

What's being done about traffic congestion in Cockburn? – Video Transcript

Car 01:

Are you shiftin me?! This traffic...(honk honk)

Car 02:

Don't worry, something's being done – all levels of government are working together to reduce the traffic congestion at Cockburn Central and around Kwinana Freeway at Berrigan Drive.

Car 03:

Yah! (chuckle)... they're bad spots.

Car 02:

To improve traffic flow at Cockburn Central, part of Spearwood Avenue has been duplicated, and they're doing the same on Armadale Road from Tapper through to Anstey Road. A new bridge will also be built over Kwinana Freeway to connect North Lake Road to Armadale Road.

.....Not bad huh?!

Car 01:

(reluctantly)

Yeah, -Okay, that is good.

Car 02 :

And.... to reduce congestion getting on and off the freeway at Berrigan Drive, they're widening Kwinana Freeway from Russell to Farrington Road and duplicating parts of Jandakot Road and Karel Avenue.

Car 03:

(makes Ahooga sound)

Tell me more!

Alt..

Oh yeah....did you hear that!?

Alt...

Did you hear that guys?

Alt...

(in stilted sing-song voice)

Tell me more, tell me more!

Car 02:

Other things that will help are the new Thornlie to Cockburn rail link, the Smart Freeway and our ever- expanding network of walking and bike paths and roads.So it is going to improve.

Car 01:

Well now, if we were bikes, we wouldn't have this problem, would we!?!....oh man! (honk honk)

Car 03:

Take it easy, their working on it. (chuckles)
