock or;
		a prominent rocky outcrop on an elevated relief feature.
		MONOLITH[S] = A single great stone, often in the form of a column or obelish or;
		a geological or technological feature such as a mountain, consisting of a sing massive stone or rock. Erosion usually exposes these formations, which are most often made OF very hard AND solid metamorphic rock or an extremely large isolated rock.
		NEEDLE = A tall perpendicular sharp-pointed rock.
		PILLAR = A large rock which is part of an elevated relief feature but which is prominent for its tall and cylindrical aspect.
		PINNACLE = An isolated, tall, perpendicular sharp-pointed rock or;
		a sharp pointed rock, rising more or less vertically or a tall perpendicular shar pointed rock.
		ROCK COLUMN = any tall and relatively thin landform that has an approxima

		shape of a column or tower or;
		a large rock which is part of an elevated relief feature but which is prominent for its tall and cylindrical aspect.
		ROCK FORMATION = An isolated group of large rocky outcrops, rising sharpl from level terrain or;
		a group or formation of rocks, boulders or a prominent outcrop consisting of several rocky crags on an elevated relief feature.
		ROCK = A prominent or isolated outcrop of stone on land or a group of prominent or isolated outcrop of stones on land or;
		an isolated rocky outcrop rising sharply from level terrain or;
		a prominent rocky outcrop ON an elevated relief feature or;
		an isolated group of large rocky outcrops, rising sharply from level terrain or;
		a prominent outcrop consisting of several rocky crags on an elevated relief feature.
		SPIRE = A large rock which is part of an elevated relief feature but which is prominent for its tall tapering aspect, resembling an inverted cone or a pyramic
		TOR = An isolated mass of rock, usually granite, which has been subject to considerable weathering, and often assumes peculiar shapes or;
		an isolated high rock, commonly one eroded by wind into unusual shapes.
RUIN	Ruin	The remains of a fallen building, town etc., or of anything in a state of destruction or decay or;
		a fallen and derelict building.
SM	Sawmill	A mill for dressing logs and lumber or;
		an establishment in which timber is sawn into planks or boards by machinery.
SCHL	School	COLLEGE = An institution for higher education; a large and important secondary school or;
		an establishment for learning at post-secondary level, usually for vocational or technical education.
		COMBINED PRIMARY AND SECONDARY = A facility used for full-time primary and secondary instruction of children, typically aged 6 to 17.
		HIGH SCHOOL = A facility used for the full time tuition of children usually age from 12 to 17 years.
		INSTITUTE = An association organized to promote art or science or education or a building in which work of a literary, scientific or educational character is carried out.
		KINDERGARTEN = A facility used for the tuition of young children (usually under the age of 5) prior to preschool.
		PRESCHOOL = A facility used for the tuition of young children prior to school age, usually children age of five.
		SCHOOL = A place or establishment where instruction is given, especially one for children or;
		an establishment for primary or secondary education created by the Education Act.
		SECONDARY SCHOOL = A facility used for full-time secondary institution of children, typically aged 12 to 17.
		SPECIAL SCHOOL = A facility used for the education of children with special needs.
		TAFE = A facility used for providing education or instruction in technical, business or trade subjects at a post-secondary level.
		UNIVERISTY = An educational institution for both instruction and examination in the higher branches of knowledge with the power to confer diploma, undergraduate or postgraduate qualifications or;
		a tertiary educational institution with the power to award postgraduate researc degrees.
SEA	Sea	OCEAN = The vast body of water on the surface of the globe, which surrounds the land or;
		one of the five major geographical divisions of the salt waters that cover the majority of the earth's surface.

		SEA = One of the smaller divisions of the oceans, especially if partly enclosed by land or;
		one of the smaller divisions of the salt waters that cover the majority of the earth's surface, in particular one which forms part of one of the five oceans and which is partly enclosed by land.
SHOL	Shoal	PATCH[ES] = An alternative to a shoal when referred to a detached area constituting a danger, frequently used in the plural or;
		at shoal which constitutes a danger to vessels.
		SHALLOWS = An indefinite term applied to expanses of shoal or shallow water or an area of shallow water.
		SHOAL = A ridge of sand or of rocks just below the surface of the sea or;
		an area of shallow water.
SOAK	Soak	NATIVE WELL = A natural spring or a small pool fed from a spring or soak and sometimes improved by Aborigines; a type of waterhole or a natural receptacle for water, fed from a spring or soak, and possibly improved by Aborigines.
		SOAK = A damp or swampy spot around the base of granite rocks or in otherwise dry watercourses or;
		a hollow, often in sandy soil and around the base of granite rocks, where water collects, on or below the surface of the ground.
		SOAKAGE = Legal term for water that oozes, seeps or filters through the soil without a definite channel in a course that is unknown or not discoverable or;
		a hollow, often in sandy soil and around the base of granite rocks, where water collects, on or below the surface of the ground.
SND	Sound	A relatively long arm of the sea. Forming a channel between an island and the mainland, or connecting two larger bodies of water, as a sea and the ocean, or two parts of the same body, but usually wider and more extensive than a strail or;
		a relatively long arm of a sea or ocean forming a channel between an island and the mainland or connecting two larger bodies, as, a sea and the ocean, or two parts of the same body; usually wider and more extensive than a strait.
SPIT	Spit	SANDSPIT1 = A deposition land form found off coasts. They are a type of bar or beach that develops where a re-entrant occurs, such as a cove, bay, ria or river mouth and they are formed by the movement of sediment (typically sand) along a shore by a process known as longshore drift OR a small bank of low land projecting into the sea from the shore.
		SANDSPIT2 = A small bank of low land projecting into a lake or other inland body of water from the shore.
		SPIT1 = A small point of land or narrow shoal projecting into a body of water from the shore OR a small bank of low land projecting into the sea from the shore.
		SPIT2 = A small bank of low land projecting into a lake or other inland body of water from the shore.
SPRG	Spring	HOT SPRING[S] = A stream of hot water issuing from the ground OR a naturally heated mineral spring.
		MINERAL SPRING = A spring which contains a noticeable quantity of mineral matter in solution OR a spring of water which has in it a high proportion of naturally occurring mineral salts.
		POOL SPRING = A pool which is naturally replenished by a flow of water from a subterranean spring.
		SPRING = A place at which a flow of water issues naturally from the ground, either continuously or intermittently.
SPUR	Spur	SPUR2 = A minor linear projection off a range, ridge, mountain, hill, tableland or plateau being not more than 2kms in length and decreasing in altitude from the parent feature OR a minor linear projection off an elevated relief feature, less than 2km in length and decreasing in altitude from the parent feature.
STOK	Stock Route	STOCK ROUTE = A route designated for droving stock, with the intent of avoiding vehicular traffic.
STR	Strait	CHANNEL2 = A navigable stretch of water between two landmasses, wider than a strait.
		STRAIT = A narrow passage connecting two larger bodies of water OR a comparatively deep and narrow route affording a passage for a vessel between two landmasses.

SFSP	Surfing Spot	SURF BREAK = Refers to waves of the sea as they break in shallow water or upon the shore. A permanent obstruction such as a reef, bombora, rock or sandbar which causes waves to break thus making conditions conducive to surfing.
		SURFING SPOT = A place where the sport of surfing occurs. A permanent obstruction such as a reef, bombora, rock or sandbar which causes waves to break thus making conditions conducive to surfing.
SWMP	Swamp,Marsh,Morass	COWAL = A small swampy hollow in red-soil country.
		MARSH = A tract of low lying land, flooded at times and generally swampy. In Australia, often the same as swamp OR a tract of land normally saturated with water, having little or no drainage and characterised by a growth of grass or reeds.
		MORASS = A bog or marsh OR a tract of land normally saturated with water, having little or no drainage and characterised by a growth of grass or reeds.
		SALTMARSH = A marsh which at times is flooded by the sea, or an inland marsh in an arid region in which the water contains a high proportion of salt OR a marsh which is sometimes flooded by the sea or which for some other reason has water with a high saline content.
		SWAMP = A tract of low-lying land which is permanently saturated with moisture, and is usually overgrown with vegetation OR a tract of land normally saturated with water, having little or no drainage and characterised by a growth of grass or reeds.
		WETLAND[S] = An area inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support vegetation typical of swamps, marshes, bogs, etc.
TANK	Tank	TANK = A large receptacle or structure for holding water or other liquids, or gas OR an artificial waterhole forming a reservoir for rainwater and adjacent run-off, made by building walls of earth either excavated or conveyed to the site.
ТО	Telegraph Office	TELEGRAPH OFFICE = A building which was purpose built FOR THE sending AND receiving OF telegraph transmissions.
TOWR	Tower	RADIO TOWER: An antenna for the transmission of sound by radio waves to a widely dispersed audience through radio receivers. Or
		A transmission tower for radio broadcasts.
		TELEVISION TOWER: An antenna for the transmission of sound and images by radio waves to a widely dispersed audience through television receivers. For example, MAWSON TELEVISION TOWER. Or
		A transmission tower for television broadcasts.
		TOWER: A structure taller than its diameter; can stand alone or be attached to a larger building. Or
		A high metal tower which carries conductors for the transmission of media broadcasts.
		TRANSMISSION TOWER: Tall structures designed to support antennas for telecommunications and broadcasting, including television. Or
		A high metal tower which carries conductors for the transmission of media broadcasts.
TRK	Track, Trail	BRIDLE PATH = A path fit for the passage of horses, but not motor vehicles.
		TRACK = A way made or beaten by the feet of men or animals; a formed and/or marked walking way OR an un-surfaced way, especially through rough country, for walking, riding or driving.
		TRAIL = A track or path for passage by foot or horse from one point to another, does not include roads or highways OR an un-surfaced way, especially through rough country, for walking, riding or driving.
TREE	Tree	TREE = A prominent lone or marked tree OR a large arboreal specimen, either living or preserved, identified as a cultural object, usually commemorating a historic event associated with it.
DEEP	Trough (Hydro)	TRENCH = A deep ocean trench or valley with steep sides, formed by depresses, usually to several kilometres in depth.
		TROUGH = A narrow, generally more shallow than a trench, depression with in the land surface or ocean bed.
TUNN	Tunnel	TUNNEL = An artificial subterranean passage through a hill, etc. or under a road or river, etc. especially for railway or road OR an enclosed subterranean excavation through high ground or under a body of water to enable road or rail

		traffic to pass the obstruction.
VAL	Valley	AMPHITHEATRE = A basin-shaped hollow, particularly one having steep sides.
		DALE = A wide open valley OR a small open river valley partly enclosed by low hills.
		DELL = A small wooded valley.
		VALE = A valley, usually of a broad, level type OR a long area of lower elevation in an area of elevated relief, bounded by hills or mountains, usually with a river flowing through it, and formed by erosion or by movements in the earth's crust.
		VALLEY = A long narrow depression in the earth's surface, usually with a fairly regular downward slope or a long area of lower elevation in an area of elevated relief, bounded by hills or mountains, usually with a river flowing through it, and formed by erosion or by movements in the earth's crust.
WINE	Vineyards and Wineries	Vineyards and Wineries - buildings or properties which produce wine or a business involved in the production of wine. Typically includes a plantation of grapevines, warehouse, bottling lines, laboratories and large tanks.
PATH	Walk Trail, Path	PATH = A way beaten or trodden by the feet of men or beasts; a course or track or;
		a way, paved or unpaved, for walking.
		TRAIL = A tail set aside for walking.
		WALK = A path set aside for walking.
WPL	Water Pipeline	CONDUIT = A large diameter pipeline FOR conveying liquids.
		WATER PIPELINE = A pipeline FOR THE conveyance OF water.
STRM	Watercourse	A natural or artificial channel through which water flows, or
		A stream, creek, brook, rill, ribulet, runnel, streamlet, run or river, or
		A channel, bed or route along which water flows, or
		A Tidal river, tidal stream, tidewater river, tidewater stream
WRFL	Waterfall	CASCADE = A waterfall over a set of steep rocks, or a series of small waterfalls.
		CATARACT = A waterfall usually of considerable size in both flow and height.
		FALL[S] = A perpendicular or very steep descent of water in the course of a stream OR a sudden steep descent of water over a natural step in the bed of a stream.
		RAPID[S] = A portion of a stream where it descends rapidly, without a break in the slope of the bed sufficient to form a waterfall.
		WATERFALL = A sudden steep descent of water over a natural step in the bed of a stream.
WTRH	Waterhole	BILLABONG = A river branch that forms a backwater or stagnant pool OR a waterhole in a stream or in an anabranch, which dries up outside the rainy season.
		HOLE = A natural hole or hollow containing water, especially one in the dry bed of an intermittent river.
		LAGOON2 = A small body of open fresh water, smaller than a lake, possibly appearing only seasonally.
		OXBOW = A lake formed when a meandering river, having bent in an almost a complete circle, cuts across the narrow neck of the land between the two stretches, and leaves a backwater; silt is gradually deposited by the river at the entrances to this backwater, until it finally becomes a lake OR a small bow-shaped lake, as a remnant of a former meander of a river after the river has straightened its course by cutting through the neck of the meander.
		POND2 = A small body of still water in a natural hollow.
		WASHPOOL = A natural pool in a stream in which sheep are washed before shearing.
		WATER = Large pools of water in arid regions, usually permanent and not normally located in a watercourse.
		WATER FEATURE = A feature within water.

		containing water, especially one in the dry bed of an intermittent river.			
WBRG	Weighbridge	A weighbridge is a large set of scales, usually mounted permanently on a concrete foundation that is used to weigh entire vehicles and their contents.			
		By weighing the vehicle both empty and when loaded, the load carried by the vehicle can be calculated.			
WELL	Well	ARTESIAN WELL = A type of well in which the water is forced to the surface by hydrostatic pressure.			
		WELL1 = A hole drilled into the ground to extract oil or gas.			
		WELL2 = A natural spring or small pool fed by a spring or soak and sometimes improved by Aborigines OR a hole or pit dug in the ground to obtain water, often lined with stone OR a hole or pit dug or drilled into the ground to extract water.			
WHRF	Wharf	WHARF = A platform, contiguous to and more or less parallel with the shoreline, alongside of which ships may be secured for loading or unloading cargo or passengers OR a platform, such as a jetty, pier or quay, alongside or which ships may be secured for loading or unloading cargo or passengers.			
WRCK	Wreck	AIRCRAFT WRECKAGE = The remnants of a crashed aircraft such as a plane or helicopter.			
		WRECK = The ruined remains of a stranded or sunken vessel, which has been rendered useless OR the ruined remains of a sunken vessel.			
YD	Yard	PADDOCK = A piece of land, especially on used for pasture or tillage OR a tract of land, fenced or otherwise marked off, used for rural production.			
		STOCKYARD = An enclosure forming a pen for livestock etc., a stockyard OR an enclosure for the temporary keeping of livestock, such as horses, sheep or cattle.			
		YARD = An enclosure forming a pen for livestock etc., a stockyard OR an enclosure for the temporary keeping of livestock, such as horses, sheep or cattle.			

Appendix 3B: Topographic feature naming checklist

The following checklist will help ensure naming proposals have followed the necessary processes and complied with the required policies as shown in *Sections 1* and 3 of the *Policies and Standards for Geographical Naming in Western Australia*.

Is the feature of greater than local significance (e.g. located in more than two local governments; in a tourist precinct or major city centre)? Does advice need to be sought from Landgate before proceeding with the submission?				
Does the submission name conform to the policies in Section 1?				
	Yes		No	N/A
Language	i		i	i
Recognising the public interest Ensuring public safety	i	i		
indicators/prefixes/suffixes avoided	i	i		
the complete extent to the feature	i	i	i Co	orrect
use of commemorative names	i		i	i
Name is not discriminatory	ī		ī	ī
Recognition and use of Aboriginal names	i		i	i
Dual naming	i		i	i
Consultation with the public	i		i	i
Provided evidence of objections	i		i	i
Is the 'feature class' used in the name compliant with the approved list of feature classes for Western Australia?				
Is the feature situated on land administered by another government agency? Is the land privately owned or part of a commercial area? Has consultation with these groups been undertaken? (See Section 9)				
If the naming submission originally came from a member of the public, does it include sufficient background information on why the name would be appropriate? (See Section 9)				
If the naming proposal comes from a local government and relates to the local area, has consultation with relevant interest groups such as historical societies and community groups been undertaken? (See Section 9)				
Is the name of Aboriginal origin? If so, have the relevant Aboriginal groups been consulted and provided their consent (See Sections 7 and 9)				
Have the policies been complied with? If not, is consultation required with emergency service response and other service providers?				
Have the relevant residents, ratepayers and businesses been consulted?				
Have objections received during public consultation been addressed?				
Has a report on the naming proposal been discussed and signed off by all councillors prior to lodgement with Landgate? OR				
If a delegation of authority has been used, have details or officially provided to Landgate?	i the f	eleva		rei neeu

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Does the submission contain:
 details of the feature (including, if possible, the address and access points
for emergency service response)
 background of the proposed name and why it was selected
 indication that the name conforms to the principles of Sections 1 and 3 of the guidelines
 copies of survey material/maps/plans
 details on how council has addressed any objections lodged
 copies of consent from Aboriginal communities (if relevant)
 details of consultation with emergency service response and public
service providers (if relevant), including copies of correspondence sent and responses received
 a copy of council minutes indicating endorsement of the proposal, or that council staff have delegated authority.

Appendix 4A: Locality naming and boundary checklist

The following checklist will help ensure naming proposals have followed the necessary processes and complied with the required policies as shown in Sections 1 and 4 of the Policies and Standards for Geographical Naming in Western Australia.

As localities are considered to be of greater than local significance has advice been sought from Landgate before proceeding with the submission?				
Does the submission name conform to the policies in Section 1?				
	Yes		No	N/A
Language	i		i	i
Recognising the public interest Ensuring public safety indicators/prefixes/suffixes avoided the complete extent to the feature		I I	Assigning	
use of commemorative names	Į.	Ĩ	.100	
Name is not discriminatory Recognition and use of Aboriginal names Dual naming Consultation with the public Provided evidence of objections				
If this is an approval request for a new locality, does the area meet the necessary lot and size requirements?				
Is the locality situated on land administered by another government agency? Is the land privately owned or part of a commercial area? Has consultation with these groups been undertaken? (See Section 9)				
If the naming submission originally came from a member of the public, does it include sufficient background information on why the name and/or boundary change would be appropriate? (See Section 9)				
If the naming proposal comes from a local government and relates to the local area, has consultation with relevant interest groups such as historical societies and community groups been undertaken? (See Section 9)				
Is the name of Aboriginal origin? If so, have the relevant Aboriginal groups been consulted and provided their consent (See Sections 7 and 9)				
Have the policies been complied with? If not, is consultation required with emergency service response and other service providers?				
Have the relevant residents, ratepayers and businesses been consulted?				
Have objections received during public consultation been addressed?				
Has a report on the naming proposal been discussed and signed off by all councillors prior to lodgement with Landgate? OR If a delegation of authority has been used, have details of the relevant officer been officially provided to Landgate?				

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

Does the submission contain:
details of the locality
 background of the proposed name and why it was selected
 indication that the name conforms to the principles of Sections 1 and 4 of the guidelines
 copies of survey material/maps/plans
 details on how council has addressed any objections lodged
 copies of consent from Aboriginal communities (if relevant)
 details of consultation with emergency service response and public
service providers (if relevant), including copies of correspondence sent and responses received
 a copy of council minutes indicating endorsement of the proposal, or that council staff have delegated authority

Policies and Standards for Geographical Naming in WA Version 01:2017

Appendix 5A: Local park and recreational reserve naming worksheet

The following checklist will help ensure naming proposals have followed the necessary processes and complied with the required policies as shown in Sections 1 and 5 of the Policies and standards for geographical naming in Western Australia.

Is the local park or recreation reserve of greater than local significance? Does advice need to be sought from Landgate before proceeding with the submission?				
Does the submission name conform to the policies in Section 1?				
	Yes	No		N/A
Language	i	i		i
Recognising the public interest	i	i		i
Ensuring public safety	i		Assigning	
indicators/prefixes/suffixes avoided	i			
the complete extent to the feature	i	i	Corre	ct
use of commemorative names	i	i		i i
Name is not discriminatory	ī	i		ī
Recognition and use of Aboriginal names	i	i		1
Dual naming	i	1		i
Consultation with the public	i	1		i
 Provided evidence of objections	ī	ī		i
If this is an approval request for a new local park or recreation reserve, is it named after an adjoining street or is it a unique name?				
Is the local park or recreation reserve situated on land administered by another government agency? Is it on land that is privately owned or part of a commercial area? Has consultation with these groups been undertaken? (See Section 9)				
If the naming submission originally came from a member of the public, does it include sufficient background information on why the name and/or boundary change would be appropriate? (See Section 9)				
If the naming proposal comes from a local government and relates to the local area, has consultation with relevant interest groups such as historical societies and community groups been undertaken? (See Section 9)				
Is the name of Aboriginal origin? If so, have the relevant Aboriginal groups been consulted and provided their consent (See Sections 7 and 9)				
Have the policies been complied with? If not, is consultation required with emergency service response and other service providers?				
Have the relevant residents, ratepayers and businesses been consulted?				
Have objections received during public consultation been addressed?				
Has a report on the naming proposal been discussed and signed off by all councillors prior to lodgement with Landgate? OR				
If a delegation of authority has been used, have details of officially provided to Landgate?	the re	ievant	omcer	been

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

	 Does the submission contain: details of the local park or recreation reserve (including, if possible, the address and access points for emergency service response) background of the proposed name and why it was selected
	 indication that the name conforms to the principles of Sections 1 and 5 of the guidelines copies of survey material/maps/plans
	 details on how council has addressed any objections lodged copies of consent from Aboriginal communities (if relevant) details of consultation with emergency service response and public service providers (if relevant), including copies of correspondence sent and responses received
	 a copy of council minutes indicating endorsement of the proposal, or that council staff have delegated authority

Appendix 6A: Administrative boundary feature classes suitable for use in Western Australia

The following table is a list of feature classes suitable for use within Western Australia for administrative boundary naming.

Feature Class Abbreviation	Feature Class	Description			
AA	Agricultural Area	The area taken up by arable land, permanent pasture and meadow, land used for permanent crops and kitchen gardens			
ABF	Administrative Boundary Feature	A limit or border of a geographic area under the jurisdiction of some governmental or managerial entity.			
DCA	Development Control Area	The Development Control Areas include the waters of rivers and adjoining parks and recreation reservations of specific areas to protect, regulate and control development in these areas.			
DI	District	A division of an area for administrative purposes.			
ELEC	Electoral Boundary	An electoral boundary (also known as a constituency, riding, ward, division district, electoral area or electorate) is a distinct territorial subdivision for holding a separate election for one or more seats in a legislative body. Generally, only voters who reside within the geographical bounds of an electoral district (constituents) are permitted to vote in an election held the			
LAD	Legislative Assembly District	A district used to determine the geographical bounds of a legislative assembly district (constituents) are permitted to vote in an election held there. The Legislative Assembly is the lower chamber of the bicameral state legislatures in some Commonwealth countries, such as Australia			
LCD	Legislative Council District	Western Australia has been divided into six regions for electing the Legislative Council, three regions in Perth and three covering the rest of the state.			
LDIS	Land District	Western Australia is divided into five land divisions which are divided into officially gazetted land districts (for cadastral purposes), which are then further divided into numbered locations.			
LDIV	Land Division	There are five land divisions in Western Australia, as specified in Schedule 1 of the Land Administration Act 1997: Eastern Land Division; Eucla Land Division; Kimberley Land Division; North-West Land Division; South-West Land Division.			
LGA	Local Government Authority	That part of the state which deals mainly with such matters as concern the inhabitants of a particular district or place, and which it is thought desirable should be administered by local authorities, subordinate to the central government.			
LGAT	Local Govt Town	Land that was declared to be a townsite under the Local Government Act.			
LGAW	Local Govt Ward Boundary	A ward is a subdivision of a municipality. In Western Australia they are an electoral district within a municipality used in local politics.			
MHA	Marine & Harbour Area	Bounded areas created under the Marine and Harbours Act.			
ММА	Marine Management Area	The reservation of an area for the purpose of managing and protecting the marine environment so that it may be used for conservation, recreational, scientific and commercial purposes.			
		Commercial purposes includes-aquaculture, commercial fishing and pearling activity; mining, within the meaning of the Mining Act 1978; seismic surveys and exploratory drilling for petroleum; and production of petroleum and associated activities.			
MNR	Marine Nature Reserve	The reservation of a marine nature reserve for the conservation and restoration of the natural environment; the protection, care and study of indigenous flora and fauna; and the preservation of any feature of archaeological, historic or scientific interest.			
MPAR	Marine Park	The reservation of an area for the purpose of allowing only that level of recreational and commercial activity which is consistent with the proper conservation and restoration of the natural environment, the protection of indigenous flora and fauna and the preservation of any feature of archaeological, historic or scientific interest.			
NP	National Park	A tract of land declared public property by a national government with a view to its preservation and development for purposes of recreation and culture.			
PA	Port Authority	Most ports are managed by port authorities with different levels of state contro These are mostly separate bodies that run the port on behalf of government,			

Policies and Standards for Geographical Naming in Western Australia Version 03:2017

		being responsible for port management and governance.	
RIVR	River Reserve	That area reserved under the Metropolitan Region Scheme (MRS) for waterways.	
RPA	Riverpark Area	Areas managed by the Swan River Trust comprising waterways, land adjoining those identified waters excluding freehold land in private ownership.	
SA	Suburban Area	An area which has been developed for residential use located outside of a 'city area.	
SFST	State Forest	Forest areas protected by state laws and acts.	
STAT	State	A state is the bounded area which is administered by a government, a country subdivision in a federal form of government which shares political jurisdiction with a federal or national government.	
		There are six states in Australia: New South Wales (NSW), Queensland (Qld), South Australia (SA), Tasmania (Tas.), Victoria (Vic.) and Western Australia (WA).	
		There are ten Australian territories outside the borders of the states. two mainland territories, Australian Capital Territory (ACT) and Northern Territory (NT) and one offshore territory, Norfolk Island, which have been granted a limited right of self-government by the Australian Government.	
		Seven territories are governed only by Commonwealth law, usually through an Australian Government-appointed Administrator. They are: Ashmore and Cartier Islands; Australian Antarctic Territory; Christmas Island; Cocos (Keeling) Islands; Coral Sea Islands; Jervis Bay Territory; Territory of Heard Island and McDonald Islands.	
TNST	Townsite	Gazetted townsites as created under the Land Administration Act.	
WCA	Water Control Area	Water Control Area's as defined by the Department of Water.	
WCT	Water Catchment Area	Water Catchment Area's as defined by the Department of Water.	

Appendix 6B: Administrative boundary naming worksheet

The following checklist will help ensure naming proposals have followed the necessary processes and complied with the required policies as shown in Sections 1 and 6 of the Policies and Standards for Geographical Naming in Western Australia.

As administrative boundaries are considered to be of greater than local significance has advice been sought from Landgate before proceeding with the submission?				
Does the submission name conform to the policies in Sec	name conform to the policies in Section 1?

Document Set ID: 11306636 Version: 1, Version Date: 01/12/2022

Pre-contact indigenous Fremantle

~

Published: February, 2018

Prepared by consulting anthropologists Ken Macintyre and Dr Barb Dobson for Fremantle Ports in February 2009. This summary is based on extensive archival research and field consultations originally carried out by Macintyre and Dobson in the 1990's. Much of the information in the document below is based on this research.

Consultations were held between Noongar Elders and Fremantle Ports' representatives in 2009. Numerous ideas were generated as a result of workshops facilitated by consulting anthropologists Ken Macintyre and Barb Dobson at Fremantle Ports. All the Elders agreed that a map of pre-contact indigenous Fremantle should be created which showed the original topographic and vegetation features of the Fremantle/ Swan River estuary region and showed Aboriginal heritage places of significance to traditional and contemporary Noongar people. The workshops involved representatives from nine different Noongar family groups. These included representatives from The Combined Swan River and Swan Coastal Plains and Darling Ranges Native Title Holders and Traditional Owners (CSR & SCP); the Independent Aboriginal Environmental Group (IAEG); The Bibbulman Tribal Group; the Ballaruk and Didjerak Peoples and the Whadjug Sovereign Group. The names of the individual participants are listed under acknowledgements at the end of this report.

This summary report details the outcome of the workshops carried out at Fremantle Ports in January and February 2009. It includes excerpts from earlier ethnohistorical and archival research of the Fremantle area carried out by Macintyre and Dobson in the 1990's so as to provide the planners with a more thorough picture of indigenous Fremantle prior to European contact.

All Elders unanimously agreed that a map of pre-contact indigenous Fremantle would be the best way of highlighting to the wider population that Fremantle was a thriving indigenous community prior to white settlement and that its cultural significance continues to this day. They believed that the creation of such a map would not only be of great interest to tourists visiting the area but would provide an educational experience for all members of the wider community, indigenous and non-indigenous. The Elders believed that it would help to commemorate and provide recognition to the traditional inhabitants of the area and, most importantly, provide an important step towards reconciliation.

All were in agreement that a map of pre-contact Fremantle based on historical and ethnohistorical records and contemporary Elders' input should incorporate the recommendations contained in this report and that it be installed in the Fremantle Port precinct at Victoria Quay to showcase Noongar culture as it used prior to European colonisation. The Elders suggested that the map be created in such a way as to de the original topographic and vegetation features and to include traditional place names, indigenous

habitation and food resource areas (fishing, hunting and gathering grounds); river crossing places and to highlight the traditional trading, ceremonial and mythological significance of the Fremantle and wider Swan River estuary area.

Interpretive map of pre-contact indigenous Fremantle - Part 1

Fremantle is traditionally located within Beeliar country, the boundaries of which are described by Lyon (1833) as follows:

'Beeliar, the district of Midjegoorong, [also spelt Midgegooroo] is bounded by Melville water and the Canning, on the north; by the mountains on the east; by the sea on the west; and by a line, due east, from Mangles Bay, on the south. His headquarters are Mendyarrup, situated somewhere in Gaudoo [Candoo].' (Lyon 1833 in Green 1979: 177)

Midjegoorong was the father of Yagan. The Elders were adamant that the map should include ethnohistorical information as well as indigenous heritage places along the Fremantle and Swan River estuary region. They wanted an educational and interpretive map of indigenous Fremantle to be prepared and installed at Victoria Quay as part of the larger proposed commercial development currently being planned (as of Feb 2009).

1. Topographic Features

It was recommended that the map show (a reconstruction of) the original topographic features of Fremantle area and the Swan River Estuary (known as "*Derbal*," estuary or *Derbal Yarragan*, Swan River) as it would have looked prior to or at the time of European settlement. This map would depict the original geological and geographic features such as prominent limestone hills, ridges, cliffs, sand dunes, sand bars, shoals, swamps, original river shoreline, estuarine embayments and the rocky bar which used to exist across the entrance to the estuary. The map would show the coastal limestone belt known as *Boyeembarra* (Lyon 1833 in Green 1979:176) and the associated vegetation which was primarily *Xanthorrhoea*, limestone coastal heath, *Acacia* and *Eucalyptus* (for example, *tuart*).

Fremantle is located within the coastal limestone belt known in the Noongar language as *Boyeembara*. According to Robert Lyon (1833 in Green 1979: 176) *"Boyeembara"* refers to 'the division along the coast, consisting principally of lime-stone rock; and generally bearing the xanthorea [sic], and a few of that species of the eucalyptus, called white gum. See booyee.' [*booyee*, according to Lyon, means rock or stone p. 162]

Moore (1842) also makes reference to this coastal limestone belt under the entry 'Bo-ye (stone, rock)

011110000 8 10

'The geological features of the country are not yet ascertained with any precision. The principal rocks are limestone, granite, basalt, and ironstone. The great strata appear to run nearly in a north and south direction. Next, and parallel to the sea coast, is a limestone district, with light sandy soil. Upon this are found the Tuart, the Mahogany [jarrah], and the Banksia.'

Stirling (1827 in Shoobert 2005: 32) refers to this same coastal limestone strip as:

The Limestone ridge of an average breadth of 3 Miles on the Sea Shore then the plain an undulating Valley of an average breadth of 30 Miles and lastly the mountain range rising abruptly from the plain to the height of 1200 feet and extending North and South on a line parallel with the Coast and apparently co-extensive with it.'

Seddon (2004: 242) provides a more recent description of the town of Fremantle:

'bounded by water on two sides: South Bay on the south side, and North Bay at the mouth of the Swan River. To the east and west, it was sheltered by limestone ridges, Arthur Head to the west, with the Church Hill - Cantonment Hill ridge in the east.'

2. Traditional place names for Fremantle – Walyalup

The Elders recommended that the map should illustrate the original vegetation and topographic features of the Fremantle district and include traditional place names where these are known. Lyon (1833) records Walyalup as the name for Fremantle:

'Walyalup, Fremantle; including both sides of the river, north and south' (Lyon 1833 in Green 1979: 172)

The translated meaning of Walyalup is not provided by Lyon (1833). However we would suggest and this idea was supported by several senior Noongar Elders participating in the consultations with Fremantle Ports that the name Walyalup may derive its meaning from walyal (lungs) and up (place of) literally signifying 'place of the lungs.' Body part metaphors were often used when naming parts of rivers, headlands, hills and other prominent features of the landscape. Walvalup is probably an indigenous body part metaphor describing the simulated lung-like action of the alternating land and sea breezes which blew daily up and down the river with seasonal regularity, especially during summer and early autumn when Noongar people were camped in the riverine-estuarine coastal belt. The effects of these winds would been most pronounced at the mouth of the Swan estuary close to where Fremantle is located. The

011100000 5 10

c 1 c

rotating winds, alluded to in early historical accounts by Stirling (1827) and Von Huegel (1833) are described as follows:

~

Stirling (1827 in Shoobert 2005: 32) refers to 'the alternate action of these two winds which seldom leave an intervening calm.' He notes:

'The hot Season of the day lasts but a few hours as the heat even then is mitigated by Sea breezes, and at night by the Land wind.'

When Baron Charles Von Huegel first arrived on the sandy soil at the mouth of the Swan River in Fremantle, Western Australia on 27 November 1833, he observed that

'One feature of the fine weather in summer in Western Australia is that land and sea winds alternate. The land wind usually starts up at or just after sunrise and quickly rises to a gale. At about two or three o'clock, after a brief calm, the sea wind springs up and soon becomes so strong that hardly a boat will dare put to sea.' (von Huegel 1833 in Clark 1994:33)

Little did Stirling (1827) and Von Huegel (1833) realise that what they were describing was an indigenous body part metaphor place name. Walyalup may also be interpreted as referring to the rhythmic ebb and flow of the tide as it moved across the rocky bar which in former times existed at the mouth of the Swan estuary. Stirling (in Shoobert 2005: 22 & 26) observed these tidal movements noting that '... the Tides on this Coast are very much influenced by the existing winds.' The indigenous inhabitants were totally familiar with these wind and tide patterns which regulated their estuarine and coastal fishing activities.

Another example of an indigenous body part metaphor is "Derbal Nara." Lyon describes Derbal Nara as:

'the gulph of the Derbal. This comprehends Mangles Bay, Cockburn Sound, Owen's Anchorage, Gages Roads, and the whole space from the main to the islands, and from Collie Head to the northern entrance beyond Rottenest' (sic.) see Nara. See also Naral. (Lyon 1833 in Green 1979: 178).

Lyon records nara as meaning 'the hollow of the hand' and narall as meaning 'the side' (Lyon 1833) or according to Grey (1840) 'the ribs' (narra, narrail). It was pointed out to us by a Noongar Elder that Derbal Nara was a body part metaphor referring to the 'hollow of the hand.' He illustrated its meaning by cupping his hand to show how the hollow part represents the sea and the upper parts correspond to the higher contours of the mainland and islands. He said categorically that Derbal Nara refers to the place where estuary (derbal) empties its flow into the sea.

011110000 8 10

. . .

3. Meeting place: Manjarup/ Mendyarrup/ Manjarip

It was requested that Noongar places names (where known) and their translated meanings (where possible) be included on the pre-contact Fremantle map.

Fremantle was also known as *Manjarup* (that is, *manjar*, ritual exchange + '*up*' meaning "place of"). This is also rendered as *Manjarip* (Daisy Bates) or *Mendyarrup* (Lyon 1833) – the name of the "head-quarters" of Midgegooroo's territory. This name, also popularly rendered as *Manjaree*, refers to the traditional meeting place that was located within the sheltered area to the east of the limestone ridge at Arthur's Head and west of Cantonment Hill/Church Hill ridge – probably in the general location where the townsite of Fremantle is now situated.

(http://anthropologyfromtheshed.com/wp-content/uploads/2018/01/Swan-River-Settlement-circa.-1832-by-Jane-Eliza-Currie-courtesy-of-the-State-Library-of-NSW-.jpg)

Swan River Settlement circa. 1832 by Jane Eliza Currie, courtesy of the State Library of NSW. https://en.wikipedia.org/wiki/File:Jane_Eliza_Currie_-_Panorama_of_the_Swan_River_Settlement,_1831.jpg

Fremantle was traditionally located at the convergence of three major *bidi* or path ways: (i) the path to Fremantle from Mt Eliza which followed the north side of (and ran parallel to) the Swan River estuary. This was located in Mooroo country (the district of Yellagonga, northwards of Fremantle,); (ii) the path to Fremantle from the Canning River area followed the south side of the river was located in Beeliar country (the leader Midgegooroo); and (iii) the path to Fremantle from the Murray River region located in *Pinjarup* [also Pinjareb] country (the leader Banyowla).

4. Habitation (camping grounds)

Bates (1929 in Bridge 1992: 3) refers to Wal'yulyup as:

01110000 5 10

~ 1 ^

'the point near Fremantle old jetty' which together with 'Manjarip, the old Fremantle tunnel

Habitation areas were located in association with water sources, rivers, fresh water springs, soaks or digging wells. Springs and campsites referred to in historical sources for the Fremantle area include St Mary's spring and a fresh water spring at Arthur's Head. One of the Elders referred to a spring which comes out of the side of the hill at Preston Point (*Niergarup*). Others referred to springs at Blackwall Reach known as *moan gabbi* (black water). The track along both sides of Blackwall Reach is known as *Jenalup* (literally meaning "place of the foot" or foot path). Further research is needed to determine the approximate locations and names of other campsites and springs in the Fremantle region. A list of Noongar sites for the Fremantle area and Swan estuary region can be downloaded from the Department of Aboriginal Affairs website. See Appendix 1.

5. Food resources (fishing, hunting and gathering)

~

[near Arthur's head] ...were old camping places.'

The Fremantle area was rich in food resources, most notably estuarine fish. The large shoals which dominated the estuary, which was protected for a large part of the year by a rocky bar and sand banks at its entrance, provided an abundant supply of fish that could easily be procured, largely through spearing.

Stirling (1827 in Shoobert 2005: 34) commented as early as 1827 that 'they fish either with the Spear or Weirs planted in shoal places.'

The Swan River estuary people were known as Derbalang (which derives from *derbal*, estuary). Symmons (1842: vii, viii) translates this as meaning 'of, or belonging to, the Estuary, particularly applied to the inhabitants on the banks.' Lyon (1833) refers to their language as "Derbalese".

The Noongar people of the Swan River estuary were noted for their extraordinary skills in spearing fish. A quote from the *Western Australian* (12th November 1831) referring to the Swan River natives points out that:

'The accuracy with which they throw their spears is scarcely credible. Their mode of spearing fish has in it something by no means ungraceful, and the certainty with which they can strike even small fish at considerable distance in the water with a spear from fourteen to sixteen feet long, is astonishing....'

This long spear which never left the hand of the thrower was known as a *gidgigarbel*. Armstrong (1836) compares the local group on the Swan River with the northern groups and comments that:

~

'Tribes to the north and north-east, who are far and confessedly superior to the Swan men in the ordinary use of the spear, are below comparison with the latter in fishing. Members of the former tribes have been standing by with the Interpreter, while a Swan man has been exercising this art; and the latter has not only seen but speared a fish, the very approach of which the former could not discover, though anxiously looking out for it. The quickness of their sight is well known to be astonishing - that of their hearing is scarcely less so.'

It would appear that the indigenous people of the Swan River Estuary consumed most species of fish. These included the yellow-finned whiting (mudu, murda), Perth herring (didi), tailor (margyn), sea mullet (kalkarda) and their all-year-round staple cobbler (karailya). In addition to the many different kinds of fish, there was an abundance of prawns and crabs at certain times of the year. The Noongar of the Perth region were terrified of sharks, especially the estuary bull shark. http://anthropologyfromtheshed.com /project/shark-in-nyungar-culture/

In addition to their diet of fish and estuarine waterfowl (ducks, swans and others), foods were also procured from the fresh water (or sometimes brackish) swamps and lagoons which dominated a considerable part of the pre-contact Fremantle landscape. Early maps show a line of swamps running parallel to South Bay. These swamp lands are illustrated in Jane Currie's paintings in 1832. Typical swamp foods included gilgies, tortoises, mudfish and water fowl. Frogs (gova) were also a favoured source of protein. Animals hunted included possum, bandicoot, kangaroo, quokka, wallaby, emu, tamar, rats and lizards. Birds and birds eggs were a favoured part of the diet at certain times of the year. Insects and insect larvae, such as bardi, were also collected from the vast groves of Xanthorrhea which once dominated (what is now) the townsite of Fremantle. See our article on bardi farming and consumption http://anthropologyfromtheshed.com/project/the-bardi-grub-in-nyungar-culture/ (http://anthropologyfromtheshed.com/project/the-bardi-grub-in-nyungar-culture/)

According to early historical records, Drummond writing in 1839 at the Town of Fremantle, notes:

'The spot where the town of Fremantle now stands was originally a grove of Xanthorrhoea [Xanthorrhoea preissii] called here Blackboys, but which now get scarce in the neighbourhood of settlements from the number used as firewood. The genus is of very slow growth, the largest specimens must be several hundred years old: these furnish the natives with a favourite article of food in the larvae of a large brown species of Cerambyx, and also afford a good substitute for lucifer matches.'

Root tubers and rhizomes also formed a substantial part of the coastal Noongar diet. These included the starch-rich seasonal staples of yanjet (Typha, bulrush), bohn (Haemodorum) and the tubers of certain (kara) and orchids (djubak), the fruit and leaves of kolbogo (Carpobrotus, coastal pigface), the leaves

011100000 5 10

c 1 c

samphire which grew in the flat and sometimes salty swamplands along the estuary and other edible roots, fruits and seeds.

6. River crossings - "Matta Gerup"

It was established within the group workshops that the main river crossing was in the vicinity of what is marked on the old maps as Ferry Point, where a sandy promontory with lagoons and samphire flats/ reed vegetation (see old maps) extended out into the estuary leaving only a shallow channel of approximately one and a half feet deep which was "fordable" at certain times of the day. According to a 1841 hydrographic survey (chartered by Stokes on board the Beagle) this channel was a quarter of a fathom deep (equivalent to 1.5 feet) (see attached map).

"*Matta Gerup*" – It was suggested that the name of the river crossing or ford in the vicinity of Ferry Point was probably the same name as that recorded by Lyon (1833) which refers to a ford further upstream at Heirisson Island (where the Causeway is today) known as "*Matta Gerup*" (or more commonly known nowadays as "*Matta Garup*"). According to Lyon (1833) "The name seems to indicate that the water, at this celebrated ford, is only knee deep.' (in Green 1979: 175). He further notes '…the shores of Melville water, where the water is, to a great extent on either side of the broad channel, not more than knee or thigh deep, it is admirably adapted to spear fishing...' (in Green 1979: 175). It is interesting to note that *Matta* (which literally means "leg") when used in this context may be viewed as an indigenous body part metaphor. It is likely that such a description would have applied to all shallow "fordable" or "knee deep" estuarine or river crossings.

It was suggested that the rocky bar and sand bar may have been used occasionally as a river crossing or for fishing but that this would have been dangerous at most times of the year.

7. Trading & ceremonial

The Elders recommended that important ceremonial places such as corroboree grounds and trading places (manjar) be depicted on the pre-contact Fremantle map. They stressed that the trading and ceremonial activities were inextricably bound together. Once could say that the main focus of manjar was ceremonial or ritual trading as many of the goods exchanged were for the production of weapons or ceremonial activities. All groups emphasised that Fremantle was the focus of an important regional trading centre long before white settlement.

Another aspect of the trading ceremony which was highlighted was that in order to support a large group of people for any length of time, there must be an abundance of food to feed them. It was suggested that the rich fishing grounds of the estuary (and even the protected coastal embayments) would have enabled this, especially at certain times of the year when schooling fish were abundant. The Elders were unsure as to the actual timing of the manjar; some suggested spring while others suggested late summer/autumn the salmon or mullet were running.

~ 1 ^

Further research is needed to verify (as far as this is possible) the actual locations of the corroboree grounds, springs and campsites in the Fremantle area for the purposes of map accuracy.

8. Mythological: Dwerda (Dingo) totemic ancestor

All Elders pointed out that the Fremantle area was traditionally associated with the totemic Dingo Ancestor, known as dwerda (or doorda). This is reflected in the original Noongar name for Cantonment Hill which is *Dwerda Weeardinup* (also recorded as *Dwerda Weelandinup*) which is said to refer to the 'place of the dingo spirit'.

The whole extent of the Swan River, including the estuary and its mouth, is associated with *Waugal* mythology. Other areas which the Elders referred to as having mythological significance involving the *Waugal* included *Garungup* (limestone caves and surrounds at Rocky Bay, North Fremantle and Minim Cove, Mosman Park), *Niergarup* (Preston Point) and Anglesea Point (*Walgoolup*).

Garungup (Rocky Bay) was referred to as the place where the *waugal* got very angry and caused the great flood which separated the nearby islands of Rottnest and Carnac from the mainland. After doing this, the *waugal* then wrapped his tail around one of the pillars of the limestone cave and had a rest. This place name derives from the Noongar term *garung* (or its variants *garang, karung, garrang* etc) meaning angry, rage, vengeance or wroth.

Armstrong (1836 in Green 1979: 191) makes a passing reference to the waugal mythology in relation to explaining the separation of the mainland from the offshore islands; he simply notes (but unfortunately does not elaborate):

'They state, as a fact handed down to them from their ancestors, that Garden Island was formerly united to the main [mainland], and that the separation was caused, in some preternatural manner, by the waugal.'

One Elder related how the rocky bar at the entrance to the Swan estuary represented part of the Waugal's body after an enormous battle. Another Elder commented that the formation of the rocky bar made it a sheltered place for Noongars to fish, where they could see the bottom and could see sharks if they were in the vicinity.

The Noongar Elders recommended that the mythology associated with the Waugal (carpet snake) Dreaming and the Doorda (dwerda, dingo) Dreaming which both relate strongly to the Fremantle area should be presented in such a way that they can be artistically portrayed in a respectful, aesthetic and culturally approved manner on the proposed pre-contact indigenous Fremantle map.

Interpretive map of pre-contact indigenous Fremantle - Part 2

01110000 5 10

A second round of workshops were held on 9th February and 20th February 2009 where further ideas

. . . .

were generated regarding the pre-contact Fremantle map, and how it might be represented.

~

All groups once again expressed enthusiasm for the idea of a pre-contact map of the Fremantle/ Swan Estuary area (Macintyre and Dobson February 2009)

Some groups agreed that the map should be presented as a three dimensional wall scape in glass as this would make it look attractive and inviting to tourists as well as to the general community.

One group suggested that it could be made as a bronze casting. This would make it weather proof and vandal proof (especially if it was to be an outdoor installation). One Elder suggested that it could be done in bronze similar to the Kokoda Trail map which is located in Kings Park beside the War Memorial.

It was suggested that reproductions of this feature map could be installed (and/or made available to the public) at other locations within the Fremantle precinct, for those tourists visiting other parts of the city.

It was also recommended that the indigenous places and place names shown on the map should ideally correspond to plaques or markers throughout the Fremantle area which indicate the approximate locations of these old camp sites, corroborees, river crossing etc, so that those people who are interested can actually locate the significant places featured on the original feature map or wallscape. All parties agreed that this was a good idea. However, it was noted that such planning would need to work in with the City of Fremantle and the existing Fremantle Heritage Trail so that such signage complements, rather than duplicates, indigenous places of significance (which may already have been given cultural recognition onthe-ground).

Another (practical) idea was that the map scape could be placed horizontally rather than vertically, thus making it easier for the viewer to locate the features and places using the compass directions provided on the map.

A final meeting was held on Friday 20th February for those Elders who had been unable to make it to the earlier meeting. For their individual names, see under acknowledgments.

They were enthusiastic with the pre-contact map concept design which they had proposed in January 2009 and all agreed it would provide a wonderful showcase to tourists and the wider community alike as to what Fremantle was like in those times, and it would enable them to portray aspects of indigenous culture as it related to Fremantle at that time.

One Elder read out to Fremantle Ports' representatives a list of native plants (together with some of their Noongar names) which would have featured in the coastal Fremantle area prior to contact. This was important from the point of view of Noongar traditional useage of these foods, medicines and resource

011110000 8 10

. . .

materials (some are still used by Noongar families to this day).

One of the Elders emphasized that it was very important to make sure that the pre-contact Fremantle map in its depiction of the different aspects of Noongar culture does not represent <u>Nyoongar</u> culture as a fossilised relic which has no bearing on modern Noongars and their contemporary lives. He pointed out that although much of the original landscape has been destroyed, modified and changed, the Noongar people are nevertheless still "living" their culture and he wanted this message to somehow be incorporated into the design. It was agreed that this was a good point and that the notion of "continuity" of a 'living' culture must be recognised and highlighted.

Finally it should be emphasised that there was unanimous support and enthusiasm by all groups for a precontact Fremantle mapscape which would enable Noongar people to showcase some of the traditional aspects of their culture. They believed that this would serve as a drawcard for tourists and visitors to the Fremantle area.

ACKNOWLEDGEMENTS

PART 1. JANUARY 2009 MEETINGS WITH THE NOONGAR ELDERS

SUMMARY OF IDEAS GENERATED AT WORKSHOPS HELD AT FREMANTLE PORTS ON 28TH JANUARY 2009 WITH SENIOR REPRESENTATIVES FROM THE WILKES, BROPHO, CORUNNA, GARLETT, WARRELL, HUME, COLBUNG, BODNEY AND JACOBS FAMILIES (without Fremantle Ports representatives being present)

3 SEPARATE MEETINGS - WEDNESDAY 28TH JANUARY

MEETING 1 – Members of The Combined Swan River and Swan Coastal Plains and Darling Ranges Native Title Holders and Traditional Owners (CSR & SCP) Richard & Olive Wilkes; Albert & Gwen Corunna; Greg Garlett & Dulcie Donaldson;Victor Warrell & Hayley Warrell; Bella Bropho

MEETING 2 – Senior representatives of the Independent Aboriginal Environmental Group (IAEG) Patrick Hume & Rebecca Hume; The Bibbulman Tribal Group representatives – Phil Prosser & Esandra Colbung; and the senior most representative of the Ballaruk and Didjerak Peoples Corrie Bodney & Me

PART 2 - February 2009 MEETINGS WITH NOONGAR ELDERS

~

Meetings were held with these same Noongar family groups (as above) and senior Fremantle Ports representatives, Ainslie de Vos, Dean Davidson, Jeanette Murphy and Franco Andreoni on Monday 9th February (and Friday 20 February) in the presence of consulting anthropologists Macintyre and Dobson to enable the Elders to present their views to Fremantle Ports representatives regarding their proposed Pre- Contact Fremantle Map which they had suggested at a previous meeting (in January 2009). At these meetings all groups expressed enthusiasm for the idea of a pre- contact map of the Fremantle/ Swan Estuary area.

Monday 9th February

Meeting 1

A meeting was held with Aboriginal consultants Richard Wilkes, Olive Wilkes, Bella Bropho, William ('Toopy') Bodney, Victor Warrell and Justin Warrell, together with senior Fremantle Ports representatives Ainslie de Vos, Dean Davidson, Jeanette Murray and Franco Andreoni, in the presence of consulting anthropologists Ken Macintyre and Dr Barb Dobson from Macintyre Dobson and Associates Pty Ltd.

Meeting 2

A meeting was held with Aboriginal consultants Patrick Hume, Rebecca Hume, Corrie Bodney, Melba Bodney, and Phil Prosser, together with senior Fremantle Ports representatives Ainslie de Vos, Dean Davidson, and Jeanette Murray in the presence of consulting anthropologists Ken Macintyre and Dr Barb Dobson from Macintyre Dobson and Associates Pty Ltd.

Meeting 3

A meeting was held with Aboriginal consultants Cedric Jacobs and Kezia Jacob

. . . .

Smith together with senior Fremantle Ports representatives Ainslie de Vos and Jeanette Murray in the presence of consulting anthropologists Ken Macintyre and Dr Barb Dobson from Macintyre Dobson and Associates Pty Ltd.

APPENDIX 1: Appendix - Aboriginal sites in the Fremantle area (registered at DIA 2004)

The site information below derives from our report:

~

Macintyre Dobson and Associates Pty Ltd 2004 Report on an Ethnographic Survey of the Proposed Fremantle Inner Harbour Dredging Project Area. Prepared for Fremantle Ports. November. Meetings and Consultations carried out by consulting anthropologists Ken Macintyre and Dr Barbara Dobson

On page 9 it states:

6.2 **Previously Recorded Sites**

According to the Register of Aboriginal Sites at the Department of Indigenous Affairs (DIA) there are six previously recorded sites of Aboriginal significance located in the vicinity of Fremantle (see Table 1 below and Appendix 9.2). However, there is only one site - the Swan River (S02548) - which will be impacted by the proposed dredging programme. The Swan River estuary was first recorded by Lyons (1833) as the Derbal Yaragan (Derbal meaning the name of the country surrounding the river' and Yaragan meaning river', see Green 1979). To this day indigenous consultants still use the name Derbal Yaragan to refe the Swan River .

01110000 5 10

. . . .

~

. .

It is also interesting to note that Lyons (1833) refers to Derbal Nara (the gulph of the Derbal) as encompassing "Mangles Bay, Cockburn Sound, Owen's Anchorage, Gages Roads, and the whole space from the main to the islands, and from Collie Head to the northern entrance, beyond Rottenest (sic)." (in Green 1979:178). Nara here refers to 'the hollow or hand' of Derbal, the name of the country. Derbal Nara refers to the continuation of the river estuary out into the sea.

The mythological significance of the Swan River is attributed to the Waugal (or Wagyle), an ancestral creative snake-like being, or as it is sometimes called the Rainbow Serpent.

Your Suburb Name ... South Beach? Alternative name? Or North Coogee?

Your South Beach Community Group is continuing to work hard on the North Coogee suburb name change, however the name South Beach remains stalled with Landgate.

We're still fully committed to the **South Beach** name, but in order for the City of Cockburn formal community consultation to take place, we've been asked to provide a single alternative suburb name to accompany the options of **'Become South Beach'** and **'Remain North Coogee'** in relation to our South Beach/ Shoreline areas.

The SBCG committee, researchers, and campaigners have had long discussions on suitable alternative names and come up with two potential names to choose from, see below. And while we feel that these names are not as ideal as the name **South Beach**, the committee believes that either would be suitable to identify our community, define our location, and be compliant with naming policies, if indeed the South Beach name is no longer an option. These names are listed below,

This decision should come from the South Beach community, therefore we need your feedback. Please tell us your preferred alternative name in this online survey. You'll find the link below or scan the QR Code.

We remain committed to name **South Beach**, which we believe is the **most appropriate**, widely **supported**, and policy compliant name to replace North Coogee. If you'd like more details on this and other aspects of the name change process head to the www.southbeachcommunity.com or email on info@southbeachcommunity.com

Alternative names, in alphabetical order

Remember this alternative name choice is to accompany the the formal City of Cockburn survey options of 'Become South Beach' and 'Remain North Coogee'

Catherine Point

- An important coastal geographic landmark, notable on formal maritime charts
- The current name of the groyne between the two beaches of our proposed suburb
- Not a widely known name or location, even within our community

Nara Beach

- From 'Derbal Nara' meaning Estuary of the Salmon. This is a Noongar name for the Cockburn Sound
- Reflects our coastal location in both English (South Beach) and traditional/Indigenous names
- ✗ A new name and not currently an established name for our area

15.1.5 City of Cockburn Indonesian Delegation - March 2023

ResponsibleExecutive Corporate AffairsExecutiveExecutive Corporate AffairsAuthorExecutive Corporate AffairsAttachmentsN/A

Officer/Committee Recommendation That Council:

(1) APPROVES an Indonesian Delegation budget allocation of \$20,298.00.

TO BE CARRIED BY ABSOLUTE MAJORITY OF COUNCIL

Background

At the 11 August 2022 Ordinary Council Meeting (2022/Minute No. 0168), Council endorsed the following:

That Council:

- (1) NOTED the opportunities identified in developing a strategic economic partnership with Indonesia; and
- (2) ENDORSED the recommendations for development and engagement with Indonesia in FY23.

Specifically, a City facilitated delegation to Indonesia in March 2023.

Estimated cost to the City for the delegation visit to Indonesia is \$15,000. This would be an additional budget requirement and referral back to Council via assessment by the Expenditure Review Committee (ERC) should Council wish to pursue this option.

Submission

Cost estimates have now been completed and are estimated on a 'Cost per delegate'.

The delegation will depart on 12 March and return on the 18 March 2023.

Industry and stakeholder delegates will provide their own funding for the visit based on the same costing model.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

Budget/Financial Implications

The proposed budget includes the following City delegation attendees:

- Mayor
- Acting CEO or nominee
- Executive Corporate Affairs
- Manager Economic Development & Business Engagement
- Up to two Elected Members

Interpreter costs are calculated on the basis of 20 delegates in attendance.

Breakdown of costs per delegate:

Flights (all) per person:	\$1,668.40
Accommodation per person:	\$1,160.28
Translator:	\$ 455.00

Total costs:	\$20,298.00
--------------	-------------

Legal Implications

Travel Insurance covered automatically under the City's current arrangements.

15.1.6 Blue Economy Defence Innovation Hub Update

Responsible Executive	Executive Corporate Affairs
Author	Executive Corporate Affairs
Attachments	N/A

Officer/Committee Recommendation The Council:

(1) NOTES progress being made on the development of a Blue Economy-Defence Innovation Hub and no requirement for a further financial contribution at this stage of the project.

Background

At the 8 September 2022 Ordinary Council Meeting Council:

- (1) ENDORSED the continued exploration of options for the development of a Blue Economy-Defence Innovation Hub; and
- (2) GAVE in principle agreement for a financial contribution to the Innovation Hub, the amount to be determined at the next Expenditure Review Committee meeting.

Submission

This interim report seeks to provide Council with an update on the development of the Blue Economy-Defence Innovation Hub and confirm that no requirement for further financial contribution is required at this stage.

Report

Aligning with the Corporate Business Plan 1.1.2a to 'Position Cockburn as a leader in the Blue Economy' and the Business & Economic Development Service Plan 2023, to provide a sustainable and diverse local economy that attracts increased investment and provides local employment,

The City has been pursuing the development of an Innovation Hub through a number of avenues including:

- 1. The Mayor, Acting CEO and Manager Economic Development and Business Engagement visited the Tonsley (Future Factory) Facility in South Australia.
- 2. Development of a draft Governance Framework for the Hub.
- 3. Identification of a suitable premises for the Hub.
- 4. Positive discussions with local businesses and key stakeholders.
- 5. In principle commitments have been secured from BAE Systems, Curtin University, Department of Jobs, Tourism, Science and Innovation.

As this process is still in the discussion stages there is currently no requirement for further funding from the City.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

• A City that is 'easy to do business with'.

Budget/Financial Implications

No additional funding is being sought for this project at this stage.

Financial commitments have been secured in principle from both industry and the State Government which will now be confirmed contractually.

9.1.1 (2022/MINUTE NO 0010) Manning Park - Cost of Closing and Rehabilitating Unsanctioned Trails

Responsible Executive	Chief of Built and Natural Environment		
Author	Environmental Coordinator - Management, Planning and Policy		
Attachments	 Request for Indicative Quotation - Manning Park Trail Closures 		

Recommendation

That the Committee recommends Council:

(1) NOTES the officer's report.

Committee Recommendation

MOVED Cr P Corke SECONDED Deputy Mayor T Widenbar That the Committee Recommends that Council:

- (1) NOTES the officer's report; and
- (2) ALLOCATES \$50,000 for consideration in the draft 2023-24 Budget to audit and categorise all trails in the upland area of the Manning Park Reserve.

LOST 2/3

For: Cr P Corke, Cr T Dewan

Against: Deputy Mayor T Widenbar, Cr C Reeve-Fowkes, Cr M Separovich

Committee Recommendation

MOVED Deputy Mayor T Widenbar SECONDED Cr M Separovich That Council:

- (1) NOTES the officer's report; and
- (2) ALLOCATES \$50,000 for consideration in the draft 2023-24 Budget to identify and map, through aerial imagery and ground truthing all trails, both formal and informal, in the upland area of the Manning Park Reserve.

CARRIED UNANIMOUSLY 5/0

Reason

There is value in identifying mapping the existing trail network with a short (1 day) site visit to verify the assumptions from the mapping.

It is not uncommon that this sort of work should cost in the order of \$15,000 to \$25,000 based on the size and the density of the vegetation.

524 of 610

I have done many of these projects in my professional capacity and it is quite simple to run through.

There is value in a site visit, that is not particularly expensive to do, given we are in the metropolitan area and no travel/airfare costs will be incurred, to ensure the requirements of the DBCA process to have the data done ahead of time as quickly as we can.

Background

The City of Cockburn is responsible for the management of Manning Park.

There are a variety of people using the trails in the upland area of the Park.

The upland area is described as area 30 in the Beeliar Regional Park Management Plan.

Trail users include walkers, trail runners, orienteers and mountain bikers.

Numerous unsanctioned trails have been created by mountain bikers in the upland area without authorisation from the City.

Left unmanaged, the continued creation of unsanctioned trails will increase the risk of weed invasion, erosion and vegetation degradation.

A Community Engagement Group (CEG) was established to work through some of the issues, including those relating to the Manning Park Mountain Bike Concept Plan.

Advice from the CEG was used to inform a Council Report which was presented to Council at the 12 May Ordinary Council Meeting.

The resulting recommendation from the Council meeting was that Council:

- (1) Defers any decision regarding trails in the Manning Park upland area (Area 30 as described in the Beeliar Regional Park Management Plan), until such time as the Expenditure Review Committee (ERC) have been provided, for consideration and recommendation to Council, a report detailing costs and presumptive timings for:
 - (i) A full evaluation of the biodiversity and environmental values of the area
 - (ii) An Aboriginal Heritage Assessment
 - (iii) A European Heritage Assessment
 - (iv) Creation of a derailed specific Management Plan for Area 30
 - (v) Commencing a structured process regarding trails development following the DBCA Trails Development Process Eight Staged Planning Process.
- (2) Forms a Community Advisory Group for the area once the Management Plan is completed, to guide and inform the Management Plan and future management of Manning Park.
- (3) Requests said report to be presented, at the latest, to the September 2022 meeting of the Expenditure Review Committee (ERC).

As per the Council recommendation, a report was presented to the 21 September 2022 ERC.

The ERC report provided cost estimates and an implementation timeline for the activities listed in the Council recommendation.

As a result of the report the ERC recommendation was that Council:

- (1) NOTES the officer's report
- (2) ALLOCATES funds from the FY23/24 Municipal Budget for a combined Flora and Fauna Survey, and for a detailed Aboriginal and European Assessment
- (3) ADOPTS and ENDORSES the Department of Biodiversity, Conservation and Attraction's 8 Step Plan as a framework for investigating formalised trails in Manning Park
- (4) REQUESTS a report to the November 2022 Expenditure Review Committee which provides an indication of the likely interim costs to protect and maintain Manning Park.

Council, at the 13 October 2022 Ordinary Council Meeting subsequently resolved to adopt the Committee's recommendation.

This report has been prepared to address Recommendation (4) above, which has been interpreted as: to identify costs to close and rehabilitate trails currently used by mountain bikers.

Submission

N/A

Report

The protection and maintenance of the Manning Park upland area from unsanctioned trail development and use would be addressed through two phases of project delivery:

Phase 1 Trail Identification, Closure and Site Remediation

Phase 2 Ongoing Compliance Enforcement and Public Education Messaging

Phase 1 – Trail Identification, Closure and Site Remediation

To estimate the cost of protecting and maintaining Manning Park, the spatial extent of all unsanctioned trails needs to be determined.

This is likely to be a challenging exercise due to the long history of unauthorised trails being established in the reserve over many decades.

Some of these unsanctioned trails have become so well used, by both mountain bikers and other park users, that they now appear as formal tracks.

526 of 610

As some of these well-established trails now form an important part of the movement network for Manning Park, the City would need to consider the implications that closing these trails would have on the broader community.

Despite being unsanctioned, these trails provide an important function and further analysis and consultation would be required to determine the level of impact of closing some trails.

As further investigation is required, Phase 1 has been broken down into smaller steps to help get a better understanding of the overall cost of trail closure and remediation. These steps are outlined below:

- Undertake a Trails Audit to determine the location, length and average width of all trails (both formal and informal) with the upland area of the reserve.
 To be undertaken by a consultant.
- 2. Categorise each of the trails according to condition (good/medium/poor). **To be undertaken by a consultant.**
- Categorise each of the identified trails according to level of usage (low/ medium/high).
 It is envisaged that this would be determined through smartphone applications like Strava and through onsite observations.
 To be undertaken by a consultant.
- Categorise each of the identified trails according to the predominant type of usage (predominantly walking/predominantly biking/other).
 To be undertaken by a consultant.
- Categorise each of the identified trails according to underlying gradient and the potential to cause environmental harm (unlikely/likely/environmental harm observed onsite).
 Note: erosion and vegetation degradation are exacerbated on steep terrain.
 To be undertaken by a consultant.
- Prepare a Trail Categorisation and Mapping Report to display the information obtained through the implementation of Steps 1-5.
 To be undertaken by a consultant.
- 7. Consult with the existing Manning Park Trails Community Engagement Group to select trails for closure based on a review of the Trial Categorisation and Mapping Report with the aim of developing a Trail Closure Plan. **To be independently facilitated.**
- 8. Advertise the Trail Closure Plan to the City of Cockburn community. **To be undertaken by the City.**
- 9. Make adjustments to the Trail Closure Plan based on community input. **To be undertaken by the City.**

- 10. Install signage in the reserve to advise of impending trail closures. **To be undertaken by the City.**
- 11. Close off and revegetate all selected trails. **To be undertaken by the City.**
- Maintain the revegetation areas with watering and weed control over the standard five-year establishment period.
 To be undertaken by the City.

Costs for Step 1 to Step 6

Indicative quotes were sought from two (2) specialist trail design consultants to undertake Step 1 to Step 6 (inclusive).

One consultancy quoted \$50,000 to perform the works and the second consultancy declined the quotation request.

Steps 1 to 6 could be implemented in the 2023-2024 financial year should funding be made available.

Costs for Step 7

The cost of implementing Step 7 is estimated to be \$15,000.

This estimate is based on the costs expended in 2021 for appointing a facilitator and hiring venues to consult with the CEG on issues associated with the Manning Park Mountain Bike Trail Concept Plan.

Step 7 could be implemented in the 2023-2024 financial year should funding be made available.

Costs for Steps 8 and 9

The community consultation required to perform Step 8 and Step 9 requires no additional budget allocation.

It is anticipated that roughly ten (10) hours of officer time would be required to complete these tasks.

Step 8 and Step 9 could be implemented in the 2023-2024 financial year.

Costs for Steps 10, 11 and 12

It is very difficult to estimate the cost of executing Steps 10, 11 and 12 as the actual extent of trails requiring closure, revegetation and maintenance would be dependent on the outcomes and recommendations of the assessment of trails outlined above.

The cost estimates provided for Steps 10, 11 and 12 have been provided using the limited information available at this time and should therefore be viewed as indicative only.

Figure 1, below, depicts the extent of trails used by mountain bikers in Manning Park, with over 17km of trails being used. However, some of these may also be used by other trail users.

The number of trails to that would actually be closed down would be identified in the Trails Closure Plan. Steps 10, 11 and 12 will be calculated based on the assumption that 10km of trails would be closed and there are 10 trails, each 1km in length.

Figure

1: Trails used by Mountain Bikers in Manning Park.

Source: http://www.trailforks.com/region/manning-park-1486544341

To implement Step 10, temporary signage would be deployed at the beginning and at the end of each trail for a two-week period.

This would require the print and design of 20 corflute signs, for which the current market rate is for \$10 per sign.

These signs would then be deployed using the City's existing supply of star pickets. The cost of implementing Stage 10 has therefore been estimated at \$200.

Step 10 could be implemented in the 2024-2025 financial year should funding be made available.

Trail closure would then be initiated by installing two metres of temporary fencing at each end of the 10trails to prevent access.

The City currently purchases temporary fencing at a rate of \$15 per linear metre.

Using this price, the overall cost of temporary fencing has been estimated to be 600 (10 trails x 2 entrances x 2m per entrance x 15 per metre = 600).

The overall area of the closed trail network is estimated to be 1.5 hectares (10 trails x 1,000 m x 1.5 m = 1.5 hectares).

The cost of revegetating 1.5 hectares of native vegetation has been estimated by using the City's Natural Area Management Strategy (NAMS) as a basis for cost per area.

The most recent review of the NAMS in 2017 indicated that \$90,300 was required to revegetate one hectare of good condition vegetation.

To account for substantial inflation since 2017, a price rise of 30% has been applied.

As a result, the cost per hectare for revegetation is estimated to be \$117,390. Therefore the overall cost of revegetation is estimated to be \$176,085.

Step 11 (trail closure and revegetation) could be implemented in the 2024-2025 financial year should funding be made available.

Following the initial planting, maintenance of the revegetation areas will be undertaken in accordance with the costings provided by the NAMS and the 30% inflation multiplier. These costs include weed control, infill planting and watering and are outlined in Table 1, below.

Revegetation Maintenance Costs per Hectare				
Task	Year 2	Year 3	Year 4	Year 5
Weed control – grass	\$780	\$650	\$390	\$390
Weed control – broad-leaved / bulbous	\$1,430	\$650	\$390	\$390
Woody weed removal	\$2,860	\$1,300	\$650	\$260
Infill tubestock	\$7,800	\$1,300	\$0	\$0
Infill – greenstock	\$19,500	\$3,900	\$0	\$0
Maintenance and watering	\$25,350	\$5,070	\$0	\$0
TOTAL	\$57,720	\$11,570	\$1,430	\$1,040

The overall cost of revegetation maintenance in the four (4) years following initial planting is therefore estimated to be 107,640. (57,720 + 11,570 + 1,430 + 1,040) x1.5 = 107,640).

Step 12 (revegetation maintenance) could be implemented between 2026 and 2029 should funding be made available.

Overall cost of Phase 1: Trail Identification, Closure and Site Remediation.

- Preparation of the Trail Categorisation and Mapping Report: \$50,000
- Consultation with the CEG: \$15,000
- Signage: \$200
- Temporary Fencing: \$600
- Revegetation: \$176,085
- Revegetation maintenance: \$107,640
- Phase 1 Total: \$349,525

Phase 2: Ongoing Compliance Enforcement and Public Education Messaging.

There are two options available.

Mountain bikes can be banned completely from Manning Park or mountain bikes permitted with an ongoing surveillance program to ensure no new tracks are created and rehabilitated trails not reopened.

For the purposes of this report, the latter option has been chosen.

As soon as the unsanctioned trails are closed off, the City would need to maintain an active presence at the reserve.

Given that Manning Park is 117 hectares in size and that there are multiple points of entry, permanent surveillance of the entire reserve is not possible.

The most effective means of surveillance would be to install mobile CCTV at selected points and conduct regular Ranger patrols of the upland area.

Mounted CCTV cameras could be purchased at an estimated cost of \$10,000 each with four (4) being deployed at any one time.

Ranger patrols could be accommodated in the current budgets.

The mounted security cameras could be deployed in the 2024-2025 financial year if funding were to be made available.

Even with an active security presence, enforcing breaches of compliance will be challenging and seldom successful.

Identifying people on CCTV footage is difficult and Local Government officers are not authorised to make arrests.

It is therefore anticipated that investing in surveillance will only serve to reduce instances of unauthorised trail construction, rather than to rule them out altogether.

This means that closing off and rehabilitating trails will likely be an ongoing exercise as it is anticipated that new unsanctioned trails will continue to be developed into the future.

Educating the public on the environmental and social impacts of creating unauthorised trails would need to be undertaken to complement the onsite security initiatives.

This could be achieved by conducting community workshops and mailing flyers to local residents on a periodic basis.

These engagement initiatives are estimated to cost roughly \$20,000 per annum.

Overall cost of Phase 2: Ongoing Compliance Enforcement and Public Education Messaging

- Installation of mounted CCTV cameras: \$40,000
- Community Education Initiatives: \$20,000
- Phase 2 Total: \$60,000.

Estimated Cost of Protecting and Maintaining Manning Park

The cumulative cost of implementing Phase 1 and Phase 2 is \$409,525 Both phases could be commenced in 2023-2024 if sufficient funds were to be provided.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation. • High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

The cost of protecting and maintaining Manning Park by closing down unsanctioned trails is estimated to be \$409,525.

To commence this option \$65,000 would need to be allocated in the 2023/2024 budget, with the remainder of the funding to be provided in subsequent years.

Further funding of \$344,525 would need to be made available spread across the next 4 years for trail closure, rehabilitation, and ongoing surveillance.

Legal Implications

N/A

Community Consultation

The Trail Closure Plan would need to be advertised for community consultation in 2023-2024.

Education initiatives would be undertaken on an ongoing basis following trail closure.

Risk Management Implications

There is a risk that significant investment into protecting and maintaining Manning Park would only result in a reduction to the number of unsanctioned trails being developed rather than eliminating all trail construction.

There is a risk that an increased security presence will detract from the amenity of Manning Park.

There is a risk that further delay in making a decision on trails development at Manning Park will result in ongoing degradation of the area, continued community angst and further staff time commitments.

9.2 Finance

9.2.1 (2022/MINUTE NO 0011) Budget Amendments for the FY 23 Municipal Budget

Responsible Executive	Acting Chief Financial Officer
Author	Acting Chief Financial Officer
Attachments	N/A

Committee Recommendation MOVED Cr M Separovich SECONDED Cr T Dewan That Council:

(1) AMENDS the FY23 Municipal Budget as detailed and summarised below:

Nature	Budget Surplus Impact \$
Operating Revenue - Increase	\$6,240,740
Operating Expenditure - Increase	-\$4,221,994
Capital Expenditure - Decrease	\$96,000
Transfers from Reserves - Increase	\$1,192,815
Transfers to Reserves - Increase	-\$3,275,000
Net Budget Surplus - Increase	\$32,561
Existing Budget Deficit (Oct 22 OCM)	\$10,847
Amended Budget Surplus	\$21,714

CARRIED 5/0

Background

The Expenditure Review Committee (ERC) will review amendments to the adopted Municipal Budget before Council amends the budget, as required under the Terms of Reference of the ERC.

Submission

N/A

Report

A number of budget expenditure amendments have been submitted for consideration of the ERC.

The following expenditure amendments are submitted for consideration and recommendation to the next Ordinary Council Meeting, in this case 8 December 2022:

Description (Service Unit)	Expend. \$	Income or Funding \$	Budget Surplus Impact
ARC Small group outdoor training roof (CW6472) – defer to fund Plantroom pool chlorinator and backwash tank	-\$120,000		+\$120,000
ARC Plantroom pool chlorinator and backwash tank – Capital Priority project to replace the existing equipment	+\$124,000		-\$124,000
Rural verge slashing OP7627 – increase level of service from three cuts pa to four cuts pa	+\$50,000		-\$50,000
Residential unkempt mowing service OP7604 – Maintain at current service level but increase requests being received	+\$50,000		-\$50,000
Citywide street tree planting program (WC00300) – reduce program to fund the rural verge slashing and residential unkempt moving service. The street tree planting program will be reduced from \$903,364 to \$803,364	-\$100,000		+\$100,000
New project – District Traffic Study	+\$150,000		-\$150,000
Coogee Beach Master Plan OP0050 Surplus funds to fund the District Traffic Study – Funds will be replaced in the FY24 budget	-\$150,000		+\$150,000
New project – Depot gate replacement – required as the current gate is not fit for purpose and out of warranty. Replace with a sliding gate	+\$22,000		-\$22,000
City facilities Paving (CW6478) reduced to fund the Depot gate replacement project	-\$22,000		+\$22,000
Visko Park Bowling Club – construction cost not recoverable from LGIS as part of insurance claim. The funds are from the Insurance Reserve.	+\$274,773	-\$274,773	Nil
Department investigation legal fees from Insurance Reserve	+\$24,067	-\$24,067	Nil
New OP project – Sand drift cleanup Building maintenance activities from new construction (residential and commercial precincts)	+\$32,400		-\$32,400

536 of 610

Description (Service Unit)	Expend. \$	Income or Funding \$	Budget Surplus Impact
Road maintenance (OP8512) funding to new OP to deal with sand drift (above)	-\$32,400		+\$32,400
Strengthening Fairy Tern nesting sites at Woodman Point (State Government Grant) OP4942	+\$21,719	-\$21,719	Nil
HWRP Waste Disposal – Landfill levy increase to additional tonnages GL485- 6811	+\$2,735,000		-\$2,735,000
HWRP Waste Disposal Landfill fees income – increase tonnages from principal customers GL485-5560		-\$4,210,000	+\$4,210,000
Gate Entry fees for Recyclables - increase in comingle basket rate from Suez (funded from waste collection reserve) OP9556	+\$695,000		-\$695,000
Internal charges to OP7889 for MSW to HWRP Landfill due to delay in W2E (from waste & recycling reserve) GL485-8746		-\$1,800,000	+\$1,800,000
Entry fees MSW increase in internal charge for MSW continuing to go to HWRP till end of April 23 and a reduction of W2E gate fee OP7989 Funded from Waste collection reserve	+\$157,500		-\$157,500
Transfer from Waste collection reserve		-\$852,500	+\$852,500
Transfer to Waste and recycling reserve (the above seven transactions are self- balancing and do not impact the budget surplus.	+\$3,275,000		-\$3,275,000
Removal of duplicate revenue – Bunnings (Bibra Lake) Warehouse GL475-5359		+\$1,606	-\$1,606
Removal of duplicate revenue – Coogee Beach Café GL475-5360		+\$51,829	-\$51,829
New Lease – 11 Quarimore Road, Bibra Lake OP4909		-\$99,996	+\$99,996
Cockburn Live - additional revenue and expenditure OP4907 – Ticket sales estimated at \$152,460 and grant of \$10,000 from Dev WA	+\$172,460	-\$162,460	-\$10,000
New ATO super guarantee claim received from historic IHC educator	+\$41,475	-\$41,475	Nil

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The impact on the City's budget surplus from the budget amendments recommended in this report will be a net increase of \$32,561.

This will result in a net budget surplus of \$21,714 if adopted by Council.

An Absolute Majority of Council will be required to amend the FY23 Municipal budget.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The budget amendments required are for the good governance of the City.

There is a low-level risk impact to the City's operational and budget performance should Council not approve the budget amendments contained in this report.

9.3 **Community Services**

9.3.1 (2022/MINUTE NO 0012) Grants, Donations and Sponsorship Allocations for 2022-2023

	Responsible Executive	A/Chief Executive Officer			
	Author	Head of Community Development and Services			
	Attachments	 Grants, Donations and Sponsorship Recommended Allocations Budget 2022-23 			
		 Melville Cockburn Chamber of Commerce Report 2022 			
Recommendation					
That Council:					
(1)	ADOPTS the revised Grants, Donations and Sponsorship allocations for 2022- 23 as attached to the Agenda.				
Committee Recommendation MOVED Deputy Mayor T Widenbar SECONDED Cr M Separovich That Council:					
(1)	ADOPTS the revised Grants, Donations and Sponsorship allocations for 2022- 23 as attached to the Agenda, with the following amendments:				

- 1. AMENDS the Cooby Youth Space donation request category to a Community Grant allocation and fully funds the amount requested of \$6,000;
- 2. AMENDS the Meeples, Decks and Dice donation request category to a Community Grant allocation and fully funds the amount requested of \$4,104;
- 3. FULLY FUNDS the Cockburn Volunteer Sea Search and Rescue Group application to the amount requested of \$15,000;
- 4. FULLY FUNDS the Cockburn Community and Cultural Council Inc. application to the amount requested of \$10,000;
- 5. INCREASES the funding to Southern Lions Rugby Union Football Club application by \$500 for the amount \$9,500.

CARRIED UNANIMOUSLY 5/0

Reason

All organisations provide significant benefit for their local community.

Officer Comment

Funds the Cooby Youth Space application to a value of \$6,000

The application was not supported due to not meeting the Donation Guidelines:

- The Donations category provides a financial contribution towards an organisation's day-to-day operational running costs, donations do not fund a project or activity, this type of support is met in other grants.
- The application requested funding of the Stephen Michael Foundation Nightfields Program, while the program has merit, it delivers one weekly session for a sixweek fixed period only. The cost of the six-week program is not sustainable as an on-going operational model.
- Applicant did not contact Community Grants Officer to discuss application prior to submission, this is required to support applicant in submitting an application that meets the guidelines and category. Donation Application Form states "Your application will be deemed ineligible if you do not contact a Community Grants Officer".
- Priority is given to applicants that can demonstrate other funding sources so that the donation is subsidising operations and are not solely reliant on funding from the City.

Funds the Meeples, Decks and Dice application to a value of \$4,104 The application is not supported due to not meeting the following Sponsorship Guidelines:

- The Sponsorship (Group) program category provides a financial contribution for a significant event, activity, service or endeavour and in return, the City receives brand exposure and public recognition for the sponsorship contribution. While Meeples, Decks and Dice provide a valuable, fortnightly recreational and social activity for approx. 30-40 local residents, this does not provide the City with brand exposure and public recognition benefits commensurate with an "official sponsorship" arrangement.
- The sponsorship application submitted requests funding of the group's annual room hire costs at the Beeliar Community Centre, this request cannot be met under the sponsorship category.
- Applicant did not contact Community Grants Officer to discuss application prior to submission, this is required to support applicant in submitting an application that meets the guidelines and category. Sponsorship Application Form states "Your application will be deemed ineligible if you do not contact a Community Grants Officer".

Background

Council approved a budget for Grants and Donations for 2022-23 of \$1,455,000.

The Expenditure Review Committee is empowered to recommend to Council how these funds are to be distributed.

540 of 610

At the Grants and Donations Committee meeting on 28 July 2022, the Committee recommended a range of allocations of grants, donations, and sponsorships which were duly adopted by Council on 11 August 2022.

The September funding round was advertised to close on 30 September 2022.

A total of 43 applications were received, including 21 applications for Community Grants and four applications for Cultural Grants, which are being reviewed under the delegated authority of the Head of Community Development and Services.

The remainder includes 14 applications for Donations and four applications for Sponsorship to be considered by the Expenditure Review Committee.

Submission

N/A

Report

In the summary of Grants, Donations and Sponsorship Recommended Allocations Budget 2022-23 (refer Attachment 1) there are the following items for the Committee to consider:

- one recommended adjustment to the committed/contractual allocation for 2022-23 (shaded blue).
- 14 applications for donations (shaded grey)
- four applications for sponsorship (shaded grey).

Committed And Contractual Funding

As per the attached budget, a number of donations are deemed to be committed by legal agreements, such as leases, or by Council decision.

There is one recommended adjustment to the committed/contractual allocation for 2022-23.

Applicant: Melville Cockburn Chamber of Commerce

Requested: \$10,000.00

Recommended: \$10,000.00

The Melville Cockburn Chamber of Commerce (MCCC) is an incorporated not-forprofit organisation that seeks to promote the interests of business within the Melville and Cockburn local government areas.

The MCCC is the major business association for the City and its purpose is to:

- Raise business issues and advocate on their behalf to local and state government
- Provide networking opportunities for local business owners
- Facilitate training and skill development for local business owners.

The City supports this organisation to drive its economic development agenda and facilitate the City's engagement with the business community and the commercial sector overall.

In particular, the MCCC provides the City:

- A dedicated organisation focused on commercial priorities across the region
- A dedicated organisation to assist in the implementation of the economic development framework
- A resource to review and advise on policy development relevant to business sector.

At the 13 August 020 Ordinary Council Meeting, Council approved the following:

"the development of a Memorandum of Understanding (MOU) with MCCC, which formalises sponsorship funding of \$20,000 (ex. GST) per annum for two years (2020-21 and 2021-22) subject to MCCC providing annual reports and meeting agreed obligations and Key Performance Indicators".

MCC have provided their report for 2021-22 (refer Attachment 2).

The MOU was signed in November 2020 with the two-year funding agreement expiring in November 2022, which is inconsistent with the financial year.

To correct this and bring the funding commitment into alignment with the annual budget, MCCC is requesting a further \$10,000 funding for the remaining 2022-23 financial year (six months).

The City's Business and Economic Development Department are satisfied with the performance of the MCCC overall.

Approval is recommended for a further \$10,000 for the remaining 2022-23 financial year.

If adopted an MOU with KPI's will be actioned.

The recommended allocation for committed/contractual funding for 2022-23 is \$482,971.

Donations

The donations recommended to Council for the September grants round are as follows:

Applicant	Comment	Requested Amount	Recommended Amount
Cockburn Volunteer Sea Search and Rescue Group Inc	The City supported a donation of \$12,000 in September 2021, an increase from \$9,000 in 2020. Insufficient evidence to support additional \$3,000	\$15,000	\$12,000

Total			\$119,125

Allocated donations for 2022-23 is \$210,000.

The recommended donations allocation for the September 2022 grants round is \$119,125.

The recommended remaining balance for the March 2023 round of applications is \$90,875.

The applications for donations are summarised below:

Applicant: Cockburn Volunteer Sea Search and Rescue Group

Requested: \$15,000.00

Recommended: \$12,000.00

The Cockburn Volunteer Sea Search and Rescue Group Inc. is a not-for-profit, volunteer run organisation that aims to ensure the safety of the Cockburn community and wider boating public.

The group provides around-the-clock radio communications and emergency rescue and recovery services for a 1,000-square-kilometre area that is increasingly used by recreational boaters, and other aquatic users such as kite surfers, kayakers, and swimmers.

Annually, on average the groups 60 volunteers respond to more than 250 calls for assistance, while logging thousands of radio registrations 24 hours per day, 365 days of the year, bringing over 1,000 seafarers safely back to shore.

A high proportion of those receiving assistance reside within the City of Cockburn, and all boat owners using Coogee Marina store their details in the group's database which are made available, should they require assistance.

Rescues and specialist tasks include day and night searches for missing people, recovery of kite surfers, sinking vessels, vessels aground, and the recovery of countless broken down and out of fuel vessels that were out at sea.

Cockburn Volunteer Sea Search and Rescue Group Inc. report that in the past three years the number of active volunteers has risen from 20 to their current number of approximately 60.

This has been necessary to match the demand for additional shifts in response to increased calls for assistance.

The group work closely with, and support other rescue groups including, the Water Police when requested to do so.

The group receives funding from the State Government through the Emergency Services Levy, and other income from donations and memberships.

The group has previously received funding from the City as follows:

- September 2021 \$12,000
- September 2020 \$9,000
- September 2019 \$9,000
- September 2018 \$9,000
- September 2017 \$8,500
- September 2016 \$8,500
- March 2015 \$8,500
- March 2014 \$8,500
- September 2011 \$8,500
- March 2010 \$8,500
- September 2008 \$8,000
- October 2007 \$8,000
- October 2006 \$6,000

The purpose of the donation request is to support the ongoing operations of the group, including active recruitment, training and purchase of specialist safety equipment for operational members to provide an optimum level of service to the public.

Recommendation

The application received a score of 14/18 and provides a valuable service to the community, however there is insufficient evidence to support an increase of \$3,000 funding from \$12,000 in September 2021 to \$15,000 in September 2022-23.

It is recommended to maintain the current level of support with a donation of \$12,000.

Applicant: Cockburn Branch-Returned and Services League (RSL)

Requested: \$10,000.00

Recommended: \$10,000.00

The Cockburn Branch of the Returned and Services League (RSL) supports the welfare of ex-service and serving members of the Australian Defence Forces and their families in Cockburn.

There are over 320 members, including service members, affiliate members as well as social and youth members.

There has been an increase in service members of about 30 since this time last year which is largely due to the services offered both socially and through the Veterans Welfare Hub.

Several new recreational groups are hosted at the RSL including a sewing group with approximately12 members, a veteran's motorcycle group with approximately 50 members and a Veteran's Prospecting Group with approximately100 members.

The group conducts six commemorative services throughout the year for Cockburn residents and for the wider community, including the bombing of Darwin, Korean and Vietnam veteran's services, ANZAC youth Parade, ANZAC dawn service and ANZAC Day march and service.

Remembrance Day services in November 2021 had high numbers of attendees and the ANZAC Day services in April this year were back to pre COVID-19 numbers of 3,500 upwards.

The group also promotes ANZAC history and military service in local schools by providing speakers from the veteran community (twelve schools booked to date) and providing an annual ANZAC Memorial Award and certificate to schools in the Cockburn area.

The Cockburn Branch opened a Veterans Welfare Hub in October 2019 to provide volunteer trained welfare and pension officers to assist with pensions, advocacy and welfare issues for serving and past service members and their families. Since the start of 2022, 80 people have used this service which is an increase of around 40% on last year. If the RSL was able to attract additional trained advocates, they would be able to increase this support.

RSL also offer a Welfare Fund that can provide short term assistance to eligible members of the veteran community. This is financed by collections during November, where poppies are distributed to the public, with 50% of what is raised going to RSL WA headquarters main Welfare Fund, and 50 percent is retained in the branch account for use with local veterans when required.

The Cockburn Branch of the Returned and Services League (RSL) has received funding from the City in previous years, as follows:

- September 2021 \$10,000
- September 2020 \$10,000
- June 2020 \$2,500 (COVID-19 Response Grant)
- September 2019 \$10,000
- September 2018 \$10,000
- September 2017 \$10,000
- September 2016 \$10,000
- September 2015 \$10,000
- September 2014 \$10,000
- September 2013 \$10,000

- September 2012 \$10,000
- September 2011 \$8,000
- September 2010 \$8,300
- September 2009 \$8,000
- September 2008 \$8,000
- October 2007 \$8,000
- March 2007 \$7,500.

The Cockburn Branch of the Returned and Services League (RSL) group is supported by RSL WA, a Lotterywest ANZAC Day Grant and in-kind support from Joint Logistics Unit West, SES Cockburn, Bibra Lake Scout Group and 56 Army Cadet Unit.

Recommendation

The application received a score of 15/18 and provides a valuable service of serving and ex-service veterans, their families and the wider community.

It is recommended to maintain the current level of support with a donation of \$10,000.

Applicant: St Vincent de Paul Society Yangebup Conference

Requested: \$5,000.00

Recommended: \$5,000.00

St Vincent de Paul Society Yangebup Conference is a volunteer run charitable organisation offering a 'hand up' to those in need with; food, clothing, furniture, bedding, assistance with rental costs, utility bill arrears, medical scripts, companionship, advocacy and referral, to counselling services and financial guidance.

Over the past twelve months, the organisation has supported over 400 families or approximately1,500 people.

In 2021-22 the Yangebup Conference provided emergency relief directly to the Yangebup community to the value of \$71,800. Assistance included:

- Food (\$43,135)
- Bedding & Furniture (\$12,197)
- Clothing (\$2,975)
- Assistance with rental arrears (\$305)
- Assistance with utility accounts (\$6,993)
- Other Assistance (\$6,195).

Each week twelve volunteers visit families requiring support, providing companionship, assessing their needs and providing material aid.

Many currently homeless or at risk of homelessness are also assisted with finding alternative arrangements or paying their arrears.

Donations of food and other household necessities are provided by the Catholic Church and local schools. The shortfall is purchased from food outlets with the funds provided by donations.

The Yangebup Conference receives a small amount of funds, as required, from St Vincent de Paul Society via a federal recurrent operational grant and Lotterywest Emergency Relief funding.

Small donations and resources are provided by local schools through fundraising and food drives.

The application is supported by Mater Christi Catholic Parish Yangebup, Mater Christi Catholic College Yangebup, Emmanuel Catholic College, Success, Hammond Park Catholic Primary School and the St Vincent De Paul Society (WA) Inc.

St Vincent de Paul Society Yangebup Conference has received funding from the City in previous years, as follows:

- September 2021 \$5,000
- September 2019 \$5,000
- September 2018 \$5,000
- September 2017 \$5,000
- September 2016 \$5,000
- September 2015 \$5,000
- September 2014 \$5,000
- September 2013 \$5,000.

Recommendation

This application scored 16/18 and has demonstrated how disadvantaged and vulnerable people within Cockburn benefit from this service.

It is recommended to maintain the current level of support with a donation of \$5,000.

Applicant: Cockburn Central YouthCARE Council (CCYC)

Requested: \$20,000.00

Recommended: \$20,000.00

YouthCARE works in partnership with school communities and the Department of Education to foster the psychological, social, intellectual, emotional, spiritual, and physical development of students.

The local Cockburn Central YouthCARE Council (CCYC) arranges for chaplains to work collaboratively within each school community to deliver pastoral care and support to young people in the school, as well as their families and school staff.

Chaplains support students with concerns such as peer relationship and family relationship stresses, anxiety, mental health issues, behavioural issues and school attendance.

Chaplains also support parents and carers with personal concerns or concerns about their child, school, and/or parenting and they also support school staff, as required.

At a program level, Chaplains arrange breakfast clubs to address poor eating patterns, lunchtime groups to assist with socialisation, lead social, emotional and physical programs to strengthen wellbeing and resilience among students and, undertake one-on-one mentoring.

The work of Chaplains improves educational, social and spiritual outcomes for students, particularly those experiencing stress or difficulty, thereby benefitting the wider community through young people being better equipped for adult life.

Families and staff are also supported to fulfil their roles in the students' lives and in the broader community.

In 2021, CCYC hosted seventeen chaplains in fifteen Cockburn public schools (an increase on the previous year) and had 3,545 conversations with students, 278 with staff and 170 with parent/carers.

The main issues raised include mental health, school concerns, family relationships and peer relationships.

CCYC also served 4,672 meals at Breakfast Clubs, provided 540 social and emotional sessions, compared to 181 in 2020 and 230 community service sessions.

In 2022-23, chaplaincy will be provided at Atwell College three days per week and at Lakeland Senior High School four days per week, funded by a combination of WA Department of Education funding, school contributions, and this donation.

At Hammond Park Secondary College, chaplaincy will be provided two days per week (previously two days per fortnight) due to increased enrolments in 2022, funded by a combination of YouthCARE support, a school contribution, and this donation.

CCYC, with the support of local churches will also contribute to other operating costs of services in these schools, together with its support of primary school chaplains in Cockburn.

During 2021 and 2022, with the impact of COVID-19, CCYC Chaplains have been an important part of delivering essential services in schools.

This is evidenced with 540 social and emotional sessions compared to 181 in 2020 and 34 in 2019.

CCYC has received funding from the City in previous years, as follows:

- 2021, March \$3,000
- 2021, September \$20,000
- 2020, September \$20,000
- 2019, September \$20,000
- 2018, September \$20,000
- 2017, September \$20,000
- 2016, September \$20,000
- 2015, September \$13,000
- 2014, September \$48,100
- 2013, March \$24,000
- 2012, March \$9,450
- 2011, March \$9,000
- 2010, March \$11,600
- 2008, September \$9,000
- 2007, October \$9,000
- 2006, October \$9,000.

Recommendation:

This application received a score of 16/18, and has demonstrated how local students, their parents, carers, and teachers have benefited from this service.

It is recommended the current level of support is maintained with a donation of \$20,000.

Applicant: Cockburn Community and Cultural Council (CCCC)

Requested: \$10,000.00

Recommended: \$8,000.00

Cockburn Community and Cultural Council (CCCC) supports, sponsors, and promotes artistic, cultural and leisure activities within the City of Cockburn.

Annually, CCCC facilitates a Youth Arts Exhibition at Memorial Hall featuring ten schools and more than 1,000 people in attendance, including students, their families, teachers and the general public.

The 10 schools are also supported with a \$200 donation each towards transport to attend the exhibition or for equipment hire.

CCCC also organises an annual Arts and Crafts Exhibition at Spearwood Dalmatinac Club, which enables local artists to sell their artwork and crafts, with approx. 350 people attending for a gold coin donation.

CCCC provides low-cost venue hire for their members and local not-for-profit organisations and low-cost equipment hire for schools, for their own exhibitions, which included four schools in 2021.

Venue hirers and member groups include Artzplace (50 members), Wednesday Ledger Painters Group (25 members) and Keep Fit Group (15 members), with the majority of users aged and/or are people with disabilities, approximately 50-70 people per year.

CCCC also advised they have 15 independent members, a Laos Group that runs a term-based youth arts program, a mailing list of 300 people and their website continues to be popular with local arts/crafts groups to advertise their activities.

They receive financial support from art exhibition sales, member fees, venue and equipment hire and the Department of Community Services and Fremantle Port Community for the Youth Art Exhibition.

The City's donation subsidises costs for the group's website, advertising, equipment, utilities and exhibition costs including \$200 each, for 10 schools towards transport to attend the exhibition or for equipment hire.

The donation also enables CCCC to keep venue and equipment hire costs low.

CCCC has received funding from the City in previous years, as follows:

- September 2021 \$10,000
- March 2021 \$3,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2020 \$10,000
- September 2019 \$10,000
- May 2019 \$3,000 Alcoa Cockburn Community Projects Fund for the Cockburn Visual and Performing Arts Festival
- September 2018 \$10,000
- March 2018 \$2,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2017 \$9,000
- March 2017 \$9,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival
- September 2016 \$9,000
- March 2016 \$2,000 Fremantle Ports Cockburn Community Projects Fund Grant for Cockburn Visual and Performing Arts Festival.

Recommendation:

This application received a score of 11/18. The applicant's website does not list any upcoming events or local arts classes and information provided about member groups is limited and outdated.

There also appears to be less users of the service in comparison to previous years.

It is recommended that funding be decreased to \$8,000 to more accurately reflect current level of service users.

Applicant: Cockburn Toy Library

Requested: \$7,000.00

Recommended: \$7,000.00

The Cockburn community, and in particular families/carers with young children who become members of Cockburn Toy Library, benefit by being able to borrow an extensive range of high-quality toys for a low membership fee.

Cockburn Toy Library enables children to access a wide variety of educational and recreational toys to stimulate their imaginations, develop fine and gross motor skills, practice communication skills and learn the value of sharing.

Parents and carers benefit from saving money on toy purchases, as children often grow tired of them very quickly.

There are range of membership types to provide members with flexibility with both "active" and "non-active" membership types and Health Care Card concession membership is also available.

The Toy Library has created a small local community where members come together to assist in providing the service and get to know each other.

This in turn creates support networks and promotes well-being.

Cockburn Toy Library is the largest and only multi branch toy library in WA.

They currently have around 185 active member families with approximately 200 children who are directly benefiting from the service.

The children range from birth to thirteen years with the majority aged one to four years.

Over the past twelve months members have borrowed 10,586 toys up from 7,767 for the previous twelve months and they regularly have over 500 toys on loan at any one time.

Over the past few years member numbers have increased from 45 in 2016, to 102 in 2019, to 120 in 2021 and are currently 185.

While some of the increase in the last twelve months can be attributed to the merger with Atwell Toy Library they have continued to grow steadily since the merger.

The donation will be used to cover Cockburn Toy Library's recurrent costs including utilities, insurance, waste disposal and cleaning costs.

In 2023, Cockburn Toy Library plans to continue to improve their service by moving into two new rooms at Meerilinga, enabling a dedicated beginners playroom and STEM room, expanding the Atwell branch, revitalising existing spaces to create a more inviting space for young members, e-vamping the Cockburn Toy Library web page and run events to engage the local community and educate families about the types and benefits of play.

Cockburn Toy Library has received funding from the City in previous years, as follows:

- September 2021 \$7,000 Donation
- September 2020 \$3,500 COVID-19 Recovery Grant 2020
- September 2020 \$7,000 Donation
- September 2019 \$7,000 Donation
- September 2018 \$6,000 Donation
- September 2017 \$6,000 Donation
- September 2016 \$6,000 Donation
- September 2015 \$4,000 Donation
- September 2014 \$4,000 Donation
- September 2013 \$4,000 Donation
- September 2012 \$4,000 Donation
- September 2011 \$4,000 Donation
- March 2008 \$2,000 Community Grant new toys
- March 2003 \$1,283 Community Grant new venue.

This application is supported by Autism Association of Western Australia, Meerilinga Children's Services and the City's Children's Development Officer.

Recommendation:

The application scored 14/18 and demonstrates a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$7,000.

Applicant: Friends of the Community

Requested: \$2,000.00

Recommended: \$2,000.00

Friends of the Community (FOC) are a not-for-profit group made up entirely of volunteers, of which there are currently 45.

This group raises funds through a variety of activities, predominantly the sale of food, drinks and equipment hire, with profits and fundraising all returned to the community through donations.

The group has a small food van which sells sandwiches, healthy snacks, tea, coffee, ice cream and cool drinks; however, their main source of income comes from running sausage sizzles.

They also have some equipment and resources available for community groups to hire, and they manage the community trailer for the City of Cockburn.

FOC attend an average of 40 events per annum, with many throughout the City of Cockburn and for other organisations such as P&Cs, the Repair Café, and Coogee Surf Life Saving Club, to list a few.

The group supports the local community, as follows:

- Homelessness: assists with food, clothing, and referrals to appropriate services
- Students: provision of up to three \$1,000 scholarships
- Medicinal assistance and support requests
- Support for people to access sport or recreation groups by providing funds for fees, uniforms, kit bags
- Supporting local P&Cs and other smaller groups with a one-off donation to
- increase membership
- Providing support and referral services to individuals or organisations
- Volunteer opportunities for wide cross section of people, including students, to gain experience, skills and formal qualifications.

The group report they have provided over \$180,000 (over \$11,375 per year) in funding to worthy organisations such as Cancer Council WA, Heart Association WA, Starlight Children Foundation, St Pats and local groups Beeliar Spirit Soccer Club, Yangebup Family Centre and CWA.

FOC has received funding from the City in previous years, as follows:

- September 2021 \$2000 Donation
- March 2021 \$4,800 Donation
- September 2020 \$3,000 COVID-19 Recovery Grant

- March 2020 \$3,660 Community Grant
- September 2018 \$2,000 Donation
- March 2018 \$2,000 Donation
- March 2017 \$2,000 Donation
- March 2015 \$5,000 Donation
- March 2014 \$2,000 Donation
- March 2013 \$2,160 Donation
- September 2011 \$1,300 Donation
- March 2010 \$1,799 Community Grant
- March 2007 \$4,00 Community Grant.

The organisation will use the donation as a contribution towards running the office, internet, telephone and mobile, including insurances and licenses.

There is also the requirement for servicing and maintenance and, an allocation to a renewal program for vehicles, food vans and computers.

The group reports that since the COVID-19 pandemic hit, they have experienced increased demand for services, ranging from assistance with transport to medical appointments, food parcels, ready-made meals and assistance paying for bills.

The City's various resident's associations support the group, and often draw on them for event food services and hire of equipment, as do many other community groups, sporting clubs and schools who benefit from the assistance offered.

Recommendation:

This application scored 16/18 and has demonstrated how disadvantaged and vulnerable people within the City of Cockburn and the broader community benefit from the service.

It is recommended to maintain the current level of support with a donation of \$2,000.

Applicant: Yangebup Family Centre

Requested: \$13,125.00

Recommended: \$13,125.00

The Yangebup Family Centre (YFC) is a community managed not-for-profit organisation that supports and promotes connection and wellbeing within the local community.

The centre is a cultural hub where children, families, individuals, and seniors can embrace diversity and belonging. Over 500 families attend the centre weekly, and they maintain an e-news database of over 1400 people. Services include programs for children, community workshops and events, parenting information and support services, and community group meeting facilities.

The YFC services a large culturally and linguistically diverse community and supports vulnerable and disadvantaged families and low-income families with free or low-cost activities.

The centre is funded by the State Government through the Department of Communities and the City of Cockburn, and has over 80 volunteers who assist with governance, management, program delivery, administration, social media management and marketing, grant applications, problem solving, capacity building, program design, fundraising, events, and community initiatives.

It is estimated the financial contribution of these volunteers is more than \$160,000 per annum.

The YFC crèche was initially established in 2002 to support the needs of a craft group.

There are now three crèche sessions per week each with 19 places available, providing 57 places for children from 0-6 years on a weekly basis.

In 2021-22 over 120 families participated in programs supported by the crèche, such as 'Tuning into Kids', 'Food Sensations', 'Infant First Aid, Craft n Chat, Yarn Bombing and Cultural Cooking. Parents can also participate in Play Club, a program designed to prepare children for kindy, for children 2-3 years, while their younger children attend the creche.

Annual survey results indicated that 98% of people are either very satisfied or satisfied with programs and the services provided and, 85% feel better supported from having attended the centre.

By providing a crèche, YFC can address issues of social isolation, mental health, and financial hardship by providing a way for families with young children to have an affordable social activity or to attend workshops to gain parenting or life skills with other families from the community.

Crèche provision is an engagement strategy to reduce barriers so that families are supported to build on their knowledge, confidence, and skills to effectively manage their own lives and, to increase their participation in community activities.

Yangebup Family Centre has received funding from the City in previous years, as follows:

- September 2021 \$13,125
- May 2021 \$3,000 Community Grant
- September 2020 \$13,125
- September 2020 \$4,800 COVID-19 Recovery Grant
- May 2020 \$4,000 Sustainability Grant

- September 2019 \$13,125
- August 2018 \$11,776 Auspice for Cockburn Creates
- March 2018 \$3,603 Sustainability Grant
- September 2017 \$12,000
- March 2017 \$2,000 Community Grant for 25th Anniversary Open Day
- September 2016 \$12,000
- September 2015 \$12,000
- August 2015 \$1,637 Donation for Health Nurse Clinic
- March 2015 \$2,500 Sustainable Events Grant Community Open Day
- September 2014 \$12,000
- September 2013 \$9,500
- September 2013 \$3,025 Alcoa Project Grant for Open Day
- September 2012 \$7,000
- September 2011 \$5,000
- September 2010 \$5,000
- September 2009 \$5,000
- September 2008 \$5,000
- October 2007 \$5,000
- October 2006 \$5,000.

YFC has strong relationships with Cockburn Integrated Health, Yangebup Progress Association, Beeliar Community Voice, Connecting Communities for Kids, Child and Adolescent Health (Yangebup and South Lake), Southwest Metropolitan Parenting Service and Cockburn Chinese Community Association.

Recommendation:

The application scored 14/18 and demonstrated a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$13,125.

Applicant: Meerilinga Children and Community Services Cockburn

Requested: \$10,000.00

Recommended: \$10,000.00

Meerilinga is a not-for-profit organisation and registered charity that promotes the United Nations Convention on the Rights of the Child, working with children, families, professionals, planners and the community to raise the status of children in Western Australia.

The organisation is recognised for excellence in promoting and supporting the education, care and wellbeing of children, and providing a diverse range of

professional resources and support to children, the health and education sectors, child protection, parents, the community and volunteers.

Meerilinga Cockburn, is in Coolbellup and is a well situated, safe facility that enables community to engage widely with various groups within the community.

The service itself is well resourced with ample onsite car parking, meeting and activity rooms and a well-equipped kitchen.

It has large outdoor nature play spaces designed in extensive consultation with children, families, and community, with ample shade provided.

The City's funding supports Meerilinga operational costs and is an investment in the Cockburn community through services that support parents, over 50's, youth, adult education programs, volunteering, early learning programs such as the Bindi Kindi Program, Pre-Kindy Program and Playgroups, school holiday activities, street library, workshops such as Boost your Wellbeing, Social Media and Mental Health, first aid, parenting courses, community celebrations and activities that reflect the diverse cultural and community context.

Meerilinga is committed to supporting the Cockburn community and in particular families that are facing disadvantage and adversity that may lead to increased vulnerability.

They provide low cost and free, high-quality services and programs that support and strengthen families and the community's capacity to thrive and achieve their personal and life goals.

They provide sponsorship to children facing disadvantage to attend the early learning programs including playgroups, and source inclusion support for children with additional needs to access the early learning programs.

The organisation reports approximately 120 children enrolled in the Pre-Kindy program and 142 families in playgroup in 2021-22. To date 25 children are enrolled in Bindi Kindi program.

In 2021, 66 children participated in the school holiday program and 86 children in 2022.

Throughout 2021-22 various community education workshops were held which included social media and Mental Health, a Waste Education Workshop and Playtime Parenting Program which attracted 55 participants.

Meerilinga has a registered training arm and can offer a national accredited skill set and courses.

Targeted at unemployed culturally diverse women and youth at risk, training is offered 15 hours a week during term for adults to attain first aid and part of a Certificate III in Early Childhood. 62 women, five youth and two men have participated.

Meerilinga Cockburn, has received funding from the City in previous years, as follows

- March 2022 Cultural Grant \$1600
- September 2021 \$10,000
- September 2020 \$10,000
- September 2019 \$10,000
- September 2018 \$10,000 Plus \$3,000 once off contribution
- August 2018 \$16,437 Cockburn Creates Project
- March 2018 \$900 Cultural Grant for NAIDOC Celebration
- September 2017 \$10,000
- September 2016 \$10,000
- September 2015 \$10,000
- September 2014 \$10,000.

In 2022-23, Meerilinga Cockburn will continue to implement their Reconciliation Action Plan to strengthen their connections and positive relationships with Aboriginal and Torres Strait Islander elders, families and community groups, deliver adult education, career development and local traineeships, and deliver free or low-cost activities for children and families during school holidays, to strengthen parent/child relationships/connections, to learn new skills, to connect community members and provide a safe environment.

Recommendation:

The application scored 14/18 and demonstrated a direct benefit to local families.

It is recommended to maintain the current level of support with a donation of \$10,000.

Applicant: Volunteer Home Support

Requested: \$6,500.00

Recommended: \$2,000.00

Volunteer Home Support (VHS) was established in 1986 and provides government subsidised domestic cleaning, transport, handyman, lawn, and gardening services to people that are frail, aged and, individuals with disability for a reduced cost of \$10 p/h.

Specifically, for those under 65 years and ineligible for NDIS through the State Continuity of Support Program and those aged over 65 years (or over 50 years for Aboriginal and Torres Strait Islanders) through the Commonwealth Home Support Program. VHS services the Cities of Cockburn, Fremantle, Melville, Kwinana and Rockingham, funded by State Home and Community Care and Commonwealth Home Support Programs (CHSP).

VHS's lawn and gardening service generally disposes of client's garden and lawn waste at the Henderson Waste Management site rather than placing it in the client's green waste bin.

In 2021-22, 413 Cockburn residents required this service approximately every 4-6 weeks and paid \$4 each time for this service, which is a 50% reduced fee due to the City's annual donation. 88 of these clients had the \$4 fee waived due to their financial circumstances.

Prior to May 2012, VHS was not charged tipping fees, however once the fees were charged VHS has received funding from the City as follows:

- September 2021 \$6,000
- September 2020 \$6,000
- September 2019 \$5,000
- September 2018 \$6,000
- September 2017 \$6,000
- March 2016 \$5,000
- March 2015 \$5,000
- March 2014 \$5,000
- March 2013 \$5,000
- October 2006 \$5,000.

Based on client data provided by VHS funds received from clients at \$4 generates between \$5,200 and \$7,800 income annually, which currently covers VHS's annual tipping fees, without the City's donation.

In 2021-22 VHS paid to Henderson Waste Facility \$7,085 in tipping fees.

In addition, VHS has requested an increase in funding from \$6,000 in 2021 to \$6,500 in 2022 to allow for additional tipping fees due to weed removal, as weed spraying has ceased due to new Work, Health and Safety laws.

The Service provided by VHS is funded by the Commonwealth Government as part of the CHSP. There are many other CHSP providers within the City including Cockburn Care that provide this service, no other CHSP provider receives a donation from the City.

Recommendation:

The application scored 12/18 and the need for a donation of \$6,500 has not been substantiated.

It is recommended that a donation of \$2,000 is provided to support the service.

Applicant: Cooby Youth Space

Requested: \$6,000.00

Recommended: \$0

Cooby Youth Space, in Coolbellup, is a newly incorporated entity, which provides a drop-in space and access to activities, programs and support for young people, particularly those at risk between the ages of 12 and 18 years.

It aims to create a safe space for young people to get something to eat, feel cared for and access information and support services.

Cooby Youth Space is requesting funding to engage the Stephen Michael Foundation to deliver their Nightfields Program, which runs for six weeks and actively engages young people in sporting and recreational opportunities, as well as access to mental health services, such as Headspace.

Cooby Youth Space has received funding from the City in previous years, as follows:

• March 2022-Community Grant \$3,000 (Equipment)

Recommendation:

The application is ineligible as the applicant did not contact the City's Grants Coordinator to discuss their proposal prior to submitting the application, which is a mandatory requirement.

Also, the application does not meet the donation grant criteria, as outlined in the grant guidelines.

The request is not for the day to day running costs of the service and is not to subsidise operations, rather it is solely reliant on funding from the City.

It is recommended that the application is not supported.

Applicant: Imagined Futures (formerly Southwest Metropolitan Partnership Forum)

Requested: \$15,000.00

Recommended: \$15,000.00

Imagined Futures (IF) was established in 2013 through a Social Innovation Grant from the Department of Local Government and Communities to trial collaborative and innovative approaches to respond to complex social issues in three local government areas of Cockburn, Fremantle, and Melville. Previous grant agreements ceased in July 2017, and IF was granted a reduced amount of funding (\$200,000) by the Department of Communities to cover a two-year period until 31 July 2019, and a further \$80,000 per annum for five years commencing in July 2019.

IF also secured funding from Lotterywest to undertake a codesign project aimed at linking emerging cohorts of people experiencing disadvantage to the right help at the right time to prevent them entering an entrenched cycle of disadvantage.

IF is auspiced by St Patrick's Community Support Centre to manage any funds received.

IF is a collective of over 60 organisations, both government and non-government, business, philanthropy, and community members, which brings innovative approaches to addressing complex issues for communities in the Southwest metropolitan region, including Cockburn.

IF recognises that the only way to effect large-scale social change is through working together, pooling and mobilising the vast resources available in our community to achieve shared goals.

The organisation employs a collective impact approach across four working groups, the outputs of which, are delivered in Cockburn.

The IF partnership provides a mechanism to unlock the power that exists in the community by harnessing collective knowledge and resources and translating them into effective action.

Imagined Futures:

- partners to foster information sharing and strong relationships
- advocates to raise awareness of community needs, emerging issues, priorities, and service gaps
- connects by optimising opportunities to access funding to deliver collective projects
- trials through testing new and innovative service delivery models and ways of working.

IF does this by:

- convening strategic leadership group meeting for the Southwest metropolitan region to identify priorities and develop innovative ways of responding
- supporting four working groups including a youth initiative working group aimed at promoting the agency and capacity of young people, a place-based community intervention, a strategic housing and homelessness group and a mental health (Alliance Against Depression) working group
- supporting a time limited working group which aims to connect people new to hardship to the right support, at the right time, at the right place.

IF has four priority areas of focus:

- youth contributing to improvements in engaging in school, socio-emotional resilience, and overall wellbeing for students
- community partnering with residents in a highly disadvantaged community to build social connection and foster a safer, more liveable community
- Housing and Homelessness developing a regional plan to assist local communities to design place-based solutions that address local issues
- mental health implementing a model proven to improve the treatment and care of people affected by depression.

IF acts as a mechanism for improving service delivery for vulnerable people across the Southwest metropolitan region.

The community benefits because of less duplication of services, less competition for resources, more strategic allocation of these resources and more programs delivered in partnership.

The youth initiative is concerned with improving outcomes for young people across a variety of projects:

- Keeping Kids Engaged Program- ongoing engagement in school has been demonstrated to reduce disadvantage in later life
- brokering suicide prevention/ capacity building workshops using their relationship with the Department of Education and Neami National to engage with schools
- a new project that seeks to connect aboriginal children in care to family, cultures, and community (there are 147 aboriginal children in care in the Fremantle District which includes the City of Cockburn). Providing opportunities for children to remain connected to their siblings and their cultures will serve as enduring sources of strength for these young people.

Similarly, IF's strategic work across their other priority areas is all aimed at improving outcomes for disadvantaged and/or vulnerable communities

In Cockburn, during the period July 2021 to June 2022:

- 89 young people participated in the Keeping Kids Engaged Program between South Lake Primary School and Lakeland Senior High School
- Across the four pillars of the Alliance Against Depression framework, IF convened a stall at the Black Dog on Lead event in Cockburn which was estimated to have 600 people attend where they launched their Mental Health Online Support tool
- 164 GPs across Cockburn received resource packs designed to improve treatment and care of people affected by depression including through promoting local community mental health referral options (with each GP having hundreds of patients)
- The metro bus awareness campaign is estimated to have a total of 300 000 contacts, and our social media campaign reached 27 000 people across the three LGAs of Cockburn, Fremantle and Melville

- IF's tailored mental health resource for front line police officers was distributed to 260 front line officers across the district
- IF offered mental health training in partnership with the City of Cockburn to fifteen parents, local front line service providers (20 participants), sporting clubs (ten participants) In addition to the harder to quantify benefits of facilitating collective impact work.

The Imagined Futures Keeping Kids Engaged program continues to be delivered at Lakeland Senior High School.

There are currently 30 young people taking part in the two-term program.

It is intended that another 30-50 students will participate in Terms one and two in 2023.

IF is currently liaising with East Hamilton Hill Primary school with the intention of starting the program there in Term one 2023, with preliminary workshops taking place in Term four 2022.

The primary school program will be available to up to 20 students.

They are also in the planning phases of offering suicide prevention/ capacity building workshops to a broader range of schools across the City during 2023.

It is anticipated that these workshops will reach a minimum of 150 students.

IF are continuing to seek out opportunities to broker mental health training and Moorditj Koort have indicated that they would like to participate (up to 20 workers).

The partnership is continuing to seize opportunities to raise awareness in line with our Alliance Against Depression work.

Further, the Where is the door? project is designed to connect people to the help they need when they need it.

IF have previously received the following funding from the City to assist with their operations:

- 2021 March \$15,000
- 2020, March \$15,000
- 2019, March \$10,000
- 2017, September \$10,000

Recommendation:

This application received an assessment score of 15/18 due to its work with disadvantaged youth in Cockburn.

The City's Children's Development Officer is supportive of the program.

It is recommended that the City support the donation request for \$15,000 to support the work IF does within the City of Cockburn.

Applicant: Anglicare WA

Requested: \$15,000.00

Recommended: \$10,000.00

Anglicare WA is a leading not-for-profit organisation that works to alleviate disadvantage in Western Australian communities.

They currently provide 89 social services across 74 communities in Western Australia, supported by over 600 staff and 250 volunteers.

Anglicare's Making Ends Meet Program supports renting families who are experiencing significant 'housing stress'.

They offer immediate relief to clients struggling with debts, as well as providing longlasting skills and tools to assist in long-term stability.

The Housing Support Workers and Financial Counsellors liaise with Centrelink, real estate agents and relevant community services to achieve the best possible outcomes for clients.

They advocate on behalf of tenants to secure practical repayment plans, negotiate rent reductions, and reassess tenancy terminations.

Furthermore, they collaborate with clients to develop a household budget, giving them the tools to manage it on a weekly basis.

Making Ends Meet is completely unique to other financial support services.

It provides working tenants with the financial assistance they need to keep their private rental home, whether this means providing grants to help pay bills, securing practical repayment plans, negotiating rent reductions, reassessing tenancy terminations, advocating for families to receive child support and educating families on budgeting.

At present, 21.8 percent of the City of Cockburn residents are renting (up to 42 percent in Cockburn Central).

Within the City, the median rent has increased 7.5 percent for houses and 11 percent for units in the past year.

Tenants are often living pay to pay, and an unexpected obstacle can put their lease in jeopardy. Many events can lead to critical financial insecurity, sudden illness or injury, not receiving child support, relationship breakdown, or escaping family and domestic violence.

The City of Cockburn currently has a 0.52% current vacancy rate, meaning that tenants who are facing eviction are not even able to find new rentals, increasing their likelihood of experiencing overcrowded crisis accommodation, backpacker hostels, 'couch surfing' or homelessness.

Clients receive financial support from Making Ends Meet to pay for rent, internet, car registration and other utilities. But Making Ends Meet is not simply a quick fix.

Anglicare continues to support clients until their financial and housing situation has stabilised, ensuring they have the tools to manage without further assistance. The effects of the program last long after the initial support.

Making Ends Meet is designed to help working families retain their rentals, however with the current housing crisis, Anglicare is reporting higher and higher numbers of single/childless tenants in need, particularly within Cockburn.

In receiving a donation from the City of Cockburn, Anglicare would expand their target demographic to include single and childless renters. In so doing, they hope to bridge an identified gap in services.

Previously, Anglicare engaged with Cockburn clients by providing in-reach at the South Lake Ottey Centre, however this unfortunately ceased due to COVID-19.

It is intended that this service would be reinstated with the Making Ends Meet Program on a part-time (0.2-0.4 FTE) basis, and they are currently in discussions with the South Lake Ottey Centre to determine which days of the week they will operate the service.

This model of delivery will enable Anglicare to support an additional ten to fifteen clients financially in 2023, all residing within the City of Cockburn.

In addition, Anglicare expects to support dozens of Cockburn residents' referrals to other pathways, such as the City of Cockburn's free financial Helping Minds' mental health support in Success, and Anglicare WA's state-wide Emergency Relief services.

Funding is being sort, to support Making Ends Meet's ongoing operation, specifically brokerage within the Cockburn area.

This means that not only will the funding be used solely within the City of Cockburn, but in fact it will be redistributed to Cockburn residents in need.

Anglicare has previously received the following funding from the City to assist with their operations:

• September 2020, COVID-19 Recovery Grant \$1,250.

Recommendation:

This application received an assessment score of 14/18.

The City's Support Services Lead is supportive of this proposal which provides a point of referral for the City's financial counsellors and vice versa.

The applicant has requested \$15,000 which is not in commensurate with the number of Cockburn residents that would be supported by the service.

It is recommended to support with a donation of \$10,000.

Applicant: PortCare

Requested: \$20,000.00

Recommended: \$5,000.00

PortCare is a not-for-profit charity established since 2000 based in O'Connor.

It provides free bread and fresh produce to the disadvantaged and the financially vulnerable, operates a low-cost supermarket and opshop, provides food relief for people experiencing financial hardship, offers free community meals and school breakfast programs and works with support agencies like Centrelink, hospital social workers, chaplains, job network providers by accepting referrals for assistance.

PortCare currently employs 3.5 FTE (fulltime equivalent) staff, three of whom are Cockburn residents and supported by a team of 30+ volunteers.

Every month, PortCare distributes an average of 800+ boxes of fruit and vegetables.

PortCare also host weekly community meals twice a week with an average weekly attendance of 120 people.

PortCare also provides emergency food parcels to those experiencing financial hardships or homelessness.

In 2020, PortCare assisted a total of 556 people (364 adults, 192 children), 171 of those were residents of Cockburn (103 adults, 68 children).

In 2021, PortCare assisted a total of 561 people (363 adults, 197 children) of whom 167 were Cockburn residents (91 adults, 76 children).

PortCare customers come from all walks of life across diverse socio-economic and cultural backgrounds.

This is evidence of the inclusive and safe environment they have created in their shop.

Everyone who walks through the door is treated with respect and dignity by staff and volunteers.

It is not surprising that more than 50 percent of those who accessed their services are First Nations Australians or people from disadvantaged backgrounds.

PortCare also supports people experiencing homelessness directly by helping them with food relief, supplying them with sleeping bags, blankets, and warm clothing if they are sleeping rough.

They work closely with Homeless Healthcare when their clients are moving into permanent housing by donating furniture items like beds, basic furniture items where required.

In 2022-23, with the continual rise in living cost, especially in a tight rental market and increasing interest rates for homeowners, PortCare are expecting that more families will access their emergency food relief programs.

They estimate 200 Cockburn residents will benefit from their service during this period.

PortCare have not received funding from the City previously.

Portcare receives funding from their supermarket sales and has requested \$5,000 from the City of Fremantle for Christmas grocery hampers for 40 families.

Recommendation:

This application received an assessment score of 14/18 due to the benefit they provide to disadvantaged Cockburn residents.

The City's Support Services Lead is supportive of the proposal as Cooby Cares has ceased to operate more Cockburn residents may use this service in the future.

Although it is not based in Cockburn it is assessable to Cockburn residents.

The applicant has requested \$20,000 which is not in commensurate with the number of Cockburn residents that currently use the service.

It is recommended to support with a donation of \$5,000.

Sponsorship

The sponsorship recommended to Council are as follows:

Applicant	Comment	Requested Amount	Recommended Amount
Cockburn Masters	As requested	\$11,000	\$11,000
Swimming Club Inc			
Southern Lions Rugby Union Football Club	The City supported a donation of \$10,000 in September 2020. Insufficient evidence to support an additional \$2,500. Applicant has already received \$3,000 funding from the City in 2022.	\$12,500	\$9,000
Perth Glory Football Club	As requested	\$5,824	\$5,824
Meeples, Decks and Dice Inc	Ineligible-application doesn't meet grant criteria	\$7,500	\$0
Total			\$25,824.00

Allocated group sponsorship for 2022-23 is \$90,000.

Swimming WA Official Sponsorship of \$7,500 for the Open Water Series 2022/23 Coogee Round was approved at the Ordinary Council Meeting on 13/10/22.

The recommended sponsorship allocation for the September 2022 grants round is \$25,824.

The recommended remaining balance for the March 2023 round of applications is \$56,676.

Following are the latest round of proposal summaries.

Applicant: Cockburn Masters Swimming Club

Proposal: Coogee Jetty to Jetty Swim "Major Event Partner"

Requested: \$11,000.00

Recommended: \$11,000.00

Cockburn Masters Swimming Club is a not-for-profit, incorporated association, affiliated with Masters Swimming Australia.

Masters swimming is for anyone aged 18 and over, and promotes "fun, fitness and friendship" through swimming.

The Club offers a wide range of activities to actively encourage participation and promote health and fitness, including the annual Coogee Jetty to Jetty Swim, the largest community-based swim in WA.

The 2022 event was cancelled due to COVID and in 2021 (a reduced capacity of over 50%) attracted 600 swimmers and 75 volunteers and, the 2020 event (previous full-sized event) attracted over 1,300 registered swimmers (1,128 participated on the day) and has been a sell-out event for the previous four years in the 1500m and 750m events.

In 2023, their vision continues to be based on "giving back" to the community by hosting a memorable and fun event and will include all the traditional features, 250m Try It Swim, 750m Splash, 1500m Classic, Beach Walk, Kid zone & fun activities and Community Breakfast.

The event will be delivered by the club's event committee, who have a great deal of event management experience from continuity in key roles such as the Event Coordinator and Race Director and, which will work closely with all stakeholders including the City of Cockburn as the Major Event Partner.

As a truly genuine community swimming event, the target range of participants includes community-based swimmers and their families, across all ages and abilities.

The 250m Try-It Swim offers a swim for younger children (8-10 years) who are too young to enter the traditional "jetty to jetty", families often with multi-generations taking part and novice swimmers attempting an ocean swim for the first time or seeking confidence to do more.

The 250m Try-It has become a key component of the event since being introduced and is a highlight for the volunteers.

Traditional 750m & 1500m races will attract a broad range of swimmers, again with a family focus and with participants ranging from 10 years to 90+ years.

With 1300+ swimmers expected to take part, safety and enjoyment is maintained by separating the races into "wave starts", each one gaining equal focus, support, and attention at all times by the volunteers.

This all aligns with the Club's primary objective of encouraging the broadest possible range of community participation in this swimming event as a healthy, fun, and safe activity.

Around 20% of swimmers are Cockburn residents and a priority period is offered to Cockburn residents in advance of public entries.

The Club will promote the event via:

- Electronic communications
- Regular electronic database mailouts (EDM's) to their past swimmer database of 4,000+ emails
- Direct contact with local sporting clubs, groups, masters and other swimming clubs
- 3rd party communications through sponsor and partner databases (e.g., ASB branded merchandise, BlueChip Timing
- Brand creation & awareness campaigns
- Event website used extensively for promotions and event/sponsor information
- Social media platforms (Facebook & Instagram) used extensively
- Event posters limited number printed for display on community boards
- Event flyers electronic versions emailed to recreation centres, sponsors, other groups & used on social media
- WOW Swims website features & other promotions coordinated by MSWA
- Other events cross-promotions through other events they have associations with (e.g., Christmas 10K Swim & Champs of the Bay).

Local businesses are also involved as suppliers and sponsors and Coogee Beach Surf Life Saving Club provides contracted water safety services.

Wherever possible, the Club aims to use services from within the Cockburn community.

The City has been involved for many years and has been a Major Event Partner for the last seven years.

This role is publicised and acknowledged through the website, Facebook, media releases and event flyers and posters. A showcase article will also be included in an electronic database email (EDM).

The Club proposes that as Major Event Partner, the City will receive excellent exposure and branding opportunities over and above all other sponsorship categories, including brand recognition through this year's naming convention, "Coogee Jetty to Jetty Swim 27 in partnership with the City of Cockburn".

Other branding opportunities include:

- Exclusive naming rights for the "City of Cockburn Community Breakfast"
- Exclusive naming rights for the "City of Cockburn Kid zone activities"
- Logo on event swim caps
- Logo on all posters and flyers
- Logo incorporated into event email signature
- Logo on event display boards
- Opportunity for City to provide promotional display banners
- Opportunity for City to host a promotional marquee/tent

- Web and social media cross-promotions
- Logo on adverts placed in print media
- Web and social media cross-promotions
- Opportunities are also provided for promotion of other City services past
- examples include marquees and promotions for Cockburn ARC and Co-Health.

There is also flexibility to work collaboratively with the City for other support opportunities ensuring that the City's recognition as Major Event Partner will be maximised.

In the past, the Club has offered:

- An invitation to Elected Members to attend and participate
- An invitation to the Mayor to attend and take part in presentation of prizes during post-event announcements
- Up to four complimentary swim entries to use as the City sees fit (e.g. a promotion to the City's co-workers or a City-coordinated prize-giveaway through social media channels and/or the Cockburn Soundings newsletter)
- Cross-promotion of the Cockburn ARC.

Cockburn Masters Swimming Club has received funding from the City in previous years, as follows:

- September 2021 \$17,000 (25th anniversary event in 2022)
- August 2021 \$3,000 Small Events Sponsorship, Christmas 10K Swim
- September 2020 \$11,500
- July 2020 \$3,000 Small Events Sponsorship, Christmas 10K Swim
- September 2019 \$13,000
- August 2019 \$7,660 Freo Ports Partnership, Christmas 10K Swim
- September 2018 \$12,500
- August 2018 \$7,675 Alcoa Partnership, Christmas 10K Swim
- September 2017 \$12,500
- September 2016 \$12,500
- September 2015 \$10,000
- September 2014 \$10,000 Naming Rights Sponsor of 2015 Event
- September 2013 \$10,000 Naming Rights Sponsor of 2014 Event
- March 2012 \$10,000 Naming Rights Sponsor of 2013 Event
- September 2011 \$10,000 Naming Rights Sponsor for 2012 Event
- September 2010 \$3,500
- September 2009 \$2,000
- October 2007 \$1,000.

The proposal is supported by letters from Masters Swimming WA and Coogee Beach Surf Life Saving Club.

Recommendation:

The application for sponsorship achieved an assessment score of 17/21.

The recommendation for sponsorship is \$11,000.

Applicant: Southern Lions Rugby Union Football Club

Proposal: 10's Rugby Competition "Naming Rights"

Requested: \$12,500.00

Recommended: \$9,000.00

The Southern Lions Rugby Union Football Club (SLRUFC) is a not-for-profit sporting club with a support base of over 500 members/players with the majority calling the City of Cockburn home.

The Club have teams in juniors under six years and under eighteen years, senior men's x three grades, master's, women's community grade and an upcoming women's premier grade.

The Club has been chosen to represent Australia in France, for the first Amateur World Cup Rugby Tournament 2023 and will host the 2027 event.

The all-abilities team was the first of its kind in the southern hemisphere and has been invited to participate in the World Golden Oldies Festival in Perth in 2023.

Players range in age from five to 65, come from diverse backgrounds and nationalities, and bring with them a vocal and supportive fan base.

The Club has been based at the Success Regional and Sporting Facility since 2010 and are in the WA Premier Grade competition.

The Club provides a place for people to play and/or learn a sport with like-minded people in a fun, family friendly and competitive (when older) environment.

The Club invites and welcomes anybody and everybody to play or support the game.

The Club is seeking financial assistance, specifically to assist with the costs of hosting the international sporting event, the 2023 City of Cockburn 10s Rugby Invitational Tournament on the 25th of February 2023.

They are sending invitations to all Rugby WA Teams, including all premier teams, WA Police, Navy and Army.

They will also be extending an invitation to all east coast based premier grade teams.

The 2023 event will be advertised to over 60 state, national and international teams and on Rugby WA and Rugby Australia's websites.

They expect a minimum of 24 international, national and WA based 10s teams to participate.

The event will be attended by up to 1000 people and will see both their club and the City of Cockburn receive invaluable exposure in the community.

All short forms of rugby like 10s rugby continue to grow at a fast rate throughout the world, in popularity and participation.

7s and 10s rugby provides an opportunity for players new to rugby to take their first steps into the sport. Many countries are now embracing the game and sending many grass roots teams to international tournaments.

There is also an increase in women's participation.

The annual tournament welcomes teams from around WA, Australia, and Asia to the Success Regional Sporting Facility to compete in Men's, Women's and under twenties competitions.

The 2022 tournament built on the great success of the previous events with positive feedback received from all clubs, Rugby WA, and club members, all keen to participate again in 2023.

The club advises that renewed sponsorship would assist greatly with community based advertising campaigns, event equipment; hosting of visiting teams, complimentary attractions i.e. entertainers, face painting, bouncy castle, introductory rugby clinics, prizes, tournament referees, first aid, trophies, photography for posting online, increasing general awareness of the Southern Lions and City facilities throughout the City of Cockburn and, encourage community participation in social activities and promoting an active, outdoor lifestyle including promotion of rugby union as an inclusive sport.

The City of Cockburn 10s event will be actively promoted via:

- Event correspondence to all competing and invited teams including emails, event flyers and team nomination forms
- Southern Lions, Rugby WA and Western Force and local Cockburn Facebook pages
- Community groups (including cultural) e.g., WA Fijian Association
- Local radio
- Event posters
- Event sound system throughout the day
- Banner placement around the event location
- The City of Cockburn website

As naming rights sponsor, the City of Cockburn will benefit from:

- Inclusion on all event advertising including local media coverage via radio
- Logo inclusion on event signage
- An opportunity to display City signage at the event
- Logo inclusion and sponsor recognition on all advertising and promotional material
- Flyers/posters
- Rugby Australia events website
- Event Facebook page (Cockburn10s Rugby Invitational Tournament)
- Event program

The City of Cockburn is also welcome, to advertise the event through all available channels and to display messages, publications, banners, or other items at the event.

In addition, the event is free to the public, so all City of Cockburn residents are welcome to attend.

As in previous years, the Mayor will also be invited to make the presentations to the winning teams.

The Club has previously received the following funding from the City:

- 2022 Sept \$3,000 Small Events Sponsorship
- 2021 February \$1,500 Small Events Sponsorship
- 2020 September \$10,000 (Naming Rights Sponsor of 2021 event)
- 2019 September \$10,000 (Naming Rights Sponsor of 2020 event)
- 2018 September \$10,000 (Naming Rights Sponsor of 2019 event)
- 2017 September \$10,000 (Naming Rights Sponsor of 2018 event)
- 2016 September \$10,000 (Naming Rights Sponsor of 2017 event)
- 2015 September \$12,500 (Naming Rights Sponsor of 2016 event)
- 2014, September \$12,500 (Naming Rights Sponsor of 2015 event)
- 2013 September \$12,500 (Naming Rights Sponsor of 2014 event).

The Club has also previously received \$4,000 Minor Capital Works Grant towards floodlighting upgrades, and at least one \$1,000 Sports Equipment Grant.

Save Our Sons Duchenne Foundation has provided a letter of support for the proposal, as SLRUFC host an annual charity game for the foundation.

Australian Rugby Union and Rugby WA have endorsed the event each year; with Rugby WA providing rugby equipment and Referees WA provide referees for the day.

Recommendation:

This application received a score of 15/21. The event provides branding and promotional benefits to the City and Club.

An increase in funding from \$10,000 in 2020 to \$12,500 in 2022 has not been justified.

The applicant has also received Small Event Sponsorship of \$3,000 in 2022 for a Junior 7's competition.

It is recommended to support sponsorship of \$9,000.

Applicant: Perth Glory Football Club

Proposal: Women's A League Training Beale Park "Partner"

Requested: \$5,824.00

Recommended: \$5,824.00

Perth Glory Women's A League team competes in the National Liberty A-League, representing the state of WA.

They are an elite football team and are the culmination of the player pathway in WA for talented female players.

The club head office has recently moved from Floreat to Fremantle, and as a result are now in the position of develop new partnerships for team training locations.

As a result, they have developed a partnership with the Cockburn City Soccer Club, which is located within the City of Cockburn.

Perth Glory Women's A League are keen to establish strong relationships with local clubs and the City to help promote the 'female game' to all stakeholders.

The Club aim to be visible in the local community and work with local clubs to promote football as a healthy and safe community sport.

They will be conducting open days and clinics to promote the game at Beale Park in collaboration with all stakeholders.

They would also like to work with coaches from local clubs to assist them in upskilling, with support from their Women's League Head Coach, who will in essence create a 'coach the coaches' style clinic.

This proposal will benefit the Cockburn community by having the elite football team present, visible, and accessible to the community.

Everyone who has an interest in the world game will be of benefit from this project.

The Women's A League training and associated activities will be actively promoted via social media and Perth Glory's newsletter that has a distribution size of 110,000 people.

As a partner, the City of Cockburn will benefit from the presence of signage at clinics and brand association at specific appearances on request, as well as tickets to games or merchandise to use for competitions.

The funding will support venue hire at Beale Park.

Recommendation:

This application received an assessment score of 15/21.

The City's Lead, Community Venues supports the application.

It is recommended to support sponsorship of \$5,824.00.

Applicant: Meeples, Decks and Dice

Proposal: Board Game Meets "Official Sponsor"

Requested: \$4,104.00

Recommended: \$0

Meeples, Decks & Dice Inc. (MDD) is a local Cockburn community group for modern board gaming enthusiasts and hobbyists.

MDD seeks to provide a group for all ages and abilities, regardless of their experience, with modern board gaming.

They provide a community group for people who want to meet people.

They currently run board game meets twice a month on the first and third Saturday at Beeliar Community Centre.

In 2023, they would like to introduce more events and special gatherings for their members, including open days to assist family groups to play board games.

MDD is requesting official sponsorship funding to support with the delivery of more events including venue hire.

MDD has received funding from the City in previous years, as follows:

• June 2022 Small Events Sponsorship \$1,566.00

Recommendation:

The application is ineligible as the applicant did not contact the City's Grants Coordinator to discuss their proposal prior to submitting the application, which is a mandatory requirement.

Also, the application does not meet the donation grant criteria, as outlined in the grant guidelines, as the applicant is not a not-for-profit, benevolent organisation that directly assists the disadvantaged and/or vulnerable within the Cockburn community.

It is recommended that the application is not supported.

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Council approved a budget for Grants and Donations for 2022-23 of \$1,455,000.

Following is a summary of the proposed grants, donations, and sponsorship allocations for 2022-23.

Both the September 2022 and March 2023 grants rounds have not yet been approved and therefore are not included in expenditure until approved.

Summary of Proposed Allocations	Budget for FY23	Year to Date Expenditure (paid	Amount still to be allocated
		and/or committed	
Committed/Contractual Donations	\$472,971	\$472,971	\$0
Donations	\$210,000	\$0	\$210,000
Sponsorship (Including Individual)	\$100,000	\$8,150	\$91,850
Specific Grant Programs	\$672,029	\$96,508	\$575,521
Total	\$1,455,000	\$336,523	\$877,371

Legal Implications

N/A

Community Consultation

In the lead up to the September 2022 round, grants, donations, and sponsorship funding opportunities were promoted through the local media and Council networks.

The promotional campaign has comprised:

- Three advertisements in the Perth Now Cockburn Gazette on 26 August, 9 September and 16 September 2022
- City of Cockburn Facebook promotional posts on 26 August and 16 September 2022
- Promotion to community groups through the Community Development Service Unit email networks, contacts, and community group meetings
- Additional advertising through Community Development promotional channels
- Cockburn Community Group E News September 2022 edition
- School email update August 2022 edition
- Information available on the City of Cockburn website
- Reminder email sent to previous and regular applicants and, people who made enquiries during the application period
- Distribution of promotional flyers.

Risk Management Implications

The Council allocates a significant amount of money to support individuals and groups through a range of funding programs.

There are clear guidelines and criteria established to ensure that Council's intent for the allocation of funds is met.

To ensure the integrity of the process there is an acquittal process for individuals and groups to ensure funds are used for the purpose they have been allocated.

The reputation of the City of Cockburn could be seriously compromised should funds be allocated to individuals or groups who did not meet the criteria and guidelines and/or did not use the funds for the purposes they were provided.

Adherence to these requirements is essential.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 24 November 2022 Expenditure Review Committee.

Implications of Section 3.18(3) Local Government Act 1995

Officer Recommendation/Committee Recommendation

MOVED Cr M Separovich SECONDED Cr T Dewan That Council:

- (1) SUPPORTS the Port Coogee Community Association and South Beach Community Group in development of a proposal which conforms with the requirements of Landgate's Policies and Standards for Geographical Naming in Western Australia; and
- (2) ALLOCATES \$50,000 in the 2022-23 Budget to Amendment to Locality Boundaries for North Coogee project with a further allocation of \$20,000 in the 2023-24 Budget, subject to Landgate assessing and supporting a proposal that demonstrates a compelling need for change.

CARRIED 4/1

For:Cr P Corke, Deputy Mayor T Widenbar, Cr T Dewan and Cr M SeparovichAgainst:Cr C Reeve-Fowkes

Background

On 11 August 2022 Council resolved:

That Council:

- (1) RECEIVES the update for the Proposed Amendment to Locality Boundaries for North Coogee;
- (2) FORMS a working group to progress this matter comprising two representatives each from:
 - a) City staff
 - b) Elected members
 - c) Port Coogee Community Association
 - d) South Beach Community Group;

- (3) ENDORSES Councillors Allen, Corke and Separovich as the Elected Member representatives on the working group;
- (4) ENSURES the working group first meets before the end of September 2022; and
- (5) The meeting is to DETERMINE what consultation is needed going forward and formulate a plan to be put to the Expenditure Review Committee for consideration.

In May 2021 Council endorsed its support of the renaming of part of the locality of North Coogee as Port Coogee, and the remaining part of the current locality of North Coogee as South Beach.

Since that time a submission was made to Landgate, however it was not supported.

The Port Coogee Community Association and South Beach Community Group (the Community Groups) together with the City have engaged with Landgate to further understand the position of the geographic Names Committee, and what is required of the Community Groups in the continued pursuit of the name change for the locality of North Coogee.

The City has supported the formation of a Working Group, whose objective was to determine what consultation is needed going forward and formulate a plan for consideration.

The objective of this report is to inform Council, via the Expenditure Review Committee, of the outcome of the September meeting, the assessment process for name change requests, and the City's role in that process.

Submission

N/A

Report

Meeting

On 27 September 2022, City representatives met with West Ward Councillors and representatives of the Community Groups.

The objective of the meeting was to determine what consultation is needed going forward and to formulate a plan to be put forward to the Expenditure Review Committee for consideration.

Since the meeting on 27 September 2022, further information has been provided by Landgate to the Community Groups and the City regarding the process.

It is also understood that the Community Groups have been in consultation with the Minister's officer, though the City is not aware of the outcome of those discussions.

Name Changes

Landgate's *Policies and Standards for Geographic Naming in Western Australia* (Policy) includes the fundamental requirements for naming of roads, administrative boundaries, cultural and typographical features.

The objective of the Policy is to comply with relevant legislation and provide an open and transparent naming process.

The City and the Community Groups have received feedback from Landgate at this stage advising that a proposal must be prepared in accordance with the Policy.

Landgate have drawn the Community Groups and the City to section 1.1.4 of the Policy which provides:

Any change to an existing approved name is discouraged. As all official names are meant to be enduring, any proposals to change the name of a feature, administrative boundary or road must include evidence of a compelling reason for such a change, for example the proposal is deemed to be in the public interest for safety reasons.

The changing of a name merely to correct or re-establish historical usage shall not be considered in itself a reason to change a name.

Evidence of community consultation and feedback from all relevant agencies and jurisdictions must be included with the submission. All such requests will be required to be presented to Landgate for consideration.

If Landgate determines that the name change is unnecessary or non-essential, yet there is enough community support for the change and it is compliant with the relevant naming policies and standards, it may be approved, but it shall incur a service charge.

Landgate have a documented policy position on what it deems as "unnecessary name changes".

This does not mean the objective of the Community Groups would not be entertained, however it is critical that the proposal demonstrates a compelling need for change, and that the proposed names are compliant with the relevant naming policies and standards.

The Policy sets out naming requirements and standards.

Section 1.3.4 states that cardinal indicators (North, South etc) shall not be permitted for new road and locality names.

It is understood this Policy is the basis for the position that the name "South Beach" would not be supported, as well as an issue identified by Landgate that the name is a direct duplication of the officially names South Beach in Fremantle (refer Attachment 2).

It is the responsibility of the City to ensure that any name change proposal confirms with the Policy, particularly those prescribed in section 1 of the Policy.

On 9 November 2022, the South Beach Community Group (SBCG) presented the City with the name the group intends to present in its proposal for part of the locality of North Coogee.

SBCG have advised they undertook community consultation with regards to identifying an alternate suburb name for the "South Beach" name proposal that could then be provided as part of the City led community consultation.

The group advised the community accepted and proposed alternate suburb name change selected to be considered in conjunction with the South Beach name is Nara Beach (refer Attachments 4 and 5).

This community consultation was very well supported with over 250 respondents to the survey that was conducted for the South Beach/Shoreline Residential areas.

It is important to recognise the SBCG advised the name Nara Beach is to be considered in conjunction with South Beach, however Landgate has made the position clear with respect to the South Beach name.

At this stage, there is no proposal which meets the requirements of the Policy, with a compelling driver for change needing to be established in the proposal.

Proposal

As identified herein, a proposal is required to be prepared which meets the requirements of the Policy.

This includes a requirement for the proposed names to conform with the general naming policies and standards (section1).

Landgate have indicated the name South Beach does not confirm with section 1 and therefore does not meet the requirements. The name Nara Beach has not been presented to Landgate for consideration, given it was only recently identified by the SBCG as a proposed alternative.

The proposed name Nara Beach contains an Aboriginal word and therefore the name must confirm with the requirements of the Aboriginal Naming Guidelines (Landgate).

The City has also been advised there is no evidence of a compelling reason for the change, which is a requirement to be addressed in the proposal.

The proposal must include maps or diagrams clearly defining the area, and extent to which the name will apply.

Any proposal requesting the renaming of an approved name, or any new naming proposal considered to be of significance to the immediate or extended community must include evidence of consultation with the community.

Local governments must ensure that the level and form of consultation undertaken reflects the significance of the naming proposal.

The immediate community is defined as including residents, ratepayers and businesses within the immediate area, who are directly affected by the submission.

The extended community includes residents, ratepayers and businesses surrounding the area directly affected by the proposal, any visitor groups to the area, and government or non-government organisations with an interest in the area.

Consultation

Section 9 of the Policy provides guidance on the consultation standards and principles.

As advised above, the Policy makes a distinction between 'immediate community' and 'extended community'.

The consultation process involves the five steps below. It should be noted the costs of community consultation are met by the City.

At this stage there is not a proposal in a form which meets the requirements of the Policy, therefore the first step in the process is to prepare a proposal.

The community groups have already completed their own consultation processes (the petition) which has shown evidence of support for the name changes, however this consultation does not meet the requirements of the Policy.

It is noted that at this stage the name "South Beach" is not supported, and Landgate has indicated it is unlikely this position would change as it does not meet the requirements of the Policy (as detailed herein).

The proposed name of Nara Beach will require some additional consultation to ensure the City meets the requirements of the Aboriginal Naming guidelines, identified as section 7A of the Policy.

The names that conform could be shortlisted and formed into a proposal subject to the compelling need for change being met.

The City's Advocacy and Engagement department have considered the Policy and recommended a two-phase approach.

Phases One (Community Survey)

- 1. Do you want to change the name of the suburb? (Yes/No)
- 2. Define the area of this new suburb? (if including City of Fremantle area, City of Fremantle Council must be involved as well)
- 3. What should the area be named?
- 4. Suitable names presented to the Working Group for shortlisting

Phase Two

- 1. Community engagement activities (workshops, surveys) to review name change sentiment, boundary options, and short-listed names
- 2. Council to consider report and make recommendation to Landgate.

Consultation Phase costs:

	Activity	Cost Elements	Estimated Cost
	Community Survey hard copy i.e. Level of support for name change, boundary preferences, name suggestions	PrintingPaperDesignStaff time	\$1000

Estimat			\$45,600
	nal administration and communication costs the name change take place	s to be incurred	\$15,000

The matter will require referral to the Cockburn Aboriginal Reference Group (ARG) at minimum, as part of the process.

Landgate has also indicated to the City that due to the locality boundaries, consultation with the City of Fremantle, and endorsement by the Council of the City of Fremantle will be required.

This may impact the timeline of consultation, as the ARG meet on set dates, and the City will be subject to the City of Fremantle's own decision-making process.

The City does not undertake consultation activities from mid-December to the end of January, as it is a common period for holiday travel to occur and this may impact engagement with the consultation process.

If supported by Council, the consultation process would be planned for the second half of FY23.

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.
Aboriginal and Torres Strait Islander cultures and other diverse cultures and heritage are recognised and celebrated.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

This project is currently unfunded, and the costs are required to be met by the City.

A budget amendment is required to fund the cost, the detail of which is provided in this report.

The project will require officer time to facilitate the Working Group meetings which has not been accounted for in the costing detail and will be managed in consideration of funded projects and KPIs.

It is recommended \$50,000 be allocated for the 22-23 Budget, and a further \$20,000 to the 23-24 Budget should the name change take place.

Legal Implications

In Western Australia the practice of officially naming features, localities and roads is covered under s26 and 26A of the *Land Administration Act 1997*.

26. Land districts and townsites, constitution etc. of

- (1) In this section townsite
 - (a) means townsite constituted under subsection (2); and
 - (b) except in subsection (2)(a), includes land referred to in clause 37 of Schedule 9.3 to the Local Government Act 1995.
- (2) Subject to section 26A, the Minister may by order
 - (a) constitute land districts and townsites; and
 - (b) define and redefine the boundaries of, name, rename and cancel the names of, and, subject to this section, abolish land districts and townsites; and

- (c) name, rename and cancel the name of any topographical feature, road or reserve.
- (3) An order made under subsection (2) may include such matters enabled to be effected under an order made under another provision of this Act as the Minister thinks fit.

26A. New subdivisions, names of roads and areas in

- (1) If a person delivers a diagram or plan of survey of a subdivision of land approved by the Planning Commission to a local government, and the proposed subdivision includes the provision of a road for use by the public, that person must also deliver to the local government the name proposed to be given to the road.
- (2) The local government may require the person so subdividing the land
 - (a) to propose a name for the proposed road or, if a name has already been proposed, to alter that name; and
 - (b) to propose a name for the area the subject of the proposed subdivision, or if a name has already been proposed, to alter that name.
- (3) If the local government approves a name proposed under subsection (1) or (2), the local government is to forward the proposal to the Minister.
- (4) The Minister may
 - (a) approve the proposed name; or
 - (b) direct the local government to reconsider the proposed name, having regard to such matters as the Minister may mention in the direction; or
 - (c) refuse to approve the proposed name.
- (5) A person must not
 - (a) assign a name to the area or road unless the name is first approved by the Minister;
 - (b) alter or change a name that has been so assigned, whether initially or from time to time, to the area or road unless the Minister first approves of the alteration or change of that name.

Penalty: \$1 000 and a daily penalty of \$100.

Any proposal for a name change or change to administrative boundaries must conform with Landgate's *Policies and Standards for Geographical Naming in Western Australia*.

Community Consultation

Community consultation is not applicable for this report, however, will be required in the future in the event Council supports the City's role in this matter.

Risk Management Implications

At this stage the City does not have a proposal for consideration which meets the Policy requirements of Landgate.

The key stakeholders, being the Community Groups, will need to establish a position for the proposal which conforms with the requirements of the Policy.

The Community Groups also need to identify a compelling driver for change which Landgate considers to be a compelling driver for change.

Without these minimum requirements being met there is a moderate risk to the City of committing to expenditure for community consultation for a proposal which will not be accepted due to not meeting the minimum requirements of the Policy.

This risk can be mitigated by supporting the Community Groups to develop a proposal which meets the requirements of the Policy.

There is a low reputational risk to Council in not supporting the Community Groups given the past demonstrated community support for the administrative boundary name change for the locality of North Coogee.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 24 November 2022 Expenditure Review Committee.

9.5 Corporate Affairs

9.5.1 (2022/MINUTE NO 0014) City of Cockburn Indonesian Delegation -March 2023

Responsible Executive	Executive Corporate Affairs
Author	Executive Corporate Affairs
Attachments	N/A

Officer Recommendation/Committee Recommendation MOVED Cr M Separovich SECONDED Deputy Mayor T Widenbar That Council:

(1) APPROVES an Indonesian Delegation budget allocation of \$20,298.00.

CARRIED 5/0

Background

At the 11 August 2022 Ordinary Council Meeting (2022/Minute No. 0168), Council endorsed the following:

That Council:

- (1) NOTED the opportunities identified in developing a strategic economic partnership with Indonesia; and
- (2) ENDORSED the recommendations for development and engagement with Indonesia in FY23.

Specifically, a City facilitated delegation to Indonesia in March 2023.

Estimated cost to the City for the delegation visit to Indonesia is \$15,000. This would be an additional budget requirement and referral back to Council via assessment by the Expenditure Review Committee (ERC) should Council wish to pursue this option.

Submission

Cost estimates have now been completed and are estimated on a 'Cost per delegate'.

The delegation will depart on 12 March and return on the 18 March 2023.

Industry and stakeholder delegates will provide their own funding for the visit based on the same costing model.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

Budget/Financial Implications

The proposed budget includes the following City delegation attendees:

- Mayor
- Acting CEO or nominee
- Executive Corporate Affairs
- Manager Economic Development & Business Engagement
- Up to two Elected Members

Interpreter costs are calculated on the basis of 20 delegates in attendance.

Breakdown of costs per delegate:

Flights (all) per person:	\$1,668.40
Accommodation per person:	\$1,160.28
Translator:	\$ 455.00
Total costs:	\$20,298.00

Legal Implications

Travel Insurance covered automatically under the City's current arrangements.

Community Consultation

N/A

Risk Management Implications

Risks are considered minimal; however, a new COVID outbreak could hinder international travel arrangements. Flights and accommodation will be booked with the ability to cancel or postpone.

9.5.2 (2022/MINUTE NO 0015) Blue Economy Defence Innovation Hub Update

ResponsibleExecutive Corporate AffairsExecutiveExecutive Corporate AffairsAuthorExecutive Corporate AffairsAttachmentsN/A

Officer Recommendation/Committee Recommendation MOVED Cr M Separovich SECONDED Cr T Dewan The Council:

(1) NOTES progress being made on the development of a Blue Economy-Defence Innovation Hub and no requirement for a further financial contribution at this stage of the project.

CARRIED 5/0

Background

Background

At the 8 September 2022 Ordinary Council Meeting Council:

- (1) ENDORSED the continued exploration of options for the development of a Blue Economy-Defence Innovation Hub; and
- (2) GAVE in principle agreement for a financial contribution to the Innovation Hub, the amount to be determined at the next Expenditure Review Committee meeting.

Submission

This interim report seeks to provide Council with an update on the development of the Blue Economy-Defence Innovation Hub and confirm that no requirement for further financial contribution is required at this stage.

Report

Aligning with the Corporate Business Plan 1.1.2a to 'Position Cockburn as a leader in the Blue Economy' and the Business & Economic Development Service Plan 2023, to provide a sustainable and diverse local economy that attracts increased investment and provides local employment,

The City has been pursuing the development of an Innovation Hub through a number of avenues including:

- 1. The Mayor, Acting CEO and Manager Economic Development and Business Engagement visited the Tonsley (Future Factory) Facility in South Australia.
- 2. Development of a draft Governance Framework for the Hub.
- 3. Identification of a suitable premises for the Hub.
- 4. Positive discussions with local businesses and key stakeholders.
- 5. In principle commitments have been secured from BAE Systems, Curtin University, Department of Jobs, Tourism, Science and Innovation.

As this process is still in the discussion stages there is currently no requirement for further funding from the City.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

• A City that is 'easy to do business with'.

Budget/Financial Implications

No additional funding is being sought for this project at this stage.

Financial commitments have been secured in principle from both industry and the State Government which will now be confirmed contractually.

17.1 Fossil Fuels

Responsible Executive	Chief of Operations
Author(s)	Head of Recreation Services and Head of Property and Assets
Attachments	N/A

RECOMMENDATION

That Council:

(1) INCORPORATES the Notice of Motion into the review of the Sponsorship and Naming Rights on City Controlled Land and/or Buildings Policy, which is scheduled for March 2023.

Background

Cr Corke submitted the following Notice of Motion on 16 November 2022:

That Council requests a report that investigates options for:

1. Controlling or restricting advertising of fossil fuels on any City of Cockburn owned or managed property.

This should include consideration of any implications this may have for sporting and community organisations who currently use Council managed property or sporting venues.

 Restricting the acceptance of sponsorships from companies or organisations whose main business is the extraction or sale of coal, oil, or gas.

Reason

In 1992, Australia passed national laws that banned advertising of tobacco products because smoking was harmful to people's health.

Advertising these products was linked to an increase in tobacco use.

Because of these laws, Council restricts the advertising of tobacco and other harmful products on City of Cockburn controlled land and events.

Coal, oil, and gas are affecting our health, environment and climate.

Air pollution from burning fossil fuels takes 8.7 million lives prematurely each year, more than tobacco.

An estimated 150,000 people are dying due to climate change impacts every year.

Fossil fuels are the primary cause of global warming, which is impacting our City and greater Perth area in the form of more intense and frequent heatwaves, storms, bushfires, floods, and droughts.

Restrictions on fossil fuel advertising are in place in France, and at least seven local government areas in the UK and the Netherlands.

Similar laws are being debated in the European Union, Germany, Sweden and Canada.

In Australia, a number of local Councils, such as Melbourne's Yarra, Moreland (Merri-bek) and the City of Sydney, have voted in favour of a staff report on how to restrict fossil fuel promotions on Council-managed land.

The City of Cockburn should investigate ways to restrict fossil fuel advertising on Council owned or managed land and should not accept sponsorships from companies whose main business is the extraction or sale of coal, oil and gas.

Submission

N/A

Report

The City's current Sponsorship and Naming Rights on City Controlled Land and/or Buildings Policy is scheduled for review in March 2023.

This policy is held by the Recreation Infrastructure and Services Business Unit.

The Notice of Motion has a number of complex considerations that need to be investigated to mitigate any reputational risks to the City, partners and sporting groups.

Aligning this Notice of Motion with the review of the policy will allow the City to apply the appropriate resourcing and investment in time to ensure due diligence is applied.

The background information contained within the Notice of Motion will be included as part of the assessment of the review of this policy.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

• Address Climate Change.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

To be performed as part of the review of the policy.

Risk Management Implications

If Council does not accept the recommendation, there is minimal risk to the City's reputation.

20.1 Traffic Study - Berrigan and Elderberry Drive - Impacts from North Lake Road Bridge

Author(s)		nsport and Traffic Coordinator and Senior Technical icer Traffic
Attachments	1.	MRWA Road Hierarchy for Western Australia Road Types and Criteria J
	2.	Approved Elderberry Drive Signage and Line Marking Plans J

RECOMMENDATION

That Council:

- (1) NOTES the report;
- (2) AUTHORISES the City to provide Connecting South Lake with a summary of the impact that the North Lake Road Bridge project has had on the traffic environment of Berrigan and Elderberry Drives; and
- (3) NOTES the City will arrange collection of traffic data to review the traffic environment of Berrigan and Elderberry Drives in mid-2024.

Background

At the Ordinary Council meeting on 10 February 2022 Deputy Mayor Widenbar moved a Matter to be Noted for Investigation (Item 23.2), which requested a traffic study on both Berrigan Drive and Elderberry Drive, South Lake, to determine the traffic count, times of traffic peaks, impacts to these roads from the new North Lake Road Bridge.

The Deputy Mayor cited the following reasons for the matter:

Local residents directly abutting Berrigan Drive and Elderberry Drive, as well as the local community group, Connecting South Lake, have raised concerns about the volume of traffic, both heavy and light, as well as speeding and dangerous driving by vehicles and motorcycles, for some time.

Following completion of the North Lake Road Bridge Project, anecdotal reports indicate that significantly more traffic has been funnelled onto North Lake Road, in turn impacting residents on Elderberry and Berrigan Drive.

A detailed traffic study is therefore required to determine if there is any need for traffic calming, advocation for changed speed limits, or any alternative measures.

Submission

N/A

Report

To ease congestion and improve access for Cockburn visitors and residents, Main Roads WA (MRWA) initiated a project to build a bridge over Kwinana Freeway to connect North Lake Road and Armadale Road in 2017.

The project has been completed with the opening of the new bridge over Kwinana Freeway on 15 December 2021.

To assess the impact of the bridge on Berrigan Drive and Elderberry Drive in South Lake, a preliminary assessment of the current traffic environment has been completed which includes traffic surveys and review of collected traffic data.

MRWA Road Hierarchy for Western Australia Road Types and Criteria document, and the City of Cockburn Council Policy - Local Area Traffic Management Investigation have been used to evaluate traffic conditions on Berrigan Drive and Elderberry Drive.

Berrigan Drive - District Distributor (A)

Berrigan Drive between North Lake Road and Kwinana Freeway is classified as a District Distributor (A) road under the road hierarchy classification within the City of Cockburn.

In accordance with MRWA Road Hierarchy for Western Australia Road Types and Criteria document, the function of these roads is to allow for high-capacity traffic movements between industrial, commercial and residential areas.

They connect to primary and/or other distributor roads.

Comparison of traffic data of Berrigan Drive before and after the opening of the Armadale Road to North Lake Road bridge in shown in the Table 1 below:

Date of the Survey	Location	Average Weekday Traffic	AM Peak Traffic	PM Peak Traffic	Average Speed (km/hr)	85th %ile speed (km/hr)*	% of Heavy vehicles **
25/10/21	260m west of Semple Ct	26,314	2,074	2,287	70	75	12.4
10/08/22	260m west of Semple Ct	21,432	1,662	1,742	69.9	75.1	11.66

*85th percentile speed = the speed that 85% of vehicles are travelling at, or slower, under free-flow conditions (i.e. with >4 seconds headway)

**Heavy vehicles = Austroads Vehicle Class 3 or greater, including buses.

Table 1: Traffic data of Berrigan Drive before and after the opening of the Armadale Road to North Lake Road bridge

Comparison of traffic data indicates that the average weekday traffic on Berrigan Drive reduced by 4,882 vehicles after the bridge opened.

Traffic during AM and PM peak hours is also reduced by 412 and 545 vehicles respectively.

Comparisons also indicate that changes of average speed, 85th percentile speed and percentage of heavy vehicles before and after the opening of the Armadale Road to North Lake Road bridge are minimal.

Under the MRWA Road Hierarchy for Western Australia Road Types and Criteria document, the recommended operating speed for the District Distributor A roads is 60-80 km/h.

The traffic speed presented in Table 1 shows the average speed is under 70km/h, and the 85th percentile speed is also lower than 80km/h, which indicates there are no major speed issues along Berrigan Drive.

Considering traffic volume on Berrigan Drive has reduced, changes of average speed, 85th percentile speed and percentage of heavy vehicles are minimal, and the current operating speed is in line with MRWA standard, it is concluded the Armadale Road to North Lake Road Bridge Project has provided a positive impact on the traffic environment of Berrigan Drive.

Elderberry Drive - Local Distributor

Elderberry Drive in South Lake is classified as a Local Distributor road under the road hierarchy classification within the City of Cockburn.

The function of a Local Distributor road is to collect and distribute traffic from access streets, linking to the major collector roads within the neighbourhood.

Local Distributor roads can also provide secondary connections to the external arterial road network within the residential, industrial and commercial areas.

Comparison of traffic data of Elderberry Drive before and after the opening of the Armadale Road to North Lake Road Bridge is shown in the Table 2 below:

Date of the survey	Location	Average Weekda y Traffic	AM Peak Traffic	PM Peak Traffic	Averag e Speed (km/hr)	85th %ile speed (km/hr) *	% of Heavy vehicle s **
27/07/15	50m East of Apara Ct	3,518	Not Available	Not Available	Not Available	64	9.6
10/08/22	50m east of Apara Ct	3,040	274	278	55.5	62.5	9

*85th percentile speed = the speed that 85% of vehicles are travelling at, or slower, under free-flow conditions (i.e. with >4 seconds headway)

**Heavy vehicles = Austroads Vehicle Class 3 or greater, including buses.

Table 2: Traffic data of Elderberry Drive before and after the opening of the Armadale Road to North Lake Road bridge

Comparison of traffic data indicates that the average weekday traffic of Elderberry Drive has reduced by 478 vehicles after the bridge is opened.

The 85th percentile speed and percentage of heavy vehicles are also lower.

In accordance with the MRWA Road Hierarchy for Western Australia Road Types and Criteria document, the recommended operating speed for a Local Distributor Road within a Built-up Area is 50-60 km/h (desired speed).

The traffic speed in Table 2 shows the current average speed is 55.5 km/h, and the 85th percentile speed is 62.5km/h, indicating a minor speeding issue along Elderberry Drive.

Considering traffic volumes on Elderberry Drive has reduced, the 85th percentile speed has reduced, and the percentage of heavy vehicles is lower, it is concluded the Armadale Road to North Lake Road Bridge project provides a positive impact on the traffic environment in Elderberry Drive.

Summary

The City developed detailed improvements for Elderberry Drive, with new line markings and signage plans, approved by MRWA and installed in June 2022 (refer Attachment 2).

As per the City's standard practice, the City will monitor the road and collect traffic data to review the traffic environment in two years (mid-2024).

It is recommended this information be conveyed to the local community group, Connecting South Lake, in order to provide an update.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

City Growth & Moving Around

A growing City that is easy to move around and provides great places to live. • An attractive, socially connected and diverse built environment.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

Budget/Financial Implications

Traffic data collection and preparation of signage and line marking plans are funded by the account for Traffic Safety Management WC00217.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The City has an obligation to monitor traffic conditions of local roads, ensuring resources are put towards areas where road safety issues need to be addressed.

Advice to Proponent(s)/Submitters

	1	•	TYPES AND CRITERIA (see		1	
CRITERIA	PRIMARY DISTRIBUTOR (PD) (see Note 2)	DISTRICT DISTRIBUTOR A (DA)	DISTRICT DISTRIBUTOR B (DB)	REGIONAL DISTRIBUTOR (RD)	LOCAL DISTRIBUTOR (LD)	ACCESS ROAD (A)
Primary Criteria						
1. Location (see Note 3)	All of WA incl. BUA	Only Built Up Area.	Only Built Up Area.	Only Non Built Up Area. (see Note 4)	All of WA incl. BUA	All of WA incl. BUA
2. Responsibility	Main Roads Western Australia.	Local Government.	Local Government.	Local Government.	Local Government.	Local Government.
3. Degree of Connectivity	High. Connects to other Primary and Distributor roads.	High. Connects to Primary and/or other Distributor roads.	High. Connects to Primary and/or other Distributor roads.	High. Connects to Primary and/or other Distributor roads.	Medium. Minor Network Role Connects to Distributors and Access Roads.	Low. Provides mainly for property access.
4. Predominant Purpose	Movement of inter regional and/or cross town/city traffic, e.g. freeways, highways and main roads.	High capacity traffic movements between industrial, commercial and residential areas.	Reduced capacity but high traffic volumes travelling between industrial, commercial and residential areas.	Roads linking significant destinations and designed for efficient movement of people and goods between and within regions.	Movement of traffic within local areas and connect access roads to higher order Distributors.	Provision of vehicle access to abutting properties
Secondary Criteria						
5. Indicative Traffic Volume (AADT)	In accordance with Classification Assessment Guidelines.	Above 8 000 vpd	Above 6 000 vpd.	Greater than 100 vpd	Built Up Area - Maximum desirable volume 6 000 vpd. <u>Non Built Up Area</u> – up to 100 vpd.	Built Up Area - Maximum desirable volume 3 000 vpd. <u>Non Built Up Area</u> – up to 75 vpd.
6. Recommended Operating Speed	60 – 110 km/h (depending on design characteristics).	60 – 80 km/h.	60 – 70 km/h.	50 – 110 km/h (depending on design characteristics).	Built Up Area 50 - 60 km/h (desired speed) <u>Non Built Up Area</u> 60 – 110 km/h (depending on design characteristics).	Built Up Area 50 km/h (desired speed). <u>Non Built Up Area</u> 50 – 110 km/h (depending on design characteristics).
7. Heavy Vehicles permitted	Yes.	Yes.	Yes.	Yes.	Yes, but preferably only to service properties.	Only to service properties.
8. Intersection treatments	Controlled with appropriate measures e.g. high speed traffic management, signing, line marking, grade separation.	Controlled with appropriate measures e.g. traffic signals.	Controlled with appropriate Local Area Traffic Management.	Controlled with measures such as signing and line marking of intersections.	Controlled with minor Local Area Traffic Management or measures such as signing.	Self controlling with minor measures.
9. Frontage Access	None on Controlled Access Roads. On other routes, preferably none, but limited access is acceptable to service individual properties.	Prefer not to have residential access. Limited commercial access, generally via service roads.	Residential and commercial access due to its historic status Prefer to limit when and where possible.	Prefer not to have property access. Limited commercial access, generally via lesser roads.	Yes, for property and commercial access due to its historic status. Prefer to limit whenever possible. Side entry is preferred.	Yes.
10. Pedestrians	Preferably none. Crossing should be controlled where possible.	With positive measures for control and safety e.g. pedestrian signals.	With appropriate measures for control and safety e.g. median/islands refuges.	Measures for control and safety such as careful siteing of school bus stops and rest areas.	Yes, with minor safety measures where necessary.	Yes.
11. Buses	Yes.	Yes.	Yes.	Yes.	Yes.	If necessary (see Note 5)
12. On-Road Parking	No (emergency parking on shoulders only).	Generally no. Clearways where necessary.	Not preferred. Clearways where necessary.	No – emergency parking on shoulders – encourage parking in off road rest areas where possible.	Built Up Area – yes, where sufficient width and sight distance allow safe passing. <u>Non Built Up Area</u> – no. Emergency parking on shoulders.	Yes, where sufficient width and sight distance allow safe passing.
13. Signs & Linemarking	Centrelines, speed signs, guide and service signs to highway standard.	Centrelines, speed signs, guide and service signs.	Centrelines, speed signs, guide and service signs.	Centrelines, speed signs and guide signs.	Speed and guide signs.	Urban areas – generally not applicable. Rural areas - Guide signs.
14. Rest Areas/Parking Bays	In accordance with Main Roads' <i>Roadside</i> <i>Stopping Places Policy</i> .	Not Applicable.	Not Applicable.	Parking Bays/Rest Areas. Desired at 60km spacing.	Not Applicable.	Not Applicable.

ROAD HIERARCHY FOR WESTERN AUSTRALIA ROAD TYPES AND CRITERIA (see Note 1)

MAIN ROADS Western Australia D10#10992

DEFINITIONS

Built Up Areas	See Note 3 below.
	The criteria was provided by Clive Shepherd from the Western
	Australian Local Government Grants Commission (WALGGC).
Primary Criteria	A road, or road section, must meet all of these criteria to qualify for the
-	category.
Secondary Criteria	These criteria are provided as indicators of the likely characteristics of a
	road designated under a particular road type.
	Ideally, a road should have all of these characteristics, but it is
	recognised that is unlikely to occur in a number of instances, particularly
	for traffic volumes in rural areas.
vpd	vehicles per day

NOTES

- 1. The type designated to each road should represent the <u>role that the road is intended to</u> <u>perform</u>. It may not necessarily reflect the current conditions on the road.
- 2. Declared Roads under the Main Roads Act ('highways' and 'main roads')

3. Built Up Areas (as defined by the Western Australian Local Government Grants Commission) Built up areas are identified because roads within them generally involve greater expenditure than roads in non built up areas. This is because roads in built up areas :

- have high traffic volumes;
- have large numbers of intersections, necessitating intersection treatments, pavement markings, signs, etc;
- require kerbing for traffic control and or drainage;
- require an asphalt surface where traffic volumes are high, or where noise reduction is important;
- require underground drainage because surface drainage is impractical;
- involve high cost of service alterations during reconstruction;
- involve high costs because road works have to be carried out under heavy traffic.

The following definition is intended to limit built up areas to localities where the above conditions prevail.

Residential localities, which have lots with areas less than 0.45 ha, and commercial and industrial areas that meet the following criteria are classed as built up:

- at least half the blocks are developed;¹
- existing roads have a minimum standard of a gravel road for old subdivisions and a sealed road for new subdivisions.

Areas serving sporting complexes, schools and caravan parks are classed as built up where:

- they are located in an area which is developed as residential; or
- the existing roads serving these facilities are already sealed and kerbed.

A road connecting two built up areas is classed as a road in a built up area where the connecting road is less than 300m in length.

- 4. Except where the Regional Distributor is passing through, or terminating in a town.
- 5. Buses may need to use Access Roads in some instances e.g. Rural areas for school buses and in cities and towns to provide connectivity for a route.

¹ Roads within new subdivisions being developed in accordance with a Structure Plan should be designed and constructed in accordance with the planned use of the road once the area is fully developed. They should be categorised on the basis of the intended purpose.

MAIN ROADS Western Australia D10#10992

DESCRIPTION OF ROAD HIERARCHY

Primary Distributors :

Provide for major regional and inter-regional traffic movement and carry large volumes of generally fast moving traffic. Some are strategic freight routes and all are State Roads. They are managed by Main Roads Western Australia.

District Distributor A : Urban area roads - (Built Up Area -)

Carry traffic between industrial, commercial and residential areas and generally connect to Primary Distributors. These are likely to be truck routes and provide only limited access to adjoining property. They are managed by local government.

District Distributor B: Urban area roads - (Built Up Area)

Perform a similar function to type A District Distributors but with reduced capacity due to flow restrictions from access to and roadside parking alongside adjoining property. These are often older roads with a traffic demand in excess of that originally intended. District Distributor A and B roads run between land-use cells and generally not through them, forming a grid which would ideally space them around 1.5 kilometres apart. They are managed by local government.

Regional Distributor : Rural - (Non Built Up Area)

Roads that are not Primary Distributors but which link significant destinations and are designed for efficient movement of people and goods within and beyond regional areas. They are managed by local government.

Local Distributor :

Urban - (Built Up Area)

Roads that carry traffic within a cell and link District Distributors or Regional Distributors at the boundary, to access roads. The route of Local Distributors should discourage through traffic so that the cell formed by the grid of District Distributors only carries traffic belonging to, or serving the area. These roads should accommodate buses, but discourage trucks.

Rural - (Non Built Up Area)

Connect to other Rural Distributors and to Rural Access Roads. Not Regional Distributors, but which are designed for efficient movement of people and goods within regional areas

Urban and Rural Local Distributor roads are managed by local government.

Access Roads :

Provide access to abutting properties with amenity, safety and aesthetic aspects having priority over the vehicle movement function. These roads are bicycle and pedestrian friendly. They are managed by local government.
