

Banjup bush fires 2014 – thank you from Mayor Logan Howlett

10 years on from the Banjup bush fires that brought the very real impact and realization of the loss of property, we stop to reflect on lessons learned and the fact that no lives were lost. Our thanks go to the many stakeholders from our first responders who fought the fire on a number of fronts, and to those organizations that operated in the background in support of them. Having a bush fire plan has never been more important, make sure yours is up to date.
