

Coogee Common Video Transcript

Hi, my name's Scott Brenigan from Coogee Common. I'm the general manager and chef.

I've been here from day dot, planting vegetables and constructing a restaurant bar.

Jack Olsen, I'm the farm manager here just took over a month ago.

I'm overseeing growing, planting, planning and getting everything established.

I'm also hoping to you establish most of the herbs and other perennials that will go

In such as a dragon fruit, vines and grapes and that sort of thing

For us we want to make it about the community because the longevity of it is something

That our community proud of and want to use and it's accessible for everyone to

Come and experience. We are trying to keep it honest and pay homage to where

We are with people around us.
