1. Declaration of Meeting

The Presiding Member declared the meeting open at 7.00pm.

"Kaya, Wanju Wadjuk Budjar" which means "Hello, Welcome to Wadjuk Land"

The Presiding Member acknowledged the Whadjup Peoples of the Nyungar Nation who are the traditional custodians of the land on which the meeting was being held, and paid respect to their Elders both past and present, and extended that respect to First Nations Peoples who were present.

The Presiding Member advised the following:

- In accordance with Standing Orders Clause 8.8, mobile phones and all other electronic devices that may distract from the procedures at tonight's meeting are required to be turned off.
- This meeting is being recorded and streamed live on the Council's website, in accordance with Council's Live Streaming of Council Meetings Policy, which can be viewed on Council's website.

All reasonable care is taken to maintain your privacy, however, as a visitor in the public gallery, your presence may be recorded, not only verbally but also on camera. By remaining in the public gallery, it is assumed your consent is given if your image is broadcast.

2. Appointment of Presiding Member (If required)

6. Response to Previous Public Questions Taken on Notice

Jane Di Sabato, Coolbellup

A question asked at the 11 May 2024 Ordinary Council Meeting by Ms Di Sabato was taken on notice. The following response was provided on 6 June 2024:

Subject: Audio Visual Facilities for Deputations

- Q1. In the near future, are there any plans for the provision for audio visual facilities that would enable members of the public to share brief audio visual presentations when they are making a Deputation at a Council meeting?
- A1. Thank you for your question. This is not something currently available for deputations, however the City is investigating whether this can be offered as an option in the future.

7. Written Requests for Leave of Absence

Nil

7 of 790

8. Public Question Time

Isaac Khoh, Banjup Subject: Budget Items

As Mr Khoh was not present at the meeting, his questions were not included in Public Question Time. The following response has been provided:

- Q1. The actual surplus on 23/24 Financial Statement is 39.4m exclude asset revaluation, which differ from the budget surplus as advertised.
 - Is that a comparison between the budget surplus and actual surplus before determine the actual annual rate increment of 4.5%?
- A2. The \$39.4M amount referred to is actually the net result from the Statement of Comprehensive Income included in the 2022/23 Audited Financial Statements. The 2023/24 Financial Statements are yet to be completed, given the year has not ended.

The net result is an accounting result that is unrelated to the budget surplus, as it includes non-cash items (such as depreciation) and excludes capital spending.

The Statement of Financial Activity is the relevant Financial Statement for determining the City's budgeted and actual surplus position.

The Draft Summary Budget advertised in the Objects and Reasons for Differential Rates 2024-25 includes an estimated brought forward surplus from 2023/24 of \$1.0M, which is used in determining the necessary revenue required from rates to fund the City's operating and capital budgets, being \$133.80M.

The proposed annual rates increment differs across rating categories with residential properties at 4.0%, vacant and rural land at 4.5% and commercial industrial property at 5.5%.

7.04pm Cr Widenbar left the meeting.

9. Confirmation of Minutes

Officer Recommendation/Council Decision

MOVED Cr M Separovich SECONDED Cr T Dewan That Council:

- (1) AMENDS the City of Cockburn Town Planning Scheme No. 3, pursuant to Section 75 of the *Planning and Development Act 2005*, by:
 - 1. Rezoning various lots within 'Development Area 31' from 'Development' to 'Residential (R20)', 'Residential (R25)', 'Residential (R30)', 'Residential (R40)', 'Residential (R60)' and 'Local Centre', as depicted on the Scheme Amendment Map.
 - 2. Reclassifying land within 'Development Area 31' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
 - 3. Reducing the extent of the 'Development Area 31' (DA31) special control area boundary, as depicted on the Scheme Amendment Map.
- (2) DETERMINES that the Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it satisfies the following criteria of Part 5, Division 1, Regulation 34:
 - It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land; and
 - Is an amendment that corrects minor anomalies/administrative errors.

10 of 790	

Item 14.1.1 OCM 11/06/2024

and PROVIDE the Amendment to the Western Australian Planning Commission, pursuant to Part 5, Division 4, Regulation 58 of the *Planning and Development* (Local Planning Schemes) Regulations 2015, for its consideration;

- (3) REFERS the Amendment to the Environmental Protection Authority (EPA) pursuant to Section 81 of the *Planning and Development Act 2005*, by giving to the EPA written notice of this resolution and such written information about the amendment as is sufficient to enable the EPA to comply with Section 48A of the *Environmental Protection Act 1986* in relation to the proposed scheme amendment:
- (4) Upon compliance with Sections 81 and 82 of the Planning and Development Act 2005, DELEGATES authorisation and submission of the amendment documentation to the West Australian Planning Commission along with a request for the endorsement of final approval by the Hon. Minister for Planning; and
- (5) NOTES pursuant to Part 5, Division 1, Regulation 35A of the *Planning and Development (Local Planning Schemes) Regulations 2015,* the intention to revoke the following Structure Plan (via clause 29A of Schedule 2 / *Deemed Provisions*) upon the approval of Amendment No.175:

Structure Plan #	Address	Latest WAPC Endorsement	WAPC Reference
31A	Lots 29-32 Ocean Road Lots 23-28, 500 & 501 Hamilton Road Lots 1,2,5,6,8,26,308,310,311 & 482 Mell Road, Spearwood/Coogee	14/3/2016	SPN/0287M
31B	Lots 1-4, 4-8, 132, 300 & 301 Hamilton Road & Lot 9 Entrance Road, Spearwood	22/5/2018	SP17/15
31G	Lots 21 & 22 Cross Road, Spearwood (Packham North)	21/4/2015	SPN/0722
31K	Lot 33 Ocean Road, Coogee	19/12/2018	SPN/2183

CARRIED 9/0

Background

Structure plans are important planning instruments, regularly used to coordinate the subdivision and development of land, particularly in new, greenfield locations.

Reflective of its rapid urbanisation over the past 20+ years, the City currently has over 150 local structure plans (LSP) operating within its scheme area, many of which are substantially subdivided and/or have been built out.

When the *Planning and Development (Local Planning Scheme) Regulations* were released in 2015, a key change involved the introduction of a 10-year time limit to the validity of structure plans.

11 of 790

OCM 11/06/2024 Item 14.1.1

Structure plans approved prior to this date were automatically given a 10-year timeframe for approval, from when the Regulations came into effect.

Under the State Planning Framework, once a structure plan has served its purpose (typically once all the lots have been subdivided and physically created), the zones and reserves are to be transferred into the Scheme and the Structure Plan revoked.

This process, commonly referred to as structure plan 'rationalisation', ensures the City retains appropriate planning mechanisms to guide and control future use and/or redevelopment of the land (including the same range of permissible land uses and associated development standards as currently apply) into the future, consistent with community expectations.

This proposal is part of a series of Scheme Amendments required to rationalise large portions of the City's urban areas ahead of several existing structure plans expiring on the 10-year anniversary of the Regulations coming into effect (19 October 2025).

Submission

N/A

Report

The following Structure Plans have been fully implemented:

#	Structure Plan Name / Address
	Lots 29-32 Ocean Road
31A	Lots 23-28, 500 & 501 Hamilton Road
	Lots 1, 2, 5, 6, 8, 26, 308, 310, 311, 482 Mell Road, Spearwood/Coogee
31B	Lots 1-4, 4-8, 132, 300 & 301 Hamilton Road and Lot 9 Entrance Road,
316	Spearwood
31G	Lots 21 & 22 Cross Road, Spearwood (Packham North)
31K	Lot 33 Ocean Road, Coogee

The purpose of this amendment is simply to:

- transfer the zones and reserves shown on the approved local structure plans for these areas into Town Planning Scheme No.3 (TPS3);
- revoke the above structure plans; and
- adjust the boundary of Development Area 31 (DA31) special control area to match the above outcome (i.e. to only include those portions that still require a structure plan to guide further subdivision and development).

12 of 790	

Item 14.1.1 OCM 11/06/2024

Development Area 31

DA31 is the result of Scheme Amendment No.70 (SA70) to TPS3, which was gazetted on 5 November 2010.

Adopted by Council in 2011, the Packham North District Structure Plan provides an overarching land use framework for the DA31 area, including the major road network, neighbourhood structure, commercial, and significant public open space areas. It is used to coordinate the preparation and inform the consideration of Local Structure Plans (LSP's).

The special provisions for DA31 included in Table 9 of TPS3 are relatively basic, simply reinforcing the need for structure plans to first be prepared to guide future subdivision and development, for residential and compatible land uses.

Of note, they also require any subsequent subdivision or development application to achieve at least 85% of the potential number of dwellings achievable under the R-Code designated for the application area in an endorsed LSP.

As there remain portions of DA31 yet to be structure planned, or that involve structure plans in various stages of physical completion, deletion of DA31 and its special provisions are not proposed at this time, rather just a reduction to the extent of the special control area boundary to reflect the outcomes of this proposal.

Local Structure Plans

There are currently 12 operative structure plans across the DA31 area that collectively identify a local road, public open space and drainage network servicing a range of low-to-medium density (R20-60) residential housing and commercial facilities.

Of those structure plans, four have all been fully subdivided and/or developed and are now ready to be rationalised into TPS3.

Of those being rationalised, all the proposed zones and reserves shown on the structure plan maps directly correlate to zones and reserves that exist in TPS3.

All the public roads have been constructed, and all other public reserves embellished to the required standard and transferred into either public or utility operator ownership, in accordance with the applicable subdivision approvals.

Further detail on DA31 and the various structure plans are included in the Draft Scheme Amendment No.175 Report (refer Attachment 1).

Type of Amendment

This amendment is considered a 'Basic' Amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* on the basis it is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land and/or zoning land consistent with their established use and existing tenure.

13 of 790

OCM 11/06/2024 Item 14.1.1

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• A City that is 'easy to do business with'.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Not applicable – the Scheme Amendment documentation has been prepared, and the proposal will be progressed by the administration under its FY24 budget allocation.

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015

Community Consultation

Part 5 (Division1, Regulation 34) of the *Planning and Development (Local Planning Schemes) Regulations 2015* identifies three scheme amendment types: basic, standard and complex.

The changes proposed by Scheme Amendment No.175 meet the definition of a 'basic' Scheme Amendment. Such proposals do not typically require public advertisement.

Advertising will only occur if the Western Australian Planning Commission disagrees with the City's determination of the 'type' of Scheme Amendment (i.e. that it is should be processed as a 'standard' or 'complex' scheme amendment, pursuant to r.59 of the *Regulations*), or the Minister for Planning subsequently directs the City to do so (on the basis the Amendment is considered significant, pursuant to r.61 of the *Regulations*).

Amendments to the Regulations that took effect on 1 March 2024 clarified that as there is no need for Basic Amendments to be advertised, there is no need to seek the Minister's Approval to do so pursuant to s.83A of the Act.

14 of 790

Item 14.1.1 OCM 11/06/2024

Risk Management Implications

The officer recommendation considers the relevant planning matters associated with the proposal. It is considered that the officer recommendation is appropriate.

If the Scheme Amendment does not proceed (or is ultimately refused by the Minister for Planning):

- an opportunity will be missed to simplify the planning framework and remove additional layers of planning (structure plans) that have served their purpose; and
- the City will need to consider alternatives to ensure an appropriate local planning framework is in place to guide future land use and/or redevelopment proposals in the affected areas ahead of many of the structure plans expiring on 19 October 2025.

Town Planning Scheme No.3 Amendment No.175 (Basic)

Rationalisation of various Structure Plans within

Development Area 31 (Coogee & Spearwood)

JUNE 2024

Version: 3, Version Date: 05/08/2024

Planning and Development Act 2005 RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn Town Planning Scheme No.3 Amendment No.175

RESOLVED that the Council, in pursuance of Section 75 of the Planning and Development Act 2005, amend the City of Cockburn Town Planning Scheme No. 3 by:

- 1. Rezoning various lots within 'Development Area 31' from 'Development' to 'Residential (R20)', 'Residential (R25)', 'Residential (R30)', 'Residential (R35)' 'Residential (R40)', 'Residential (R60)' and 'Local Centre', as depicted on the Scheme Amendment Map.
- 2. Reclassifying land within 'Development Area 31' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
- 3. Reducing the extent of the 'Development Area 31' (DA31) special control area boundary, as depicted on the Scheme Amendment Map.

The Amendment is 'basic' under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reason(s):

- It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan and/or local development plans for the same land; and/or is
- Proposing zoning/reservation changes that are purely administrative in nature.

Pursuant to Regulation 35A of the Planning and Development (Local Planning Schemes) Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan(s):

Structure Plan #	Address	Latest WAPC Endorsement	WAPC Reference

Upon the amendment taking effect the approved structure plans are to be revoked.

Dated this day of	20	
		CHIEF EXECUTIVE OFFICER

18 of 790

AMENDMENT REPORT

1.0 INTRODUCTION

Structure Plan No.'s 31A, B, G and K have been fully implememented.

The purpose of this 'basic' scheme amendment is to transfer the zones and reserves shown on the applicable structure plans into Town Planning Scheme No.3 (TPS3), to ensure the City of Cockburn (the City) maintains development control upon expiration of the structure plans on 19 October 2025.

This process is referred to as the rationalisation of structure plans.

2.0 BACKGROUND

Version: 3, Version Date: 05/08/2024

Development Area 31 (DA31) was created through Scheme Amendment No.70 to TPS3 which was gazetted in November 2010. As a result, the Packham North District Structure Plan was adopted by Council in 2011 which help guide the broad land use framework, including the major road network, neighbourhood structure, commercial, and significant Public Open Space (POS) areas. It also formed the basis of coordinating and considering Local Structure Plans (LSP's).

As summarised in the following table, DA31 currently includes 12 operative structure plans, of which:

- 4 are ready to be rationalised into the scheme;
- 4 are incomplete and will require extension of time;
- 3 are undeveloped but have at least 3 years remaining before they expire (allowing further time to consider whether extension will be required); and
- 1 is complete, but due to its complexity, is being rationalised via the City's draft Local Planning Scheme No.13 process.

Structure Plan #	Address	Latest Approval (& Expiration Dates)	Proposed Action
31D	Lots 14-18, 41 & 500 Ocean Road, Coogee	WAPC: 23/4/2013 (Expires: 19/10/2025)	Extension Request being sought
31E	Lot 18 (No. 83) Mell Road, Spearwood	Council Approval Only: 11/12/14 (Expires: 19/10/2025)	To be rationalised via Draft LPS13 as 'Service Commercial'
31F	Lots 1, 9 & 10 Hamilton Road, Spearwood	WAPC: 15/4/2015 (Expires: 19/10/2025)	Extension Request being sought
31G	Lots 21 & 22 Cross Road, Spearwood (Packham North)	WAPC: 21/4/2015 (Expires: 19/10/2025)	Included in this amendment
31H	Lots 1, 2 & 20 Entrance Road, Coogee	WAPC: 11/1/2016 (Expires: 11/1/2026)	Extension Request being sought
311	Lot 14 Rockingham Road, Spearwood	WAPC: 9/5/2017 (Expires: 5/5/2027)	No Current Action (valid until 2027)
31J	Lot 600 (No. 66) Mell Road, Spearwood	WAPC: 6/12/2017 (Expires: 6/12/2027)	No Current Action (valid until 2027)
31K	Lot 33 Ocean Road, Coogee	WAPC: 19/12/2018 (Expires: 19/12/2028)	Included in this amendment
31L	Lot 34 Ocean Road, Coogee	WAPC: 8/7/2022 (Expires: 8/7/2032)	No Current Action (valid until 2032)

The extent of DA31 (thick black dotted line), the scheme amendment proposal (red solid line), the relevant Structure Plans and individual lots that will remain 'Development zone' (dashed blue line) are depicted on **Figures 1 and 2**.

As Structure Plans 31C, D, F, H, I, J and L are either yet to commence or are still undergoing development, they are not being rationalised by this proposal. They will retain their existing 'Development' zoning and likely form the subject of future structure plan extension requests.

As an interim measure, Structure Plan 31E and other isolated landholdings, unlikely to form the subject of future structure plan proposals will also retain their current 'Development' zoning. Alternative zones for these properties are proposed and will be advertised for public comment via the City's recently adopted draft Local Planning Scheme No.13.

Many of the structure plans include Local Development Plans (LDPs). This amendment has no effect on the operation of those instruments which will remain in effect until they expire on (or after) 19 October 2025.

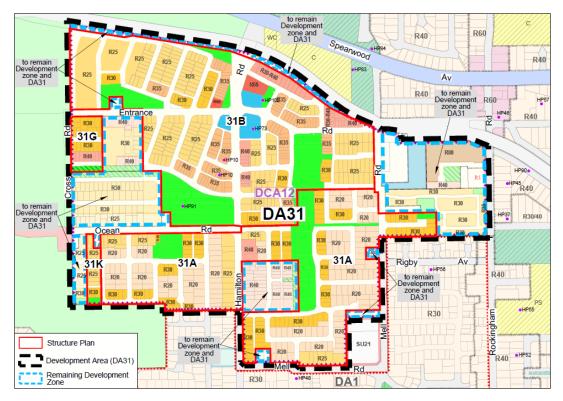

Figure 1 – DA31, Amendment Extent and Current endorsed Structure Plans

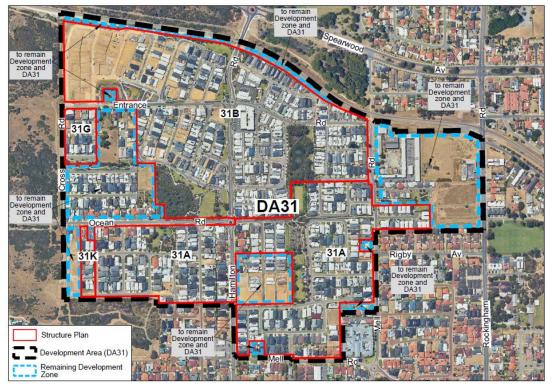

Figure 2 - Aerial Photograph showing extent of completed subdivision and development

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes)* Regulations 2015, identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This proposed amendment is considered a 'basic' amendment, which Regulation 34 describes as any of the following:

- a) an amendment to correct an administrative error;
- b) an amendment to the scheme so that it is consistent with the model provisions in Schedule 1 or with another provision of the local planning scheme;
- c) an amendment to the scheme text to delete provisions that have been superseded by the deemed provisions in Schedule 2;
- d) an amendment to the scheme so that it is consistent with any other Act that applies to the scheme or the scheme area;
- e) an amendment to the scheme so that it is consistent with a State planning policy;
- f) an amendment to the scheme map to include a boundary to show the land covered by an improvement scheme or a planning control area;
- g) an amendment to the scheme map that is consistent with a structure plan, activity centre plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme currently includes zones of all the types that are outlined in the plan;
- h) an amendment that results from a consolidation of the scheme in accordance with section 92(1) of the Act;
- i) an amendment to the scheme so that it is consistent with a region planning scheme that applies to the scheme area if the amendment will have minimal effect on the scheme or landowners in the scheme area.

This proposed amendment satisfies part (a) and (g) of the above criteria.

Specifically, it is an amendment to the local planning scheme map that involves zoning/reserving land consistent with approved structure plans for the same land and/or zoning land consistent with their established use and existing tenure.

4.0 TOWN PLANNING CONTEXT

4.1 State Planning Framework

The entirety of DA31 is identified in the South Metropolitan Peel Sub-Regional Planning Framework and zoned 'Urban' under the Metropolitan Region Scheme.

4.2 City of Cockburn Town Planning Scheme No. 3

Under TPS3, the area is zoned 'Development' and identified on the Scheme Map and in Table 9 of the Scheme Text as 'Development Area 31'.

The purpose of the 'Development' zone is to trigger the requirement for a Structure Plan to guide further subdivision and/or development.

Table 9 allows specific 'provisions' to then be applied to defined Development Areas, to inform the subsequent structure planning, subdivision and development processes. For DA31, it includes the following:

TABLE 9 - DEVELOPMENT AREAS			
REF NO.	AREA		PROVISIONS
DA31	Packham North (Development Zone)	1.	An approved Structure Plan together with all approved amendments shall be given due regard in the assessment of applications for subdivision, land use and development in accordance with clause 27(1) of the Deemed Provisions.
		2.	To provide for residential development and compatible land uses.
		3.	Each subdivision and development application in the Development Area shall achieve at least 85% of the potential number of dwellings achievable under the RCode designated for the application area in the endorsed Structure Plan.

The land also forms the subject of Development Contribution Areas 12 and 13 (DCA 12 – Packham North & DCA 13 – Community Infrastructure) under TPS3. This amendment has no impact on the operation of these DCA's.

23 of 790

5.0 PROPOSAL

Subdivision and/or development of substantial portions of DA31 are now complete, meaning that some existing structure plans have served their purpose and are no longer required.

This amendment therefore seeks to remove these areas from DA31 and transfer the structure plan identified zonings and reservations for the land into the Scheme, ahead of the structure plans expiring on (or shortly after) 19 October 2025.

Development Area 31:

As there remain portions of DA31 yet to be structure planned, or that involve structure plans in various stages of physical completion, deletion of DA31 and its special provisions is not proposed at this time, rather just a reduction to the extent of the special control area boundary.

Local Structure Plans (LSP):

Details on each Structure Plan (including the LSP map and an aerial of the area) are provided in this section to demonstrate the City's reasoning for rationalisation.

Unless otherwise stated, all the approved structure plan designations directly correlate to zonings and reserves pursuant to TPS 3. All the public roads have been constructed and ceded, and all other public reserves embellished to the required standard and transferred into either public or utility operator ownership, in accordance with the applicable subdivision approvals.

Version: 3, Version Date: 05/08/2024

Lot 29-32 Ocean Road, Lots 23-28, 500-501 & 662-664 Hamilton Road, Lots 1, 2, 5, 6, 8, 26, 308, 310, 311 & 482 Mell Road, Spearwood/Coogee (31A)

Located centrally within DA31, the structure plan identifies an interconnected local road and public open space (POS) network primarily servicing a range of low (R20 to R30) density single residential housing.

The R30 coding is largely restricted to laneway typologies or lots directly abutting or fronting POS. A small pocket of R40 was located on the eastern side of Hamilton Road to facilitate future redevelopment of three older existing homes. With exception to two vacant R20 coded single house lots, subdivision and development of the structure plan is complete.

All the land within this Structure Plan is proposed to be rezoned and/or reclassified from 'Development' zone to the correlating zone and/or reserves identified on the Structure Plan Map shown in **Appendix A**.

25 of 790

Lots 1-4, 4-8, 132 & 301 Hamilton Road, And Lot 9 Entrance Road Spearwood (31B)

Encompassing the majority of the northern portion of DA31, this structure plan identifies a comprehensive interconnected local road and POS network, primarily servicing a range of low-to-medium (R25) density single residential housing.

Pockets of R30, R35 and R40, are scattered throughout the area, typically involving laneway lot precincts, or smaller lots with a direct interface or are located directly opposite high amenity locations like POS or along the Hamilton Road bus route.

A select number of R60 coded grouped and/or multiple dwelling sites lie directly in and around the Local Centre at the intersection of Hamilton and Entrance Roads.

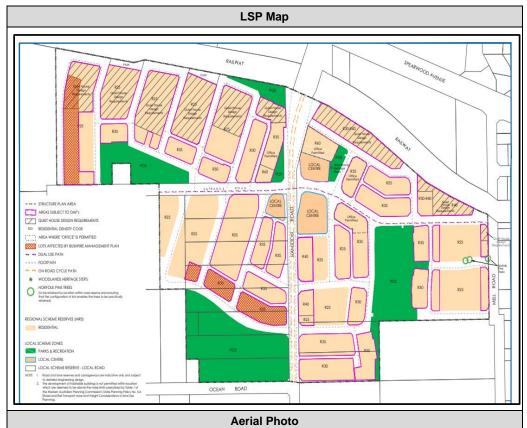

Two of the Local Centre zoned sites have developed, one with a large mixed use development comprising multiple dwellings and ground floor commercial tenancies, the other as a child care premises. The remaining site has development approval for a Medical Centre but is yet to submit a building permit or commence works on-site.

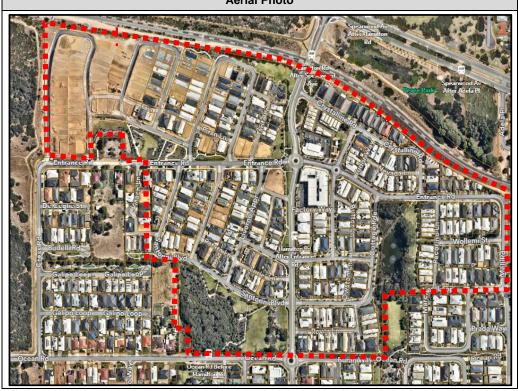

Lots backing onto the railway reserve in the north-east corner of the site are identified with a density range (R30 – R40) on the LSP map. An R30 coding is proposed by this application in recognition that this was the code used by both the WAPC to determine the subdivision application (refer to Approved Deposited Plan in **Appendix B**), and the City the subsequent single house development and/or building applications for each resultant lot.

The final stage of lot creation (in the north-west corner of the site) is currently nearing completion. City clearances have been issued for the lots (refer **Appendix C**) and Titles are expected ahead of the Amendment's final gazettal. This proposal will have no impact on the future development of each lot with single residential dwellings.

Along the northern edge of the new POS reserve in this area, a slight change has occurred whereby Haifa Street has been continued all the way along, rather than involving POS frontage lots at the western end serviced by a rear laneway. This proposal reflects the approved WAPC subdivision layout and physical works that have since taken place on the ground.

Otherwise, all the land within this Structure Plan is proposed to be rezoned and/or reclassified from the 'Development' zone to the correlating zone, residential density coding and/or reserve identified on the Structure Plan Map, shown in **Appendix D**.

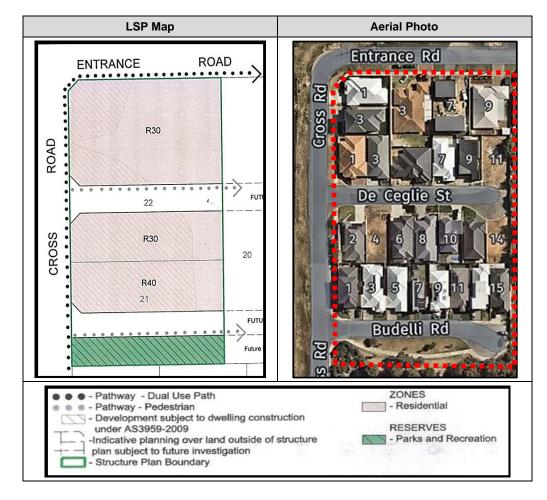

Lot 21 & 22 Cross Road, Coogee - Packham North (31G)

Located towards the north-west corner of DA31, this structure plan identifies two new local roads and linear POS reserve principally servicing low (R30) density single residential housing. A strip of medium (R40) density housing sits directly opposite the POS. Cross Road is located outside of the structure plan area and is reserved for 'Parks and Recreation' under the Metropolitan Region Scheme.

Both De Cegile Street and Budelli Road currently terminate at temporary cul-desac heads that will ultimately be removed and the roads extended upon development of land to the east (via approved Structure Plan 31H). As an interim measure, public easements facilitate public use over the De Ceglie Street temporary turning bulb, whilst the City holds a bond towards future turfing and footpath adjustments to reistate the POS affected by the Budelli Road bulb.

Otherwise with exception to one vacant R30 coded single house lot, subdivision and development of the structure plan is essentially complete. All the land within this Structure Plan is proposed to be rezoned and/or reclassified from the 'Development' zone to the correlating zone and/or reserve identified on the Structure Plan Map, shown in **Appendix E**.

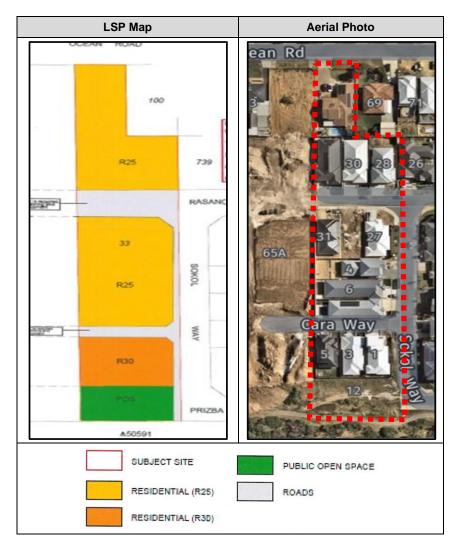

Lot 33 Ocean Road, Coogee (31K)

Located towards the south-west corner of DA31, south of Ocean Road, this structure plan identifies local road extensions and a small POS reserve principally servicing low density (R25) single residential housing. A small pocket of R30 shares its southern interface with the POS.

The existing POS reserve is yet to be developed but the City has taken a bond to cover works not completed by the developer. Implementation is expected to occur inline with the development timeframe for the balance of the reserve being created by Structure Plan 31L to the west. With the exception of the POS, all the structure plan area is completely subdivided and developed.

All the land within this Structure Plan is proposed to be rezoned and/or reclassified from the 'Development' zone to the correlating zone and/or reserve identified on the Structure Plan Map shown in **Appendix F**.

29 of 790

6.0 CONCLUSION

For the following reasons, it is now an appropriate time for the structure plans discussed above to be revoked, and the applicable zones and reserves rationalised into the Scheme:

- all public reserves (including local roads and public open space) have been suitably constructed/embellished and transferred into public or utility provider ownership;
- all zoned land on the endorsed structure plans has been substantially subdivided and/or developed for residential or commercial purposes; and
- where further subdivision and/or development is still to occur on private landholdings, the proposed zoning is consistent with the designation that would have applied under the applicable structure plan.

Recognising these zones and reserves within the TPS3 will:

- avoid the future need to seek WAPC approval to extend the approval period of the existing structure plan; and
- remove a redundant layer of planning control; whilst still
- ensuring the City maintains appropriate mechanisms to guide and control future redevelopment of the land (including the same range of permissible land uses and associated development standards as currently apply), consistent with current community expectations.

Version: 3, Version Date: 05/08/2024

Version: 3, Version Date: 05/08/2024

Planning and Development Act 2005

City of Cockburn Town Planning Scheme No.3 Amendment No.175

RESOLVED that the Council, in pursuance of Section 75 of the Planning and Development Act 2005, amend the City of Cockburn Town Planning Scheme No. 3 by:

- 1. Rezoning various lots within 'Development Area 31' from 'Development' to 'Residential (R20)', 'Residential (R25)', 'Residential (R30)', 'Residential (R35)' 'Residential (R40)', 'Residential (R60)' and 'Local Centre', as depicted on the Scheme Amendment Map.
- 2. Reclassifying land within 'Development Area 31' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
- 3. Reducing the extent of the 'Development Area 31' (DA31) special control area boundary, as depicted on the Scheme Amendment Map.

The Amendment is 'basic' under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reason(s):

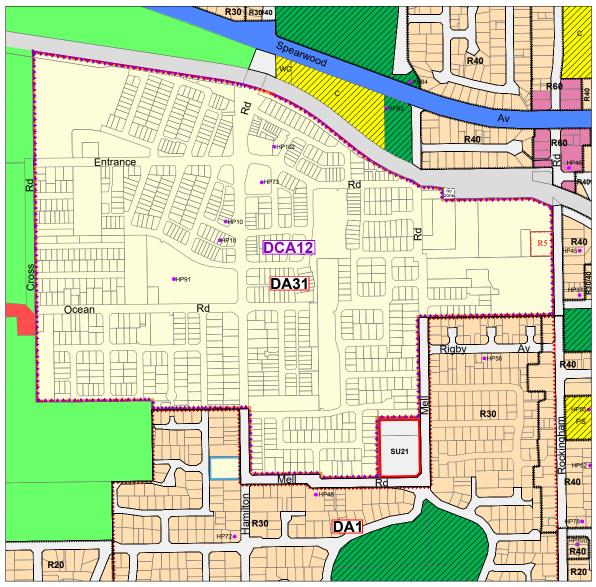

- It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan and/or local development plans for the same land; and/or is
- Proposing zoning/reservation changes that are purely administrative in nature.

Pursuant to Regulation 35A of the Planning and Development (Local Planning Schemes) Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan(s):

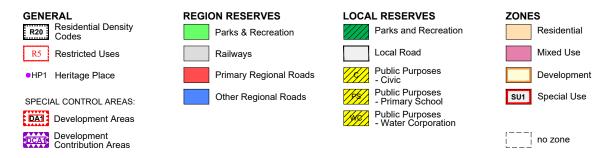

Structure Plan #	Address	Latest WAPC Endorsement	WAPC Reference
	Lots 29-32 Ocean Road		
31A	Lots 23-28, 500 & 501 Hamilton Road	14/3/2016	SPN/0287M
	Lots 1,2,5,6,8,26,308,310,311 & 482 Mell Road, Spearwood/Coogee	, 6, 20 . 0	
31B	Lots 1-4, 4-8, 132, 300 & 301 Hamilton Road & Lot 9 Entrance Road, Spearwood	22/5/2018	SP17/15
31G	Lots 21 & 22 Cross Road, Spearwood (Packham North)	21/4/2015	SPN/0722
31K	Lot 33 Ocean Road, Coogee	19/12/2018	SPN/2183

Upon the amendment taking effect the approved structure plans are to be revoked.

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

- (1) AMENDS the City of Cockburn Town Planning Scheme No.3, pursuant to Section 75 of the *Planning and Development Act 2005*, by:
 - 1. Rezoning various lots within 'Development Area 16' from 'Development' to 'Residential (R40)', 'Residential (R60)', 'Residential (R80)', 'Residential (R100)', and 'Mixed Use (R80)', as depicted on the Scheme Amendment Map.
 - 2. Reclassifying land within 'Development Area 16' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
 - 3. Reducing the extent of 'Development Area 16' Special Control Area boundary, as depicted on the Scheme Amendment Map.
- (2) DETERMINES that the Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it satisfies the following criteria of Part 5, Division 1, Regulation 34:
 - an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land; and/or
 - it is an amendment that corrects minor anomalies / administrative errors.

and PROVIDE the Amendment to the Western Australian Planning Commission, pursuant to Part 5, Division 4, Regulation 58 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, for its consideration;

(3) REFERS the Amendment to the Environmental Protection Authority (EPA), pursuant to Section 81 of the *Planning and Development Act 2005*, by giving to the EPA written notice of this resolution and such written information about the amendment as is sufficient to enable the EPA to comply with Section 48A of the *Environmental Protection Act 1986* in relation to the proposed scheme amendment;

42 of 790	

Item 14.1.2 OCM 11/06/2024

(4) Upon compliance with Sections 81 and 82 of the *Planning and Development Act 2005*, DELEGATES authorisation and submission of the amendment documentation to the Western Australian Planning Commission along with a request for the endorsement of final approval by the Hon. Minister for Planning; and

(5) NOTES pursuant to Part 5, Division 1, Regulation 35A of the *Planning and Development (Local Planning Schemes) Regulations 2015,* the intention to partially revoke the following Structure Plan (via clause 29A of Schedule 2 / *Deemed Provisions*) upon the approval of Amendment No.176:

Structure	Address	Latest WAPC	WAPC
Plan #		Endorsement	Reference
16A	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

CARRIED 10/0

Background

Structure plans are important planning instruments, regularly used to coordinate the subdivision and development of land, particularly in new, greenfield locations and post-industrial brownfield locations.

Reflective of its rapid urbanisation over the past 20+ years, the City currently has over 150 local structure plans operating within its scheme area, many of which are substantially subdivided and/or have been built out.

When the *Planning and Development (Local Planning Scheme) Regulations* were released in 2015, a key change involved the introduction of a 10-year time limit to the validity of structure plans.

Structure plans approved prior to this date were automatically given a 10-year timeframe for approval, from when the Regulations came into effect.

Under the State Planning Framework, once a structure plan has served its purpose (typically once all the lots have been subdivided and physically created), the zones and reserves are to be transferred into the Scheme and the structure plan revoked.

This process, commonly referred to as a structure plan 'rationalisation', ensures the City retains appropriate planning mechanisms to guide and control future use and/or redevelopment of the land (including the same range of permissible land uses and associated development standards as currently apply) into the future, consistent with community expectations.

This proposal is part of a series of Scheme Amendments required to rationalise large portions of the City's urban areas ahead of several existing structure plans expiring on the 10-year anniversary of the Regulations coming into effect (19 October 2025).

43 of 790

OCM 11/06/2024 Item 14.1.2

Submission

N/A

Report

The following Local Structure Plan (LSP) has been substantially implemented:

#	Structure Plan Name / Address
16A	South Beach Village: Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee

In conjunction with Scheme Amendment #177 the purpose of this amendment is to:

- transfer the zones and reserves shown on the approved structure plan for the completed development areas into Town Planning Scheme No.3 (TPS3);
- identify appropriate residential density codings for each site (based on approved Development and/or Local Development Plans where density ranges are shown on the Structure Plan);
- revoke the above structure plan (as it relates to the completed areas); and
- adjust the boundary of the Development Area 16 (DA16) Special Control Area to match the above outcome (i.e. to only include those portions that still require a structure plan to guide further subdivision and development).

Development Area 16

DA16 was initially created upon gazettal of TP3 in December 2002.

Upon the cessation of industrial activities in the late 1990s, its purpose was to facilitate comprehensive redevelopment of the area into a vibrant urban village comprising diverse environmentally, socially, and economically sustainable high-quality medium-to-high density housing and commercial spaces with convenient access to public open space and surrounding areas.

The special provisions for DA16 included in Table 9 of TPS3 are relatively basic, simply reinforcing the need for a structure plan to first be prepared to guide future subdivision and development of the former industrial land, and to ensure that all residential development is designed to mitigate noise impacts from the freight rail line in accordance with the South Beach Noise Management Plan 2002.

As there remain portions of DA16 yet to redevelop, complete deletion of DA16 and its special provisions are not proposed, rather just a reduction to the extent of the special control area boundary to reflect the outcomes of this proposal.

A further reduction will also occur as a result of Scheme Amendment #177, which focuses on allocating an appropriate residential density coding to the Move Apartment complex fronting Rollinson Road.

Item 14.1.2 OCM 11/06/2024

South Beach Village Local Structure Plan

Structure Plan 16A – South Beach Village (which covers all of DA16), identifies a comprehensive local road network servicing low-to-medium (R20-R80) density single residential houses and medium-to-high (R60-R125) density townhouses and apartments, principally clustered around a central spine of public open space (POS) that leads back to district level recreational facilities at South Beach. A secondary linear POS corridor runs along the eastern edge of the freight railway line that continues to operate through the area.

The LSP has been modified several times, with the most recent in 2017 involving rezoning land along O'Connor Close from 'Mixed Business' to 'Mixed Use' to improve the compatibility of land uses adjoining residential dwellings.

All the proposed zones and reserves shown on the Structure Plan map (the subject of this proposal), directly correlate to zonings and reserves in the Scheme. Proposed density codings either reflect:

- specific codings identified on an approved Local Development Plan for each site;
 or where a range is shown on the LSP and/or LDP
- the higher density coding, that was applied to substantive development approved and subsequently implemented on each site.

All the relevant public roads have been constructed, and all other affected public reserves embellished to the required standard and transferred into either public or utility operator ownership, in accordance with the applicable subdivision approvals. Those that have not, have been specifically excluded from this proposal.

Further detail on DA16, the structure plan, local development plans, and excerpts of relevant development approvals are included in the draft Scheme Amendment No.176 Report (refer Attachment 1).

Type of Amendment

This amendment is considered a 'Basic' Amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* on the basis that it involves zoning land consistent with an approved structure plan and/or local development plan for the same land or resolves existing administrative errors in the form of zoning/reserving land consistent with its established use and/or tenure.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

A City that is 'easy to do business with'.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

• Best practice Governance, partnerships and value for money.

45 of 790

OCM 11/06/2024 Item 14.1.2

Budget/Financial Implications

Not Applicable – the scheme amendment documentation has been prepared, and the proposal will be progressed by the administration under its FY24-25 budget allocation.

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015

Community Consultation

Part 5 (Division 1, Regulation 34) of the *Planning and Development (Local Planning Schemes) Regulations 2015* identifies three scheme amendment types: basic, standard, and complex.

The changes proposed by Scheme Amendment No.176 meet the definition of a 'basic' scheme amendment. Such proposals do not typically require public advertisement.

Advertising will only occur if the Western Australian Planning Commission disagrees with the City's determination of the 'type' of Scheme Amendment (i.e. that it is should be processed as a 'standard' or 'complex' scheme amendment, pursuant to r.59 of the Regulations), or the Minister for Planning subsequently directs the City to do so (on the basis the Amendment is considered significant, pursuant to r.61 of the Regulations).

Amendments to the Regulations that took effect on 1 March 2024 clarified that as there is no need for Basic Amendments to be advertised, there is no need to seek the Minister's Approval to do so pursuant to s.83A of the Act.

Risk Management Implications

The officer recommendation considers the relevant planning matters associated with the proposal. It is considered that the officer recommendation is appropriate.

If the Scheme Amendment does not proceed (or is ultimately refused by the Minister for Planning):

- an opportunity will be missed to simplify the planning framework and remove additional layers of planning (structure plans) that have served their purpose; and
- the City will need to consider alternatives to ensure an appropriate local planning framework is in place to guide future land use and/or redevelopment proposals in the area ahead of the structure plan expiring on 19 October 2025.

Planning and Development Act 2005 RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn Town Planning Scheme No.3 Amendment No.176

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No.3 by:

- 1. Rezoning various lots within 'Development Area 16' from 'Development' to 'Residential (R40)', 'Residential (R60)', 'Residential (R80)', 'Residential (R100)', and 'Mixed Use (R80)', as depicted on the Scheme Amendment Map.
- Reclassifying land within 'Development Area 16' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
- 3. Reducing the extent of 'Development Area 16' special control area boundary, as depicted on the Scheme Amendment Map.

The Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason(s):

- It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan and/or local development plans for the same land; and/or is
- Proposing zoning/reservation changes that are purely administrative in nature.

Pursuant to Regulation 35A of the *Planning and Development (Local Planning Schemes)* Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan:

Structure	Address	Latest WAPC	WAPC
Plan #		Endorsement	Reference
16A	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

Upon the amendment taking effect 'partial' revocation of the above approved structure plan is to occur.

Dated this day of 2024	
	CHIEF EXECUTIVE OFFICER

48 of 790

AMENDMENT REPORT

1.0 INTRODUCTION

Structure Plan No.16A (South Beach Village) has largely been implemented.

The purpose of this 'basic' scheme amendment is to transfer most of the zones and reserves shown for this structure plan area into Town Planning Scheme No.3 (TPS3), to ensure the City maintains appropriate development control, ahead of the structure plan expiring on 19 October 2025.

This process is referred to as rationalisation of a structure plan.

2.0 BACKGROUND:

Development Area 16 (DA16) was created in December 2002, upon gazettal of Town Planning Scheme No.3 (red dashed outline in **Figure 1**).

In essence, it is the result of Amendment No.201 to former District Zoning Scheme No.2, which in response to the 2001 gazettal of Metropolitan Region Scheme (MRS) Amendment 1008/33, transferred land from 'Industrial' and 'Railways' Reservation to the 'Urban' zone and 'Regional Parks and Recreation' reservation.

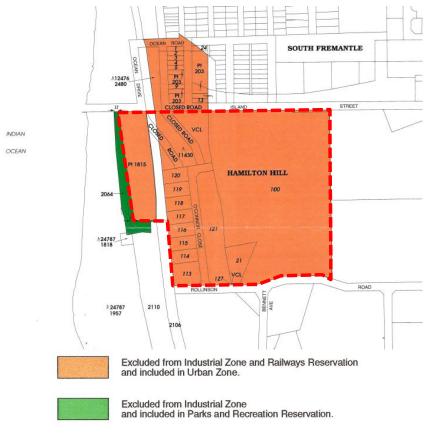

Figure 1 – Detail Plan for MRS Amendment No. 1008/33

49 of 790

Previously the substantive portion of a general industrial and railyard area that extended northward into the City of Fremantle, the land was significantly remediated to comply with environmental conditions imposed by the Minister for Environment to facilitate its redevelopment for urban purposes.

The adopted vision for the area was to deliver a vibrant urban village comprising diverse environmentally, socially, and economically sustainable high-quality medium to high density housing and commercial spaces with convenient access to public open space and surrounding areas.

The resulting built form has been heavily influenced by the preparation and administration of comprehensive design guidelines for the estate and associated Local Development Plans for specific areas.

These guided the emergence of well-designed, considerate housing to assist in achieving the City's infill density targets whilst ensuring development outcomes fostered a sense of community without compromising on privacy and lifestyle.

DA16 currently includes one endorsed structure plan as per the table below.

Structure Plan #	Address	Latest Approval (& Expiration Date)	Proposed Action
16A	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	WAPC: 16/02/2017 (Expires 19/10/2025)	Basic & Standard Amendments

The extent of DA16 (thick black dashed line), the structure plan (red solid line) and scheme amendment boundary (yellow dashed line), are depicted on **Figures 2 and 3.** The additional area outlined in yellow (in between Breaksea Drive and Rollinson Road in the southeast corner) forms the subject of a separate complimentary 'standard' Scheme Amendment (#177) that will be advertised for public comment.

Lots outlined in blue are yet to develop or redevelop in accordance with the approved Structure Plan. Of importance, they incorporate important public reserves yet to be constructed and ceded into public ownership. As a result, they have been excluded from both scheme amendments, will retain their existing 'Development' zoning, and a Structure Plan extension for that area was lodged with the WAPC in January 2024.

The structure plan area includes various Local Development Plans (LDPs). This amendment has no effect on the operation of those instruments which will remain in effect until they expire on (or after) 19 October 2025.

Consistent with the proposed Structure Plan outcome, the City will need to consider the benefits (or otherwise) of extending the approval of the existing LDP for the undeveloped landholdings.

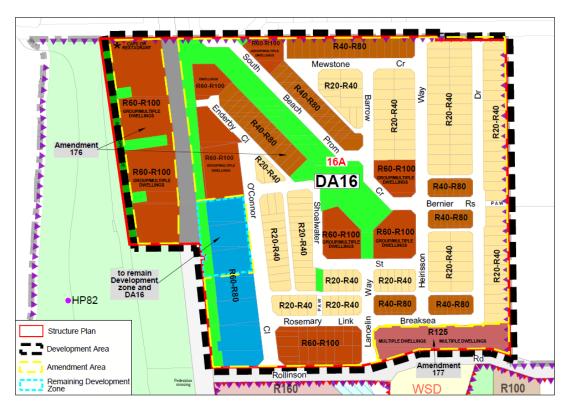

Figure 2 - DA16, Structure Plan 16A and Scheme Amendment #176 & #177 Extents

Figure 3 - Aerial Photograph showing extent of completed Subdivision and Development

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes)* Regulations 2015, identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This proposed amendment is considered a basic amendment, which Regulation 34 describes as any of the following:

- a) an amendment to correct an administrative error;
- b) an amendment to the scheme so that it is consistent with the model provisions in Schedule 1 or with another provision of the local planning scheme;
- c) an amendment to the scheme text to delete provisions that have been superseded by the deemed provisions in Schedule 2;
- d) an amendment to the scheme so that it is consistent with any other Act that applies to the scheme or the scheme area;
- e) an amendment to the scheme so that it is consistent with a State planning policy;
- f) an amendment to the scheme map to include a boundary to show the land covered by an improvement scheme or a planning control area;
- g) an amendment to the scheme map that is consistent with a structure plan, activity centre plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme currently includes zones of all the types that are outlined in the plan;
- h) an amendment that results from a consolidation of the scheme in accordance with section 92(1) of the Act;
- i) an amendment to the scheme so that it is consistent with a region planning scheme that applies to the scheme area if the amendment will have minimal effect on the scheme or landowners in the scheme area.

This proposed amendment satisfies parts (a) and (g) of the above criteria.

Specifically, it is an amendment to the local planning scheme map that involves zoning land consistent with an approved structure plan for the same land and/or zoning land consistent with their established use and existing tenure.

4.0 TOWN PLANNING CONTEXT

4.1 State Planning Framework

The entirety of DA16 is identified in the *South Metropolitan Peel Sub-Regional Planning Framework* and zoned 'Urban' under the Metropolitan Region Scheme.

4.2 City of Cockburn Local Planning Framework

Under TPS3, the area is zoned 'Development' and identified on the Scheme Map and in Table 9 of the Scheme Text as Development Area 16 (DA16).

The purpose of the 'Development' zone is to trigger the requirement for a Structure Plan to guide further subdivision and/or development.

Table 9 allows specific 'provisions' to then be applied to defined Development Areas to inform the subsequent structure planning and subdivision processes. For DA16 it includes the following:

	TABLE 9 – DEVELOPMENT AREAS			
REF. NO.	AREA	PROVISIONS		
DA 16 South Beach (Development Zone)	 An approved Structure Plan together with all approved amendments shall be given due regard in the assessment of applications for subdivision, land use and development in accordance with clause 27(1) of the Deemed Provisions. 			
		To provide for uses consistent with the zonings and reservations in the MRS.		
		 All residential development must be designed and constructed to comply with the South Beach Village Noise Management Plan dated August 2002. 		

5.0 PROPOSAL

Subdivision and development of almost all the land within DA16 is now complete, meaning that the structure plan has largely served its purpose.

This amendment therefore seeks to remove these areas from DA16 and transfer the structure plan identified zones and reservations for the land into the Scheme, ahead of the structure plans expiry date of 19 October 2025.

Development Area 16:

As there remains portions of DA16 yet to be redeveloped, in particular Lots 116-118 O'Connor Close, complete deletion of DA16 and its special provisions are not proposed at this time, rather just a reduction to the extent of the DA16 special control area boundary to reflect the outcome of this proposal. A further reduction will occur as part of Scheme Amendment #177.

Local Structure Plan (LSP):

Details on Structure Plan 16A, including commentary on important exclusions and inclusions, is provided in this section to demonstrate our reasoning for rationalisation in the manner proposed.

53 of 790

Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee - South Beach Village Estate (16A)

Lying along the southern boundary of South Fremantle, west of the Fremantle Village Holiday Park, north of Rollinson Road and east of the CY O'Connor Foreshore Reserve, this Structure Plan identifies a comprehensive network of local roads servicing low-to-medium (R20-R80) density single residential houses and medium-to-high (R60-R125) density townhouses and apartments, principally clustered around a central spine of public open space (POS) that leads back to district level recreational facilities at South Beach.

Density ranges were adopted for most street blocks, with the final coding (and specific Design Guidelines and R-Code development standard variations) deferred to Local Development Plans (prepared in response to conditions of Subdivision Approval) or subsequent Development Approval.

The higher codings are generally located in high-amenity locations, such as directly adjacent or opposite the ocean foreshore, the primary (central) or secondary (freight rail adjacent) linear POS corridors, or along Rollinson Road (which provides a direct connection to the CY O'Connor Foreshore reserve).

A Mixed Use precinct (reduced in size and rezoned from Mixed Business via a series of LSP Amendments over the Estate's lifetime), is located in the southwest corner along the eastern edge of the operating freight rail line.

Other than where discussed in the following sections, all land is proposed to be rezoned and/or reclassified from the 'Development' zone to the correlating zones and reserves identified on the Structure Plan map shown in Appendix A.

Proposed density codings reflect:

- those applied to substantive development, approved and subsequently implemented using the higher density coding identified on the Structure Plan for the sites included at **Appendix B**;
- the specific codings identified on the approved Local Development Plans included at **Appendix C**; or
- those applied to substantive development, approved and subsequently implemented using the higher density coding identified on the Local Development Plan included at **Appendix D**.

Exclusions:

Three of the Mixed Use lots [Lots 116 (#15), 117 (#19) and 118 (#23) O'Connor Close] are yet to fully redevelop and subdivide in accordance with the current Structure Plan outcome, the former because it contains an operating light industrial use with ongoing non-confirming use rights.

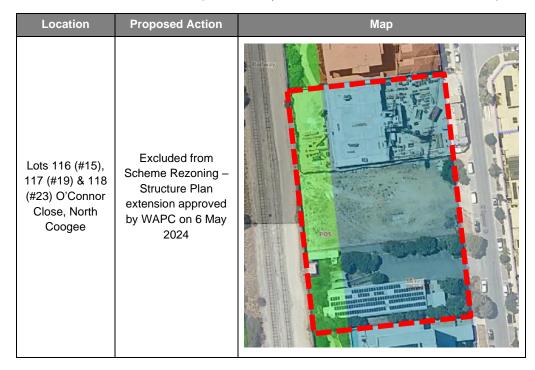

These lots cannot be rationalised at this time as they incorporate critical mid-route portions of the secondary linear park running along the eastern edge of the freight

Version: 3, Version Date: 05/08/2024

Document Set ID: 11954268

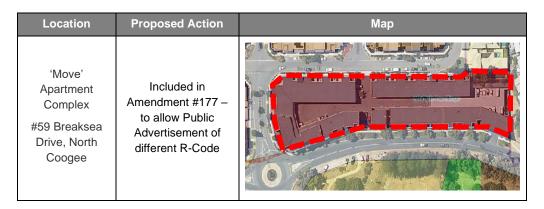

rail line, that form an important pedestrian/cyclist connection between Rollinson Road, Enderby Close and South Beach further north. Even though development of #23 is well progressed, reserving the relevant portions as POS now could injuriously affect the land and give rise to a landowner claim for compensation.

Instead, these lots have been excluded from both scheme amendments, will retain their existing 'Development' zoning and a Structure Plan extension for that area has been submitted to the WAPC (refer to maps and table below for exact location).

The only other exclusion involves the 'Move' Apartment Complex (#59 Breaksea Drive) as the Structure Plan identifies an 'R125' density code which doesn't appear in the current version of the Residential Design Codes.

As an alternative coding needs to be proposed, rationalisation of that area will occur via a separate 'standard' scheme amendment (Amendment #177) that will be advertised for public comment (refer to maps and table below for exact location).

55 of 790

Minor Adjustments:

Typical of any rationalisation amendment, included are minor adjustments required to match the final boundaries and tenure of land as determined via subsequent subdivision processes. A couple of more notable changes, necessary to match the outcome of WAPC subdivision decisions, are documented in the following table:

Location	Current Use / Tenure	Proposed Local Reservation	Мар
Portion of Keeling Way	Road Reserve (Local Road)	'Local Road'	
'The Islands' Development Complex #21-25 Ocean Drive, North Coogee (Strata Plan 52597)	Privately Owned Communal Open Space (Public Access/Use secured via Easements on Title)	'Residential R60' (Consistent with balance land holding)	

Despite being shown on the relevant Local Development Plans as POS and developed for public use, the City has been advised that reserving or otherwise restricting the relevant portions of 'The Islands' Development Complex to a public use in TPS3, could constitute injurious affection and give rise to a landowner claim for compensation. Notwithstanding the proposed Residential zoning (consistent with the balance of the broader title), public use is maintained via the easement on the Title (refer **Appendix E**).

6.0 CONCLUSION

For the following key reasons, it is suggested that now is an appropriate time for Structure Plan 16A to be partially revoked and most of its zones and reserves to be rationalised into the Scheme:

- all the affected public reserves (including local roads, drainage, public open space and public purpose) have been suitably constructed/embellished and transferred into public or utility provider ownership;
- all the affected zoned land on the endorsed structure plan has been substantially subdivided and/or developed for private commercial and/or residential purposes; and
- where further development is currently underway or is still to occur on private landholdings within the affected area, the proposed zoning is consistent with the designation that would have applied under the applicable structure plan and relevant local development plan.

Recognising these zones and reserves within TPS3 will:

- avoid the future need to seek WAPC approval to extend the approval period of the existing structure plans; and
- remove a redundant layer of planning control; whilst still
- ensure the City maintains appropriate mechanisms to guide and control future redevelopment of the land (including the same range of permissible land uses and associated development standards as currently apply), consistent with current community expectations.

The other changes proposed reflect good contemporary planning practice and do not pose a significant adverse impact on surrounding development.

Planning and Development Act 2005

City of Cockburn Town Planning Scheme No.3 Amendment No.176

RESOLVED that the Council, in pursuance of Section 75 of the Planning and Development Act 2005, amend the City of Cockburn Town Planning Scheme No.3 by:

- 1. Rezoning various lots within 'Development Area 16' from 'Development' to 'Residential (R40)', 'Residential (R60)', 'Residential (R80)', 'Residential (R100)', and 'Mixed Use (R80)', as depicted on the Scheme Amendment Map.
- 2. Reclassifying land within 'Development Area 16' from the 'Development' zone to a local reserve for 'Parks and Recreation' or 'Local Road', as depicted on the Scheme Amendment Map.
- 3. Reducing the extent of 'Development Area 16' Special Control Area boundary, as depicted on the Scheme Amendment Map.

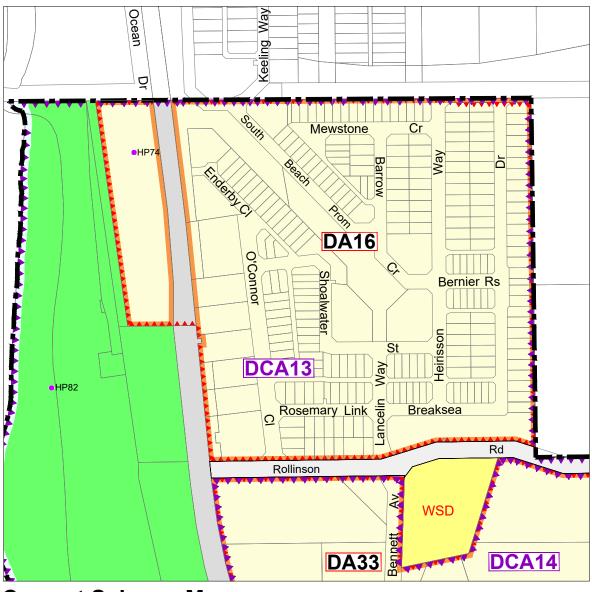

The Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason(s):

- It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan and/or local development plans for the same land; and/or is
- Proposing zoning/reservation changes that are purely administrative in nature.

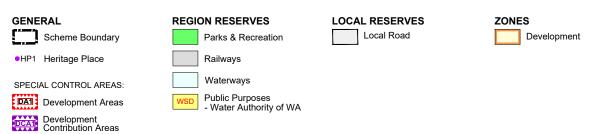

Pursuant to Regulation 35A of the *Planning and Development (Local Planning Schemes)* Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan:

Structure	Address	Latest WAPC	WAPC
Plan #		Endorsement	Reference
16A	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

Upon the amendment taking effect 'partial' revocation of the above approved structure plan is to occur.

Approved Local Development Plans (with Specific R-Code Densities)

71 of 790

Item 14.1.2 Attachment 1 OCM 11/06/2024

1 Nil setback for podium and two storeys.

Nil setback for podium and two storeys for a maximum of 50% of the length of boundary. The remaining portion is to be set back a minimum of 7.0m

3.2m setback required for upper levels above podium and two storeys.

Setback above podium and two storeys to be a minimum of 7.0m.

BUILDING HEIGHT

- Maximum building height is 21.0m from NGL (7.50 AHD based on pre-remediation levels) to uppermost portion of roof (including lift motor rooms/plant).
- Podium level up to 1.6m from NGL is permitted. Minimum floor to floor height is 3.0m

CAR PARKING & ACCESS

- Access to basements is to be from internal roads between buildings.
- All residential tenant car parking to be contained in basements within or below each building envelope.
- Visitor Parking is to be provided in accordance with the R-Codes.
- · Parking for commercial uses is to be provided in accordance with the City of Cockburn's Town Planning Scheme.
- All servicing of the development is to occur within the site (Lot 1815)
- A clear delineation between pedestrian and vehicle movement is to be provided

OPEN SPACE

- Minimum 60% open space is required and is calculated across entire site (Lot 1815) including easements and access ways, but not regional public open space reserves.
- . Outdoor living areas above natural ground level can be included in open space calculations

OTHER

- Applicable Residential Density Code is R80. The density and plot ratio of the development shall be calculated across the entirety of Lot 1815.
- A variety of residential dwelling types and sizes such as beach houses, 2 and 3 bedroom apartments are to be provided.
- Development above podiums is to address all frontages including internal streets and reserves/public accessways in a positive manner reflective of the nature of the adjoining space. Balconles should to be generously dimensioned (>2.5m) and designed to provide protection to the dwelling from excess solar gain

Nil setback permitted.

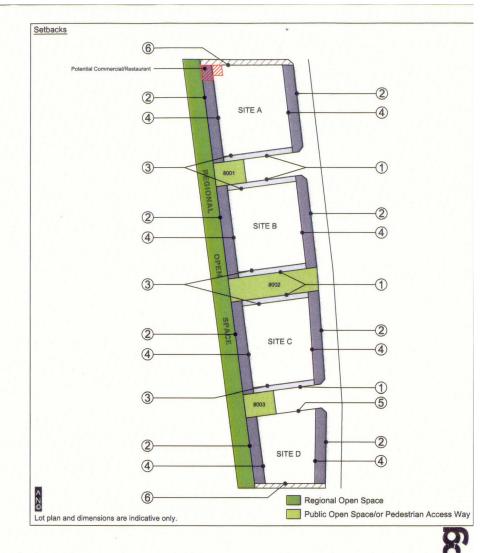

3.0m setback for all levels.

- * The north western corner of Site A may be for commercial uses (i.e. restaurant, shop or café). Dwellings may be also used for home occupations subject to City of Cockburn approval.
- Materials used in construction shall be reflective of a coastal vernacular theme, durable and suitable for their coastal environment.
- Easements shall be landscaped in a manner that is integrated with the landscaping of public open space reserves.
- Northern solar access and cross ventilation opportunities shall be maximised.
- Roof mounted solar cells, solar hot water units and mechanical plant equipment are not to be visible from the street or public places abutting the site.
- Clear demarcation of private space shall be provided to prevent unnoticed access to the property.
- The utilisation of quiet house design principles, the construction of noise barriers and the location of buildings to maximise amelioration of noise from the railway reserve shall occur. The requirements of the MRS Amendment No. 1008/33 shall be satisfied.
- POS areas are to be a minimum of 13.0m in width.
- . The Commercial/Restaurant component of the development shall be a minimum floorspace of 240sqm.
- Minor variations to the requirements of the Residential Design Codes and this Detailed Area Plan may be approved by the City of Cockburn.

Provisions of the Residential Design Codes and City of Cockburn Town Planning Scheme No. 3 apply except for the variations shown on this plan.

This Detailed Area Plan has been Adopted by Council and Signed by the Principal Planner.

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

- (1) INITIATES, pursuant to section 75 of the *Planning and Development Act 2005*, an amendment to the City of Cockburn Town Planning Scheme No.3 (Scheme) for the following purposes:
 - 1. Rezoning Lot 30 (No.59) Breaksea Drive, North Coogee, within 'Development Area 16' from 'Development' to 'Residential (R100)', as depicted on the Scheme Amendment Map.
 - 2. Reducing the extent of the 'Development Area 16' (DA16) special control area boundary, as depicted on the Scheme Amendment Map.
- (2) DETERMINES that the Amendment is 'standard' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it satisfies the following criteria of Part 5, Division 1, Regulation 34:
 - an amendment to the scheme map that is consistent with a structure plan
 or local development plan that has been approved under the scheme for
 the land to which the amendment relates if the scheme does not currently
 include zones of all the types that are outlined in the plan;
 - an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
 - an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area.

and REFERS the Amendment to the Western Australian Planning Commission, pursuant to Part 5, Division 3, Regulation 46 of the *Planning and Development* (Local Planning Schemes) Regulations 2015 for its consideration;

(3) REFERS the Amendment to the Environmental Protection Authority (EPA), pursuant to Section 81 of the *Planning and Development Act 2005*, by giving to the EPA written notice of this resolution and such written information about the amendment as is sufficient to enable the EPA to comply with Section 48A of the *Environmental Protection Act 1986* in relation to the proposed scheme amendment:

OCM 11/06/2024 Item 14.1.3

(4) REFERS the Amendment to the Minister for Planning, pursuant to Section 83A of the *Planning and Development Act 2005*, for permission to advertise the proposed Scheme Amendment;

- (5) Upon compliance with Sections 81, 82 and 83A of the Planning and Development Act 2005, ADVERTISES the proposed Amendment pursuant to the details prescribed within Part 5, Division 3, Regulation 47 of the Planning and Development (Local Planning Schemes) Regulations 2015. Regulation 47 specifies advertising must not be less than a period of 42 days; and
- (6) NOTES pursuant to Part 5, Division 1, Regulation 35A of the *Planning and Development (Local Planning Schemes) Regulations 2015,* the intention to partially revoke the following Structure Plan (via clause 29A of Schedule 2 / *Deemed Provisions*) upon the approval of Amendment No.177:

Structure	Address	Latest WAPC	WAPC
Plan #		Endorsement	Reference
16	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

CARRIED 10/0

Background

Structure plans are important planning instruments, regularly used to coordinate the subdivision and development of land, particularly in new, greenfield locations and post-industrial brownfield locations.

Reflective of its rapid urbanisation over the past 20+ years, the City currently has over 150 local structure plans operating within its scheme area, many of which are substantially subdivided and/or have been built out.

When the Planning and Development (Local Planning Scheme) Regulations were released in 2015, a key change involved the introduction of a 10-year time limit to the validity of structure plans.

Structure plans approved prior to this date were automatically given a 10-year timeframe for approval, from when the Regulations came into effect.

Under the State Planning Framework, once a structure plan has served its purpose (typically once all the lots have been subdivided and physically created), the zones and reserves are to be transferred into the Scheme and the structure plan revoked.

This process, commonly referred to as a structure plan 'rationalisation', ensures the City retains appropriate planning mechanisms to guide and control future use and/or redevelopment of the land (including the same range of permissible land uses and associated development standards as currently apply) into the future, consistent with community expectations.

104 of 790

Item 14.1.3 OCM 11/06/2024

This proposal is part of a series of Scheme Amendments required to rationalise large portions of the City's urban areas ahead of several existing structure plans expiring on the 10-year anniversary of the Regulations coming into effect (19 October 2025).

Submission

N/A

Report

The following Local Structure Plan (LSP) has been substantially implemented:

-	#	Structure Plan Name
	16A	South Beach Village: Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee

In conjunction with Scheme Amendment #176 the purpose of this amendment is to:

- transfer the zones and reserves shown on the approved structure plan for the completed development areas into Town Planning Scheme No.3 (TPS3);
- identify appropriate residential density codings for each site (based on approved Development and/or Local Development Plans where density ranges are shown on the Structure Plan);
- revoke the above structure plan (as it relates to the completed areas); and
- adjust the boundary of the Development Area 16 (DA16) Special Control Area to match the above outcome (i.e. to only include those portions that still require a structure plan to guide further subdivision and development).

Development Area 16

DA16 was initially created upon gazettal of TP3 in December 2002.

Upon the cessation of industrial activities in the late 1990s, its purpose was to facilitate comprehensive redevelopment of the area into a vibrant urban village comprising diverse environmentally, socially, and economically sustainable high-quality medium-to-high density housing and commercial spaces with convenient access to public open space and surrounding areas.

The special provisions for DA16 included in Table 9 of TPS3 are relatively basic, simply reinforcing the need for a structure plan to first be prepared to guide future subdivision and development of the former industrial land, and to ensure that all residential development is designed to mitigate noise impacts from the freight rail line in accordance with the South Beach Noise Management Plan 2002.

As there remain portions of DA16 yet to redevelop, complete deletion of DA16 and its special provisions are not proposed, rather just a reduction to the extent of the special control area boundary to reflect the outcomes of this proposal.

105 of 790

OCM 11/06/2024 Item 14.1.3

South Beach Village Local Structure Plan

Structure Plan 16A – South Beach Village (which covers all the DA16 area), identifies a comprehensive local road network servicing low-to-medium (R20-R80) density single residential houses and medium-to-high (R60-R125) density townhouses and apartments, principally clustered around a central spine of public open space (POS) that leads back to district level recreational facilities at South Beach.

A secondary linear POS corridor runs along the eastern edge of the freight railway line that continues to operate through the area.

This amendment specifically focuses on the 'Move' Apartment complex located between Breaksea Drive and Rollinson Road in the southeast corner of the LSP.

This site was deliberately excluded from Amendment #176 to allow a replacement residential density coding ('R-Code') to be advertised for public comment, as the current *Residential Design Codes* do not include an R125 code.

Based on a review of the approved development plans, and how R-Code development standards have evolved since the 'Move' Apartment Complex was initially approved, an R100 coding is proposed as the closest comparable code to what has been developed on the site.

Further detail on DA16, the structure plan and excerpts of the relevant development approvals are included in the draft Scheme Amendment No.177 Report (refer **Attachment 1**).

Type of Amendment

This amendment is considered a 'Standard' Amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015*, on the basis that it involves:

- a) zoning land consistent with an approved local structure plan, albeit with a slightly different coding that better reflects the approved development on site;
- b) in a manner that will have minimal impact on surrounding land, or any significant environmental, social, economic or governance impacts on any other land within the scheme area.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

A City that is 'easy to do business with'.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

• Best practice Governance, partnerships and value for money.

106 of 790	

Item 14.1.3 OCM 11/06/2024

Budget/Financial Implications

Not applicable - the scheme amendment documentation has been prepared, and the proposal will be progressed by the administration under its FY24-25 budget allocation.

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015

Community Consultation

The *Planning and Development (Local Planning Schemes) Regulations 2015* identifies three amendment types: basic, standard, and complex.

Scheme Amendment No.177 meets the definition of 'Standard' Scheme Amendment. Part 5, Division 3, Regulation 47 requires advertising for a minimum period of 42 days.

Risk Management Implications

The officer recommendation considers the relevant planning matters associated with the proposal. It is considered the officer recommendation is appropriate.

If the Scheme Amendment does not proceed (or is ultimately refused by the Minister for Planning):

- an opportunity will be missed to simplify the planning framework and remove additional layers of planning (structure plans) that have served their purpose; and
- the City will need to consider alternatives to ensure an appropriate local planning framework is in place to guide future land use and/or redevelopment proposals in the area ahead of the structure plan expiring on 19 October 2025.

Town Planning Scheme No. 3

Amendment No.177

(Standard)

Partial Rationalisation of South Beach Village Structure Plan

Development Area 16 (North Coogee)

JUNE 2024

Planning and Development Act 2005 RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn **Town Planning Scheme No.3** Amendment No.177

RESOLVED that the Council, in pursuance of Section 75 of the Planning and Development Act 2005, amend the City of Cockburn Town Planning Scheme No.3 by:

- 1. Rezoning Lot 30 (No.59) Breaksea Drive, North Coogee, within 'Development Area 16' from 'Development' to 'Residential (R100)', as depicted on the Scheme Amendment Map.
- 2. Reducing the extent of the 'Development Area 16' (DA16) special control area boundary, as depicted on the Scheme Amendment Map.

The Amendment is 'standard' under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reason(s):

- It is an amendment to the scheme map that is consistent with a structure plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme does not currently include zones of all the types that are outlined in the plan;
- It is an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment; and
- It is an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area.

Pursuant to Regulation 35A of the Planning and Development (Local Planning Schemes) Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan:

Structure Plan#	Address	Latest WAPC Endorsement	WAPC Reference
16	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

Upon the amendment taking effect 'partial' revocation of the above approved structure plan is to occur.

Dated this day of 2024	
	CHIEF EXECUTIVE OFFICER

AMENDMENT REPORT

1.0 INTRODUCTION

Structure Plan No.16A (South Beach Village) has largely been implemented.

The purpose of this 'standard' scheme amendment is to transfer additional zones shown on this structure plan area into Town Planning Scheme No.3 (TPS3), to ensure the City maintains appropriate development control ahead of the structure plan expiring on 19 October 2025.

This process is referred to as the rationalisation of a structure plan.

2.0 BACKGROUND

Development Area 16 (DA16) was created in December 2002, upon gazettal of Town Planning Scheme No.3 (red dashed outline in **Figure 1**).

In essence, it is the result of Amendment No.201 to former District Zoning Scheme No.2, which in response to the 2001 gazettal of Metropolitan Region Scheme (MRS) Amendment 1008/33, transferred land from 'Industrial' and 'Railways' Reservation to the 'Urban' zone and 'Regional Parks and Recreation' reservation.

Figure 1 – Detail Plan for MRS Amendment No. 1008/33

Previously the substantive portion of a heavy industrial and railyard area that extended northward into the City of Fremantle, the land was significantly remediated to comply with environmental conditions imposed by the Minister for Environment to facilitate its redevelopment for urban purposes.

The adopted vision for the area was to deliver a vibrant urban village comprising diverse environmentally, socially, and economically sustainable high-quality medium to high density housing and commercial spaces with convenient access to public open space and surrounding areas.

DA16 currently includes one endorsed structure plan as per the table below:

Structure Plan #	Address	Latest Approval (& Expiration Date)	Proposed Action
16A	Lot 113 Rollinson Road, Lots 114- 118 O'Connor Close, North Coogee	WAPC: 16/02/2017 (Expires 19/10/2025)	Basic & Standard Amendments

Rationalisation of most of this structure plan forms the subject of a separate 'basic' Scheme Amendment (#176). This proposal seeks to rationalise a further portion of land that couldn't be included in the 'basic' amendment due to the need to advertise a replacement residential density coding ('R-Code'), as the current *Residential Design Codes* do not include an R125 code.

The extent of DA16 (thick black dashed line), the structure plan (red solid line), and the boundaries of the two complimentary scheme amendment proposals (yellow dashed line), are depicted on **Figures 2 and 3.**

Lots outlined in blue are yet to develop or redevelop in accordance with the approved Structure Plan. Of importance, they incorporate important public reserves yet to be constructed and ceded into public ownership. As a result, they have been excluded from both scheme amendments, will retain their existing 'Development' zoning, and a Structure Plan extension for that area was lodged with the WAPC in January 2024.

The structure plan area includes various Local Development Plans (LDPs). This amendment has no effect on the operation of those instruments which will remain in effect until they expire on (or after) 19 October 2025.

Consistent with the proposed Structure Plan outcome, the City will need to consider the benefits (or otherwise) of extending the approval of an existing LDP for the undeveloped landholdings.

Figure 3 - Aerial Photograph showing extent of completed Subdivision and Development

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the Planning and Development (Local Planning Schemes) Regulations 2015, identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This proposed amendment is considered a 'standard' amendment, which Regulation 34 describes as any of the following amendments to a local planning scheme:

- a) an amendment relating to a zone or reserve that is consistent with the objectives identified in the scheme for that zone or reserve;
- b) an amendment that is consistent with a local planning strategy for the scheme that has been endorsed by the Commission;
- an amendment to the scheme so that it is consistent with a region planning scheme that applies to the scheme area, other than an amendment that is a basic amendment;
- d) an amendment to the scheme map that is consistent with a structure plan, activity centre plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme does not currently include zones of all the types that are outlined in the plan;
- e) an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment;
- f) an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area;
- g) any other amendment that is not a complex or basic amendment.

This proposed amendment satisfies parts d), e) and f) of the above criteria.

Specifically, it is an amendment that involves zoning land consistent with the intent, subsequent land use and built form outcome of an approved structure plan for the same land, in a manner that does not have any significant environmental, social, economic or governance impact on surrounding land.

4.0 TOWN PLANNING CONTEXT

4.1 State Planning Framework

The entirety of DA16 is identified in the *South Metropolitan Peel Sub-Regional Planning Framework* and zoned 'Urban' under the Metropolitan Region Scheme.

113 of 790

4.2 City of Cockburn Local Planning Framework

Under TPS3, the area is zoned 'Development' and identified on the Scheme Map and in Table 9 of the Scheme Text as Development Area 16 (DA16).

The purpose of the 'Development' zone is to trigger the requirement for a Structure Plan to guide further subdivision and/or development.

Table 9 allows specific 'provisions' to then be applied to defined Development Areas to inform the subsequent structure planning and subdivision processes. For DA16 it includes the following:

TABLE 9 – DEVELOPMENT AREAS			
REF. NO.	AREA	PROVISIONS	
DA 16	South Beach (Development Zone)	 An approved Structure Plan together with all approved amendments shall be given due regard in the assessment of applications for subdivision, land use and development in accordance with clause 27(1) of the Deemed Provisions. 	
		To provide for uses consistent with the zonings and reservations in the MRS.	
		 All residential development must be designed and constructed to comply with the South Beach Village Noise Management Plan dated August 2002. 	

5.0 PROPOSAL

Subdivision and development of almost all land within DA16 is now complete, meaning that the structure plan has largely served its purpose.

This amendment therefore seeks to remove those areas from DA16 and transfer the structure plan-identified zones and reservations for the land into the Scheme, ahead of the structure plans expiry date of 19 October 2025.

Development Area 16:

As there remains portions of DA16 yet to be redeveloped, in particular Lots 116-118 (#15, #19 & #23) O'Connor Close, complete deletion of DA16 and its special provisions are not proposed at this time, rather just a further reduction to the extent of the DA16 special control area boundary to reflect the outcome of this proposal. A more significant refinement is proposed via Scheme Amendment #176.

Local Structure Plan (LSP):

Details on Structure Plan 16A (including extracts of the relevant Local Development Plan and Development Approval for this specific site) are provided in this section to demonstrate our reasoning for rationalisation in the manner proposed.

Version: 3, Version Date: 05/08/2024

Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee - South Beach Village Estate (16A)

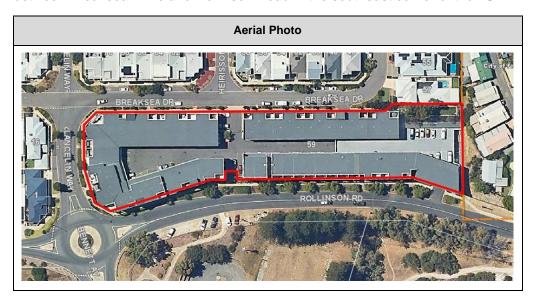

Lying along the southern boundary of South Fremantle, west of the Fremantle Village Holiday Park, north of Rollinson Road and east of the CY O'Connor Foreshore Reserve, this Structure Plan identifies a comprehensive network of local roads servicing low-to-medium (R20-R80) density single residential houses and medium-to-high (R60-R125) density apartments, principally clustered around a central spine of public open space (POS) that leads back to district level recreational facilities at South Beach.

Density ranges were adopted for most street blocks, with the final coding (and specific Design Guidelines and R-Code development standard variations) deferred to Local Development Plans (prepared in response to conditions of Subdivision Approval) or subsequent Development Approval.

The higher codings are generally located in high-amenity locations, such as directly adjacent or opposite the ocean foreshore, the primary (central) or secondary (freight rail adjacent) linear POS corridors, or along Rollinson Road (which provides a direct connection to the CY O'Connor Foreshore reserve).

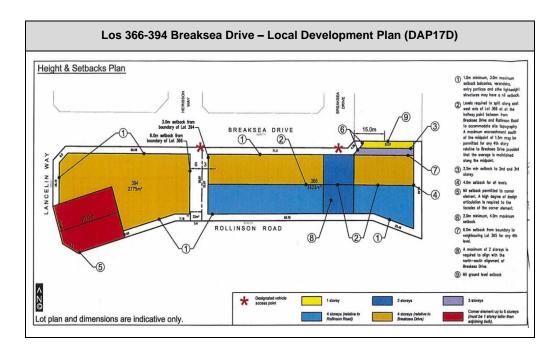

A Mixed Use precinct (reduced in size and rezoned from Mixed Business via a series of LSP Amendments over the Estate's lifetime), is located in the southwest corner along the eastern edge of the operating freight rail line.

This proposal specifically focuses on the 'Move' Apartment complex located between Breaksea Drive and Rollinson Road in the southeast corner of the LSP.

This site was deliberately excluded from Amendment #176 to allow a replacement residential density coding ('R-Code') to be advertised for public comment, as the current *Residential Design Codes* do not include an R125 code as currently shown on the Structure Plan Map.

Document Set ID: 11954268

An approved Local Development Plan (former Detailed Area Plan) further guides development of the site. In terms of density, it simply reflects the current LSP assigned 'R125' density coding of the land.

Development History

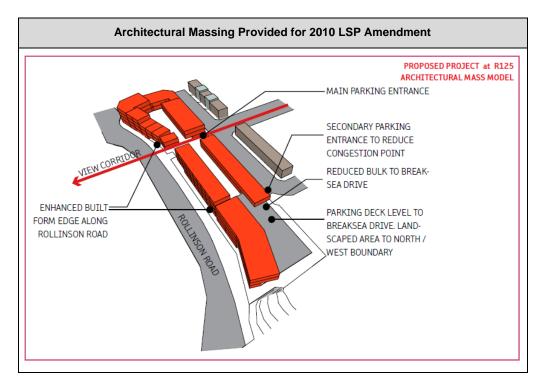

Lots 366-394 were originally assigned an R-Code range of 'R60-R100' under the original (2002) Local Structure Plan.

In 2009, the City issued development approval for an 81-dwelling apartment complex incorporating approximately 5,652m² of floor area, or a plot ratio of 0.88 (ref: DA09/0742). A condition of that approval required adjustments to bring the proposal into compliance with the maximum 'R100' code.

Instead, in 2010 the land was successfully up-coded to 'R125', to facilitate an enlarged proposal, involving a maximum plot ratio 1.56 (ref: DA10/0853). At the time this was considered an acceptable limit beyond the 1.25 permitted under R100, but below the 2.0 allowed by the next applicable density code (R160).

The proponent reasoned that the additional plot ratio was justified on the basis that it would assist in resolving access issues to the car park, provide an extended built edge to Rollinson Road, and allow a greater number of apartments (106) involving a wider diversity of typologies and configuration.

Ultimately, the City accepted that the proposal was a more efficient use of highly valuable urban land, that would better respond to the challenging narrow and undulating characteristics of the site.

Of importance to this proposal, through the subsequent detailed design process the development was modified to reduce portions of the building height and decrease setbacks, resulting in a final plot ratio of just 1.17.

Since the development was completed, plot ratio thresholds have also been adjusted in the *Residential Design Codes*, to the point that the achieved plot ratio now sits comfortably between the maximum limits applicable for R80 and R100.

This is also true of the other Primary Control most relevant to residential density, being the 3-4 storey building height.

It is therefore proposed that an 'R100' coding be applied to this site, on the basis that of the codes available, the development standards contained in Volume 2 most comfortably reflect the constructed built form outcome. A comparison of the development against those key primary controls is outlined in the table below.

117 of 790

R-Codes (Vol.2) – Primary Controls Table				
	Applies to R-Code areas, default settings apply unless alternative provisions defined in local planning instruments			
Streetscape contexts and character refer A2	Medium- rise	Higher density residential		'Move' Apartments
Site R-Coding	R80	R100	R160	
Building height (storeys) refer 2.2	4	4	5	3-4 storeys (with 5th storey protrusions)
Plot ratio 7 refer 2.5	1.0	1.3	2.0	1.17

A full copy of the Structure Plan Map, Local Development Plan and extracts from the Development Approval and Strata Plan for this site are attached as **Appendix A-B**.

6.0 CONCLUSION

Assigning a fixed density code to the subject site will improve certainty for landowners, residents, and the immediate community. Development of the site was completed over ten years ago with no new development applications received since. It is suggested that the site is ready to be removed from the 'Development' zone and governance of Structure Plan 16A as subdivision and development is now complete.

Rationalising the land to the 'Residential' zone with a density code of 'R100' under TP3 will remove a redundant layer of planning control whilst still ensuring that the City maintains appropriate mechanisms to guide and control future redevelopment of the land (including the same range of permissible land uses and comparable development standards as currently apply), consistent with current community expectations.

It will also reduce the risk of the City having to apply for a future extension of time for Structure Plan 16A in respect to this particular site.

Version: 3, Version Date: 05/08/2024

Planning and Development Act 2005

City of Cockburn Town Planning Scheme No.3 Amendment No.177

RESOLVED that the Council, in pursuance of Section 75 of the Planning and Development Act 2005, amend the City of Cockburn Town Planning Scheme No.3 by:

- 1. Rezoning Lot 30 (No.59) Breaksea Drive, North Coogee, within 'Development Area 16' from 'Development' to 'Residential (R100)', as depicted on the Scheme Amendment Map.
- 2. Reducing the extent of the 'Development Area 16' (DA16) special control area boundary, as depicted on the Scheme Amendment Map.

The Amendment is 'standard' under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reason(s):

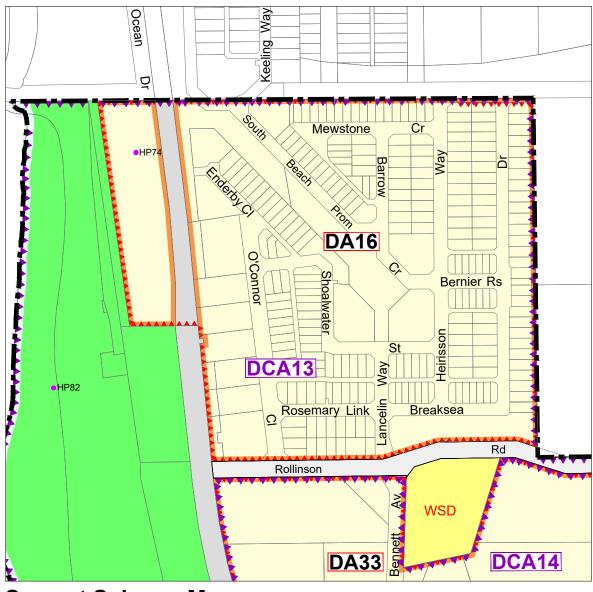

- It is an amendment to the scheme map that is consistent with a structure plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme does not currently include zones of all the types that are outlined in the plan;
- It is an amendment that would have minimal impact on land in the scheme area that is not the subject of the amendment; and
- It is an amendment that does not result in any significant environmental, social, economic or governance impacts on land in the scheme area.

Pursuant to Regulation 35A of the *Planning and Development (Local Planning Schemes)* Regulations 2015, the amendment to the above Local Planning Scheme affects the following structure plan:

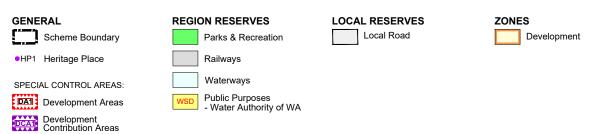

Structure Plan#	Address	Latest WAPC Endorsement	WAPC Reference
16	Lot 113 Rollinson Road, Lots 114-118 O'Connor Close, North Coogee	16 February 2017	SPN/0821M-1

Upon the amendment taking effect 'partial' revocation of the above approved structure plan is to occur.

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

(1) APPROVES the proposal for 'Use Not Listed – Self Storage Facility', on a temporary basis, subject to the following conditions:

Conditions:

- 1. This is a temporary approval only, valid for a period of five (5) years from the date of this decision.
 - Upon expiry of this date, the structures (as identified in yellow), comprising of 56 sea containers, and associated equipment shall be removed, the use ceased, and the land reinstated to its former condition, unless otherwise approved by the City.
- 2. Development shall be carried out in accordance with the approved plans
- 3. Prior to the lodgement of a Building Permit application, a detailed Management Plan, detailing the mitigation measures implemented to address potential impacts on surrounding land, incurred from the operation of the approved use, shall be submitted to and approved by the City.
- 4. Measures identified within the approved Management Plan shall be implemented and maintained, in perpetuity, to the satisfaction of the City. The City reserves the right to request amendments to the Management Plan at any given time.
- 5. The development is approved as 'Use Not Listed Self Storage Facility' defined as follows: 'A premises containing self-managed units, each used for the storage of goods by a lessee/occupier.'
- 6. All stormwater being contained and disposed of on-site to the satisfaction of the City.
- 7. The premises shall be kept in a neat and tidy condition at all times by the owner/occupier to the satisfaction of the City.
- 8. No building or construction activities shall be carried out before 7.00am or after 7.00pm, Monday to Saturday, and not at all on Sunday or Public Holidays.
- 9. The parking bays, driveway, loading areas and points of ingress and egress shall be maintained as sealed, kerbed, drained, line marked and available for use in accordance with the approved plans.
- Car parking, vehicle access ways, driveways and landscaped areas shall not be used for lay down or storage of goods or materials. Storage of goods and/or materials shall be solely within each unit.
- 11. The hours of operation are limited to 07:00am to 09:00pm on Monday to Friday and 09:00am to 07:00pm Saturdays and Sundays.

132 of 790	

Item 14.1.4 OCM 11/06/2024

12. All services and service-related hardware, including antennae, satellite dishes and air conditioning units, being suitably located away from public view and/or screened to the satisfaction of the City.

13. Any process, equipment and/or activities that are causing a dust nuisance shall be stopped until the process, equipment and or activity has been altered to prevent the dust, to the satisfaction of the City.

Footnotes:

- 1. This is a Development Approval only and does not remove the responsibility of the applicant/owner to comply with all relevant building, health and engineering requirements of the City, or with any requirements of the City of Cockburn *Town Planning Scheme No. 3* or with the requirements of any external agency.
- 2. In accordance with Clause 26 of the Metropolitan Region Scheme (MRS) text, this development approval under Town Planning Scheme No.3 is also deemed to be an approval under the Metropolitan Region Scheme.
- **3.** With regard to Condition 1, upon expiry of the approval, all works and equipment related to the operation of the approved use shall be removed from the site, including:
 - i. All 56 sea containers and associated footings;
 - ii. Associated footings and/or foundations;
 - iii. Machinery and/or vehicles associated with the use;
 - iv. Loading bays.

Upon completion of the removal of the above items, the site shall be returned to its original condition.

- 4. With regard to Condition 3, the Management Plan shall detail the measures of which intend to mitigate potential amenity impacts to the surrounding properties, including, but not limited to:
 - The onsite provision/display of 24-hour emergency contact details, for public access;
 - ii. Implementation of a complaints register and management procedure;
 - iii. Types and sizes of permitted vehicles on site:
 - iv. Noise mitigation measures:
 - v. Max. number of customers onsite at any one time;
 - vi. Security and surveillance measures.
- 5. With reference to Condition 6, all stormwater drainage shall be designed in accordance with the document entitled "Australian Rainfall and Runoff" 1987 (where amended) produced by the Institute of Engineers, Australia, and the design is to be certified by a suitably qualified practicing Engineer or the like, to the satisfaction of the City, and to be designed on the basis of a 1:100 year, 24 hour duration storm event.
- 6. With regard to Condition 10, all parking bays, driveways and points of ingress and egress shall be in accordance with the Australian Standards for Off-Street Car Parking (AS 2890).
- 7. The applicant/landowner is advised that the proposed use of the sea containers, for semi-permanent storage, renders the structure a 'building'. Therefore, a building permit is required for a Class 7b building. Please contact the City's Public Health and Building Services for further information.
- (2) NOTIFIES the applicant and those who made a submission of Council's decision.

CARRIED 10/0

	133 of 790

OCM 11/06/2024 Item 14.1.4

Background

The City received a development application (DA) for a 'Use Not Listed – Self Storage' on the subject site. Specifically, the applicant seeks development approval for fifty-six (56) sea containers, to be used as self-managed individual storage units.

The applicant, SHIP-AUS, currently operates a business onsite, entailing the hire of equipment and services associated with cleaning of ships docked at various coastal ports.

The proposal varies the objectives of the approved *Emplacement Local Structure Plan* (2014), which ultimately promotes future Mixed Use (Residential R100) development. However, there is merit in conditionally supporting a temporary approval of the proposal. In light of this, the application has been referred to Council for determination accordingly, in line with the City's delegations.

Figure 1: Aerial Image of Subject Land & Surrounds, April 2024

Community Consultation

The proposal was advertised by letter to all landowners and occupiers within a 200m radius of the site, pursuant to Clause 64(3) of the deemed provisions.

The proposal was also featured on the City's *Comment on Cockburn* site between 24 January and 22 February 2024 (28 days total).

A total of three objections and three non-objections were received. A schedule of submissions has been attached with officer and proponent comments (refer Attachment 2).

Primary concerns raised pertained to traffic levels and potential noise impacts to surrounding residential uses.

Item 14.1.4 OCM 11/06/2024

Submission

N/A

Report

Planning Framework

Town Planning Scheme No. 3 ("the Scheme")

Pursuant to the Scheme, the site is zoned Development Zone and is located within Development Area 33 - Cockburn Coast (DA 33). The objectives of the Development Zone are:

To provide for future residential, industrial or commercial development to be guided by a comprehensive Structure Plan prepared under the Scheme.

Cockburn Coast Emplacement Structure Plan

The site is situated within the Cockburn Coast Emplacement Structure Plan area which identifies the property as falling within the Mixed Use (R100) zone (figure 1).

Figure 2: Subject site outlined in red.

OCM 11/06/2024 Item 14.1.4

The purpose and objective of the Mixed Use zone are defined below -

'The mixed use zone will promote sustainable and affordable living opportunities by allowing people to pursue a lifestyle that integrates living, working and leisure in one location.

Within the Emplacement LSP area, the mixed use zone is located along Cockburn Road to provide for flexibility in the type of land uses that may benefit from its prominence and accessibility. This being said, the mixed use classification needs to be carefully managed so that it does not detract or disperse activity from the two centralised activity centres. In accordance with the DSP2 the prescribed definition of a Mixed Use is not overly prescriptive and is guided by a number objectives. Objectives include promoting a vibrant mixed use environment, providing a continuous active frontage in the public realm, encouraging pedestrian use of Cockburn Road through the provision of awnings /canopies and active frontages and promoting and supporting rather than detract from the two primary activity centres.'

It is considered the proposal is inconsistent with the purpose and objectives of the Mixed Use Zone, as it does not provide for the provision of residential development. Additionally, the proposed development of the land does not include the redesign of the frontage, where the existing building fails to provide an active street frontage.

Item 14.1.4 OCM 11/06/2024

Notwithstanding, the proposal is recommended on a temporary approval (5-year) basis for the following reasons:

1. Development along Emplacement Crescent currently consists of existing likewise commercial and industrial units and is yet to be developed in line with the applied Structure Plan. The site is bordered to the east and west by existing development of which both are built to the boundary, for the majority of the site's length. It is considered that the proposed development is a more suitable response to the current condition of the site than that of residential/mixed use.

Figure 3: Surrounding commercial development up to boundaries, April 2024

OCM 11/06/2024 Item 14.1.4

Figure 4: Existing development to east boundary (8 Emplacement Cres.), Nov. 2021

Figure 5: Existing development to west boundary (2 Emplacement Cres.), Nov. 2021

- 2. Given the temporary nature of the development and its construction, it is considered the development is an appropriate response to the current site conditions whilst not adversely impacting the future development potential of the land and intentions of the Structure Plan.
- 3. The proposal can be reconsidered at the completion of the temporary period and removed if necessary.

Item 14.1.4 OCM 11/06/2024

<u>LPP 4.6 – Cockburn Coast Design Guidelines for Rob Jetty & Emplacement Precincts</u>

Development on the site is subject to the requirements of the Cockburn Coast Design Guidelines for Rob Jetty & Emplacement Precincts.

Pursuant to LPP 4.6, the site is located within the Mixed Use – Cockburn Road Typology, which is defined as below –

'A range of retail and commercial functions complemented by residential development are to be accommodated within this mixed use area. The presence of Cockburn Road informs the scale and built form of development and necessitates the promotion of an active ground floor'.

The applied design guidelines for the Mixed Use – Cockburn Road Typology are reflective of the purpose and objectives of the Mixed Use zone. Given the proposal does not include a Mixed Use/Residential outcome, the design guidelines do not apply.

Proposal Details

Summary of Proposal

The proposal consists of the development of land with 56 storage units, constructed from sea containers. The sea containers are proposed to be stacked up to two levels, at a total height of 5.80m, in a horseshoe configuration along the west, south and east boundaries. The containers will be finished in a blue paint with no proposed signage.

The development is proposed to be setback accordingly:

- Approximately 43m from the primary street (Emplacement Crescent)
- Nil to boundary to the west and east (side) boundaries
- 3.80m from the southern (rear) boundary.

A single loading bay and four additional visitor spaces are proposed within the existing car park area.

The shipping containers are to be used as individual storage units for commercial and marine industry specific storage.

The proposed storage is not intended for the general public however, personal residential storage may be considered on a case-by-case basis.

The proposed storage is pre-empted as long-term storage and not expected for multiday or daily access.

OCM 11/06/2024 Item 14.1.4

The proposed <u>supervised</u> operation hours are 09:00am – 17:00pm Monday to Friday and as per appointment on weekends. It is proposed that customers may access the site, via remote access, outside of the stated hours as described below:

- Commercial storage access 24/7
- Residential storage access from
 - 09:00am 17:00pm Monday to Friday
 - o 09:00am 15:00pm Saturday to Sunday
- Access to level 1 containers restricted to weekday operation hours only with the assistance of staff.
- · After hours and emergency contact provided.

Land Use Definition

'Self-Storage' is not specifically mentioned within Town Planning Scheme No. 3 (the Scheme). Therefore, the proposal is considered as a 'Use Not Listed'. A use of this type is subject to Clause 3.4.2 of the Scheme -

If a person proposes to carry out any use that is not specifically mentioned in the:

- a) Zoning Table Table 1 and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category in the table the local government may
 - (i) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
 - (ii) determine that the use may be consistent with the objectives of the zone and thereafter follow the advertising procedures of clause 64(3) of the deemed provisions in considering an application for planning approval; or
 - (iii) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

Whilst it is determined the proposal is inconsistent with the residential outcome prescribed by the structure plan, it is considered consistent with the current established commercial/industrial use of the Emplacement Crescent area.

In this specific case, the City recommends approval of the proposal on a temporary basis only, allowing for an extension to the existing use whilst not restricting future redevelopment in accordance with the structure plan vision.

Car Parking

As a *Self-Storage Facility* is not defined within the Scheme, there is no prescribed car parking rate applicable for the development. Therefore, the proposal is subject to discretion in this regard.

140 of 790	

Item 14.1.4 OCM 11/06/2024

The City assesses parking rates for "Self-Storage Facilities" against the "Self-Storage Facility Traffic and Parking Study", prepared by Aurecon. The report recommends a parking rate of 0.18 spaces per 100 square metres of gross floor area (GFA).

Based on an approximate GLA of 826m², a total of two (2) customer bays is required for the proposed development. The development provides a total of eleven (11) car bays servicing an existing office, dome shelter and open storage.

The City is satisfied that the proposed parking is sufficient for the proposal, specifically on weekend visits where staff car parks are vacant for use.

Traffic

The assumed traffic increase and use of large vehicles is the most significant point of concern raised during the public consultation period.

The applicant confirms that the only vehicle permitted to enter the site beyond 10ft in size, is the site's existing commercial vehicle. Further, temporary access to large trucks will be required initially, to transport sea containers to the site.

The City's Traffic Engineer advises that the facility is expected to generate less than ten (10) vehicles during both AM and PM peak hours. Therefore, in accordance with WAPC guidelines, the traffic impact is considered low, and is not expected to affect the existing road network.

Furthermore, the Structure Plan identifies a number of land uses, permissible within the Mixed Use Zone, which anticipate a far greater traffic impact than what will be experienced by the proposal, including; 'Multiple Dwellings', 'Office', 'Public Amusement', 'Recreation Private' and 'Restaurant.'

The intended use is for long term commercial storage and not for daily access, therefore, it is not expected that traffic would be increased greatly.

Operation of the business further restricts access to the upper containers to weekday office hours only, resulting in a lesser traffic generation on weekends.

In consideration of the above, the City is satisfied with the information provided and intended trip generation and does not deem there to be any concern for excess traffic on the Access Road.

Notwithstanding, the City recommends a temporary approval with conditions mitigating risks and the implementation of a management plan. Both of which will provide a future mechanism to review traffic considerations, such as generation rates and vehicle types allowed on site.

OCM 11/06/2024 Item 14.1.4

Acoustics and Noise Attenuation

Concern was raised regarding the potential noise impacts incurred on the nearby residential properties should the operation allow 24/7 access.

The area is earmarked for Mixed Use and Residential with a number of residential properties within 300m to the north and south which may be affected by any noise associated with the loading/unloading and access of containers.

The applicant has further advised that the intention of the storage is for other marine businesses to store excess goods and is not intended to be a regularly accessed development.

Considering this, the City believes the 24/7 access to be unnecessary and requested the applicant consider limiting the commercial access to –

- 07:00am to 09:00pm Weekdays; and
- 09:00am to 07:00pm Weekends

Whilst it is considered the noise impacts would be no greater than that already experienced from the surrounding commercial/industrial uses, a condition will be applied to the approval to enforce the creation and implementation of a Management Plan.

The Management Plan will aid in the mitigation of potential noise impacts by way of operating hours, visitors on site, access requirements and complaint procedures.

Development Contribution Areas

The site is located within Development Contribution Area 13 and 14.

DCA13 liability is not applicable to this proposal.

Pursuant to Clause 5.3.13.3 (ii) of the Scheme, the proposal is exempt from the requirements of the DCA14 as it is proposed the approval be issued on a temporary basis. There is no foreseeable situation for which the proposal would be considered permanently.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- Increased Investment, economic growth and local employment.
- Thriving local commercial centres, local businesses and tourism industry.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

Cockburn Central as the capital of Perth's South Metro Region.

Item 14.1.4 Attachment 2 OCM 11/06/2024

Supportive The development is located within 250m of residential properties to the north and Consideration can be made to the 24/7 operation of the business - Submittor t is concerned about the potential noise implications to the residential land to the north if the operation is permitted to be 24/7. They have advised that they object to the 24/7 aspect of the use only. They have advised that they object to the 24/7 aspect of the use only. No Objection - Subject to Changes Supportive The development is located within 250m of residential properties to the north and Consideration can be made to the 24/7 operation of the business - Disscussions were had with the applicant on 01 March 2024, they noted that the in operation is not for constant useage and that it would be that of opening of doors concluded that noise from the operation may be minor however, there is potential relating to dropping industrial goods and or the slamming of doors which confirmed for a reduction of operation hours in line with noise regs or to 9:00pm. Potential Hours: - Commercial storage access 09:00am – 21:00pm weekdays & 09:00am – 19:00pm to the sum of the north and consideration can be made to the 24/7 operation of the business - Disscussions were had with the applicant on 01 March 2024, they noted that the in operation is not for constant useage and that it would be that of opening of doors or concluded that noise from the operation hours in line with noise regs or to 9:00pm.	ntent of the etc. The City I for issues d a willingness
Void. City's Traffic Engineer has estimated a traffic generation of less than 10 vehicles du and PM peak hours. This estimation was based upon the "Self-Storage Facility Traffic Study" prepared by Aurecon and is not considered to be directly relevant to the nure units provided. As per WAPC guidelines, the traffic impact is considered low. When potential future uses of which a classed 'P' uses, the potential traffic generation far proposed under this application and would not require planning assessment. The storage aspect is not intended for ordinary business storage to be accessed dai intended to be, as per other self-storage uses, as long term storage accessed sporat top containers is subject to weekday office hours only and therefore only half of the development would operate on weekends. No large trucks beyond those already exsiting and those associated with the developermitted on site.	fic and Parking mber of storage considering r exceeds what is illy. The storage is dically. Access to ne total
3 No Objection	

OCM 11/06/2024 Item 14.1.4 Attachment 2

	T		
4	Objection	Submittor raised concerns that the development will create excessive traffic within the area that is already experiencing traffic congestion.	Void. City's Traffic Engineer has estimated a traffic generation of less than 10 vehicles during both AM and PM peak hours. This estimation was based upon the "Self-Storage Facility Traffic and Parking Study" prepared by Aurecon and is not considered to be directly relevant to the number of storage units provided. As per WAPC guidelines, the traffic impact is considered low. When considering potential future uses of which a classed 'P' uses, the potential traffic generation far exceeds what is proposed under this application and would not require planning assessment. The storage aspect is not intended for ordinary business storage to be accessed daily. The storage is intended to be, as per other self-storage uses, as long term storage accessed sporadically. Access to top containers is subject to weekday office hours only and therefore only half of the total development would operate on weekends. No large trucks beyond those already exsiting and those associated with the development are permitted on site.
	Objection	Submittor raised concerns that the development will create excessive traffic, an additional 52 vehicles, within the area that is already experiencing traffic congestion. They specifically referred to the presence of numerous semi-trailer trucks visiting the Albo Oils and Endeavour Food sites.	Void. The current City of Cockburn Town Planning Scheme does not specify a parking provision requirement for the use of land for "Self Storrage". In the past, previous proposals for "Use Not Listed - Self-Storage Facility" have been assessed as per credited external parking surveys and reports. Based upon these, the City's Traffic Engineer has estimated a traffic generation of less than 10 vehicles during both AM and PM peak hours. This estimation was based specifically upon the "Self-Storage Facility Traffic and Parking Study" prepared by Aurecon and is not considered to be directly relevant to the number of storage units provided. As per WAPC guidelines, the traffic impact is considered low. When considering potential future uses of which a classed 'P' uses, the potential traffic generation far exceeds what is proposed under this application and would not require planning assessment. The storage aspect is not intended for ordinary business storage to be accessed daily. The storage is intended to be, as per other self-storage uses, as long term storage accessed sporadically. Access to top containers is subject to weekday office hours only and therefore only half of the total development would operate on weekends. No large trucks beyond those already exsiting and those associated with the development are permitted on site.
6	No Objection	Submittor provided no objection to the proposal in itself. The Submittor did however raise concerns regarding current and future intended traffic impacts and requested the City to contact them to dicscuss future proposed outcomes to alleviate this. These concerns were noted not to be considered as an objection to this proposal.	Advice provided regarding traffic impacts.

For: Mayor L Howlett, Deputy Mayor C Stone, Cr T Widenbar, Cr T Dewan, Cr

C Reeve-Fowkes, Cr C Zhang

Against: Cr P Eva, Cr K Allen, Cr P Corke, Cr M Separovich

Reason

There have been so many questions tonight on this District Traffic Study that if we had voted for this motion everybody would have been dissatisfied at home. That is why I think it is better to defer it and to have clarification from the officers, from the Road Engineer, who we have in the Council, who is an experienced traffic engineer.

That is why it is better to have all the question and answers in before the Ordinary Council Meeting in September 2024.

Background

The City of Cockburn District Traffic Study (DTS) is a key informing document for the City's Integrated Transport Strategy and its subsidiary documents refer Figure 1 (below).

The City last considered the DTS in 2018 resulting in endorsement of Council at the Ordinary Council Meeting in April 2019. The DTS has an expected life of 5 years and as such has been reviewed to check the ongoing suitability of the proposed road networks to manage future growth and current traffic demand across the City.

	149 of 790

OCM 11/06/2024 Item 14.1.5

It is important to recognise the nature of modelling in the DTS is considered as "strategic".

It focusses on capacity of road network linkages and considers matters such as lane configuration, speed, and vehicle movement patterns to and from cells within the model. It does not analyse specific intersection performance or isolated network issues nor can it interpret network shifts in traffic due to works etc.

The DTS builds on earlier bodies of work undertaken and endorsed by Council and/or proposals/commitments by the State Government for matters impacting the performance of the transport network.

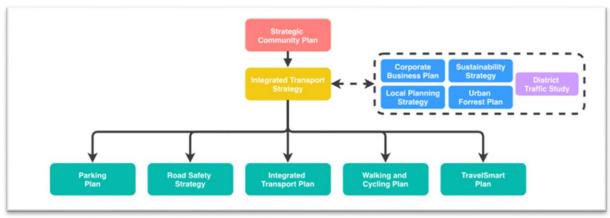

Figure 1. Integrated Transport Strategy - suite of documents

Submission

N/A

Report

The process of compiling a DTS is complex and iterative. The City had made earlier commitments to undertake reviews of the DTS on a 5 yearly interval to check road network performance against land use. This review (2023) has been important due to the significant changes occurring within and around the City. The full DTS report can be read in Attachment 1. The below summarises the Objectives, Process, Scenarios, Outcomes, and Recommendations from this study.

Objectives

The objectives of this study were to:

- Review of District Traffic Study 2018 network health check for transport system performance
- Update the Cockburn District Traffic Model (CDTM) and prepare traffic forecasts for the period 2031 and 2041 per ROM 24
- Adjust traffic generation and attractions where considered necessary inclusive of validation and baselining of model against City traffic counts.

Item 14.1.5 OCM 11/06/2024

 Provide strategic assessment of road network options which consider and where possible mitigate the impact of significant land use and transport changes including but not limited to:

- Westport
- Australian Marine Complex (AMC)
- Latitude 32
- Rowley Road Freight corridor
- Roe Highway corridor removal including adjacent road network and transport transition from Fremantle Port to Westport
- Residential expansion areas
 - Glen Iris
 - Jandakot-Treeby Planning Investigation area outcome (now for a future urban expansion area)
 - Hammond Park
 - Treeby existing urban expansion area (and growth in this corridor beyond LG)
 - Fiona Stanley Precinct
 - Metronet
 - Impacts of Mode shift to Active and Public Transport
 - Provide a basis for which future transport recommendations can be formed including Build, Advocate, and Operate options to improve the transport network.

Process

The starting point for the investigation has been the 2018 District Traffic Study and developed CDTM for that investigation.

As endorsed following the 2018 DTS the City of Cockburn Regional and Major Roadworks Plan 2018-2031 has also been adopted as the base case "Do Something" scenario. The key inputs for the study are described in Attachment 2.

The process of updating the CDTM has been compiled in Attachment 3. The CDTM covers the entire transport network of the City and just beyond to strategic zone edges.

It divides the City into more than 100 traffic zones and is benchmarked and adjusted against known traffic data from the City and State traffic databases to improve local (Cockburn municipality) accuracy.

It is important to recognise that the CDTM is constructed as a "strategic" model and considers the theoretical capacity of road network segments and network demands given the hierarchy, lane configuration, and speed of road segments within the model.

It does not address specific constraints imposed by particular intersection styles and performance characteristics (excluding grade separations).

To understand the impacts of individual intersections specific operational modelling must be undertaken which fully considers detailed movement patterns.

	151	of 790

OCM 11/06/2024 Item 14.1.5

Given the timing of this study, the full implications of the Jandakot Treeby Urban Expansion Area have also been unable to be included and would be subject to testing as a component of the District Structure Planning process for that area.

Scenarios

The purpose of scenario testing is to allow for isolation of particular projects or groups of projects to allow for assessment of the respective benefits of these options and remaining deficiency in the network. The options developed and tested in the DTS are as follows:

Do nothing

This scenario assumes the road network is left as is for the base year (2023) with no further upgrades over the tested years and traffic growing as anticipated by the land use plan.

Do something

This scenario assumes only projects contained in the 2018 adopted Regional and Major Roadworks Plan are implemented in accordance with Table 3 of the DTS.

Scenario 1 - City Upgrades

This scenario tests the effectiveness of road network upgrades which are the responsibility of the City. All proposed upgrades are pre adopted from the Regional and Major Roadworks Plans with many of the upgrades being required as components of the strategic land use planning for the areas they reside or as part of the wider Metropolitan Region Scheme Other Regional Road Network for which Local Governments lead in the delivery and management of the roads.

Scenario 2 - State Upgrades with Fremantle Port

It must be made clear with the testing of this scenario which includes the Roe Highway Primary Regional Road corridor that it is not the intent to build or advocate for this road linkage. Decisions relating to the Roe Highway have been made and accepted as the future scenario to not have this portion of the road network.

This scenario is built with 2 primary intentions.

- (1) To allow testing of the impacts of the removal of the Roe Highway Primary Regional Road corridor on City roads.
- (2) To allow testing for the effectiveness of the proposed mitigations by the State as components of the removal of this road and the shift of the Fremantle Port to the proposed Westport site.

Scenario 3 – State Upgrades with Westport

This scenario has been constructed to test the effectiveness of road network upgrades proposed by the State which would remain State responsibilities with the port site being located at Westport – it should be noted not all of these projects are considered commitments as part of the Westport program and the terminology is utilised to depict the significant land use and trip generation change.

152 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.1.5 OCM 11/06/2024

Significant changes include the removal of the Roe Highway Primary Regional Road corridor and the inclusion of Stock Road as proposed in the Roe Highway MRS amendment proposal, the Rowley Road freight corridor as proposed in Perth and Peel @3.5m.

The upgrade of Russell Road between Cockburn Road and Henderson Road has also been included as a state upgrade due to its requirement in the grade separation of the freight rail line and interaction with the proposed Stock Road and Cockburn Road projects.

Scenario 4 – Combination City Upgrades (Scenario 1) + State Upgrades with Westport (Scenario 3)

This scenario is constructed with the most likely road network upgrade scenarios alone being considered.

The scenario negates other changes including mode shift to Public and Active Transport impacting the road network.

Scenario 5 – Mode Share Shift – Active Transport + Public Transport
Scenario 5 represents an alternative to all the previous scenarios as it does not focus on planned road upgrades for capacity increase.

It rather focuses on improving and investing on infrastructure for sustainable modes of transport i.e. walking, cycling and public transport usage. Scenario 5 considers the impact of mode change throughout the entirety of the City of Cockburn area, and specifically a 1% (in 2031) and 2% (in 2041) reduction in car vehicle mode choice towards choices of sustainable transport modes such as public transport and walking.

Scenario 6 – City Upgrades (Scenario 1) + State Upgrades with Westport (Scenario 3) + Mode Share Shift (Scenario 5)

Scenario 6 represents the integrated option for addressing the transport network and considers the cumulative impacts of upgrades by the State and City as well as the benefits that may be derived through achieving a modest shift in behaviour over the circa 20 year period.

Outcomes

There is considerable growth planned within and at the borders of the City of Cockburn which significantly impacts traffic demand within the City.

The City have been careful in assessing multiple scenarios to assess the type and nature of the demands generated within the transport network.

These scenarios aim to provide data allowing correct apportionment of responsibility for the need for road network upgrades and respectively show the benefits of City investments and priorities as compared to State (potentially Federal) level investments including the likely detrimental impacts of these investments not occurring.

153 of 790

OCM 11/06/2024 Item 14.1.5

The following observations may be made relating to the scenarios tested:

 The most significant future shifts within the City transport network will be driven by the Westport, AMC and Latitude 32 development areas, these are detailed in section 4.5 of the DTS.

- Significant transitional changes can be anticipated as result of the transition from Fremantle Port to Westport and also congestion in and around the former Roe Highway corridor due to the significant change in network capacity as result of the removal of the earlier planned and cancelled highway.
- Without mitigation (Do Nothing) it can be seen that in the periods 2031 and 2041 there will be widespread congestion within City and State road networks in the AM and PM peaks.
- The planned expansion of Stock Road from South Street to Rowley Road, widening of the Kwinana Freeway, Cockburn Road, and the proposed freight corridor for Rowley Road between Tonkin Highway and Rockingham/Stock Road appear to suitably address network capacity issues for the removal of Roe Highway and shift of Port from Fremantle to Westport. It will be important to seek government commitments to the completion of these upgrades to mitigate impacts that will flow on within City roads if not completed the DTS assumes completion of these projects will occur in the 2031 time horizon aligned with AMC, Lat32, and Westport activity expectations.
- The impact of City upgrades alone demonstrates that these deal with local issues and adopted structure planning for local areas only. The transport network relies on the heavy lifting being done by the Primary road network for effective functionality and congestion reduction.
- Demand generated within the AMC is significant. The model depicts access via Cockburn Road South only which is seen to be inadequate to accommodate the cell. This area has been further considered in detailed studies and investigations for the AMC with proposed upgrades to roads including Quill Way also included to accommodate access and egress from the area.
- For the City the most sustained and significant beneficial impact to the transport network will come from mode shift away from passenger vehicles to public and active transport modes. Mechanisms which may be utilised to derive mode shift to these forms of transport include:
 - General improvements to public transport services such as increased bus frequencies and improved travel times (such as can be achieved via bus priority measures); whilst the City of Cockburn has a dispersed bus network, frequencies on some routes are significantly low which is unattractive for those considering using public transport – these improvements are within the jurisdiction of the PTA;
 - Improved network connectivity and safety for cyclists and pedestrians. In particular, infrastructure improvements to safe crossing points at intersections and mid-block, as well as segregated paths for cyclists and pedestrians such as PSPs along major road corridors can result in people being more willing to choose this as an option.

Item 14.1.5 OCM 11/06/2024

Another key improvement to the attractiveness of these model area mode share impact, particularly for pedestrians, is the provision of shade. Major paths are within the jurisdiction of DoT and Main Roads WA.

 Travel Behaviour Change programmes (Your Move) – a travel behaviour programme either at individual activity groups such as Schools or offices that actively seek to inform and persuade people to consider change in primary travel mode from private vehicle to more sustainable modes.

It is recommended that Council endorse Scenario 6 as the preferred solution for the transport network.

This solution best aligns with existing endorsed plans, required State/Federal upgrades and appropriate travel behaviour pattern changes to achieve the endorsed objectives from the City Integrated Transport Strategy.

This scenario can be clearly demonstrated to generate the least congestion within the transport network. It aims to deliver upgrades which have been previously planned and support orderly neighbourhood development whilst supporting business and employment centres with the required upgrades to State level strategic road links.

Strategic Plans/Policy Implications

The transport network influences a large majority of how our communities function, the City investigating and carefully planning for the future needs of our community provides the best opportunities to achieve outcomes in many of the areas of strategic focus for the City.

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

• Protection and enhancement of our natural areas, bushland, parks and open spaces.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An attractive, socially connected and diverse built environment.
- An integrated, accessible and improved transport network.

OCM 11/06/2024 Item 14.1.5

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

Best practice Governance, partnerships and value for money.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

Given the earlier endorsement of network upgrades through statutory mechanisms by way of Metropolitan Region Scheme, Structure Plans or commitments and/or reports by the State Government, as well as the highly strategic nature of this study, the engagement of the community over and above earlier engagement activities (required as components of the above) is not considered beneficial in the creation of this study document.

The City have drawn on its database of transport related concerns and completed engagement with key internal and external stakeholders to the transport network to check the assumptions made in completing this investigation.

Risk Management Implications

As an informing study this report makes no recommendations which commits Council to the adoption of projects.

This report seeks to highlight the options available to address transport network capacity issues and the safe, sustainable, and efficient movement of people within and around the City in future years.

The endorsement of Scenario 6 provides clarity to City Officers around the direction which is to be taken in the production of the implementing documents and plans for transport network upgrades which include the Integrated Transport Plan, Road Safety Management Plan, Cycling and Walking Plan and Parking Plan.

Non-support of specific proposals within the Scenarios may have significant flow on effects to other parts of the transport networks or residential areas.

Those proposals which are included and form part of Primary or Other Regional Roads may require significant bodies of work to be completed to amend the structure of the transport network.

156 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.1.5 OCM 11/06/2024

Primary risks to the City relating to the later pursuance of the scenario recommended in this report will relate to the following Risk categories:

- Brand Reputation this may be realistically considered in the High and Extreme
 categories under both situations of support and non-support due to the
 significant nature of the proposals which cover the entirety of the City. Should
 the projects which would emanate later be pursued will not be supported by all
 and will come with an array of impacts, equally not pursuing these projects will
 lead to damage by way of rerouting of traffic, congestion (economic loss) road
 safety/trauma also likely to create brand and reputational damage.
- Finance similar to Brand and Reputational risk this may be realistically
 considered in the High and Extreme categories under both situations of support
 and non-support due to the significant nature of the proposals which cover the
 entirety of the City. Should the projects which would emanate later be pursued
 they will come with their own risks which cumulatively would trigger these
 ratings.

Equally non-support would result in the need to replan the network and later fund alternate projects which represent similar and potentially more significant financial risk to the City due to exposure of change in planning frameworks, replanning of earlier proposed network links, and compensatory functions associated with these changes.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Introduction

1. Introduction

SMEC was appointed by the City of Cockburn in 2023 to prepare a District Traffic Study (DTS). The City conducts this study every five years to evaluate the existing road network performance and to assist in decision-making for future road network improvements and upgrades within the City boundary. It also helps to better incorporate future transport needs based on anticipated expansion in land use, employment, population, as well as traffic journeys predicted by the Main Roads Regional Operations Model (ROM24). Please refer to the Appendices for the detailed technical work for this District Traffic Study.

1.1 Background and Objectives

The previous DTS was done in 2018. Since then, the City has experiences considerable growth and land development. The plan for the local and state road network improvement has had changes, which necessitates a review and replacement of the existing 2018 DTS.

The 2023 DTS considers road upgrades identified or planned in the City of Cockburn Regional & Major Roadworks 2018-2031. The outputs from the study will provide guidance on the road upgrades required in the medium and long-term future. The contents from this DTS report acts as an informing document and forms a part of the City's Integrated Transport Strategy.

The study used the Aimsun traffic modelling software as the analytical basis for the review. The analysis was conducted for three horizon years: the base year (2021), a medium-term horizon year (2031), and a longer-term horizon year (2041). The intent of the study was also to feed information to the City's Integrated Transport Strategy and the Four-Year Capital Works Programme.

The objectives of this District Traffic Study were as follows:

- Identify existing/ base year (2021) traffic volumes in the study area;
- Develop a regional and district-level traffic model for the study area;
- Identify deficiencies in the road network for future years 2031 and 2041 and provide advice on timing for road network improvements; and
- Test additional scenarios to understand the impacts of alternate major road upgrades in the network.

1.2 Abbreviations

Table 1: List of abbreviations

Abbreviation	Meaning
CDTM	Cockburn District Traffic Model
c/w	Carriageway
DTS	District Traffic Study
NB, SB, EB, WB	Northbound, Southbound, Eastbound, Westbound

Study Area

2. Study Area

The red dotted line in Figure 1 below shows the boundaries of the study area. It covers the entire City of Cockburn with an extension in the north to South Street. Please refer to the technical memos provided for further details.

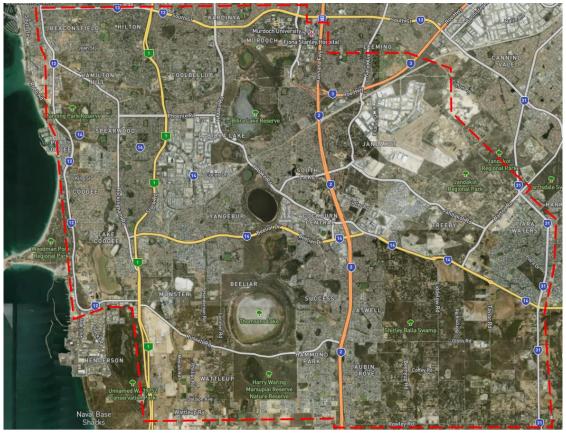

Figure 1: Aimsun modelling study area (Source: Metromap 2024)

SMEC Internal Ref. 3006466/206 15 May 2024

Page 4

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Base Year Network review

3. Base Year Network review

The AM and PM peak periods in the base year (2021) were determined by analysing hourly traffic volumes for major road sections within the network. The AM and PM peak periods were determined to be 7:00 am - 9:00 am and 3:00 pm - 5:00 pm. Refer to *Appendix A* - *Technical Memo Inputs* for further details on the existing peak period traffic estimation. The study and tests conducted focus only on these peak periods.

The model results were interpreted based on the Volume/Capacity Ratio (V/C). V/C is a measure of the level of saturation and is used to identify areas where the demand exceeds the supply within a road network. For our study purposes, the V/C ratio has been multiplied by 100 – so a V/C of 100 represents a link where demand equals the supply (in the peak period). We have classified the V/C Ratio into 4 groups above 100. Assigned volume plots are outputs obtained from the strategic model which show the peak hour traffic volumes across the network and are attached in Appendix A.

Note that in theoretical terms, the volume can't exceed the capacity. However, the AIMSUN model gives us an indication of where demand exists so that we can see where additional capacity may be required in the future. Figure 2 and Figure 3 below show the links where the V/C exceeded 100%. These links are likely to be highly congested with no changes to the anticipated demand or road network capacity during the AM and PM peaks.

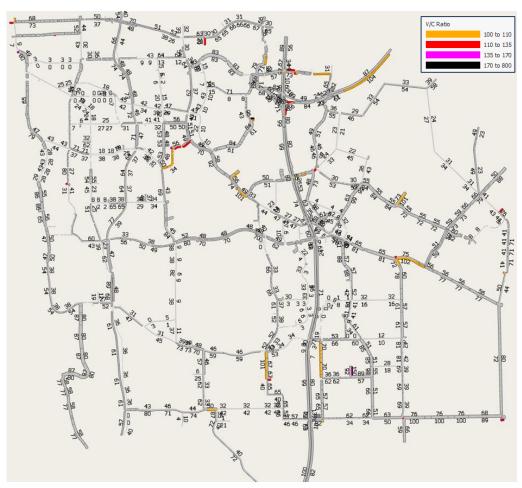

Figure 2: Road sections highlighted exceed 100% V/C Ratio during AM peak – 2021

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Base Year Network review

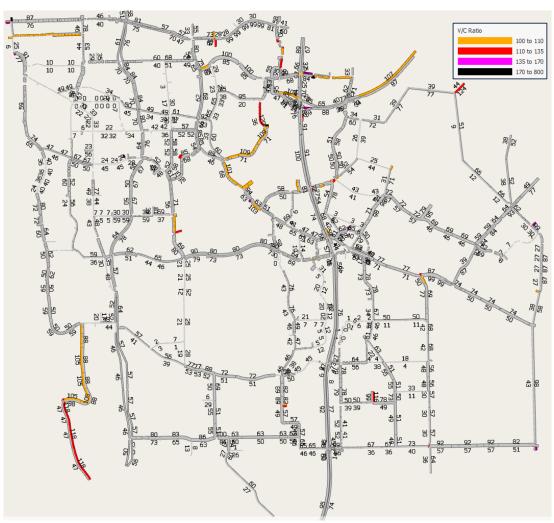

Figure 3: Road sections highlighted exceed 100% V/C Ratio during PM peak – 2021

The results for V/C ratio plots for the base year (2021) revealed that the network operated satisfactorily in both the AM and PM peak period with only a few congestion hotspots occurring mainly on the northern section of the City adjacent to Kwinana Freeway.

Given that the model examines the network on a strategic level, there are model limitations in terms of predicting the disruptions to traffic due to activities such as roadworks and road incidents.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

4. Future Year Network Review

4.1 Forecast Scenarios

Two future horizon years were modelled: 2031 and 2041. Each of these has two scenarios as shown below in Table 2:

- "Do Nothing" The road network remains as per year 2021; and
- "Do Something" City of Cockburn + Main Roads WA improvements as identified in the list of upgrades in City's Regional & Major Roadworks plan.

Table 2: Scenario Matrix

Scenario	Existing (2021)	Short Term (2031)	Long Term (2041)
"Do Nothing" - Existing network	Existing network	No improvements	No improvements
"Do Something"		List of agreed road network upgrade	List of agreed road network upgrade

The "Do Nothing" scenario is predominantly tested to demonstrate the traffic conditions in the future if there are no upgrades in the current road network. This will also help to identify priority areas where significant congestion may occur and the subsequent requirement for upgrades.

The "Do Something" scenario shows the traffic network performance if the planned upgrades (City of Cockburn + Main Roads WA) are in built in the future. The effect of these road upgrades will be evaluated in this study.

Model Assumptions:

It should be noted that the upgrades in the "Do Something" scenario do not include road projects such as intersection upgrades, traffic signal upgrades, traffic calming, road safety improvements, turn bans, LATM measures, intersection upgrades and operational improvements - many of which may be required to achieve suitable road safety and community amenity outcomes. This is due to the strategic nature of the methodology which focus on major upgrades such as new links, additional carriageways, and removal of existing carriageway/s. Public Transport usage has not been modelled. Main Roads ROM data does not consider the traffic generation from Jandakot Treeby PIA area as it was announced in late 2023. As such, there may be areas within the local government boundary where significant traffic growth may occur as a result of new development which this report does not account for. The currently planned road upgrades and the test for alternative scenarios has been formulated based on consultation with the City.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

The list of planned road upgrades extracted from City of Cockburn's Regional and Major Roadworks and those applicable for strategic modelling is shown below.

Table 3: List of planned road upgrades applicable for strategic modelling

Implementation Plan	City of Cockbu	City of Cockburn		Main Roads WA	
Road Network Upgrade	2031	2041	2031	2041	
Rockingham Road – Phoenix Road to Spearwood Avenue reconstruction (reduce to 1 lane each way)	✓				
Jandakot Road Upgrade - Skotsch Road to Warton Road (increase to 2 carriageways both directions)	√				
Russell Road Upgrade - Hammond Road to Rockingham Road - Stage 1 - Hammond Road to Henderson Road (increase to 2 carriageways both directions)	✓				
Russell Road – Henderson Road to Rockingham Road (increase to 2 carriageways both directions) - Stage 2	✓				
Elderberry Drive Realignment - Jindabyne Heights to Berrigan Drive to connect to Ngort Drive	✓				
Hammond Road Upgrade - Beeliar Drive to North Lake Road (increase to 2 carriageways both directions)	✓				
Hammond Road Upgrade and Widening - Branch Circus to Bartram (increase to 2 carriageways both directions)	✓				
Spearwood Avenue Upgrade - Beeliar Drive to Fancote Avenue (increase to 2 carriageways both direction)	✓				
Ngort Drive Upgrade & Extension - North Lake Road to Berrigan Drive		✓			
Hammond Road Upgrade & Extension - Gaebler Road to Rowley Road - Stage 1 - Russell Road to Frankland Avenue (construct 1 carriageway both NB and SB)		√			
Rowley Road Upgrade - Rockingham Road to Hammond Road - Stage 1 - Kwinana Freeway to Hammond Road (construct 2 carriageways in both directions)		√			
Mayor Road Downgrade / Removal - Apium Mews to Atwell Close (link removal)		✓			
Midgegooroo Avenue Downgrade - Beeliar Drive to North Lake Road (reduce to 2 lanes in both direction)		√			
Hammond Road Extension - Russell Road to Rowley Road - Stage 2 - Frankland Avenue to Wattleup Road (link extension)		✓			
Hammond Road Extension - Russell Road to Rowley Road - Stage 3 - Wattleup Road to Rowley Road (link extension)		✓			
Poletti Road Upgrade - Beeliar Drive to North Lake Road (increase to 2 carriageways in both direction)		√			
Pilatus Street Upgrade - Berrigan Drive to Jandakot Airport boundary (increase to 2 carriageways in both direction)		✓			
Kwinana Freeway - Rowley Road to Russell Road (northbound additional lane) State Planned Project				✓	

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

4.2 Results for 2031 road network

Figure 4 and Figure 5 show the differences between the "Do Nothing" and "Do Something" scenarios for 2031 during the AM peak period. The figures display links with V/C X 100 exceeding 100.

AM Peak Do Nothing:

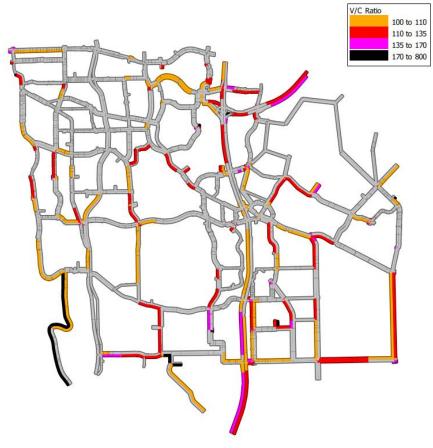

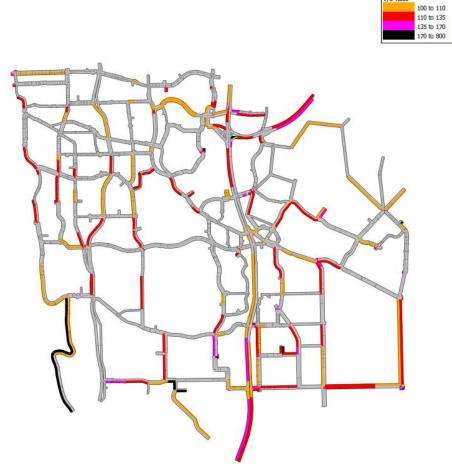

Figure 4: Road sections highlighted exceed 100% V/C ratio during AM Peak – 2031 "Do Nothing" scenario

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

AM Peak Do Something:

 $Figure \ 5: Road \ sections \ highlighted \ exceed \ 100\% \ V/C \ ratio \ during \ AM \ Peak - 2031 \ "Do \ Something" \ scenario$

The figures show a marginal improvement in the road network in the "Do Something" scenario. The Rockingham Road downgrade from two lanes to one lane results in increased congestion on Rockingham Road. The purpose of the capacity downgrade is to improve road safety and pedestrian amenity in the area.

Vehicle-hours travelled (VHT) across the Cockburn road network was used to estimate the benefits of the upgrades. In the 2031 "Do Nothing" AM peak scenario, the VHT was 645,007 vehicle-hours which reduced to 642,338 vehicle-hours for the "Do Something" AM peak. This represents a travel time savings of 2,669 vehicle-hours during the AM peak.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Figure 6 and Figure 7 show the difference in the "Do Nothing" and "Do Something" scenarios for 2031 during the PM peak.

PM Peak Do Nothing:

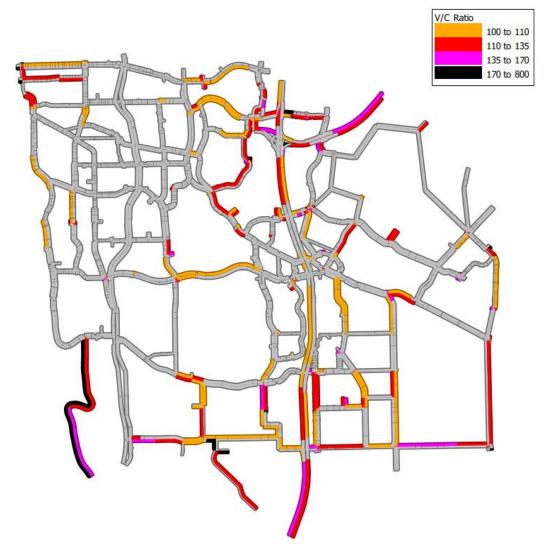

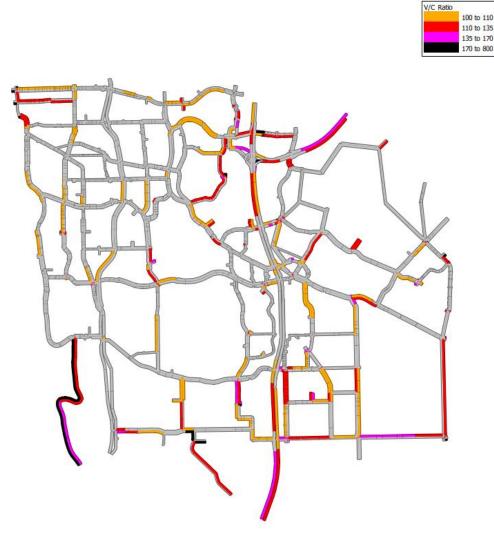

Figure 6: Road sections highlighted exceed 100% V/C ratio during PM Peak – 2031 "Do Nothing" scenario

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

PM Peak Do Something case:

Figure~7: Road~sections~highlighted~exceed~100%~V/C~ratio~during~PM~Peak~-~2031~"Do~Something"~scenario~PM~Peak~-~2031~"Do~Something"~scenario~PM~Peak~-~2031~"Do~Something"~scenario~PM~Peak~-~2031~"Do~Something~Scenario~PM~Paak~-~2031~"Do~Something~Scenario~PM~Paak~-~2031~"Do~Something~Scenario~PM~Paak~-~2031~"Do~Something~Scenario~

The results show a marginal improvement in the PM peak period road network in the "Do Something" scenario. The PM peak congestion in the "Do Nothing" scenario is spread out throughout the road network in contrast to the "Do Something" scenario where it is concentrated towards the extreme north and south regions of the network and adjacent to the freeway. Local roads seem to have benefitted in travel times by the road upgrades in the "Do Something" scenario. In the 2031 "Do Nothing" PM peak period scenario, the VHT was 658,543 whereas it was 652,988 for the "Do Something" PM peak. The results indicated a travel time savings of 5,555 vehicle-hours during the PM peak period.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

4.3 Results for 2041 planned road network

The results for the 2041 "Do Nothing" and "Do Something" scenarios show that peak period congestion is spread out throughout the road network in both the scenarios. A comparison of VHT indicates a marginal improvement in the road network in the "Do Something" scenario.

Figure 8 and Figure 9 show the difference in the 2041 AM peak period "Do Nothing" and "Do Something" scenarios.

PM Peak Do Something:

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

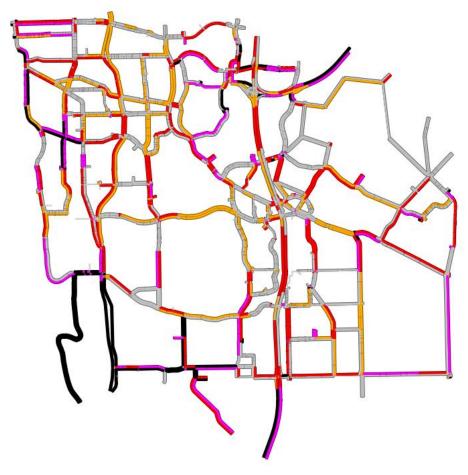

Figure 11: Road sections highlighted exceed 100% V/C ratio during PM Peak – 2041 "Do Something" scenario

The 2041 "Do Nothing" AM peak VHT was 4,216,083 veh-hrs which reduced to 4,115,750 veh-hrs for the "Do Something" scenario. The results indicated a travel time savings of 100,333 veh-hrs during the AM peak period in 2041.

Similarly, for the PM peak, the results indicated a reduction in VHT by 99,667 veh-hrs. Refer to Appendix A for further details.

Since this is a high level strategic modelling exercise, there are some limitations. The assessment of finer grained operational components such as individual intersection or corridor performance would enable a better understanding of the congestion hotspots. The strategic model uses link-based delays whereas an operational model would assess congestion at intersections.

District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

4.4 Network Statistics

Table 4 shows a summary of network statistics for base and future years for the "Do Nothing" and the "Do Something" scenarios. These help to identify impacts of the upgrades on the overall travel time and travel distance in the network during peak periods.

The planned road upgrades reduce vehicle-hours but add to vehicle-kms during peak periods. New roads will reduce veh-hours and increase traffic speeds but also encourage longer trip lengths – hence, the increase in vehicle-kms.

Table 4: Forecast scenario assignment summary statistics

Network Variable	Base	Do Nothing		Do Something		
	2021	2031	2041	2031	2041	
Vehicle-hours (AM Peak)	60,349	645,007	4,216,083	642,338	4,115,750	
Vehicle-kms (AM Peak)	1,008,230	1,440,000	1,940,530	1,444,030	1,960,200	
Vehicle-hours (PM Peak)	105,414	658,543	4,584,700	652,988	4,485,033	
Vehicle-kms (PM Peak)	1,009,980	1,489,930	1,991,070	1,498,750	2,011,710	

4.5 High Demand zones

The southwest section of the road network will experience a high growth in traffic due to the presence of AMC, Latitude 32 and Westport. Zones 21-26, 61, 62, 77,79 and 112 are the zones in question which can be seen in Figure 12.

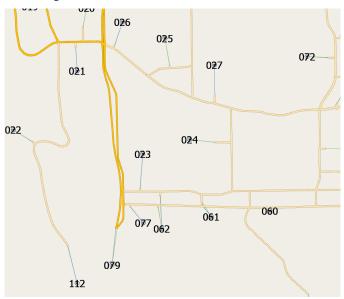

Figure 12: High Demand SW Zones in 2041 road network

There is a significant increase in vehicular demand to and from these zones. Table 5 and Table 6 summarise the demands.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Table 5 shows traffic demand to the zones in question. The Westport zones attract about 4,000 vehicles in 2031 and 10,000 vehicles in 2041. This demand increase along with the surrounding zones for AMC and Latitude 32 causes the total trips into these zones to increase significantly. This increase causes congestion issues particularly in 2041 which is visible in the V/C ratio results in all the scenarios tested.

Table 5: Comparison of demands to the zones corresponding to the southwest of the network

То	Zone ID	AM (7 am – 9 am)		Zone ID AM (7 am – 9 am) PM (3 pm – 5 pm)			n)
		2021	2031	2041	2021	2031	2041
Westport	79,112	3227	7078	13994	2917	6196	12975
AMC	21,22	968	980	3734	2488	2532	5000
Lat 32	23-26, 61,62,77	525	1740	3138	657	1922	2670
Total		4720	9798	20866	6062	10649	21303

Table 6 shows the demands generated from the zones that correspond to Westport, AMC and Latitude 32. Similar level of increase in demands can be seen for the future years 2031 and 2041.

Table 6: Comparison of demands from the zones corresponding to the southwest of the network

From	Zone ID	AM(7 am – 9 am)		PM(3 pm – 5 pm)			
		2021	2031	2041	2021	2031	2041
Westport	79,112	2569	4018	9641	4227	6273	12179
AMC	21,22	1474	2904	5908	1083	2028	5128
Lat 32	23-26, 61,62,77	710	2372	4284	767	2496	4270
Total		4753	9294	19833	6076	10797	21577

The congestion issues experienced in the south west section of the network causes a flow-on effect on the northern sections of the network.

Additional scenario testing

5. Additional scenario testing

Further scenario testing of alternative options was undertaken. These scenarios were tested to quantify the V/C ratio, Veh-hrs and Veh-kms travelled during peak periods. They were then used to make comparisons amongst different scenarios in order to understand the most beneficial upgrades. There were six additional scenarios tested which are described below.

5.1 Scenario 1 – City upgrades:

This scenario was tested on the base year 2021 road network. In this scenario, the upgrades highlighted below were assumed to be undertaken by the City in years 2031 and 2041 as shown. Figure 13 shows planned upgrades in this scenario with 2031 and 2041 upgrades highlighted.

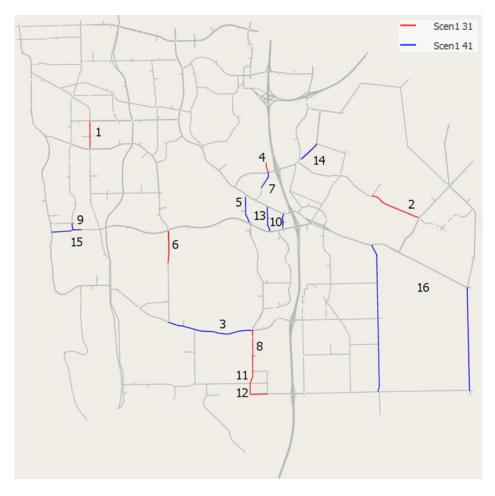

Figure 13: Map showing the 2031 City of Cockburn road network under Scenario 1

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Table 7: Scenario 1 – City upgrades

Upgrade number	Road	Type of upgrade	Year of upgrade
1	Rockingham Road – Phoenix Road to Spearwood Avenue	reduce to 1 lane each way	2031
2	Jandakot Road Upgrade – Fraser Road to Warton Road	Additional lane both directions	2031
3	Russell Road Upgrade - Hammond Road to Rockingham Road - Stage 1 - Hammond Road to Henderson Road	Additional lane both directions	2041
4	Elderberry Drive Realignment	Jindabyne Heights to Berrigan Drive to connect to Ngort Drive	2031
5	Hammond Road Upgrade - Beeliar Drive to North Lake Road	Additional lane both directions	2041
6	Spearwood Avenue Upgrade - Beeliar Drive to Fancote Avenue	Additional lane both directions	2031
7	Ngort Drive Upgrade & Extension	North Lake Road to Berrigan Drive	2041
8	Hammond Road Upgrade & Extension - Gaebler Road to Rowley Road - Stage 1 -	Construct 1 carriageway both NB and SB	2031
9	Mayor Road Downgrade / Removal	Apium Mews to Atwell Close	2041
10	Midgegooroo Avenue Downgrade between Beeliar Drive to North Lake Road	reduce to 2 lanes both directions	2041
11	Hammond Road Upgrade & Extension - Russell Road to Rowley Road - Stage 2	link extension from Frankland Avenue to Wattleup Road	2031
12	Hammond Road Upgrade & Extension - Russell Road to Rowley Road - Stage 3	link extension from Wattleup Road to Rowley Road	2031
13	Poletti Road Upgrade - Beeliar Drive to North Lake Road	Additional lane both directions	2041
14	Pilatus Street Upgrade - Berrigan Drive to Jandakot Airport boundary	Additional lane both directions	2041
15	Beeliar Drive extension	link extension from west of Stock Road up to Cockburn Road	2041

The modelling results indicate a marginal increase in veh-hrs and veh-kms in the AM peak period and a marginal reduction in the PM peak period.

V/C Ratio results for this scenario are similar to the "Do Something" scenario with minor variations in the AM and PM peak periods and do not suggest major improvements. Plots for the V/C Ratio are shown below.

ReportDistrict Traffic Study 2023

SMEC Internal Ref. 3006466/206 15 May 2024

5.2 Scenario 2 – State Upgrades with Fremantle Port

Scenario 2 was a test to observe the impacts of upgrades undertaken by Main Roads WA in 2031. The upgrades are shown in the figure below.

Figure 18: Map showing upgrades in City of Cockburn road network in Scenario 2

The assumed improvements included:

- 1. Rowley Road West Provision of divided dual carriageway between Kwinana Freeway and Rockingham Road Construct 2 carriageways operating at 80kph
- 2. Russell Road/Cockburn Road Rockingham Road to Beeliar Drive extension (future connection) operating as a dual carriageway in both directions at 80km/hr (2031);
- Cockburn Road to Beeliar Drive extension to Roe Highway Operating as a Dual Carriageway 70km/hr (2031);
- 4. Stock Road Control of access highway upgrade. Divided dual carriageway 100 km/hr (2031);
- 5. Freeway as noted in Do Something scenario (see Table 3) i.e. Northbound lane addition between Rowley Road and Russell Road; and
- 6. Roe 9 Control of access highway upgrade. Divided dual carriageway 100km/hr (2031).

The veh-hrs results in Scenario 2 showed that there were significant travel time savings compared to the "Do Something" scenario. In the 2031 AM and PM Peak periods, there was a saving of 124,271 veh-hrs and 124,006 veh-hrs respectively.

The veh-kms results showed an increase in distance travelled during the AM and PM peak periods for Scenario 2. The Roe Highway extension seemed to contribute to the majority of the increase in distance travelled. Being a high speed route (100 km/hr), road users were more likely to use the route to save travel time for the east west movements. This added distance to some journeys but saved time.

The results for V/C Ratios are shown below:

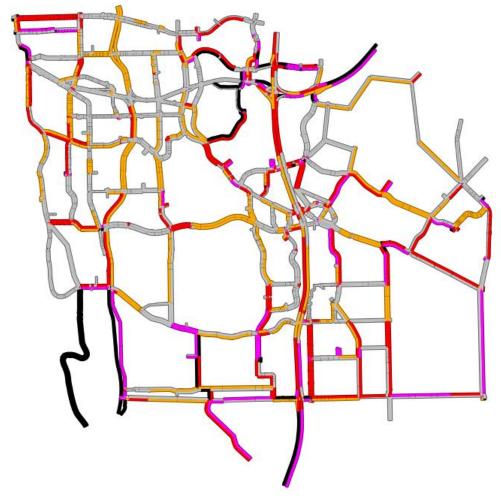

Figure 22: V/C Ratio exceeding 100 in Scenario 2 – PM Peak – 2041

V/C ratio results for 2041 showed similar improvements to 2031 with the north-west section showing most of the improvement.

The results for the Veh-Hrs in Scenario 2 showed that there was significant travel time savings compared to the "Do Something" scenario. In the 2041 AM and PM Peak periods, veh-hrs reduced by 560,317 veh-hrs and 715,983 veh-hrs respectively.

Veh-kms across the network increased during the AM and PM peak periods for Scenario 2 due to improved East-West accessibility provided by the Roe Highway.

5.3 Scenario 3 – State upgrades with Westport

This scenario was tested with the base year 2021 road network. In this scenario, the upgrades highlighted below were assumed to be undertaken by Main Roads in 2031. Figure 23 below shows the planned upgrades in this scenario.

Figure 23: Map showing the 2031 City of Cockburn road network in Scenario 3

The following upgrades were assumed in this scenario:

- 1. Rowley Road West Provision of divided dual carriageway between Kwinana Freeway and Rockingham Road Construct 2 carriageways operating at 80kph
- 2. Russell Road/Cockburn Road Rockingham Road to Beeliar extension (future connection) as divided dual carriageway, 80km/hr (2031);
- Cockburn Road dual carriageway from Beeliar Drive extension to South Street dual carriageway 70km/hr (2031);
- 4. Stock Road Controlled access highway upgrade with 3 lanes each direction at 100km/hr (2031);
- 5. Kwinana Freeway widening (2031) i.e. additional lane both directions between Anketell Road and Russell Road;
- 6. Cockburn Road (South), upgrade to dual carriageway 70 kph (2031);
- 7. Rowley Road East divided dual carriageway 80 kph between Kwinana Freeway and Tonkin Highway (2041);
- 8. Nicholson Road upgrade to dual carriageway 80 kph and Liddelow Road speed reduction to 60 kph; and
- 9. Russell Road Henderson Road to Rockingham Road dual carriageway.

The V/C ratio results from the assumed upgrades are shown below:

2031 Results:

V/C PM Peak Period – Scenario 3:

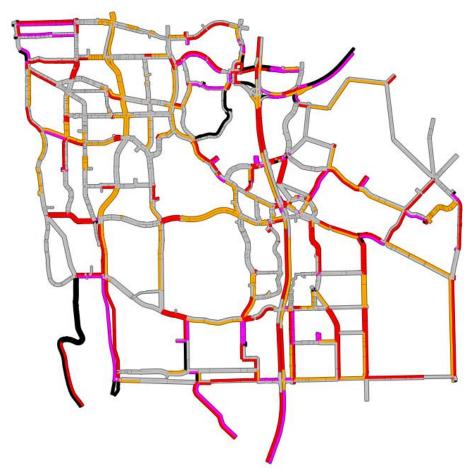

Figure 27: V/C Ratio exceeding 100 in Scenario 3 – PM Peak – 2041

The scenario 3 results show a further reduction in veh-hrs during the AM and PM peak periods. When the "Do Something" scenario is compared with Scenario 3, the veh-hrs fall by nearly 50% which indicates a significant reduction in congestion. Given that Scenario 3 includes most of Scenario 2 (except for Roe Highway), the addition of the Cockburn Road South upgrade, the Rowley Road east upgrades and the added capacity on Stock Road have been the primary reasons for the improvements. Roe Highway removal from the previous scenario resulted in increased congestion on parallel roads and to the northern sections of the network.

Similar to the 2031 results, the V/C Ratio plots for the 2041 AM and PM peak periods show similar improvements when compared to the "Do Something" results. The veh-hrs results in Scenario 3 (2041) show a significant reduction (i.e. approximately 1.85m and 2m vehicle-hours for AM and PM peak periods respectively).

V/C PM Peak Period – Scenario 4:

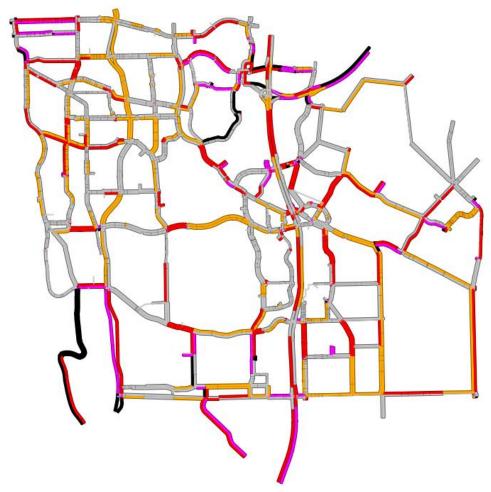

Figure 32: V/C Ratio exceeding 100 in Scenario 4 – PM Peak – 2041

Scenario 4 includes the improvements in Scenarios 1 & 3. When comparing the results of Scenario 4 against Scenario 3, there have been minimal changes to veh-hrs and veh-kms. There was, however, an increase of 6,972 veh-hrs and 26,505 veh-hrs for the 2031 AM and PM peak periods. In 2041, there was a reduction in veh-hrs by about 50,000 in both peak period when compared to Scenario 3. Therefore, the benefits of Scenario 4 are seen largely in 2041.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

5.5 Scenario 5 – Mode Share Shift – Active Transport + Public Transport

Scenario 5 represents an alternative to all the previous scenarios as it does not focus on planned road upgrades for capacity increase. It rather focuses on improving and investing on infrastructure for sustainable modes of transport i.e. walking, cycling and public transport usage. Scenario 5 considers the impact of mode change throughout the entirety of the City of Cockburn area, and specifically a 1% (in 2031) and 2% (in 2041) reduction in car vehicle mode choice towards choices of sustainable transport modes such as public transport and walking. It is considered that such a global mode share change could be achieved through a range of measures consisting of:

- General improvements to public transport services such as increased bus frequencies and improved
 travel times (such as can be achieved via bus priority measures); whilst the City of Cockburn has a
 dispersed bus network, frequencies on some routes are significantly low which is unattractive for
 those considering using public transport these improvements are within the jurisdiction of the
 PTA;
- Improved network connectivity and safety for cyclists and pedestrians. In particular, infrastructure
 improvements to safe crossing points at intersections and mid-block, as well as segregated paths
 for cyclists and pedestrians such as PSPs along major road corridors can result in people being more
 willing to choose this as an option. Another key improvement to the attractiveness of these model
 area mode share impact particularly for pedestrians is the provision of shade. Major paths are
 within the jurisdiction of DoT and Main Roads WA.
- Travel Behaviour Change programmes (Your Move) a travel behaviour programme either at
 individual activity groups such as Schools or offices that actively seek to inform and persuade
 people to consider change in primary travel mode from private vehicle to more sustainable modes.

In general, each of the above are significantly influenced by investment and organization by the Transport Portfolio as such the City should continue to lobby the State Government to these considerations.

Results for this scenario suggest that this would have a major role in the reduction of vehicle hours travelled and thereby provide relief in some congestion hotspots.

The V/C ratio diagrams for this scenario are shown in the figures below:

V/C PM Peak Period – Scenario 5:

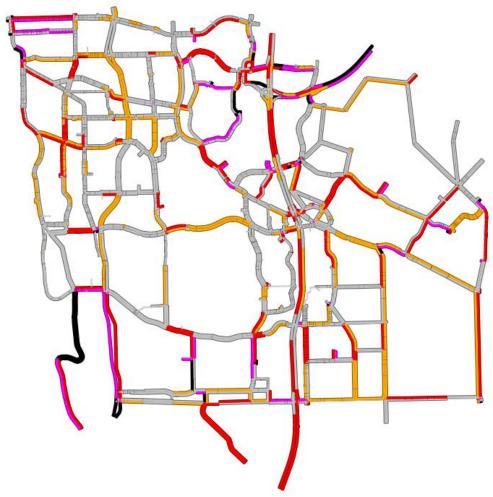

Figure 36: V/C Ratio exceeding 100 in Scenario 5 – PM Peak – 2041

The results indicate that the VHT is the lowest of all scenarios tested. This shows how significant the 1% mode shift (reduction in vehicular traffic) across all zones can be to the overall network performance. The VKT also had some reductions as there was no capacity increase on links and a greater reliance on utilising other modes of transport.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

5.6 Scenario 6 – City Upgrades + State Upgrades + Active Transport + Public Transport

Scenario 6 tested a combination of Scenario 4 (City + State upgrades with Westport) + Scenario 5 (Mode Share Shift – Active Transport + Public Transport). The results show that a combination of these provide the best outcomes in terms of reducing the VHT and VKT throughout the network.

The diagrams below show the V/C Ratio plots for the 2031 and 2041 peak periods.

2031 Results:

V/C AM Peak Period-Scenario 6:

SMEC Internal Ref. 3006466/206 15 May 2024

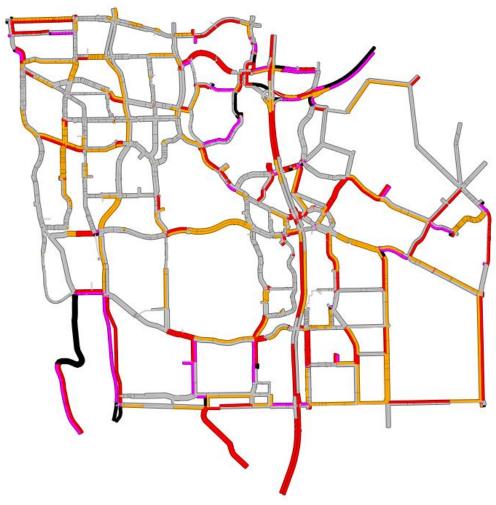

Figure 40: V/C Ratio exceeding 100 in Scenario 6 – PM Peak – 2041

The VHT results in this scenario indicate that a combination of all the upgrades and mode shift reduces both the VHT and VKT during peak periods considerably thereby reducing congestion levels throughout the network.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

Comparison of results for all the scenarios:

VHT comparison:

2031:

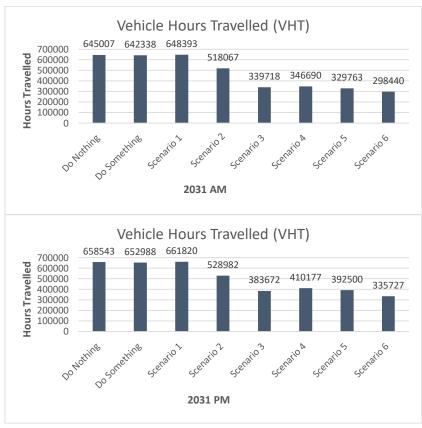

Figure 41: Vehicle Hours Travelled (VHT) across the network for 2031 peak periods

The VHT comparison for all scenarios tested shows that Scenario 6 accounts for the least number of vehicle-hours travelled on the City's road network during the 2031 AM and PM peaks. It also highlights how a combination of road upgrades, investment in public transport and active transport infrastructure can result in a significant reduction in VHT throughout the network.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

2041:

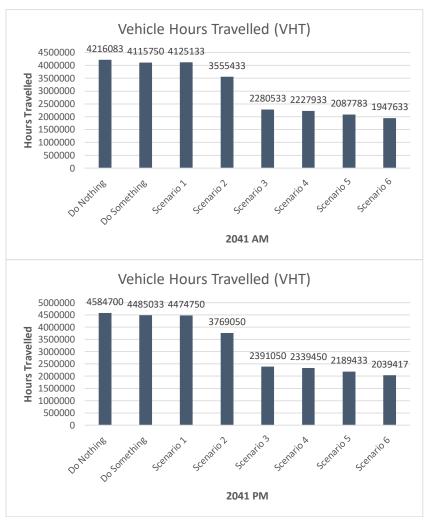

Figure 42: Vehicle Hours Travelled (VHT) across the network for 2041 peak periods

Similar to 2031, the 2041 VHT comparison for all scenarios show that Scenario 6 accounts for the least number of veh-hrs travelled on the City's road network. The addition of new links and capacity in this scenario further to Scenario 5 helps reduce travel duration and time spent in travel across the whole road network.

ReportDistrict Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

VKT comparison:

2031:

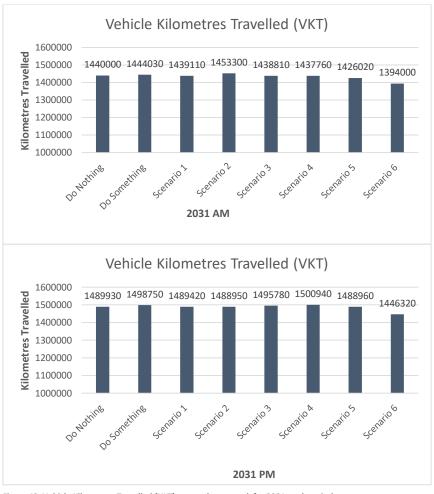

Figure 43: Vehicle Kilometres Travelled (VKT) across the network for 2031 peak periods

The results for the VKT during the 2031 peak periods indicate a similar level of distance travelled for most scenarios. Scenario 6 has the lowest VKT for both AM and PM peak periods. This suggests that in addition to road upgrades (capacity increment), improvements in active transport and public transport infrastructure has reduced the overall kilometres travelled.

Report
District Traffic Study 2023
Prepared for City of Cockburn

SMEC Internal Ref. 3006466/206 15 May 2024

2041:

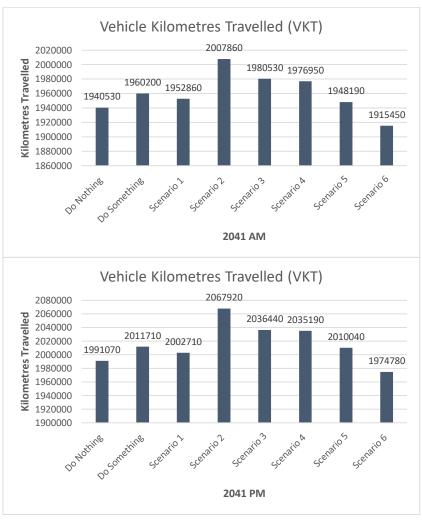

Figure 44: Vehicle Kilometres Travelled (VKT) across the network for 2041 peak periods

The VKT results during the 2041 peak periods indicate that Scenario 6 has the least VKT for both AM and PM peak periods. The results from the 2% mode shift in 2041 combined with the network upgrades show that the VKT in the entire network is the lowest in Scenario 6 amongst all scenarios.

Implementation Plan

The road network action plan shown in Figure 50 lists the roads that could be upgraded based on the outcomes of the modelling analysis. The list is prepared by applying a logic of 10% improvement in V/C ratio in the "Do Something" compared to the "Do Nothing" scenario. A 10% improvement in the V/C ratio resulted in a decision to recommend the upgrade.

Table 9 provides a summarised list of road upgrades recommended based upon the modelling results. Upgrades suggested for the 2031 time horizon are considered the priority upgrades.

Recommended Pedestrian Facilities

7. Recommended Pedestrian Facilities

An additional component tested as part of this study was the assessment of pedestrian crossing infrastructure throughout the City's road network. The Western Australian Planning Commission (WAPC) Transport Impact Assessment Guidelines (Volume 2 – Planning Schemes, Structure Plans and Activity Centre Plans) has a table showing recommended criteria to assess the need for pedestrian crossing infrastructure. The below table was extracted from the document and was applied to the recommended scenario (Scenario 6) to determine the areas where pedestrian crossing facilities were recommended.

Table 10: Traffic volumes affecting pedestrian crossing amenity (Source: WAPC TIA Guidelines Vol. 2)

Road cross-section	Traffic volumes affecting ability of pedestrians to cross * (vehicles per hour – two way)
2 lane undivided	1,100 vph
2 lane undivided (or with pedestrian refuge islands)	2,800 vph
4 lane undivided (without pedestrian refuge islands)	700 vph
4 lane divided (or with pedestrian refuge islands)	1,600 vph

A heat map was developed for the future years 2031 and 2041. The heat map shows deficiency of pedestrian crossing infrastructure in red. Road segments with speed less than or equal to 60kph have been assessed. The assessment has been undertaken considering the AM and PM peak hour volumes.

SMEC Internal Ref. 3006466/206 15 May 2024

Recommended Pedestrian Facilities

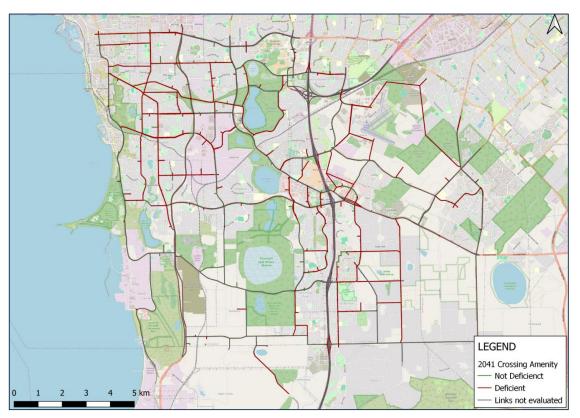

Figure 47: Scenario 6 – 2031 – Pedestrian Crossing Amenity evaluation

The maps highlight the potential focus areas for future pedestrian crossing infrastructure. It was developed in QGIS by identifying divided/ undivided lanes, presence/absence of existing pedestrian crossing infrastructure and subsequently applying the criteria mentioned in Table 11. Volumes used in this assessment are Assigned Volumes which are results from Scenario 6 model.

The type of pedestrian crossing required at these locations need to be assessed separately as the purpose of the maps is only to highlight road segments within the City of Cockburn network which satisfy the WAPC criteria and the identification of potential focus areas.

Conclusions

8. Conclusions

The 2023 District Traffic Study was a comprehensive review of the current and future traffic demand in the City of Cockburn road network. As part of the study, the following tasks were undertaken:

- Determination of base year (2021) peak hour for AM and PM;
- Development of AM and PM peak traffic models in Aimsun for the base year;
- Development of AM and PM peak traffic models in Aimsun for future years (2031 and 2041) for the "Do Nothing" and "Do Something" scenarios;
- Development of AM and PM peak traffic models in Aimsun for future years (2031 and 2041) for the additional scenarios:
- List of the key local road upgrades necessary for the future years (2031 and 2041) based on modelling results for the City's implementation plan; and
- Additional scenario testing to understand impacts of additional road upgrades, public transport, active transport and mode shift.

The analysis showed that there was a significant increase in traffic volumes and travel times in both future scenario years (2031 and 2041). Even with the proposed road upgrades, there are sections where the demand exceeds available road network capacity.

Results for the 2031 "Do Something" scenario did show some improvement compared to the "Do Nothing" option. The 2041 "Do Something" results highlighted that although it is better than the "Do Nothing" option, current planned upgrades themselves will not totally rectify congestion issues in the AM/PM peak period operation.

Following the base modelling, additional scenarios were evaluated. The additional scenario testing results highlighted the benefits of undertaking the upgrades to key areas in the network where traffic volumes are high and higher trips are expected.

The mode shift scenario demonstrated how significant a shift in 1% and 2% vehicular traffic demand has in the reduction of overall peak period vehicle-hours. The results from the future scenarios also indicate that additional road network demand management measures will be required beyond the planned road network upgrades to the functional road network. These involve investment in providing well connected active transport (walking and cycling routes) and public transport infrastructure to facilitate behavioural mode shift from private car trips to other modes.

An evaluation of pedestrian crossing infrastructure was undertaken which has highlighted pedestrian focus areas.

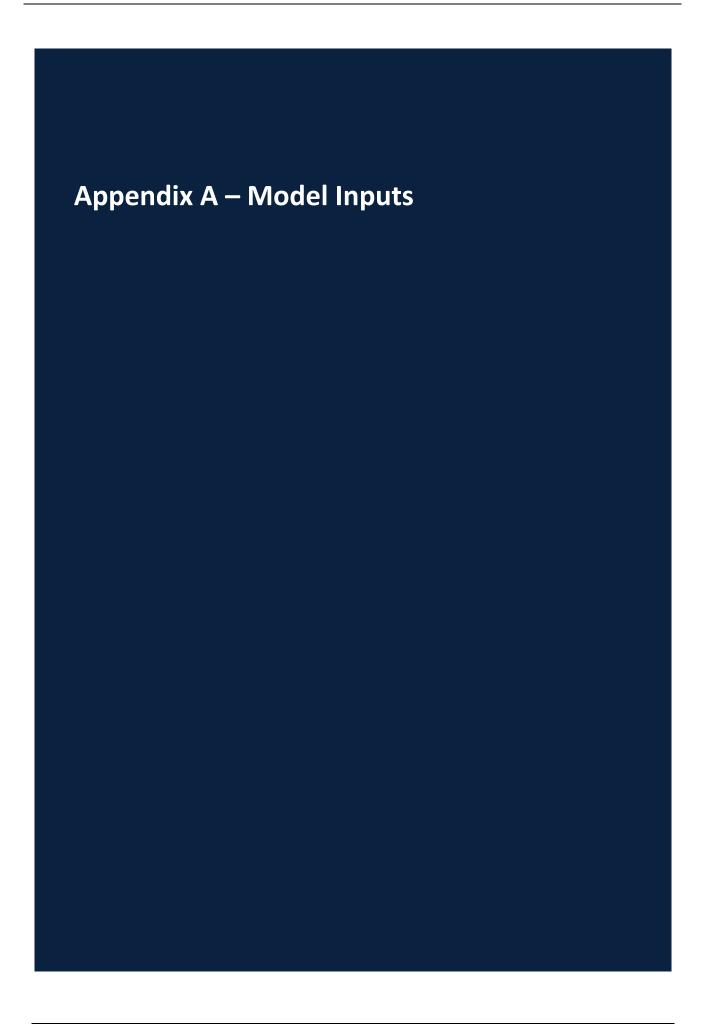

Based on the scenarios tested, it is recommended that the City's road network upgrade plan be revised to include upgrades as listed in Table 10. However, it is also recommended that these upgrades need to be accompanied by the addition of active transport and public transport infrastructure improvements as has been highlighted in previous sections.

1. Introduction

This appendix will explain about the list of inputs needed to develop the base year (2021) and future years (2031 and 2041) model in Aimsun. The inputs consist of base year traffic volumes, determination of AM/PM peak period traffic volumes, Speed limit calibration, current and future road network upgrades, changes based on current design, total trips and sub-area matrices with network. The note also discusses about an additional scenario requested to run subject to agreement when the models have been developed.

2. List of Inputs

- Traffic Volumes
- Speed limit calibration
- Road network for base year 2021
- Road network for future years 2031, 2041
- Network Changes required based on the existing design
- Total trips and Sub-Area Matrices with network from MRWA
- Additional scenarios

2.1 Traffic Volumes

Traffic volumes along major links within City of Cockburn were analysed for 2020/21. Analysis is conducted using screenlines. In screenline analysis, the sum of observed link traffic counts that are crossed by the screenline is compared with model estimated volumes, for the same links and directions, from traffic assignment. Figure 1 is a map showing screen lines applied within the City of Cockburn area. The screenlines and sites are picked to represent major links along the network such as Freeways, Primary and Secondary Distributor roads.

Background study, input information and assumptions

Page 2 of 13

For the City of Cockburn DTS, there are 21 sites included in the analysis as shown below in Figure 1.

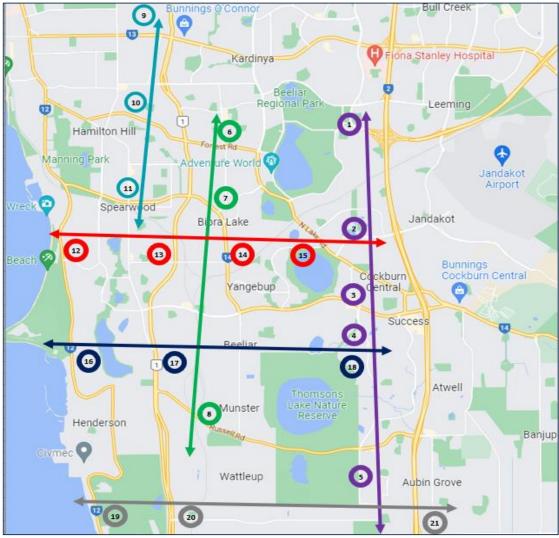

Figure 1: Screelines and sites within City of Cockburn for model calibration and validation

Traffic data was downloaded from Mainroads - Trafficmap for the above 21 sites. This is compared with the base year model for calibration and validation purpose. It also helps to establish the AM and PM peak periods within the city network. The AM and PM peak periods were determined by analysing hourly volumes for all the 21 sites and was 7:00 AM - 9:00 AM and 3:00 PM - 5:00 PM. A two-hour peak period was chosen for modelling purpose. The below table shows the site location and year of survey for the eastbound and westbound traffic volumes that were assessed.

Table 1: Site locations and year of the count (ID 1-11)

ID	Site Location	Year of count
1	Farrington Rd East of Murdoch Dr	2021/22
2	Berrigan Dr West of Kwinana Fwy	2021/22
3	North Lake Rd East of Hammond Rd	2021/21
4	Beeliar Dr East of Hammond Rd	2021/22
5	Russell Rd West of Kwinana Fwy	2020/21

Background study, input information and assumptions

11	Spearwood Ave East of Cockburn Rd	2020/21

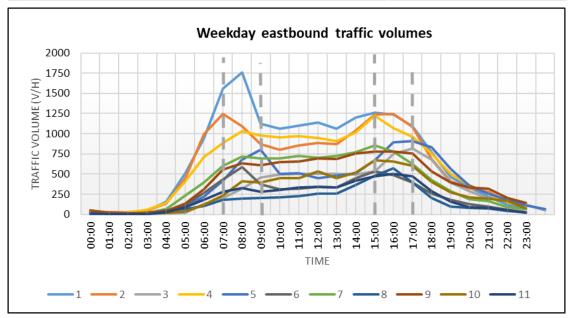

Figure 2: Average weekday eastbound traffic volumes for sites 1 to 11

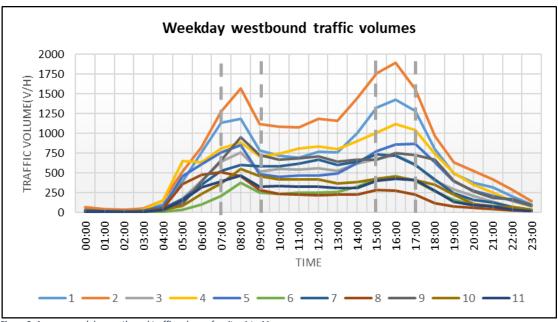

Figure 3: Average weekday westbound traffic volumes for sites 1 to 11

Background study, input information and assumptions

Page 4 of 13

The below table shows the site location and year of count, where the northbound and southbound traffic volumes were assessed to determine the AM and PM peak period.

Table 2: Site locations and year of the count (ID 12-21)

ID	Site Location	Year of count
12	Cockburn Rd South of Spearwood Ave	2021/22
13	Stock Rd North of Barrington St	2021/22
14	Spearwood Ave South of Barrington St	2021/22
15	North Lake Rd South of Bibra Dr	2021/22
16	Cockburn Rd S of Okane Ct	2021/22
17	Rockingham Rd N of Russell Rd	2021/22
18	Hammond Rd S of Beeliar Dr	2021/22
19	Cockburn Rd N of Hogg Rd	2020/21
20	Rockingham Rd S of Wattleup Rd	2019/20
21	Kwinana Fwy N of Rowley Rd	2020/21

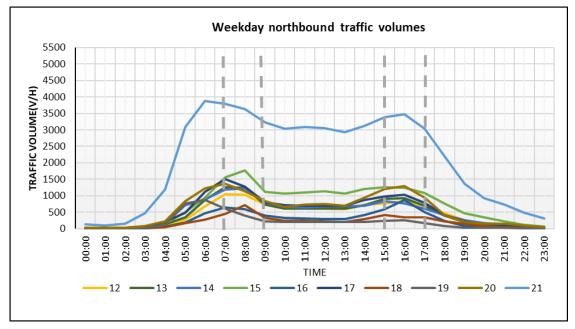

Figure 4: Average weekday northbound traffic volumes for sites 12 to 21

Background study, input information and assumptions

Page 5 of 13

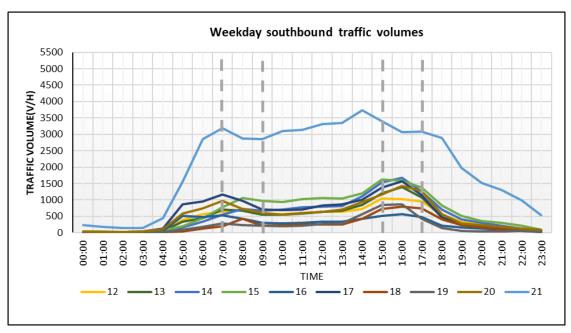

Figure 5: Average weekday southbound traffic volumes for sites 12 to 21

Sites 12 to 21 represent major links within City of Cockburn facilitating North-South movement. The weekday northbound and southbound traffic volumes also indicate that 7:00-9:00 AM and 3:00-5:00 PM are the AM and PM peak periods within the City.

The traffic volumes from these same locations will also be utilised to calibrate and validate the base model.

2.2 Speed limit calibration

The below table shows the changes in speed limits which were made to some roads in the Aimsun models received by Arup order to best match the speed limits in the Main Roads' Information Mapping System.

Table 3: Speed limit comparison

Road Name	Section	Speed limit before correction	Speed limit after correction
Stock Road	All except northbound between Wattleup Road and Russell Road	90	80
Wattleup Road	All	50	70
Pearse Road	All	50	70
Rockingham Road	All	50	60
Hamilton Road	All	50	60
Forrest Road	All	50	60
Phoenix Road	Between Rockingham Road and Stock Road	70	60
Jandakot Road	West of Soloman Road	80	70
Berrigan Drive	All	60	70
Farrington Road	West of Kwinana Freeway	50	70
Hope Road	All	50	70
South Street	Sections near Gibertson Rd intersection	90	70

Background study, input information and assumptions

Background study, input information and assumptions

2.3 Road Network for base year 2021

The below table represents the road network upgrades completed by 2021 after the last DTS report in 2018 and within the City of Cockburn boundary.

These upgrades are tabulated based on the City of Cockburn Regional & Major Roadworks 2018-2031, 2021 aerial images, and after consultation and agreement with the City. These road network upgrades will be included as part of the AIMSUN network for the base year 2021. Some of the upgrades planned in the previous DTS report for year 2021 were not upgraded and therefore will be listed for future year 2031/2041. There were also some inconsistencies in the network layout for these upgrades which will be fixed to reflect the actual base year 2021 layout.

Table 4: The agreed list of road network upgrades with completion in 2021 base year model

Implementation Plan	Completed Upgrade		Sections	Comments
	City of Cockburn	MRWA		
Road Network Upgrade	2021	2021		
Spearwood Avenue - Barrington Street to Beeliar Drive (bridge / 2nd c/w)	✓		Barrington Street to Beeliar Drive	
Beeliar Drive – Fawcett Road to Stock Road (reconstruction)	✓		Fawcett Road to Stock Road	
Verde Drive – Biscayne Way to Solomon Road (land & construct 1 c/w)	✓		Biscayne Way to Solomon Road	
Verde Drive – Solomon Road to Armadale Road (land & construct 1 c/w)	✓		Solomon Road to Armadale Road	
Prinsep Road – Cutler Road to Verde Drive (construct 1 c/w)	✓		Cutler Road to Verde Drive	
Jandakot Road – Solomon Road to Fraser Road (construct 2nd c/w)	✓		Solomon Road to Fraser Road	
Karel Avenue - Berrigan Drive to Farrington Street (construct 2nd c/w)		✓	Berrigan Drive to Farrington Street	
Kwinana Freeway - Russell Road to Roe Highway (northbound widening)		✓	Russell Road to Roe Highway	
Armadale Road - Anstley Road to Tapper Road (construct 2nd c/w)	✓		Anstley Road to Tapper Road	
Murdoch Drive Connection - Kwinana Freeway to Murdoch Drive	✓		Kwinana Freeway to Murdoch Drive	
Karel Avenue - Berrigan Drive to Farrington Street (construct 2nd c/w)		✓	Berrigan Drive to Farrington Street	
Mayor Road - Fawcett Road to Rockingham Road (reconstruct)	✓		Fawcett Road to Rockingham Road

OCM 11/06/2024 Item 14.1.5 Attachment 2

Background study, input information and assumptions

2.4 Road Network for future years 2031 and 2041

The below table represents the agreed road network upgrades which is anticipated to be completed by 2031 and 2041 within City of Cockburn. Some of them are not applicable for strategic modelling and have been highlighted and commented above. These are projects which are either funded by the City or by Main Roads WA. Similar to the previous list, these upgrades are tabulated based on the City of Cockburn Regional & Major Roadworks 2018-2031, spreadsheet received from City of Cockburn showing the scoring/priority of projects, consultation and agreement with the City. It must be noted that the list only includes upgrades which are applicable for strategic modelling and does not include intersection upgrades. There were also some inconsistencies in the network layout for these upgrades which will be fixed to reflect the actual base year 2021 layout.

Table 5: The agreed list of road network upgrades with completion in years 2031 and 2041.

Implementation Plan		burn	MRV	NΑ	•
Road Network Upgrade	2031	2041	2031	2041	Comments
Rockingham Road – Phoenix Road to Spearwood Avenue reconstruction (to 1 lane each way)	✓				
Jandakot Road Upgrade - Skotsch Road to Warton Road (land and construct 2 c/w)	✓				
Russell Road Upgrade - Hammond Road to Rockingham Road - Stage 1 - Hammond Road to Henderson Road (construct 2 c/w)	✓				
Russell Road – Henderson Road to Rockingham Road (land & construct 2 c/w) - Stage 2	✓				
Elderberry Drive Realignment - Jindabyne Heights to Berrigan Drive to connect to Ngort Drive	✓				
Hammond Road Upgrade - Beeliar Drive to North Lake Road (construct second c/w)	✓				
Hammond Road Upgrade and Widening - Branch Circus to Bartram Road (construct 2nd c/w & upgrade verge)	✓				
Spearwood Avenue Upgrade - Beeliar Drive to Fancote Avenue (construct 2nd c/w)	✓				
Ngort Drive Upgrade & Extension - North Lake Road to Berrigan Drive		✓			
Hammond Road Upgrade & Extension - Gaebler Road to Rowley Road - Stage $\bf 1$ - Russell Road to Frankland Avenue (construct $\bf 1$ c/w NB and SB)		√

2.5 Network Changes required based on the existing design

SMEC has conducted a desktop study using Metro Maps, which is mainly focused on the main corridors, to note any changes required to the AIMSUN models. Table 6 shows the changes which have been updated to both the base year and future years models in order to reflect the existing design.

Table 6: Network changes to the base year model

Road network / Intersection	New
Murdoch Drive / Roe Hwy Connection	 Removal of Farrington Rd / Roe Hwy interchange Add roundabout to Bibra Lake Dr / Roe Hwy connection Removal of NB connection from Farrington Road to Murdoch Dr & adjusted SB connection Removal of Roe Hwy connection to Bibra Lake Dr
Roe Highway / Kwinana Freeway	Update to the overall design of the interchange
Armadale Rd / Nicholson Rd	Added Roundabout & Flyover lanes
Armadale Rd / Liddelow Rd	Converted Intersection to Roundabout
Russell Road / Hammond Road	Converted Intersection to Roundabout
Wattelup Road / Franklin Ave / Rowley Rd	Removal of some roads
Stock Rd / Beeliar Dr Intersection	Updated intersection lanes
Verde Dr	Change made to most road sections to 1 way
Verde Dr/Cutler Rd	Removal of road connection

2.6 Total trips and Sub-area matrices with network – MRWA

SMEC has requested MRWA (on behalf of City of Cockburn) to provide *Sub-Area matrices with network and Link-Volume plot* for base year 2021 and future years 2031 and 2041. The data has been received and imported into the base AIMSUN model received from Arup. The O-D matrices include current and future land use and development within the City. It was agreed between the City and SMEC that the ROM matrices for the base year 2021 be used by calibrating and validating it with Real Data Set (RDS) which are the 21 sites picked above. SMEC has used the default parameters for VDF, TPF and other parameters as per the received Arup Model basic calibration process in 2018. Therefore, SMEC will adjust the future year ROM24 matrices of 2031 and 2041 to the calibrated base year matrices for demand accuracy.

Here is the summary of the total trips based on the received data from ROM24.

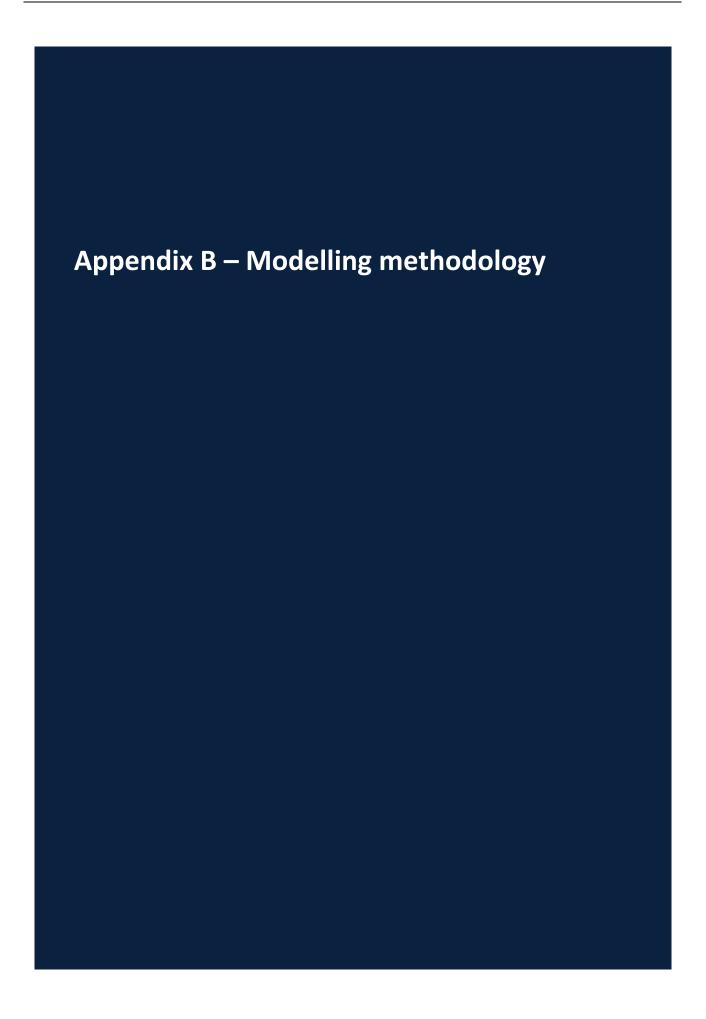

Table 7: Summary of ROM24 total trips

Year	Total Trips	% Growth compare to base year
2021	746148	
2031	938730	+26%
2041	1075258	+44%

Background study, input information and assumptions

Page 13 of 13

237 of 790

238 of 790

1. Introduction

This appendix provides information about the study purpose, modelling methodology, modelling assumptions and summary. AIMSUN is the traffic modelling software that is used to conduct this strategic modelling. The analysis is conducted for three forecast year scenarios: base year (2021), medium-term future year (2031), and long-term future year (2041). The outputs from this modelling study will assist in preparing an outline of priority road upgrade plans for the short-term, medium-term, and long-term.

2. Modelling Methodology

The Cockburn District Traffic Model (CDTM) was created as a strategic model to capture the extents of the City of Cockburn. To build the strategic model, a subarea network with matrices was requested to MRWA and extracted from the ROM24 model owned by Main Roads. Both networks and matrices were used and updated in Aimsun. The software enables the creation of both static and dynamic environment simulations and has an advantage of transferring from a strategic model to a microsimulation model for a more comprehensive analysis in the future if required. However, for this analysis, a static assignment method is used to get the results.

Modelling Parameters and Assumptions

Page 1 of 13

2.1 Study Area and Zoning System

Table 1 summarizes the comparison between the initial supplied ROM24 data, previous CDTM zones (updated in 2018) and the recently revised zones.

Table 1: Zone comparison between ROM24 and CDTM

Zone Set	2016	2021	2031	2041
Previous CDTM Internal Zones	60	60	60	
Previous CDTM External Zones	48	50	52	
Previous CDTM Total Zones	108	*110	*112	
Updated CDTM Internal Zones		76	76	76
Updated CDTM External Zones		35	37	37
Updated CDTM Total Zones		111	113	113
ROM24 Internal Zones		77	77	78
ROM24 External Zones		37	42	41
ROM24 Total Zones		114	119	119

The final CDTM contains one more zone than the ROM24, reflecting the City of Cockburn area. This minor increase has been made to improve forecast precision within the study area. The increase in CDTM external zones between 2021 and 2031 is due to the addition of external network connections as new corridors in and out of the City of Cockburn area were built after the previous study for 2021 and the future network for 2031.

The previous report missed out a zone each in the 2021 and the 2031 road network. This has been rectified.

Modelling Parameters and Assumptions

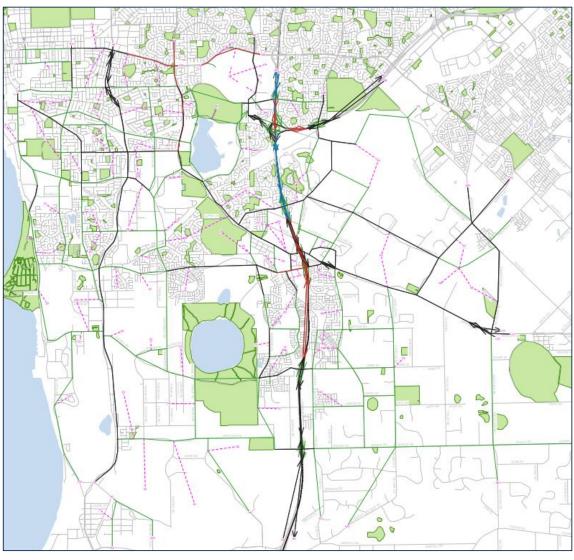

Fig.1 Cockburn ROM24 Sub-Area Zone System

Modelling Parameters and Assumptions

Page 3 of 13

Figure below illustrates the final zone scheme used for the base year model for the City of Cockburn District Study:

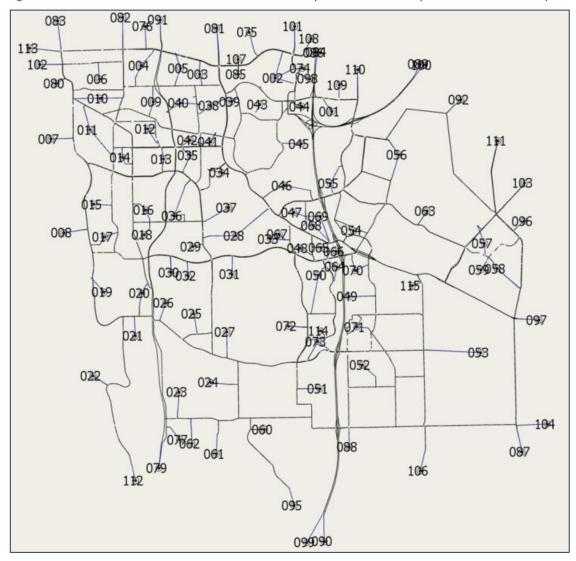

Figure 2: 2021 Modelled Aimsun zone layout

2.2 Review of CDTM

A review of the CDTM was undertaken to ensure that the base and future year models have been updated to accurately reflect the current and future year plans for the City of Cockburn. For details on these changes, please refer to the input technical memo.

2.3 Demand Matrix

The traffic demand matrices were generated from all-day sub-area matrices for all vehicle types from ROM24 for existing and future years. The 2021 matrix was used in conjunction with peak hour counts and matrix estimation to generate base 2021 AM and PM matrices.

	AM Light Vehicles	AM Heavy Vehicles	PM Light Vehicles	PM Heavy Vehicles
2021	117392	9930	128028	12244
2031	150809	14826	160641	18406
2041	187002	24776	197257	29468

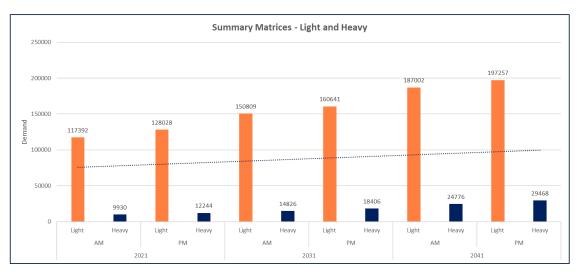

Fig.3 Summary Matrices – Light and Heavy vehicles for base and future years

The future years matrices were calculated using the estimated base year demand and the application of growth factors generated by pivoting on ROM future year matrices as shown in Figure.4 below.

Modelling Parameters and Assumptions

Page 5 of 13

Base (B)	Synthetic Base (S _b)	Synthetic Future (S _r)	Predicted (P)		Cell Type
0	0	0			1
0	0	>0	S		2

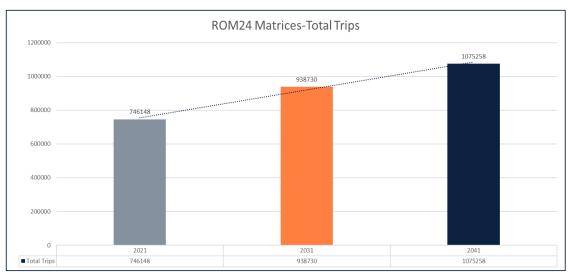

Figure 5: ROM24 Matrices - Total Trips for 2021, 2031, 2041

Modelling Parameters and Assumptions

Page 6 of 13

2.4 Time Period

The AM and PM peak periods were determined by analysing hourly volumes in the base year for all the 21 sites. A two-hour peak period was chosen for modelling purposes as shown below:

- AM peak (between 07:00-09:00)
- PM peak (between 15:00-17:00)

Throughout the report, modelling results for two-hour peaks are presented.

2.5 Mode Split

Matrices based on ROM24 have been developed to reflect the mode split and allow for the assessment of car/light and heavy vehicle network impacts. These rates were verified using traffic counts from the Main Roads Traffic Map and other information. If a more detailed traffic assessment is needed, the City may need to conduct some sensitivity testing on modal share factors to simulate greater non-car mode share; this is currently outside of the scope of this project.

2.6 Trip Assignment

To assign the initial demand, a static origin-destination matrix adjustment assignment was performed. This is identical to the trip assignment preformed in the previous study and is consistent with industry standards, allowing stable convergence to a consistent outcome.

The model network and initial matrices were extracted from ROM24, then the main parameters were imported into Aimsun. This enabled the City of Cockburn Model to be consistent with the Main Roads strategic model.

3. CDTM Model Review

The updated CDTM is a macroscopic Aimsun model derived from ROM24 demand matrices and verified against count data also called as Real data set (RDS). Based on the ROM24 matrices, mode share is divided into car/light and heavy vehicles and 'furnessed' to count data to accurately reflect the current situation. Furnessing is described as follows in the Main Roads Operational Modelling Guidelines:

"The Furness method of matrix updating is an iterative process to derive matrices that result in the best match to trip end count data. Trip end totals for each zone should be formed from external link survey data, internal link survey data and other filler zones with the values based on surveys, surrounding land use or the number of individual households. Within this, individual OD pairs should be fixed to known survey values or established during the calibration process."

Public Transport has not been included for this modelling study.

Below is a process of the base model redevelopment and the future model development

Guided Acceptance Level	100%	0%	100%	100%

Modelling Parameters and Assumptions

Page 8 of 13

3.2 Base Model – Calibration and Validation

To ensure that the model is suitable for purpose, a 2018 base year model was updated and calibrated with parameters using existing traffic count data located in Main Roads TrafficMap website to form the 2021 base year model.

Once the model is fully calibrated and validated, the model was used to predict future changes in traffic volumes caused by future road upgrades changes.

The 2021 CDTM model has been calibrated to the accepted standards at a daily level and satisfactory for peak times based on the available traffic data in Traffic Maps and correlation with the ROM24 data to observed daily traffic counts within the screenlines which falls within the City of Cockburn's study area.

Table 4 contains the desired industry standards taken from the NSW Road and Maritime Services Traffic Modelling Guidelines version 1 issued in 2013 and the Main Roads OMeGA guidelines for desirable values of link calibration and validation measures.

Table 4: Link Calibration and Validation measures (Source: Traffic Modelling Guidelines" Version 1, NSW Road and Maritime Services)

Link Calibration Measure	Desirable Value	
GEH < 5	85%	
Link Validation Measure	Desirable Value	

Additional measures, such as GEH, were included because they are needed for the Aimsun strategic modelling based on the Main Roads modelling guidelines.

3.2.1 Base model calibration – GEH statistic

The Roads and Maritime Services (RMS) guidelines stated that the model calibration criteria are built on a statistics formula known as GEH. RMS states:

"the formula is a form of Chi-square statistic that is designed to be tolerant of largest errors in low flows. The reason for introducing such a statistic is the inability of either the absolute difference or the relative difference to cope over a wide range of flows."

The GEH equation is as follows:

$$GEH = \sqrt{\frac{\left(V_{\text{o}} - \ V_{\text{m}}\right)^{\ 2}}{0.5\left(V_{\text{o}} + \ V_{\text{m}}\right)}} \quad \begin{array}{c} \text{Where:} \\ \text{V}_{\text{o}} \text{ is the observed flow in vehicles per hour} \\ \text{V}_{\text{m}} \text{ is the modelled flow in vehicles per hour} \end{array}$$

Figure 7: GEH Equation (Source: Roads and Maritime Services (RMS) guidelines)

According to RMS guidelines, the turn volume calibration is accomplished when "85% of individual turn volumes have a GEH 5.0".

Modelling Parameters and Assumptions

Page 9 of 13

3.2.2 Base model calibration – results

The calibration process was successful and met the requirement. It has demonstrated a good model performance when compared to observed flows. As shown in Table 5, all time periods were calibrated above the necessary 85% margin for all types of vehicles.

Table 5: GEH Results for light vehicles and heavy vehicles.

GEH Results	GEH Range	Car (Light Vehicle)	Truck (Heavy Vehicles)
	=<5	86%	86%
AM Peak Hour	5 to 10	14%	12%
	>10	0%	2%
	=<5	88%	86%
PM Peak Hour	5 to 10	10%	14%
	>10	2%	0%

3.2.3 Validation Plots – Peak periods

The scatter plot validates well against average peak period observed traffic volumes with parameters that satisfy industry acceptable standards. Figure 8 and Figure illustrate scatter plots of traffic count locations versus 2021 CDTM volumes to demonstrate model validation for the AM and PM peak time periods, respectively.

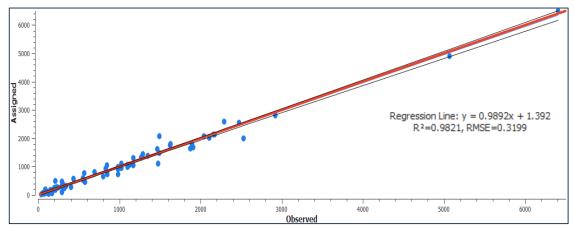

Figure 8: AM Peak period validation plot

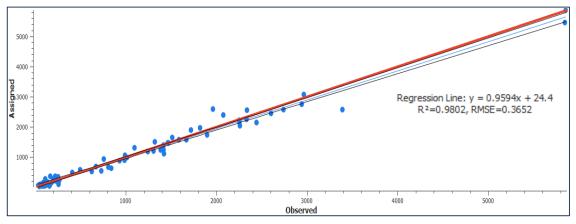

Figure 9: PM Peak period validation plot

Modelling Parameters and Assumptions

Page 10 of 13

The AM and PM peak periods validate efficiently to the guideline standards, indicating that the model is robust and suitable for purpose. As a result, both modelled peak periods are useful in understanding peak period traffic, operation, including directional bias, and traffic growth in congested conditions.

3.2.4 Model Convergence

The 2021 base model was run through 50 iterations to ensure proper convergence. The relative difference between the AM and PM peaks was 2.02% and 1.71%, respectively. When the relative gap is less than 5%, the model is deemed converged, and the results of both model calibrations indicate an acceptable model.

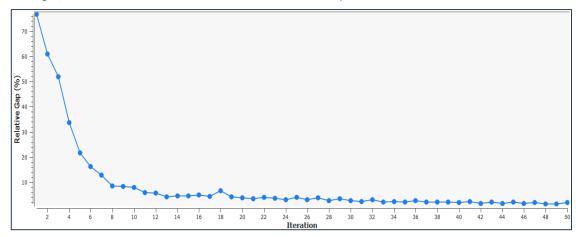

Fig.10 AM Peak Period convergence plot

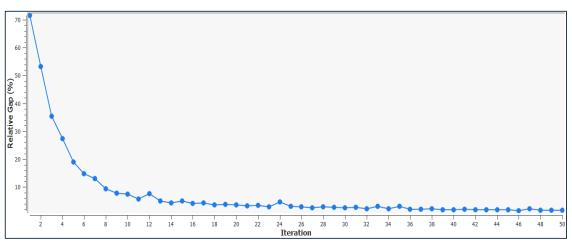

Fig.11 PM Peak Period convergence plot

3.2.5 Validation summary

From the review of the base year (2021) AM and PM peak hour traffic volumes for the 21 sites picked within the City of Cockburn boundary, the CDTM validates well and in accordance with the industry standards. While the GEH statistic was used to calibrate the model, a coefficient of determination (R^2) was used to validate the model and compare it with the industry acceptable standards. Both the coefficient of determination (R^2) values for the AM and PM peak are above 0.95. As it currently stands, the CDTM would appear to provide the best available tool to understand strategic transport flows on major roads within the City of Cockburn area. A summary of the level of validation for both AM and PM peak period is shown in the below table 6 and figures 8 and 9.

Modelling Parameters and Assumptions

Page 11 of 13

249 of 790

Link Validation Measure	Desirable Value	AM Peak	PM Peak
Coefficient of Determination (R²)	>0.90	0.98	0.98

Item 14.2.1 OCM 11/06/2024

14.2 Corporate and System Services

14.2.1 (2024/MINUTE NO 0108) Monthly Financial Report - April 2024

Executive A/Director Corporate and System Services

Author A/Head of Finance

Attachments 1. Financial Activity Statement April 2024 U

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

(1) ADOPTS the Monthly Financial Report containing the Statement of Financial Activity and other financial information for the month of April 2024, as attached to the Agenda.

CARRIED 10/0

Background

Local Government (Financial Management) Regulations 1996 prescribe that a Local Government is to prepare each month a Statement of Financial Activity.

Regulation 34(2) requires the Statement of Financial Activity to be accompanied by documents containing:

- Details of the composition of the closing net current assets (less restricted and committed assets)
- 2. Explanation for each material variance identified between year to date (YTD) budgets and actuals
- 3. Any other supporting information considered relevant by the Local Government.

Regulation 34(4)(a) prescribes that the Statement of Financial Activity and accompanying documents be presented to Council within two months after the end of the month to which the statement relates.

The regulations require the information reported in the statement to be shown either by nature or type, statutory program, or business unit.

The City has chosen to report the information according to nature or type and its organisational business structure.

Local Government (Financial Management) Regulations 1996 - Regulation 34 (5) states "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards, to be used in statements of financial activity for reporting material variances."

This regulation requires Council to annually set a materiality threshold for the purpose of disclosing budget variances within monthly financial reporting.

The materiality threshold has been set by Council at \$300,000 for the 2023-24 financial year (FY24).

251 of 790

Detailed analysis of budget variances is an ongoing exercise, with necessary budget amendments either submitted for Council approval through the Expenditure Review Committee or included in the City's mid-year budget review required by legislation.

Submission

N/A

Report

The attached Monthly Financial Report for April 2024 has been prepared in accordance with the Local Government Act and the associated Financial Management Regulations.

This was reviewed by management, with the following commentary addressing key financial results and the City's budgetary performance to the end of the month.

Statement of Financial Position

Due to amendments to the *Local Government (Financial Management) Regulations* 1996, Regulation 35 (1) requires the City to now include a Statement of Financial Position each month in the financial report.

This shows the City's financial position at the end of the month, compared to the end of the previous financial year. Net assets total \$1.824 billion at the end of the month (\$1.802 billion end of June), with the increase reflecting the impact of the City's year to date financial activities.

Opening Surplus

The audited opening surplus is \$9.79 million, and the amended budget now matches this following the mid-year budget review. The surplus includes \$8.76 million of municipal funding for the City's carry forward projects (adopted by Council in August 2023).

Closing Surplus

The City's YTD closing surplus to the end of March was \$46.45 million, compared to a YTD budget of \$32.74 million.

This represents a favourable variance of \$13.72 million, inclusive of variances across the FY24 operating and capital budgets reported in the following sections.

The full year surplus is currently budgeted at \$338,877, increased from Council's adopted budget surplus of \$262,844. This fluctuates throughout the year due to various budget amendments adopted by Council (e.g., Expenditure Review Committee recommendations).

252 of 790

Item 14.2.1 OCM 11/06/2024

Operating Revenue

Operating revenue of \$180.40 million was \$0.46 million ahead of YTD budget for April.

The following table summarises the operating revenue budget performance by nature:

Revenue from	Amer	nded	YTD	YTD
operating	Full Year	YTD	Actual	Variance
activities	Budget ¢	Budget ¢	\$	\$
Detec	40E 04E E44	40E 04E E44	Ŧ	Ψ
Rates	125,915,511	125,915,511	125,987,748	72,237
Specified Area Rates	601,000	601,000	604,036	3,036
Operating Grants, Subsidies, Contributions	10,100,986	7,901,427	7,981,219	79,792
Fees and Charges	41,629,878	35,250,879	36,531,141	1,280,262
Service charges	1,200,000	1,160,000	1,125,020	(34,980)
Interest Earnings	11,145,106	9,457,466	9,907,216	449,750
Fair value adjustments to financial assets	7,372	0	0	0
Profit/(Loss) Asset Sale	1,281,988	(340,419)	(1,735,458)	(1,395,039)
Total	191,881,841	179,945,864	180,400,922	455,058

Material variances identified in the City's operating revenue were identified as follows:

- Fees and charges (\$1.28 million over YTD budget):
 - Royalty income from 1712 Russell Road was more than YTD budget by \$0.33 million.
 - Landfill fees received was \$0.33 million more than YTD budget.
- Interest earnings (\$0.45 million over YTD budget). The City investment strategy has proven to be successful as the earnings have gone over YTD budget again.
- Loss on asset sale (\$1.40 million over YTD budget) as the City has written off some historical building assets at the Coogee Caravan Park belonging to the lessee, causing a \$1.74 million book loss (non-cash item).

253 of 790

Operating Expenditure

Operating expenditure to the end of April of \$155.20 million was under YTD budget by \$6.95 million.

The following table summarises the operating expenditure budget variance performance by nature:

	Ame	nded	YTD	YTD	
Expenditure from Operating Activities	Full Year YTD Budget Budget \$		Actual \$	Variance \$	
Employee costs	78,476,126	63,331,102	62,382,022	(949,080)	
Materials & Contracts	55,604,821	43,817,631	37,570,996	(6,246,635)	
Utility charges	6,472,033	5,188,998	5,058,372	(130,626)	
Depreciation/Amortisation	44,644,357	35,853,610	36,165,618	312,008	
Interest/Finance Costs	320,884	33,793	149,062	115,269	
Insurance expenses	2,647,970	2,647,970	2,529,546	(118,424)	
Other expenditure	13,594,902	11,271,664	11,341,248	69,584	
Total	201,761,093	162,144,768	155,196,864	(6,947,904)	

Significant variances identified in the City's operating expenditure were identified as follows:

- Employee Costs (\$0.95 million under YTD budget):
 - Employee costs across the City are generally under budget due to underspending of \$0.65 million in training, conferences and professional development activities.
- Materials and contracts were \$6.25 million under YTD budget:
 - Waste Services Business Unit had an underspend of \$0.92 million against its YTD budget mainly due to the underspend in Entry Fee for Recyclables \$0.29 million and Off-Site Processing of Green Waste \$0.55 million.
 - General underspend within the Environmental Initiatives operational projects under Environmental Management, Policy and Planning Service Unit, \$0.35 million behind its YTD budget.
 - General underspend across the Community Development & Services (\$1.11 million), with Cockburn Care having the highest underspend of \$0.42 million against its YTD budget.
 - General underspend across the Property Services Service Unit, mainly in its Land Administration operational projects \$0.36 million.
 - Expenditure across all Cockburn ARC's activities were \$0.53 million under YTD budget.
 - Underspend within the COSAFE operational projects as majority of them have not started yet, \$0.37 million.
 - Office of the CEO Business Unit had \$0.52 million underspend against its
 YTD budget due to minimal spending within its discretionary
 - o project budget.

Item 14.2.1 OCM 11/06/2024

Capital Expenditure

Council adopted a capital works program of \$43.87 million in the FY24 annual budget, that is now \$75.65 million following the addition of carry forwards adopted by Council in August and reductions included in the mid-year budget review.

The City has spent \$25.29 million on its capital program to the end of April, representing an underspend of \$4.70 million against YTD budget. A further \$38.49 million has been committed through contract to be spent within this year and into next financial year.

The following table shows the budget performance by asset class:

	Ame	nded		
Capital Acquisitions		YTD	YTD	YTD
Capital Acquisitions	Budget	Budget	Actual	Variance
	\$	•	\$	\$
Buildings	19,714,139	7,484,811	5,880,117	(1,604,694)
Furniture & Equipment	1,085,000	315,000	267,352	(47,648)
Plant and Equipment	15,092,811	3,404,121	2,608,782	(795,339)
Information Technology	4,801,803	1,526,586	1,123,565	(403,021)
Infrastructure - Roads	10,069,797	6,056,253	5,615,987	(440,266)
Infrastructure - Drainage	6,556,569	1,459,031	1,144,095	(314,936)
Infrastructure - Footpath	2,122,392	1,534,407	1,189,232	(345,175)
Infrastructure - Parks hard	6,360,116	4,233,169	3,741,368	(491,801)
Infrastructure - Landscaping	1,257,799	925,320	992,907	67,587
Infrastructure - Landfill site	5,087,265	2,219,220	2,097,150	(122,070)
Infrastructure - Marina	1,452,102	464,015	399,404	(64,611)
Infrastructure - Coastal	2,050,873	360,111	226,939	(133,172)
Total	75,650,666	29,982,044	25,286,898	(4,695,146)

- Buildings were \$1.60 million under YTD budget mainly due to general underspend in all minor building improvements projects \$1.12 million under YTD budget.
- Plant and Equipment purchases were \$0.80 million under YTD mainly due to long lead time in securing stock.
- Parks hard infrastructure was \$0.49 million behind YTD budget, mainly due to minimal spending in Construction of Parks, \$0.34 million underspent.

Non-Operating Grants, Subsidies and Contributions

The City's budget for capital grants and contributions is a net \$4.83 million. This includes \$6.84 million in funding to be received, less outgoing contributions of \$2.02 million for the underground power project in South Lake (Western Power).

Non-operating revenue of \$2.76 million was recognised to the end of April, \$0.05 million over YTD budget (timing issue).

255 of 790

Financial Reserves

A detailed schedule of the City's financial reserves is included in the financial report, showing a balance of \$212.74 million held at the end of April (\$213.78 million in March).

Council funded reserves made up \$179.12 million of the balance, \$13.31 million for restricted and legislated purposes, and another \$20.31 million for developer contribution plans.

Transfers in and out of financial reserves are made in accordance with budgetary requirements.

Cash and Financial Assets

The City's closing cash and financial assets investment holding at month's end totalled \$258.33 million (down from \$264.53 million in March).

This balance included financial assets (term deposits and investments) of \$256.29 million, and cash and cash equivalent holdings (cash at bank and at call deposits) of \$2.04 million.

\$213.53 million of these funds were internally and externally restricted, representing the City's financial reserves and liability for bonds and deposits held.

The remaining \$44.80 million represented unrestricted municipal funds for the City's operating activities and liabilities.

Investment Performance, Ratings and Maturity

The City's term deposit portfolio running yield was an annualised 5.07 percent as of 30 April (5.05 percent in March).

RBA announced no increases to the cash rate in April again. As a result, the City's portfolio running yield has again outperformed the KPI target rate of 4.85 percent (cash rate of 4.35 percent plus 0.50 percent performance margin).

New investments placed during the month were at rates ranging between 5.05 and 5.16 percent for the duration of longer than 12 months period.

Current term deposit investments are fully compliant with Council's Investment Policy requirements, as indicated below:

Investment Policy Compliance							
Legislative Requirements	✓	Fully compliant					
Portfolio Credit Rating Limit	✓	Fully compliant					
Institutional Exposure Limits	✓	Fully compliant					
Term to Maturity Limits	✓	Fully compliant					

The portfolio also includes several reverse mortgage securities purchased under previous policy and statutory provisions.

Item 14.2.1 OCM 11/06/2024

These have a face value of \$2.364 million and market value of \$1.53 million, although the City currently carries them at a book value of \$0.79 million (net of a \$1.575 million impairment provision made several years ago).

The City continues receiving interest and capital payments, with \$0.636 million returned to date of the original \$3.0 million invested.

The City's investments were held with the following financial institutions as at 30 April (inclusive of accrued interest):

Issuer	Market Value	% Total Value
AMP Bank Ltd	15,018,293.24	5.84%
Auswide Bank Limited	1,539,102.74	0.60%
Bank of Queensland Ltd	24,690,643.85	9.60%
Commonwealth Bank of Australia Ltd	71,786,503.76	27.91%
Credit Union Australia Ltd t/as Great Southern Bank	19,522,322.69	7.59%
Defence Bank Ltd	10,490,931.50	4.08%
Emerald Reverse Mortgage Trust	1,526,876.03	0.59%
Heritage and People's Choice Limited t/as People's Choice Credit Union	5,728,415.07	2.23%
ING Bank Australia Limited	63,607,946.14	24.73%
Macquarie Bank Ltd	0.01	0.00%
National Australia Bank Ltd	18,934,976.59	7.36%
Suncorp-Metway Ltd	21,327,669.32	8.29%
Westpac Banking Corporation Ltd	3,002,354.79	1.17%
Portfolio Total	257,176,035.70	100.00%

The City's short-term deposits (less than 12 months) made up 68.61 percent (\$176.50 million) of the City's portfolio, compared to 71.69 percent (\$189.50 million) in March.

257 of 790

These were classified under the following credit ratings:

Market Value by Security Rating Group (Short Term)

Deposits invested between 1 and 3 years made up 31.39 percent (\$80.72 million) of the City's portfolio, compared to 28.31 percent (\$74.85 million) in March.

These were classified under following credit ratings:

Market Value by Security Rating Group (Long Term)

Investment in Fossil Fuel Free Banks

At month end, the City held \$61.36 million (24.50 percent) of its investment portfolio with banks considered non-funders of fossil fuel related industries (\$75.36 million or 29.20 percent last month).

The amount invested with fossil fuel free banks fluctuates depending on the competitiveness of deposit rates being offered and the capacity of fossil fuel free banks to accept funds.

The City preferences fossil fuel free investments (given a similar deposit rate) in accordance with Council's Investment of Funds Policy.

Item 14.2.1 OCM 11/06/2024

Rates Debt Recovery

The collectible rates and charges for 2023-24 (comprising arrears, annual levies, and part year rating) totals \$151.40 million.

To the end of April, the City had collected \$142.59 million (94.18 percent), leaving a balance outstanding of \$8.81 million (5.82 percent). Prepayment of rates totalling \$1.84 million has also been received and will be applied to future year's rates accounts.

This year, underground power charges totalling \$3.077 million were raised against affected properties in South Lake, able to be paid either in full or over a ten-year payment plan.

To the end of April, the City had received full payment from 29.8 percent of these properties, exceeding conservative estimates for 10 percent.

The City is forecasting to collect approximately 40 percent of total charges in year one, with the balance to be collected over the remaining nine years of the payment plan.

In terms of overdue and delinquent rates accounts under formal or legal debt recovery processes, the City had 275 properties owing a total of \$1.07 million in combined rates and legal fees (331 properties or \$1.30 million in March).

These now include those properties that have fallen into arrears with their current year's rates and have not made any arrangements with the City.

Formal debt recovery activities are commenced when ratepayers have overdue rates and have not committed to instalment or other payment arrangements or sought relief under the City's Financial Hardship Policy.

Trade and Sundry Debtors

The City had \$3.27 million in outstanding trade and sundry debtors to the end of February (\$3.02 million in March).

Those debts overdue by more than 90 days made up \$241k or 7.37 percent of total debts outstanding (\$217k or 7.20 percent in March).

The 90-day debtors included lease monies owed by naval base tenants totalling \$93k, landfill commercial debtors owing \$75k and another \$20k in Cockburn Care arrears being actively managed.

Strategic Plans/Policy Implications

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Budget amendments are initially referred to Council's Expenditure Review Committee for recommendation to Council. Changes adopted by Council at its December meeting have been included in this monthly financial report.

Council's adopted budget surplus for FY24 of \$262,844 has since increased to \$338,877 due to Council decisions made to the end of April 2024.

These budget surplus changes are listed at Note 8 in the financial report.

EY TERMS AND DESCRIPTIONS OR THE PERIOD ENDED 30 APRIL 2024

EVENUE

ATES

I rates levied under the *Local Government Act 1995*. Includes neral, differential, specified area rates, minimum rates, terim rates, back rates, ex-gratia rates, less discounts and notessions offered. Exclude administration fees, interest on stalments, interest on arrears, service charges and werage rates.

PERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

efers to all amounts received as grants, subsidies and intributions that are not non-operating grants.

ON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

nounts received specifically for the acquisition, construction new or the upgrading of identifiable non financial assets paid to a cal government, irrespective of whether these amounts are ceived as capital grants, subsidies, contributions or donations.

EVENUE FROM CONTRACTS WITH CUSTOMERS

evenue from contracts with customers is recognised when the cal government satisfies its performance obligations under the intract.

ES AND CHARGES

evenues (other than service charges) from the use of facilities id charges made for local government services, sewerage tes, rentals, hire charges, fee for service, photocopying arges, licences, sale of goods or information, fines, penalties id administration fees. Local governments may wish to disclose ore detail such as rubbish collection fees, rental of property, les and penalties, other fees and charges.

RVICE CHARGES

rvice charges imposed under Division 6 of Part 6 of the Local overnment Act 1995. Regulation 54 of the Local Government inancial Management) Regulations 1996 identifies these as levision and radio broadcasting, underground electricity and eighbourhood surveillance services. Exclude rubbish removal arges. Interest and other items of a similar nature received om bank and investment accounts, interest on rate instalments, terest on rate arrears and interest on debtors.

TEREST EARNINGS

terest and other items of a similar nature received from bank id investment accounts, interest on rate instalments, interest is rate arrears and interest on debtors.

THER REVENUE / INCOME

ther revenue, which can not be classified under the above adings, includes dividends, discounts, rebates etc.

ROFIT ON ASSET DISPOSAL

cess of assets received over the net book value for assets on their sposal.

NATURE OR TYPE DESCRIPTIONS

EXPENSES

EMPLOYEE COSTS

All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL

Shortfall between the value of assets received over the net book value for assets on their disposal.

DEPRECIATION ON NON-CURRENT ASSETS

Depreciation expense raised on all classes of assets.

INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE

Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

265 of 790

MONTHLY FINANCIAL REPORT FOR THE PERIOD ENDED 30 APRIL 2024

BASIS OF PREPARATION

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local* Government (Financial Management) Regulations 1996, Regulation 34. Note: The statements and accompanying notes are prepared based on all transactions recorded at he time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the Local Government Act 1995 and accompanying regulations.

The Local Government (Financial Management) Regulations 1996 take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as and under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, ncluding land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not n accordance with the requirements of AASB 1051 Land Inder Roads paragraph 15 and AASB 116 Property, Plant and Equipment paragraph 7.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and ate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 30 April 2024

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

268 of 790

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY FOR THE PERIOD ENDED 30 APRIL 2024

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

EY INFORMATION

ash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments *i*th original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank verdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

he local government classifies financial assets at amortised cost if both of the following criteria are met: the asset is held within a business model whose objective is to collect the contractual cashflows, and the contractual terms give rise to cash flows that are solely payments of principal and interest.

inancial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

GNIFICANT ACCOUNTING POLICIES

I assets are initially recognised at cost. Cost is determined as the ir value of the assets given as consideration plus costs incidental to e acquisition. For assets acquired at no cost or for nominal insideration, cost is determined as fair value at the date of equisition. The cost of non-current assets constructed by the local exernment includes the cost of all materials used in the construction, rect labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular is such that the carrying values are not materially different from ir value. Assets carried at fair value are to be revalued with infficient regularity to ensure the carrying amount does not differ aterially from that determined using fair value at reporting date.

Il debenture repayments were financed by general purpose revenue.

EY INFORMATION

Il loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing ans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are cluded as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

Item 14.2.2 OCM 11/06/2024

14.2.2 (2024/MINUTE NO 0109) Payments Made from Municipal Fund and Local Procurement Summary - April 2024

Executive A/Director Corporate and System Services

Author A/Head of Finance

Attachments 1. Payment Listing April 2024 J.

2. Purchase Cards Transactions Report April 2024 U

3. BP Fuel Cards April 2024 U

4. Credit Card Transactions Report March 2024 U

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

- (1) RECEIVES the list of payments from the Municipal Fund during the month of April 2024, as attached to the Agenda; and
- (2) RECEIVES the list of transactions made from purchase cards during the month of April 2024, as attached to the Agenda.

CARRIED 10/0

Background

Council has delegated its power to make payments from the Municipal or Trust Fund to the Chief Executive Officer and other sub-delegates under Delegated Authority 'Local Government Act 1995 - Payment from Municipal and Trust Funds'.

Regulation 13 (1) of the Local Government (Financial Management) Regulations 1996 requires a list of accounts paid under this delegation to be prepared and presented to Council each month.

A new Regulation 13A under the Local Government (Financial Management) Regulations has come into effect on 1 September 2023, requiring a list of payments to be prepared and presented to Council each month for those made by employees using credit, debit, or other purchasing cards.

It should be noted the City has already been reporting in this format since July 2022, following a Council decision at that time to introduce detailed credit card expenditure reporting.

Submission

N/A

Report

Payments made under delegation during the month of April totalled \$15.85 million, and a listing of these is attached to the agenda for review by Council.

I	279 of 790

OCM 11/06/2024 Item 14.2.2

280 of 790

Item 14.2.2 OCM 11/06/2024

These comprise:

- EFT payments (suppliers, sundry creditors) \$11.81 million (831 payments)
- Cancelled EFT payments \$96
- Payroll payments \$3.92 million (2 fortnights)
- Corporate credit cards total of \$110k (74 cards used)
- Bank transactional fees (BPay and merchant fees) \$7,543.

The City has several payment runs each month to ensure its trade suppliers are paid on a timely basis, particularly local and small businesses.

Also attached is the monthly credit card payments report, showing March transactions (paid in April) grouped by cardholder position. There was 1 transaction made on the CEO's credit card for \$26.32.

The following table summarises all purchases made by corporate credit cards for the month of March, representing 0.70% of the City's monthly expenditure spend:

Description	Amount	Major items
Supplies and Materials		Library books, ladder, work boots, street
Purchases	29,185.35	light design fee
Events and Functions		Seniors' Centre outings, Seniors Sioree
	13,571.68	Under the Stars
Training & Professional		First aid training, IAP2 course, University
Development	11,819.46	fees
Advertising		Facebook ads, Coogee Live ads
	9,569.84	
Conferences and		NGAA registration, AMDA Conference,
Seminars	8,824.34	NGAA flight, Finance Professional
		Conference
Travel and		NGAA flights, PIA flights, Marinas24 flights
Accommodation	8,513.96	
Subscriptions and		Library marketing platform, ARC member
Memberships	7,669.15	retention software, Chamber Arts and
		Culture subscription
Equipment Purchases		ARC poster stands, tablet charger, battery
	5,502.07	chargers
Application, Licence,		Court transcript, Working with Children
Registration Fees	3,066.39	Check, Water Playground software licence
Meeting/Workshop		Sparkling water for council meetings, Wise
Catering	2,634.35	Women workshop, Library events
Program Costs		Blissco program food, client training,

Office Supplies		Stationery for Rangers, IWD event,
	2,153.66	Mentimeter
Professional Services		Library indoor plants, snorkel training, face
	1,721.93	painter
Bank and Other Fees		Bank fees
	1,626.46	

281 of 790

OCM 11/06/2024 Item 14.2.2

Description	Amount	Major items
Motor Vehicle		Aircon filter assembly, fuel, windscreen
Expenses	1,011.89	seal replacement
Hire of Equipment and		SpacetoCo, library indoor plants
Facilities	929.50	
Parking Expenses	341.23	Parking
Disputed Charges	7.01	Refunded transactions
Grand Total	110,421.14	

The Department of Local Government, Sport and Cultural Industries has provided guidance on the types of purchase cards to be included in monthly reporting to Council, being those using an approved line of credit. These include the following:

- business or corporate credit cards
- debit cards
- store cards
- fuel cards
- taxi cards.

The City has reviewed its purchase cards held across the City and identified the following usage for April 2024:

- Woolworths Group 6 cards totalling \$4,040
- Bunnings PowerPass 16 cards totalling \$3,899
- BP Plus fuel card 91 cards totalling \$26,943.

Local Procurement

Monthly statistics on local and regional procurement spend are summarised below, showing the spend amounts and percentages against total spend:

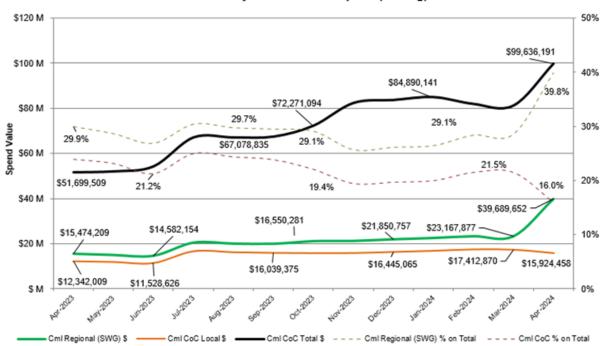

2024	April		ary & Trends	Buy Summa	t Report - Local B	Procuremen
82.1%	Local/Regional \$	2.3%	CoC Local \$	\$18,649,444	Local/Regional Spend	Monthly
41.5%	Local/Regional %	34.6%	CoC Local %	\$532,786	CoC Local Spend	Statistics
\$133,161	Committed spend YTD	59	Orders raised	17	Suppliers used YTD	Aboriginal Engagement

In April, local spending within Cockburn made up 2.30 percent of the City's monthly spend, comprising 34.60 percent of all procurement transactions made for the month.

Within the Perth South West Metropolitan Alliance (PSWMA) region, this increased to 82.10 percent of monthly spend from 41.50 percent of transactions.

Item 14.2.2 OCM 11/06/2024

The following one year rolling chart to April 2024 tracks the City's procurement spend with businesses located within Cockburn and the PSWMA.

Local Economy - Procurement Spend (Rolling)

The 12-month rolling local Cockburn spend was \$15.92 million, representing 16.00 percent of the City's total spend, with \$39.69 million or 39.80 percent of total spend within the PSWMA.

These results track the City's performance in achieving Council's "local and regional economy" and the "social" principle contained within its Procurement Policy (i.e. a buy local procurement preference).

Social Procurement

To the end of April, the City had engaged seventeen (17) aboriginal businesses, with a total YTD spend of \$133,161 (16 businesses and \$109,784 in March).

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Thriving local commercial centres, local businesses and tourism industry.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

283 of 790

OCM 11/06/2024 Item 14.2.2

Budget/Financial Implications

All payments made have been provided for within the City's Annual Budget, as adopted and amended by Council.

Legal Implications

This item ensures compliance with s6.10(d) of the Local Government Act 1995 and Regulations 12, 13, and 13A of the *Local Government (Financial Management)* Regulations 1996.

Community Consultation

N/A

Risk Management Implications

Council is receiving the list of payments already made by the City under delegation in meeting its contractual obligations.

This is a statutory requirement and allows Council to review and clarify any payment that has been made.

Advice to Proponent(s)/Submitters

Officer Recommendation

That Council:

- (1) ENDORSES the CEO finalising the lease agreement for the Naval Base Shack site ('Shacks') including the below essential terms, subject to advertising in accordance with section 3.58 of the *Local Government Act 1995* (as required):
 - 1. Five-year term commencing as soon as practical;
 - 2. Further five-year term;
 - 3. Lease fee of \$3,250 per annum to be increased by CPI annually:
 - 4. Demolition Levy of \$330 per annum to be increased by CPI annually;
 - 5. Conditions outlined within the body of this Report which include:
 - (a) Compliance with local laws;
 - (b) No approval of portable toilets;
 - (c) Water usage in line with Water Services Act 2012 (WA);
 - (d) Persistent breach; and
 - 6. Subject to the consent of the Minister for Lands;
- (2) ENDORSES the attached Management Plan for Reserve 24308 for the management of the Reserve for the next 10 years, as outlined in this Report; and
- (3) APPROVES the removal of the public toilets from Reserve 24308, and the installation of swipe access for the Naval Base Shack Lessee's only.

354 of 790	

Item 14.3.1 OCM 11/06/2024

Council Decision

MOVED Cr P Corke SECONDED Cr K Allen That Council:

(1) ENDORSES the Chief Executive Officer finalising the lease agreement for the Naval Base Shack site ('Shacks') including the below essential terms, subject to advertising in accordance with section 3.58 of the Local Government Act 1995 (as required):

- 1. Five-year term commencing as soon as practical;
- 2. Further five-year term:
- 3. Lease fee of \$2,900 per annum for the first year of the lease, to be increased to \$3,100 per annum for the second year, \$3250 per annum for the third year, and then by CPI annually;
- 4. Demolition Levy of \$200 per annum to be increased by CPI annually;
- 5. Conditions outlined within the body of this Report which include:
 - (a) Compliance with local laws;
 - (b) No approval of portable toilets;
 - (c) Water usage in line with Water Services Act 2012 (WA);
 - (d) Persistent breach; and
- 6. Subject to the consent of the Minister for Lands;
- (2) ENDORSES the attached Management Plan for Reserve 24308 for the management of the Reserve for the next 10 years, as outlined in this Report;
- (3) APPROVES the removal of the public access to the toilets from Reserve 24308, and the installation of swipe access for the Naval Base Shack Lessee's only.

CARRIED 8/2

For: Mayor L Howlett, Deputy Mayor C Stone, Cr P Eva, Cr T Widenbar, Cr C

Reeve-Fowkes, Cr C Zhang, Cr K Allen, Cr P Corke

Against: Cr T Dewan, Cr M Separovich

Reason

The Shacks must be self-sustaining as it would be highly inequitable for Cockburn ratepayers to be subsidising holiday accommodation for the few. It is understood that rent has not increased since 2016, and that this increase is well overdue, but the proposed rent of \$3,250 is a significant increase.

The proposed commencing lease fee is at the lower end of the independent valuation provided to us in 2023; however, with the staged increases over the subsequent years, it will allow both the improved OpEx and middle ground CapEx costs to be met whilst enabling a healthy reserve fund balance at the end of the lease period.

Officer Comment

This alternate motion does not impact the proposed Lease Agreement in any adverse way.

	355 of 790

OCM 11/06/2024 Item 14.3.1

Background

Council has received the following updates on the Naval Base Shacks:

- Monthly Management Reports from March 2022 April 2023
- 2. HUB Notifications 20 March 2023; 8 January 2024
- 3. Elected Member Strategic Briefing Forums 26 May 2022; 20 April 2023 (follow up meetings with Cr Widenbar and Cr Corke, who were apologies); 14 March 2024 (Capital and Operational Expense Findings)
- 4. Public Meeting on 10 April 2024

At the 10 May 2012 Ordinary Council Meeting, Council endorsed:

- 1. A proposed new leasing framework for the management of Reserve 24308 and the shack sites therein ('Shacks'); and
- 2. The development of a 10 year Management Plan for the Shacks, which included the following components:
 - 1. The lease assignment process;
 - 2. Internal office procedure;
 - 3. Emergency management procedures;
 - 4. Site maps;
 - 5. Facility management information;
 - Detailed planning for infrastructure upgrades, including financial planning to ensure infrastructure upgrade costs are met through the lease fee and associated reserve funds.

The above frameworks were developed collaboratively via the Naval Base Shacks Community Reference Group ('NBSCRG') and public advertising.

At the 13 June 2017 Ordinary Council Meeting, Council consented to a further term of five years for the leases at the Shacks on the same terms and conditions, commencing 1 September 2017 and expiring 31 August 2022.

Since the expiration of the lease on 31 August 2022, the site has been operating under a holding over provision until a new lease agreement was finalised.

A proposed lease agreement was presented to Council at the 11 May 2023 Ordinary Council Meeting. An alternative recommendation was adopted, which required investigation into the capital and operational expenses at the site, with a view of having these costings inform a lease fee as opposed to a market valuation.

A public meeting was hosted by the City on 10 May 2024 to deliver these findings to Elected Members, City Officers and the Lessees.

The new lease agreement for the Shacks ('lease') and an updated Management Plan were developed with reference to the previous 12 years of administering the site, with feedback collated via public advertisement with consideration of ad hoc stakeholder feedback that has been communicated throughout the course of the lease period.

356 of 790	

Item 14.3.1 OCM 11/06/2024

There have been lessons learned over the initial lease term, and the City is seeking to include additional clauses in the otherwise effective lease agreement to address identified issues with the management of the Shacks.

The Shacks continue to operate according to the endorsed Management Plan and holding over lease and are a well-utilised and enjoyed asset with a long standing and passionate user group.

Submission

The proposed lease agreement and management plan are intended to ensure the future management of the Shacks, and to support the City's administration of Shack structures and associated infrastructure.

This report seeks to clarify the existing lease and funding conditions, as well as the rationale for the outlined additional leasing terms that have been added to ensure adequate management of the Shacks for the new lease term.

Report

Background

Reserve 24308 is owned by the Crown (Department of Planning, Lands and Heritage) and managed by the City of Cockburn pursuant to a Management Order for the purposes of 'Recreation and Camping' with the power to lease for a period of 21 years.

The Shacks are comprised of 173 individual shack structures, built in a relatively similar, modest design of lightweight material. They are a good example of the holiday camps that used to exist along the Western Australian coastline. The Naval Base Shacks are the only shacks in existence within the Perth Metropolitan Region.

The social value for the families holidaying at the location since the 1930s contributes to the importance of the site, which is highly prized by the community who access it. The coastal amenity is also enjoyed by the public.

According to the postal addresses registered with the City, 41 of the 173 Lessees are City of Cockburn property owners. This equates to 24% of the user group at the Shacks.

Three (3) lease agreements have been terminated and these shacks will be demolished in accordance with the terms of the lease agreement. 170 lease agreements are being pursued, with City Officers intending to finalise with the stakeholders after Council endorsement and Minister for Lands consent is obtained.

This is contingent on stakeholders having no arrears, providing their insurance documents and otherwise complying with the terms of their lease agreement.

OCM 11/06/2024 Item 14.3.1

Westport

There are many complexities to the management of the Shacks, with uncertainty having clouded the second term (2017-2022) due to the State Government's Westport Outer Harbor Project, and the unknown implications that this may have had on the future of the site.

The City received clarification from the General Manager Planning, Westport Office in March 2022 regarding the potential interface between Westport and the Naval Base Shacks, noting that it "seems unlikely that there would be substantial impacts on or implications associated with Westport...Westport therefore has no objects to the lease renewal's although note...advice below regarding engaging with the Department of Planning, Lands and Heritage Use Management division to discuss lease arrangements."

Subsequent discussions with the Department of Planning, Lands and Heritage ('DPLH's) Land Use Management Division indicated that "based on current planning and given the likely separation from the proposed port terminal and operations, it appears unlikely that there would be substantial impacts on, or implications associated with the proposed lease on Westport. As such we would have no issues with the proposed…lease."

Pursuant to the requirements outlined in section 18 of the *Land Administration Act*, the Minister for Land's consent is required to enter into a lease agreement for Reserve 24308 – the proposed lease is subject to this consent being obtained and the City is not able to warrant that such consent will occur, despite the above communications with Westport and DPLH.

Communications

In collaboration with the City's Corporate Communications team, and in line with the City's Corporate Communications Plan for the Naval Base Shack lease, the City undertook the below communications with Naval Base Shack Lessees regarding the new lease.

August 2022	Letter to lessees in arrears and/or in breach of their lease
	obligations to allow them time to rectify their outstanding
	compliance issues.
November	City's website updated with a proposed timeline for the new
2022	lease, which was updated with changes periodically
December	City contacted lessees via a combination of email, phone and
2022 –	post to follow up outstanding breaches of lease obligations, the
February 2023	majority of which related to lease fee arrears and/or a failure to
	provide public liability insurance documents.
February 2023	A final notice letter was sent to lessees who had not provided
	insurance documents, with a deadline of 7 March 2023 to
	provide these documents
14 March	A letter was sent to lessees who had adhered to the 7 March
2023	2023 deadline, outlining the details of the proposed new lease

358 of 790	

Item 14.3.1 OCM 11/06/2024

	terms and a summary of the next steps in the leasing process. Termination letters were sent to lessees who had failed to satisfy their leasing obligations, allowing for a further extension of the deadline until 28 March 2023.
March 2023	Given the large number of lessees who had failed to undertake their obligations under the lease, the City progressed with advertising for the 145 lessees who were compliant.
4 April 2023	A second round of letters was sent to 19 lessees who had missed the first round of advertising due to not satisfying their obligations under the lease, but who had rectified this prior to the extension deadline of 28 March 2023.
	The intention was to ensure that as many lessees as possible were able to be offered a new lease, with best practice dictating the City terminate lease agreements where the lessees continue to fail to satisfy their lease obligations.
11 May 2023	City Officers presented proposed lease agreement to Council.
	Council provided alternative recommendation which deferred the adoption of the new lease until an investigation was undertaken regarding the operational and capital expenses at the site, and how this would inform a proposed lease fee.
June 2023 –	Feedback sought from all lessees, with a request to have
August 2023	information provided by 22 June 2023. This information was then collated and the City worked on refining/defining idea scope based on the feedback provided for Shack Owners.
August 2023 – September 2023	City Officers commenced procurement for outside contractor for refining project scope for capital works expenditure
15 September 2023	Summary of initial feedback provided to stakeholders
October 2023 - November 2023	Completed Operational Expenditure collation
November 2023 – December	Architect/Quantitative Surveyor engaged to provide expert advice on proposed capital works projects and costing.
2023	Undertook site visit with contractor and City Officers 5 December 2023.
10 April 2024	City Officers hosted a public meeting to deliver the findings collated that relate to the operational and capital works expenditure to capture projected costs for formulation of lease fee.
12 May 2024	City Officers met with the Naval Base Holiday Association to receive their submission and outline the process following the Public Meeting.

OCM 11/06/2024 Item 14.3.1

The City has endeavoured to keep all Shack lessees appraised of the timeline and steps involved in developing a new lease, with a Frequently Asked Questions page maintained on the City's website; and both a timeline and information regarding the steps of the leasing process available on the website.

The City cannot justify the resources required to write, email and call each of the 173 lessees multiple times to reiterate their requirements under the lease.

It is important to that the Shacks have hold a strong emotional connection for many of the lessees, and a more involved communication strategy may need to be investigated in the future to ensure that all lessees are comfortable with the process.

Lessees are required to perform their lease obligations. While the City plays a supportive role in explaining these obligations, it is up to each individual lessee to maintain a compliant Shack profile with the City.

This includes ensuring that their contact details remain up to date. Delays have been caused throughout the lease renewal process where Naval Base Shack lessees have not maintained their contact information with the City, and postal correspondence was sent to outdated addresses. Similar issues have arisen with email and phone data.

Proposed Lease Terms and Rationale

A draft copy of the proposed new lease has been annexed to this report (refer Attachment 1).

The new lease agreement is based on the existing lease, with the below inclusions:

(1) Comply with local laws

The lessee must comply with all Local Laws on the leased area and common areas. A failure to comply with these local laws will be a breach of the lease conditions and actioned accordingly.

(2) Portable toilets

No portable toilets will be approved on the leased area and all portable toilets located on the leased areas must be removed. No dumping facilities for portable toilets exist on site, and the City is unable to install a dumping point due to the site's location and the potential sub-surface archaeological value at the site. There have been incidents of inappropriate dumping of portable toilet contents on site, resulting in portable toilets no longer being approved. Ablution facilities are available and cleaned twice daily.

(3) Water usage on site (sprinkler usage, hose connections)

Sprinklers will only be permitted to be used within the hours and days specified by the Water Corporation. The lessees must repair any leaking hose fitting connections, and the City has the right to repair and recover costs if the lessee does not repair within seven days of notice of repairs being required.

360 of 790	

Item 14.3.1 OCM 11/06/2024

The lease allows for temporary connections between the Shacks and the communal external water connections, with the expectation that the hose is disconnected when not in use.

This does not permit underground plumbing or piping to the water sources, as the spiderweb of underground connections makes leak detection difficult and costly. Water connections must be above ground, similar to a caravan park where a hose is used to temporarily connect to the water source and removed when not in operation to allow neighbouring stakeholders to use the amenities. 'Caravan connection' is defined in the new lease agreement.

The Naval Base Shacks have the highest water consumption of all the sites under the City's management, second only to the Cockburn ARC. From January 2023 – January 2024 the Shacks used 16,946,000 litres of water – this is equal to almost 7 Olympic size swimming pools.

Shack lessees, like any other resident or business owner in Cockburn, are obligated to comply with Water Corporation watering days. Under the *Water Services Act 2012 (WA)* the Water Corporation has the power to fine any party that is not complying with correct watering days.

With the inclusion of this action in the lease, any lessee not complying with correct watering days will be in breach of their lease.

There were a variety of responses relating to the proposed restriction on water usage at the Naval Base site, however for the most part submissions supported this addition. While water restrictions are governed at a State (not local government) level, the City is supportive of ensuring responsible use of resources in line with sustainability and water wise strategies.

Watering days are based on the number of the street, being **1136** Cockburn Road. As such, the watering days are Monday and Thursday before 9am or after 6pm. No sprinklers are to be used between 1 June and 31 August.

An inspection onsite revealed numerous leaking hose connections at the tap point. The City recognises that many of the taps are reaching end of life and require replacement. The City's Facilities Team is currently initiating this process. However, lessees will be required to ensure that the hose connections that they use do not leak.

(4) Persistent breach

When a lessee has received three (3) or more default notices during the term of the lease, the lease agreement can be terminated. This clause will allow the City to ensure compliance and allow persistent breaches to be actioned.

Over the term of the first lease, the Shacks have required a significant amount of resourcing from the City's Ranger Services and CoSafe Community Safety departments. CoSafe attended 32 times for reactive jobs in 2022-23, particularly relating to noise complaints and antisocial or abusive behaviour.

OCM 11/06/2024 Item 14.3.1

This is in addition to ad hoc patrols conducted almost every day and/or night with frequency and time varying. This is a large amount of resourcing to be dedicated to a single site.

(5) Insurance

The City proposed that the new lease include a requirement for lessees to arrange Building and Contents Insurance in addition to Public Liability Insurance. However, the submissions that were received did not support this proposed change.

Following this feedback, the City amended the draft lease to remove the addition of Building and Contents Insurance, with the requirement to obtain Public Liability Insurance remaining. Building and Contents insurance may be arranged by each lessee with their insurer at their discretion but will not be a lease requirement.

(6) Fee amount

The established mechanism for calculating lease fees in a local government context is to obtain a valuation for the site. This was undertaken and presented to Council at the 11 May 2023 Ordinary Council Meeting.

The alternative recommendation adopted by Council at this meeting required the investigation of capital and operational expenses at the site to inform the lease fee – a unique approach that could be used to reflect whether the current lease fee could sustain the Reserve, or whether a proposed increase was justified.

Below is an explanation relating to the Market Valuation formulation. Further information will be provided regarding the Capital and Operational Expenses formulation in the body of this report.

Proposed Lease Fee

The proposed lease fee is \$3,250 per annum. This is an increase of \$1,067 from the current lease fee of \$2,183 (which has not been increased since 2016). This equates to \$27 per night (based on the permitted occupancy of 120 calendar days per year).

The demolition levy is proposed to increase by \$13, from \$317 per year to \$330. This has been determined by an increase in Consumer Price Index since the last review. The demolition levy will be refunded to lessees where the shack is removed, and the land remediated to the City's satisfaction.

The Naval Base Shack site is holiday accommodation. Holiday accommodation is not a necessity – the lease fee is not comparable to residential rates or rent, nor affordable housing considerations.

Additionally, it is important to clarify that the lessees do not pay rates. The funds payable each year are a lease fee (rent) for the use of the land and associated costs of managing the site (including consumables).

It is not appropriate for the City to use public funds to subsidise the holiday accommodation of a small number of private lease holders.

362 of 790	

Item 14.3.1 OCM 11/06/2024

Market Valuation

The lease fee of \$3,250 was formulated based on a Market Rent Valuation undertaken by licenced Valuer & Property Advisor, Hemsley Paterson in accordance with the Australian and New Zealand Valuation and Property Standards definition adopted by the Australian Property Institute.

Please refer to Confidential Attachment 6 for a copy of the Valuation Report. The valuation contains commercially sensitive information that was provided to the valuer in confidence, hence the necessity to enter this attachment as confidential.

As the site is the only one of its kind existing within the Perth Metropolitan Area, a combination of comparisons was used to formulate the valuation, using an "average" shack site as the basis (given the lack of uniformity of character, scale and condition).

The comparisons included Grey and Wedge Island Shacks; Myalup Beach; Pinjarra; Cee and See and Mandurah Coastal Holiday Parks. Significant differences between the Naval Base Shack site and the Caravan Parks was noted, including limitations on occupancy, standard and provision of facilities and services. The leasing provisions were provided to the valuer in order to determine the specific restrictions for the Naval Base Shack site.

A range of \$3,000 - \$3,500 was provided, with a recommendation to adopt the midpoint of \$3,250.

There have been suggestions that the rent charged should be increased with reference to the Consumer Price Index (CPI) only rather than a market valuation.

The City requested clarification from Hemsley Paterson regarding the effectiveness of using CPI only as opposed to a market valuation, and were advised as follows:

"if a lease/licence is only ever reviewed in accordance with movements in the CPI...it is highly probable that the rent will eventually become misaligned with...what is considered to be the 'market rent'...Movements in market rental levels are rarely synchronized with CPI...and as such, the need for a periodic market review is required to recalibrate the rent to a fair and reasonable level."

Further, it was advised that "a market rent calibration is generally applied/negotiated at the inception of a new lease, whether that be with the existing Lessee/Licensee entering into a new agreement, or with a new tenant.

Following the alternative recommendation that was adopted by Council on 11 May 2023, the City undertook an investigation into the capital and operational expenses at the site to formulate the lease fee.

This investigation indicated that the long term financial viability of the site (in terms of sustaining the Reserve Fund without the need for municipal funds) is supported by the proposed fee of \$3,250. This is further discussed in the below section, 'Capital and Operational Expenses Formulation'.

363 of 790

OCM 11/06/2024 Item 14.3.1

Capital and Operational Expenses Formulation

The alternative recommendation that was adopted by Council on 11 May 2023 deferred endorsing the lease until City Officers completed the following:

- a. development of indicative costing for capital upgrades...and the impact each project would have on the required rental fee;
- b. feedback from shack owners on which capital upgrades are supported;
- c. investigate splitting lease fees into operational expenditure and capital expenditure;
- d. schedule a meeting with interested shack owners, City Officers and Elected Members.

The reason provided for this alternative recommendation was "the valuation of the rent value should be taken into consideration to determine the appropriate value. However, as this is not a for profit endeavour, the rent value should be a function of the costs required for ongoing operations and support by the City, as well as sufficient to support the capital upgrades that the shack owners want. By deferring, we allow the rent value to be calculated on the actual projects that are desired by the occupants, rather than an arbitrary value."

This analysis considered two areas of costing – operational and capital works.

Operational: the cost involved in site management – maintenance; utilities and management.

Ten service units in the City have an active interface with Reserve 24308. Please see below Table with estimated officer hours for 2022/23

Service Unit	Break Down	Officer Hours
Rangers	Call outs and patrols	104
CoSafe	Reactive jobs; CCTV monitoring and processing; scheduled patrols	104
Property Services	Lease management	260
Revenue	Lease fee/invoice management and arrears administration	100
Parks Operations	Maintenance of site; contract management	63
Planning/Compliance	Compliance with LPP4.5	8
Facility Maintenance	Preventative and reactive maintenance; contract management	208
Waste	Contract management	2
Environmental Health	Annual health inspections and reactive compliance	29
Coastal Management and Engineering	Monitoring and maintenance	22
Approximate Total		900 hours

364 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.3.1 OCM 11/06/2024

Please note, 2022/23 was used as the 2023/24 financial year was not complete at the time of compiling the data.

An average per hour figure was allocated to these hours based on the cost the City incurs in wages (as opposed to the cost of contracting out services which would be significantly higher). This figure was combined with actual contract costs from the responsible service unit's Operational Budgets (OP's) for services that engage third parties such as waste services and facility maintenance.

An indicative figure for the existing operational expenses for the site was \$314,000.

Additionally, the City undertook an analysis to determine what the operational costs may be if we seek to improve site management, as this is recurrent feedback received from the stakeholders as an area that needs improvement.

Improved site management operational costs were determined by combining the existing operational expenses with the estimated costs of including improvement strategies for site management such as introducing measures to reduce reactive maintenance; improving coastal management; increasing compliance audits, investigating a dedicated property manager for the site; and implementing additional preventative maintenance. The indicative improved operational expenses for Reserve 24308 is **\$412,000**.

The \$412,000 figure includes a specific resource for the management of shacks from a leasing and facility maintenance perspective.

This position would occur via a reviewed contract, the costs of which would be attributed to the Reserve, and not be part of the City's workforce plan. This will ensure a more holistic approach to management of the Naval Base Shacks and it's lessee's. Currently the site utilises approximately 13% of Officer resources while equating to 2% of the City's maintainable asset and lease portfolio.

OCM 11/06/2024 Item 14.3.1

Capital Works: the 'wish list' of proposed future works at the site, outside of day-to-day maintenance and management of Reserve 24308.

City Officers sought to formulate a list of capital works projects that the Naval Base Shack lessees wanted to have delivered at Reserve 24308.

This process of developing a 'wish list' is summarised on the below Table:

8 June 2023	Letter to all Shack Owners seeking feedback on six capital works options and inviting suggestion for other projects that the Lessee may wish to have considered for delivery at the site.
15 September 2023	47 responses that were received were consolidated, and a summary sent to all Shack Owners via letter. This populated the 'wish list' for the purpose of costing out potential capital works projects for Reserve 24308.
September – December 2023	The identified project 'wish list' items were refined in scope and costed using a variety of mechanisms including precedents from similar City of Cockburn projects; quotes from contractors and a Quantitative Surveyor and Architect for complex projects.

List of capital works projects that were costed:

- Ablution blocks: replacing with new (two options) or retrofitting;
- Demolishing the laundry block (scheduled for 2024);
- Installing a playground;
- Installing a pontoon (including annual costs and maintenance);
- Installing a gazebo (including furniture and fixtures)

The estimated cost of delivering the above projects had a range (excluding GST) from \$965,000 to \$2,221,500.

The below table includes additional considerations that could add to the cost of delivering capital works projects at Reserve 24308:

Asbestos	The site has a significant amount of asbestos, which is in-tact and safe but does have the potential to add a large amount of cost to any demolition or renovation works.
P17868 Peel	In December 2022, Reserve 24308 was entered into the
Town	State Register of Heritage Places pursuant to section 42
Archaeological	of the Heritage Act 2018. The Reserve makes up some
Site, Henderson	of the 43.5 hectares of coastal vegetation containing archaeological sites dating to the 1829-30 occupation by Thomas Peel's settlement group. The archaeological potential of the land results in potential complications for
	projects that require ground works. Further information would need to be sought to confirm the impact on a

Item 14.3.1 OCM 11/06/2024

	project budget.
Building Code of Australia ("BCA") triggers	The age of the site and the assets therein has resulted in the site not meeting current BCA standards. In the event of a refurbishment or upgrade project, such upgrades would trigger the requirements under this legislation such as including adequate pathways; accessways and universal access. This will increase project costs.
Septics	The Shacks are not connected to mains sewer. Any project relating to ablution facilities would require septics to be included in the scope, which presents challenges as the Water Corporation no longer favours this method and the groundwork itself is further complicated by the archaeological value and presence of asbestos on site.
Soakwells	New structures would need to include consideration of storm water drainage and potential installation of soak wells. This presents similar complications to the septics, due to the archaeological value of the sub-surface; the asbestos scattered throughout the site and would impact a project budget.

Findings of Operational and Capital Expenditure Analysis:

The City considered the effect that the existing lease fee (\$2,183) and proposed lease fee (\$3,250) would have on the Reserve Fund balance in the context of the indicative operational and capital works expenditure figures that were established. In accordance with the alternative recommendation, these findings were presented in a public meeting to interested Shack Owners on 10 April 2024.

A comparison was undertaken for six scenarios for both the existing fee and proposed fee, namely:

- No change in operational expenses and no capital works expenses;
- Existing operational expenses; minimum capital works expenses;
- Existing operational expenses, maximum capital works expenses:
- Improved operational expenses, no capital works expenses;
- Improved operational expenses, minimum capital works expenses;
- Improved operational expenses, maximum capital works expenses.

OCM 11/06/2024 Item 14.3.1

Please see below Tables for full details of the analysis:

Table 1: Existing Lease Fee (\$2,183)

Lease	Total	Status	Op Ex	Cap Ex	Reserve	Reserve	Reserve
Fee	(170)		Ο μ = Λ	oup =		Fund (2024)	Fund (2034)
\$2,183	\$371,110	No change	\$314,000	Nil	\$57,110	\$1,348,296	\$1,862,286
\$2,183	\$371,110	Existing	\$314,000	\$965,000	-\$907,890	\$383,296	\$897,286
		OpEx; Min CapEx					
\$2,183	\$371,110	Existing OpEx; Max CapEx	\$314,000	\$2,221,500	-\$2,164,390	-\$873,204	-\$359,214
\$2,183	\$371,110	Improved OpEx; no CapEx	\$412,000	Nil	-\$40,890	\$1,250,296	\$882,286
\$2,183	\$371,110	Improved OpEx; Min CapEx	\$412,000	\$965,000	-\$1,005,890	\$285,296	-\$82,714
\$2,183	\$371,110	Improved OpEx; Max CapEx	\$412,000	\$2,221,500	-\$2,262,390	-\$971,204	-\$1,339,214

Table 2: Proposed Lease Fee (\$3,250)

Lease	Total	Status	Op Ex	Cap Ex	Reserve	Reserve	Reserve
Fee	(170)					Fund (2024)	Fund (2034)
\$3,250	\$552,500	No change	\$314,000	Nil	\$238,500	\$1,529,686	\$3,676,186
\$3,250	\$552,500	Existing OpEx, Min CapEx	\$314,000	\$965,000	-\$726,500	\$564,686	\$2,711,186
\$3,250	\$552,500	Existing OpEx, Max CapEx	\$314,000	\$2,221,500	-\$1,983,000	-\$691,814	\$1,454,686
\$3,250	\$552,500	Improved OpEx; No CapEx	\$412,000	Nil	\$140,500	\$1,431,686	\$2,696,186
\$3,250	\$552,500	Improved OpEx, Min CapEx	\$412,000	\$965,000	-\$824,500	\$466,686	\$1,731,186
\$3,250	\$552,500	Improved OpEx, Max CapEx	\$412,000	\$2,221,500	-\$2,081,000	-\$789,814	\$474,686

The above projections indicate that there is a risk, if the lease fee were to remain unchanged, that the Reserve Fund would deplete and potentially result in a \$1.3M deficit if all Capital Works projects were pursued or required. Alternatively, the proposed lease fee would result in a balance of \$474,000 in 2034.

The above projections do not capture CPI or inflation and are based on a number of assumptions, including the belief that all Shack Owners will pay their lease fee (which historically has not been the case); an assumption that all capital works projects will be delivered and of note, there is no contingency fund or GST elements incorporated.

Given the rationale behind formulating capital and operational expenses, the above Tables serve to provide an indicative summary of the financial implications of both the existing and proposed lease fees for Reserve 24308 over a 10-year period (being the proposed lease term).

368 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.3.1 OCM 11/06/2024

Naval Base Reserve Fund and Demolition Fund

The Naval Base Shack Reserve Fund ('Reserve Fund") has a stated purpose of "the development and refurbishment of the Naval Base Shack site. It will also fund rehabilitation costs...Annual transfers to this Reserve are fully funded by part of the lease income derived from the shacks."

The City also quarantines the Naval Base Shack demolition levy for the "purpose of the future removal of leasehold dwellings at Reserve 24308..." with the funds being "reimbursed to leaseholders when dwelling is removed and the site rehabilitated" (including asbestos removal).

The introduction of the demolition levy in 2010/11 was to cover the City in circumstances where a shack had to be removed and the leaseholder either did not want to pay or could not pay for its removal. The City has agreed to quarantine these funds so that in the eventuality that the shack is removed by the relevant leaseholder and at their cost, the leaseholder would receive the funds back. This was implemented so that the City would not have to resort to expensive civil litigation to recover any outstanding debt. The collection of the demolition levy under the new lease commencing 2024 ensures the levy held in reserve covers demolition costs in line with inflation.

The Reserve Fund balance is \$1,291 Million, and the demolition fund balance is \$903,328 (which equates to \$5,314 per shack). A current estimate for the demolition of a Shack, including remediating the land is approximately \$10,450 per shack. It is evident from these figures that the demolition levy must remain as a charge in order to ensure sufficient funds are available should removal of shacks be required.

Reserve Fund Works

In the period of 2013 to 2023 the City has undertaken the following works using Reserve funding in line with the Naval Base Shack Management Plan 2016-2022:

2012/13	Naval Base Reserve improvements (drainage, lighting,	\$115,770.33
	beach access)	
2013/14	Naval Base Toilet South Render	\$3,944.50
2014/15	Naval Base Reserve	\$45,721.17
	improvements (drainage, lighting,	
	beach access)	
2015/16	Naval Base Shacks Landscaping	\$16,175.82
2016/17	Naval Base Shack toilet	\$96,534
	refurbishment	
2019/20	Naval Base lighting and minor	\$13,685.49
	refurbishments	
2021/22	CCTV Installation	\$76,071.40

OCM 11/06/2024 Item 14.3.1

Unapproved Works/Improvements

The City acknowledges that there may be unapproved works at the site – entering into a new lease agreement does not retrospectively approve unapproved works or improvements.

Lessees will be required to remedy this either via retrospective approval or removal of the unauthorised works.

Terminations and Demolition

The demolition of a Shack and remediation of the site upon termination was initially contemplated during the development of the lease agreement and discussed at length, resulting in the charging of a demolition levy for this purpose.

The City has received submissions that do not support this strategy, with suggestions for on selling or auctioning shacks where the lease has been terminating, allowing the amenity to remain for others to enjoy.

The City is not able to support on selling or auctioning vacant shacks based on multiple rationale, supported by legal advice obtained by the City in relation to the options for terminated shack sites – this legal advice has been included in Confidential Attachment 5.

The City is not able to justify the risk associated with taking ownership of, or onselling of assets where there is uncertainty regarding their condition or ability to meet BCA requirements.

While the City can facilitate the assignment of the lease, the buying and selling of Shacks is not something which the City can be involved in, in accordance with risk management practices.

The City intends to engage a Planning Consultant to determine the best use of any sites that become vacant due to terminations.

This has caused some confusion amongst the lessees. The intention is to ensure that expert guidance is provided with reference to planning legislation and the potential options available prior to making decisions regarding the use of the vacant sites at the Naval Base Shacks that result from terminations. This consultant will not decide what is to be done with any vacant sites.

The Lessees

Of the 173 current leases at the site, the City is seeking to progress with offering lease agreements with 170 lessees (provided they have no outstanding arrears, and insurance is current at the time that the City seeks to advertise the new lease).

As at 8 May 2024, there is \$48,992 arrears outstanding for the site, with 37 of the 170 lease holders remaining in arrears, including those who are on an agreed payment or direct debit arrangement.

370 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.3.1 OCM 11/06/2024

This is from a total of \$425,000 invoiced for 2023/24. This indicates that 88.5% of the outstanding invoices have been paid by lessees.

New leases will not be offered to lessees who remain in arrears. The expectation is that all arrears will be paid off prior to the new round of invoicing in August 2024.

A table of leases that have been terminated is included (refer Confidential Attachment 4).

Of the initial submissions received, 12.5% were City of Cockburn ratepayers, 75% were not City of Cockburn residents, and 12.5% were either anonymous or from the Naval Base Holiday Association. These submissions have been tabled in Attachment 2, with City comments included.

Submissions following the public meeting on 10 April 2024 have been tabled in Attachment 8, with City comments included.

Public vs Private Amenities

City Officers recommend that the southern ablution blocks are no longer public facilities. It is understood that the primary public users are illegal campers and truck drivers who stop at the site to use the facilities before continuing their travels.

Reserve 24308 is not a public reserve – it is used by a small number of stakeholders for private short term holiday accommodation. It is proposed that there will be minimal impact to the City of Cockburn community if these ablutions are no longer available for public use.

Conversely, removing public access will potentially result in a reduction in illegal campers who tend to congregate south of the Kwinana border, with Reserve 24308 identified as a resource for facilities in the free-camping community. A reduction in vandalism and misuse of the facilities would also likely occur – as those causing the damage will frequent the site less, leaving the user group who take pride and ownership of the site to enjoy the amenities that their lease fee contributes towards.

Management Plan

The 10-year Management Plan for the Shacks has been updated to include details of planned infrastructure upgrades and site maps.

A copy of the Management Plan is annexed to this Report (refer Attachment 7).

These additions supplement the existing information and procedures that were developed in the original document by the City with consultation with the Naval Base Shack Community Reference Group.

A copy of the updated Site Map is annexed to this Report (refer Attachment 3).

OCM 11/06/2024 Item 14.3.1

Strategic Plans/Policy Implications

Local Planning Policy LPP4.5 outlines the planning considerations for the Naval Base Shack site and regulates the nature of any development with the view of preserving the unique character of the Shacks.

In terms of building regulation, there is a requirement for Building Permits to be issued for building at Reserve 24308 per the *Building Act 2011*. The regulatory standards of the Building Code of Australia ('BCA') are applied to such permits, which are administered by the City's Building Services department.

The City's Environmental Health department administer the public health aspects of the management of the site, pursuant to the *Health Act 1911*.

Budget/Financial Implications

The increased lease revenue will provide for greater servicing and development. Any lease revenue over and above annual operating and maintenance costs will continue to be paid into the Reserve Fund.

The expectation is that the cost of demolition will continue to increase, which necessitates the City charging the demolition levy to future-proof the possibility that the State Government may mandate the removal of the Shacks in the future.

Legal Implications

Local Government Act 1995 Land Administration Act 1997 Property Law Act 1969 Building Act 2011 Health Act 1911 Planning and Development Act 2005

The City is required to advertise the Naval Base Shack Leases in accordance with s.3.58 of the Local Government Act.

Risk Management Implications

The risk of Council not adopting the outlined recommendations and proposed rental increase is that the Reserve Fund will deplete as the rent will not align with the costs of operating the site and restrict the City from being able to make improvements to the site.

Demolition Levy – it is noted that some Shack Owners believe, given the fact that the City has collected the demolition levy for 12 years, it should be capped. However, the cost of demolition continues to grow in line with increases to all services and construction/ demolition costs.

372 of 790	

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024 Item 14.3.1 OCM 11/06/2024

As such, the City is required to continue to charge this levy for future proofing, in the event that the removal of a shack is required, and the Lessee is unable or unwilling to undertake the works.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 11 June 2024 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

Details

Parties

City of Cockburn

of PO Box 1215, Bibra Lake, Western Australia (**Lessor**)

The person or persons mentioned in Item 1 of the Schedule (Lessee)

Background

- A. The Lessor is the management body of the Land under a management order.
- B. The Lessor has the power to lease the Land, subject to the prior written approval of the Minister for Lands.
- C. The Lessee is the occupier of the Site.
- D. The Lessor has agreed to lease, and the Lessee has agreed to take a lease of the Site upon the terms and conditions contained in this document.

Agreed terms

Definitions

Unless otherwise required by the context or subject matter the following words have these meanings in this Agreement:

Amounts Payable means the Lease Fee and any other money payable by the Lessee under this Lease;

Basic Consideration means all consideration (whether in money or otherwise) to be paid or provided by the Lessee for any supply or use of the Site and any goods, services or other things provided by the Lessor under this Lease (other than tax payable pursuant to this clause);

CEO means the Chief Executive Officer for the time being of the Lessor or any person appointed by the Chief Executive Officer to perform any of her or his functions under this Lease;

Caravan connection means a removable hose that is above ground, and used to connect a shack to one of the communal external water connections.

Commencement Date means the date of commencement of the Term specified in **Item 4** of the Schedule;

© McLeods 7_5599_018.docx

Common Areas means all those parts of the Land not leased to any lessee and intended for use by the lessees of the Land in common with each other including all parking areas, roads, walkways, toilet block, and shower blocks in on or about the Land;

Contaminated Sites Act means the Contaminated Sites Act 2003;

Contamination has the meaning given in section 4 of the Contaminated Sites Act;

CPI means the Consumer Price Index (All Groups) Perth number published from time to time by the Australian Bureau of Statistics or its equivalent;

Demolition Levy means the bond described in **clause 5.2** and **Item 7** of the Schedule as varied from time to time under this Lease;

Encumbrance means a mortgage, charge, lien, pledge, easement, restrictive covenant, writ, warrant or caveat and the claim stated in the caveat or anything described as an encumbrance on the Certificate of Title for the Land;

Environmental Contamination has the same meaning as the word "contaminated" in the Contaminated Sites Act;

Environmental Harm has the same meaning as that term is defined in the EPA;

Environmental Law means all planning, environmental, Environmental Contamination or Pollution laws and any regulations, orders, directions, ordinances or all requirements, permission, permits or licences issued thereunder;

EPA means the Environmental Protection Act 1986;

Expiration of the Term means the date of determination of the Term;

Further Term means the further term specified in Item 11 of the Schedule;

GST has the meaning that it bears in the GST Act;

GST Act means *A New Tax System (Goods and Services Tax) Act* 1999 (*Cth*) and any legislation substituted for, replacing or amending that Act;

GST Adjustment Rate means the amount of any increase in the rate of tax imposed by the GST Law:

GST Law has the meaning that it bears in section 195-1 of the GST Act;

GST Rate means 10%, or such other figure equal to the rate of tax imposed by the GST Law;

Input Tax Credit has the meaning that it bears in section 195-1 of the GST Act;

Interest Rate means the rate at the time the payment falls due being the interest rate in the adopted municipal budget called the penalty interest rate;

Land means the land described at Item 2 of the Schedule;

Lease means this deed as supplemented, amended or varied from time to time;

Lease Fee means the Lease Fee specified in **Item 6** of the Schedule as varied from time to time under this Lease;

Lessee's Agents includes:

© McLeods 7_5599_018.docx

- (a) the sublessees, employees, agents, contractors, invitees and licensees of the Lessee; and
- (b) any person on the Site by the authority of a person specified in paragraph (a);

Lessee's Obligations means the covenants, agreements and obligations set out or implied in this Lease or imposed by law to be performed and observed by the Lessee;

Lessor's Covenants means the covenants, agreements and obligations set out or implied in this Lease, or imposed by law to be performed and observed by the Lessor;

Minister for Lands means the Minister for Lands in her or his capacity as the body corporate continued under section 7 of the *Land Administration Act* 1997;

Motor Vehicle means any vehicle used or intended to be used in a business or trade which has a tare weight in excess of 3.5 tonnes, and excludes vehicles directly associated with conduct of a rural pursuit, business or trade on the lot for which the vehicle or vehicles are used;

Notice means each notice, demand, consent or authority given or made to any person under this Lease:

Party means the Lessor or the Lessee according to the context;

Permitted Purpose means the purpose set out in **Item 9** of the Schedule;

Persistent Breach occurs when the Lessee has received three or more default notices during the Term of this Lease irrespective of whether the notices are for the same default or otherwise;

Pollution means any thing that is pollution within the meaning of that term as defined in the EPA;

Remediation and **Remediate** has the same meaning as that expression is given in the Contaminated Sites Act and includes the management of any contaminated site.

Review Date means each date specified in Item 8 of the Schedule;

Schedule means the Schedule to this Lease;

Site means the Site described at Item 3 of the Schedule;

Taxable Supply has the meaning given in section 195-1 of the GST Act.

Term means the term of years specified in Item 4 of the Schedule;

Termination means the date of:

- (a) expiry of the Term or any Further Term by effluxion of time;
- (b) sooner determination of the Term or any Further Term; or
- (c) determination of any period of holding over; and

Written Law includes all acts and statutes (State or Federal) for the time being enacted and all regulations, schemes, ordinances, local laws, by-laws, requisitions, orders or statutory instruments made under any Act from time to time by any statutory, public or other competent authority.

© McLeods 7_5599_018.docx

2. Minister for Lands' Consent

This Lease is subject to and conditional on the approval of the Minister for Lands under the *Land Administration Act 1997*. A copy of the Minister for Lands' consent is annexed hereto as **Annexure 2.**

Grant of lease

The Lessor, subject to clause 2 of this Lease, leases to the Lessee the Site for the Term subject to:

- (a) the Encumbrances;
- (b) the payment of the Amounts Payable; and
- (c) the performance and observance of the Lessee's Obligations.

4. Quiet enjoyment

Except as provided in the Lease, for so long as the Lessor is the management body of the Site, and subject to the performance and observance of the Lessee's Obligations the Lessee may quietly hold and enjoy the Site during the Term without any interruption or disturbance from the Lessor or persons lawfully claiming through or under the Lessor.

5. Lease Fee and other payments

5.1 Lease Fee

The Lessee covenants with the Lessor to pay to the Lessor the Lease Fee in the manner set out at **Item 6** of the Schedule on and from the Commencement Date clear of any deductions.

5.2 **Demolition Levy**

- (1) The Lessee covenants with the Lessor to pay to the Lessor the Demolition Levy in the manner set out at **Item 7** of the Schedule on and from the Commencement Date clear of any deductions.
- (2) The Lessee acknowledges that the Demolition Levy will be refunded or returned to the current lessee of the Site in accordance with **clause 22.4**.

5.3 Outgoings

- (1) The Lessee covenants to punctually pay to the Lessor or to such person as the Lessor may from time to time direct all the following outgoings or charges, assessed or incurred in respect of the Site:
 - (a) local government services and other charges, including but not limited to rubbish collection charges and the emergency services levy, determined upon the basis of an occupancy restriction of 120 days in every financial year;
 - (b) telephone, gas and other power charges including but not limited to meter rents and the cost of installation of any meter, wiring or telephone connection; and
 - (c) any other consumption charge or cost, statutory impost or other obligation incurred or payable by reason of the Lessee's use and occupation of the Site (unless otherwise addressed in this clause).

© McLeods 7_5599_018.docx

- (2) If the Site is not separately charged or assessed the Lessee will pay to the Lessor a proportionate part of any charges or assessments referred to in paragraph (1) above being the proportion that the Site bears to the total area of the Land included in the charge or assessment.
- (3) If any charges increase by more than 10% in any one year, the Lessor may recover these costs by charging the Lessees a proportionate part of those charges being the proportion that the Site bears to the total area of the Land included in the charge or assessment.

5.4 Interest

Without affecting the rights, power and remedies of the Lessor under this Lease, the Lessee covenants to pay to the Lessor interest on demand on any Amounts Payable which are unpaid for 14 days computed from the due date for payment until payment is made and any interest payable under this paragraph will be charged at the Interest Rate.

5.5 **Costs**

The Lessee covenants with the Lessor to pay to the Lessor all reasonable costs, legal fees, disbursements and payments incurred by or for which the Lessor is liable in connection with or incidental to:

- (a) the Amounts Payable or obtaining or attempting to obtain payment of the Amounts Payable under this Lease;
- (b) any breach of the Lessees obligations by the Lessee or the Lessee's Agents;
- (c) the preparation and service of a notice under Section 81 of the *Property Law Act 1969* requiring the Lessee to remedy a breach even though forfeiture for the breach may be avoided in a manner other than by relief granted by a Court;
- (d) any work done at the Lessee's request for which the Lessee is responsible; and
- (e) any action or proceedings arising out of or incidental to any matters referred to in this clause or any matter arising out of this Lease.

5.6 Payment of Amounts Payable

- (1) Amounts Payable to the Lessor under this Lease must be paid to the Lessor at the address of the Lessor referred to in this Lease or as otherwise directed by the Lessor by Notice from time to time
- (2) Amounts Payable accrue on a daily basis.

Review of Lease Fee & Demolition Levy

6.1 Lease Fee and Demolition Levy to be reviewed

The Lease Fee and Demolition Levy will be reviewed on and from each Review Date to determine the Lease Fee and the Demolition Levy to be paid by the Lessee until the next Review Date.

6.2 Lease Fee to be increased by CPI

The reviewed Lease Fee payable on and from the Review Date shall be the amount of the Lease Fee payable during the immediately preceding period increased by a percentage equal to the percentage increase in the CPI having regard to the quarterly CPI published immediately prior to the later of the Commencement Date or the last Review Date as the case may be and the quarterly CPI published immediately prior to the relevant Review Date. If the CPI is discontinued or

© McLeods | page 5

7_5599_018.docx

suspended at any time or its method of computation is substantially altered the Lessor shall nominate the substitution of another appropriate CPI, provided that the reviewed Lease Fee shall in no case be less than then the Lease Fee payable during the immediately preceding period.

6.3 Demolition Levy to be increased by CPI commencing at the renewal date 2014.

The reviewed Demolition Levy shall be the amount of Demolition Levy payable during the immediately preceding period increased by a percentage equal to the percentage increase in the CPI having regard to the quarterly CPI published immediately prior to the later of the Commencement Date or the last Review Date as the case may be and the quarterly CPI published immediately prior to the relevant Review Date. If the CPI is discontinued or suspended at any time or its method of computation is substantially altered the Lessor shall nominate the substitution of another appropriate CPI, provided that the reviewed Demolition Levy shall in no case be less than then the Demolition Levy payable during the immediately preceding period.

7. Insurance

7.1 Public Liability Insurance

The Lessee must effect and maintain adequate public liability insurance with respect to the Site for a sum not less than the sum set out at **Item 10** of the Schedule in respect of any one claim noting the respective interests of the Lessor and Lessee in the Site.

7.2 Details and receipts

In respect of the insurances required by this clause the Lessee must -

- on demand supply to the Lessor details of the insurances and give to the Lessor copies
 of the certificates of currency in relation to those insurances;
- (b) promptly pay all premiums and produce to the Lessor each policy or certificate of currency and each receipt for premiums or certificate of currency issued by the insurers; and
- (c) notify the Lessor immediately-
 - (i) when an event occurs which gives rise or might give rise to a claim under or which could prejudice a policy of insurance; or
 - (ii) when a policy of insurance is cancelled.

7.3 Not to invalidate

The Lessee must not do or omit to do any act or thing or bring or keep anything on the Site which might -

- (a) render any insurance effected under this clause, or any adjoining site, void or voidable;or
- (b) cause the rate of a premium to be increased for the Site or any adjoining site (except insofar as an approved development may lead to an increased premium).

7.4 Settlement of claim

The Lessor may, but the Lessee may not without prior written consent of the Lessor, settle or compromise any claims under any policy of insurance required by this clause.

© McLeods 7_5599_018.docx

8. Indemnity

8.1 Lessee responsibilities

- (1) The Lessee is subject to the same responsibilities relating to persons and property to which the Lessee would be subject if during the Term the Lessee were the owner and occupier of the freehold of the Site.
- (2) The Lessee is responsible and liable for all acts or omissions of the Lessee's Agents on the Site and for any breach by them of any covenants or terms in this Lease required to be performed or complied with by the Lessee.

8.2 Indemnity

The Lessee indemnifies, and shall keep indemnified, the Lessor and the Minister for Lands from and against all actions, claims, costs, proceedings, suits and demands whatsoever which may at any time be incurred or suffered by the Lessor and the Minister for Lands, or brought, maintained or made against the Lessor and the Minister for Lands, in respect of:

- (a) any loss whatsoever (including loss of use);
- (b) injury or damage of, or to, any kind of property or thing; and
- (c) the death of, or injury suffered by, any person,

caused by, contributed to, or arising out of, or in connection with, whether directly or indirectly:

- (d) the use or occupation of the Site by the Lessee's Agents;
- (e) any work carried out by or on behalf of the Lessee on the Site;
- (f) the Lessee's activities, operations or business on, or other use of any kind of, the Site;
- (g) the presence of any Contamination, Pollution or Environmental Harm in on or under the Site or adjoining land caused or contributed to by the act, neglect or omission of the Lessee or the Lessee's Agents;
- (h) any default by the Lessee in the due and punctual performance, observance and compliance with any of the Lessee's Obligations or obligations under this Lease; or
- (i) an act or omission of the Lessee.

8.3 Obligations Continuing

The obligations of the Lessee under this clause:

- (a) are unaffected by the obligation of the Lessee to take out insurance, and the obligations of the Lessee to indemnify are paramount, however if insurance money is received by the Lessor for any of the obligations set out in this clause then the Lessee's obligations under **clause 8.2** will be reduced by the extent of such payment; and
- (b) continue after the expiration or earlier determination of this Lease in respect of any act, deed, matter or thing occurring or arising as a result of an event which occurs before the expiration or earlier determination of this Lease.

© McLeods 7_5599_018.docx

8.4 No indemnity for Lessor's negligence

The parties agree that nothing in this clause shall require the Lessee to indemnify the Lessor, its officers, servants, or agents against any loss, damage, expense, action or claim arising out of a negligent or wrongful act or omission of the Lessor, or its servants, agents, contractors or invitees.

8.5 Release

- (1) The Lessee:
 - (a) agrees to occupy and use the Site at the risk of the Lessee; and
 - (b) releases to the full extent permitted by law, the Lessor from:
 - (i) any liability which may arise in respect of any accident or damage to property, the death of any person, injury to any person, or illness suffered by any person, occurring on the Site or arising from the Lessee's use or occupation of the Site by;
 - (ii) loss of or damage to the Site or personal property of the Lessee; and
 - (iii) all claims, actions, loss, damage, liability, costs and expenses arising from or connected with (directly or indirectly) the presence of any Contamination, Pollution or Environmental Harm in, on or under the Site or surrounding area

except to the extent that such loss or damage arises out of a negligent or wrongful act or omission of the Lessor, or its servants, agents, contractors or invitees.

(2) The release by the Lessee continues after the expiration or earlier determination of this Lease in respect of any act, deed, matter or thing occurring or arising as a result of an event which occurs before the expiration or earlier determination of this Lease.

9. Maintenance, repair and cleaning

9.1 Maintenance

- (1) The Lessee agrees during the Term and for so long as the Lessee remains in possession or occupation of the Site to maintain, replace, repair, clean and keep the Site (which for the avoidance of doubt includes any building constructed on the Site) clean and in Good Repair.
- (2) The Lessee must comply with all reasonable conditions that may be imposed by the Lessor from time to time in relation to the Lessee's maintenance of the Site.

9.2 Cleaning

The Lessee must at all times keep the Site clean, tidy, unobstructed and free from dirt and rubbish.

9.3 Repair

The Lessee must promptly repair at its own expense to the satisfaction of the Lessor any damage to the Site, including damage of a structural nature, regardless of how it is caused.

9.4 Pest control

The Lessee must keep the Site free of any vermin or any other recognised pests and the cost of extermination will be borne by the Lessee.

© McLeods 7_5599_018.docx

9.5 No obligation to Lessor to repair or maintain

The Lessee is wholly and solely responsible for the maintenance and repair of all buildings and improvements comprising the Site, regardless of the cause of the need to repair or maintain, and regardless of the type of repair or maintenance required. The Lessor has no obligation whatsoever to repair or maintain any buildings or improvements comprising the Site.

9.6 Acknowledgement of state of repair of Site

- (1) The Lessee accepts the Site in its present condition relying upon its own enquiries and investigations.
- (2) The site is provided to the Lessee as is. The Lessor provides no guarantee that the site is suitable for the Lessee's proposed use.

10. Building Requirements

10.1 No alterations or building without Lessor's prior approval

- (1) The Lessee must not without prior written consent:
 - (a) (i) from the Lessor;
 - (i) from any other person from whom consent is required under this Lease; and
 - (ii) required under statute in force from time to time, including but not limited to the planning approval of the Lessee under a local planning scheme of the Lessee and where applicable any Building/Demolition Permit as required under the Building Act 2011 and associated legislation;
 - (b) erect or remove any buildings, structures, alterations, additions or improvements on the Site; or
 - (c) remove any flora or fauna, alter or cut down any flora, or sell, remove or otherwise dispose of any flora, sand, gravel, timber or other materials from the Site or the Land.
- (2) The Lessee acknowledges and agrees that the Lessor will not consent to the alteration, construction or addition to the Site, unless such alteration, construction or addition is strictly in conformity with the building requirements of the *Building Act* 2011 and associated legislation.
- (3) If the Lessor consents to any matter referred to in paragraph (1) above, the Lessor may:
 - (a) consent subject to conditions, and
 - require that work be carried out in accordance with plans and specifications approved by the Lessor or any other person giving consent; and
 - (ii) require that any alteration be carried out to the reasonable satisfaction of the Lessor under the supervision of an engineer or other consultant; and
 - (b) if the Lessor consents to any matter referred to in this clause:
 - (i) the Lessor gives no warranty that the Lessor will issue any consents, approvals, authorities, permits or policies under any statute for such matters; and
 - (ii) the Lessee must apply for and obtain all such consent approvals, authorities, permits or policies as are required at law before undertaking any alterations, additions, improvements or demolitions.

© McLeods | page 9 7_5599_018.docx

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024

10.2 Cost of Works

All works undertaken under this clause will be carried out at the Lessee's expense.

10.3 Conditions

Where the Lessee is required to carry out any other works pursuant to this Lease, any written law, or any consent or approval given to the Lessee, then the Lessee must at the option of the Lessor either:

- (a) carry out those other works at the Lessee's expense; or
- (b) permit the Lessor to carry out those other works at the Lessee's expense,

in accordance with the Lessor's reasonable requirements.

10.4 Conditions

In the event the Lessee fails to obtain written consent for any building alterations or additions the Lessor may issue a Notice to remove any such alterations or additions and if the Lessee fails to comply with that Notice within the reasonable time prescribed by that Notice, the Lessor may immediately terminate this Lease and the provisions of **clause 22** will apply and no compensation or other consideration shall be payable or claimable by the Lessee from the Lessor for or arising out of the termination of the Lease pursuant to this clause.

11. Unsafe or dangerous building or structures

11.1 Unsafe or dangerous buildings or structures

- (1) Notwithstanding any other provision of the Lease, in the event the Lessor, acting reasonably, determines that any building or structure erected on the Site is unsafe or dangerous the Lessor may issue the Lessee a Notice requiring the Lessee within a reasonable period of time to either:
 - (a) remove the unsafe or dangerous structure or building from the Site; or
 - (b) undertake rectification works to make the building or structure safe.
- (2) In the event the Lessee fails to comply with the Notice issued pursuant to paragraph (1) within the time specified in the Notice, the Lessor may immediately terminate this Lease and the provisions of clause 22 will apply and no compensation or other consideration shall be payable to or claimable by the Lessee from the Lessor for or arising out of the termination of the Lease pursuant to this clause.

11.2 Smoke Detectors and Gas Certificates

- (1) Within 60 days of the Commencement Date, the Lessee must install to the Lessor's reasonable satisfaction a lithium ion battery smoke detector or any other approved detector as specified in the relevant legislation in any building or structure erected or located upon the Site.
- (2) The Lessee must provide to the Lessor gas safety certificates for any gas installation on the Site.

Restrictions on use

12.1 Generally

(1) The Lessee must not and must not suffer or permit a person to -

© McLeods 7_5599_018.docx

- (a) (i) use the Site or any part of it for any purpose other than for the purpose set out at **Item 9** of the Schedule; or
 - (i) use the Site for any purpose which is not permitted under any local planning scheme or any law relating to health;
- (b) do or carry out on the Site any harmful, offensive or illegal act, matter or thing;
- do or carry out on the Site any thing which causes a nuisance, damage or disturbance to the Lessor or to owners or occupiers of adjoining properties;
- (d) store any dangerous compound or substance on or in the Site;
- (e) interfere with the reasonable peace, comfort and privacy of neighbours; or
- (f) display from or affix any signs, notices or advertisements on the Site without the prior authorisation of the Lessor (other than "for sale" signs).
- (2) The Lessee, and the Lessee's Agents, must when on the Site, the Common Areas or the Land strictly comply with all local laws.

12.2 Lessor may issue notice

- (1) Notwithstanding any other provision of the Lease, in the event the Lessor, acting reasonably, determines that the Lessee has suffered or permitted any person to do any of the above as detailed in **clause 12.1**, the Lessor may issue the Lessee a Notice requiring the Lessee within a reasonable period of time to either remove or cease the action.
- (2) In the event the Lessee fails to comply with the Notice issued pursuant to **clause 12.2(1)** within the time specified in the Notice, the Lessor may immediately terminate this Lease and the provisions of **clause 22** will apply and no compensation or other consideration shall be payable to or claimable by the Lessee from the Lessor for or arising out of the termination of the Lease pursuant to this clause.

12.3 Short term accommodation only

- (1) The Lessee acknowledges and agrees that the Site may only be utilised for short term holiday accommodation.
- (2) The Lessee must not and must not suffer or permit a person to occupy the Site for over 120 days in aggregate within any 12 month period.
- (3) The Lessee must maintain a detailed occupancy log, detailing the dates and times the Lessee, or any of the Lessee's agents, is in attendance or occupation at the Site. The occupancy log is to be made available for inspection by the Lessor's representative at all times on demand.
- (4) The Lessee acknowledges and agrees that this clause is an essential provision of the Lease, and in the event of non-compliance the Lessor may immediately terminate this Lease and the provisions of **clause 22** will apply and no compensation or other consideration shall be payable to or claimable by the Lessee from the Lessor for or arising out of the termination of the Lease pursuant to this clause.

12.4 No Toilets or showers; kitchen sink only

(1) The Lessee must not and must not suffer or permit within the Site a toilet or shower or plumbing which will permit the installation of a toilet or shower.

© McLeods 7_5599_018.docx page 11

- (2) The Lessee must remove any permanent existing toilet or shower and/or plumbing which permits the installation of a toilet or shower within 30 days of the commencement of this Lease.
- (3) The Lessee and Lessor acknowledge and agree that the Lessee may install a kitchen sink on the nominated Site. A semi-permanent hose connected to the external water tap (similar to a **caravan connection**) is acceptable with the outlet tap located over a kitchen sink only. The sink will discharge via a trapped waste pipe to a soakwell. The expectation is that when the Site is unoccupied the hose will be disconnected from the water supply.
- (4) The Lessee may install, with the Lessor's prior written consent, a single 600mm soakwell with a concrete lid upon the Site. The soakwell will be for kitchen grey water only. Any application must include an appropriate quality sketch depicting the proposed location of the soakwell. The soakwell must be protected from vehicular traffic due to its location, or the installation of bollards.
- (5) The Lessee acknowledges and agrees that no portable toilets are permitted on the Site, and the Lessee must promptly remove any portable toilets located on the Site.
- (6) The Lessee may with the Lessors prior written approval install an external (beach) shower. The external beach showers will be connected to a semi-permanent hose connected to an external water tap (similar to a **caravan connection**). The expectation is that when the Site is unoccupied the hose will be disconnected from the water supply.

12.5 Water restrictions

- (1) The Lessee must keep in good repair all of the Lessee's hoses and hose fittings. The Lessee must promptly repair any damage or deterioration of its hoses or hose fittings (including the repair of any leaking hose fittings) as soon as practicable, and in any event within 7 days of written request from the Lessor.
- (2) In the event the Lessee fails to comply with the requirements of the Lessee's notice referred to in clause 12.5(1), the Lessor may enter the Site and remove, or repair such hose or hose fitting, and the costs of such removal or repair is a liquidated debt recoverable from the Lessee in a court of competent jurisdiction.
- (3) The Lessee must strictly comply with the Water Corporation's watering days and restrictions when using water at the Site or the Land, including the use of any sprinklers on the Site. For the purposes of the Water Corporation's watering days, the last digit of the Site number will constitute the 'last digit of street or lot number' for the purposes of determining the watering day for each Site. The Lessee acknowledges and agrees that any breach of the Water Corporation's watering days and restrictions (including using sprinklers on non-watering days/hours), will be a breach of the terms of this Lease.

12.6 Gas Locker

- (1) The Lessee must only install a gas locker with the Lessor's prior written consent.
- (2) Any application to install a gas locker must specify the details and specifications of the proposed gas locker.

12.7 Vehicles, Boats, Trailers & Caravans

- (1) The Lessee must not and must not suffer or permit a person to park a motor vehicle exceeding 3.5 tonnes in gross weight on the Reserve unless prior permission has been provided by the Lessor. The Lessee may park a Motor Vehicle, boat and/or trailer upon the Site or any part of the Common Areas which is set aside by signs for parking provided that:
 - (a) the Lessee is in current occupation of the Site; and

© McLeods 7_5599_018.docx

- (b) in relation to parking on the Site the boat, trailer or Motor Vehicle is located within the boundary of the Site and does not encroach into the adjoining land.
- (2) If any Motor Vehicle, caravan, trailer or boat is parked or stored on the Site or the Land in breach of this clause, the Lessor may immediately remove such Motor Vehicle, trailer, boat or caravan.

12.8 No generators

- (1) Subject to paragraph (2) below, the Lessee must not and must not suffer or permit a person to use a generator on the Site or Land.
- (2) The Lessor may permit, in its absolute discretion, a generator to be utilised for construction purposes for a specified period of time. If the Lessee wishes for a generator to be utilised for construction purposes it must obtain the prior written approval of the Lessor.

12.9 Solar and Wind Power Sources

- (1) The Lessee may only install, with, solar panels, wind turbines and other non-electrical power sources with the Lessor's prior written consent.
- (2) Any application to the Lessor for consent to install solar panels, wind turbines or other nonelectrical power sources must specify the details and specifications of the proposed devices.

12.10 No fence

- (1) Subject to paragraph (2), the Lessee must not and must not suffer or permit a person to erect a permanent fence or similar structure or obstruction on the Site or the Land.
- (2) The Lessee may place temporary fencing on the Site, provided that any such fencing:
 - (a) is not permanently affixed or erected on the Site and is able to be removed at any time;
 - (b) is entirely comprised within the boundaries of the Site;
 - (c) does not cause any obstruction to any other part of the Land; and
 - (d) does not cause or create any risk, danger, or hazard to any other users or occupiers of the Land.
- (3) All existing fences and structures which do not comply with paragraph (2) must be removed by the Lessee within thirty (30) days of the Commencement Date, unless the Lessor has approved such fences or structures in writing.

12.11 No Warranty

The Parties agree that the Site shall be provided to the Lessee on an 'as is' basis and that the Lessor provides no guarantee that the Site is suitable for the Lessee's intended use.

12.12 Acknowledgement - located in close proximity to Alcoa Refinery

The Lessee acknowledges that the Land and the Site are located close to Alcoa Kwinana Refinery, and as a consequence the amenity of the Land and the Site could be adversely impacted.

12.13 Residential Tenancy Act does not apply

The Lessee and the Lessor acknowledges that the Land and the Site are not subject to the provisions of the *Residential Tenancy Act* 1987 or the *Residential Parks (Long-Stay Tenants) Act* 2006.

© McLeods 7_5599_018.docx

12.14 Acknowledgement - termination rights under this clause

For clarity, the parties acknowledge and agree that the rights of termination pursuant to this clause are supplementary to, and in addition to any rights the Lessor may have in **clause 23**.

12.15 Indemnity for Costs

The Lessee indemnifies the Lessor against any claims or demands for all reasonable costs, on a solicitor client basis, incurred by the Lessor by reason of any claim in relation to any matters set out in this clause.

13. Common Areas

13.1 Comply with Rules and Regulations in relation to Common Areas and the Land

The Lessee must comply with all rules and regulations made by the Lessor, from time to time, with respect to the Common Areas and/or the Land provided that the Lessor gives the Lessee seven (7) days prior written notice of any amendments to such rules and regulations. For information purposes, the current rules and regulations in annexed hereto as **Annexure 3**.

13.2 Damage to common areas

The Lessee must make good any breakage defect or damage to the Land, the Common Areas or the Site and any appurtenance or equipment therein caused by want of care misuse or abuse on the part of the Lessee or the Lessee's Agents or by any breach of this Lease by the Lessee.

13.3 Lessor's obligations

The Lessor must, at its own cost:

- (a) maintain to a good standard all roads on the Land;
- (b) maintain in good order and condition all Common Areas, toilets on the Land and all services to the Land; and
- (c) effect and maintain public liability insurance with respect to Common Areas and the Land (other than the Site) for a sum not less than the sum set out at **Item 10** of the Schedule in respect of any one claim.

14. Limit of Lessor's liability

- (1) The Lessor will not be liable for loss, damage or injury to any person or property in or about the Site however occurring.
- (2) The Lessor is only liable for breaches of the Lessor's Covenants set out in this Lease which occur while the Lessor is the management body of the Site under the Management Order.
- (3) The Lessor will not be liable for any failure to perform and observe any of the Lessor's Covenants due to any cause beyond the Lessor's control.

15. Lessor's right of entry

15.1 Entry on Reasonable Notice

The Lessee must permit entry by the Lessor, or any person authorised by the Lessor onto the Site without notice in the case of an emergency, and otherwise upon reasonable notice:

© McLeods 7_5599_018.docx

- (a) at all reasonable times;
 - with or without workmen and others; and
 - (ii) with or without plant, equipment, machinery and materials;
- for each of the following purposes: (b)
 - (iii) to inspect the state of repair of the Site and to ensure compliance with the terms of this Lease;
 - (iv) to undertake an external audit of the building or other structure, constructed or erected on the Site;
 - (v) to carry out any survey or works which the Lessor considers necessary, however the Lessor will not be liable to the Lessee for any compensation for such survey or works provided they are carried out in a manner which causes as little inconvenience as is reasonably possible to the Lessee;
 - (vi) to comply with the Lessor's Covenants or to comply with any notice or order of any authority in respect of the Site for which the Lessor is liable; and
 - (vii) to do all matters or things to rectify any breach by the Lessee of any term of this Lease but the Lessor is under no obligation to rectify any breach and any rectification under this clause is without prejudice to the Lessor's other rights, remedies or powers under this Lease.

15.2 Costs of Rectifying Breach

All reasonable costs and expenses incurred by the Lessor as a result of any breach referred to at clause 15.1(b)(v) together with any interest payable on such sums will be a debt due to the Lessor and payable to the Lessor by the Lessee on demand.

Lessor to make good

The Lessor must, at its cost, make good any damage caused to the Site or the Lessee's property as a result of the Lessor exercising its rights under clause 15.

Statutory obligations and notices

16.1 **Comply with Statutes**

The Lessee must:

- comply promptly with all statutes and local laws from time to time in force relating to (a) the Site, including without limitation all relevant laws relating to occupational health and safety and the health and safety of all persons entering upon the Site;
- (b) apply for, obtain and maintain in force all consents, approvals, authorities, licences and permits required under any statute for the use of the Site; and
- comply promptly with all orders, notices, requisitions or directions of any competent (c) authority relating to the Site.

16.2 Safety & Testing Obligations

The Lessee acknowledges and agrees that it is fully responsible at its costs for ensuring that the (1) Site and any fixtures or fittings are regularly tested, maintained and inspected to ensure that the

© McLeods I page 15 7_5599_018.docx

Document Set ID: 11954268 Version: 3, Version Date: 05/08/2024

Site and such fixtures and fittings comply with all statutory requirements and are safe for use.

- (2) To comply with its obligation pursuant to paragraph (1) above, the Lessee acknowledges that it will be required to, amongst other things:
 - (a) comply with the requirements of the *Occupational Safety and Health Act 1984*, including without limitation the requirement for all portable plug-in electrical equipment and residual current devices to be safe and appropriately inspected, tested and maintained by a competent person; and
 - (b) comply with all relevant requirements of the Department of Fire and Emergency Services (**DFES**), including without limitation the requirement to ensure that all fire protection and firefighting equipment located, or installed at the Site, is tested regularly for compliance with Australian Standards and DFES's requirements.
- (3) The Lessor acknowledges and agrees that it is responsible for all items installed in the Common Areas and will be responsible for testing and maintaining the firefighting equipment installed in the Common Areas.

16.3 Indemnity if Lessee Fails to Comply

If the Lessee fails to perform, discharge or execute any of the items referred to in **clause 16.1** and **clause 16.2** the Lessee indemnifies the Lessor against any claims, demands, reasonable costs or other payments incurred by the Lessor of or incidental to any of the items referred to in **clause 16.1** and **clause 16.2**.

17. Report to Lessor

The Lessee shall as soon as practicable report to the Lessor:

- (a) any act of vandalism or any incident which occurs on or near the Site which involves or is likely to involve a breach of the peace or become the subject of a report or complaint to the police and of which the Lessee is aware or should be aware;
- (b) any occurrence or circumstances in or near the Site of which it becomes aware, which might reasonably be expected to cause, in or on the Site, pollution of the environment; and
- (c) all notices, orders and summonses received by the Lessee, and which affect the Site and immediately deliver them to the Lessor.

18. Restrictions on Assignment; No sub-letting or charging

18.1 No subletting

The Lessee must not sublet, licence or part with possession of the Site without the Lessor's and the Minister for Land's prior written consent.

18.2 No assignment or sub-letting without consent

The Lessee must not assign or sell the leasehold estate in the Site or dispose of the Site or any part of the Site without the prior written consent of the Lessor and the Minister for Lands' consent which may be withheld in their absolute discretion.

18.3 Minimum Conditions for Lessor's consent to assignment

The Lessee acknowledges that the Lessor will not provide its consent to the transfer, sale or

© McLeods 7_5599_018.docx

assignment of the leasehold estate in the Site, unless:

- (a) all Amounts Payable due and payable have been paid and there is no existing unremedied breach, whether notified to the Lessee or not, of any of the Lessee's Obligations;
- (b) the Lessee procures the execution by the proposed assignee of a deed of assignment to which the Lessor is a party and which deed is prepared and completed by the Lessor's solicitors; and
- (c) the assignment contains a covenant by the assignee with the Lessor to pay all Amounts Payable and to perform and observe all the Lessee's Obligations.

18.4 Consents of assignee supplementary

The covenants and agreements on the part of any assignee will be supplementary to the Lessee's Obligations and will not release the assigning lessee from the Lessee's Obligations.

18.5 Property Law Act 1969

Sections 80 and 82 of the Property Law Act 1969 are excluded.

18.6 Costs for assignment

If the Lessee wishes to assign the leasehold estate created by this Lease the Lessee must pay all reasonable professional and other costs, charges and expenses, incurred by the Lessor or other person whose consent is required under this Lease, of and incidental to any consents required under this Lease or at law, and all other matters relating to the proposed assignment whether or not the assignment proceeds.

18.7 No mortgage or charge

The Lessee must not mortgage nor charge the Site.

19. Option to renew

If the Lessee at least three months, but not earlier than six months, prior to the date for commencement of the Further Term gives the Lessor a Notice to grant the Further Term and:

- (a) all consents and approvals required by the terms of this Lease or at law have been obtained;
- (b) there is no subsisting default by the Lessee at the date of service of the Notice in:
 - (i) the payment of Amounts Payable; or
 - (ii) the performance or observance of the Lessee's Covenants,
- (c) the Council of the Lessor determines in its absolute discretion that it is prepared to grant the Lessee a lease of the Site for the Further Term;

the Lessor will grant to the Lessee a lease for the Further Term at the Lease Fee and on the same terms and conditions other than this **clause 19** and on such other terms and conditions as the Lessor may consider appropriate.

© McLeods 7_5599_018.docx | page 17

20. Damage or destruction

- (1) If the Site or any part thereof is totally or partially destroyed so as to require major rebuilding either party may within 2 months of the destruction, or the damage terminate the Term with immediate effect by giving Notice to the other party.
- (2) If this Lease is terminated in accordance with this clause, **clause 22** will apply.

21. Minister for Lands may terminate upon notice

- (1) Notwithstanding any other provision of this Lease, the Lessor and Lessee covenant and agree that the Minister for Lands may terminate this Lease for any reason upon six months written notice to the Lessee and Lessor.
- (2) No compensation or other consideration shall be payable to or claimable by the Lessee from the Lessor for or arising out of the termination of this Lease by the Minister for Lands.
- (3) If this Lease is terminated in accordance with this clause, **clause 22** will apply.

22. Obligations upon Termination

22.1 Yield up Site

On Termination the Lessee must:

- (a) peacefully surrender and yield up to the Lessor the Site in a condition consistent with the observance and performance of the Lessee's Obligations under this Lease; and
- (b) surrender to the Lessor all keys and security access devices and combination for locks providing access to or within the Site held by the Lessee whether or not provided by the Lessor.

22.2 Remove all improvements, structures and property

Unless otherwise agreed by the Lessor in writing pursuant to **clause 22.5**, the Lessee must at its cost and to the Lessor's satisfaction prior to expiration of the Term or within 30 days of the earlier determination of the Term:

- (a) remove:
 - (i) any improvements, buildings, fixtures and all septic tanks, drains and soakwells constructed or located on the Site, including without limitation all concrete floors and asbestos sheeting, if any. The removal of any asbestos must be in strict accordance with the *Health (Asbestos) Regulations 1992*; and
 - (ii) all chattels or goods belonging to the Lessee located on the Site or the Land;
- (b) following the removal of any improvements, buildings and fixtures and all septic tanks, drains and soakwells in accordance with paragraph (a), level the Site and clear it of all materials; and
- (c) remove any contaminated soil from the Site and make good the Site to the satisfaction of the Lessor.

© McLeods 7_5599_018.docx

22.3 Failure to remove or restore

- (1) If the Lessee fails to comply with **clause 22.2** within 60 days following termination or determination of the Lesser may at its option:
 - remove all improvements, buildings and fixtures and all septic tanks, drains and soakwells from the Site;
 - (b) restore the Site; or
 - (c) remove any contaminated soil and make good the Site.
- (2) For clarity, if the Lessee fails to remove any chattels or goods belonging to the Lessee in accordance with clause 22.2 the Lessor may elect to treat such chattels or goods of the Lessee as abandoned by the Lessee and such property shall then become the property of the Lessor absolutely.
- (3) In respect of any cost or expense incurred by the Lessor in undertaking any works pursuant to this clause the Lessee authorises the Lessor to drawn upon the Demolition Levy without notice. If the Demolition Levy is insufficient to cover such cost, then any amount in excess of the Demolition Levy shall be a liquidated debt recoverable from the Lessee by the Lessor in a court of competent jurisdiction.

22.4 Return of Demolition Levy

- (1) If the Lessee complies with its obligations pursuant to this clause to the Lessor's reasonable satisfaction, the Lessor will return to the Demolition Levy to the Lessee with thirty (30) days of the Lessor being satisfied.
- (2) If the Lessor exercises its rights pursuant to clause **22.3(2)** and draws upon the Demolition Levy, in the event a portion of the Demolition Levy remains after the completion of such works by the Lessor, the Lessor will return the remaining amount of the Demolition Levy to the Lessee within thirty (30) days.

22.5 Limited right for structures to remain

- (1) The Lessor may permit in its absolute discretion some or all improvements, buildings and fixtures and septic tanks, drains and soakwells to remain on the Site following determination of this Lease. The Lessor will only permit structures or buildings to remain if:
 - (a) the Lessee is to be granted a further lease of the Site; and
 - (b) all structures on the Site comply with the requirements of the *Building Act* 2011 and associated legislation.
- (2) The Lessor's permission pursuant to paragraph (1) above must be obtained at least three months prior to the expiry of the Term.

22.6 Clause to survive termination

The Lessee's obligations in this clause shall survive Termination.

23. Default

23.1 Events of Default

A default occurs if:

© McLeods 7_5599_018.docx page 19

- (a) the Lessee is in breach of any of the Lessee's Obligations for 28 days after a Notice has been given to the Lessee to rectify the breach or to pay compensation in money;
- (b) any execution or similar process is made against the Site on the Lessee's property;
- (c) the Site is permanently vacated; and
- (d) a person other than the Lessee or assignee is in occupation or possession of the Site or in receipt of a rent and profits.

23.2 Forfeiture

On the occurrence of any of the events of default specified in **clause 23.1** the Lessor may:

- (a) without prior notice and at any time enter and take possession of the Site and, where that occurs, the Lease shall be terminated immediately from that date of entry; and
- (b) give notice to the Lessee terminating the Lease and the Lease shall be terminated immediately from the date of that notice;

and, where the Lessor terminates the Lease under this clause, the Lessor will retain all of its rights in respect of any other breach by the Lessee of the Lessee's Obligations and the Lessee will not be released from any liability in respect of the Lessee's Obligations.

23.3 Lessor may remedy breach

If the Lessee:

- (a) fails or neglects to pay the Amounts Payable by the Lessee under this Lease; or
- (b) does or fails to do anything which constitutes a breach of the Lessee's Obligations,

then, after the Lessor has given to the Lessee notice of the breach and the Lessee has failed to rectify the breach within a reasonable time, the Lessor may without affecting any right, remedy or power arising from that default pay the money due or do or cease the doing of the breach as if it were the Lessee and the Lessee must pay to the Lessor on demand the Lessor's reasonable costs and expenses of remedying each breach or default.

23.4 Acceptance of Amount Payable by Lessor

Demand for or acceptance of the Amounts Payable by the Lessor after an event of default has occurred will not affect the exercise by the Lessor of the rights and powers conferred on the Lessor by the terms of the Lease or at law and will not operate as an election by the Lessor to exercise or not to exercise any right or power.

23.5 Essential Terms

(1) Each of the Lessee's Obligations in **clauses 5** (Lease Fee and other payments), **7** (Insurance), **8** (Indemnity), **9** (Maintenance, repair and cleaning), **10** (Building Requirements); 12 (Restrictions on use), **clause 13** (Common Areas); **16** (Statutory Obligations and notices); **18** (Restrictions on Assignment; No sub-letting or charging), are essential terms of this Lease but this **clause 23.5** does not mean or imply that there are no other essential terms in this Lease.

23.6 Breach of Essential Terms

If the Lessee breaches an essential term of this Lease or upon the occurrence of a Persistent Breach, in addition to any other remedy or entitlement of the Lessor:

© McLeods 7_5599_018.docx page 20

- the Lessee must compensate the Lessor for the loss or damage suffered by reason of the breach of that essential term;
- (b) the Lessor will be entitled to recover damages against the Lessee in respect of the breach of an essential term;
- (c) the Lessee covenants with the Lessor that if the Term is determined -
 - for breach of an essential term or the acceptance by the Lessor of a repudiation of this Lease by the Lessee; or
 - (ii) following the failure by the Lessee to comply with any notice given to the Lessee to remedy any default,

the Lessee must pay to the Lessor on demand the total of the Amounts Payable under this Lease which would have been payable by the Lessee for the unexpired balance of the Term as if the Term had expired by effluxion of time together with the losses incurred or reasonably expected to be incurred by the Lessor as a result of the early determination including but not limited to the costs of re-letting or attempting to re-let the Site; and

(d) the Lessee agrees that the covenant set out in this clause will survive termination or any deemed surrender at law of the estate granted by this Lease.

24. Disputes

24.1 Referral of Dispute: Phase 1

Except as otherwise provided any dispute arising out of this Lease is to be referred in the first instance in writing to the lessor's representative as nominated in writing by the Lessor from time to time (Lessor's Representative) who shall convene a meeting within 10 days of receipt of such notice from the Lessee or such other period of time as is agreed to by the parties between the Lessor's Representative and an officer of the Lessee for the purpose of resolving the dispute (Original Meeting).

24.2 Referral of Dispute: Phase 2

In the event the dispute is not resolved in accordance with **clause 24.1**of this Lease then the dispute shall be referred in writing to the CEO of the Lessor who shall convene a meeting within 10 days of the Original Meeting or such other date as is agreed to by the parties between the CEO and the Lessee for the purpose of resolving the dispute.

24.3 Appointment of Arbitrator: Phase 3

In the event the dispute is not resolved in accordance with **clause 24.2** of this Lease then the dispute shall be determined by a single arbitrator under the provisions of the *Commercial Arbitration Act* 2012 (as amended from time to time) and the Lessor and the Lessee may each be represented by a legal practitioner.

24.4 Payment of Amounts Payable

The Lessee must continue to pay the Amounts Payable in full until the date of the Arbitrator's decision or the date of an agreement between the Parties, whichever event is the earlier, and if upon resolution of the dispute the Lessee is deemed to have paid more than required, the Lessor will refund to the Lessee any such overpayment.

© McLeods 7_5599_018.docx | page 21

25. No Absolute Caveat

The Lessee nor any person on behalf of the Lessee will, without the prior written consent of the Lessor, lodge any absolute caveat at Landgate against the Certificate of Title for the Land, to protect the interests of the Lessee under this Lesse.

Goods and services tax

26.1 Lessee must Pay

If GST is payable on the Basic Consideration or any part thereof or if the Lessor is liable to pay GST in connection with the sublease of the Site or any goods, services or other Taxable Supply supplied under this Lease then, as from the date of any such introduction or application:

- (e) the Lessor may increase the Basic Consideration or the relevant part thereof by an amount which is equal to the GST Rate; and
- (f) the Lessee shall pay the increased Basic Consideration on the due date for payment by the Lessee of the Basic Consideration.

26.2 Increase in GST

If, at any time, the GST Rate is increased, the Lessor may, in addition to the GST Rate, increase the Basic Consideration by the GST Adjustment Rate and such amount shall be payable in accordance with this clause.

26.3 GST invoice

Where the Basic Consideration is to be increased to account for GST pursuant to this clause the Lessor shall in the month in which the Basic Consideration is to be paid, issue a Tax Invoice which enables the Lessee to submit a claim for a credit or refund of GST.

27. Notice

27.1 Form of delivery

A Notice to a Party must be in writing and may be given or made:

- (a) by delivery to the Party personally;
- (b) by addressing it to the Party and leaving it at or posting it by registered post to the address of the Party appearing in this Lease or any other address nominated by a Party by Notice to the other.
- (c) by addressing it to the Party and emailing it to the email address appearing in this Lease or any other email address nominated by a Party by Notice to the other.

27.2 Service of notice

A Notice to a Party is deemed to be given or made:

- (a) if by personal delivery, when delivered;
- (b) if by leaving the Notice at an address specified in **clause 27.1** at the time of leaving the Notice, provided the Notice is left during normal business hours; and

© McLeods 7_5599_018.docx | page 22

- (c) if by post to an address specified in **clause 27.1**, on the third business day following the date of posting of the Notice; and
- (d) if by email, when despatched by email to an email address specified in **clause 27.1** of this Lease unless the time of dispatch is not on a Business Day or after 5 pm on a Business Day, in which case it will be deemed to be given or made on the next following Business Day.

27.3 Signing of notice

A Notice to a Party may be signed:

- (a) if given by an individual, by the person giving the Notice;
- (b) if given by a corporation, by a director, secretary or manager of that corporation;
- (c) if given by a local government, by the CEO;
- (d) if given by an association incorporated under the Associations Incorporation Act 2015, by any person authorised to do so by the board or committee of management of the association; or
- (e) by a solicitor or other agent of the individual, corporation, local government or association giving the Notice.

28. General provisions

28.1 No Fetter

Notwithstanding any other provision of this Lease, the Parties acknowledge that the Lessor is a local government established by the *Local Government Act 1995*, and in that capacity, the Lessor may be obliged to determine applications for consents, approvals, authorities, licences and permits having regard to any Written Law governing such applications including matters required to be taken into consideration and formal processes to be undertaken, and the Lessor shall not be taken to be in default under this Lease by performing its statutory obligations or exercising its statutory discretions, nor shall any provision of this Lease fetter the Lessor in performing its statutory obligations or exercising any discretion.

28.2 Acts by agents

All acts and things which the Lessor is required to do under this Lease may be done by the Lessor, the CEO, an officer or the agent, solicitor, contractor or employee of the Lessor.

28.3 Statutory powers

The powers conferred on the Lessor by or under any statutes for the time being in force are, except to the extent that they are inconsistent with the terms and provisions expressed in this Lease, in addition to the powers conferred on the Lessor in this Lease.

28.4 Severance

If any part of this Lease is or becomes void or unenforceable, that part is or will be severed from this Lease to the intent that all parts that are not or do not become void or unenforceable remain in full force and effect and are unaffected by that severance.

© McLeods 7_5599_018.docx page 23

28.5 Variation

This Lease may be varied only by deed executed by the parties subject to such consents as are required by this Lease or at law.

28.6 Moratorium

The provisions of a statute which would, in any respect, affect the terms of this do not, to the fullest extent permitted by law, apply to limit the terms of this Lease.

28.7 Further assurance

The Parties must execute and do all acts and things necessary or desirable to implement and give full effect to the terms of this Lease.

28.8 Payment of money

Any Amounts Payable to the Lessor under this Lease must be paid to the Lessor at the address of the Lessor referred to in the Lease or as otherwise directed by the Lessor by Notice from time to time.

28.9 Waiver

- (1) Failure to exercise or delay in exercising any right, power or privilege in this Lease by a Party does not operate as a waiver of that right, power or privilege.
- (2) A single or partial exercise of any right, power or privilege does not preclude any other or further exercise of that right, power or privilege or the exercise of any other right, power or privilege.

28.10 Governing law

This Lease is governed by and is to be interpreted in accordance with the laws of Western Australia and, where applicable, the laws of the Commonwealth of Australia.

28.11 Interpretation

In this Lease, unless expressed to the contrary:

- (a) Words using:
 - (i) the singular include the plural;
 - (ii) the plural include the singular; and
 - (iii) any gender includes each gender;
- (b) A reference to:
 - (i) a natural person includes a body corporate or local government; and
 - (ii) a body corporate or local government includes a natural person;
- (c) A reference to a professional body includes a successor to or substitute for that body;
- (d) A reference to a Party includes its legal personal representatives, successors and assigns and if a Party comprises two or more persons, the legal personal representatives, successors and assigns of each of those persons;

© McLeods 7_5599_018.docx page 24

- (e) A reference to a statute, ordinance, code, regulation, award, town planning scheme or other law includes a regulation, local law, by-law, requisition, order or other statutory instruments under it and any amendments to re-enactments of or replacements of any of them from time to time in force;
- (f) A reference to a right includes a benefit, remedy, discretion, authority or power;
- (g) A reference to an obligation includes a warranty or representation and a reference to a failure to observe or perform an obligation includes a breach of warranty or representation;
- (h) A reference to this Lease or provisions or terms of this Lease or any other deed, agreement, instrument or contract include a reference to:
 - (i) both express and implied provisions and terms; and
 - (ii) that other deed, agreement, instrument or contract as varied, supplemented, replaced or amended;
- (i) A reference to writing includes any mode of representing or reproducing words in tangible and permanently visible form and includes facsimile transmissions;
- (j) Any thing (including, without limitation, any amount) is a reference to the whole or any part of it and a reference to a group of things or persons is a reference to any one or more of them;
- (k) If a Party comprises two or more persons:
 - (i) the obligations and agreements on their part bind and must be observed and performed by them jointly and each of them severally and may be enforced against any one or more of them; and
 - (ii) unless otherwise specified in **Item 1** of the Schedule it will be presumed that each person will have an equal shares in the Lease and hold their share as a tenant in common.
- (l) The agreements and obligations on the part of the Lessee not to do or omit to do any act or thing include:
 - (i) an agreement not to permit that act or thing to be done or omitted to be done by the Lessee's Agents; and
 - (ii) an agreement to do everything necessary to ensure that that act or thing is not done or omitted to be done; and
- (m) Except in the Schedule headings do not affect the interpretation of this Lease.

Schedule

Item 1. Lessee

[Insert full name and address of Lessee. Also insert an email address. If there are two or more Lessees specify whether the Lessees hold their interest as tenants in common or joint tenants].

Item 2. Land

Reserve 24308 being Lot 373 on Deposited Plan 219595 being the land comprised within Crown Land Title LR 3107 Folio 425.

Item 3. Site

That part of the Land depicted on the sketch annexed hereto as **Annexure 1**, and known as ["Shack X"].

Item 4. Term

5 years commencing on 1 September 2022 and expiring on 31 August 2027.

Item 5. Commencement Date

1 September 2022

Item 6. Lease Fee

[\$City to insert current rental amount] per annum payable annually in advance, with the first payment due on the Commencement Date.

Item 7. Demolition Levy

[\$City to confirm current demolition levy] per annum payable annually in advance, with the first payment due on the Commencement Date.

Item 8. Review Date

- a) Subject to **Item 8(b)**, the Lease Fee and the Demolition Levy will be reviewed annually on the anniversary of the Commencement Date, in every year of the Term and any further term.
- b) The Demolition Levy will be fixed for the first two years of the Term commencing on the Commencement Date.

Item 9. Permitted Purpose

Short term holiday accommodation.

© McLeods 7_5599_018.docx | page 26

Item 10. Public Liability Insurance

Twenty million dollars (20,000,000.00).

Item 11. Further Term

5 years commencing on 1 September 2027 and expiring on 31 August 2032.

Number	Submission	City Comments
Number 1	Dear CEO City of Cockburn, I am pleased to be part of a family receiving a letter of lease renewal for the Naval Base Shack, especially as the lease is five years by five years. This ensures my children are able to experience a childhood of holidays and weekends at 'The Shack'. They will be part of the Shack community and I believe will be able to take their children there in the future. I do not however agree with the proposed lease fee of \$3250. This is an increase of over 30%. This is a huge jump in fees for leasing the same thing as the last ten years. I don't believe the independent valuation is correct in this aspect. Surely costs can not increase by 30%. For any shack owner this amount per year at such a substantial increase, it will put strain on many families. The City of Cockburn has enough money from previously paid leases and therefore does not need to increase the amount. A more suitable cost should be proposed for the fees which is significantly less than \$3250. With regard to the type of insurance a shack owner must hold I do adhere to the public	The proposed term of five (5) years plus a five (5) year option to extend was supported in the submissions received. The proposed lease fee for the Naval Base Shacks was formulated based on a Market Rent Valuation undertaken by licenced Valuer & Property Advisor, Hemsley Paterson in accordance with the Australian and New Zealand Valuation and Property Standards definition adopted by the Australian Property Institute. As the Naval Base Shack site is the only one of it's kind existing within the Perth Metropolitan Area, a combination of comparisons was used in order to formulate the valuation, using an
		comparisons was used in order to
		Base Shack Lessees do not pay rates. The funds payable each year are a lease fee (rent) for the use of the land and associated costs of managing the site

410 of 790

> (including consumables). It would not be appropriate to use public funds from City of Cockburn rate payers to upgrade, upkeep or otherwise maintain a site that is used for private holiday accommodation.

> The lease fee is paid into a Reserve Fund that is guarantined by the City of Cockburn for the purpose of undertaking Capital Development and Maintenance for the site (such as internal roads; upgrades for the ablutions) The City also guarantines the Naval Base Shack demolition levy to be used specifically for the purpose of remediating the site when a lease is terminated (including asbestos removal).

It should be noted that the Naval Base Shack site is holiday accommodation. The reviewed lease fee is reflective of the increase in consumables and based on an independent valuation which ensures transparency. Holiday accommodation is not a necessity and is not comparable to residential rent or affordable housing, or residential rates. It is not appropriate for the City to use public funds to subsidise the holiday accommodation of a small number of private lease holders.

The public response to the proposed addition of Building and Contents Insurance as a term of the new lease agreement was not supportive. Following this feedback, the City will amend the draft lease to have the Lessee covenant to arrange annual Public Liability Insurance and provide a certificate of currency to the City of Cockburn upon

		renewal of this insurance cover. Building and Contents insurance can be arranged by each Lessee with their insurer at their discretion but will not be a lease requirement.
Number	Submission	City Comments
2	To the City of Cockburn, Thank you for you recent correspondence, with my offer of the 5 x 5 year lease term, very	Please refer to City Comments in submission 1
	much appreciated. Even though I find the huge, rate increase appalling. How can this be justified? Why not a CPI increase yearly? How can a valuation be determined? What other site can we be compared to? We are not a caravan park with powered sites with water connections, swimming pools, gardeners in attendance, our own ablutions block. We are a unique site, no other like it in the metro area. We have no electricity, no internal water connection, with public facility's, being maintained by our fees. We keep the area maintained for the use by the public. We are not funded by your rate payers, we are self sufficient. With plenty of fees in reserve. More than ever will be required. We are restricted to 120 days per year. Why can't this be increased? Yes we are in a buffer zone, The nearest industry is Alcoa, where the emissions are heavily monitored & controlled. A lot safer than it was in the past. If we were not here ,who else could use this site with such restrictions on its usage? That would bring you the income we are expected to pay. There are many benificial ways to improve the management of this site. Demolition is not 1 of them. Allowing the auction or sale of them to recoup outstanding fees is a better option. If a person is going to be dedicated to support us, maybe this person could manage the vacant sites. Which can be rented during the summer months and school holidays, like in the past when the grassed area along the fence line was rented from the city for a nightly fee. The ridiculous request for building & contents insurance is beyond belief. This is not the city's business. Insurances are not cheap, Why would we insure our contents? Insurance would cost more than our contents are worth. Our contents are very minimal & basic, left overs from home, second hand or from verge collections. All that is required to enjoy our time at the beach.	As addressed in the FAQ section on the City of Cockburn's website. Kwinana is the State's major heavy industrial area. Many of these industries are located in Kwinana because they are potentially dangerous and they could not be located anywhere else in/near Perth. The recommended (by EPA) buffer from residences to a typical heavy industry is 1km to 5km. This is to provide protection to the residents by ensuring that any emissions are able to be diluted in the atmosphere before they reach the residential areas. It is also to provide some protection to these major industries of state and sometimes national significance so that they are not required to invest significant funds in excessive emission control and operational safety systems. The City's requirement is that the Shack is to be used for 120 days in any year no matter who is staying in the shack. The City is not supportive of some lessees using their shack for longer than 120 days in any year, based on public health reasons.
	As a member of the Naval Base Holiday Association, I fully support all their recommendations.	The demolition of a Shack and remediation of the site upon termination

412 of 790

Number 3	Submission To who it may concern,	The City's intention to engage a Planning Consultant has caused some confusion. To clarify, the intention is to ensure that expert guidance is provided with reference to planning legislation and the potential options available prior to making decisions regarding the use of the vacant sites at the Naval Base Shacks that result from terminations. This consultant will not decide what is to be done with any vacant sites. City Comments Please refer to City Comments in
Number	Submission	Consultant has caused some confusion. To clarify, the intention is to ensure that expert guidance is provided with reference to planning legislation and the potential options available prior to making decisions regarding the use of the vacant sites at the Naval Base Shacks that result from terminations. This consultant will not decide what is to be done with any vacant sites.
		facilitate the assignment of a lease, the buying and selling of shacks is not something which the City can be involved in accordance with risk management practices.
		was initially contemplated during the development of the lease agreement and discussed at length, resulting in the charging of a demolition levy for this purpose. The City has received submissions that do not support this strategy, with suggestions for on-selling or auctioning shacks where the lease has been terminated so that the amenity can continue to be enjoyed by others. Unfortunately, the City is not able to support on-selling or auctioning vacant shacks based on multiple rationale, supported by legal advice obtained by the City in relation to the options for terminated shack sites. The City cannot take ownership of or on-sell assets where there is uncertainty regarding their condition or ability to meet BCA requirements. While the City is able to

Please see below my response to the letter received:

I would not like to see any Shacks demolished. I understand that some owners are behind in rates, insurance etc but these shacks should be sold off at auction or some process between the owner and the council that would allow someone to buy the shack, we do not want to see any of these heritage listed properties removed.

In keeping with this theme, we do not support the idea of having a planning consultant decide what to do with the empty sites – no sites should be empty. For any empty sites the Association suggests an advisory committee is established to provide assistance to the City is needed. Sites should be leased. Any built form should be in keeping with the scale and uniformity of the site. No dongas should be allowed, the donga that has been allowed to be built right opposite the doubs lookout is ugly and not in keeping with the rest of the shacks

In regard to the Fees proposed by the City of Cockburn: The Association propose the fee for 2023/2024 is the current fee plus CPI. We do not support the advertised fee. We note this fee has been determined based on a commercial valuation. The increase to \$3.500 is a concern. It is a massive 33 percent jump. We still have a lot of people who are pensioners. More importantly, when looking at the Purpose of the Naval Base Reserve it has been established to cover the costs of the site, and yet since the last significant (100%) increase ten years ago the reserve has continued to grow. There is currently \$1.291 Million in the reserve fund and \$872,331 for the demolition levy (approx. \$5k per shack). The reserve has been growing with Shack owners money paid in annually. The City of Cockburn does not pay towards any of the maintenance or cleaning of the site via rates - it is all via shack owners funds. This is despite public facilities also existing at the site. The fees traditionally covered the costs, and the Association supports this. The Lease fee should be set accordingly. Noting Cockburn are unlikely to be willing to reduce the fee from its current amount we suggest a compromise if the current fee (Approx \$2,400) Plus CPI. The amount proposed is absolutely crazy and unwarranted. given the amount of money we allreardy have in the account. This is fair and will ensure the site can continue to be enjoyed by families young and old – and not only for the rich.

In regard to Insurance Public Liability should be required. There is no need for Building and contents to be required, this should be optional for shack owners who wish to do so. It does not make any difference to the City. We respectfully request the Public Liability requirement in the current lease remain and that the new proposed requirement for Building and contents be removed.

Multiple submissions have touched on infrastructure upgrades at the Naval Base Sites. There were suggestions received to repurpose the laundry block into ablutions. Retrofitting is less financially viable than knocking down and rebuilding. A full break down of indicative costs is included in the Council Report.

In regard to the Management plan, we would appreciate further discussion re the potential to repurpose the Southern Laundry Block, rather than demolish. Very supportive of the pontoon, also the idea of a children's playground.

Persistent Breach – This clause will allow the City to ensure compliance and allow persistent breaches to be actioned.

Naval Base Shacks Management Plan

- A part-time person dedicated to Naval Base Shacks to provide support to shack owners. The intention is to have a dedicated resource to undertake inspections of common areas; respond to enquiries and address issues raised by shack owners.-happy to have this as long as things actually get done.
- Redevelopment of both shower and toilet blocks.- yes fine.
- Demolition of the existing laundry block- no issue

Repurpose of Southern laundry block not demolition

Return of shop or amenities to encourage community behaviour

In favour of children's playground and pontoon

Accept 5 year lease with option for 5 year

- Investigating the installation of a pontoon.-yes this would be good
- · Investigating a strategic site plan development for unused spaces within the Reserve

The City continues to implement methods to improve the safety of Naval Base Lessees, with methods such as the installation of 20 CCTV cameras in June 2022 operating to deter antisocial behaviour.-very happy with this.

Number	Submission	City Comments
5	 With reference to the proposed New Lease Terms for Naval Base Shacks I would like to make the following comments; The fee increase seems to be excessive considering use of the Shacks is for only 120 days per annum. The lease fee would be fairer if the current fee was only increased by CPI from the current rate. The requirement for Building and Contents insurance will be difficult to obtain and is considered unnecessary. My current shack insurer, Ausure Pty Ltd Insurance, has advised that Building and Contents insurance is no longer provided for my shack which leaves me in a dilemma as what to do unless the City of Cockburn can advise a suitable insurance provider. If this requirement cannot be fulfilled does it mean I will be in default of the lease and need to demolish the shack which would be a shame after 70 years of family occupation. I am prepared to carry out any repairs to the Shack building and contents at my own cost as usual. I agree with the requirement to comply with sprinkler water restrictions at the site. These are long overdue as some shacks run sprinklers all day. This requirement will need to be enforced. 	Please refer to City Comments in submission 1. There was a variety of responses relating to the proposed restriction on water usage at the Naval Base site, however for the most part submissions supported this addition. While water restrictions are governed at a State (not Local Government) level, the City is supportive of ensuring responsible use of resources in line with sustainability and water wise strategies.
Number	Submission	City Comments
6	Dear CEO, City of Cockburn. Re: Response to Public Advertising of the Naval Base Shacks Lease. On behalf of the Naval Base Holiday Association, we would like to commend the Council for the advertising of a 5-year lease with a 5-year option, commencing in September 2023. This is supported by the Association. We would also like to take the opportunity to thank staff for their efforts to date in getting the lease drafted and for their ongoing assistance in the management of the site. We also	The Naval Base Holiday Association Committee have been extremely supportive of the City in encouraging contact from Shack Owners and assisting with pointing Shack Owners in the right direction for updates and correspondence on the City's website. Their passion for the site and willingness to volunteer their time to represent this community should be commended.

416 of 790

note support for the conditions such as compliance with relevant local laws; all planning and building conditions; that no portable toilets should be on site and in regard to the sprinkler conditions the City has set.

In regard to modification and improvements to the draft we note: The site covers an area of 45468m2(26), which originally included 178 shacks, which are arranged in five rows running north-south. One of the key areas of concern for the Association is the proposal to demolish shacks, with the City referencing its legal advice that it does not own shacks. This is not supported by the Association. The Association requests a copy of this advice and suggests that shacks could be retained on the site and resold via auction. The provisions of s.3.58 of the Local Government Act apply not only to leasing, but also to the disposal of Local Government property. The Functions and General Regulation 30(3)(a) prescribes that a disposition of property, other than land, that has a market value less than \$20,000 is exempt from compliance with the disposal provisions specified under s.3.58. The Shack is not land, and clearly considered separately by the City - based on its current advice that it does not own the shacks and this is why the City of Cockburn would need to demolish them. If the disposal is above \$20,000, which we agree would be the case for some of the shacks, then the provisions of s.3.58 would apply, the process could look like a report to Council in regard to sites proposed to be Auctioned, with shacks on them, which will require a council decision, disposal by public tender, auction or by private treaty subject to relevant public advertising and submission requirements within Councils process. There are also mechanisms under the Disposal of Uncollected Goods Act 1970 (WA). The Association respectfully requests that this is explored by the City of Cockburn and seriously entertained. In keeping with this theme, we do not support the idea of having a planning consultant decide what to do with the empty sites - no sites should be empty. For any empty sites the Association suggests an advisory committee is established to provide assistance to the City is needed. Sites should be leased. Any built form should be in keeping with the scale and uniformity of the site. No dongas should be allowed, and perhaps a Local Planning Policy would help to ensure that any rebuilds are in keeping with the site.

We believe that the need for the demolition levy should be carefully considered, it was introduced with concern by Cockburn that the site may need to be cleared in the future. This is no longer the case. At best if the levy is kept Cockburn Administration should be clear in how it is calculated and how much more they expect owners to have to pay into the Levy.

In regard to the Fees proposed by the City of Cockburn: The Association propose the fee for 2023/2024 is the current fee plus CPI. We do not support the advertised fee. We note this fee has been determined based on a commercial valuation. The increase to \$3,500 is a concern. It is a massive 33 percent jump. We still have a lot of people who are

Please refer to City Comments in submissions 1,2,3 & 4.

There is reference throughout the submissions to the 'Heritage' nature/listing of the Naval Base Shacks. While there are aesthetic aspects referred to in *Local Planning Policy 4.5* relating to the nature of the site, the individual shacks have no registered heritage component, other than the archaeological value pursuant to Thomas Peel and the first fleet's landing. The potential archaeological heritage characteristics are for the ground underneath the shacks – not the buildings themselves.

pensioners. More importantly, when looking at the Purpose of the Naval Base Reserve it has been established to cover the costs of the site, and yet since the last significant (100%) increase ten years ago the reserve has continued to grow. There is currently \$1.291 Million in the reserve fund and \$872,331 for the demolition levy (approx. \$5k per shack). The reserve has been growing with Shack owners money paid in annually. The City of Cockburn does not pay towards any of the maintenance or cleaning of the site via rates – it is all via shack owners funds. This is despite public facilities also existing at the site. The fees traditionally covered the costs, and the Association supports this. The Lease fee should be set accordingly. Noting Cockburn are unlikely to be willing to reduce the fee from its current amount we suggest a compromise if the current fee (Approx \$2,400) Plus CPI. This is fair and will ensure the site can continue to be enjoyed by families young and old – and not only for the rich.

In regard to Insurance, the Association agreed Public Liability should be required. There is no need for Building and contents to be required, this should be optional for shack owners who wish to do so. It does not make any difference to the City. We respectfully request the Public Liability requirement in the current lease remain and that the new proposed requirement for Building and contents be removed.

In regard to the Management plan, we would appreciate further discussion re the potential to repurpose the Southern Laundry Block, rather than demolish. Very supportive of the pontoon, also the idea of a children's playground.

The Association would like to remind the City of Cockburn administration and Council of the importance of the site, and the importance of their role as custodians of the site. According to the National Trust the Naval Base Shacks have cultural heritage significance for the following reasons:

- The place is representative of Western Australian coastal shack settlements that developed as holiday destinations from the 1930s to 1960s and demonstrates a way of life during that time as well as the evolution of the site since then.
- The place is one of eleven remaining shack settlements in Western Australia and the only shack settlement located within the Perth metropolitan area.
- The place is highly valued by the community and has been used as a holiday destination since the late 1930s, with ownership of shacks being passed down through generations of families.
- The place has overall uniformity in scale, however each shack has an individual character which has developed over time and collectively they form a distinctive cultural landscape and vernacular style.

- The place has the potential to yield archaeological deposits and provide a greater understanding of Clarence, Thomas Peel's 1830s settlement.
- The place has the potential to contain archaeological deposits that relate to the residence erected by Thomas Peel in 1830."

The shacks are highly valued by the owners and for the last fifty years the Naval Base Shacks Association has acted as not only a conduit between the shack owners and the City of Cockburn in the management of the site, but also to actively encourage the continuation of the strong community spirit. The Association facilitates the shack community's events and traditions, including Easter celebrations, annual children's fun days and Christmas events. These events not only demonstrate the level of social cohesion at the site but also contribute to the community's sense of place.

The Naval Base Shacks have been used by generations of families as a holiday destination since the late 1930s. The establishment of the site as a reserve and the subsequent management by the City of Cockburn enabled families to build permanent dwellings which have an overall uniformity in size and scale but are distinguishable by the level of personalisation and continued use. Each shack has an individual character which has been developed over time and collectively the shacks form a distinctive cultural landscape. While the evolution of the shacks is listed as a distinguishing feature in the City of Cockburn's Heritage Area documentation, there is concern that strict planning controls and increased uniformity will negatively influence the character of the site and the distinctive vernacular style which is key to the heritage value of the shacks.

Naval Base Shacks are a wonderful place. Always welcoming many visitors who take a walk through and look at the unique location, stopping for a swim and to enjoy the laid-back surroundings of the area. We are still able to live much as our ancestors did 70 years ago. Many share stories of the good train that ran through the middle of the park, which they would go up to the fence and watch, the playground, swimming lessons at the beach, of the shop, and the houses over the road (All of which are now gone) This demonstrates that the Shacks are the last remains of an era which has now gone.

We would encourage the re-establishment of a shop or a similar kiosk style operation on the site, which the City did advise would occur when the shop was removed.

In their assessment in 2018 the National Trust made a Conservation Recommendation to, "Ensure that any additions and or alterations to the site maintain the individual character and collective vernacular style of the shacks." The Association supports this and encourages the City of Cockburn to ensure its Local Planning Scheme also supports this.

419 of 790

The Site has been deemed significant across a number of categories, with the National Trust determining it had aesthetic, historic, scientific, social, rarity, representativeness and authenticity values.

The place contributes to the natural environment of Cockburn Sound, providing residential character in a coastal area that is surrounded by heavy industry.

The distinctive vernacular style of the settlement contributes to the character and landscape quality of the area.

The place is associated with the evolution of the concept of 'the seaside holiday'. This began in the early 1900s by booking a hotel by the sea and developed into one where more people took holidays as they built their own accommodation (shacks) in a popular seaside location that was not located near the popular metropolitan beaches.

The place displays the gradual formalisation of a 'shack settlement'. These settlements began with an ad hoc collection of structures (caravans with annexes and simple constructed shacks) to one where rules were developed to formalise the size, appearance and design of the shacks.

The place is associated with the training of military personnel, including the 10th Light Horse Regiment, prior to the outbreak of World War II.

The place has the potential to contain archaeological deposits related to Thomas Peel's failed 1830 settlement, Clarence. These deposits have the potential to yield information on how the settlers first tried to establish a foothold in an unfamiliar environment, the types of objects they brought with them and then later abandoned as this frontier environment became too difficult to endure. This place may contain archaeological deposits associated with the house erected by Thomas Peel at this Clarence settlement.

The place is highly valued by the community and the generations of families that have used the site as a holiday destination since the late 1930s.

The place has high social value for the shack community, with shacks being passed down through generations.

The place is one of eleven remaining shack settlements in Western Australia and the only shack settlement located within the Perth metropolitan area.

The place demonstrates a way of life from the 1950s and 1960s and how holiday destinations promoted an outdoor lifestyle not seen as frequently today.

The place is representative of coastal shack settlements developed as holiday destinations from the 1930s to the 1960s in Western Australia.

Currently the place has a high level of integrity, however care must be taken to ensure future development and regulation does not extinguish the character of the site.

While the place only contains a few of the original caravan and annexe shacks, those constructed from the 1960s remain mostly unchanged, with the exception of modern additions such as gas bottles and solar panels.

We note we also received feedback from a member re the rules around breaches of leases, noting the shacks should not be demolished for this purpose – of which the Association agrees.

We are passionate about preserving the site, and its associated values into the future, including the protection and preservation of the Cockburn Sound and nearby Beeliar Regional Park. "We have lived at one, and enhanced this environment for generations. We are more than 90 years old – and look forward to the next 90!

Thank you once again of the offer of the lease and we hope the amendments suggested can be made prior to adoption by Council.

Number Submission **City Comments** Please refer to City Comments in Hi. submissions 1.2.3 & 5. Please consider this email as my official response to your offer letter: The cost of demolition of shack 338 was \$10.202.32 in 2020. This cost included I support: 4. the conditions such as compliance with relevant local laws, all planning and remediation of the leased site (including building conditions. That no portable toilets should be on site and in regard to 60cm of ground) due to asbestos the sprinkler conditions the City has set contamination. I support and agree with below points: 5. areas of concern for the Association is the proposal to demolish shacks, with the City referencing its legal advice that it does not own shacks. The Association requests a copy of this advice, and suggests that shacks could be retained on the site and resold via auction under the Disposal of Uncollected

Goods Act 1970 (WA) ("the Act"). The Association respectfully requests that

this is explored by the City of Cockburn and seriously entertained. In keeping with this theme, we do not support the idea to have a planning consultant decide what to do with the empty sites – no sites should be empty. For any empty sites the Association suggests an advisory committee is established to provide assistance to the City is needed. Sites should be leased. Any built form should be in keeping with the scale and uniformity of the site. No dongas should be allowed, and perhaps a Local Planning Policy would help to ensure that any rebuilds are in keeping with the site.

- 6. We would like to know the demolition cost of shack 338?
- 7. IN regard to the Fees proposed by the City of Cockburn: The Association propose the fee for 2023/2024 is the current fee plus CPI. We do not support the advertised fee. We note this fee has been determined based on a commercial valuation. The increase to \$3.500 is a concern. It is a massive jump. We still have a lot of people who are pensioners. It's a 33 percent jump. More importantly, when looking at the Purpose of the Naval Base Reserve it has been established to cover the costs of the site, and yet since the last significant (100%) increase ten years ago the reserve has continued to grow. There is currently \$1.291 Million in the reserve fund and \$872,331 for the demolition levy (approx. \$5k per shack). The reserve has been growing with Shack owners' money paid in annually. The City of Cockburn does not pay towards any of the maintenance or cleaning of the site via rates - it is all via shack owners funds. This is despite public facilities also existing at the site. The fees traditionally covered the costs, and the Association supports this. The Lease fee should be set accordingly. Noting Cockburn are unlikely to be willing to reduce the fee from its current amount we suggest a compromise at the current fee (Approx \$2,400) Plus CPI. This is fair and will ensure the site can continue to be enjoyed by families young and old – and not only for the rich. 8. In regard to Insurance. The Association agreed Public Liability should be required. There is no need for Building and contents to be required, this should be optional for shack owners who wish to do so. It does not make any difference to the City. We respectfully request the Public Liability requirement in the current lease remain and that the new proposed requirement for Building and contents be removed. In regard to the Management plan, we would appreciate further discussion re the potential to repurpose the Southern Laundry Block, rather than demolish. Very supportive of the pontoon, also the

 Hi

 General support of new lease

idea of a children's playground.

	I have been asked to send an email with regards to keeping the shacks We only purchased a few years ago and we love it. Coming from a rural living we really enjoy having somewhere to go with the family that isnt hot and unappealing. We spend public holidays, holidays down there and catch with family and friends. It's the only time we get to enjoy time as a family without 'technology' We would push for the leases to be renewed as we really benefit from them	
Number	Submission	City Comments
9	Good evening and thankyou for the 5 + year proposed lease. Such a very special place in my family and friends' hearts. I have seen the Associations response and congratulate them also for being the combined voice of shack owners. Can I highlight the concerns again regarding insurance, increase in fees and would dearly dearly love the deli to be returned as promised, just to make life a little easier. You can not compare the shacks to other properties as it is so unique. Do not charge us for facilities that aren't in place and that any member of the public has the right to wander in at will and use the available facilities. Thankyou for your time. Save Our Shacks and Save the Sound	Please refer to City Comments in submissions 1 & 4
Number	Submission	City Comments
10	Attention: CEO, City of Cockburn I am writing to request council reconsider the lease fee proposed for the naval base shacks . The following are my concerns and reasoning: (1) Excessive fee increase; New Lease \$3250 Demolition fee \$330 Current Lease \$2200 Current Lease fee \$300 Fee increase \$1050 Fee Increase \$300	Please refer to City Comments in submission 1

47.72% increase

10% increase

This seems to be a rather exorbitant amount considering the current amount held in the Naval Base Shack funds stand at \$1.291 million and demolition fund at \$872,000.

- (2) I believe the increase on the lease is based on a market valuation on Commercial caravan parks, the amenities of which far exceed that of the Naval Base Shacks. Camp kitchens, gas barbecues, gardening, lawn mowing, locked access, non sharing of toilets with the public to name a few.
- (3) In addition, historically crown land reserve leases are not usually granted to local governments for long term economic development or commercial purpose or benefit, therefore commercial valuation should not apply.

The new lease fee should be current fee plus CPI.

Please acknowledge this response has be viewed by the CEO in writing,

Naval Base Shacks Management Plan Subject to Council approval, the City is reviewing the Naval Base Shacks Management Plan and proposing the inclusion of the following: • A part-time person dedicated to Naval Base Shacks to provide support to shack owners. The intention is to have a dedicated resource to undertake inspections of common areas; respond to enquiries and address issues raised by shack owners. • Redevelopment of both shower and toilet blocks. • Demolition of the existing laundry block. • Investigating the installation of a pontoon. • Investigating a strategic site plan development for unused spaces within the

My comments in addition to previous comments.

I oppose the rent increase it is in the extreme. I think the valuer have simply looked at adjacent Caravan Parks for the value.

We are not comparable, we have no power water or sewerage. We have no facilities shop or common recreation. Basically we are a camping site. I would urge minimal improvements and minimal increases.

We do not need a pontoon and there would be little use of such a facility.

City Comments

Please refer to City Comments in submissions 1. 3 and 4.

The current lease requires building alterations to be assessed in accordance with the Building Code of Australia. The lease also addresses the parking, internal road and boat storage issues raised. There is no basis for the City to action a request to prevent electric scooters or bikes.

A designated fish offal cleaning/disposing area is not supported as it would potentially cause a dumping zone to be inadvertently created and would cause a significant problem if not used correctly.

424 of 790

Version: 3. Version Date: 05/08/2024

We do not been inspections of common areas. Perhaps a maintenance program

The children play area would be supported, perhaps a skatepark or Bmx. It would be better if this was in partnership with the reserve across the other side of Cockburn road as part of the Regional Park

The kiosk or shop is supported, but any rental should offset the proposed increases. In the main the City should consider bringing it up to caravan park standard instead of the current camp standard.

The requirement of no toilets is supported however there is a shortage of facilities and more should be built. Instead of demolishing the laundry block south, it should be converted to on suites. This happened in the northern block at minimal cost. The disused laundry in the northern block should also be converted to on suites.

Laundry facility should be considered, most of us can take laundry home but people with small children need something. Perhaps a facility could be built as part of the kiosk or shop.

There needs to be an improvement in the chalets or buildings condition. Transportable need to be in or out the new one in the center is not in keeping with the heritage of the reserve and an eye sore. Some encouragement to keep the chalets painted and again in a heritage scheme

There needs to be some interpretation type material or displays to show the heritage values of the site and past history.

There needs to be more control over boats being parked on the reserve. Should the owners only have them on site as part endorsement of the lease conditions. Currently many are not owned by the leases but simply being stored there by friends

There should be no off road or unlicensed vehicles on the reserve. Electric scooters and bikes should not be allowed as the internal roadway is not designed for them. Unless line of site and clear ways are considered.

There should be limits on vehicles parked on the sites with visitors to park outside in public car parks. Some sites have 3 permanently on site.

There need to be another beach access or stairway in the northern reserve. The current little beach need its steps and rocks improved especially down at the waters edge where the jagged rocks are dangerous when the sand washes away.

Regarding the comment requesting investigation into joint projects with the Department of Biodiversity, Conservation and Attractions (DBCA) and the Reserve adjacent the Naval Base Shacks. The two Reserves are vested for different purposes that would not support joint projects.

> Consideration for some fishing platforms for recreation users. Other uses, non leases should be encouraged such as picnic tables swimmers and cyclists, fishers swings a lookout.

more comment,

The internal roads are sinking since the larger rubbish trucks have been used. Also tourist busses being parked over night and other large vehicles. The beach area is situated on a cast limestone formation. The City road teams should be consulted.

Any building or alterations need to take into consideration drainage runoff so as to not cause sinkholes. This has happened in several place where the roof area has increased and run off increased

Fishing offal or by product should a cleaning or disposal facility be included. Plastic bag or fishing line waste is a problem. Is there a possibility to do something jointly with Kwinana which has the boat ramp.

What joint projects can be looked at with DBCA and the Regional Park.

To The CEO City Of Cockburn, Thanks for the offer of the 5 Year Lease with 5 Year Option. Whilst this is great news some items in the Lease renewal have caused us concern The proposed increase to 3500.00 is a massive increase and works out 33percent increase, I understand inflation but this seems extreme when the current CPI is only around 7%. We appreciate that you have done some works around the shacks re cameras etc. but all of the works is done by us the owners of the shacks whom maintain their own .The money spent on the site which comes out of the Shack Lease Money also cover the public facilities which we never had issue with until this huge increase. Which will affect so many that are struggling Another issue we have is a condition of the lease to have building and contents insurance. This should be optional as it doesn't affect the City one way or another. Still don't understand the Demolition Fee How many more years is this a requirement. Seems unfair Thanks Shack Owner

new lease would not be offered. Despite the gravity of this, the letter was not posted and I was not telephoned despite these contacts being held by the city. It was a fellow leaseholder who notified me 16th March 2023 that my shack site was not advertised by the City on their shack site at which point I emailed the City with a copy of my public liability insurance certificate of currency demonstrating that it was paid 24th August 2022 and had never lapsed. It is covered until due again 24th August 2023. I was relieved that the City returned email stating "Now that the City has received your insurance documents prior to the 28th March 2023 extension, your profile is compliant and you will be offered a lease. A second round of advertising will be undertaken after 28 March 2023 for those who successfully provide their insurance information by this deadline – I will be in touch with your Offer Letter when we progress with advertising." Yesterday I emailed the City enquiring as to when a lease document would be sent or payment requested. I wrote that I am very worried and anxious about the limited time between notices and deadlines given how long I have waited for this and requested to be telephoned if payment is required within the next 2 days. I received an email reply "You can make payment – I have cc'd Revenue should you wish to make contact. The 2023 fees are based on the lease that is holding over (not the new lease). The full details of the timeline for the new lease to be signed are on the City's website. Lease Fee and Demolition Fee

We do not agreed with the proposed Lease Fee of \$3,250.

The Valuer has not acknowledged the difference between Naval Base Holiday Park and Coogee Caravan Park (one of the closest rental evidence to our Park). The fee is based on a commercial lease. We have listed the differences and similarities in the table below:-

NAVAL BASE HOLIDAY PARK COOGEE CARAVAN PARK No Electricity Toilets shared with Public Water tap supplied No public space COOGEE CARAVAN PARK Electricity Toilets Park only Water tap supplied BBQ facilities

Kitchen/Lounge public area

Stay 120 days

No Site Manager

Proximity to Sea

Stay 365 days

On Site Manager

Proximity to Sea

The Parks are very different with what facilities are available to the occupants. We proposed that the current Lease Fee should increase by CPI only.

Please note that our Park is self funded. The City has been collecting the Demolition fee for more than 10 years and we believe that the fee should only be charged until the Demolition cost is achieved. The Demolition fee should then be dropped.

Insurance

Shack 308 and 515 already have Building and Contents and Public Liability insurance so that doesn't worry us. But we appreciate that other shack owners should have the option whether they have Building and Contents insurance or not.

Portable Toilets / Illegal Bathrooms

Our question is:

1. Portable toilets not allowed – How will this be policed?

the new lease will facilitate mechanisms to address breaches of the lease.

The Management Plan outlines the Shack Sale process. Should a more comprehensive assignment process be implemented, it would result in an increase in the administration fee that the City charges due to the additional resourcing. The City seeks to keep the costs associated with transferring ownership of the Shacks as low as possible and does not view the current assignment process as requiring review.

The proposed Gazebo project did not proceed as it was not supported by Shack Owners during public consultation.

2. Internal showers are allowed then?

We are aware of multiple non approved showers and toilets that have been installed in shacks. The Park is close to the limestone cliffs and sea and there should not be multiple unauthorised septic tanks for showers and toilets.

We suggest that each shack should provide the City a Building inspection certificate every 2 years. A private Building Inspector could be arranged by the City and each shack owner pays a set fee.

This would hopefully make life easier for the City of Cockburn staff and make Shack Owners accountable for any unauthorised internal and external works. It is difficult for your Staff to notice the differences of unapproved works. They are not there often enough to see the changes.

Use of Sprinklers

We agree with the addition of Use of Sprinklers and water days. Is the City going to contact Water Corporation to have inspectors attend the Park regularly? This is the only way the City will gain the respect of the Shack Owners.

Water Connection

We are happy with the City's proposal to charge the Shack Owners if repairs are not made.

Persistent Breach

We are happy that the 3 strikes your out is included in the City's proposal. However, we are disappointed that the City has not acted with multiple breaches by some Shack Owners in recent years. Our hope is that the City will take disciplinary action in the future so that Shack Owners respect the Lease document that they have signed, the City of Cockburn staff and contractors and their fellow Shack neighbours.

Naval Base Shacks Management Plan

The Management Plan has been in place for more than 10 years and yet hardly any items have been actions. We would like to see the following:-

- 1. Children's playground installed in the Park
- 2. A Pontoon that will be used by Shack Owners and Cockburn residents. We use to have 2 diving platforms installed each year and they were removed a few years ago without reason.
- 3. Gazebo in the Laundry position We agree with the demolition of the laundry block as it has become a dumping ground for Shack Owners and Strangers. We would like to see the Gazebo proposal be advertised again. The neighbouring shack owners have not been there like the Srhoy's who have been at the Park since 1969. The laundry was built in the early 80's and has had many uses including a place where teenagers use to sit in a safe environment. We knew where they were. If antisocial behaviour happens then CoSafe and the Police should be contacted. It would be wonderful to have an area where we can gather under shade or a place for our Association meetings to be held.
- 4. Entry sign Statement We would love to see a proper sign at the entrance so we actually look like a Park.
- 5. Kiosk We would like to see the Kiosk reinstated as it was used by Shack Owners as well as general public driving by or whilst at the beach. Even if its an onsite van like the one at Bibra Lake.

Vacant Sites

There is no need to engage a Consultant to recommend future uses of the vacant sites.

The sites should be advertised for City of Cockburn ratepayers with a no sale clause for at least 4 years to avoid profiteering. The Park in the past was used and enjoyed by many Councillors and Ratepayers of the City of Cockburn. The Ratepayers sold their shacks after the double increase in fees years ago and the increase in antisocial behaviour that was not dealt with by the City.

Shack Sale Process

We believe that the City should look at having a stronger sale process to protect both the Buyer and Seller of a Shack. A Management Committee between Shack owners and City representatives could meet to discuss this matter.

City Staff Member - Part Time

We have a lease and we would like to see a more active role from the City of Cockburn to deal with issues so having a City staff member to work solely for the Park is welcomed.

It is, however, concerning that Shacks are still be rented out for years. Some tenants moving from shack to shack and Shack Owners staying at their shacks permanently have been increasing. Is the City going to take a more active role in ensuring that the Shacks are used for 120 days? In the past we were given the Occupancy log which both of us still mark each night we stay at our shacks. Yet the City, to our knowledge has never asked for the Occupancy log to be supplied to them. The Future We would like to see the City of Cockburn take a stronger management of the Park so that Shack Owners respect their lease. Yes times have changed, but the Naval Base Holiday Park is a unique holiday destination that has a social heritage that should be preserved for future generations to enjoy. We look forward to receiving your response and our new lease in the near future. Yours sincerely Number | Submission **City Comments** Please refer to City Comments in To the CEO. I hereby submit my public comment in regards to the Naval Base Shacks lease. submissions 1 and 2 I am pleased to see the lease term option of 5 year + 5 years, and appreciate the support from the Council with this recommendation. I am writing to express my strong opposition to the proposed increase in annual lease fees of 48.87%. Our local community has a unique culture and identity that has been shaped over many decades. Families have been holidaying in this area since the 1930s and have worked hard to establish a thriving community that is inclusive and welcoming to all. The proposed increase in annual fees threatens to undermine the fabric of our community and could lead to the displacement of long-time holidayers who cannot afford the increased costs.

OCM 11/06/2024 Item 14.3.1 Attachment 2

While I understand that the council needs to generate revenue to fund important projects and services, I do not believe that this increase is justified. The council's rationale for the increase is unfounded and lacks transparency. As there are no comparable shack communities remaining in the Perth Metro, I can only assume that the market evaluation was conducted on a Caravan Park that operates for economic gain, in which the shacks do not, and on a Caravan Park that has a large variance in operations, including ownership structure, length of stay, and onsite facilities.

Since 2016, the last rate increase, to year end 2022, the AU inflation rate has been a total of 17%. This increase represents over double that.

No major capital works have been completed since 2016 at the Shacks, in fact, a community asset of the local Shop has been removed and not replaced as communicated by the Council. The new lease references potential upcoming works, but with no budget disclosed, tenders, or commitment, raising the lease fee for these potential upcoming projects is hopeful at best and manipulative at worst.

With \$1.219 million in the fund for the Shacks, it seems unnecessary to raise funds for works not yet committed to and, on past experience, unlikely to happen. For annual running costs, the current lease fee, plus a lease fee increase in line with CPI, and the reserve fund, should be more than adequate.

It is imperative that the council provides a clear and comprehensive explanation as to why such an increase is necessary.

In addition to the increased lease fee, the new addition of requiring shack lease holders to have Building and Contents insurance is unnecessary, adding additional financial burden on the lease holders, and ultimately is out of the Council's remit to mandate. Insurance is a personal choice that individuals make based on their assessment of risk and the potential financial consequences of unexpected events. The requirement for Public Liability is accepted, anything beyond that is extending the councils reach beyond their responsibilities.

While I have many more thoughts, my final point is that I would like to see a no-demolish clause in the lease agreement, as the recent demolishment of shacks is a cultural crime. The Shacks have a rich history that reflects the heritage of a place and the people who have holidayed here. They provide a tangible connection to the past and help to shape our understanding of Australian, Perth, and Cockburn history. They serve as a reminder of the past and contribute to the collective memory and identity of Cockburn and surrounds. It is essential that Council steps up to recognize the importance of preserving the Shacks of cultural value and take measures to protect them. Preservation methods may include

Item 14.3.1 Attachment 2 OCM 11/06/2024

> renovation, restoration, or adaptive reuse of the buildings. If a building is deemed unsafe or beyond repair, the council should explore alternative solutions to demolition. There is a willing, able and ready community of Shack lease holders and wider community members ready to help in a variety of ways to ensure the preservation of the Shacks. Allow us to.

I urge you to reconsider the proposed 48.87% increase, unnecessary insurance mandates, and to prioritize the interests of the wider local community by preserving the Shacks from demolition.

Thank you for taking the time to read my response. I hope that you will give careful consideration to my concerns and take action to protect the interests of the local community.

I look forward to further communications around the transparency and requirements for the fee increase and a detailed response to my submission.

Officer Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

(1) APPROVES proposed parking restrictions listed within this report.

CARRIED 10/0

Background

At the April 2024 OCM, Council approved a redevelopment project of Santich Park. As part of this redevelopment planning process, the overall parking requirements of the location post-redevelopment were explored.

An external consultant, Stantec, was engaged to complete the assessment and assist with the parking study.

Stantec's findings highlight a shortfall of parking and provide recommendations for increasing parking at Santich Park.

Pursuant to the City's Parking and Parking Facilities Local Law, any new parking regulatory signs require approval by Council.

Accordingly, the report herewith outlines the extent of the proposed parking restrictions recommended by the City's officers.

Submission

N/A

Report

Following the redevelopment of Santich Park the reserve will host a number of community sporting events. The peak use of the Reserve will be on weekends, during which time competing uses of the Reserve and an influx of patrons will lead to increased demand on the available parking facilities.

In its current configuration, Santich Park provides approximately 40 designated parking bays within the existing car park located on the western side of the facility.

As part of the site's redevelopment, an approximate additional 40 car bays will be constructed (see Appendix 1) on the south-eastern side of the Reserve.

482 of 790	

Item 14.4.1 OCM 11/06/2024

These two car parks will result in approximately 80 bays within the two designated car park areas.

Currently, overflow parking uses the surrounding verges as informal parking.

This informal use of the verge mostly accommodates the peak demand at Santich Park and reduces the impact on surrounding streets.

Based on the projected use of Santich Park, it is estimated that 243 car spaces are required.

Providing this amount of parking in a formalised manner would be extremely costly and would impact the aesthetics of the local area.

Recommended Actions

To cater to these peak periods and continue the use of the verge as informal parking, it is proposed that two types of signs be installed within the area:

1. **Wayfinding Signs:** These signs will advertise the location of the formalised parking areas, ensuring they are used first, with the verges used during peak times. A location map of these signs is provided below.

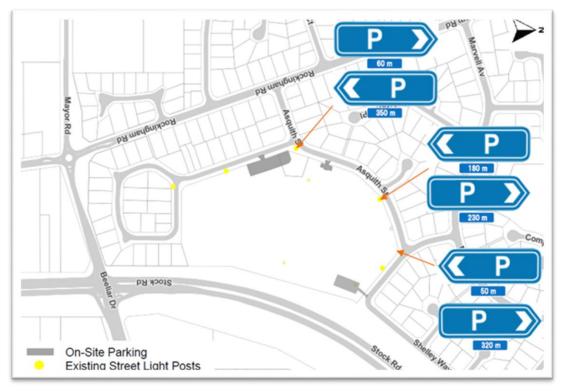

Image 1 - Proposed Way finding signs

2. **Regulatory Signs:** These signs will allow the use of the verge at 90-degree angles to ensure maximum parking efficiency. Additionally, a small number of *'no parking road or verge'* signs will be installed at intersections to the existing formalised car park and immediately adjacent to the community facility. A location map of these signs is provided below.

483 of 790

OCM 11/06/2024 Item 14.4.1

Image 2 - Proposed Regulatory Signs

By implementing the above-recommended changes, the verge parking will cater to an estimated 162 bays, in addition to the approximately 80 formalised bays within the existing and future car parks.

Overall, the number of bays will be estimated at 242 on the subject site. Further onstreet parking provisions will provide an additional surge capacity of approximately 129 bays.

As a result, the formalised parking, verge parking, and adjacent street parking will provide approximately 371 car bays. This will provide adequate supply above the projected 243 bays required at the subject site's facilities.

Current Community Impacts

Based on the current shortfall illegal parking has been an ongoing concern and since 2020, twenty-nine (29) illegal parking complainants have been received regarding parking on footpaths or verges.

Since 1 July 2022 eleven (11) infringements have been issued for vehicles illegally parked during sporting events at Santich Park.

As a result of implementing the recommendations outlined within this report, it is expected that community compliance will increase, and we would see a reduction in customer complaints about illegal parking.

Item 14.4.1 OCM 11/06/2024

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

 Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

City Growth & Moving Around

A growing City that is easy to move around and provides great places to live.

• An integrated, accessible and improved transport network.

Budget/Financial Implications

The estimated cost for the proposed signs is approximately \$25,000. The proposed expenditure is budgeted for as part of the Santich Park redevelopment Project.

Legal Implications

Per clause 8 of the *Parking and Parking Facilities Local Law 2007*, Council are required (by resolution) to approve any new parking enforcement signage.

Community Consultation

Previous stakeholder consultation has outlined parking as a community concern, and accordingly this report was created as a result of these findings.

Given the limited scope to change design and ensure any proposal is fit for use and complies with relevant industry standards, community consultation on the overall design was not undertaken.

Risk Management Implications

There is low risk associated with the proposed parking restrictions if implemented. Street side and verge parking is used for most recreation sites in Cockburn.

As such, this item attracts a low brand/reputational risk.

Report

The City of Cockburn's vision for older people is that they are valued, have optimal opportunities for good health, active participation and a sense of security while enjoying facilities and services that are accessible to and inclusive of their needs.

The City of Cockburn's first Age-Friendly Strategic Plan was developed in March 2008 prompted by an increasing awareness of an ageing population.

The plan was updated in June 2009 and then adopted in September 2009 with a further community consultation process undertaken in 2011.

The Age Friendly Strategy 2016-2021 was the City's second strategy and built upon the actions completed in the first strategy.

The World Health Organisation's Age Friendly Cities Framework was used to guide the development of the vision with eight outcomes and twenty-six strategies.

This framework also referenced the Strategic Community Plan 2016, previous Age-Friendly plans, demographic trends, comprehension of existing services and facilities as well as a consultation process undertaken using a variety of approaches including surveys, submissions, focus groups and forums.

487 of 790

OCM 11/06/2024 Item 14.4.2

The 2016-2021 Age-friendly Strategy aimed to achieve the following eight outcomes:

- Outdoor spaces and buildings
- Transport
- Housing
- Inclusion and respect
- Social contact
- Engagement (employment, civic and volunteering roles)
- Information
- Health and community services.

The close out review found 95.7% of the outcomes were assessed as being 'Completed'.

The close out review outlines the achievements from the 2016 – 2021 Age-friendly Strategy and also highlights key learnings from implementing the plan and provides recommendations on future actions and actions that are already or will become business as usual.

With the majority of actions now deemed part of the business service levels, it is proposed to not develop a new Age-Friendly Strategy until a demonstrated need has been identified.

Strategic Plans/Policy Implications

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.
- A safe and healthy community that is socially connected.

Budget/Financial Implications

Executive Summary

The City of Cockburn's vision for older people is that they are valued, have optimal opportunities for good health, active participation and a sense of security while enjoying facilities and services that are accessible to and inclusive of their needs. The City's first Age-Friendly Strategic Plan (the Plan) was developed in 2008 prompted by an increasing awareness of an ageing population. The Plan was updated in June 2009, with a further community consultation process undertaken in 2011 and Age-Friendly Plan finalised in 2016.

The World Health Organisation's Age Friendly Cities Framework was used to guide the development of the vision, eight outcomes and twenty-six strategies. This framework was also informed by the demographic trends, City of Cockburn Strategic Community Plan 2016, previous Age-Friendly plans, an understanding of existing services and facilities as well as a comprehensive consultation process undertaken using a variety of approaches including surveys, submissions, focus groups and forums.

The 2016-2021 Age-Friendly Strategy aimed to achieve the following outcomes:

- Outdoor spaces and buildings
- Transport
- Housing
- · Inclusion and respect
- Social contact
- · Engagement (employment, civic and volunteering roles)
- Information
- Health and community services

The City achieved a 'completed' overall rating for 95.7% of the strategy actions. It is recommended that the eight age-friendly outcomes (as above) are embedded into Service Level Plans forming part of business as usual. The City continue to support an Age-friendly Reference Group and maintain World Health Organisation membership.

Introduction

This report outlines the achievements from the 2016 – 2021 Age-friendly Strategy. The report will also highlight key learnings from implementing the plan and provide recommendations on future actions and will identify actions that are or will become business as usual.

Version: 3, Version Date: 05/08/2024

12 | Page

Key Achievements, Learnings and Recommendations

• Key Achievements

- Audit of existing outdoor seating in parks and public places undertaken led to many parks have being improved.
- The Seniors Safety team and Seniors Centre partnered with many organisation and delivered workshops, seminars and other face-to-face events including Elder Abuse prevention, Police Dementia locator.
- Improved parking at railway stations and the Cockburn Seniors Centre, the State Government funded a new parking allotment and station in Aubin Grove.
- Continued promotion and support of existing groups conducting intergenerational activities included the Cockburn Seniors Centre, Cockburn Community Men's Shed, Libraries, Family Services. Activities formed strong partnerships and collaborative opportunities.
- Seniors Reference Group with diverse representation and clearly defined terms of reference was established. Many successful activities have been achieved by this group, and opportunities for proactive responses to issues raised by Seniors.
- The Seniors Centre has produced the Senior's directory and has distributed over 4000 copies to date.
- City of Melville and Fremantle in conjunction with the City formed a strong partnership to promote age-friendly activities in the form of Expos, giving local providers an opportunity to showcase their business to seniors.
- International opportunities arose including City Staff invited to speak at WHO events online and publish article in WHO partners media.

Key Learnings

- Duplication of actions were identified within other strategies mitigating the requirement to complete.
- Continued feedback loop with the community to advise of the delivered actions can be improved.
- Various Age-friendly activities will be considered to be delivered as pilots in the future to avoid disappointment if attendance numbers are not sufficient for activity to be sustainable and to attain the highest attending numbers possible.

Recommendations

- That the eight age-friendly outcomes are embedded into annual Service Level Plans, as most activities form part of business as usual.
- The City continue to support an Age-Friendly Reference Group.
- The City continue World Health Organisation membership.
- Continued International/State/Local partnerships.

14.4.3 (2024/MINUTE NO 0113) Draft Community Infrastructure Plan 2024-2041

Executive A/Director Community and Place **Author** Manager Recreation Services

Attachments N/A

Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

(1) ENDORSES the Draft Community Infrastructure Plan 2024 – 2041 and supporting Appendices to be advertised for public comment.

CARRIED 10/0

Background

The City is responsible for the provision of community infrastructure which includes buildings and spaces (indoor and outdoor) that accommodate services and activities to support the community and produce health, social, learning and/or wellbeing outcomes.

At the Ordinary Council Meeting held on 13 December 2018, Council adopted the *Community, Sport and Recreation Facilities Plan 2018 – 2033* (CSRFP). The CSRFP included 53 project proposals over the 15-year period at an estimated value of \$209.8M (2018 estimates).

The intent was to review the CSRFP every four years to allow for changing needs and priorities, while also aligning to the City's Long Term Financial Plan reviews.

Since the adoption of the CSRFP, the City has completed eight projects, while a further two are currently under construction. Another nine project proposals have progressed into the project lifecycle which spans from the initial needs assessment through to detailed design.

Submission

N/A

Report

The City commenced the review of the CSRFP in late 2022. Otium Planning Group Pty Ltd was appointed to support the review and development of the revised plan.

The CSRFP was strong on analysis of the information relating to decisions on providing future community infrastructure. Furthermore, the CSRFP provided a framework in promoting fair and equitable provision across the City through

504 of 790	

Item 14.4.3 OCM 11/06/2024

developing local Standards of Provision following a review of various industry documents of the day.

The CSRFP has provided sound guidance to staff and the community, however there has been some lessons learnt from the CSRFP. These have been summarised below with the proposed response in the revised plan.

Challenge	Proposed Response				
The title 'Community, Sport and Recreation Facilities Plan' has caused confusion as the perception is that it is a sport and recreation facilities plan rather than a plan for all types of community facilities (e.g. arts, culture, community centres)	Rename the plan to 'Community Infrastructure Plan' (CIP).				
While it was noted that all project proposals in the previous plan were subject to annual budget and resourcing decisions, the view is the City over committed and under	The Covid-19 pandemic was a significant disruptor to business and specifically impacted the construction market which strained the City's financial and human resources.				
delivered in relation to the plan.	The Draft CIP does not have specific dates for delivery and costs, these aspects may change significantly from year to year due to a range of external factors.				
	In response, the Draft Plan acknowledges that project proposals are defined into two categories:				
	Active (proposals) that have already progressed into the project lifecycle from initial needs assessment through to detailed design.				
	Future (proposals) which have not progressed in the project lifecycle and need planning and investigation to ensure any future investment is viable and benefits the community.				
	The Draft CIP provides information on how decisions are made on both active and future proposals as part of the City's broader Integrated, Planning and Reporting Framework.				
Perception that if project proposal is in the CSRFP, it was going to be delivered.	The Draft CIP outlines the framework on how decisions are made in relation to both active and future proposals. It is important to note				

OCM 11/06/2024 Item 14.4.3

	that not all proposals proceed to construction and at any time may be cancelled or deferred due to a range of factors.
There was limited detail or rationale behind each project proposal.	The Draft CIP has prepared a summarised 'Project Proposal'. This outlines the need and nexus of each proposal based on the range of factors that are reviewed and analysed as part of the development of the Draft CIP.
Transparency in the order of project proposals.	Each project proposal within the Draft CIP has a summarised need and nexus. This information is then used to assess each proposal through a range of criteria which is scored annually, along with each proposal receiving a ranking.

The Draft CIP has been developed intentionally into four key sections as follows:

Section 1: Introduction

This section includes the relevant historical context and background including how community infrastructure is planned for, delivered and prioritised.

Section 2: What influences the planning of community infrastructure

This section provides a summary of the various inputs used to inform the need analysis for future proposals, their prioritisation and planning for new and upgraded infrastructure.

Section 3: Identified improvement actions

During the plan's development, several operational (continuous improvement) actions were identified to improve how community infrastructure is planned and managed. Five key actions have been identified to undertaken within the next formal review period (likely 2028).

Section 4: Future community infrastructure proposals

This section includes 26 future major community infrastructure proposals following the analysis of all information in section 2. Further, it includes five specific planning studies that will influence future major and minor infrastructure and/or set the strategic framework for the specific community infrastructure type.

A summary of the need and nexus (rationale) for the 26 major community infrastructure proposals and five specific planning studies is also included in this section.

The CIP also includes ten appendices. The appendices provide further detail and context, provide justification for recommendations made in the plan and ensure transparency.

There are two appendices that should be highlighted that impact decisions regarding the provision for future community infrastructure. This includes:

506 of 790	

Item 14.4.3 OCM 11/06/2024

Appendix Two: Prioritisation Criteria and Ranking

This appendix provides the detail and transparency on how the City has scored each proposal. This criterion will be used to score proposals annually as the information in section two may change from year to year.

This may change the ranking of proposals and when they are resourced which is undertaken as part of the City's broader Integrated Planning and Reporting Framework (e.g. Corporate Business Plan, Annual Service Plans, Annual Project Plans and Annual Budget).

It should be noted that while a future proposal may be ranked higher than another, some proposals may not proceed due to factors not considered in the criteria (e.g. Land availability).

Appendix Ten: City of Cockburn Facility Guidelines

To ensure the guiding principles within the CIP are met (consistency, equity and responsible provision) a set of revised (and more detailed) guidelines have been developed for community infrastructure that is similar across the City's 23 suburbs.

It is recommended that the Draft Community Infrastructure Plan is advertised for a public comment in the second half of 2024 subject to endorsement. Following the public comment period, feedback will be considered prior to submitting the final CIP for adoption.

Strategic Plans/Policy Implications

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.
- A safe and healthy community that is socially connected.

Budget/Financial Implications

Funding requests for planning and developing project proposals within the Draft CIP will be made as part of the Annual Budget process.

Further, should a proposal be determined to be viable and provide great community benefit following the planning and development phase (Business Case) requests for capital delivery will be made as part of the Annual Budget process.

Legal Implications

N/A

OCM 11/06/2024 Item 14.4.3

Community Consultation

As part of the development of the Draft CIP, the City undertook an extensive community engagement process in the first half of 2023. This included:

- Online survey (287 responses), online map (165 comments) and online discussion forum (45 comments) which was undertaken on Comment on Cockburn from Wednesday 8 March to Monday 3 April 2023
- Meetings with all active City of Cockburn Reference Groups (in early to mid-2023)
- Meetings and workshops with special interest groups (e.g. residents associations, arts and culture, sporting codes)
- Individual meetings with groups (31 groups).

Some groups provided written submissions, including previous studies they have undertaken.

Results of the community engagement have been provided in Appendix Nine.

Risk Management Implications

If Council decides not to endorse the Draft CIP for a second round of community engagement, there is a medium reputational risk that the community may not be satisfied with outcomes of the draft plan.

If Council decides to defer or not support the Draft CIP, the City's future priorities will be at a medium risk of not meet community needs along with being challenged to manage expectation within its available resources.

Advice to Proponent(s)/Submitters

Those who lodged a submission as part of the first round of community engagement on the Draft CIP will be advised should the plan be endorsed as part of the second round of community engagement scheduled for the second half of 2024.

Implications of Section 3.18(3) Local Government Act 1995

OCM 11/06/2024 Item 14.4.4

Background

The City has received an application for retrospective approval to keep four dogs at 5A Oswald Street, Coolbellup.

Pursuant to the City's Consolidated Local Law 2000, Division 3, part 2.9, owners or occupants within the City of Cockburn require approval to keep more than two dogs over the age of three months.

Applicants must be able to demonstrate there are no bona fide objections prior to an approval being granted.

According to the Council's Delegated Authority, Application to Keep More Than Two Dogs at a Residential Property, if any bona fide objections are received, an applicant may not keep more than two dogs without the approval of Council.

As a result of the application's mandatory public consultation, four submissions were received, four of which were objecting to the application.

The application to keep more than two dogs at 5A Oswald Street, Coolbellup is presented to Council for consideration.

Submission

N/A

Report

The applicant sought retrospective approval after Rangers were alerted to four dogs residing at the address due to the impounding of a 10-week-old puppy that escaped from the property.

During the investigation by the City's Rangers, four dogs were confirmed to be residing at the applicant's address.

The four dogs include:

No.	Breed	Age	Gender	De-sexed Status
1	Chihuahua	2 years	Male	Desexed
2	Chihuahua	3 years	Male	Desexed
3	Chihuahua	8 months	Female	Not Desexed
4	Chihuahua	5 years	Female	Not Desexed

Historically, the applicant's address has been linked to the breeding of dogs. The male dog involved has since been desexed. There has been a history of the dogs listed on the application failing to remain registered, which was rectified after Ranger intervention.

Item 14.4.4 OCM 11/06/2024

As part of the process outlined within the City's Consolidated Local Laws 2000, neighbouring properties within a 50-metre radius of the applicant's property were notified of the application.

During the public consultation phase, the City received four submissions (Refer to Attachment 1 – Community Feedback), four of which were objecting to the multiple dog application.

Based on these historical non-compliances and submissions objecting to the application surrounding barking and nuisance noise from the dogs, there is clearly an ongoing community impact by the dogs at this address.

Based upon the following grounds, it is recommended that this application be refused:

- 1. Objections received and concerns raised by nearby residents; and
- Owner's history of animal non-compliance and breeding of dogs.

If the application is refused, the applicant may refer the matter to the State Administrative Tribunal.

If Council affirms the Officer's recommendation, it is proposed that the applicant be given three (3) months to rehome the excess dogs, as there are two (2) dogs that will need rehoming.

Strategic Plans/Policy Implications

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

A safe and healthy community that is socially connected.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

N/A

Legal Implications

City of Cockburn Consolidated Local Law 2000, Division 3, part 2.9.

OCM 11/06/2024 Item 14.4.4

Community Consultation

As part of the application process, the City wrote to neighbouring homes within 50 metres of the applicant's address.

The City received four submissions, objecting to the application to keep four dogs at the subject property. (Refer to Attachment 1 – Community Feedback)

Risk Management Implications

If approval is given, there may be isolated adverse community reaction for all future instances of nuisance dog behaviour from the property.

Accordingly, this item has a "low" level of localised possible "Brand/Reputation" risk. **Advice to Proponent(s)/Submitters**

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 11 June 2024 Ordinary Council Meeting.

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council:

(1) RECEIVES the Quarterly Strategic and Operational Risk Report.

CARRIED 10/0

Background

This report provides an update to the Audit, Risk and Compliance Committee (ARC) on the City of Cockburn (the City) Risk Register, for the period December 2023 to May 2024.

A previous report was considered by the ARC on 07 December 2023.

The City's risk register is recorded in RMSS, the City's cloud-based online Enterprise Risk Management (ERM) solution, the licence for which was extended on 23 February 2024 for the period 01 July 2024 to 30 June 2025.

This report links to the Corporate Business Plan 2023-24:

Outcome 5 Community, Lifestyle and Security

Objective 5.1 Best practice governance, partnerships and value for money Strategy 5.1.1 Ensure good governance through transparent and countable

planning, processes, reporting, policy and decision-making

Item 5.1.1F Deliver risk maturity improvement program delivery

OCM 11/06/2024 Item 15.1.1

Report

Total

Risk register

The risk level cited in this report to the ARC is the Residual Risk, which is the risk remaining after management has taken action to alter its severity by implementing risk treatment measures.

Table 1 below summarises the changes to the City's risk register during the Period, which increased 3.8%, from 230 to 239.

Residual Risk Level December 2023 Change May 2024 Low 101 109 +8 Moderate 120 120 0 **Substantial** 6 9 +3 High 1 1 0 **Extreme** 2 0

230

Table 1: Changes to the City's risk register: December 2023 – May 2024

The City's ERM policy and framework are aligned with the requirements of the Australian Standard AS ISO 31000: 2018 Risk management-Guidelines (AS ISO 3100). One of the pillars of AS ISO 31000 is improvement. The City's risk register is a dynamic environment and is subject to continual review to ensure that the risk information gathered reflects the credibility of the risk. Continual review has resulted in a change in rating of these risks:

239

+9

- RMSS Risk ID 8 Community infrastructure damage from climate change impacts
 previously rated Extreme, now rated Substantial
- RMSS Risk ID 9 Public health decline from climate change previously rated Extreme, now rated Substantial
- RMSS Risk ID 15 Landfill capping previously rated Moderate, now rated Substantial.

Organisational risks assessments have identified 9 additional risks which have been registered in RMSS.

The City's risk register currently contains 10 risks rated Substantial and higher, including one (1) risk rated High - all are operational risks.

The City's highest rank risk is ranked High and is climate change related. The elevated ranking of climate related risks is replicated across Australian local governments, with Disaster, Catastrophic Events and Climate Change and

514 of 790	

Item 15.1.1 OCM 11/06/2024

Adaptation ranked in the top 10 risks [JLT Public Sector Risk Report, JLT Risk Solutions Pty Ltd].

Attachment 1 to this report is the current City of Cockburn Enterprise Risk Management - risk assessment and acceptance criteria.

The Risk Assessment Matrix is used for risk analysis and evaluation, comprehending the nature of the risk, and determining the level of risk exposure (likelihood and consequence). It was used for re-evaluating the above risks.

There has been no adjustment to the risk assessment and acceptance criteria since the last report to the ARC.

Risk Register Categories

Figure 1 below illustrates the composition of the open risks in the City's risk register during the Period.

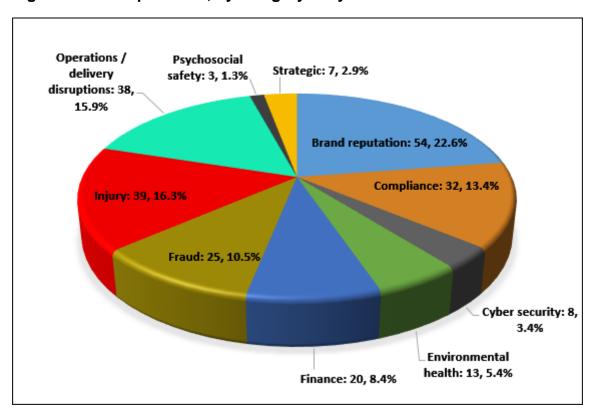

Figure 1: Total open risks, by category: May 2024

The City's risk register comprises:

- Seven (7) Strategic Risks, whose owners are members of Executive Leadership Team
- 222 Operational Risks, whose owners are Heads of Business / Service Units.

OCM 11/06/2024 Item 15.1.1

Risk Register Heat Map

Figure 2 below illustrates the City's risk register superimposed on a heat map.

		Likelihood							
		Rare 1	Unlikely 2	Possible 3	Likely 4	Almost Certain 5			
	Insignificant 1	Low 1 6 Risks	Low 2	Low 3 1 Risk	Low 4	Moderate 5			
e e	Minor 2	Low 2 9 Risks	Low 4 68 Risks	Moderate 6 9 Risks	Moderate 8 2 Risks	Substantial 10 2 Risks			
Consequence	Major 3	Low 3 18 Risks	Moderate 6 65 Risks	Moderate 9 29 Risks	Substantial 12 1 Risk	High 15			
ပိ	Critical 4	Low 4 7 Risks	Moderate 8 15 Risks	Substantial 12 3 Risks	High 16	Extreme 20			
	Catastrophic 5	Moderate 5	Substantial 10 3 Risks	High 15 1 Risk	Extreme 20	Extreme 25			

The following attachments summarise updates to the above risks.

Attachment 2 to this report detail the City's Strategic Risks as of 01 May 2024.

Strategic risks reflect the internal and external forces capable of threatening the City's ability to achieve its strategic objectives or affect its long-term positioning and performance.

This attachment outlines each strategic risk and provides progress and notes on the management of each risk.

There are currently 7 identified strategic risks, all ranked Moderate Risks, and there has been no change in this number the last report to the ARC.

Attachment 3 to this report details the City's Substantial and Higher Risks as of 01 May 2024.

This attachment outlines each risk rated Substantial and higher and provides progress and notes on the management of each risk.

The City's risk register currently contains 10 risks rated Substantial and higher, including one (1) risk rated High - all are operational risks

Item 15.1.1 OCM 11/06/2024

Strategic Plans/Policy Implications

Listening and Leading

Risk Management Implications

Risk management oversight and review is a function of the ARC.

The ARC is required to review the City's Strategic and Operational Risk as part of the City's risk management practices.

The ARCs oversight of the risk register review report supports continuous improvement of risk management processes.

Failure to adopt this report will result in a Substantial risk to the City in its inability to support an integrated and effective approach to risk management and continually improve its risk management processes.

to be inputted into the LTFP.

Attachment 3: Status of Operational risks rated ≥ Substantial

RMSS Risk ID	Risk name	Risk description	Consequence	Likelihood	Residual risk	Risk owner
9	Public health decline from climate change [Environmental Health risk]	Reduced public safety, health and wellbeing caused by climate change impacts (changes to rainfall and increased bushfires, temperatures, and extreme weather events).	Catastrophic 5	Possible 3	High 15	Head of Development and Compliance [ELT Member Director Planning and Sustainability]

Progress and Notes

- Mapping of vulnerable residents and areas is not feasible, however protocols to contact customers vulnerable to heat stress and other climate emergencies has been incorporated into the Bushfire Risk Management Plan and Local Emergency Risk Management Plan;
- 2. Review of existing warning systems, identify potential gaps and opportunities for improvement is ongoing;
- 3. The update of the Local Public Health Plan is underway and ongoing implementation of those action items from the 2013-2018 Local Public Health Plan is ongoing;
- 4. Engagement with partners and other government agencies in relation to emergency and recovery climate change responses is ongoing.

8	Community infrastructure damage from climate change impacts [Environmental Health risk]	Reduced public safety, health and wellbeing caused by climate change impacts (changes to rainfall and increased bushfires, temperatures and extreme weather events).	Critical 4	Possible 3	Substantial 12	Head of Sustainability and Environment [ELT Member Director Planning and Sustainability]

Progress and Notes

- 1. The City has developed a Climate Change Strategy 2020-30 which identifies actions to mitigate and adapt to changes associated with climate change. The actions address a range of factors including reduced public safety, health and wellbeing caused by climate change impacts (changes to rainfall and increased bushfires, temperatures and extreme weather events):
- 2. The progress against the actions contained with the Climate Change Strategy are a Corporate KPI and reported on each quarter.

Page 1 of 6

RMSS Risk ID	Risk name	Risk description	Consequence	Likelihood	Residual risk	Risk owner
10	Biodiversity loss from climate change impacts [Compliance risk]	Damage to or loss of biodiversity and natural habitat, caused by climate change impacts (decreased rainfall and increased bushfires, temperatures, and extreme weather events).	Critical 4	Possible 3	Substantial 12	Head of Sustainability and Environment [ELT Member Director Planning and Sustainability]

Progress and Notes

- Natural Area Management Plan (NAMS) has been developed with a number of actions that address biodiversity loss due to the impacts of climate change. All bushland and wetland reserves within the City are managed according to the NAMS;
- 2. Revegetation and habitat creation is undertaken to increase and enhance flora and fauna. fauna refuges, bird, bat and possum boxes and fauna over and under passes have been installed in numerous reserves. Flora and fauna surveys are undertaken in all reserves on a 5 year rotation bases. Information contained in these surveys is used to address perceived threats and risk;
- 3. Bushfire risk assessments are undertaken and measures implemented to reduce fire risk. Watering stations are installed in some reserves to provide a water source for fauna;
- 4. Landowner biodiversity grants and training is offered to private landowners to assist promote bushland conservation.

11	Coastal impacts from sea level rise [Environmental Health risk]	Legal liability and damage to or loss of natural environment, infrastructure, and coastal land, caused by sea level rise.	Major 3	Likely 4	Substantial 12	Head of Sustainability and Environment [ELT Member Director Planning and Sustainability]
----	---	--	---------	----------	----------------	---

Progress and Notes

- Tender recently advertised and consultant appointed to prepare updated Coastal Hazard Risk Management Adaptation Plan. The plan will be updated using latest climate change data. It will identify areas at risk and adaptation measures to address risk to property and infrastructure;
- 2. Coogee Beach Foreshore Management Plan identifies actions to adapt and address risk along Coogee Beach. Sand nourishment works are undertaken as required at CY

Page 2 of 6

		e. Geotech sandbags ins nor. Stage 2 of reef to be				
3. Coast	al Adaptation Grants su	upplement coastal erosio	n pre	venti	on mea	sures.
12	Community support [Financial risk]	Failure to obtain community support for strategic planning functions.	Critical 4	Possible 3	Substantial 12	Head of Planning [ELT Member Director Planning and Sustainability]

Progress and Notes

- 1. Most strategic planning projects have advertising processes (controlled by State Government) rather than specific community engagement. Planners can only undertake community engagement for specific and occasional projects. These are carried out in line with an approved community engagement plan (approved by the City's engagement team);
- 2. It is not realistic to expect complete support for all strategic planning functions, however, the City having recently reviewed its local planning strategy has the benefit of recent community input into high level strategic land use planning guidance for the City of Cockburn:
- 3. The subsequent steps of implementing the updated strategy will include planning at the local area or 'place' level where community aspirations will be better articulated at the scale which is often of greater community interest. Knowing those aspirations at a City and local area level helps to realise those visions in practice but also builds understanding of what City strategic planning functions are (and their limitations).

15	Landfill capping [Financial risk]	Failure to fund the capping of existing exposed landfill cells.	Catastrophic 5	Unlikely 2	Substantial 10	Head of Property and Assets [ELT Member Director Infrastructure Services]
----	---	---	----------------	------------	----------------	--

Progress and Notes

1. Budget \$15.729m (\$15.813m - \$84k spent in 23-24 on design and documentation) in 24-25 FY to ensure the southern landfill is capped prior to May 2025 to cover the Southern Landfill capping costs, which includes the Financial Model allocation \$14.024m and an additional \$1.79m to cover the additional CPI construction costs, the cost of soil supply and a 5% contingence;

- 2. The City of Cockburn Code of Conduct The Cockburn Way is now available as a CiAnywhere online induction;
- 3. The City's Work Health and Safety Policy reiterates the expectation that psychological hazards are mitigated and managed;
- 4. The City has undertaken a gap analysis of mitigation against psychological workplace hazards with the current management framework being deemed fit for purpose;
- 5. The City has finalised the process of implementing the new WHS Induction for all Employees and People Leaders.

OCM 11/06/2024 Item 15.1.2

15.1.2 (2024/MINUTE NO 0116) Family Day Care Services - Review

Executive A/Director Corporate and System Services

Author Strategic Business Analyst

Attachments 1. Family Day Care Service Current Operational Risks J.

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

(1) ENDORSES the Family Day Care Service Review findings.

CARRIED 10/0

Background

On the 12 of March 2024, Council considered the legal implications of the contractor model of the Family Day Care Service and endorsed the continuation of the service.

Subsequently, on 9 April 2024 Council resolved to:

- ENDORSE the City's adoption of the Service Review Methodology for review of its services; and
- (2) APPROVE the three-year timeline to implement the Service Review Program for the City, promoting a cycle of continuous improvement in service delivery and review.

In line with that resolution the Strategy and Integrated Planning Service Unit undertook a review of the Family Day Care Service to support a broader review of the service, following the limited legal structure review earlier this year.

This was the first service review undertaken in line with the adopted methodology.

This paper provides the outcomes of the service review undertaken by the Strategy and Integrated Planning Service Unit and presents two options for Council consideration.

The service review did not identify any changes or recommendations outside of the contract changes recommended by the 12 March legal review. The service is delivered at a high quality and is well received by the community.

Submission

N/A

Report

FDCS Background and History

Childcare services are provided through the City of Cockburn FDCS and comprises support and administration in delivering early childhood education and care.

528 of 790	

Item 15.1.2 OCM 11/06/2024

The City has provided family day care services since August 1978 and is an approved service provider in compliance with Commonwealth legislation.

The FDC Service does not directly deliver childhood education and care but recruits, assesses, and supports service delivery via Educators, who operate as contractors/sole traders and deliver education and care in their homes.

The Service also undertakes the registration and contract management of educators. Educators enter into an agreement with the Service under the *FDC Service Educator Registration Agreement*.

There are five staff employed by the City delivering the FDCS, comprising 4.4 FTE, and there are currently 42 Educators registered with the Service.

The City is not legislatively required to provide a FDCS.

Industry Standard/Regulations

The FDCS has legal responsibilities as per specific Commonwealth legislation, which includes the National Quality Framework, the Family Assistance Law and the Taxation Laws.

The Commonwealth has legislated specific policies and procedures that the FDC Service must implement, including processes for Educator registration, induction and mentoring.

Performance/Public Perception

Both parents and Educators are regularly surveyed by the FDCS. Satisfaction levels are generally high, with a recognition that the Service provides good quality education and support to Educators and parents.

Themes from verbatim parent feedback include "more services for day care", "more before-and-afterschool care facilities for working parents", and "longer hours for day care services".

Alternate Providers of the Service

The Family Day Care service is a fully accredited service and undergoes quality review every three years to maintain its accreditation. This ensures optimum levels of quality service provision.

A review of alternate family day care services available to the Cockburn Community has shown there are six privately owned facilities providing early childhood education and care under the Contractor/Sole-Trader model.

These facilities operate as third-party regulators and have service Agreements with Educators residing within the City's catchment.

As demand within this sector is high, it is expected that (as in the City's FDCS) waiting lists exist for access to these day-care services.

Identified Benefits and Disadvantages of the Service

•
529 of 790

OCM 11/06/2024 Item 15.1.2

Benefits

- Community expectations and stated need are met
- Community reputation is maintained
- Formal acceptance for continuation of the Service will enable active recruitment of additional Educators
- Provides Educator employment and training opportunities
- Provides support for parents to return to work, attend education or have some respite care
- Children with additional needs are supported through community inclusion, and access to school holiday and respite care.

Disadvantages

- Risk to the City regarding potential payment of Educator Superannuation has been minimised to the extent possible, and residual risk is considered negligible
- Recruitment of additional Educators is reliant on availability of appropriately skilled contractors.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

• Increased Investment, economic growth and local employment.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive and connected community.

• A safe and healthy community that is socially connected.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The FDCS is funded through Educator fees and a per-child service fee to parents. Normally, these fees provide the total operational budget for the Service.

The FDCS maintains a critical mass of Educators to offset service administration and support costs.

While the impact of the ATO decision on the FDCS has been under review, the Service has not recruited additional Educators. This will result in a small budget shortfall in the FY24 year (~\$80K).

Re-establishing the critical mass of educators will take approximately six (6) months, a budget shortfall in FY25 is likely. FY25 budget implications will be identified through the FY25 budget process.

Legal Implications

Following the 12 March 2024 resolution of Council, the City is implementing agreement changes recommended in the report.

15.1.3 (2024/MINUTE NO 0117) High-Risk Safety Audit Program - Henderson Waste Recovery Park

Executive Chief Executive Officer

Author Head of People, Culture and Safety

Attachments 1. Safety Audit Report - Henderson Waste Recovery

Park 😃

2. Safety Improvement Plan - Henderson Waste

Recovery Park J.

Officer Recommendation/Committee Recommendation/Council Decision MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

- (1) RECEIVES the High-Risk Safety Audit Report for Henderson Waste Recovery Park; and
- (2) NOTES the deliverables and actions in the associated Safety Improvement Plan.

CARRIED 10/0

Background

The City is committed to undertaking a continuous improvement program across all facets of workplace, health, and safety.

A report was submitted to the Audit and Risk Committee (ARC) on 19 March 2024 that detailed the initiatives that the City would put in place to ensure our ongoing commitment, including:

- Completing the implementation of the Safety Improvement Action Plan that had been developed in response to the audit, undertaken by LGIS, in August 2022 and ensuring that these outcomes were embedded as business-as-usual work practices.
- 2. Development and implementation of Safety and Wellbeing Key Performance Indicators (KPIs) for all members of staff to ensure that safety was an important element of their daily role.
- 3. Commencement of a High-Risk Auditing Program to ensure that the Safety Management System (the System) was in place and was known and understood and that behaviours and interactions aligned to the expectations set out within the System and Organisational Values.
- 4. Delivery of a Safety Leadership Program to ensure that there was an embedded understanding of the role of a leader in fostering and driving a positive safety culture, in addition to the development of tangible safety skills for the field.

The purpose of this report is to provide an update to the ARC regarding completion of a High-Risk Safety Audit that was completed at Henderson Waste Recovery Park in March 2024.

535 of 790

OCM 11/06/2024 Item 15.1.3

Submission

N/A

Report

The City engaged an independent consultant, being Safety Australia, to undertake a High-Risk Safety Audit of Henderson Waste Recovery Park (refer Attachment 1).

The audit commenced in January 2024 and concluded in March 2024 and consisted of the following actions and analysis:

- Undertook a high-level gap analysis of the Safety Management System to identify shortcomings on a corporate level and/or identify deployment issues for the specific service area.
- 2. Undertook interviews with employees within the service area to ascertain the level of understanding of the Safety Management System, their role in safety and the overall safety leadership of the service area.
- 3. Undertook a site inspection to ensure physical safety risks have been identified and controls implemented.
- Observed behaviours and interactions on site to ensure psychological risks have been identified and controls implemented, including the observing of safety conversations, team meetings and/or toolbox meetings and consultation processes.

The outcome of the audit has been broken into six key themes. It must be noted that the above methodology and below themes will be applied to all future High Risk Safety Audits to ensure consistency of process.

Table one: Key themes identified as opportunities for improvement:

Theme	Description
Corporate	The audit outcome does not relate specifically to workplace health
Shortcoming	and safety but needs to be addressed at a corporate level.
Culture	Barriers that were identified which indicated that there was no
	shared sense of purpose or understanding in relation to workplace
	health and safety on the site.
Leadership and	The audit was unable to ascertain, to an acceptable level, that
Accountability	there is effective leadership being demonstrated in relation to
	workplace health and safety on site and that strategies needed to
	be implemented to build capability.
Safety	The audit identified that whilst there was a safety system element
Shortcoming –	in place, that was compliant and fit for purpose, and that this had
Site Specific	been effectively deployed, it was not being implemented to an
	effective level on the site.
Safety System	The audit identified that whilst there was a safety system element
 Deployment 	in place, that was compliance and fit for purpose, the deployment
Issue	of this element may not have been effective which had led to a
	knowledge and/or skill gap on site.
Safety System	The audit was unable to ascertain, to an acceptable level, that the
Shortcoming	safety system element existed and had been deployed effectively
	to mitigate risk.

Item 15.1.3 OCM 11/06/2024

To ensure that shortcomings are identified and mitigated as soon as reasonably practicable, a Safety Improvement Plan has been developed (refer Attachment 2).

In summary, twenty-four (24) overarching actions have been identified with forty-nine (49) sub actions.

Status of agreed action plan items

At the date of this report, the City has made progress in relation to the actions detailed in the agreed Action Plan.

Several action items, including ongoing internal audit of the effectiveness of safety system elements, are embedded as a business-as-usual practice, and therefore will not be marked as completed.

Table 2: Status of agreed action plan

Audit Theme	Total Action Items	Not Commenced	In Progress	Business as Usual	Completed
Corporate Shortcoming	3	2	1	0	0
Culture	4	1	2	1	0
Leadership and Accountability	4	3	1	0	0
Safety Shortcoming – Site Specific	20	7	9	1	3
Safety System - Deployment Issue	9	0	3	1	5
Safety System – Shortcoming	9	0	5	1	3
Total	49	13	21	4	11

The City committed to ensuring that these actions are delivered as soon as practicable, noting that the delivery of some elements are dependent on budget endorsement for Financial Year 2025.

Strategic Plans/Policy Implications

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Employer of choice focusing on equity, innovation and technology.
- Best practice Governance, partnerships and value for money.

OCM 11/06/2024 Item 15.1.3

Budget/Financial Implications

A budget provision exists in the Workplace Health and Safety Service Unit Budget for Financial Year 2024, for the delivery of some actions items and programs associated with the Safety Improvement Plan.

A budget provision for Financial Year 2025 has also been sought to ensure the ongoing delivery of the safety program, including delivery of the High-Risk Audit Program.

Legal Implications

Work Health and Safety Act 2020 Work Health and Safety (General Regulations 2022

Community Consultation

N/A

Risk Management Implications

There is a risk to the City if we do not execute all our due diligence obligations provided for in the relevant legislation.

The risk of this is mitigated through the delivery of agreed action items from the Audit.

It is important that the City undertakes both internal and independent audits to ensure continuing compliance and continuous improvement.

In addition to the legislation obligations at the City, there is also a moral obligation to ensure our people and community members are in an environment that is free of harm.

Acknowledgement

Safety Australia Group would like to thank City of Cockburn, management and employees for their cooperation and participation throughout this project.

This report is based on the best information available to Safety Australia Group within the time constraints, budget and terms of reference of the National Work Health and Safety Audit and Inspection process.

The material in the report reflects Safety Australia Group's best judgment in light of the information available to it at the time of preparation. Specifically, it is based on the review of documentation made available, visual observation and inspection of the property and work environment, and management and employee interviews.

Safety Australia Group prepared this report using information understood to be factual and correct and information verified and shall not be responsible for conditions arising from information or facts which were not fully disclosed to Safety Australia Group by site representatives. It is not a definitive guide to government regulations and does not relieve persons using this publication from their responsibilities under applicable legislation.

This report is prepared by Safety Australia Group for the sole and exclusive use by The City of Cockburn. Any use of, or reliance or decision based on this report by any third party is the sole and exclusive responsibility of such third party. Safety Australia Group accepts no responsibility for damages, if any suffered by any third party as a result of the use of or reliance or decision based on this report.

Safety Australia Group is pleased to submit this report to your organisation.

Together we are making Australian workplaces safer places to work.

Executive Summary

Safety Australia Group (SAG) was engaged to by City of Cockburn to conduct an WHS gap analysis of its operations and WHS documents. The purpose of the WHS review was to identify any gaps in regard to The City of Cockburn current management of WHS, specific to the Henderson Waste Recovery Park in order to assist with continual improvement and compliance with WA WHS Legislative requirements.

The following activities were conducted in order to review The City of Cockburn management of OHS:

- Detailed safety management systems review of all available documentation with relation to relevant legislative standards.
- On site audit against management systems and industry standards to ensure appropriate practice and implementation
- Development of key recommended actions to meet requirements and improve safety performance

The key findings of the document review and discussions include the following:

- Annual Management Review: A lack of documented evidence demonstrating that the annual management review, as outlined in the ISO 45001 requirements and the organization's HS manual, has taken place.
- Aligning Site Operations with Head Office Leadership: Site level operation occurs in silo to head office leadership, there is significant communication breakdown.
- Cultural Issues: Significant cultural breakdown was evident including culture of fear, non-reporting and avoidance of responsibility.
- Documentation Review: Evidence suggests that documentation within the system is not reviewed within the timeframes set.

The key recommendations as a result of the key findings from the discussions and the document review include the following:

Standardized Management Review: Ensure process covers performance metrics, compliance status, incident reports, and improvement initiatives. Implement clear reporting mechanisms for tracking outcomes and decisions.

Ref: 2023/5575 Page 4 of 34

542 of 790

Enhanced Internal Audits: Improve the audit process to provide leadership insights. Develop specific criteria for identifying improvement areas aligned with strategic goals.

Integrated Communication Strategies: Implement strategies to break down organizational silos. Integrate communication efforts into change processes, ensuring effective issue escalation and resolution.

Prioritized Documentation Review: Focus on high-risk areas like confined spaces and vehicle interaction. Conduct timely reviews to mitigate risks effectively.

Leadership Empowerment for Safety: Address leadership skills, maturity, and safety perception gaps to support successful process implementation and safety initiatives.

Introduction

City of Cockburn and Henderson review

A safety system and operational review was conducted by Safety Australia Group for the City of Cockburn over a six-week period. The review was aimed at identifying gaps within the system and practices of City of Cockburn to help move towards best practice in the safety space.

Methodology

Process

This review was conducted through detailed mapping of the current safety management system and comparison against current legislative standards. This enabled us to see what was missing from an overarching system stand point so we could then follow the processes down the line to a site level.

We measured City of Cockburn against legislative standards first, and then against its own procedures and defined practices. This occurred through multiple site visits, observations of operational activities and interviews with staff members.

Ref: 2023/5575 Page 5 of 34

Limiting factors

In the initial stages, substantial challenges were encountered in accessing documents and certain site areas, which partially improved within the first two weeks but still posed hindrances to the process. While no ill intent was presumed, these difficulties highlighted problematic behaviours contributing to a breakdown in organizational culture.

Findings

Safety management system

While significant efforts are being made to enhance safety practices at the City of Cockburn, the existing safety management system has areas that need attention. A considerable portion of documentation is outdated, redundant, or inaccessible to team members. Although the current management system serves as a solid foundation, further improvement is essential to fully leverage its potential, especially in areas such as Performance Evaluation, Operation and Planning.

An Occupational Health and Safety (OHS) management system under ISO 45001 follows a systematic approach aimed at ensuring the organization effectively manages its OHS risks and continually improves its performance. This is aligned to the Plan, Do, Check and Act cycle, below is a high-level summary of its elements.

- 1. Context of the Organization: Understand the internal and external factors that may affect the organization's OHS management system, including its scope, objectives, and compliance obligations.
- 2. Leadership and Worker Participation: Demonstrate leadership commitment to OHS by establishing OHS policies, defining roles and responsibilities, and promoting worker participation in decision-making processes.
- 3. Planning: Establish OHS objectives and develop plans to achieve them, considering the organization's context, risks, opportunities, and legal and other requirements.
- 4. **Support**: Provide the necessary resources, competencies, awareness, communication, and documentation to support the effective implementation and maintenance of the OHS management system.

Ref: 2023/5575 Page 6 of 34

544 of 790

- 5. Operation: Implement the planned actions, including hazard identification, risk assessment, and the implementation of controls to mitigate OHS risks. This also involves establishing emergency preparedness and response procedures.
- 6. Performance Evaluation: Monitor, measure, analyse, and evaluate the organization's OHS performance against its objectives and targets. This includes conducting internal audits and management reviews to assess the effectiveness of the OHS management system.
- 7. Improvement: Take corrective actions to address nonconformities and continually improve the effectiveness of the OHS management system. This involves identifying opportunities for improvement, implementing preventive actions, and updating processes as necessary.

The City of Cockburn's Management System aligns with the framework of an ISO 45001 Management System, however a lack of document and system reviews over time has resulted in a somewhat disconnected system. This is not uncommon for organizations as they progress in their safety maturity journey. Ensuring a structured annual management review and internal audit program occurs will be crucial to prioritize, plan and implement improvements, ensuring the system remains relevant and up-to-date.

Additionally, significant departmental and operational silos complicate matters further. The lack of effective communication between head office and site-level leaders has caused confusion regarding processes and responsibilities. There is a noticeable absence of clear communication closure in both bottom-up and top-down channels, with the process appearing ad hoc. This ambiguity increases the risk of actions being lost over time.

Site level observations

At a site level little was understood about the safety management system and where to find the information required for this review and operations in general. This manifested as an inability to comply with City of Cockburn's own procedures. This also extended to front line staff who were not able to articulate current process at times or where to find information should they need it.

It should be noted that staff were knowledgeable with regards to their own work and diligent with reporting when they knew there was an issue. However, there was no continuity of this reporting process, we were unable to follow through from initial reports to action. There appeared a culture of non-reporting and inaction at a manager level. This was reinforced when a significant concern around excavator work was raised from myself to the manager

Ref: 2023/5575 Page 7 of 34

directly and they made many excuses before shrugging it off- this was followed up by a phone conversations and emails to his superior.

Contracting out responsibility was a common theme appearing at site level across all staff and leaders. It appeared that if an injury occurred with a work process the control moving forward would be to subcontract the work out, with an assumption that it removed the responsibility from the City of Cockburn. Responsibility for safety can never be contracted out, there must always still be standards and oversite of practice.

Recommendations

- Management Review Agenda and Reporting: Ensure a standardized agenda for management review meetings, covering key topics such as performance metrics, compliance status, incident reports, and improvement initiatives. Develop clear reporting mechanisms to document the outcomes of these meetings and track actions and decisions
- Elevating Internal Audits Driving Insights for Leadership and Strategic Alignment: Improve the internal audit process to include a focus on providing insights for leadership. This can involve developing specific audit criteria aimed at identifying improvement areas and aligning audit findings with strategic goals and objectives.
- Breaking Silos Integrated Communication Strategies: Implement communication strategies aimed at dismantling existing silos within the organization. These strategies should be integrated into the company's consultative change process, ensuring effective escalation of concerns and thorough follow-up actions to resolve issues.
- Prioritized Documentation Review for High-Risk Areas: Prioritize documentation reviews, particularly focusing on high-risk areas such as confined spaces, vehicle interaction, and manual handling. Ensure that reviews are conducted within the designated timeframes to mitigate potential risks effectively.
- Empowering Leadership for Safety Success: The current deficiency in leadership skills, maturity, and safety perception poses a barrier to the successful implementation

Ref: 2023/5575 Page 8 of 34

of identified processes. Without adequate upskilling, the organization risks hindering progress in safety initiatives.

Implementation

For successful implementation, it's essential to pair this process with:

- A robust management review, planning, and post-implementation review program that
 aligns with the company's consultative process and communication channels to
 dismantle existing silos. This involves both top-down and bottom-up communication,
 along with tracking actions to completion.
- Cultural enhancement for leaders to foster a positive attitude towards safety processes, promoting adherence. This can be complemented by providing due diligence training for senior leaders.
- Dispel negative ideologies and reinforce the understanding that safety responsibility cannot be subcontracted out by leaders.

Conclusion

Both the safety systems and culture require attention. To achieve effective and sustainable improvement, efforts must be fully embraced by the senior leadership of the organization, both in task and purpose. Merely altering the system will not suffice, it is imperative to cultivate safety maturity within the business and foster a positive attitude towards safety among its leaders to ensure success.

While some issues can be promptly addressed, I strongly advise the City of Cockburn to scope this process, taking into account all mentioned factors. As this concerns your culture and safety management system, it is essential to comprehensively understand and control all aspects of it.

WHS Gap Analysis Report

Action Plan

Element	Comments
Safety Policy	Update the Policy to include a commitment and framework for how the organisation establishes OH&S objectives at relevant functions and levels in order to maintain and continually improve the OH&S management system and OH&S performance.
Consultation and Communication	The organization has a clearly defined procedure outlining how consultation regarding HSE should occur. This includes avenues for employees to voice concerns, provide feedback, and participate in decision-making processes related to HSE management. While the consultation procedure exists on paper, there is a deficiency in documented evidence to evaluate its effectiveness. There are no records or reports detailing the outcomes of consultations, actions taken based on employee input, or any improvements made as a result of the consultation process.
	We recommend the business Implement systems to monitor and evaluate adherence to consultation procedures, including compliance audits, surveys, and performance metrics. Use the findings to identify areas for improvement and implement corrective actions as necessary.
Contractor Management	Conduct a thorough review of contractor management procedures to ensure they are up to date and meet the organizational needs.
	Establish internal assessments to verify contractor management practices align with defined processes. Include findings from assurance activities in the annual management review to ensure procedures remain effective and support continuous improvement.

Page 10 of 34 Ref: 2023/5575

Version: 3, Version Date: 05/08/2024

WHS Gap Analysis Report

Element	Comments			
First Aid	Your first aid procedures align well with the intent of the First Aid Code of Practice. It's evident that there's a commitment to ensuring adequate provisions for health and safety within the workplace.			
	Two areas for potential improvement are Risk assessment and Workplace inspections.			
Emergency Management	Your emergency response plan demonstrates a strong foundation and alignment with the requirements of the WHS Regulations. It is evident that there has been careful consideration given to preparing for and responding to potential emergencies within the workplace. One area for improvement is to ensure regular drills and exercises to test the effectiveness of the emergency response plan in various scenarios is scheduled and completed			
Hazard Management	Develop a consolidated operational risk register that captures risk scenarios, consequences, controls and leader sign off. currently this information is stored across a large number of SWMS.			
	This register should have reasonable action based on risk rankings and levels of sign off based on the same. This register should be reviewed annually to determine control effectiveness, ensure all significant risks are captured, controlled and correctly implemented in practice.			
Incident Management	Update OSH 4.9 to reflect current legislation, include the requirement to report dangerous incidents.			
	Dangerous incident means an incident in relation to a workplace that exposes a worker or any other person to a serious risk to a person's health or safety emanating from an immediate or imminent exposure to			
Induction for Employees, Contractors and Visitors	Review current induction process to ensure fit for purpose and current for site.			
Manual Handling	Ensure all high-risk manual handling tasks are captured, appropriate controls are implemented and reviewed periodically for effectiveness.			

Ref: 2023/5575 Page 11 of 34

WHS Gap Analysis Report

Element	Comments			
Noise Management	Review existing noise surveys to identify any gaps in known "designated noise sources", establish a register of personnel exposed to these sources to ensure that regular audiometric testing is conducted. Lastly update training material and process to ensure that personnel are using PPE correctly.			
Plant and Equipment Management	In line with the below traffic management plan implementation ensure good operational practices, do not leave people in the line of fire of any vehicle. It would be advisable to engage a qualified SME for this process.			
Traffic Management	based on known risks develop, implement, and communicate traffic management plans and ensure the appropriate controls are in place for each operational area.			
	Specific to the recent heavy vehicle vs light vehicle interaction on sight this plan should pay specific attention to the permanency of designated parking zones and the reduction down to one radio channel per controlled are. The presence of control in each area must be confirmed.			
Lock Out/Tag Out	Conduct a thorough review of Lock out / tag out procedures to ensure they are up to date and align with the current organizational needs.			
Chemical Management	Adopt the steps / requirements defined by the model Code of Practice.			
Training	A detailed review of the training needs analysis against known risks is required, additionally once this is in ensure that the 12 monthly audit is performed, and findings are shared with the leadership team. Best provided be to ensure a verification of competency process for all machinery operated.			
Workplace Inspections	During the assessment, it was observed that workplace inspections have been conducted; however, the tools utilized lacked specificity and did not offer clear guidance to the individuals responsible for inspecting the work areas. As a result, there is a deficiency in identifying what constitutes good practice during inspections, which could lead to inconsistent assessments and potentially overlooking critical safety hazards.			

Page 12 of 34 Ref: 2023/5575

Version: 3, Version Date: 05/08/2024

WHS Gap Analysis Report

Element	Comments			
	Additionally, while evidence of corrective actions was identified, there was a lack of tracking for actions that could not be immediately rectified. This absence of follow-up on unresolved issues over time may result in recurring safety deficiencies and a failure to address underlying root causes.			
	Areas for improvement include updating the inspection tools used and implementing a tracking mechanism for corrective actions.			
Working at Heights	Develop, test and train personnel in emergency response and rescue procedures related to the use of fall arrest systems. This system will apply to contractors also.			
Hot Works	Ensure there is adequate implementation and adherence to hot work processes by both staff and contractors			
Confined Space	Develop a confined space procedure that defines the steps required for identification, risk assessment, entry, atmosphere testing, use of permits, emergency response and training.			
Safe Driving Procedure	Update the current procedure to ensure it is up to date and meets the current organisational needs. Reference relevant fatigue controls specified within OSH4.26.			
WHS Procedure Description	develop an overarching document describing the purpose of the procedures and their related documents.			
Implementation Plan	develop an implementation plan, including an annual management review to ensure suitable resources and management oversight of the effectiveness of the plan.			
Internal Auditing	No evidence provided of an established internal auditing programme or an active annual management review of the Safety and Health Management plan.			
	Implementing an internal audit program allows your organization to systematically assess the effectiveness of the health and safety management systems, identify areas for improvement, and ensure compliance with regulatory requirements.

WHS Gap Analysis Report

Recommended WHS Management System

The table below describes the recommended contents of City of Cockburn WHS Management based on the type of work and activities conducted by City of Cockburn employees and contractors.

Workplace Health Safety Management System Documents and their Purpose

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
Safety Policy	Describes the City of Cockburn's commitment to WHS		1. Health and Safety Policy Notes – Policy does not provide a framework for setting OH&S objectives. No evidence of who / when the policy was approved. Recommendations – Update the Policy to include a commitment and framework for how the organisation establishes OH&S objectives at relevant functions and levels in order to maintain and continually improve the OH&S management system and OH&S performance.
Consultation and Communication	Describes the processes in place to consultant and communicate with employees and contractors in regard to WHS.		1. OSH 3.3 Resolution of OSH Issues 2. Management of change (minor and major) consultation FAQ 3. WHS 5.1 Consultation and Communication Procedure Notes – The organization has a clearly defined procedure outlining how consultation regarding HSE should occur. This includes avenues for employees to voice concerns, provide feedback, and participate in decision-making

Ref: 2023/5575 Page 15 of 34

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			processes related to HSE management. While the consultation procedure exists on paper, there is a deficiency in documented evidence to evaluate its effectiveness. There are no records or reports detailing the outcomes of consultations, actions taken based on employee input, or any improvements made as a result of the consultation process. Recommendations- Implement systems to monitor and evaluate adherence to consultation procedures, including compliance audits, surveys, and performance metrics. Use the findings to identify areas for improvement and implement corrective actions as necessary.
Contractor Management	Describes the process to select, engage and monitor contractors.	Contractor Risk Classification Calculator Low Risk Contractor Process	1. OSH 5.5 Contractor Safety Management Guideline 2. OSH 5.4 Inductions for Contractors 3. Contractor induction signature register Notes — OSH 5.4 out of date, references OS&H Act 1984, does not reference OSH 5.5. OSH 5.5 overdue for review, approval date 2020. Contractor induction signature reference last recorded entry in 2018. Recommendations —
		Contractor Induction High Risk Contractor Process Contractor WHSMS Prequalification	Conduct a thorough review of contractor management procedures to ensure they are up to date and meet the organizational needs. Establish internal assessments to verify contractor management practices align with defined processes. Include findings from assurance activities in the annual management review to ensure procedures remain effective and support continuous improvement.

Page 16 of 34 Ref: 2023/5575

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
		Contractor Terms of Engagement	Note - Common language identified, that risk was being subcontracted out however this is not possible under current legislation.
for mana City of C	Describes the process for managing first aid at City of Cockburn office	First Aid Kit Contents	1. The Safety and Health Management Plan 2. First aid in the workplace Code of Practice 3. WHS 7.3 Designated First Aider
	and on client sites.		Notes – Your first aid procedures align well with the intent of the First Aid Code of Practice. It's evident that there's a commitment to ensuring adequate provisions for health and safety within the workplace.
			Two areas for potential improvement are Risk assessment and Workplace inspections.
			Risk Assessment:
			While the procedures meet the Code of Practice, there's a notable absence of documented evidence regarding a risk assessment to inform the requirements. Conducting a thorough risk assessment is crucial to identify potential hazards and determine the necessary first aid provisions accordingly.
			Improve Workplace Inspections:
			The workplace inspections currently lack clear guidance for inspectors on what to look for to meet the requirements. Providing detailed guidance or checklists can help ensure that inspections are comprehensive and cover all relevant aspects of first aid provisions as per the Code of Practice.
			Recommendations –

Ref: 2023/5575 Page 17 of 34

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			 Conduct a comprehensive risk assessment to identify workplace hazards and determine appropriate first aid requirements. Develop and implement clear guidance or checklists for workplace inspections, outlining specific criteria and requirements as per the First Aid Code of Practice. Ensure that findings from risk assessments and inspections are documented and used to inform updates and improvements to the first aid procedures.
Emergency Management	Describes the Emergency Management process at City of Cockburn's Henderson site	Include annual drill and a template to document detailing the outcome of the drill	1. The Safety and Health Management Plan 2. OSH 4.8 Personal Emergency Evacuation Plan (PEEP) 3. Workplace Facility Emergency Response Plan Notes – Your emergency response plan demonstrates a strong foundation and alignment with the requirements of the WHS Regulations. It is evident that there has been careful consideration given to preparing for and responding to potential emergencies within the workplace. One area for potential improvement is:
			Testing and Continuous Improvement: While the emergency response plan is comprehensive, there's a need to ensure that it is periodically tested to assess its effectiveness in real-world scenarios. Regular testing helps validate response procedures, identify areas for improvement, and enhance overall preparedness for emergencies. Recommendation – Schedule regular drills and exercises to test the effectiveness of the emergency response plan in various scenarios.

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
Incident Management	Describes the process for reporting and investigating an incident.	Incident Management Register Form Incident Report Form	1. OSH 4.9 Notifiable Incidents to be reported WorkSafe 2. Osh 4.5 Incident Reporting Notes — OSH 4.5 is out of date, references WA Occupational Safety and Health Act 1984. OSH 4.9 does not include the requirement to report dangerous incidents. Recommendations — Update OSH 4.9 to reflect current legislation, include the requirement to report dangerous incidents. Dangerous incident means an incident in relation to a workplace that exposes a worker or any other person to a serious risk to a person's health or safety emanating from an immediate or imminent exposure to.
Induction for Employees, Contractors and visitors	Describes the process for inducting new employees, contractors, and visitors.	Induction for New Employees and Contractors	Note- Moderate concerns were identified with regards to training of new staff and access to documentation as well as giving appropriate time to read and understand the material. Recommendations- Review current induction process to ensure fit for purpose and current for site.
Manual Handling	Describes the process for identifying hazards and managing the risks associated with tasks that require manual handling.		1. OSH 2.13 Manual Handling Safe Work Procedures and Guidelines 2. JSA - Correct Manual Handling (Henderson Waste Recovery Park) Part 4.2 — Hazardous manual tasks Notes — out of date, references 1984 act, last review 2019. Describes the identification, assessment and control of manual handling risks, no evidence of this in risk registers provided.

Page 20 of 34 Ref: 2023/5575

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			Notes – multiple high-risk tasks identified, not reflected in risk register provided, no sign off / review, document out of date, no residual risk rating provided. Out of date, last review 2015. Recommendations- Ensure all high risk manual handling tasks are captured, appropriate controls are implemented and reviewed periodically for effectiveness.
Noise Management	Describes the process for managing the risks associated with working in a noisy environment.		1. OSH 2.9 Noise Control and Hearing Protection Guidelines 2. The Safety and Management Plan Notes – OSH 2.9 document is out of date referencing OS&H Act 1984, last review was scheduled for December 2022. Interviews indicate that the organisation is not conducting regular noise surveys or audio metric testing. No evidence was provided to demonstrate how training is provided on the safe use of PPE.
			Recommendations – Review existing noise surveys to identify any gaps in known "designated noise sources", establish a register of personnel exposed to these sources to ensure that regular audiometric testing is conducted. Lastly update training material and process to ensure that personnel are using PPE correctly.
			OSH 2.9 Noise Control and Hearing Protection Guidelines
			3.1.1 All employees likely to be exposed to noise levels in excess of the safe limits shall undertake a pre-employment base line hearing test to determine any pre-existing hearing loss.

Ref: 2023/5575 Page 21 of 34

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			 3.1.2 Regular Noise Surveys shall be undertaken of relevant plant, machinery and or equipment to identify which items are deemed to be "Designated Noise Sources" and controls implemented to eliminate or reduce these noise sources. 3.1.3 Information and Training shall be given to all relevant staff that may be expected to operate or work in the proximity of these "Noise sources". 3.1.4 The City shall supply and provide training in adequate Hearing Protection Devices e.g. Ear plugs and earmuffs. 3.1.5 The City shall ensure there is regular audiometric testing of all designated employees who may be required to use or be exposed to "Designated Plant/Equipment".
Plant and Equipment Management	Describes the process for identifying hazards and managing the risks associated with plant and equipment, including mobile plant and equipment and electrical tag and testing.	Pre start for Forklift, lifts, scaffold	 1. OSH 2.21 Safe Operation of Council Plant, Machinery and Vehicles not provided. 2. JSA Conduct Pre-Start Inspections (Trucks And Plant) Note- significant risk was identified on site with regards to excavator operations; slewing over an occupied heavy vehicle cab. This was discussed a length with site leaders however action was not taken. Recommendations- In line with the below traffic management plan implementation ensure good operational practices, do not leave people in the line of fire of any vehicle. It would be advisable to engage a qualified SME for this process.

Page 22 of 34 Ref: 2023/5575

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			Notes – JSA out of date, last review 2008.
Traffic Management	Describes the process for managing the segregation of people, forklifts and trucks.	Traffic Management checklist	1. OSH 2.19 Traffic Management Guidelines Notes - No evidence of TMPs provided. Recommendations — based on known risks develop, implement, and communicate traffic management plans and ensure the appropriate controls are in place for each operational area. Specific to the recent heavy vehicle vs light vehicle interaction on sight this plan should pay specific attention to the permanency of designated parking zones and the reduction down to one radio channel per controlled are. The presence of control in each area must be confirmed.
Lock Out/Tag Out	Describes the process for locking and tagging out equipment.		1. OSH 2.8 Lock out / tag out 2. JSA Using 'Danger' And 'Out Of Service' Tags Notes – JSA out of date, last review 2008, OSH 2.8 due for review in 2022 (not completed) Recommendations – Review and update the documents: Conduct a thorough review of Lock out / tag out procedures to ensure they are up to date with the current organizational needs.

Ref: 2023/5575 Page 23 of 34

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
Chemical Management	Describes the process for managing chemicals in the workplace. This includes cleaning and other types of chemicals used in the kitchen and toilets.	Chemical Register	1. Model Code of Practice – Managing Risks of Hazardous Chemicals in the Workplace • Maintaining a register and manifest (where relevant) of hazardous chemicals and providing notification to the regulator of manifest quantities if required. • ensuring that exposure standards are not exceeded. • provision of health monitoring to workers. • provision of information, training, instruction and supervision to workers. Notes - No evidence was provided to demonstrate the organisation is meeting the (4) requirements outlined above. Recommendations — Adopt the steps / requirements defined by the model Code of Practice.
Training	Describes the process for determining employee's WHS training requirements and maintaining training records.	WHS Training Matrix Training Register	1. LD 2.0 Verification of Competency 2. The Safety and Health Management Plan Notes – LD 2.0 is out of date, references WA Occupational Safety and Health Act 1984. Last reviewed in 2018. Section 3.7 of the Safety and Health Management Plan states that Regular audits of competencies for currency will be undertaken on a 12 monthly basis, no evidence was provided that this is occurring. Recommendations – A detailed review of the training needs analysis against known risks is required, additionally once this is in place ensure that the 12 monthly audit is performed, and findings are shared with the leadership team

Page 24 of 34 Ref: 2023/5575

Version: 3, Version Date: 05/08/2024

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			Best practice would be to ensure a verification of competency process for all machinery operated.
Workplace Inspection	Describes the process for conducting workplace inspections in the office, kitchen, warehouse, manufacturing, dispatch other relevant areas.	Workplace inspection checklists for relevant areas	Notes - During the assessment, it was observed that workplace inspections have been conducted; however, the tools utilized lacked specificity and did not offer clear guidance to the individuals responsible for inspecting the work areas. As a result, there is a deficiency in identifying what constitutes good practice during inspections, which could lead to inconsistent assessments and potentially overlooking critical safety hazards. Additionally, while evidence of corrective actions was identified, there was a lack of tracking for actions that could not be immediately rectified. This absence of follow-up on unresolved issues over time may result in recurring safety deficiencies and a failure to address underlying root causes. Recommendations — Improve Inspection Tools: Develop improved inspection checklists or tools that provide clear guidance to inspectors on what constitutes good practice and identifies specific safety requirements relevant to each work area. This will ensure consistent and thorough assessments across all inspections. Implement Tracking Mechanism for Corrective Actions:

Ref: 2023/5575 Page 25 of 34

WHS Gap Analysis Report

Procedure Name	Purpose	Related Forms	Documents reviewed and identified gaps
			Establish a systematic process for tracking corrective actions, particularly for issues that cannot be immediately addressed.
			Provide Training and Support:
			Offer training sessions or workshops for personnel responsible for conducting workplace inspections, emphasizing the importance of thorough assessments and effective follow-up on corrective actions. Provide ongoing support and guidance to ensure inspectors understand their roles and responsibilities in maintaining a safe work environment.
			Conduct Regular Reviews:
			Schedule regular reviews of inspection processes and corrective action tracking mechanisms to assess their effectiveness and identify opportunities for improvement. Use findings from these reviews as an input to the annual Management Review process.
			Note - Significant clutter was found in the shed/storeroom areas. Consider creating a racking system and designated storage so that items aren't kept or the floor.
Working at Heights	Describes the process for working at heights in accordance with WA	Refer to lifts, ladders, scaffolds	OSH 2.2 Height and Fall Protection Safety Guidelines Work Health and Safety (General) Regulations 2022 – Falls Working at heights permit – not provided
	WHS legislative requirements.		Notes — No evidence was provided that emergency rescue procedures have been developed, tested or that personnel have been provided with suitable training in relation to emergency rescue procedures. The referenced working at heights permit was not provided.

Page 26 of 34 Ref: 2023/5575

Internal Auditing	To assist with reviewing the implementation of the WHS management system.		Notes – No evidence provided of an established internal auditing programme or an active annual management review of the Safety and Health Management plan.
			Implementing an internal audit program for ISO 45001 allows your organization to systematically assess the effectiveness of their health and safety management systems, identify areas for improvement, and ensure compliance with regulatory requirements.
			Recommendations – Implement an internal audit program for your Safety and Health Management system following the elements.
			 Define audit procedures, criteria, and objectives. Conduct regular audits across all aspects of the health and safety management system. Document audit findings and recommendations. Implement corrective actions to address identified deficiencies. Integrate audit findings into the annual management review process to drive continuous improvement.
Psychosocial risks	To identify and manage Psychosocial risks and associated controls		Notes - No evidence provided of a process to identify psychosocial risk and the controls implemented to manage them. Recommendations – Conduct a review of the Model Code of Practice and adopt its recommended processes (below). Build the identification and
			management of risks and controls into the organisations risk management rituals and routines. Under the WHS Regulations, to manage psychosocial risks, a duty holder must

Officer Recommendation/Committee Recommendation/Council Decision MOVED Cr C Reeve-Fowkes SECONDED Cr M Separovich That Council:

(1) AMENDS the FY24 Municipal Budget as detailed and summarised below:

Nature	Budget Surplus Impact \$
Operating Expenditure – Decrease	-\$1,951,755
Capital Expenditure - Increase	\$21,893
Operating Income – Decrease	\$351,801
Transfers from Reserves – Decrease	\$2,069,751
Transfer to Reserves – Decrease	-\$364,875
Net Budget Surplus – Decrease	-\$126,815
Current FY24 Budget Surplus	\$338,877
Revised FY24 Budget Surplus	\$212,062

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 10/0

Background

The Expenditure Review Committee (ERC) is required to review amendments proposed to the City's Municipal Budget before being adopted by Council. This requirement is included under the Terms of Reference for the ERC.

Submission

N/A

Report

Several of the City's service units have requested budget amendments to support their operational and capital program delivery in FY24.

	575 of 790

These include changes to the City's budgeted operating expenditure, capital expenditure, and net transfers from reserve, resulting in a net budgetary impact of a \$126,815 decrease in surplus.

The adjusted budget surplus remaining still provides Council with some capacity to fund any unplanned items during the remainder of the current financial year.

The table below provides details of the budget amendments submitted for consideration by the ERC and recommendation to the next Ordinary Council Meeting on 11 June 2024:

Description (Service Unit)	Expend. \$	Income \$	Reserves \$	Budget Surplus Impact

Budget/Financial Implications

The FY24 Municipal Budget currently contains a net budget surplus of \$338,877, as adopted at the April OCM.

The City's net budget surplus will decrease to \$212,062 with the adoption of the budget amendments recommended in this report.

An Absolute Majority of Council will be required to amend the FY24 Municipal budget.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The budget amendments recommended assist the proper financial management of the City's Municipal Budget and support good governance practices at the City.

There is a low-level risk impact to the City's operational and budget performance (through increased budget variances) should Council not approve the budget amendments contained in this report.

Officer Recommendation

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes The Committee recommends:

(1) ADOPTS the Grants, Donations and Sponsorship Round 2-Grants, Donations and Sponsorship Allocations for 2023-2024 as attached to the Agenda.

Committee Recommendation/Council Decision

That Council:

- (1) ADOPTS the Grants, Donations and Sponsorship Round 2-Grants, Donations and Sponsorship Allocations for 2023-2024 as attached to the Agenda, subject to:
 - 1. Assisting Your Life Achieve being allocated \$5,000 subject to audited financial statements being received by the end of the financial year
 - 2. Southern Lions Football Club being awarded the full \$20,000 sponsorship.

CARRIED 10/0

581	of	790

Background

At the Ordinary Council Meeting on 10 August 2023, Council approved a budget of \$1,455,000 for grants, donations and sponsorship for 2023-24.

The Expenditure Review Committee is empowered to recommend to Council how these funds are to be distributed, after considering the application summary and officer's recommendations contained within this report.

The second round of grants, donations and sponsorship for 2023-24 opened on 12 February 2024 for a period of six weeks and closed on 22 March 2024.

A total of 30 applications were received, including nine applications for Community Grants, three for Cultural Grants and six for Environmental Education for Schools Grants, which have been reviewed under the delegated authority of the Head of Community Development and Services.

The remaining seven applications for donations and five applications for group sponsorship are to be considered by the Expenditure Review Committee.

Report

Donations

The purpose of donations is to cover the operating or ongoing expenses of not-for-profit benevolent organisation that directly assists the disadvantaged and/or vulnerable in Cockburn. This does not include sports clubs, residents' associations, or other special interest groups.

Round two donation recommendations for Council approval are as follows:

Applicant	Comment	Requested	Recommended
		Amount	Amount
Little Things for Tiny Tots	New applicant. \$10,000 is recommended to establish the service in Cockburn and develop partnerships to support the delivery of the service.	\$15,000	\$10,000
Constable Care Foundation	The City provided a donation of \$15,000 in March 2023. An additional \$5,000 funding to attend City events does not meet donation funding criteria.	\$20,000	\$15,000
The Churches Commission on	As requested.	\$10,250	\$10,250

Applicant	Comment	Requested Amount	Recommended Amount
Education Incorporated T/A YouthCARE			
Imagined Futures (auspiced by St Pats)	As requested.	\$15,000	\$15,000
Cockburn Rotary	As requested.	\$4,400	\$4,400
Black Swan Health	As requested.	\$20,000	\$20,000
Assisting Your Life to Achieve (AYLA Inc.)	Application ineligible. 2023 audited financial statement not provided and overdue on ACNC website.	\$20,000	\$0
Total		\$104,650	\$74,650

At an Ordinary Council Meeting on 10 August 2023, Council approved a donation budget of \$210,000 for 2023-24.

At an Ordinary Council Meeting on 14 December 2023, Council approved expenditure of \$135,800 for donations in round one, leaving a balance of \$74,200.

For round two, it is recommended that Council approve \$74,650 expenditure.

A summary of the donation applications and officer recommendations are below:

Applicant - Little Things for Tiny Tots

Requested: \$15,000 Recommended: \$10,000

Little Things for Tiny Tots vision is 'for every baby to receive the care and support they need'. They are a volunteer-powered charity that was established in 2015 in response to the compelling and increasing need of disadvantaged, vulnerable and atrisk families with babies throughout WA.

They have established successful partnership arrangements with local community welfare and social service agencies across the state who identify the most vulnerable families within their communities and determine their particular needs.

They respond by providing large quantities of material aid essentials for families to care for their babies' needs at a critical time.

Partnership arrangements with a diverse range of agencies are designed to minimise the number of families who may otherwise 'slip through the gaps' of community support programs.

Little Things for Tiny Tots take a collective approach and share responsibility alongside partner agencies for ensuring all babies have the opportunity for an equitable start to life, and for their families having improved wellbeing outcomes.

Little Things for Tiny Tots targets families who may be experiencing disadvantage or vulnerability, including issues such as entrenched and intergenerational disadvantage, health and mental illness, job-loss, young/teen mothers, women escaping domestic or interpersonal violence, new immigrant and refugee families, and Indigenous communities.

In 2023-24 over 2,700 families (28% increase from the previous year) were provided with material aid to the value of \$655,000 (192% increase) and demand for the service continues to grow, with 700 families assisted in February 2024.

Material aid comes in the form of various 'baby boxes' which includes clothing, nappies, blankets, bath and baby-feeding products, and maternity items, all of which are essential to a baby and a mother's needs.

Most of the items are pre-loved donations, obtained from drop off points around Perth. The items are sorted, quality-checked, and packaged ready for distribution.

Some purchased items are required to supplement the donations received when demand exceeds supply or when only new items can be included (e.g., nappies).

Partner organisations inform Little Things for Tiny Tots the number of boxes required to service local needs, and then transport and logistics are planned to ensure their timely arrival.

Little Things for Tiny Tots expect to assist approximately 160 families over a period of 12 months with the exact number of recipient families determined by partner agencies, who are best placed to identify families in need, and will distribute the material aid accordingly.

Cockburn Integrated Health, The Department of Education (School of Special Needs) and the Ottey Centre have provided letters of support.

Recommendation:

The application received an assessment score of 14/18 and will be a valuable new service in Cockburn to those most vulnerable and disadvantaged in the local community. However, as the service is new and there is no data to support the need for the service and minimal partners currently engaged, it is recommended that Council support Little Things for Tiny Tots with a donation of \$10,000 to help establish the service in Cockburn.

Applicant: Constable Care Foundation (CCF)

Requested: \$20,000 Recommended: \$15,000

Constable Care Foundation (CCF) has a 35-year history of providing effective safety and crime prevention education to children and young people state-wide.

CCF believes harm prevention education can create a better WA for communities and empower children and young people to find creative solutions to youth issues.

CCF provides theatre-in-education programs within primary and secondary schools, and other community venues, designed to empower young people to find creative solutions and responses to difficult peer, social and community issues, including bullying, internet safety, racism, drug and alcohol abuse, protective behaviours, crime prevention, relationship violence, mental health, consent and issues of tolerance and empathy.

CCF is partly funded by the WA government and local government partners and, incorporates robust ongoing evaluation of knowledge, attitude and behaviour change outcomes for students who take part in program activities.

In 2023-24 over 9,000 children and young people participated in interactive performances and workshops across primary and secondary schools within the City of Cockburn and via event participation.

An additional 465 children (11 primary schools) visited the Safety School in Maylands, and 1,000 secondary school students took or will take part in Youth Choices participative workshops on drug and alcohol abuse, bullying, cyberbullying and mental health.

Ongoing evaluation of these Youth Choices programs identifies a notable change in knowledge, attitude and intent to behave for participants.,

The City of Cockburn have identified personal safety, anti-social behaviour, erideables and road safety as areas of particular focus for the City's harm prevention activities with young people. CCF will deliver programs that address these key community issues with students through the best practice "Forum Theatre" process.

In 2024-2025, City of Cockburn secondary schools will also be able to access 'Rapid Response' incursions, which allow schools to identify youth issues currently affecting them, with CCF providing an immediate intervention that explores issues directly.

In addition, they will also be encouraged to access the City After Dark Safety Tours operated by CCF, in partnership with WA Police and the safety school experiential road safety centre in Maylands.

CCF anticipate that again in 2024-25 well over 3,500 young people within the City of Cockburn will participate in programs in the coming year including crime prevention and emergencies, safety and health issues, including road safety, protective behaviours, emergency numbers, getting to school, cyber safety and bullying, relationship violence, drug and alcohol abuse, coercive control and mental health.

The City has previously financially supported CCF with a donation as follows:

•	2023 March \$15,000	 2013 March \$10,000
•	2022 March \$12,000	• 2012 March \$10,000
•	2020 September \$12,000	 2010 September \$20,950
•	2019 September \$12,000	 2009 September \$20,495
•	2018 September \$12,000	 2008 September \$19,531
•	2017 September \$12,000	 2007 October \$18,780
•	2016 September \$12,000	• 2006 October \$18,045
•	2015 March \$12,000	
•	2014 March \$12,000	

CCF have requested a donation of \$20,000, which is \$5,000 more than they received from the City in 2023.

The request for an increase in funds is due to increasing staff, travel and training costs, CCF to attend three City events (usually charged separately as a fee for service) and Cockburn Youth Services participation in a City After Dark Tour.

Recommendation:

The application received an assessment score of 15/18, due to the quality and value of programs delivered in Cockburn, particularly in local schools.

Cockburn Youth Services have advised that due to a lack of interest from local young people they no longer require a City After Dark Tour.

Also, it is preferred that CCF's attendance at City events remains a separate cost to Council as this request does not meet donation funding criteria.

Additional funding will also not increase the level of service provided by CCF in the City of Cockburn.

It is recommended that Council support CCF with a donation of \$15,000.

Applicant: The Churches Commission on Education Incorporated T/A

YouthCARE-Hamilton Hill YouthCARE Council

Requested: \$10,250 Recommended: \$10,250

YouthCARE is one of WA's largest not-for-profit organisations.

With the combined commitment of staff, volunteers, schools and partner organisations, they provide the best possible pastoral care and values education programs to improve the lives of young people, their families and school communities across WA.

They currently have over 465 Chaplains in 636 schools across the state.

YouthCARE Chaplains support students, staff, and families individually, as well as facilitating various programs and activities which can include, social and emotional learning programs, mental health and wellbeing programs, mentoring and role modelling, breakfast clubs, community development events and activities, education support programs, grief and loss programs and memorial services.

YouthCARE Chaplains are trained and resourced to identify areas of need within a school and provide a range of pastoral care initiatives based on these needs.

A donation from the City of Cockburn in 2023 enabled the Hamilton Hill YouthCARE Council to support a Chaplaincy position at North Lake Senior Campus, Fremantle College and ten Chaplains in the local primary schools.

The Chaplains had more than 5,500 formal conversations with students, 300 staff conversations and 290 conversations with parents and guardians, with the main topics being health and wellbeing, peer relationships, family relationships and school concerns.

Chaplains also had contact with a range of different students and parents from different demographics and personal situations including Indigenous Australians, refugees, and wards of the state.

In addition, to pastoral conversations, YouthCARE Chaplains were also instrumental in increasing the resilience of students and decreasing stress on school staff, providing access to breakfast in the morning through the Breakfast Club program and providing ongoing care to local school families through food hampers, pastoral care, and community referrals.

A donation from the City of Cockburn in 2024 will assist the Hamilton Hill YouthCARE Council to support Chaplain positions at both the North Lake Senior Campus and Fremantle College, with approx.

1,000 students across these schools residing in the City of Cockburn.

•
587 of 790

Assistance via a donation will allow the Chaplains to extend support to the students who require pastoral care, as well as provide practical help and referrals to services.

YouthCARE (Hamilton Hill YouthCARE Council) has received funding from the City in previous years, as follows:

- 2023 March \$10,250 (Donation)
- 2022 March \$3,000 (Donation)
- 2021 March \$3,000 (Donation)
- 2020 March \$12,000 (Donation)
- 2019 March \$9,000 (Donation)
- 2018 March \$9,000 (Donation)
- 2017 March \$9,000 (Donation)
- 2016 March \$9,000 (Donation)
- 2015 March \$9,000 (Donation)

- 2014 March \$9,000 (Donation)
- 2013 March \$9,000 (Donation)
- 2012 March \$9,000 (Donation)
- 2011 March \$9,000 (Donation)
- 2010 March \$9,000 (Donation)
- 2009 March \$9,000 (Donation)
- 2008 March \$9,000 (Donation)
- 2006 October \$9,000 (Donation)

Recommendation:

Based on an assessment score of 16/18 and the need for the service in Cockburn it is recommended that Council support YouthCARE (Hamilton Hill YouthCARE Council) with a donation of \$10,250.

Applicant: Imagined Futures (auspiced by St Pats)

Requested: \$15,000 Recommended: \$15,000

The Imagined Futures (IF) partnership brings together commonwealth, state and local government departments, not-for profit agencies, businesses, philanthropists, and community members across the local government areas of Cockburn, Fremantle, and Melville.

IF recognises that tackling complex social issues is beyond the capacity of any single organisation to resolve, and that the only way to effect large-scale change is through working together, pooling, and mobilising the resources available in the community to achieve shared goals.

The partnership's approach is informed by principles for collective impact and has a proven history of working in a way that goes beyond information exchange, to developing shared strategies and delivering collaborative projects.

IF is recognised by the State Government as the District Leadership Group for the South West Metropolitan Region.

Active projects for IF include, implementing the Where is the Door? project to connect people to the right help at the right time, advocating for more family domestic violence services in the region to mitigate the devastating impacts of family domestic violence in our community, offering Keeping Kids Engaged Program in Lakeland Senior High School to improve the number of students attending school, ongoing

588 of 790	

implementation of the Alliance Against Depression framework to better support people affected by depression and in doing so reduce suicide rates and, implementing the South Metro Regional Homelessness and Housing Plan to lead a coordinated approach to supporting people at risk of or experiencing homelessness.

IF members have identified the following strategic priorities that they are working toward, improving Aboriginal wellbeing, implementing place-based collective impact projects and advocating for greater Family Domestic Violence servicing in the region.

They are driving this work through facilitating working groups that are focused on children and young people, mental health, community, housing and homelessness and a community connector community of practice.

Across their breadth of work they actively engage with 70+ organisations/stakeholder groups and 132 individuals.

Over the course of 2023 IF convened 37 interagency meetings with an average attendance of 13 at each meeting, as well as bringing people together to produce the plans and project briefs required to attract additional funding and underpin collective project delivery.

In 2022-23 The City of Cockburn's donation significantly contributed to the ongoing work of the IF partnership at a time when the community is experiencing extraordinary challenges such as cost of living challenges, increasing levels of mental ill-health and the housing crisis.

This included 122 teachers and student support staff participating in mental health workshops designed to build their capacity to support students who may be struggling with mental ill-health, 15 students took part in the year-long Keeping Kids Engaged Program at East Hamilton Hill Primary school, 90 copies of Wellbeing Zone journals were distributed to students across Cockburn (these locally developed, award winning journals promote lifelong positive mental health habits).

Cockburn also hosted one of three Connections events for Aboriginal children in 2023, which reached 30 children ,150 students participated in the Celebrating Culture Through Sport program and 31 people from 18 different organisations attended the frontline networking event hosted at Cockburn Integrated Health's facilities.

In 2024, the Keeping Kids Engaged Project is scheduled to be delivered to 60 students at Lakeland Senior High School, Where is the Door? resources will be made available to thousands of residents, whether it be through the support that IF provides to GPs and other community touchpoints such as schools and childcare centres, by attending one of IF's workshops, accessing the resources on IF's website, or through IF's community of practice networking events.

Plans are also in place to continue to run the Connecting Aboriginal children in care events with approx.30 Cockburn residents expected to attend. Similarly, IF are also planning to host a second interschool Aboriginal cultural games carnival - the total reach is expected to exceed 600 children with at least 150 of these from Cockburn.

589 of 790

IF are currently liaising with ADHD WA to offer some of their programs in our region so that families do not have to travel far and similarly, advocating for a FIFO wellbeing workshop to be held in Cockburn for up to 100 people, in recognition of the high numbers of FIFO workers that live in the region.

Imagined Futures has received funding from the City in previous years, as follows:

- 2022 September \$15,000 (Donation)
- 2021 March \$15,000 (Donation)
- 2020 March \$15,000 (Donation)
- 2019 March \$10,000 (Donation)
- 2017 September \$10,000 (Donation)

Recommendation:

Based on an assessment score of 16/18 and to support the work Imagined Futures does within the City of Cockburn and the region it is recommended that Council support Imagined Futures with a donation of \$15,000.

It is worth noting that alliance partners; City of Melville and Fremantle contribute \$10,000 each for the same level of service as the City of Cockburn.

Applicant: Cockburn Rotary

Requested: \$4,400 Recommended: \$4,400

Cockburn Rotary was established in Cockburn on the 18 June 1969 and since that time has been active in supporting projects and initiatives within the City of Cockburn which support the local community.

For the past three years Cockburn Rotary have delivered a community grants program for local community groups, schools and clubs.

To date \$45,000 has been distributed to the local community to hold fairs and fetes, free outdoor movie nights, Anzac Day events and school-based projects.

Cockburn Rotary have also contributed \$5,000 to a local literacy program, provides native plants to new residents, four times per year at the City's Citizenship Ceremony's and partners with the City in delivering the annual Cockburn Spring Fair that attracts over 6,000 people.

To be able to deliver these initiatives, Cockburn Rotary hosts monthly quiz nights with over 100 people attending and all funds raised are redirected back into the local community through grants and donations.

Cockburn Rotary has 18 members which are volunteers who undertake all administration tasks and participate in club meeting at members' homes or coffee shops. However, recently Cockburn Rotary have been presented with an opportunity to rent an office space at Cockburn Bowls and Recreation Centre in Yangebup,

providing a permanent base within an established community facility, fostering greater connections within the local community.

A donation from the City of Cockburn will enable Cockburn Rotary to rent the office space for 12 months without using funds raised to support the local community.

Cockburn Rotary has received funding from the City in previous years, as follows:

- 2022 March \$3,850 (Small Events Sponsorship)
- 2018 March \$3,720 (Community Grant)

Recommendation:

Based on an assessment score of 12/18 and the valuable support and services Cockburn Rotary provides to the local community, it is recommended that Council support Cockburn Rotary with a donation of \$4,400.

Applicant: Black Swan Health

Requested: \$20,000 Recommended: \$20,000

Black Swan Health is an independent not for profit primary healthcare provider.

Established in 2014, Black Swan Health are one of the largest (outpatient) healthcare providers in WA with a workforce of almost 300 health professionals.

An award-winning, multi-disciplinary healthcare team of GPs (General Practitioners), Psychiatrists, Clinical Psychologists, Registered Psychologists, Nurse Practitioners, Registered Nurses, Credentialled Diabetes Educators, Dietitians, Physiotherapists, Exercise Physiologists, Pharmacists, Occupational Therapists and Social Workers.

This donation will assist Black Swan Health with the cost of delivering the Freo Street Doctor service in two locations in Cockburn.

An award-winning, accredited mobile medical health service that provides accessible, free, non-judgmental, and culturally safe medical and mental health services to those most in need in the local community.

While the GP and nurse provide medical and mental health care for people, each clinic is supported by an experienced outreach worker who links people with the most appropriate local services and supports to address their complex social needs.

The Freo Street Doctor is available in Cockburn three days per week at the Jean Willis Centre and 8 Caffrey Place, Hamilton Hill (or an alternate location such as Goodchild Park. These locations are well known to people who engage with Freo Street Doctor and are accessible.

The Freo Street Doctor patient cohort do not readily engage with mainstream services and experience barriers in accessing medical care.

591 of 790

This service removes those barriers, enabling people to address their health issues and improve their lives. With 98% of clients having identified Freo Street Doctor as their primary source of health care, recent experience has identified 25% of patients are engaging with Freo Street Doctor for the first time demonstrating an increased need for an accessible, no cost service.

Previous funding from the City of Cockburn supported Freo Street Doctor to provide 386 health consultations during 703 hours of clinics for vulnerable and disadvantaged people in Cockburn.

In the past 12 months, Freo Street Doctor clinic demographics for Cockburn indicate the following:

- 61% of patients are female
- 80% of patients have a mental health illness
- 56% of patients identify as Aboriginal or Torres Strait Islander people
- 65% of patients have at least two chronic health conditions
- 24% of clients are over 65 years of age.

Whilst individuals received direct health care supports, the service supported the health of the broader community by addressing chronic health conditions through health education, harm minimisation strategies and dedicated treatment plans such as for hepatitis C, diabetes and mental health.

In addition to high quality health care, the outreach worker linked people with a range of community-based services to address the social needs experienced by clients such as housing, financial advice and employment.

Black Swan Health has received funding from the City in previous years for the Freo Street Doctor as follows:

- 2023 March \$20,000 (Donation)
- 2022 March \$20,000 (Donation)
- 2021 March \$20,000 (Donation)
- 2020 March \$20,000 (Donation)
- 2019 March \$15,000 (Donation)
- 2018 March \$15,000 (Donation)
- 2017 March \$15,000 (Donation)

Recommendation:

Based on an assessment score of 17/18 and the valuable service the Freo Street Doctor provides to the most disadvantaged and vulnerable people within Cockburn, it is recommended that Council support Black Swan Health with a donation of \$20,000.

Applicant - Assisting Your Life To Achieve (AYLA Inc)

Requested: \$20,000 Recommended: \$0 (Ineligible)

Assisting Your Life to Achieve (AYLA Inc.) is a not-for-profit charity and registered NDIS service that has been operating in Cockburn since 2015.

AYLA Inc.'s purpose is to give everyone a chance to overcome hardship and reach their potential. AYLA Inc. strives to aid and strengthen communities, empower individuals and help in crisis situations.

In Cockburn, AYLA Inc. provides emergency assistance seven days per week, including food, clothing and furniture, has a low-cost food centre, not-for-profit café using 50% of rescued food products to produce fresh meals, an OP shop and hair salon.

AYLA Inc. also provides volunteer and job opportunities, creating pathways to future employment and referrals to local support services.

In 2023, over 100 families benefitted as a result of funding received from the City of Cockburn and in 2023-24 AYLA Inc. have seen a 40% increase in individuals and families accessing their services and expects this trend to continue, particularly with the closure of Second Harvest.

From 2016-2023, AYLA Inc. states they have supported 22,374 individuals and families, to the value of \$2,028,295.48.

Funding from the City of Cockburn in 2024-25 will enable AYLA Inc. to assist 235 individuals or 137 families with You Matter Hampers via Let Everyone Eat no cost food market.

AYLA Inc. has reported that the demand for their services have increased significantly and are requesting an increase in funding from \$15,000 in 2023-24 to \$20,000 in 2024-25, however no evidence has been provided to support an increase in funding.

AYLA Inc has received funding from the City in previous years as follows:

- 2023 March \$15,000 (Donation)
- 2019 September \$5,000 (Donation)
- 2018 September \$3,750 (Donation)
- 2017 September \$5,000 (Donation)
- 2017 May \$3,636 (Sustainability Grant)
- 2016 September \$5,000 (Donation)

Recommendation:

The application scored 16/18 against the donation criteria.

AYLA Inc. is a worthy organisation that provides a broad range of services that assist disadvantaged and vulnerable people in the community and surrounds.

593 of 790

However, AYLA Inc's application is ineligible, as the applicant has not submitted a current audited financial statement (June 2023), which is an eligibility criterion of the Donation Guidelines "Demonstrate financial viability and sound management".

For requests over \$5,000, a copy of the most recent, audited financial statement must be provided with the application".

Also, the Donation application form states "Incomplete applications and/or applications received after the closing date will not be considered".

The Community Grants Coordinator contacted AYLA Inc and was advised that an audited financial statement for 2022-23 has not been done, due to the board being busy with the purchase of 10 McKinnon St, Cockburn Central which is now complete.

The Australian Charities and Not for Profit Commission (ACNC) states that AYLA Inc's Financial Report 2023 and Annual Information Statement 2023 are overdue, therefore no evidence demonstrating financial viability and sound management making this request ineligible.

Group Sponsorship

Group Sponsorship is available for projects or activities that provide brand exposure and public recognition benefits to the City of Cockburn.

Sporting teams/clubs can only apply if they are representing at a national or international level event at which they have been selected based on their endeavours in their chosen activity or, hosting a sporting event or activity in the City of Cockburn that is of state, national or international significance that will add value to the City of Cockburn.

Round two group sponsorship recommendations for Council approval are as follows:

Applicant	Comment	Requested	Recommended
		Amount	Amount
Curtin University	As requested	\$3,750	\$3,750
Spinnaker Health	As requested	\$20,000	\$20,000
Management Pty Ltd			
for the Spinnaker			
Health Research			
Foundation			
Swimming WA Inc	No evidence to support that a larger number of schools	\$17,000	\$12,500
	including those in Cockburn will participate in the Inter-		
	Schools Championships in		
	2024.		
The Conservation	Funding above the	\$15,000	\$10,000

Council of WA	organisations stated maximum event sponsorship level (platinum) at \$10,000 is not substantiated.		
Southern Lions Rugby	No evidence to support an	\$20,000	\$10,000
Union Football Club	increase in funding.		
Total		\$75,750	\$56,250

At the 10 August 2023 Ordinary Council Meeting, Council approved a group sponsorship budget of \$90,000 for 2023-24.

At the 14 December 2023 Ordinary Council Meeting, Council approved expenditure of \$21,500 for group sponsorship in round one, leaving a balance of \$68,500.

For round two, it is recommended that Council approve \$56,250 expenditure.

A summary of the group sponsorship applications and officer recommendations are below:

Applicant: Curtin University

Proposal: Curtin Ignition 2024 - Program Sponsor (One Scholarship)

Requested: \$3,750 Recommended: \$3,750

Curtin University is a vibrant and forward-thinking university that defines itself through innovative practice in teaching and research, earning it a growing international reputation for excellence.

Curtin University is ranked in the top 1% of universities worldwide in the highly regarded Academic Rankings of World Universities and ninth in Australia.

Curtin Business School's Executive Education programs deliver practical skills and knowledge in a range of business areas, including luxury branding, human resources, business strategy, tourism, international business, supply chain management and data analytics.

The purpose of the Curtin Ignition Program is to deliver world-class entrepreneurial education with the goal of stimulating commercialisation and creating a more diversified industry base in WA.

To date it has aided potential high growth ventures raise equity funding, helped create new enterprises, and created over 214 new jobs and over 83 part time jobs in alumni ventures. The program has also been successful in generating over \$6,000,000 of economic activity for WA.

Curtin Ignition is an intensive training program for aspiring entrepreneurs, academics and corporate innovators to trial and then prepare business ideas for the commercial environment. It provides the tools, contacts, and confidence to transform ideas into a successful business venture.

595 of 790

This is the 14th year Curtin University has successfully run the program. Each year 70-80 delegates attend the program, and they now have an alumnus of over 720 people.

The 2024 program is aiming to have 100 delegates.

The five ½-day program held in September each year and includes:

- Sunday Welcome/Induction
- Monday Business Models and Marketing
- Tuesday Intellectual Property
- Wednesday Finance and Investment
- Thursday Team Building/Launching your idea
- Friday Clinics, Posters, Presentation Pitch.

Each day has 3-4 presentations from industry experts. At the end of all presentations the delegates split into groups of 5-6 and are able to apply the day's learnings to their own businesses one on one with their mentor.

On Tuesday and Wednesday there are panel sessions in the evening, one is "Ask the Alumni", and the second is a "Finance" panel.

The program then culminates on the final day where the delegates can have two 30-minute appointments of their choice with a range of different clinicians i.e., IP lawyer, marketing expert.

After this each delegate gives a 10-minute pitch on their business to a panel of experts and receives 10 minutes of feedback on their pitch.

Ignition has already generated over \$6,000,000 of economic activity for WA over its 10 years and to date it has aided potential high growth ventures raise equity funding, helped create new enterprises and created over 214 new fulltime jobs and over 83 part time jobs in alumni ventures.

Curtin University report the benefits to the Ignition program includes:

- Stimulates the creation of new high growth ventures
- Increases knowledge in the start-up community
- Fosters enterprising spirit in WA
- Increases the level of collaboration between corporate innovation partners, universities, government departments, small and large businesses
- Increases employment opportunities
- Encourages creation of new connections
- Improves business and innovation knowledge and capability
- Improves access to advice from key experienced professionals
- Creates linkages between delegates, students, and the business community.

596 of 790	

Sponsorship benefits for the City include:

 Sponsorship Announcement to the Ignition Community (database comprising 5000+ of the WA Start Up and SME Community)

- Logo and link on the Curtin Ignition Website (part of Curtin University site)
- Inclusion on Ignition social media channels in the lead up and throughout the week
- Inclusion of City's logo on appropriate PR communications
- Acknowledgement at the introduction and welcome session and at the networking event
- Opportunity to display City's banner in the teaching room for Ignition's duration
- Opportunity to provide collateral for the delegate bags
- Ongoing verbal mention throughout the event
- An invitation for two people to the 'Welcome' session', 'Ask the Alumni Panel Session' and 'Funding Panel Session'
- Opportunity to attend a selection of the keynote sessions
- An invitation for two people to attend the finale Cocktail Function
- Exposure to high level industry guests, media, and attendees
- Entry in and copy of the contributor directory booklet
- An invitation to be a member of the Pitch Panel and the one-on-one clinics
- Access to the Ignition program's extensive network of entrepreneurs and corporate innovators.

The Curtin Ignition Program receives financial support from Landgate, Wrays IP, ECU Cyberwest, Peel Development Commission, the cities of Canning, Wanneroo, South Perth and Town of Victoria Park, amongst others.

Curtain University has received group sponsorship funding from the City in previous years, as follows:

- March 2023 \$3,750 (Sponsorship of one delegate)
- March 2022 \$6,500 (Sponsorship of two delegates)
- March 2021 \$6,500 (Sponsorship of two delegates)
- March 2020 \$6,500 (Sponsorship of four delegates)

In 2024, Curtin University has requested sponsorship for one Cockburn delegate to attend the program.

The City's Economic Development team is supportive of the Curtain Ignition Program and are also sponsoring one local business to attend.

Recommendation:

Based on an assessment score of 17/21 and that the sponsorship opportunity is in line with the City's desired image, it is recommended that Council support Curtin University with group sponsorship of \$3,750.

Applicant: Spinnaker Health Management Pty Ltd as a trustee for the

Spinnaker Health Research Foundation

Proposal: The City of Cockburn Award 2024 - Naming Rights

Requested: \$20,000 Recommended: \$20,000

Over 27 years, Spinnaker Health Research Foundation (SHRF) has funded more than 246 medical research projects, travel grants and PhD scholarships, totalling over \$6 million and leveraging a further \$20 million from peak funding bodies.

Established at Fremantle Hospital as an independent charitable entity in 1996, first grants were awarded in1996. In 2016, the foundation expanded its partnership to include Fiona Stanley Hospital, renaming to Spinnaker as homage to founding Chair, Warren Jones.

As the only medical research foundation south of the river, SHRF has expanded its traditional mission of support for early career research and seed grants to include priority areas that are recognised gaps in knowledge.

SHRF's purpose is to support innovative research into the causes, prevention, treatments and cures of the illnesses and diseases most prevalent in the local community.

Uniquely positioned in partnership with WA's leading tertiary hospital, SHRF funds the entire life cycle of health, from maternity to geriatrics, including newborns, paediatrics, life-impacting diseases such as cardiovascular and diabetes, cancer, mental health, and rare disease.

In 2023, SHRF merged with the Hospital Research Foundation Group to help expand their reach as they continue to strive to support research of identified needs of the WA community.

SHRF strives to:

- Support research that responds to the identified needs of the south metropolitan community of Perth, Western Australia
- Support and inspire research with demonstrable translation to clinical practice to improve patient outcomes across all areas of disease and injury
- Support research for the prevention of chronic health conditions
- Provide opportunities for the translation of knowledge for the benefit of all members of the community.

Sponsorship funding from the City of Cockburn will ensure the awarding of one grant within the annual SHRF round of competitive grants for Early Career Research and Seed Grants.

The grants are subject to a process of EOI which opens in late May 2024.

598 of 790	

The applications are reviewed by a Scientific Advisory Committee against rigorous scoring criteria and shortlisted candidates are then invited to submit a full application prior to final assessment and recommendation for award.

The recipients are then awarded the grants at a formal ceremony which will be held in late November 2024. The grants are then effective for a 12-month period commencing February 2025.

A primary assessment criterion of the grants is the identification of a critical health issue that is relevant to the community of south metropolitan Perth, inclusive of the City of Cockburn catchment. In 2023, the City of Cockburn Award (for the 2024 period) was granted to Dr Marcus Voola at Fiona Stanley Hospital – Dr Marcus Voola project titled Middle Ear Implants are effective hearing aids for many people, however programming the implants is complex and subjective – relying on recipients to indicate when the sound is "loud but comfortable" which can be hard for children or those with communication or intellectual challenges.

To combat these pitfalls, this project aims to develop and validate a new programming method that removes this subjective nature.

An objective programming method will be developed using activity of the brain, and which has already proven to be effective for people with cochlear implants.

A similarly important topic for the local community will be chosen with the City of Cockburn's input for this year's award (to be announced at the end of 2024).

SHRF will host an annual awards night in November, which recognises the successful grant recipients, as well as the donor or named sponsor.

The City will have the opportunity to present their award in front of an audience of 150+ guests comprised of research grant recipients, university representatives, South Metropolitan Health Service Executives, South West Local Government Councillors and Mayors, corporate and community partners, Fremantle and Attadale Rotary Club supporters, media, and suppliers.

The City of Cockburn will be acknowledged on the physical award presented to the researcher and recognised as a significant funder in event materials on the night, can provide a corporate banner for display and be included in all donor listings including on the SHRF website and annual review.

Additionally, the support of the City will be featured as a story in SHRF's quarterly newsletter and be sent to local community newspapers as a media release.

The City's Mayor, CEO and suggested staff members will be invited to the annual awards night where a City representative will present the sponsored award to the recipient.

Photos will be taken of the award ceremony and provided to the City along with a certificate of appreciation.

599 of 790

SHRF would also welcome the opportunity to work with the City in the distribution of these images via your social media and media channels.

SHRF has received group sponsorship funding from the City in previous years, as follows:

- March 2023 \$20,000
- March 2022 \$15,000
- March 2021 \$15,000
- September 2019 \$15,000
- September 2012 \$15,000
- September 2011 \$15,000
- September 2010 \$15,000
- September 2009 \$10,000
- September 2008 \$10,000
- October 2007 \$10,000
- October 2006 \$10,000

SHRF has a large base of supporters and donors based in the southern metropolitan Perth region including Austal Shipping, South Metropolitan Health Service, Beer Farm, Rotary Clubs of Fremantle and Attadale and Cockburn Integrated Health.

They also have a number of private, individual donors from the community and across WA.

Recommendation:

Based on an assessment score of 18/21 and that the sponsorship opportunity is in line with the City's desired image, it is recommended that Council support SHRF with group sponsorship of \$20,000.

Applicant: Swimming WA Inc (SWA)

Proposal: OWS Series 2024/25 Coogee Round incl 10km Open Water State

Championships and Open Water Inter-School Championships -

Official Sponsorship

Requested: \$17,000 Recommended: \$12,500

Swimming WA (SWA) is the state sporting association for swimming in WA, with 80 affiliated clubs and over 10,500 members state-wide, they manage and promote the sport of swimming in WA, hosting a full calendar of pool and open water swimming events annually.

A critical focus of their strategic plan is to deliver participation opportunities and development pathways for swimmers of all ages and abilities, including disadvantaged populations such as those with disabilities.

Open Water Swimming (OWS) events are growing in popularity in WA, nationally and internationally. SWA has been building its Open Water Series in recent years, comprising nine events in 2023-24 including the Coogee Round, hosted at a range of WA's prestigious beach locations.

These events are open to all ages above nine years, offering distances from the Come and Try 500m to 10kms.

In 2024, SWA added the first state-wide Inter Schools OW Championship for secondary schools, hosted with the City's support at Coogee in conjunction with the OWS Series Round.

These events deliver significant community vibrancy and economic impact, offering a fantastic competition opportunity for elite swimmers to first timers. SWA seeks, through the OWS Series, to showcase WA's fantastic natural waters and provide ocean swimming competition opportunity, through events that are responsibly and safely managed in partnership with local Surf Life Saving Clubs (Coogee SLS Club in this case).

In 2023-24, Coogee hosted OW Series Round 3 over two days, including the 10km State Championships, featuring the best open water swimmers in WA. The event was SWA's largest, attracting 875 swimmers and with the support of the City also ran the inaugural state-wide Inter-Schools Championships the day before, attracting 450 swimmers from 37 schools.

In 2024-25, SWA are proposing to deliver the same elements as 2023-24 however, increase participation in the Inter-Schools Championships to over 800 swimmers, which will potentially require the event to be run over two days (November 22 and 23, 2024).

A priority for SWA will also be to increase participation of Cockburn schools as in 2023 only one secondary school participated. SWA expect to attract 1,600 swimmers and 900 supporters over the two days.

The variety of swimming distances (including Come and Try) attracts swimmers from the local community who may not be club members, which provides an opportunity for connection to and recruitment by clubs.

Coogee Beach Surf Lifesaving Club will also benefit financially as the contracted water safety provider for the event and as a key partner will also benefit from the additional profile and highlighting their critical work in the event.

Individual participants to participate are charged an entry fee from \$29.00 to \$53.50 (incl. GST), schools are charged \$150 per team and \$35 per swimmer for extra participants.

Entry fees contribute most of the event income (\$59,503), plus support the local partner swimming club and enable contracting of the Coogee SLS Club.

The following branding and sponsorship benefits are on offer:

- An opportunity for an interview with the MC at the event and regular reference throughout the event
- Presentation of medals and awards at the event

ſ	604	of 700
	601	of 790

- Activation opportunity at the event
- Sponsor Logo on OWS website and all collateral for OWS Series
- Sponsorship recognition on all OWS Series electronic media throughout Series.
- Four branded banners and teardrops at the round (to be supplied by the City)
- Additional signage if required and supplied by the City
- Sponsor acknowledgements / read-outs throughout the event on the day.
- Free entry for City of Cockburn employees to event.

SWA have received group sponsorship funding for the OWS Coogee round, from the City in previous years, as follows:

- 2023 March \$12,500
- 2022 September \$7,500
- 2021 September \$5,000
- 2019 March, \$5,000.

In 2024, SWA's main objective is to significantly grow the Inter-Schools event, due to the success of last year's event, which they believe they can grow by over 55% and get greater patronage from schools based within the City of Cockburn.

If SWA's upper target is met (800 swimmers) they will have to stage the school's event over two days, creating additional costs to host a larger event. Therefore, SWA is requesting from Council a contribution of \$17,000 or \$4,500 more than the funds received in 2023.

A significant targeted outcome of the additional investment will be representation of an additional six schools based in the City of Cockburn.

Recommendation:

Based on an assessment score of 17/21 and that the sponsorship opportunity is in line with the City's desired image, it is recommended that Council support SWA. However, as there is no evidence to support that a larger number of schools including those in Cockburn will participate in the Inter-Schools Championships in 2024, it is recommended that Council support SWA with group sponsorship of \$12,500 as per 2023.

Applicant: The Conservation Council of WA (CCWA)

Proposal: Conservation Council of WA Annual Conference, AGM &

Community Conservation Awards - Official Sponsorship

Requested: \$15,000 Recommended: \$10,000

The Conservation Council of WA (CCWA) is Western Australia's foremost not-for-profit, non-government conservation and environment organisation.

They have been a prominent and forthright voice for conservation for more than 50 years working directly with communities, government, traditional owners, industry, and media to promote a more sustainable WA and to protect our natural environment.

CCWA represents over 80 environmental organisations and thousands of individuals across the state, all dedicated to conserving Western Australia's diverse natural resources from the Kimberley to the Southwest and everything in between.

CCWA's purpose is ensuring the protection and restoration of Western Australia's natural environment – not just for our own generation, but for generations to come.

They started out from humble beginnings in 1967, focused on local conservation projects.

Today, climate change and ecological collapse are the greatest threats to WA - so they run a focused set of programs tackling fossil fuels, biodiversity loss, promoting community-led citizen science, and moving towards a bright, green economic future.

CCWA's Nature First Conference 2024, scheduled for November 13th and 14th at the Wetlands Centre, is a flagship event uniting conservation groups, leaders, and community members state-wide. Serving as a vital platform for networking, collaboration, and knowledge sharing, it drives meaningful environmental change.

Alongside, the 30th Annual Community Conservation Awards celebrate outstanding contributions to conservation and climate action.

The conference offers a diverse program of capacity building and skills development tailored to the needs of the community and the conservation sector.

Informed by member surveys and community feedback, CCWA address pressing environmental issues such as climate change, biodiversity loss and pollution, enhancing the effectiveness of WA's conservation efforts. We also aspire to engage cultural leaders and traditional custodians, enriching CCWA's understanding and approaches.

Nature First is inclusive, fostering engagement from a wide range of stakeholders in the environmental sector and beyond.

Reconciliation, truth-telling, youth engagement and proactive partnerships are integral to the theme, reflecting a comprehensive approach to conservation in Western Australia.

The Awards Reception and Ceremony offer networking opportunities and honour community leadership, recognising achievements within the environmental community.

Through these initiatives, we aim to drive positive change and promote a sustainable future for Western Australia.

CCWA's Annual Conference caters to a broad and diverse audience, including CCWA Member Groups, environmental professionals, conservation volunteers, NGO leaders, First Nations people, government officers, the public, local community members, researchers, scientists, advocates, students, and emerging professionals.

With such diversity, the conference serves as a crucial platform for knowledge exchange, collaboration and networking across various sectors and demographics, spanning environmental science, policy, activism, education, and community engagement.

The venue at the Wetlands Centre accommodates 175 people and the conference typically attracts a substantial turnout due to its reputation and the past four years have been sold out events.

The conference aims to engage and empower individuals from diverse backgrounds to contribute to collective efforts towards environmental stewardship and sustainability.

CCWA have not stated tickets cost to attend the conference, however from the income listed in the budget tickets will range between \$85-\$120.

CCWA's application is supported by the Wetlands Centre, Save Beeliar Wetlands, Cockburn Community Wildlife Corridor Inc and the Murdoch Branch of the Wildflower Society of WA.

Branding benefits for the City of Cockburn will depend on the level of sponsorship provided outlined in CCWA's Conference 2024 Sponsorship Prospectus:

Platinum Sponsorship (\$10,000)

- Logo on all promotional material including the conference website and program
- Sponsor name mentioned in the event opening and closing ceremony
- Signage displayed in main conference room
- Sponsor booth during the event
- Four complimentary conference registrations.

Gold Sponsorship (\$5,000)

 Same as platinum sponsorship except for only two complimentary conference registrations.

Silver Sponsorship (\$2,000)

- Logo on all promotional material including the conference website and program
- Sponsor name mentioned in the event opening and closing ceremony
- Distribution of your promotional material at the conference
- One complimentary conference registration.

Sundowner Sponsor (\$3,000)

- Naming rights for the Conference Sundowner
- Recognition as sundowner sponsor in the event opening and closing ceremony
- Logo on all promotional material including the conference website
- Banner display at conference
- One complimentary conference registration.

Coffee Cart Sponsor (\$2,000)

- · Recognition as coffee cart sponsor
- Logo on all promotional material including the conference website and program
- Sponsor name mentioned in the event opening and closing ceremony
- Signage displayed at coffee cart
- One complimentary conference registration.

CCWA have requested sponsorship of \$15,000 which could potentially provide additional sponsorship opportunities including a City representative to open the conference, have a speaking opportunity at the conference and for the Mayor to present the Bessie Rischbieth Award.

CCWA previously received group sponsorship of \$3,000 in March 2019 from the City for the conference. CCWA have advised that in 2019 they were able to secure a substantial grant from Lotterywest, with funding from the City primarily directed to equipment hire. CCWA have stated in their application that they do intend to apply for a \$10,000 Lotterywest grant for the 2024 conference.

CCWA have stated that while the increase in funding requested may appear substantial compared to 2019, it is justified due to organisational growth, an expanded conference scope and ambition.

This includes an increase in participants from 103 to 175 and additional conference features such as workshops and tours, graphic recording of the event, interactive art, music and the introduction on new initiatives aimed at enriching community engagement and wellbeing.

Recommendation:

Based on an assessment score of 18/21 and that the sponsorship opportunity is in line with the City's values and desired image, it is recommended that Council support CCWA with platinum sponsorship of \$10,000.

605 of 790

Applicant: Southern Lions Rugby Union Football Club

Proposal: 2024 City of Cockburn Junior 7s – Naming Rights Sponsor

Requested: \$20,000 Recommended: \$10,000

Southern Lions Rugby Union Football Club (SLRUFC) is a not-for-profit sporting club with a support base of over 500 members/players with the majority calling the City of Cockburn home.

The Club have teams in juniors U6-18's, senior men's premier grade-five teams, master's, women's community grade and premier grade and the club represented Australia in France in 2023 at the inaugural Amateur World Cup Rugby Tournament.

SLRUFC also have an adult all-abilities team which was the first of its kind in Australia. They were invited to participate in the World Golden Oldies Festival in Perth in 2023 and are travelling to NSW to grow the game.

SLRUFC's players range in age from five to 65, come from diverse backgrounds and nationalities, and bring with them a vocal and supportive fan base.

The club has been based at the Success Regional and Sporting Facility since 2010 and are in the WA Premier Grade competition. The Club provides a place for people to play and/or learn a sport with like-minded people in a fun, family friendly and competitive environment.

SLRUFC is seeking financial assistance to assist with the cost of hosting the 2024 City of Cockburn Junior 7's Rugby Invitational Tournament on the 9th of November 2024, with invitations being sent to Rugby WA Junior clubs from U8s to U18s.

The event will be advertised on Rugby WA and Rugby Australia websites and the club expects a minimum of 70 WA Junior 7s teams and 800 players to participate, with 1000 members of the public (fans and Family) to attend the free event. In the past, teams from Malaysia have attended, therefore the club will again extend an invitation to Asian countries.

The event will assist in increasing the general awareness of SLRUFC and City facilities, encourage community participation in social activities and promoting an active, outdoor, lifestyle. With the continued influx of young families to the City of Cockburn, SLRUFC expect to see increased community interest combined with sturdy growth in club membership.

Council sponsorship will assist SLRUFC with community-based advertising campaigns, event uniforms and equipment, complimentary attractions sch as entertainers, face painting, bouncy castle, introductory rugby clinics, prizes, tournament referees, first aid, trophies, photography, event requirements and parking management.

606 of 790	

As naming rights sponsor, the City of Cockburn will benefit from:

- Inclusion on all event advertising including local media coverage via radio
- Logo inclusion on event signage
- An opportunity to display City signage at the event
- Logo inclusion and sponsor recognition on all advertising and promotional material
- Flyers/posters
- Rugby Australia events website
- Event Facebook page (Cockburn 7's Rugby Invitational Tournament)
- Event program

The City of Cockburn is also welcome, to advertise the event through all available channels and to display messages, publications, banners or other items at the event.

As in previous years, the Mayor, Deputy Mayor and Councillors will be invited to attend the event and make the presentations to the winning teams.

SLRUFC has received funding from the City in previous years, as follows:

- 2023 October, \$3,000 Small Events Sponsorship
- 2022 Sept \$9,500 Naming Rights Sponsor 2021 event
- 2022 Sept \$3,000 Small Events Sponsorship
- 2021 February \$1,500 Small Events Sponsorship
- 2020 September \$10,000 Naming Rights Sponsor 2021 event
- 2019 September \$10,000 Naming Rights Sponsor 2020 event
- 2018 September \$10,000 Naming Rights Sponsor 2019 event

- 2017 September \$10,000 Naming Rights Sponsor 2018 event
- 2016 September \$10,000 Naming Rights Sponsor 2017 event
- 2015 September \$12,500 Naming Rights Sponsor 2016 event
- 2014, September \$12,500 Naming Rights Sponsor 2015 event
- 2013 September \$12,500 Naming Rights Sponsor 2014 event.

SLRUFC has also previously received \$4,000 Minor Capital Works Grant towards floodlighting upgrades and at least one \$1,000 Sports Equipment Grant.

SLRUFC apply for Small Events Sponsorship (max \$3,000) to support their annual Junior 7's Rugby Invitational Tournament and group sponsorship (approx.\$10,000-\$12,500) annually to support their 10's Rugby Invitational Tournament.

In 2024-25 SLRUFC are requesting \$20,000 group sponsorship for the Junior 7's Rugby Invitational Tournament which they have stated is due to increased costs of hosting events e.g., player insurance, Rugby WA and WA Referees fees (from \$0 per player to \$5 per player and \$20 to \$50 per game respectively), providing food, drink and entertainment, parking management and other incidentals.

607 of 790

Recommendation:

This application received a score of 14/21.

The event does provide branding and promotional benefits to the City and Club.

It is recommended that Council support SLRUFC with sponsorship, however an increase in funding from \$10,000 in 2020 to \$20,000 in 2024 is not justified.

It is recommended that Council support SLRUFC with sponsorship of \$10,000 which will contribute to event parking management, first aid, event entertainment, promotion, incidentals such as bins and printing and referees, as listed in SLRUFC's application budget. Remaining expenses can be covered by income from team nominations (\$15,000) and SLRUFC which includes insurance (\$10,000), prizes (\$2,000), food and drink (\$5,000), Rugby WA (\$5,000).

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive, and connected community.

· A safe and healthy community that is socially connected.

Budget/Financial Implications

At an Ordinary Council Meeting on 10 August 2023, Council approved a budget of \$1,455,000 for Grants, Donations and Sponsorship for 2023-24.

The proposed funding recommendations contained within this report do not adversely impact on the adopted budget for the Grants, Donations and Sponsorship as detailed in the table below.

Legal Implications

N/A

Community Consultation

In the lead up to the second round of grants, donations, and sponsorship (March 2024) funding opportunities were promoted through the local media and Council networks, as follows:

- City of Cockburn Facebook promotional posts from 12 February to 22 March 2024
- Promotion to community groups through the Community Development email networks, contacts and community group meetings
- Cockburn Community Group E News, March 2024 edition
- School email update March 2024 edition
- Information available on the City of Cockburn website
- Reminder email sent to previous and regular applicants and 57 organisations and individuals who made enquiries during the application period
- Distribution of promotional flyers.

608 of 790	

Risk Management Implications

The Council allocates a significant amount of money to support individuals and groups through a range of funding programs.

There are clear guidelines and criteria established to ensure that Council's intent for the allocation of funds is met.

To ensure the integrity of the process there is an acquittal process for individuals and groups to ensure funds are used for the purpose they have been allocated.

The reputation of the City of Cockburn could be seriously compromised should funds be allocated to individuals or groups who did not meet the criteria and guidelines and/or did not use the funds for the purposes they were provided.

Adherence to these requirements is essential.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 11 June 2024 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

Officer Recommendation

The Committee recommends Council:

(1) ADOPTS the proposed 2024/25 Season of Events Calendar, as detailed in the report to the value of 0.8% of rates revenue as per the Policy.

Committee Recommendation

That Council:

- (1) ADOPTS Option 2 for the proposed 2024/25 Season of Events Calendar, as detailed in the report with the following amendments:
 - a) Removal of the three small intimate Beeliar Sunsets Events; and
 - b) Removal of the Easter Fair.

Council Decision

MOVED Cr M Separovich SECONDED Cr C Reeve-Fowkes That Council:

- (1) ADOPTS the proposed 2024/25 Season of Events Calendar, as detailed in the report to the value of 0.8% of rates revenue as per the Policy; and
- (2) APPROVES additional funding of \$45,200 for the Aubin Grove Easter Fair, for the City to deliver the event in partnership the Aubin Grove Community Group, as included in the original ERC report.

CARRIED 10/0

Background

Council is required to determine the calendar for the 2024/2025 events reason, as per the Corporate Strategic Business Planning and Budget Policy.

The policy states: 'Provisional allocation for Community Events is to be up to a maximum of 0.8% of Rates Revenue (excluding any specified area rates).

Events included in this Policy are generally large-scale community events with related expenses as detailed in the report.

Spring Fair, Show Off Art Exhibition and associated programs, Hiroshima Day, Civic

612 of 790	

Item 15.2.3 OCM 11/06/2024

events and ANZAC Day commemorative events are funded from separate budgets. Our purpose is to provide opportunities to nurture, enhance and celebrate arts and culture through positive and diverse participation.

The events and culture team has developed this year's proposal for the 2024/2025 program of events based on key data including a review of the 2023/24 season which was a result of an extensive events review.

Highlights from the 2023/2024 season included:

- Establishment of the brand, "Cockburn Live" allowing for brand awareness and connection with online engagement increased across all events with Teddys Bears Picnic and Beeliar Sun Sets (Success) both attracting over 650,000 online impressions
- Event attendance increased by 75% across the season
- Majority of attendees surveyed at Cockburn Live events indicated they were either extremely likely or very likely to attend future events
- All Cockburn Live events have been carbon neutral and waste wise with record low landfill waste created.

Increased creative engagement at Memorial Hall with a number of successful productions delivered including live music, performing arts residencies, youth art exhibitions, theatre, comedy and networking events for the Cockburn arts and culture sector.

In addition to the activation of Memorial Hall, the City has established creative partnerships with a number of key peak body arts organisations to ensure Cockburn continues to enhance and celebrate arts and culture through positive and diverse participation.

Submission

N/A

Report

In 2024/25, it is proposed that the Calendar of Events Program follows the same format from the previous season. A full breakdown of the program and budget allocations per event is provided in the attached document.

Proposed 2024/2025 Calendar of Events

Following a review of the 2023/24 events season it is evident the City's Annual investment is being impacted by increases in the procurement of material and contracts along with staff wages.

Continuing the current investment of 0.8% of rates revenue will result in the reduction of program offerings and removal of selected events to ensure a balanced budget.

To comprehend the challenges associated with a diminishing investment in the events program two options have been prepared for consideration.

613 of 790

OCM 11/06/2024 Item 15.2.3

Option 1

Adheres to the 0.8% (\$1.22M as per the policy) which results in the following outcomes:

 Removal of Easter Fair, program reduction to the Christmas on the Coast, Coogee Live, Australia Day along with a reduction to the arts activation fund, marketing budget and Beeliar Sunsets series.

Option 2

Equates to a 1% budget allocation of \$1.43M which is an increase of \$210,000 to achieve a measured program to 2023/24 and includes:

- Delivery of Easter Fair, reduced Christmas on the Coast event (in comparison to 23/24), full delivery of Coogee Live, reduced Australia Day event (in comparison to 23/24), increased arts and cultural activation fund, increased Beeliar Sunsets series and increased marketing budget to support the full season
- Delivery of Option 2 will ensure that traction and connection achieved as part of the 2023/24 revised season isn't impacted.

Program Adoption

It is necessary to consider and adopt the events calendar no later than May 2024 for the following reasons:

- Booking and securing artists and performers
- Marketing and design work for the season needs to start in August (latest) to allow adequate time for design and production of collateral
- Event and Cultural Services apply to a variety of funding bodies and will be exploring sponsorship opportunities in 24/25 so maximum time is required to explore and execute all opportunities.

Marketing/Insurance/Research/Concept Development

The 2023/24 marketing was outsourced for the first time.

The same approach is proposed for 2024/25 with the Marketing Plan including traditional advertising, use of social media, radio, print media and city publications, billboards, posters, and promotion at other events.

Funding also contributes to event surveys (Christmas on the Coast and Mosaic Festival), photography/videography at events and internal communications.

Funding

The City is currently reviewing its sponsorship opportunities and will be applying to a range of local businesses and government funding opportunities for the City's events season.

This will include Lotterywest funding.

614 of 790	

Item 15.2.3 OCM 11/06/2024

OCM 11/06/2024 Item 15.2.3

Officers are also investigating Arts and Culture funding to support the activation fund being proposed.

In 2023/24, the City secured the following funding:

- Lotterywest \$70,000.00
- Alcoa \$10,000.00
- Frasers Property Group \$10,000.00
- Fremantle Ports \$8,000.00
- Auspire \$15,000.00.

Strategic Plans/Policy Implications

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

• Provide a diverse range of accessible, inclusive and targeted community services, recreation programs, events and cultural activities that enrich our community.

Budget/Financial Implications

Council's corporate planning and budget policy sets an allocation of 0.8% of the total rates revenue to fund the calendar of events. Based on the current projections a total of \$1.22M will be budgeted to deliver the calendar of events. Final adjustments will be performed following the adopted rate setting and FY25 budget adoption.

Should Council consider the alternative option funding model of 1% of total rates revenue to deliver a high-quality 2024/2025 program an allocation of \$1.43M will be required.

Legal Implications

N/A

Community Consultation

General event research

The 2023 Catalyse Market Community Scorecard research for events showed an overall positive rating of 90% for events and festivals.

The research demonstrated the City's strong position for popular events and the reach across multiple demographics.

The changes implemented in the 2023/2024 event season have ensured that we continue to deliver innovative and engaging events that meet the needs of our community.

The significant increase in attendance is an indication that this has been successful, and as such will continue into 2024/25.

Item 15.2.3 OCM 11/06/2024

Culture Counts were engaged to develop event reports based on participant feedback for the Australia Day Coogee Beach Festival, Beeliar Sun Sets (both concerts) and Coogee Live with all feedback considered in producing the 24/25 recommendations.

All reports are attached, and physical copies circulated at the elected member workshop in March 2024.

Risk Management Implications

The risk in not adopting the report recommendation is:

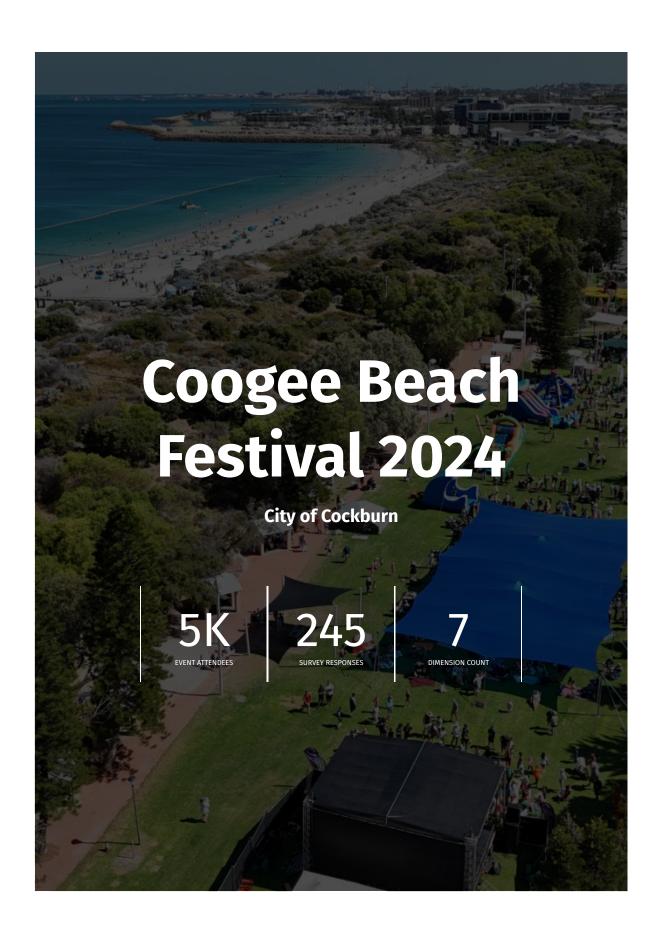

- A delay in booking acts, which reduces the choice of preferred acts
- Preventing the events team from being able to fully plan and execute events to a high standard
- Preventing the events team from being able to market events in a timely and effective way
- Preventing the City from securing sponsorship, this includes the City's flagship event Coogee Live
- The Cockburn Live 'mother' brand was successful in year one, to ensure brand connection and performance, a delay in activity and community exposure is not recommended.

1. Summary

The Coogee Beach Festival 2024 was held at the scenic Coogee foreshore on Australia Day, Friday January 26, 2024 and attracted a crowd of 5,000 attendees. This lively event encapsulated the essence of local culture, offering a diverse array of activities and entertainment for people of all ages and backgrounds to enjoy. From captivating live music performances and cultural exhibitions to a free sausage sizzle, face painting and water slides, the festival provided a platform for residents and visitors to come together to celebrate Australian culture, cultural diversity and community spirit.

The following report provides an overview of the 2024 event's public responses, allowing the City of Cockburn to identify outcomes, benefits, and learnings, as well as create benchmarks to track event successes over time.

Evaluation Methodology

The City of Cockburn engaged Culture Counts to evaluate the Coogee Beach Festival 2024 event.

245 responses were collected from public attendees via online surveys which were distributed via signage at the event, intercept interviews with the QR code and through the City of Cockburn's social media channels following the festival.

Each survey contained a range of 'dimension' questions, asking stakeholders about their experience of the event. These dimensions have been developed and tested in collaboration with industry, practitioners, and academics to measure the impact and value of arts and cultural events and activities.

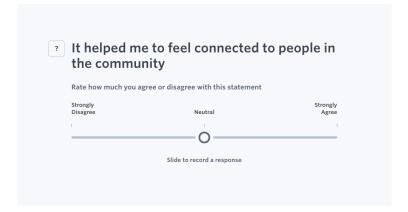

Appropriate dimensions were chosen based on their alignment with the event's strategic objectives.

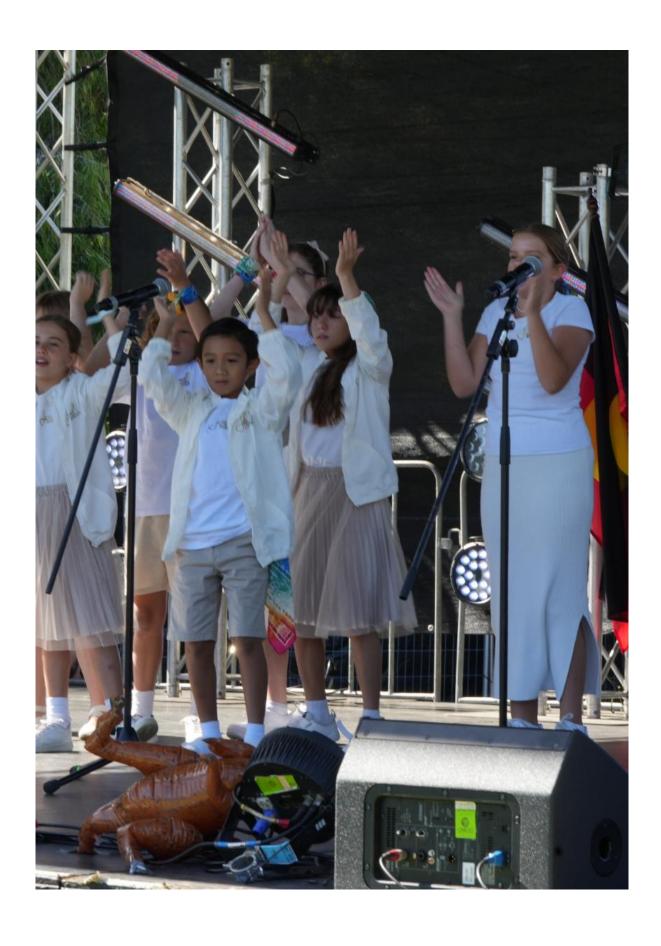

Public Assessment

Domain	Dimension	Dimension statement
Social	Access	It gave me the opportunity to access activities I would otherwise not have access to
	Connection	It helped me to feel connected to people in the community
	Safe	It made me feel safe and welcome
Economic	Diversity	It engaged people from different backgrounds
Qualities	Enthusiasm	I would come to something like this again
Place	Vibrancy	I enjoy the vibrancy and activity here
Community	Place	It made me feel proud of my local area

Dimensions are assessed on a Likert scale, in which respondents move a slider to a point that indicates whether they agree or disagree with the dimension statement. An example of a dimension question in the Culture Counts survey tool is presented below.

621 of 790

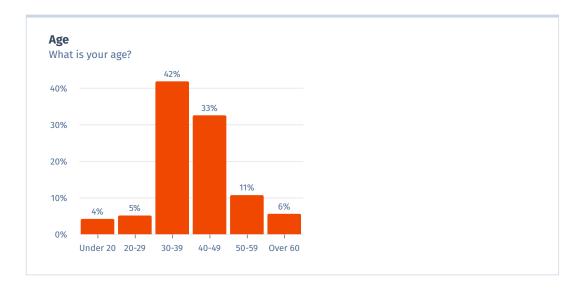

2. Attendee Profile

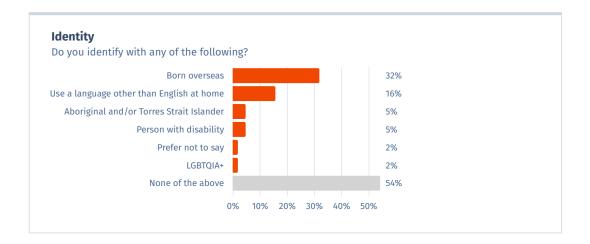

Demographics

Survey respondents were asked to provide their age, gender, and identity. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for each of the age, gender, and identity demographic questions.

Insights

The majority of respondents were aged 30-39 (42%), followed by those aged 40-49 (33%). A substantially smaller percentage were aged 50-59 (11%), over 60 (6%) and 20-29 (5%). Attendees were least likely to be aged under 20 (4%).

68% of the sample identified as female and just under a third were male (31%). Less than 1% identified their gender in a different way.

When asked to respond regarding the identity question, almost a third of participants identified as being born overseas (32%). 16% spoke a language other than English at home, while 5% indicated they were a person living with disability or Aboriginal and/or Torres Strait Islander, respectively.

2% identified as LGBTQIA+, or preferred not to say. 54% of respondents did not identify with any of the identity options provided.

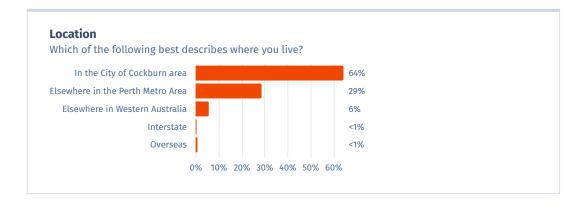

625 of 790

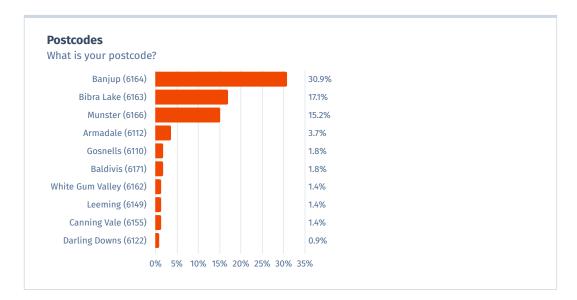

Location and Postcode

Survey respondents were asked to provide their current living location and postcode. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for respondents' identified living location and top suburb results.

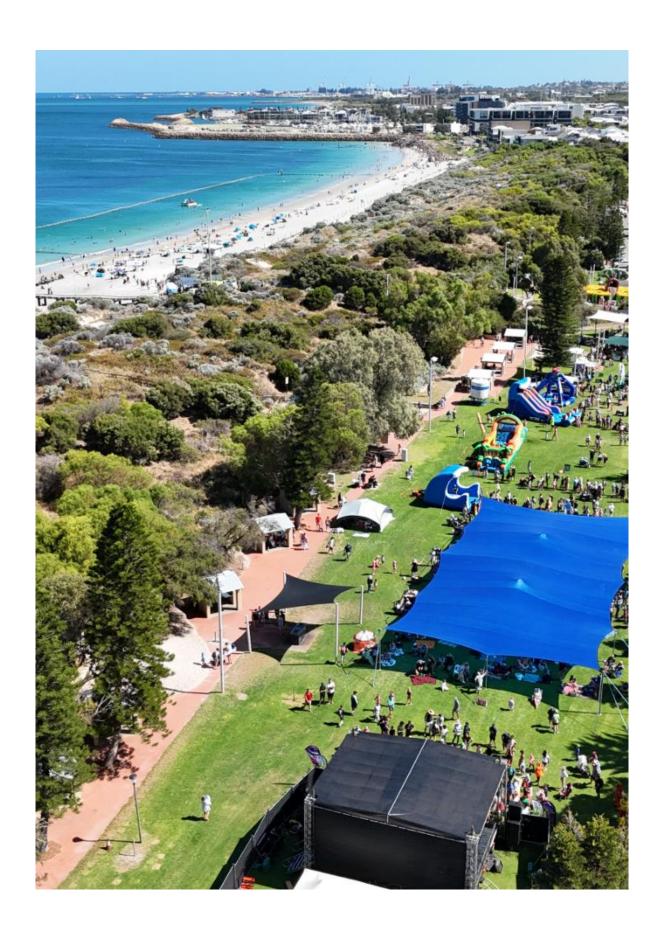

627 of 790

Insights

Respondents were most likely to live in the City of Cockburn area (64%), followed by the Perth Metro Area (29%). Those living elsewhere in WA made up 6% of the sample and less than 1% lived interstate or overseas.

30.9% of respondents were based in Banjup and 17.1% were from Bibra Lake. Munster made up 15.2% of the sample, 3.7% of respondents indicated they lived in Armadale, while 1.8% resided in Gosnells or Baldivis.

Arts Attendance

Respondents were asked to indicate their frequency of attendance at arts and cultural events. Responses can be seen as distributed on the chart below.

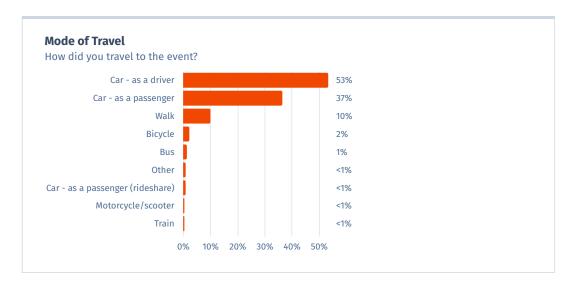

Insights

Coogee Beach Festival 2024 event survey respondents were most likely to attend arts and cultural events every couple of months (32%), followed by 24% attending once or twice over the last 12 months. 17% of respondents have attended arts and culture events three to four times per year and 15% once a month. 10% of the sample size had not attended an arts event in the past 12 months.

Travel Method

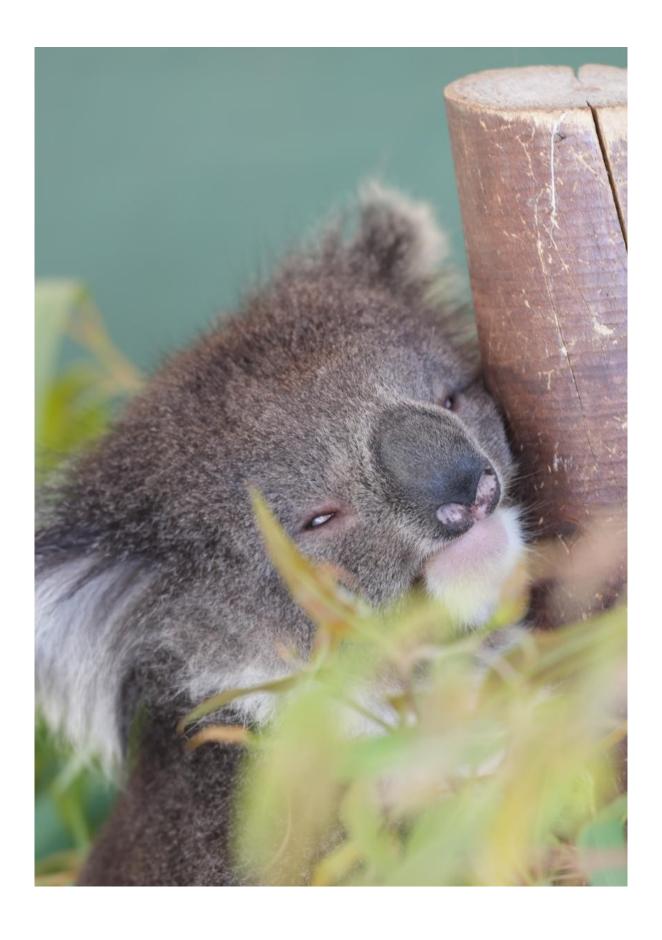

Respondents were asked about their method of travel to the event. This helps organisers understand how attendees choose to travel when visiting the City of Cockburn. The following chart shows the percentage of respondents that selected one of the following options as the method of transport to the event.

Insights

The majority of the sample (53%) travelled to the *Coogee Beach Festival 2024* by 'Car – as a driver' followed by 'Car – as a passenger' (37%). 10% of respondents walked to the event, 2% travelled via bicycle and 1% by bus. Less than 1% reported travelling by Car – as a passenger (rideshare), train, motorcycle or scooter, or other modes of transport.

Version: 3, Version Date: 05/08/2024

- --

3. Outcomes

Survey respondents moved a slider to indicate whether they agreed or disagreed with the included dimension statements in relation to the Coogee Beach Festival 2024 event. The first tab chart contains the response data for 'public' responses, showing the average result for each dimension.

The second tab shows the interquartile range of responses for each dimension. These ranges represent the middle 50% of responses, which are areas on the slider where most responses typically fell. Accompanying this range is the median result for each dimension (i.e. the most common response). Smaller ranges indicate similarity in agreement between respondents, whereas larger ranges indicate a wider spread of responses.

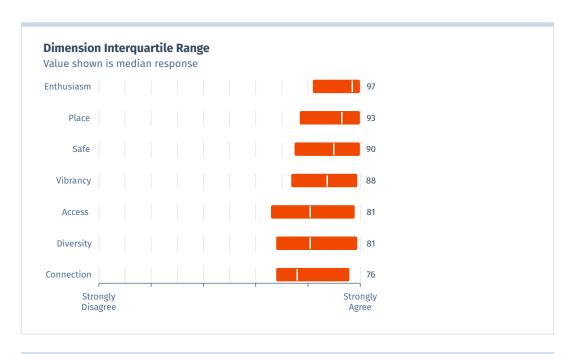

The Culture Counts platform provides various methods to capture survey responses at a minimal marginal cost. Achieving larger samples enables organisations to be more confident about the average results and that the opinions of the survey respondents are representative of all attendees. The accompanying margin of error chart shows the expected differences for the associated dimension results calculated at a 95% confidence level.

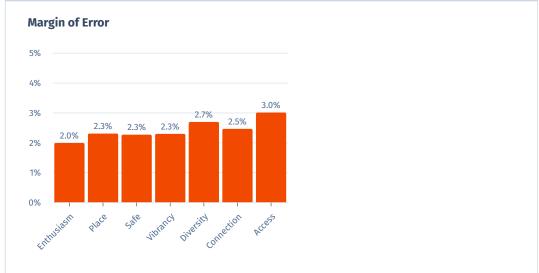

Outcome Averages

Version: 3, Version Date: 05/08/2024

Document Set ID: 11954268

Insights

Of all seven dimensions measured, 'Enthusiasm' (90/100), 'Place' (86/100), 'Safe' (85/100) and 'Vibrancy' (84/100) achieved the highest average levels of agreement overall. This indicates that respondents were the most likely to agree that they would come to something like this again, that it made them feel proud of their local area, that the event made them feel safe and welcome, and that they enjoyed the vibrancy and activity the City of Cockburn's Coogee Beach Festival 2024 event generated.

'Access' (77/100) received the lowest average dimension agreement result, indicating that survey respondents were least likely to agree that the event gave them the opportunity to access activities they would otherwise not have access to. 'Access' had the largest interquartile range, indicating that participants were less likely to agree to the same extent when responding to this dimension when compared to other dimension statements included in this evaluation.

At a 95% confidence level, the margin of error for dimensions ranged from 2% to 3%. This means that we can be 95% confident that if we surveyed the entire survey population, the average outcome for 'Enthusiasm' would fall within 2% of the average generated by the sample.

636 of 790

Version: 3, Version Date: 05/08/2024

Outcomes by Domain

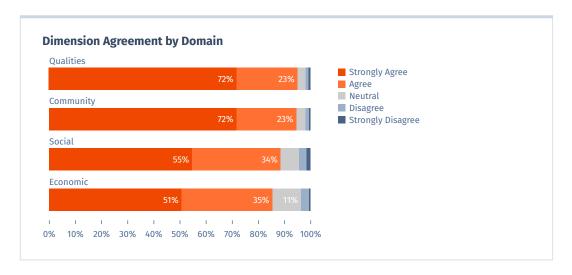

Dimension statements can be categorised into their representative outcome domain. Outcome domains represent categorisations of dimensions based on their general area of focus. For example:

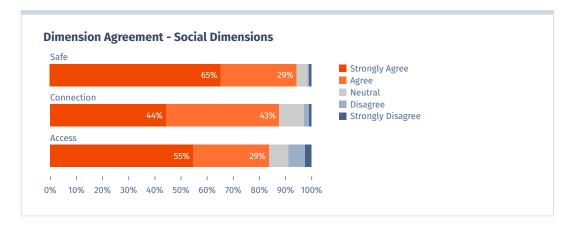

Social Outcomes represent dimensions that support the building of social capital, creates and promotes participation in community life and fosters the realisation of self at the individual level.

Community Outcomes represent dimensions that recognise the links between people, where they live and how these connections contribute to overall wellbeing.

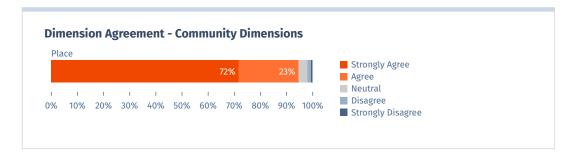

Economic Outcomes represent dimensions that seek to promote dynamic and resilient local economies that are required to sustain vibrant communities.

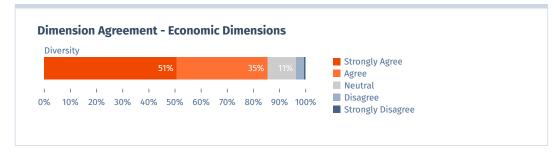

Qualities represent dimensions that connect the quality of what is produced to the realisation of intentions and the strength of their impact.

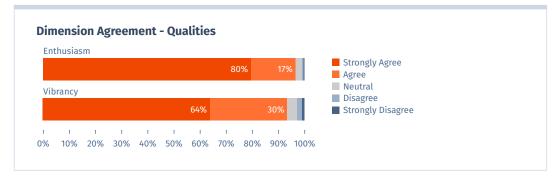

- -

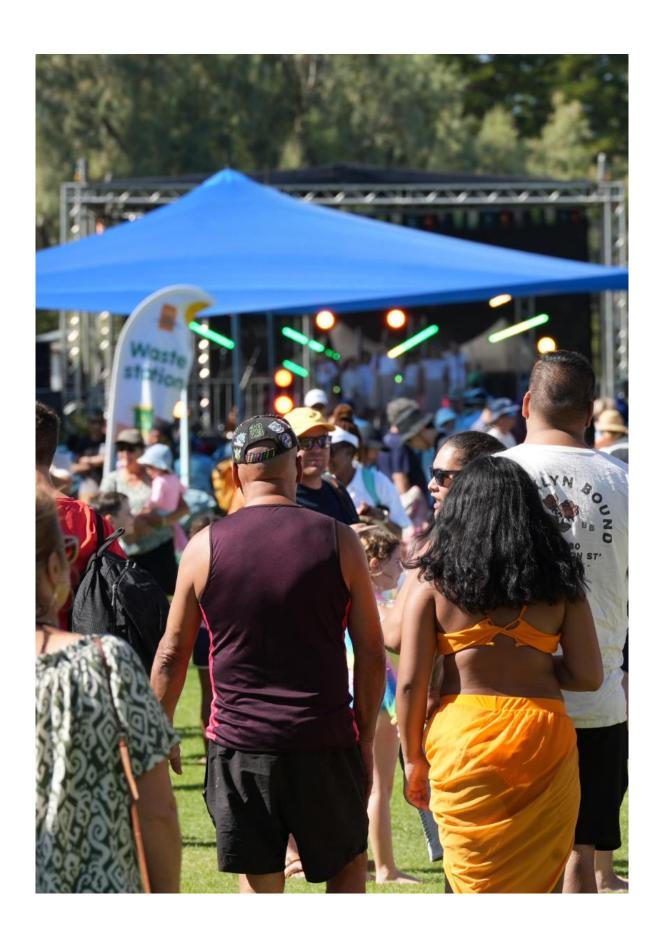

Insights

The highest outcome domain agreement results were achieved by 'Qualities' (95%) and 'Community' (each 95%), indicating that the event excelled in these areas. Despite still being a positive result, the lowest ranking outcome domain measured as 'Economic' (86%), meaning that respondents were least likely to agree with dimension statements from this domain.

More information about outcome domains are available at https://culturaldevelopment.net.au/outcomes/

639 of 790

Overall Experience

Respondents were asked about their overall experience of attending the *Coogee Beach Festival 2024* event with a choice of five options - Excellent, Good, Neutral, Poor, and Terrible.

This chart shows the percentage of respondents that rated the event overall across these five options.

Good + Excellent: 97%

Insights

Almost the entire sample (97%) reported having a positive experience at the City of Cockburn's *Coogee Beach Festival 2024*, a fantastic result. Of this sample, 66% reported having an 'Excellent' experience and 31% indicated that their experience was 'Good'. 3% reported a 'Neutral' experience and less than 1% indicated that their experience was 'Poor'.

641 of 790

Net Promoter Score

Respondents were asked whether they would recommend the event to a friend or colleague. Respondents could choose a number from 0 to 10 from a menu, with 0 meaning 'not likely at all' and 10 meaning 'extremely likely'.

These results can be used to calculate a Net Promoter Score (NPS). NPS is a standardised metric that seeks to measure loyalty between an organisation and its audience. Respondents with a score of 9 or 10 are considered 'Promoters'. 'Detractors' are those who respond with a score of 0 to 6. Scores of 7 and 8 are considered 'Passives'.

NPS is calculated by subtracting the percentage of respondents who are Detractors from the percentage of customers who are Promoters. This means that an overall Net Promoter Score can range between -100 to +100.

This chart shows the proportion of respondents that would or would not recommend attending *Coogee Beach Festival 2024*, followed by the calculated NPS below.

Net Promoter Score: 44

643 of 790

Insights

60% of respondents rated the Coogee Beach Festival 2024 event as either 9 or 10, indicating they would be classified as Promoters. 25% of respondents had passive results (7 or 8) and 15% would be considered detractors (scoring between 0-6).

A positive NPS (i.e. higher than zero) is felt to be good, and a NPS of 50+ is excellent. Coogee Beach Festival 2024's NPS of 44 indicates that audiences have a relatively high level of loyalty towards the event and are highly likely to promote it when speaking with others.

644 of 790

Version: 3, Version Date: 05/08/2024

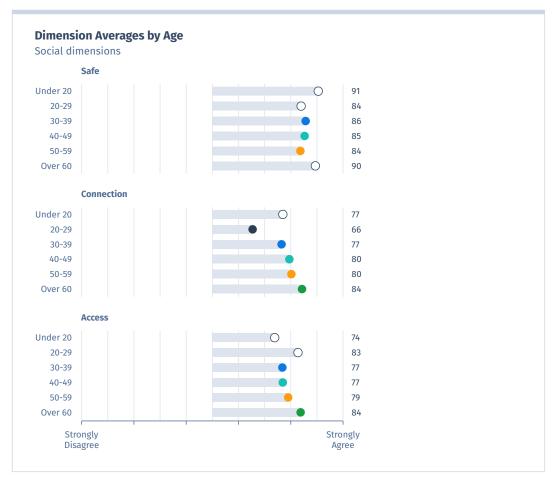

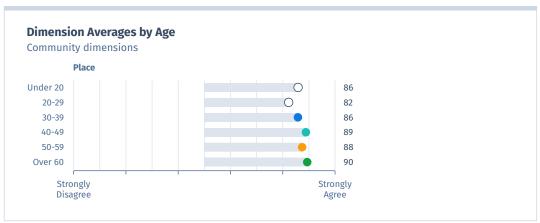

4. Comparison & Benchmarks

Demographic Breakdowns

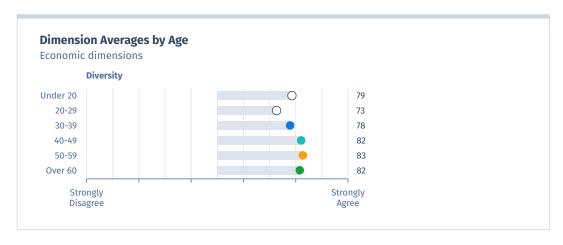

Respondents were asked to provide their age and gender as part of the survey. This data enables results to be filtered to understand any differences that exist because of demography.

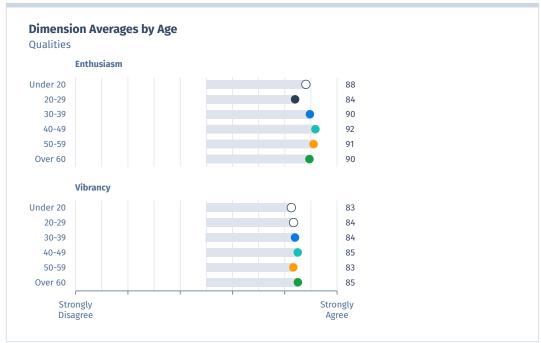

The following charts highlight a selection of results based on the gender that respondents identified with as well as by age cohort.

646 of 790

647 of 790

Note: Categories with fewer than 10 responses are shown as white dots to indicate that the value may not be representative due to the small sample size.

All age groups responded positively to the dimensions included in the *Coogee Beach Festival 2024* evaluation.

Those aged over 40 tended to provide higher agreement results when compared to those aged 39 or below. The highest dimension average result was achieved by the 40-49 age bracket for 'Enthusiasm' (92/100) indicating this cohort was highly likely to agree that they would attend a similar event again.

The results for 'Safe', 'Place', 'Diversity' and 'Vibrancy' were all relatively similar, indicating that respondents across the age groups captured were much more likely to agree with these dimensions on average.

Those over 60 were most likely to respond positively to the dimensions 'Place' (90/100), 'Connection' (84/100) and 'Access' (84/100). Demonstrating the event made them feel proud of their local area, connected to people in the community and that it gave them the opportunity to access activities they otherwise would not have access to.

Attendees aged 30-39 were the most likely to agree with the 'Safe' dimension (86/100), demonstrating that this age group felt safe and welcome at the event.

The 20-29 age bracket provided the lowest score overall for 'Connection' (66/100), demonstrating they were the least likely to feel connected to people in the community while at the event. The 'Under 20' age bracket was not large enough to draw insights from.

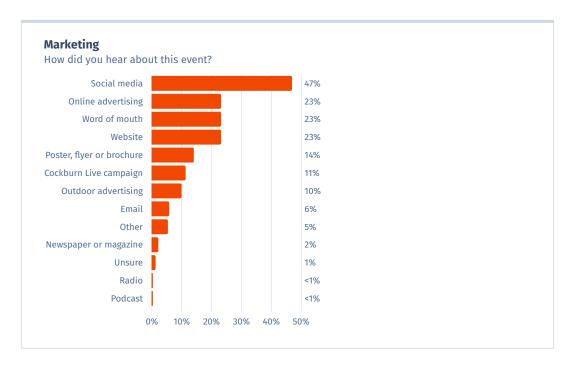

Agreement level results from both male and female respondents tended to be similar for the majority of the dimensions, with the exception of 'Place' (+8/100). Females provided higher or the same level of agreement when compared to males. There were not enough responses in the sample size from those who identified in a different way to draw accurate insights.

5. Attendee Behaviour

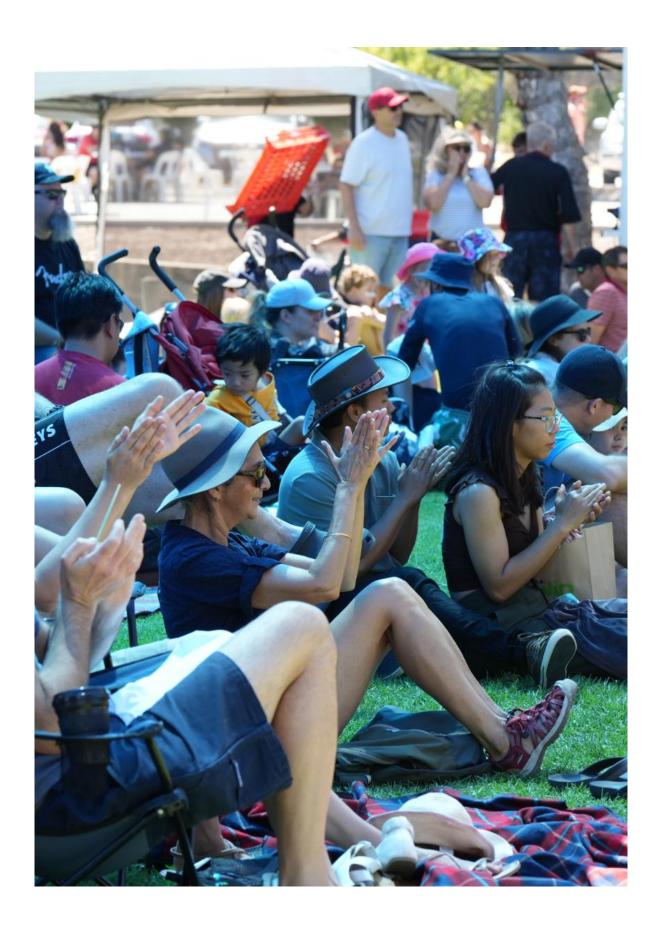

Marketing Channels

Respondents were asked how they first heard about the City of Cockburn's *Coogee Beach Festival 2024* event to evaluate the success of various marketing methods. Over ten options were provided and respondents could choose as many options as were applicable from a list.

Insights

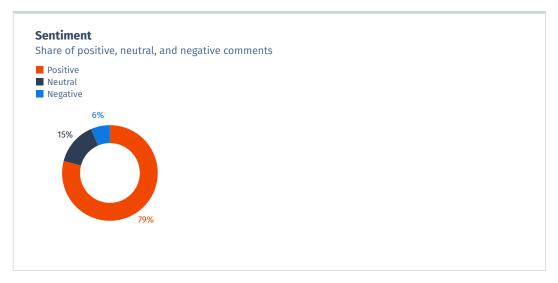

Close to half of all attendees surveyed (47%) heard about the event by 'Social media'. This was followed by 'Word of Mouth', 'Online advertising' and 'Website' (each 23%). 'Radio' and 'Podcast' were chosen the least (both less than 1%) indicating that attendees were least likely to engage with these marketing channels.

6. Comments and Feedback

Sentiment Analysis

Respondents were asked to leave any additional feedback about their experience at *Coogee Beach Festival 2024*. This feedback has been classified into positive, neutral, or negative categories, with the percentage of feedback sentiment types presented in the following chart.

General Feedback

Feedback helps organisations understand where the value of visitor experiences lies and how they can be improved and strengthened in the future. A selection of comments has been highlighted below.

"Thanks for putting on an awesome event!"

"It was great to see all the activities spread out along the grass, great idea to put the food vans on the carpark. The SES and traffic management did a great job."

"The event was extremely well organised and was packed with a variety of activities. The MC was fantastic. He had a positive energy throughout and pointed out important information like where the water fountain was. The little games (thong throwing, watermelon eating etc) were a lot of fun and couldn't have been more Australian. Even better it was environmentally friendly, and had some indigenous Australian crafts & music too. Kudos to the organising committee."

"Great for the disabled community and us supporters."

"Great range of activities!"

654 of 790

"Very good for families with children. Please have more free events we also attend teddy bears picnic. Thank you, City of Cockburn for organising for our children and families!"

"The parking and the parking planners were amazing. Only a little walk from the main event and everything was very orderly."

"Waterslides were a hit first timers and will definitely be back next year."

"I love the reusing initiative at today's event with the plates cups and cutlery."

"Excellent work by all involved- hats off to the event planners! The only tiny thing I would suggest is perhaps a little more signage for things like the mermaids, extra food vans etc."

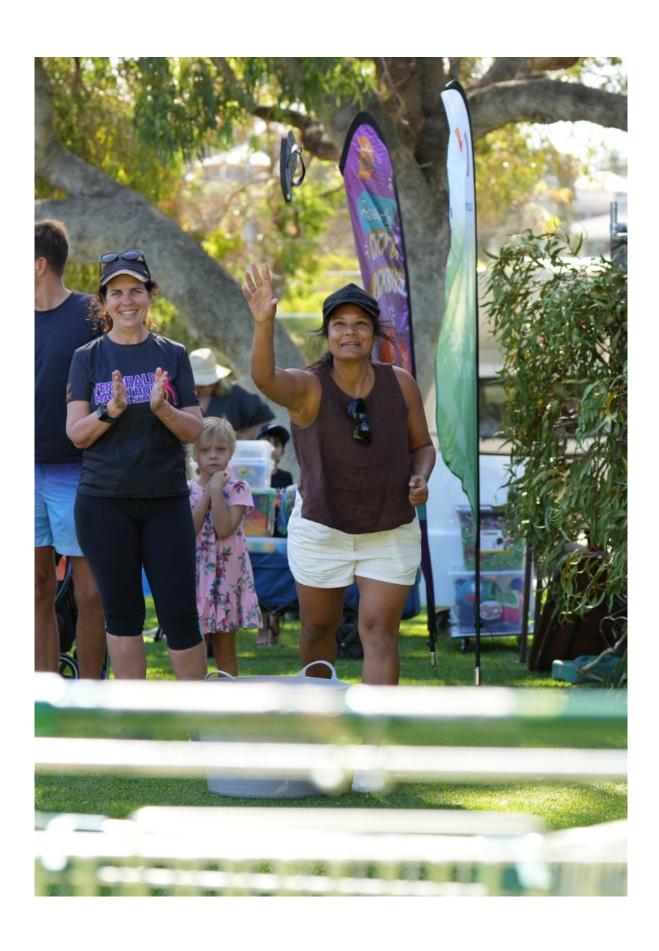

"A little hard to walk through as the lines for the kid's rides were long and took up the walking area. Great event."

"Really good event. Would like to see more wildlife encounter options."

"Portable toilets are blocking East access to the bike racks."

"Could have more activities for older children. Lines very long for activities."

Wordcloud

Respondents were asked to provide general feedback and comments about the *Coogee Beach Festival 2024*. The word cloud below enlarges words that were repeated more frequently in the collected survey responses.

1. Summary

The *Beeliar Sun Sets* event series gave families and friends an unforgettable night of free live music and family fun, including bouncy castles, giant games and a silent disco. The events, hosted by the City of Cockburn, took place over two instalments and were part of the Cockburn Live 2023-24 season. The suburb of Yangebup hosted the first event on 25 November 2023 at Nicholson Reserve and the second show was held on 17 February 2024 at the Success Regional Sporting Facility oval.

The stellar musical lineups celebrated homegrown talent and provided local audiences with an exciting program of music set against the backdrop of a glorious WA summer sunset. 4,500 audience members travelled to the November concert to see Kav Temperley (Eskimo Joe), Riley Pearce, Siobhan Cotchin, Noah Dillon and Joan & The Giants perform, while a crowd of around 7,000 attended in February and were treated to sets by Ian Moss (Cold Chisel), Katy Steele (Little Birdy), Ash Grunwald and Boox Kid. At each event audience members could sample some of the many tasty dishes served up by some of Perth's best food trucks, while watching music performances take place on the main stage.

The following report provides an overview of the public survey responses gathered for *Beeliar Sun Sets'* 2023-24 season, allowing the City of Cockburn to identify outcomes, benefits, and learnings, as well as create benchmarks to track event successes over time.

Evaluation Methodology

The City of Cockburn engaged Culture Counts to evaluate the Beeliar Sun Sets events.

In total, 251 responses were collected from public attendees via online surveys which were distributed via signage at the events, intercept interviews with a QR code and through the City of Cockburn's social media channels following the events.

Each survey contained a range of 'dimension' questions, asking stakeholders about their experience of the event. These dimensions have been developed and tested in collaboration with industry, practitioners, and academics to measure the impact and value of arts and cultural events and activities.

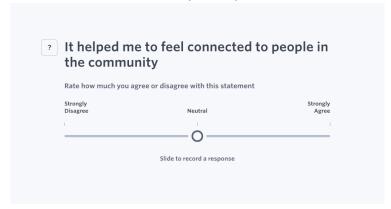

Appropriate dimensions were chosen based on their alignment with the event's strategic objectives.

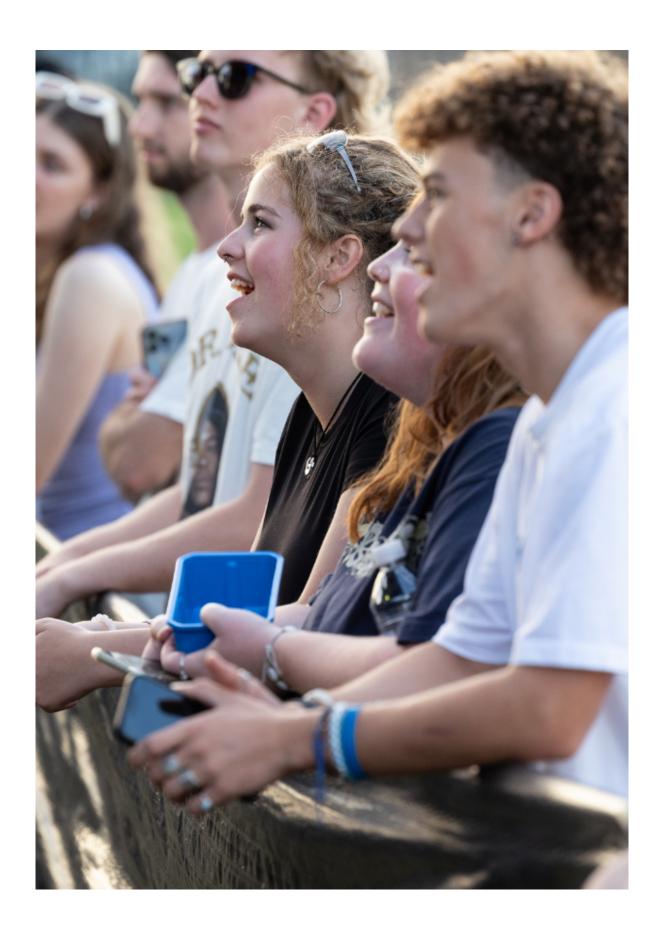

Public Assessment

Domain	Dimension	Dimension statement
Social	Access	It gave me the opportunity to access activities I would otherwise not have access to
	Connection	It helped me to feel connected to people in the community
	Safe	It made me feel safe and welcome
Economic	Diversity	It engaged people from different backgrounds
Qualities	Enthusiasm	I would come to something like this again
Place	Vibrancy	I enjoy the vibrancy and activity here
Community	Place	It made me feel proud of my local area

663 of 790

Dimensions are assessed on a Likert scale, in which respondents move a slider to a point that indicates whether they agree or disagree with the dimension statement. An example of a dimension question in the Culture Counts survey tool is presented below.

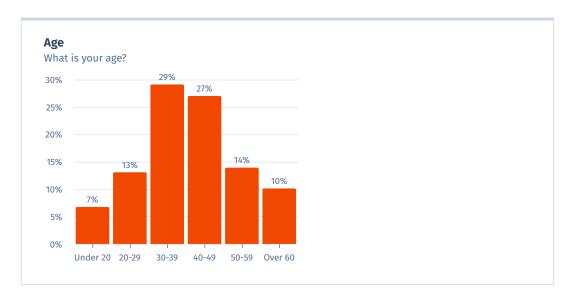

2. Attendee Profile

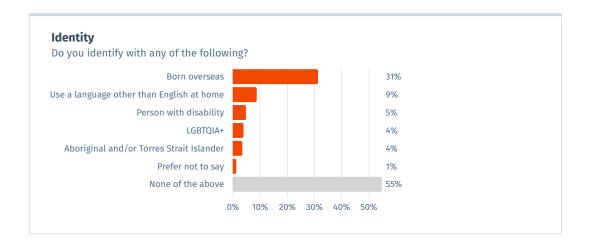

Demographics

Survey respondents were asked to provide their age, gender, and identity. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for each of the age, gender, and identity demographic questions.

The majority of respondents were aged 30-39 (29%), followed by those aged 40-49 (27%). 14% of the sample were aged 50-59, 13% were aged 20-29 and 10% were aged over 60. The smallest proportion of respondents were aged under 20 (7%).

68% of the sample identified as female and just under a third were male (31%). 1% identified their gender in a different way.

When asked to respond regarding the identity question, almost a third of participants identified as being born overseas (31%). 9% spoke a language other than English at home, while 5% indicated they were a person living with a disability. 4% of respondents identified as LGBTQIA+ and Aboriginal and/or Torres Strait Islander, respectively. 55% of respondents did not identify with any of the identity options provided.

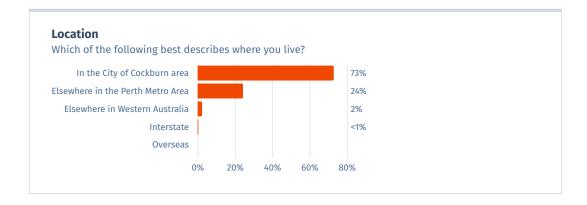

667 of 790

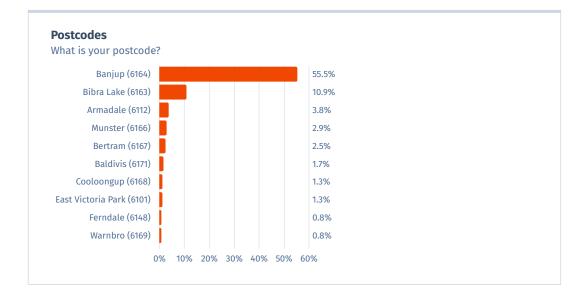

Location and Postcode

Survey respondents were asked to provide their current living location and postcode. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for respondents' identified living location and top suburb results.

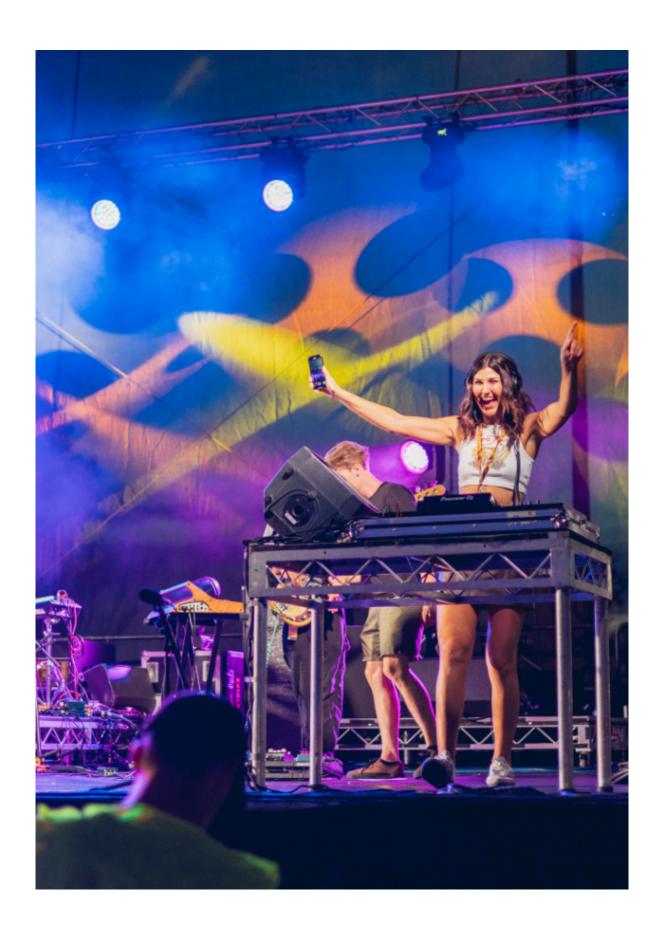

669 of 790

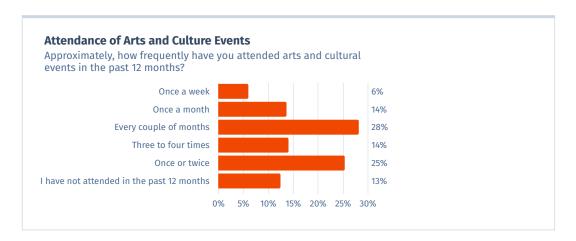

Respondents were most likely to live in the City of Cockburn area (73%), followed by the Perth Metro Area (24%). Those living elsewhere in WA comprised 2% of the survey population, less than 1% lived interstate and no attendees reported that they lived overseas.

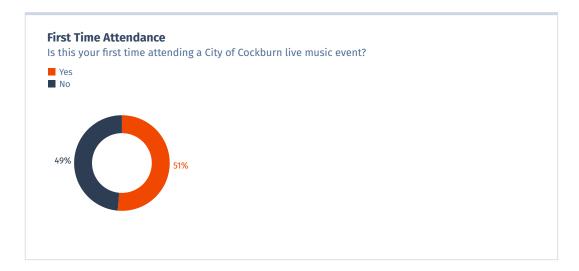

55.5% of respondents were based in Banjup and 10.9% were from Bibra Lake. Armadale made up 3.8% of the sample, 2.9% of respondents indicated they lived in Munster, while 2.5% resided in Bertram.

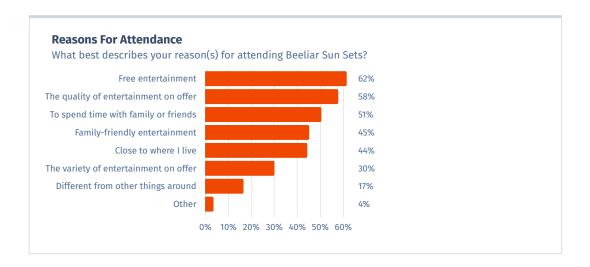

Arts Attendance

Respondents were asked to indicate their frequency of attendance at arts and cultural events. Responses can be seen as distributed on the chart below.

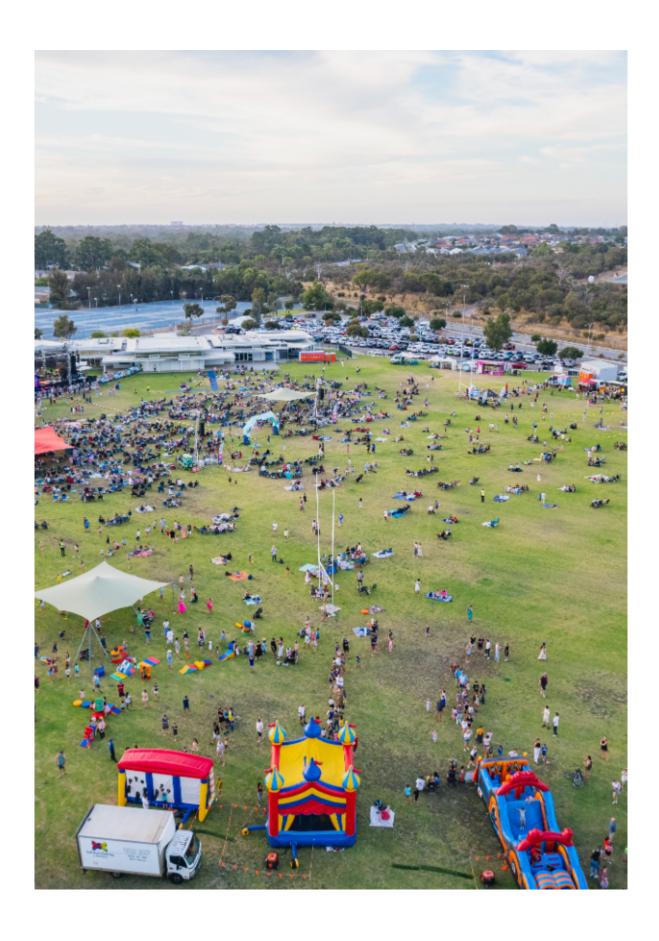

Respondents were most likely to attend arts and cultural events every couple of months (28%), followed by 25% attending once or twice over the last 12 months. 14% of respondents have attended arts and culture events three to four times per year or once a month. 13% of the sample size had not attended an arts event in the past 12 months.

Just over half (51%) of the sample indicated that this was their first time attending a City of Cockburn live music event, followed by 49% being return patrons. The majority of respondents indicated that the Success event was the one they had most recently attended, or were attending at the time of taking the survey (70%).

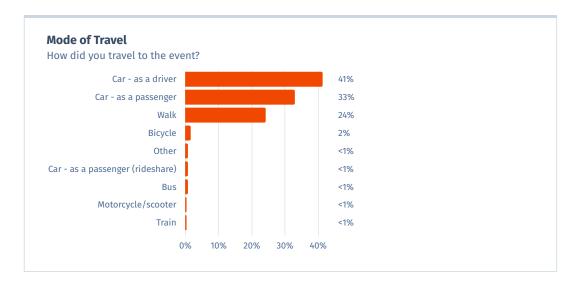

When asked about their reasons for attending *Beeliar Sun Sets*, the majority (62%) of respondents selected 'free entertainment', followed by 'the quality of entertainment on offer' (58%). Just over half (51%) of the sample selected 'to spend time with family or friends' and 45% selected 'family-friendly entertainment'.

673 of 790

Travel Method

Respondents were asked about their method of travel to the event. This helps organisers understand how attendees choose to travel when visiting the City of Cockburn. The following chart shows the percentage of respondents that selected one of the following options as the method of transport to the event.

Insights

The majority of the sample (41%) travelled to the *Beeliar Sun Sets* event by 'Car – as a driver' followed by 'Car – as a passenger' (33%). 24% of respondents walked to the event, 2% travelled via bicycle. Less than 1% of the sample travelled to the event by rideshare, bus, motorcycle/scooter or train, respectively.

675 of 790

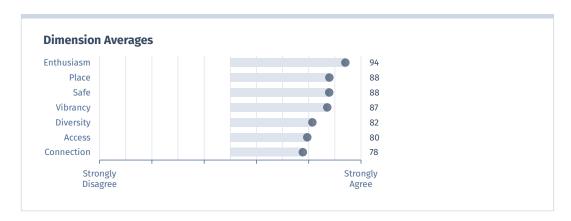

3. Outcomes

Survey respondents moved a slider to indicate whether they agreed or disagreed with the included dimension statements in relation to the *Beeliar Sun Sets* event. The first tab chart contains the response data for 'public' responses, showing the average result for each dimension.

The second tab shows the interquartile range of responses for each dimension. These ranges represent the middle 50% of responses, which are the areas on the slider where most responses typically fell. Accompanying this range is the median result for each dimension (i.e. the most common response). Smaller ranges indicate similarity in agreement between respondents, whereas larger ranges indicate a wider spread of responses.

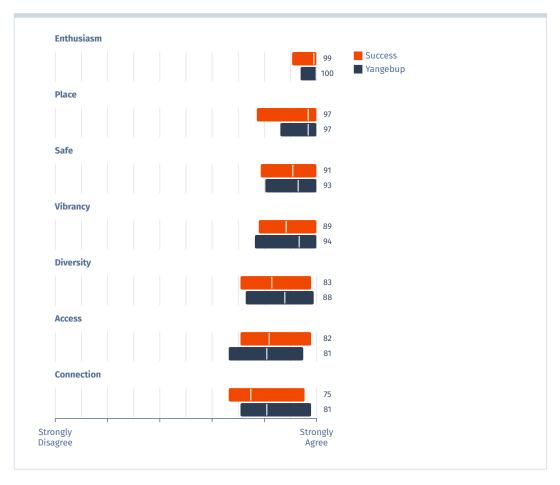

The Culture Counts platform provides various methods to capture survey responses at a minimal marginal cost. Achieving larger samples enables organisations to be more confident about the average results and that the opinions of the survey respondents are representative of all attendees. The accompanying margin of error chart shows the expected differences for the associated dimension results calculated at a 95% confidence level.

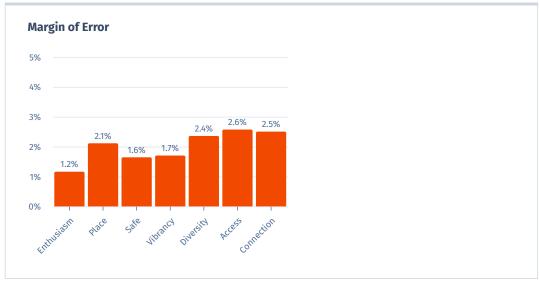

Outcome Averages

677 of 790

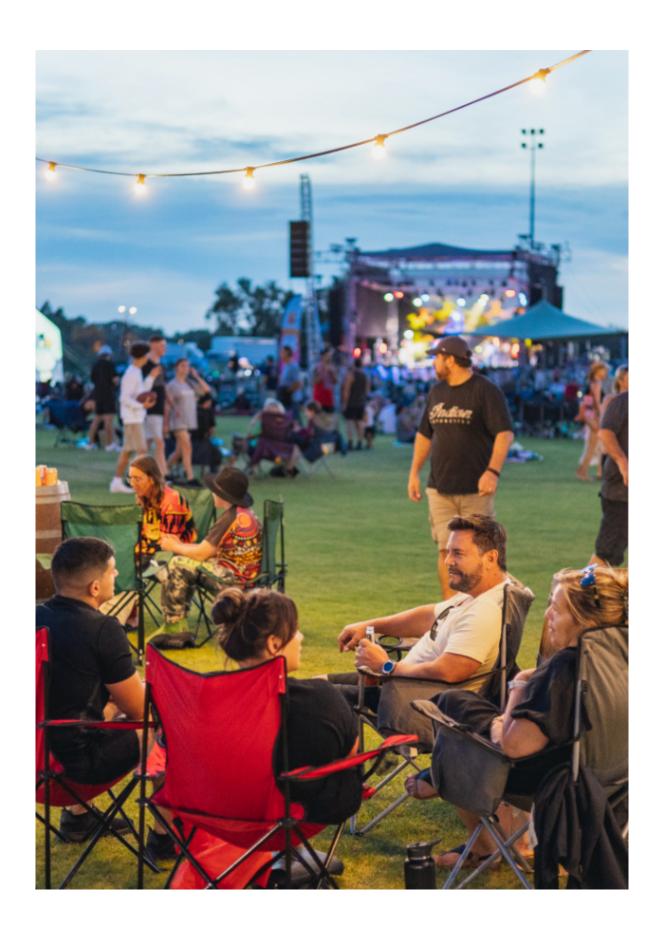

On average, 'Enthusiasm' (94/100) scored the highest amongst both sets of respondents. This was followed by 'Safe' (88/100) and Place (88/100). Results for the individual events trended similarly.

Results across both the Yangebup and Success events were consistent, with 'Enthusiasm' scoring the highest for both (94/100). This suggests that respondents from each event were most likely to agree that they would come to something like this again. This was followed by 'Place' and 'Safe' (89/100 for the Yangebup sample and 88/100 for the Success sample), suggesting respondents were also likely to agree that it made them feel proud of their local area and that they felt safe and welcome at the concerts. 'Access' had the greatest variation between events (4/100), with respondents from the Success survey more likely to agree that it gave them the opportunity to access activities they would otherwise not have access to (81/100).

'Access' and 'Connection' had the largest interquartile ranges in the Yangebup sample, and respondents from the Success event demonstrated the largest interquartile range for 'Connection', 'Access' and 'Diversity'. This suggests that the respondents' extent of agreement was more likely to differ for these dimensions.

At a 95% confidence level, the margin of error for dimensions ranged from 1.2% to 2.6%. This means that we can be 95% confident that if we surveyed the entire survey population, the average outcome for 'Enthusiasm' would fall within 1.2% of the average generated by the sample.

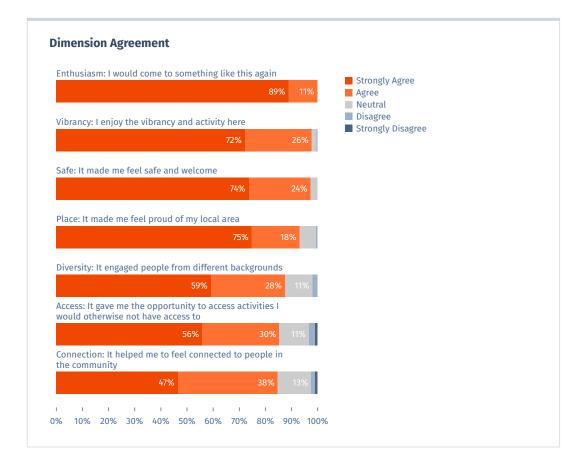

- -

Outcomes Agreement

Culture Counts uses a slider input to measure responses for dimensions as part of the evaluation methodology. This method provides a greater capacity to understand responses using the typical 'agree or disagree' Likert scale.

The chart below shows the percentage of people that agreed or disagreed with each of the statements and the strength of their agreement by respondent type.

Version: 3, Version Date: 05/08/2024

All of the dimension statements measured received an agreement level of 85% or higher, an excellent result for the *Beeliar Sun Sets* event series. Of all dimensions measured, 'Enthusiasm' (100%), 'Vibrancy' (98%), and 'Safe' (98%) received the highest levels of overall agreement. This indicates that all respondents agreed that they would come to an event like this again, and that the vast majority agreed that they enjoyed the vibrancy and activity of the event, and that they felt safe and welcome there.

While still receiving very positive results 'Connection' (85%) and 'Access' (86%) had the lowest levels of agreement overall, indicating that respondents were less likely to agree that it helped them to feel connected to people in the community and that it gave them the opportunity to access activities they would not have otherwise have access to.

Outcomes by Domain

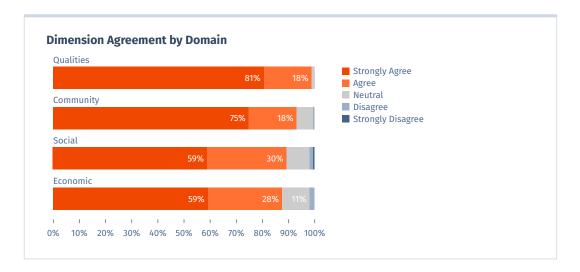

Dimension statements can be categorised into their representative outcome domain. Outcome domains represent categorisations of dimensions based on their general area of focus. For example:

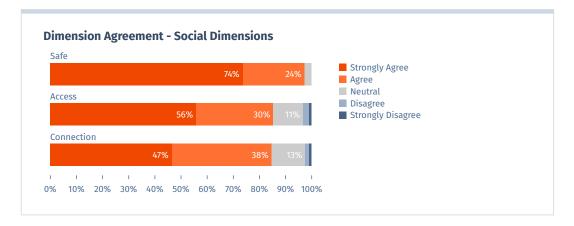

Social Outcomes represent dimensions that support the building of social capital, creates and promotes participation in community life and fosters the realisation of self at the individual level.

Community Outcomes represent dimensions that recognise the links between people, where they live and how these connections contribute to overall wellbeing.

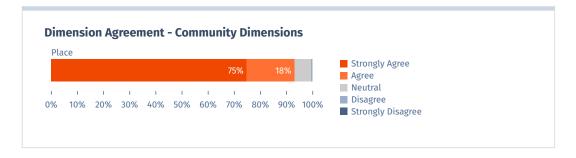

Economic Outcomes represent dimensions that seek to promote dynamic and resilient local economies that are required to sustain vibrant communities.

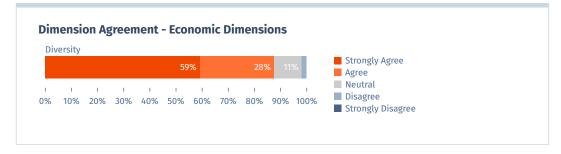

Qualities represent dimensions that connect the quality of what is produced to the realisation of intentions and the strength of their impact.

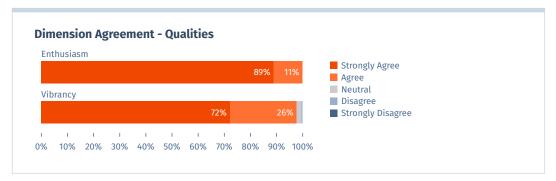

_ ____

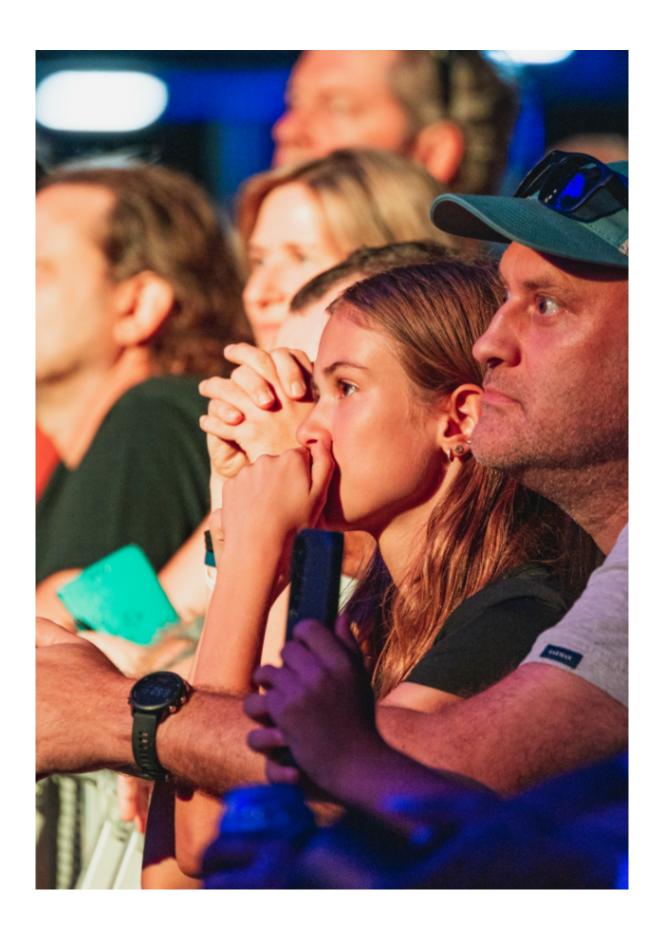

Insights

The highest outcome domain agreement results were achieved by 'Qualities' (99%) and 'Community' (93%), indicating that the event excelled in these areas. Despite still being a positive result, the lowest ranking outcome domain measured as 'Economic' (87%), meaning that respondents were least likely to agree with dimension statements from this domain.

More information about outcome domains are available at https://culturaldevelopment.net.au/outcomes/

Version: 3, Version Date: 05/08/2024

Document Set ID: 11954268

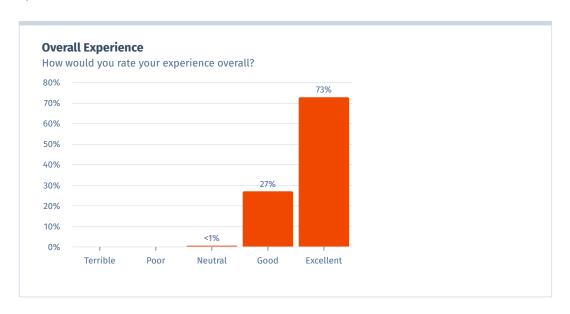

687 of 790

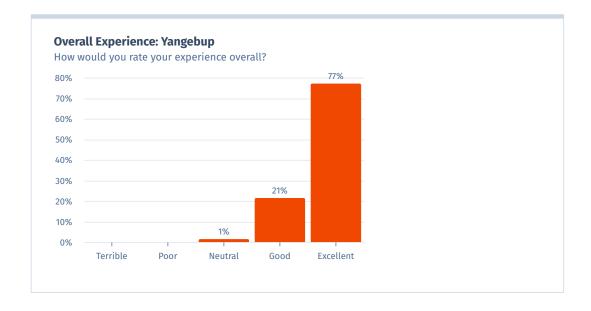

Overall Experience

Respondents were asked about their overall experience of attending the Beeliar Sun Sets event with a choice of five options - Excellent, Good, Neutral, Poor, and Terrible.

This chart shows the percentage of respondents that rated the event overall across these five options.

Good + Excellent: 99%

Good + Excellent: 98%

688 of 790

Version: 3, Version Date: 05/08/2024

Good + Excellent: 100%

Insights

Almost the entire aggregate sample (99%) reported having a positive experience at the *Beeliar Sun Sets* events, a fantastic result. Of this sample, 73% reported having an 'Excellent' experience and 27% indicated that their experience was 'Good'. Less than 1% reported a 'Neutral' experience and there were no reports of a 'Poor' or 'Terrible' experience. 98% of the Yangebup sample and 100% of the Success sample reported a positive overall experience.

689 of 790

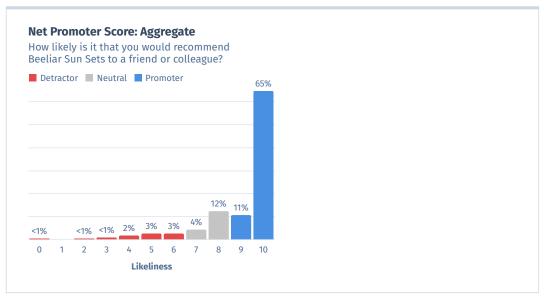

Net Promoter Score

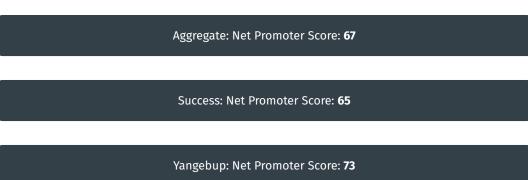

Respondents were asked whether they would recommend the event to a friend or colleague. Respondents could choose a number from 0 to 10 from a menu, with 0 meaning 'not likely at all' and 10 meaning 'extremely likely'.

These results can be used to calculate a Net Promoter Score (NPS). NPS is a standardised metric that seeks to measure loyalty between an organisation and its audience. Respondents with a score of 9 or 10 are considered 'Promoters'. 'Detractors' are those who respond with a score of 0 to 6. Scores of 7 and 8 are considered 'Passives'.

NPS is calculated by subtracting the percentage of respondents who are Detractors from the percentage of customers who are Promoters. This means that an overall Net Promoter Score can range between -100 to +100.

This chart shows the proportion of respondents that would or would not recommend attending *Beeliar Sun Sets*, followed by the calculated NPS below.

691 of 790

Insights

76% of respondents rated the *Beeliar Sun Sets* event as either 9 or 10, indicating they would be classified as Promoters. 16% of respondents had passive results (7 or 8) and 8% would be considered detractors (scoring between 0-6).

A positive NPS (i.e. higher than zero) is felt to be good, and a NPS of 50+ is excellent. *Beeliar Sun Sets'* aggregate NPS of 67 indicates that audiences have an exceptionally high level of loyalty towards the event and are very likely to promote it when speaking with others.

- -- -

4. Comparison & Benchmarks

Demographic Breakdowns

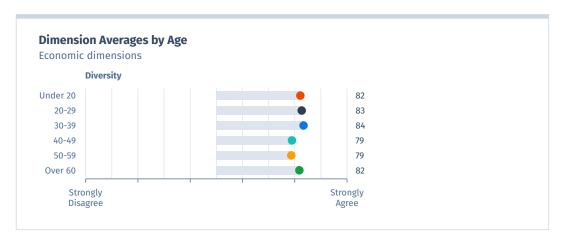

Respondents were asked to provide their age and gender as part of the survey. This data enables results to be filtered to understand any differences that exist because of demography.

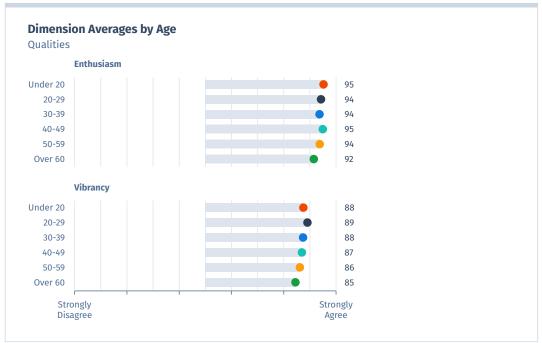

The following charts highlight a selection of results based on the gender that respondents identified with as well as by age cohort.

694 of 790

695 of 790

Note: Categories with fewer than 10 responses are shown as white dots to indicate that the value may not be representative due to the small sample size.

Insights

All age groups responded positively to the dimensions included in the *Beeliar Sun Sets* evaluation.

Those aged Over 60 had the highest averages for 'Enthusiasm' (92/100) and 'Place' (89/100), indicating this cohort is more likely to agree that they would attend an event like this again and that it made them proud of their local area. Those aged 30-39 had the highest averages for 'Enthusiasm' (94/100) and 'Vibrancy' (88/100), indicating this group were also likely to attend an event like this again and that they enjoyed the vibrancy and activity that the concert series created.

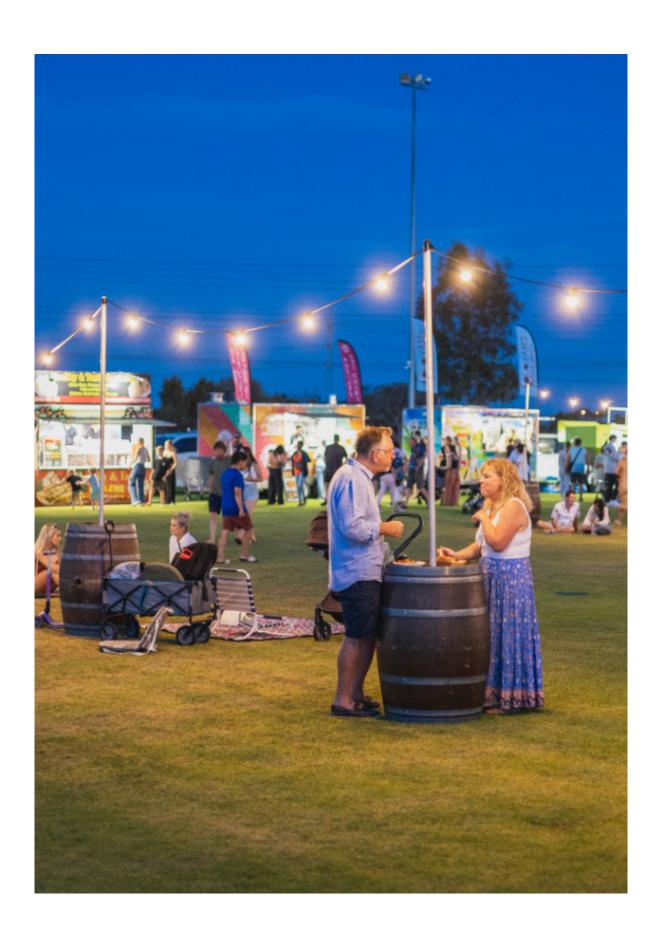

The 50-59 age group scored the lowest for 'Access' (74/100) and 'Connection' (74/100), indicating that this sample would be less likely to agree with these outcome areas.

Results were consistent across most dimensions, with 'Place', 'Diversity', 'Enthusiasm' and 'Vibrancy' all showing similar average results scores across age groups.

Agreement level results from both male and female respondents tended to be similar for the majority of the dimensions. Females scored higher for 'Access', 'Connection', 'Place' 'Diversity', 'Enthusiasm, and 'Vibrancy'. The greatest variation in averages between males and females was in 'Vibrancy' (4/100), indicating respondents were less likely to consistently agree that they enjoyed the vibrancy and activity at the event.

There were not enough responses in the sample size from those who identified in a different way to draw accurate insights.

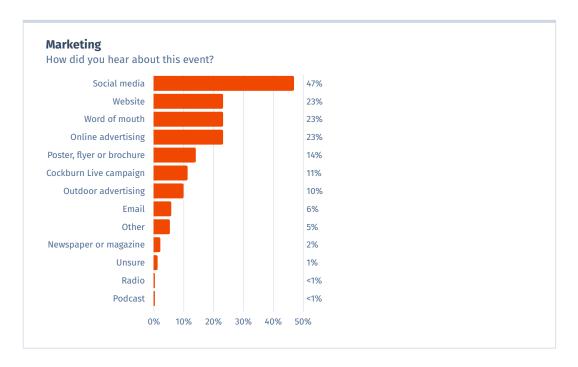

697 of 790

5. Attendee Behaviour

Marketing Channels

Respondents were asked how they first heard about the City of Cockburn's *Beeliar Sun Sets* event to evaluate the success of various marketing methods. Over ten options were provided and respondents could choose as many options as were applicable from a list.

Insights

Close to half of all attendees surveyed (47%) heard about the event by 'Social media'. This was followed by 'Online advertising', Word of Mouth' and 'Website' (each 23%). 'Email' (6%), 'Other' (5%) and 'Newspaper or magazine' (2%) were chosen the least, indicating that attendees were least likely to engage with these communication channels.

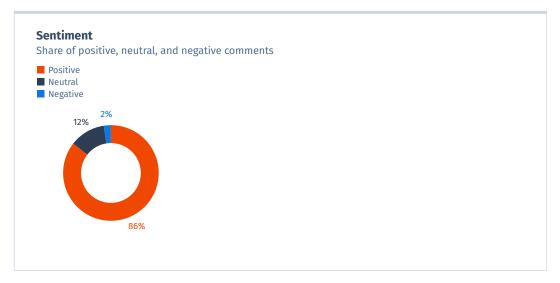

699 of 790

6. Comments and Feedback

Sentiment Analysis

Respondents were asked to leave any additional feedback about their experience at *Beeliar Sun Sets*. This feedback has been classified into positive, neutral, or negative categories, with the percentage of feedback sentiment types presented in the following chart.

General Feedback

Feedback helps organisations understand where the value of visitor experiences lies and how they can be improved and strengthened in the future. A selection of comments has been highlighted below.

Great, well organised event! Had a great atmosphere, good community vibe, and brilliant music!

Fabulous acts. Nice variety. Plenty of space for people to spread out. Lovely evening, with a lovely community atmosphere.

Reusable cups etc and water station was a great idea. Well organised, and loved the lit up food area.

Such a great inclusive, diverse and sustainable event to represent the spirit of Yangebup and Cockburn.

Would love to see more events like this!! Very well done.

My kids had an incredible time playing at the various kids play areas. It was fun joining the kids at the silent disco and the attendants were fantastic!

701 of 790

Would be good if it was a smoke-free event.

A lot of food vendors ran out of food pretty early, maybe a couple more food trucks next time.

Because of the lack of shade many people were seated way back from the stage. Perhaps take better into account where there's shade at the venue when building the stage. In this case there was plenty of room left on the oval to have put the stage where people were likely to sit.

Great traffic control coming into the venue but leaving there were only two to come out from the park meaning we had to walk along a main road to the Aubin Grove train station car park with no security at all and no one monitoring the road with people and cars everywhere - was so incredibly unsafe - seem to be happy to spend money on traffic control to stop people coming into the wrong area and happy to spend money having people everywhere to control people walking to the venue but seriously lacking and poor management to have almost none leaving the venue being that we were all leaving at the same time. Very disappointed - one bad accident was all it took and there were people everywhere walking across the road and cars leaving. If you use that park again - you need to absolutely spend the money on traffic control for people going to the car park. Was very disappointed - so dangerous.

1. Summary

Coogee Live 2024

Presented by the City of Cockburn, *Coogee Live 2024* was a vibrant and inclusive weekend festival held at Coogee Beach on 9-10 March. Building on its success as a finalist for the best Australian community event in 2023, this year's event featured a diverse range of activities catering to families, community groups, and arts lovers alike. The festival, set against the picturesque backdrop of Coogee Reserve and Omeo Park, showcased the second annual *Great Mermaid Migration*, attracting over 50 mermaids to the beach. Additionally, a share of \$10,000 was allocated to support young artists in contributing original works to the festival program, reinforcing Coogee Live's commitment to fostering creativity and community engagement.

From live art performances to children's learning activities, *Coogee Live 2024* offered a plethora of experiences designed to ignite imagination and spark meaningful connections. The festival's success was evident in its ability to draw over 22,000 visitors and secure its position as a best-inclass community event on the national calendar. With activities ranging from sandcastle competitions to scuba lessons, *Coogee Live 2024* provided a platform for residents and visitors alike to come together, collaborate, and celebrate the vibrant spirit of the Cockburn community.

Evaluation Methodology

The City of Cockburn engaged Culture Counts to evaluate the Coogee Live 2024 event.

427 responses were collected from public attendees via online surveys which were distributed via signage at the event, intercept interviews with the QR code and through the City of Cockburn's social media channels following the festival.

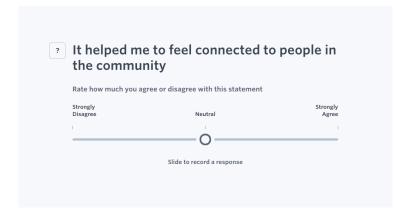

Each survey contained a range of 'dimension' questions, asking stakeholders about their experience of the event. These dimensions have been developed and tested in collaboration with industry, practitioners, and academics to measure the impact and value of arts and cultural events and activities.

Appropriate dimensions were chosen based on their alignment with the event's strategic objectives.

Public Assessment

Domain	Dimension	Dimension statement
Social	Access	It gave me the opportunity to access activities I would otherwise not have access to
	Connection	It helped me to feel connected to people in the community
	Safe	It made me feel safe and welcome
Economic	Diversity	It engaged people from different backgrounds
Qualities	Enthusiasm	I would come to something like this again
Place	Vibrancy	I enjoy the vibrancy and activity here
Community	Place	It made me feel proud of my local area

Dimensions are assessed on a Likert scale, in which respondents move a slider to a point that indicates whether they agree or disagree with the dimension statement. An example of a dimension question in the Culture Counts survey tool is presented below.

709 of 790

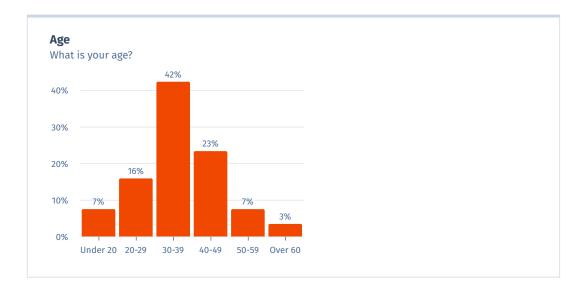

2. Attendee Profile

Demographics

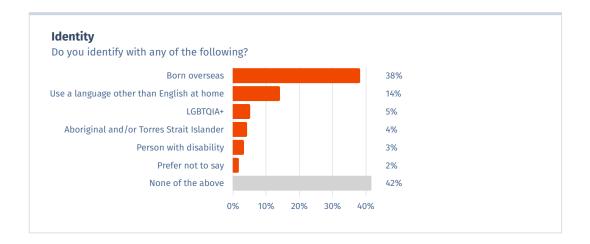

Survey respondents were asked to provide their age, gender, and identity. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for each of the age, gender, and identity demographic questions.

711 of 790

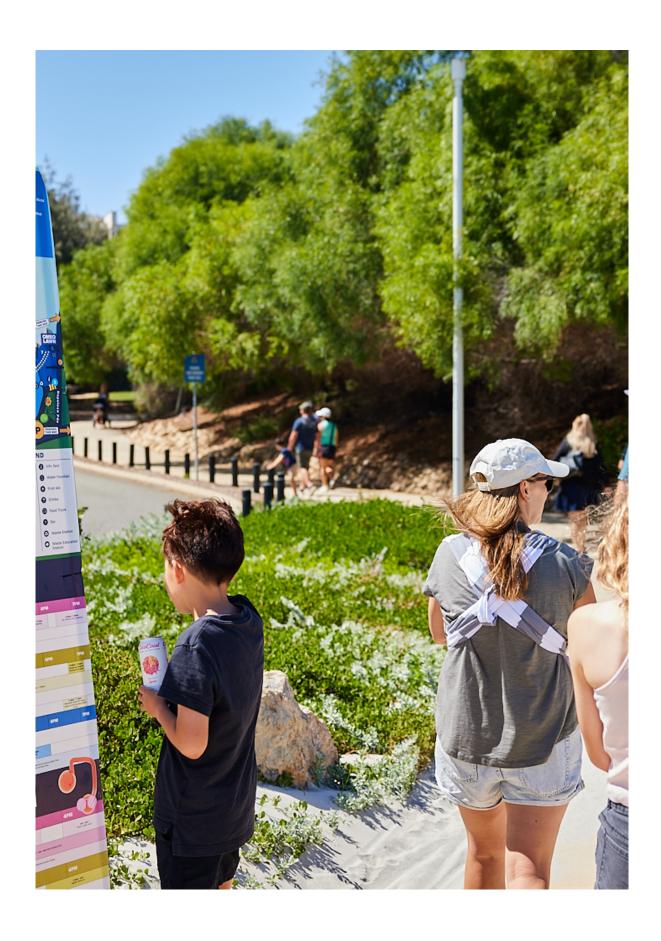

Insights

Coogee Live 2024 survey participants were most likely to be aged 30-39 (42%), or 40-49 (23%). Respondents aged 20-29 made up 16% of the overall sample, while those aged under 20 or 50-59 represented 7% of the total respectively. Attendees aged over 60 were the least likely to take part in the survey (3%).

Almost three-quarters of the sample identified as female, followed by those who identified as male (26%). Attendees who identified in another way made up less than 1% of the sample.

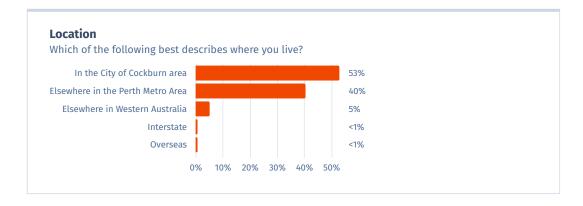

When observing the identity question results, respondents were most likely to be born overseas (38%) or speak a language other than English at home (14%). Respondents who identified as LGBTQIA+ represented 5% of the sample, 4% indicated they were Aboriginal and/or Torres Strait Islander, and 3% as a person with a disability. 2% preferred not to say, while 42% of respondents did not identify with any of the options provided.

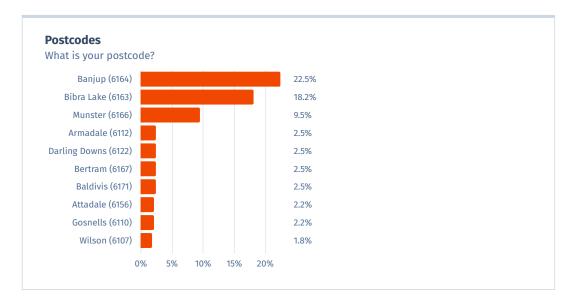

Location and Postcode

Survey respondents were asked to provide their current living location and postcode. This data identifies the demographic sample of people who responded to the survey and took part in the event. It enables data to be matched to the wider population and responses to be filtered to understand differences in demographics.

The following charts show the proportion of survey responses captured for respondents' identified living location and top suburb results.

Insights

Just over half of *Coogee Live 2024's* survey participants indicated they lived in the City of Cockburn area (53%), followed by 40% who lived in the Perth Metro Area. 5% lived in regional Western Australia, while less than 1% lived interstate or overseas. These results indicate that the event has the ability to attract both locally based attendees and audiences from all across Perth, an excellent result.

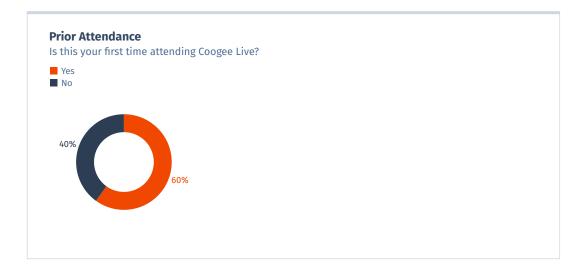

22.5% of respondents were based in Banjup and 18.2% were from Bibra Lake. Munster made up 9.5% of the sample, 2.5% of respondents indicated they lived in Armadale, Darling Downs, Bertram or Baldivis.

715 of 790

Prior Attendance

Respondents were asked to indicate whether this was their first time attending *Coogee Live*. Responses can be seen distributed on the chart below.

Insights

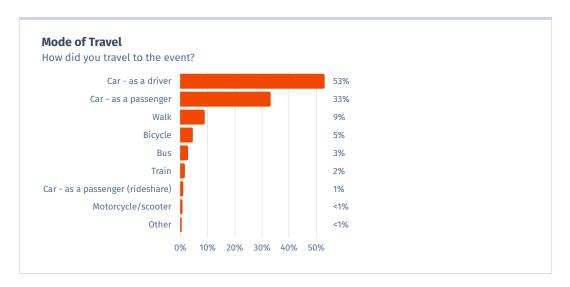

Over half of the survey participants indicated that this year was their first time attending the event (60%). The remaining 40% had attended previously. These findings indicate that the festival attracts a large number of new audience members while also encouraging previous visitors to take part in the event.

717 of 790

Travel Method

Respondents were asked about their method of travel to the event. This helps organisers understand how attendees choose to travel when visiting the City of Cockburn. The following chart shows the percentage of respondents that selected one of the following options as the method of transport to the event.

Insights

Most respondents indicated that they travelled to the *Coogee Live 2024* by 'Car – as a driver' (53%) followed by 'Car – as a passenger' (33%). 9% of respondents walked to the event, 5% travelled via bicycle and 3% by bus. 2% used the train to get to the event, while less than 1% reported travelling by 'Car – as a passenger' (rideshare). 'Motorcycle or scooter' or 'Other' were the modes of transport selected the least (each less than 1%).

719 of 790

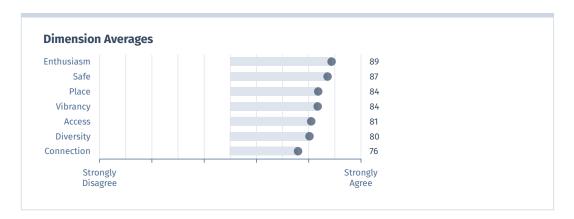

3. Outcomes

Survey respondents moved a slider to indicate whether they agreed or disagreed with the included dimension statements in relation to the *Coogee Live 2024* event. The first tab chart contains the response data for 'public' responses, showing the average result for each dimension.

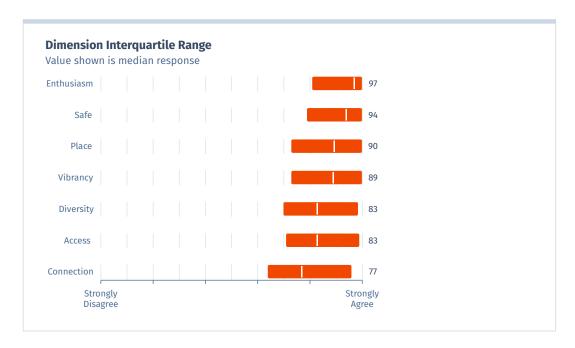

The second tab shows the interquartile range of responses for each dimension. These ranges represent the middle 50% of responses, which are areas on the slider where most responses typically fell. Accompanying this range is the median result for each dimension (i.e. the most common response). Smaller ranges indicate similarity in agreement between respondents, whereas larger ranges indicate a wider spread of responses.

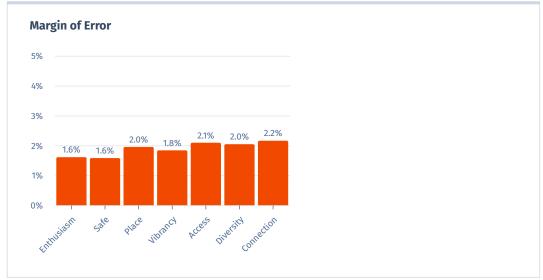

The Culture Counts platform provides various methods to capture survey responses at a minimal marginal cost. Achieving larger samples enables organisations to be more confident about the average results and that the opinions of the survey respondents are representative of all attendees. The accompanying margin of error chart shows the expected differences for the associated dimension results calculated at a 95% confidence level.

Outcome Averages

721 of 790

The 'Enthusiasm' dimension achieved most positive average agreement results of all seven dimensions measured (89/100). This demonstrates that survey participants were the most likely to agree that they would come to an event like this again.

'Safe' (87/100), 'Vibrancy' and 'Place' (each 84/100) achieved high scores, indicating that *Coogee Live 2024* made them feel safe and welcome, proud of their local area, and that they enjoyed the sense of vibrancy and activity the festival created.

While still recording a positive result, 'Connection' received the lowest average agreement score (76/100). This demonstrates that *Coogee Live 2024* attendees were least likely to agree with the dimension statement 'It helped me to feel connected to people in the community'. Of all seven dimensions measured, 'Connection' had the largest interquartile range, indicating that attendees tended to not be as aligned in their level of agreement in regards to this dimension, when compared to the other dimension statements included in the *Coogee Live 2024* survey.

At a 95% confidence level, the margin of error for dimensions ranged from 1.6% to 2.2%. This means that we can be 95% confident that if we surveyed the entire survey population, the average outcome for 'Safe' would fall within 1.6% of the average generated by the sample.

723 of 790

Outcomes by Domain

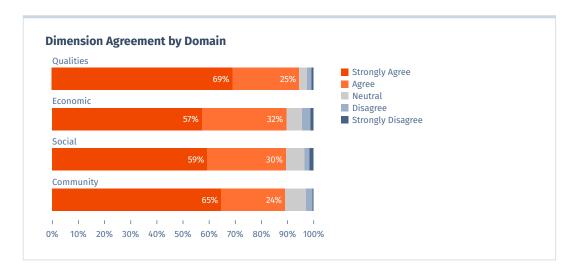

Dimension statements can be categorised into their representative outcome domain. Outcome domains represent categorisations of dimensions based on their general area of focus. For example:

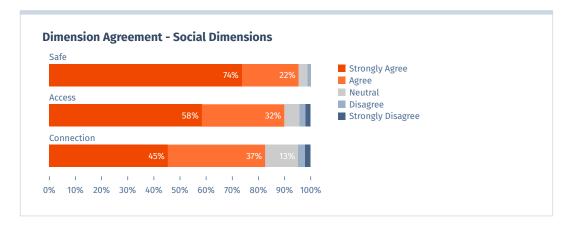

Social Outcomes represent dimensions that support the building of social capital, creates and promotes participation in community life and fosters the realisation of self at the individual level.

Community Outcomes represent dimensions that recognise the links between people, where they live and how these connections contribute to overall wellbeing.

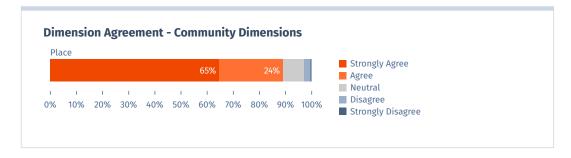

Economic Outcomes represent dimensions that seek to promote dynamic and resilient local economies that are required to sustain vibrant communities.

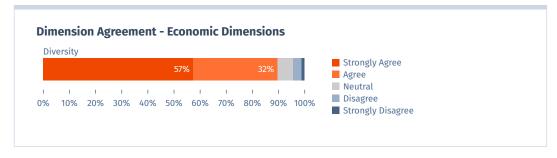

Qualities represent dimensions that connect the quality of what is produced to the realisation of intentions and the strength of their impact.

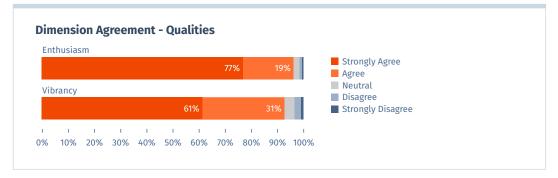

725 of 790

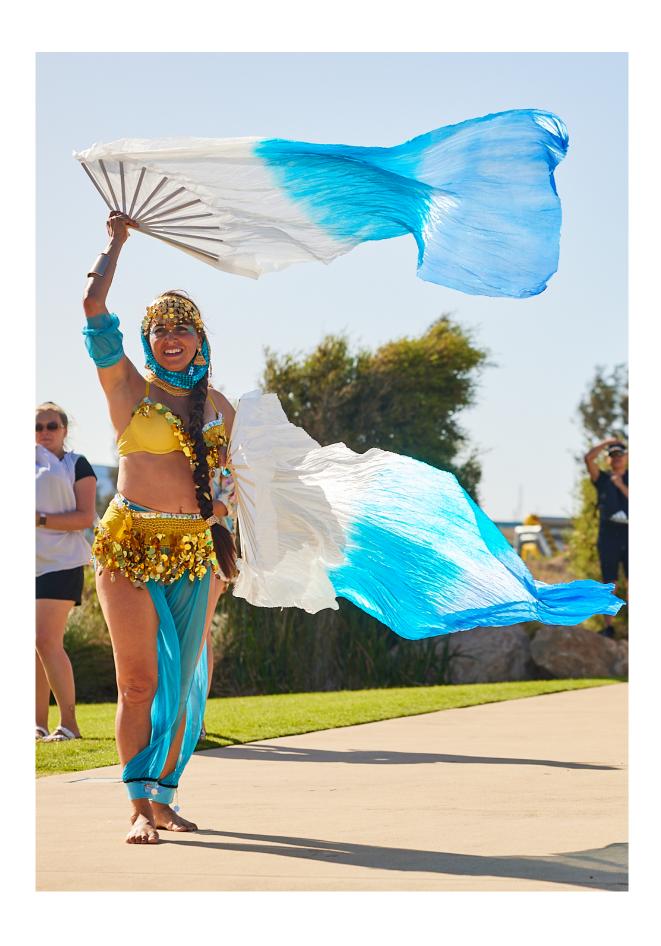

'Qualities' achieved the highest result of all domain areas measured (94%), this domain also saw the highest 'strongly agree' score of 69% recorded, which was due to positive results for the 'Enthusiasm' and 'Vibrancy' dimensions. The remaining domain areas received high positive agreement levels that tended to be the same. The Economic, Community and Social domains each achieved an overall agreement score of 89%. The Community domain, achieved the second-highest strongly agree result due to attendees being likely to strongly agree when asked to respond to the 'Place' dimension.

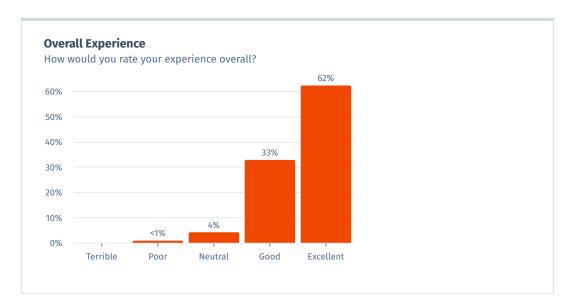

More information about outcome domains are available at https://culturaldevelopment.net.au/outcomes/

Overall Experience

Respondents were asked about their overall experience of attending the *Coogee Live 2024* event with a choice of five options - Excellent, Good, Neutral, Poor, and Terrible.

This chart shows the percentage of respondents that rated the event overall across these five options.

Good + Excellent: 95%

Insights

The vast majority of *Coogee Live 2024* attendees had a positive overall experience at the event (95%), an excellent result.

62% cited that their experience was 'Excellent' and 33% indicated that their experience was best described as 'Good'. 4% felt neutral about their experience, while less than 1% had a poor time. No respondents indicated that they had a terrible experience attending the event.

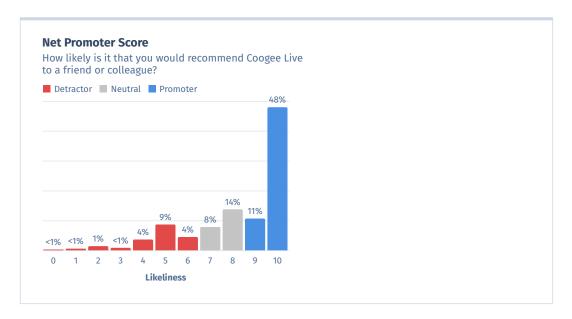

Net Promoter Score

Respondents were asked whether they would recommend the event to a friend or colleague. Respondents could choose a number from 0 to 10 from a menu, with 0 meaning 'not likely at all' and 10 meaning 'extremely likely'.

These results can be used to calculate a Net Promoter Score (NPS). NPS is a standardised metric that seeks to measure loyalty between an organisation and its audience. Respondents with a score of 9 or 10 are considered 'Promoters'. 'Detractors' are those who respond with a score of 0 to 6. Scores of 7 and 8 are considered 'Passives'.

NPS is calculated by subtracting the percentage of respondents who are Detractors from the percentage of customers who are Promoters. This means that an overall Net Promoter Score can range between -100 to +100.

This chart shows the proportion of respondents that would or would not recommend attending *Coogee Live 2024*, followed by the calculated NPS below.

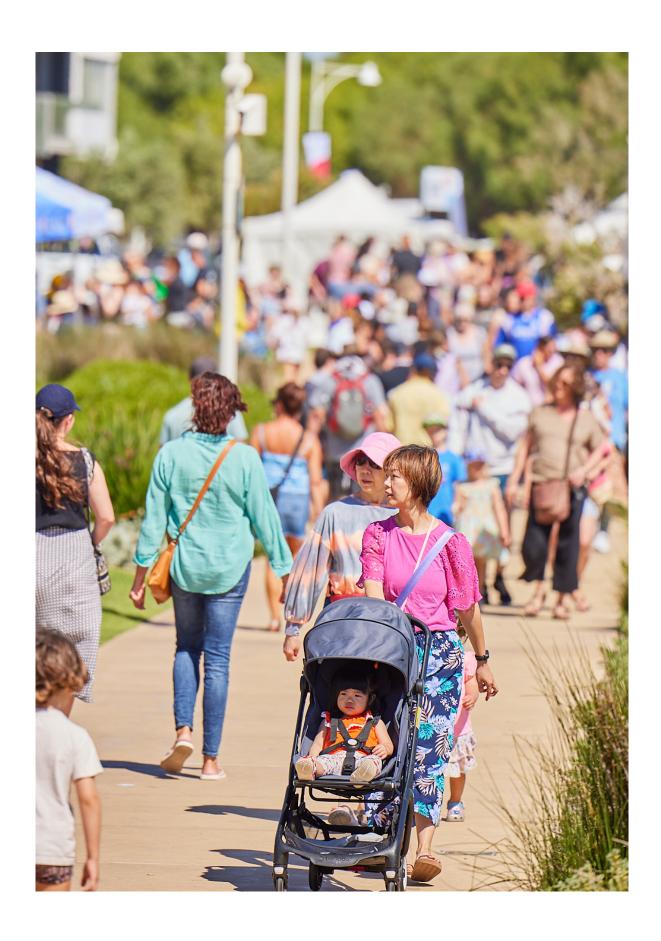

Net Promoter Score: 39

59% of respondents rated the *Coogee Live 2024* event as either 9 or 10, indicating they would be classified as Promoters. 21% of respondents had passive results (7 or 8) and 20% would be considered detractors (scoring between 0-6).

A positive NPS (i.e. higher than zero) is felt to be good, and a NPS of 50+ is excellent. *Coogee Live 2024's* NPS of 39 indicates that audiences have a relatively high level of loyalty towards the event and are reasonably likely to promote it when speaking with others.

731 of 790

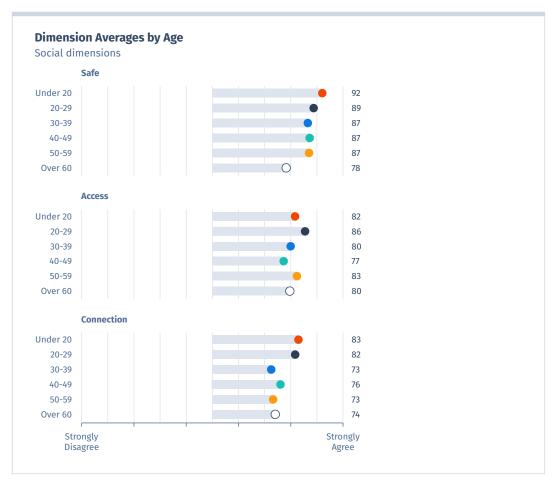

4. Comparison & Benchmarks

Demographic Breakdowns

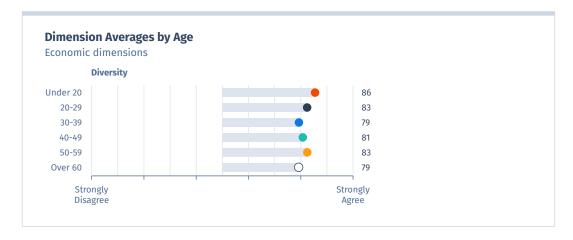

Respondents were asked to provide their age and gender as part of the survey. This data enables results to be filtered to understand any differences that exist because of demography.

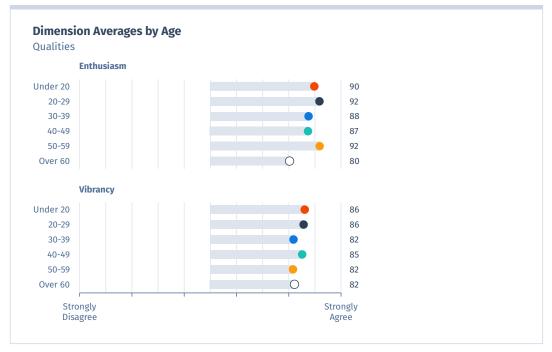

The following charts highlight a selection of results based on the gender that respondents identified with as well as by age cohort.

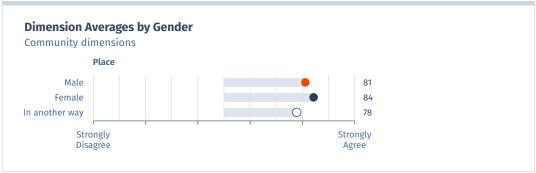

733 of 790

Note: Categories with fewer than 10 responses are shown as white dots to indicate that the value may not be representative due to the small sample size.

Coogee Live 2024 survey participants of all ages were most aligned in their level of agreement towards the 'Vibrancy' dimension, which saw a range of (4/100), and the 'Safe' and 'Enthusiasm' dimensions each with an agreement difference of (5/100) across the age cohorts.

Attendees aged under 20 provided the highest or equal results for four of the seven dimensions, 'Safe' (92/100), 'Vibrancy' (86/100), 'Diversity' (86/100) and 'Connection' (83/100). These results indicate that this cohort were the most likely to agree that they felt safe and welcome at the event, that they enjoyed the vibrancy and activity, that the event engaged people from different backgrounds and that it made them feel connected to people in the community.

Those aged 20-29 provided the highest average agreement score overall for 'Access' (86/100) and therefore were the most likely to agree that the event gave them the opportunity to access activities they wouldn't otherwise have access to. This cohort also achieved the equal highest result for 'Vibrancy' (86/100).

Participants in the 30-39 or 40-49 age brackets tended to provide similar scores and the lowest or equal scores across the majority of dimensions. Those aged 30-39 were most likely to agree with the 'Enthusiasm' (88/100) and 'Safe' (87/100) dimensions. While visitors aged in their 40s provided their highest scores for 'Enthusiasm' (87/100), 'Safe' (87/100) and 'Place' (86/100).

Unfortunately, there were not enough responses from those aged 60 or above to draw an accurate comparison.

When observing the results by gender identity, male and female respondents tended to agree to similar extent when asked to respond to dimension statements. Female participants provided the highest results for four of the seven dimensions, while males gave the highest level of agreement on average for the remaining three dimensions. The biggest differences between female and male results were seen in 'Access' (4/100) and 'Place' (3/100). There were not enough responses from those who identified in an another way to draw accurate insights for this gender cohort.

5. Attendee Behaviour

Marketing Channels

Respondents were asked how they first heard about the City of Cockburn's *Coogee Live 2024* event to evaluate the success of various marketing methods. Over ten options were provided and respondents could choose as many options as were applicable from a list.

Insights

The majority of attendees heard about the event via 'Social media' (47%). This was followed by 'Word of Mouth' and 'Online advertising' (both 23%).

'Newspaper or magazine' (2%), 'Radio' (2%) and 'Podcast' (less than 1%) achieved the lowest results, indicating that attendees were least likely to notice marketing about the event through these channels.

739 of 790

Sponsor Recall

Survey respondents were asked if they could recall the supporters and partners of *Coogee Live*. Respondents were first asked about the organisations they could recall by choosing from a multiple choice list.

The following chart details the prompted sponsor recall for the event.

Insights

The vast majority of attendees recalled the City of Cockburn as a supporter of the event (84%). Just under a third recognised Lotterywest as a major partner (31%), while ALCOA (28%), Fremantle Ports (22%) and Port Coogee (Frasers) (17%) all achieved a positive level of sponsor recall by respondents.

741 of 790

Attendance

Survey respondents were asked which days and how long they attended the event to help give organisers a better understanding of attendee behaviour. Responses to these questions are summarised below.

Average hours spent: 3.5

743 of 790

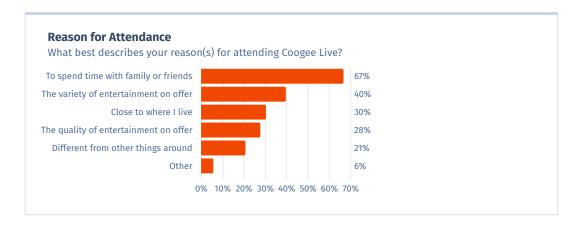

When asked to indicate which days they attended *Coogee Live 2024*, the Saturday and Sunday results were relatively similar with only a slightly higher percentage (47%) attending on Saturday. 43% of the sample visited on Sunday and 10% visited both day. These results indicate that the majority of attendees (90%) preferred to attend the event on one of the days only.

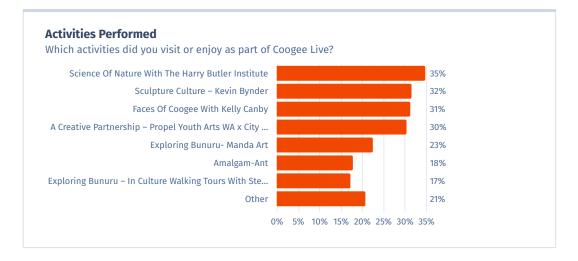

Most attendees spent between 2-5 hours at the event (84%). Of this, 28% spent 3 hours, 26% attended for 2 hours, 19% for 4 hours and 11% for 5 hours. The average dwell time was determined as 3.5 hours.

Audience Behaviour

Survey respondents were asked their reasons for attending *Coogee Live* and which activities they attended or enjoyed. This helps give organisers an idea of attendee behaviour and an understanding of which activities were most popular. Responses to these questions are summarised below.

Over two-thirds of attendees indicated their main reason for attending the event was to spend time with family or friends (67%). This was followed by 'The variety of entertainment on offer' (40%). The survey options 'close to where I live' (30%) and 'The quality of entertainment on offer' (28%) were selected by a similar percentage of the sample. 21% cited 'Different from other things around' while 6% chose another reason not listed.

Popular activities included 'Science Of Nature With The Harry Butler Institute' (35%), 'Sculpture Culture – Kevin Bynder' (32%), 'Faces Of Coogee With Kelly Canby' (31%) and 'A Creative Partnership – Propel Youth Arts WA x City of Cockburn' (30%). While still achieving positive results 'Amalgam-Ant' (18%) and 'Exploring Bunuru – In Culture Walking Tours With Steve Jacobs' (17%) were visited the least by survey participants.

Other activities attendees participated in included the 'Great Mermaid Migration', 'Market Stalls', 'Swimming at the beach', 'Robotics', 'Critters', 'Bubbles', 'Drumming', 'Yoga', 'Live Music', 'Scuba Diving' and the 'Firetruck'.

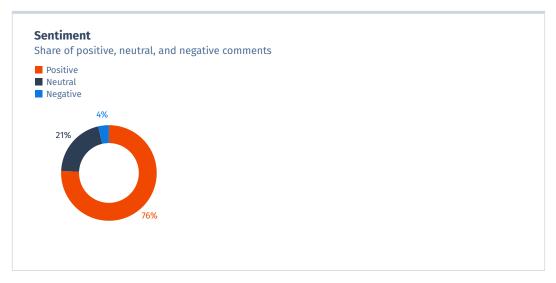

747 of 790

6. Comments and Feedback

Sentiment Analysis

Respondents were asked to leave any additional feedback about their experience at *Coogee Live 2024*. This feedback has been classified into positive, neutral, or negative categories, with the percentage of feedback sentiment types presented in the following chart.

General Feedback

Feedback helps organisations understand where the value of visitor experiences lies and how they can be improved and strengthened in the future. A selection of comments have been highlighted below.

"I love Coogee Live, especially the mermaids and can't wait for next year!"

"This event is very welcoming and very fun, it makes me feel safe and welcomed."

"Great event. Good food. Awesome music performance. Facilities are superb."

"That was a fantastic experience. I like eating some food with fun music. I really enjoyed it. Thank you!!"

"Great entertainment for the children the robot dog is a great draw."

"The SES did a fantastic job at traffic control and parking. It was vibrant and lovely to be so close to the coastline!"

"Thank you for all of your work on this event! It's so nice to have local and free activities like this. An outdoor movie or board games area would be fun to add!"

749 of 790

"Love the recycling education."

"I cancelled evening plans to come back."

"The sustainability focus was beautiful to see. Just how simple the process of reusing dishes was for me & my friend was really exciting & inspiring. The bins were manned also, so recycling wasn't tainted. If fogo was an option in WA I'm sure it would have been there too."

"Really showcases the engaging and friendliness of the community from visitors to volunteers and vendors."

"This was a really nice event but more shaded area would be amazing."

"Parking was easy and plentiful. Thank you! Pathways could have been improved for better pram access."

"Didn't see if there was a welcome to country from traditional owners which I would have enjoyed."

"Make more bus routes to Coogee Beach."

"Couldn't find the beach soccer and the bouncy course was not inflated on Sunday afternoon at 1 pm."

"There was a photographer at the jetty but did not have an event logo or tag and was videoing my kids."

"Perhaps more available shelter from the sun especially around the Omeo wreck."

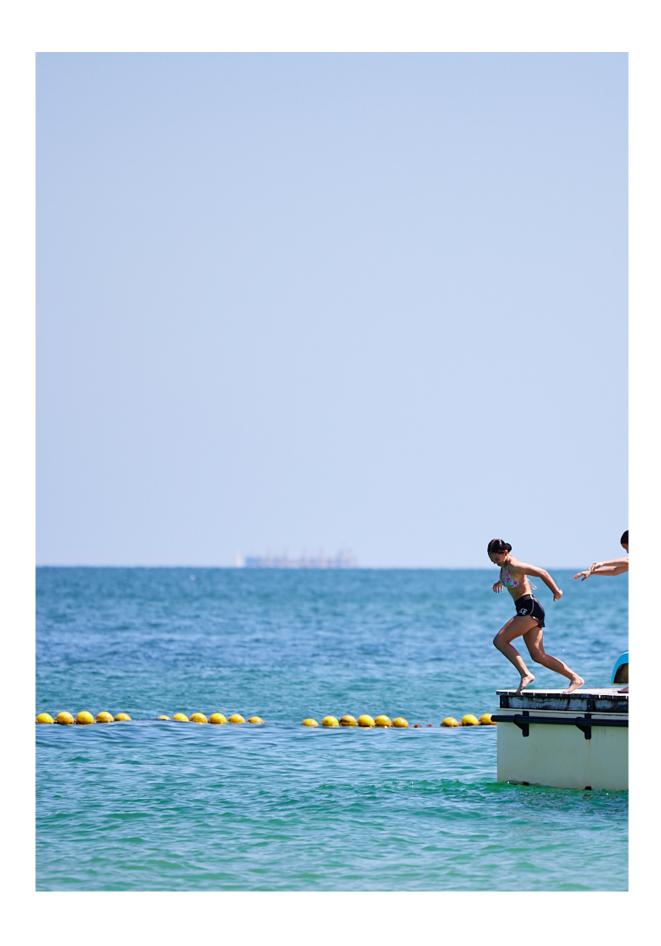

"Please make it more appalling for adults. I went in past years and there were painting and pottery classes for adults. This year there was just kid events which made it really difficult to actually even want to go. I had friends who missed it this year solely due to this reason and to be honest I'll probably skip it next year if nothing changes."

Wordcloud

Respondents were asked to provide general feedback and comments about the *Coogee Live 2024* event. The word cloud below enlarges words that were repeated more frequently in the collected survey responses.

15.2.4 (2024/MINUTE NO 0121) Spearwood Dalmatinac Club Rates Reimbursement Review

Executive A/Director Community and Place

Author Community Grants Coordinator and Manager Recreation

Services

Attachments N/A

Officer Recommendation/Committee Recommendation/Council Decision MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes That Council:

- (1) REQUIRES an annual request from the Spearwood Dalmatinac Club of 42 Azelia Road for a contribution towards their annual rates (excluding ESL and waste charges). The request will outline the percentage of the reimbursement and detail how the Club is providing this value of investment in the Cockburn community; and
- (2) AUTHORISES the Chief Executive Officer to inform the Spearwood Dalmatinac Club of Councils decision.

CARRIED 10/0

Background

At the 8 June 2023 Ordinary Council Meeting, Council endorsed the following:

That Council:

	763 of 790

(1) Adopts the revised Grants, Donations and Sponsorship allocations for the 2022-23 as attached to the agenda, with the following amendments:

- 1. Increase the Assisting Your Life to Achieve (AYLA) donation to \$15,000
- 2. Increase the Kiteboarding Australia (KA) to \$12,500
- (2) Reviews the decision regarding the Spearwood Dalmatinac Club's rates reimbursement and bring a report to the Expenditure Review Committee within the next 12 months.

This report responds to point (2) where the Spearwood Dalmatinac Club are currently reimbursed 50% of the annual rates payable for 42 Azelia Road. The reimbursement is paid from a budget allocation in the City's Grants, Donations and Sponsorship Budget.

Submission

N/A

Report

The City of Cockburn owns Lot 101 Hamilton Road, Spearwood which consists of two land parcels.

The western parcel contains bowling greens, netball courts and hardstand/parking. The eastern portion contains a soccer pitch.

Spearwood Dalmatinac Club own 42 Azelia Road in freehold – the land parcel at the centre of the two 101L Hamilton Road properties.

In 2008, the City and the Spearwood Dalmatinac Club entered into two separate lease agreements, one for the eastern portion and one for the western portion of Lot. 101 Hamilton Road.

Item 15.2.4 OCM 11/06/2024

This was due to the significant difference in the activities undertaken and conditions associated with these portions of the leased site. Both leases commenced 1 July 2008.

In 2009, Spearwood Dalmatinac Club approached Council seeking financial assistance to ensure they could continue to operate within budget.

Spearwood Dalmatinac Club were in the unique situation of being the only sporting or social club in the City of Cockburn that operated on freehold land (42 Azelia Road), and hence required to pay rates.

To assist Spearwood Dalmatinac Club to continue as an independent social and sporting club, a financial reimbursement of 50% of rates was proposed, which was believed to be the most administratively efficient means, as Spearwood Dalmatinac Club do not qualify for a rates exemption.

The essential elements for an exemption under section 6.26(2)(g) of the Local Government Act 1995 are:

- Use of the land, not whether the body in question has a charitable purpose; and
- The land must be used exclusively for a charitable purpose. Charitable purpose is defined at common law by reference to the Charitable Uses Act 1601 (UK).

However, section 6.47 of the Local Government Act 1995 provides, subject to the Rates and Charges (Rebates and Deferments) Act 1992, a local government may at the time of imposing a rate or service charge or at a later date resolve to waive a rate or service charge or resolve to grant other concessions in relation to a rate or service charge.

14 May Ordinary Council Meeting

At the 14 May 2009 Ordinary Council Meeting, Council adopted the following recommendation of the Grants and Donations Committee (MINUTE NO 14) (GAD 20/04/2009):

"That Council commit in the 2009/10 budget and subsequent budgets to reimbursing 50% of the annual rates payable by the Spearwood Dalmatinac Club for 41 Azelia Road Spearwood with the funds to be drawn from the annual Grants and Donations budget allocation".

Since this recommendation, officers have been presenting to Council an agenda item reflecting this outcome. For the 2023-24 financial year, the 50% contribution towards rates and other charges amounted to \$11,944.

Grants, Donations & Sponsorship Policy

The Grants, Donation and Sponsorship policy and guidelines provides no category for the reimbursement of annual rate notice by a community group property owner. This lack of governance framework challenges the annual release of funds through the grants, donations and sponsorship budget.

765 of 790

Any amendment to the policy would require changes to the overall purpose and intent along with exposing the Council to additional requests for reimbursement of rates.

Options

In reviewing the decision by Council in 2009, the following options can be considered:

- (1) 24/25 FY and beyond, charge the total annual rates payable
 - This option seeks to resolve the challenges associated with the current lack of criteria in the Grants, Donations and Sponsorship Policy for the reimbursement of 50% of the rates attributes to 41 Azelia Road, Spearwood Avenue. Implementation of this option would be another lever in returning the operating budget to a surplus.
- (2) Staged increase to full rates over 3 financial years

This option follows on from option 1 and provides a staged increase to full rate payment by the Club. It would also assist in returning the operating budget to a surplus.

(3) 24/25 FY resolve to waive a rate or service charge or resolve to grant other concessions in relation to a rate or service charge (section 6.47 of the Local Government Act 1995, subject to the Rates and Charges (Rebates and Deferments) Act 1992

Council can waive the full rates or adjust the current percentage to reflect what the broader community would consider fair and equitable.

(4) Annual request for contribution towards rates

This option provides Council annual oversight and the opportunity to vary the amount provided to the Club in accordance with the economic environment. Seeking the Club to submit an annual request for this contribution will ensure due diligence and allow Council the opportunity to comprehend the social and community value provided by the Club to the broader community.

It is recommended Council seeks an annual request from the Club for this contribution to ensure sound governance principles are maintained over Council provided funding.

This could be capped at no more than 50% of equivalent rates (excluding ESL and waste charges) or at a fixed amount (e.g. \$10,000)

Strategic Plans/Policy Implications

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

• Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

766 of 790	

Item 15.2.4 OCM 11/06/2024

Budget/Financial Implications

Council authorised a rebate of \$11,944, including the ESL and rubbish charge, for the 2023/24 financial year. If the current arrangement continues, then this amount will continue increasing in line with rates increases.

Continuing to provide a 50% rebate will result in reduced annual revenue to deliver services and projects requires through the Community Strategic Plan.

Legal Implications

A determination made by Council in response to this report does not contravene Section 6.47 of the Local Government Act, subject to the Rates and Charges (Rebates and Deferments) Act 1992.

Community Consultation

There has been no consultation with the Dalmatinac Club as the recommendation did not stipulate this as an action.

Risk Management Implications

There is a low level of brand risk associated with Council endorsing the resolution.

Advice to Proponent(s)/Submitters

That Council:

- (1) RECEIVE the report;
- (2) APPROVES community consultation on Phases 1, 3 and 4 as listed within this report;
- (3) APPROVES implementation of Phase 2 amended signage plan for Signal Terrace and Junction Boulevard Cockburn Central as detailed within this report; and
- (4) PRESENTS the outcomes of the community consultation to a future Elected Member Workshop.

CARRIED 10/0

Background

At the November 2023 Ordinary Council Meeting Councillor Widenbar submitted a matter for investigation regarding all day paid parking within Cockburn Central.

Reason

All day parking within Cockburn Central continues to be an issue raised by residents. With the introduction of the new parking enforcement vehicle, we have seen an increase in the number of complaints and enquiries raised.

I request that an investigation be undertaken on potential solutions for all day paid parking within Cockburn Central, both including on street all day paid parking, and the utilisation of existing Cockburn managed parking lots, such as a portion of the ARC parking lot.

The investigation should look at identifying a cost-effective solution that provides all day parking within walking distance of Cockburn Central (such as 10 minute walk/1km), allowing all day parking to be provided at an affordable rate.

770 of 790	

Submission

N/A

Report

Based on the scope of the investigation, the subject location is Cockburn Central, which is bordered by North Lake Road to the north, Beeliar Drive to the south, Poletti Road to the west, and Kwinana Freeway to the east.

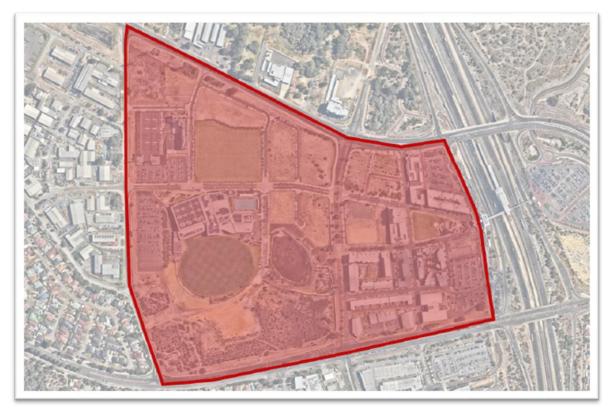

Image 1 Subject Location

Cockburn Central has several competing uses that vary in demand throughout the week and at different times of the day.

Adding to the complexity of parking demand, Cockburn Central is home to the WA Police District Office, the Cockburn Central Train Station and Bus Port, and the Department of Fire and Emergency Services Complex, which houses the State Operations Centre responsible for managing and coordinating responses to large-scale natural emergencies across the state.

Due to these factors, the area often experiences a surge in parking demand towards the eastern side of the subject area, especially on weekdays. In contrast, the western side typically has ample parking availability throughout the week.

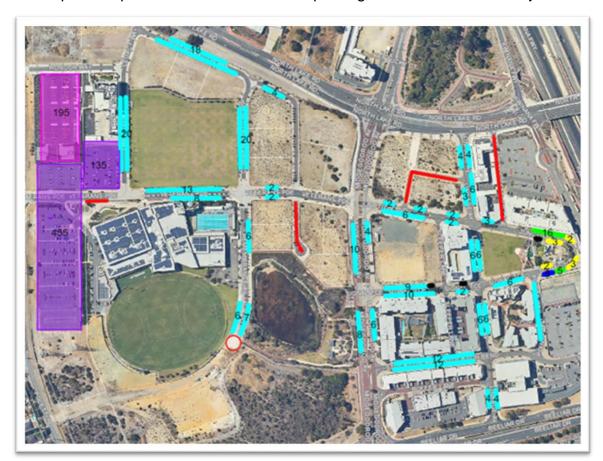

The area was designed to encourage high public transport usage, with the expectation that residents and employees would rely on these links instead of personal vehicles. However, this potential is not fully realized, as it is often challenging due to the nature of the work conducted by the major employers in the area.

Current Parking Supply and Demand

The subject area has a limited supply of on-street parking, and since most roads are already developed, the current level of on-street parking is unlikely to increase in the foreseeable future.

Additionally, the City has limited land holdings within the subject area, with most undeveloped land owned by private or state entities.

The map below provides an overview of all parking facilities within the subject area.

Legend (City Managed Land)		
	No restrictions	195 bays
	3P (3hr) Time Limit, at all times	590 bays
	2P (3hr) Time Limit, Mon-Fri 08:00am – 05:00pm	248 bays
	2P / 1/4P Mon-Fri 09:00am to 03:00pm	21 bays
	1/4P Mon-Fri 07:00am-09:00am & 03:00pm-06:00pm	
	15min, at all times	10 bays
	No Parking	

Image 2 Subject Area Current Public Parking Provisions

There are approximately 1,055 publicly available parking spaces within the subject area, most of which have timed enforcement during weekdays.

Additionally, there is a Public Transport Authority (PTA) car park on Points Way with a capacity of 203 bays, available to PTA service users for \$2 per day.

Although it is outside the subject area, the PTA also provides approximately 1,070 bays on the eastern side of the Kwinana Freeway for users of the Cockburn Central Train Station.

Aerial imagery indicates that the average lowest occupancy rate for the area is 6% on weekends, while peak weekday occupancy rates reach 94%.

The overall average occupancy rate in the subject area is 82% over the 16 months reviewed, from January 2023 to April 2024.

Current Impacts

As highlighted above, there is a significant amount of parking within the subject area, but the current restrictions are incompatible with the practical use of the area compared to the initial plan for a higher reliance on public transport. Key impacts identified during this investigation include:

 All-Day Parkers using on-street parking facilities: This is the most common issue, where a mix of residents using the train station or employees working within Cockburn Central overstay the current time restrictions. In FY24, approximately 65% of parking infringements issued were due to vehicles overstaying the timed parking restrictions within the area.

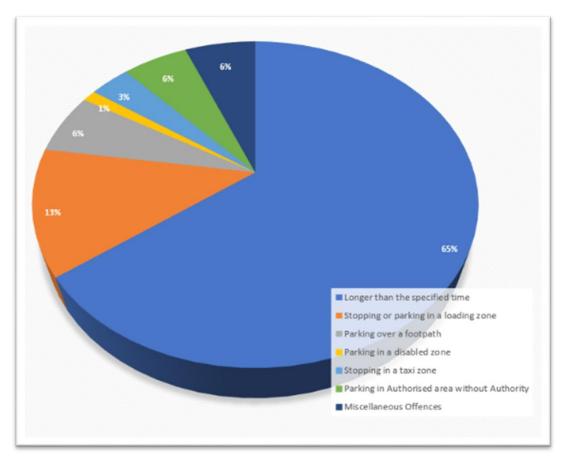

Image 3 Parking Offences in Subject area

Infringement appeals are also common for overstay offences, with approximately 96% of vehicles infringed within the subject area appealing their infringement.

- Use of On-Street Parking by Cockburn Central Residents: Another key factor
 impacting public parking supply is the continuous use of on-street parking by
 residents of Cockburn Central. Some residents have additional vehicles over their
 reserved bays within their buildings, leading to using on-street parking facilities for
 overnight parking.
- 3. Shortage of On-Street Parking for Visitors Using Local Businesses: The current parking regulations allow people to move their vehicles multiple times daily to avoid overstaying the timed parking restrictions. However, this does not increase the parking supply, instead, it merely shifts cars around. Consequently, parking bays adjacent to small retail shops within the subject area have limited customer parking options. Recently, some retailers have resorted to installing unofficial 'customer only' parking signs in front of their shops to limit this behaviour.

Recommended Actions

Based on a review of the parking situation, there is a demonstrated need to adjust the current parking arrangements within the subject area.

Implementing a phased approach to these changes will increase the attractiveness of a cost-effective all-day parking facility and incentivise its use by offering competitive rates for street parking closer to the Cockburn Central Train Station.

The phased approach is broken down as follows:

Phase 1: Create a cost-effective paid parking area in Cockburn Central.

Phase 2: Realign the current parking restrictions along Signal Terrace and Junction Boulevard Cockburn Central to ensure better clarity and improve parking availability for local businesses.

Phase 3: Implement paid on-street parking on the eastern side of Midgegooroo Avenue to funnel traffic to the paid parking facilities established in Phase 1.

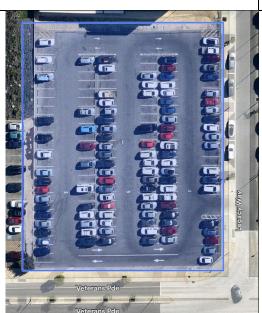

Phase 4: Implement paid on-street parking on the western side of Midgegooroo Avenue to prevent users of the paid parking area in Phase 1 from obstructing existing facilities on the western side of Midgegooroo Avenue.

By implementing these phases, all-day parkers who wish to park at Cockburn Central will have the option to either park in a designated cost-effective parking area or pay a premium to utilise peak demand on-street parking on the eastern side of Midgegooroo Avenue.

Phase 1 - All Day Parking Facility

Based on available land within the subject area, 11 Legacy Way (Lot 104) is the most appropriate location.

Proposed Location

Proposed location relative to the subject area

Image 4 Overview of Phase 1 location

11 Legacy Way (Lot 104) is an already established car park area suitable for this concept. The area has 135 car bays already established and is easily distinguishable from other free parking facilities within the immediate vicinity. If this location were approved, the estimated walking times would be:

- WA Police 9 minutes
- Cockburn Central Train Station 11 minutes
- Australian Electoral Commission 11 minutes
- DFES Office 12 minutes

Other areas immediately adjacent to Cockburn ARC were explored, however, due to conflicting agreements with the Fremantle Dockers Football Club, these areas were not considered viable.

Following consultation with DFES, Fremantle Dockers, and Cockburn ARC, the City engaged WSP Consultancy to review the concept and develop an operations strategy for this phase. The summary of the operation is listed below.

Times of Operations

Given the significant drop in parking demand within the subject area on weekends, it is proposed that the operations of this area run from Monday to Friday between 8:00 AM and 5:00 PM.

These hours of operation will ensure that the changes do not unduly hinder users of Cockburn ARC in the early mornings or evenings.

Additionally, the commencement of this phase should occur after one (1) month of advertisement to Cockburn ARC members, ensuring that they are aware of the change of use of this parking area.

Fee Structure

WSP has advised that the car park should have a low rate to increase its desirability among the targeted demographic. WSP recommends an initial all-day parking fee of \$4.50, equivalent to three hours of proposed on-street parking in Phases 3 and 4.

The proximity to the PTA car parks affects the rate that should be charged, although this is mitigated by the requirement for public transport travel to validate parking, coupled with the higher demand for parking than available car bays.

The proposed fees for the all-day car park are below the rate of other local governments, as shown in Table 1 (below). Although there is some interpretation due to proximity to the city, demand, and other factors, Table 1 highlights that the proposed costs would make this all-day parking one of the cheapest within the Perth metro area managed by a local government.

	All day fees		
Location	Min \$	Max \$	
Town of Cambridge	11.00	20.00	
City of Perth	7.00	25.00	
City of Fremantle	7.40	13.50	
City of Joondalup	6.00	12.10	
City of South Perth	7.00	9.00	
City of Stirling	5.50	7.70	
City of Subiaco	5.00	15.00	
Town of Victoria Park	3.8	80	
City of Vincent	16.00	19.50	

Table 1 Comparable All Day Parking Rates

Predicted Occupancy Rates

Based on long-standing parking behaviour, it is expected that the initial take-up of the new paid parking facility may be low until paid on-street parking is implemented on both sides of Midgegooroo Avenue.

It is estimated that within the first 12 months of establishing Phase 3, the parking facility will reach approximately 50% occupancy.

Stakeholder Opportunities

There is an opportunity to further explore an employee parking permit system, allowing employees of major agencies within Cockburn Central to purchase a parking permit for this facility at an even more subsidised rate. However, given the number of changes proposed in this report, it is recommended that this opportunity be further investigated once 12 months of usage data is available.

Financials - Income

The income generated by the all-day car park will highly depend on occupancy rates. Table 2 (below) shows the projected income for various occupancy rates. Table 2 accounts for working days only and includes forecasted public holidays.

Occupancy %	Bays Occupied	Daily Income \$	Gross Estimated Annual Revenue \$
100	135	607.50	150,000
90	122	546.75	135,000
80	108	486.00	120,000
70	95	425.25	105,000
60	81	364.50	90,000
50	68	303.75	75,000
40	54	243.00	60,000
30	41	182.25	45,000
20	27	121.50	30,000
10	14	60.75	15,000

Table 2 Projected Revenue based on Occupancy Noting above figures have been rounded

A third-party parking payment system, such as EasyPark, may be utilised to make payments. Fees associated with this are borne by the customer and do not impact the City's projected revenue.

777 of 790

Financials – Expenditure

Implementing Phase 1 would require reallocating existing funds within the Community Safety and Ranger Services to establish the parking area. The estimated cost for implementing Phase 1 is \$45,000. This expenditure includes new signage, advertisements, and a paid parking machine.

The overall low implementation costs are achievable due to the existing infrastructure and the ability to use third-party app-based payment systems, such as EasyPark, to receive payments.

Ongoing management and patrolling of the location will be absorbed by the current parking team's human resources, so no additional staffing resources are required.

Based on internal charges, it is estimated that the overall management of this car park will cost \$30,000 in existing salaries to manage.

Stakeholder Consultation

As part of this concept development, officers met with Fremantle Dockers, Cockburn ARC and the DFES staff. Below are the salient points raised by these stakeholders.

Stakeholder	Feedback	Mitigation Actions
Cockburn ARC	Concern about impacts to early morning gym users, who typically use this location.	Based on this feedback, the operating hours were changed to start at 8 AM, Monday to Friday. Initial patrolling will unlikely occur before 9 AM most mornings, so the impact on people staying slightly overtime will be limited.
Freemantle Dockers	Impact on Dockers' allocated car bays, with a mixture of Dockers staff, ARC staff, centre visitors, and all-day parkers within a common area.	Based on this feedback, the parking location was moved from the original location (the large car park at ARC) to the location proposed within this report.
Department of Fire and Emergency Services	DFES provided no adverse response to this concept.	N/A
Department of Health	Department of Health provided no adverse response to this concept.	N/A

Table 3 Summarised Stakeholder Feedback for Phase 1

Trial Period

A trial period is proposed to review the effectiveness of Phase 1 after Phases 3 and 4 have been implemented.

If occupancy rates over an annualised period are, on average, below 55%, an early review may be initiated by the City to report back to Council sooner. This will ensure that the area maintains higher utilisation and, if necessary, reverts to its current parking use.

Phase 2 – Improve Parking Facilities for Local Business

Currently, all-day parkers within Cockburn Central are impacting local businesses by utilising short-term bays and moving their cars periodically to avoid parking infringements.

Image 5 Phase 2 Area of Focus

The problem is most prominent for local businesses immediately adjacent to the Cockburn Central Train Station. If this practice continues, it will undermine the effectiveness of the all-day parking facility proposed in Phase 1 of this report. Accordingly, it is recommended that the following parking restriction amendments be approved by the Council simultaneously with Phase 1:

To ensure a higher turnover of vehicles and decrease the desirability for all-day visitors to park in this area, it is recommended that:

- Change five of the two-hour parking bays on Signal Terrace to 15-minute all-time bays
- Change thirty time-limited bays to one-hour bays, Monday to Friday, from 8:00 AM to 5:00pm
- All other parking bays will remain unchanged.

In effect, the changes shown below outline these changes in a visual format.

Current Restrictions JUNCTION BID JUNCTION

Image 6 Phase 2 Parking Restriction Summary - Current Restrictions

Image 7 Phase 2 Parking Restriction Summary - Proposed Restrictions

Financials - expenditure

The overall costs to implement Phase 2 can be accommodated within the Parking Operation's existing budget, so no further funding is required.

Phase 3 – All Day On-Street Parking Facility (East of Midgegooroo Avenue)

In its current format, the existing on-street parking restrictions do not allow for all-day parking in any capacity. Although this was designed to deter all-day parking and increase the turnover of car bay usage, in practice, it does not achieve this goal, as all-day parkers simply move their cars to another street within the subject area.

Implementing revised parking restrictions that maintain the current two-hour free use of on-street parking (the existing restriction for most of the subject area) while introducing a new restriction that allows all-day parking at a commercial rate would provide a balanced solution. This approach would enable those who wish to use the convenience of closer parking to their employer or the Cockburn Central Train Station to do so.

The area of focus for Phase 3 is outlined in the map below.

Image 8 Area of Focus for Phase 3

Suggest Hours of Operation

As mentioned previously, the subject area experiences most of its parking demand on weekdays. Accordingly, it is suggested that any paid parking fees only apply after the first two hours of parking each day, operating Monday through Friday from 8:00 AM to 5:00 PM.

Weekends would remain unchanged and allow for unrestricted parking until further review is necessary due to increased use and parking demand within the subject area.

Fee Structure

In consultation with WSP Consultancy, the City has developed a fee structure consistent with other local governments with similar demographics. Table 4 (below) highlights the current and future state of the recommended fee structure for the subject area.

Parking Time	Current Fee	Proposed Fee
O – 2hrs	Free	Free
2 – 7 hrs	Not currently possible – motorist at risk of receiving a \$100 infringement	\$1.50 per hour or \$10.5 per day.

Table 4 Proposed Fee Structure

This fee structure aims to balance the need for turnover in parking spaces with the convenience of all-day parking options at a competitive rate.

The proposed fee structure has several benefits:

Caters for Residents: The implementation of a residential parking permit ensures that residents are not adversely affected by the new parking regulations.

Caters for Local Businesses: The fee structure allows patrons visiting local businesses to continue parking for free for up to one hour. Based on a high-level review of local businesses within the subject area, this is understood to be sufficient for most customers.

Reduces the Likelihood of Issuing Infringements: Introducing a fee structure for those who wish to use the subject area for more than two hours provides them with the opportunity to extend their usage without the risk of being issued a parking infringement.

Promotes the Use of the All-Day Parking Facility: By charging an industry-consistent rate within this area of focus, it will encourage many all-day parkers to use the more economical parking facility created in Phase 1.

The industry rates were provided by WSP, and Table 5 (below) provides an overview of similar local government fee structures.

	Hourl	y rate
Location	Min	Max
City of Cockburn (proposed)	\$ 1.5	- Ψ 50
Town of Cambridge	2.90	3.60
City of Perth	2.80	7.00
City of Fremantle	1.90	3.80
City of Joondalup	1.10	2.60
City of South Perth	2.60	3.10
City of Stirling	1.10	3.30
City of Subiaco	1.50	2.50
Town of Victoria Park	0.80	5.10
City of Vincent	1.00	4.50

Table 5 Comparable On-Street Parking Rates

This comparison underscores that the proposed structure is competitive and aligns with industry standards, ensuring benefits to residents, local businesses, and all-day parkers.

Residential Parking Permits

The City has years of experience issuing residential parking permits. If this option is approved by the Council, it is recommended that permits be issued to local residents at no cost while the subject area undergoes the parking changes.

Providing this service will mean that residents within the area will receive two hours of fee-free parking, but will not require a ticket each day. Ultimately, this means there is no change to the current parking restrictions in place for residents.

Visitor Parking Permits

Given the special use of the DFES office within the subject area, there may be future opportunities to explore annualised discounted parking rates for regular all-day parkers at Cockburn Central. However, due to the number of changes proposed in this report, it is recommended that this option be further reviewed after community consultation with residents and the first 12 months of Phase 2's operation.

Stakeholder Impact Assessment

As part of the conceptual development of Phase 3, the City evaluated and, in some cases, met with representatives of the stakeholders listed below to ensure any feedback could be considered during the concept development phase.

This approach allowed for a more thorough and informed proposal before broader and more rigorous consultation, which will occur pending a Council decision.

783 of 790

Stakeholder	Feedback	Mitigation Actions
DFES	DFES provided no formal direct adverse feedback but noted that they would not want their staff to lose the option for 2 hours of free parking per day.	Based on this feedback, we will maintain the current two (2) hour free parking per day.
WA Police	WA Police provided no adverse feedback to the Phase 3 concept.	N/A
Cockburn Gateways	No formal meeting took place, however it is understood there is limited overflow to Cockburn Central during their peak busy periods.	N/A

Table 6 Summarised Stakeholder Feedback for Phase 3

State Operations Centre Attendees Dispensation

To assist with emergencies throughout the year, DFES activates the State Operations Centre periodically throughout the year. Due to the vastness of the State, this can occur at any time and may require up to 50 staff members to support emergency management.

During these times, it is recommended that a formalised arrangement be made with DFES to exempt key staff from the parking fees, ensuring that critical staff are not put at an unnecessary disadvantage.

However, any such arrangement will be included in the proposed community consultation outlined in this report before officers make a recommendation to the Council.

Financials - Income

Due to the anticipated use of the proposed all-day parking facility at 11 Legacy Way (Lot 104), the overall predicted use of the on-street provisions within Phase 3 is based on the estimate provided by WSP. This estimate is presented as a percentage of occupancy in Table 7 (below).

The projected income costs were calculated based on 80% of users paying the full-day rate and 20% of users paying for four (4) hours, over 250 days per year.

Occupancy (%)	Bays Occupied	Daily Revenue \$	Estimated Gross Annual Revenue \$
100	143	2,300	590,000
90	128	2,100	530,000
80	114	1,800	470,000
70	100	1,600	410,000
60	85	1,400	350,000
50	71	1,200	290,000
40	56	900	230,000
30	42	700	170,000

Table 7 Projected Revenue Based on Occupancy Within Phase 3 Noting above figures have been rounded

Financials - Expenditure

To implement Phase 3, an initial investment for changing parking signs and installing several parking machines would be required. The table below provides a cost breakdown of the implementation costs associated with Phase 3.

Item	Total Costs \$
Parking Signs	20,000
Ticket Machines	40,000
Advertisement	1,500
Contingency	4,500
Total Costs	65,000

Table 8 Projected Implementation Costs for Phase 3

Internal charges to manage this phase are estimated to be \$60,000 per annum.

Phase 4 – All Day On-Street Parking Facility (West of Midgegooroo Avenue)

Phase 4's area of focus is largely undeveloped at present and represents an opportunistic time to implement on-street paid parking facilities before significant growth occurs within the area.

Image 9 Area of Focus for Phase 4

Phase 4 would not change the existing off-street parking arrangements within the proposed all-day parking facility (Phase 1) or the off-street parking used by Cockburn ARC or the Department of Health facility.

Stakeholder Consultation

As part of this concept development, officers met with representatives from Cockburn ARC, the Fremantle Dockers Football Club, and the Department of Health. No stakeholders provided any adverse feedback regarding the concept of operation.

Implementation Timeframe

The area encompassed by Phase 4 is largely undeveloped and does not currently require paid parking to increase vehicle turnover. However, the area is still subject to the existing 2-hour limit on streets within this focus area, putting motorists at risk of receiving an infringement for parking longer than two hours.

To avoid punitive action, it is recommended that Phases 3 and 4 be conducted simultaneously.

During construction, street parking restrictions or paid parking can be suspended by Council resolution, ensuring that the implementation of this parking provision will not impact further development if the appropriate approval by Council is sought.

Financials – Income

Due to the area being largely undeveloped and the potential cost savings for motorists parking at the proposed all-day parking facility (within Phase 1), there is limited income potential for this phase in the near future. In the best-case scenario, projected income in the current undeveloped state would be \$20,000 per annum.

Financials – Expenditure

The cost of implementing Phase 4 is projected to be \$30,000, and it is recommended to occur simultaneously with Phase 3. This expenditure would be required to install strategically located parking machines and change over the existing signage.

Implementing both phases together will ensure a cohesive approach and potentially reduce overall implementation costs by leveraging shared resources and labour.

Item	Total Costs \$
Parking Signs	8,000
Ticket Machine (1)	20,000
Contingency	2,000
Total Costs	30,000

Table 9 Projected Implementation Costs for Phase 4

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- A City that is 'easy to do business with'.
- Thriving local commercial centres, local businesses and tourism industry.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

 Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An integrated, accessible and improved transport network.
- · Cockburn Central as the capital of Perth's South Metro Region.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality & effective community engagement and customer service experiences.

Budget/Financial Implications

Forecast Financials

The complete budget for each phase is provided in this report. However, a forecasted summary is provided below, based on the following utilisation assumptions:

- Phase 1 (all-day parking facility) at 11 Legacy Way (Lot 104)) achieving 50% occupancy
- Phase 2 N/A
- Phase 3 (on-street parking east of Midgegooroo Avenue) achieving 60% occupancy
- Phase 4 (on-street parking west of Midgegooroo Avenue) achieving \$20,000 per annum.

Phase	Establishment Cost (one-off)	Annual Operating Costs \$	Estimated Revenue \$
Phase 1 all-day parking facility at 11 Legacy Way (Lot 104)	45,000	30,000	75,000
Phase 2 amended signs at Signal Terrace and Junction Boulevarde	5,000	15,000	N/A
Phase 3 on-street parking east of Midgegooroo Avenue	65,000	60,000	350,000
Phase 4 on-street parking west of Midgegooroo Avenue	30,000	15,000	20,000
Totals	145,000	120,000	445,000

Table 10 Projected Revenue and Operating Costs

	787 of 790
--	------------

Community Consultation Financials

The officer's recommendation includes pre-implementation community consultation for Phases 3 and 4. This consultation will be undertaken using internal staffing resources and will require approximately \$3,000 for a minor advertisement campaign, which will be covered by an existing budget allocation.

Legal Implications

There are several legal considerations that Council should be informed of prior to making their decision. An outline of relevant legal implications is listed below:

- Creation of a Metered Parking Area: Pursuant to clause 55 of the City's Parking and Parking Facilities Local Law 2007, Council may, by resolution, create a metered parking area.
- 2. **Prescribing Fee Amounts:** Council may, in accordance with clause 56 of the City's Parking and Parking Facilities Local Law 2007, prescribe the fee amount payable for any such zone within its district.
- 3. **Changes to Regulatory Signs:** Per clause 8 of the City's Parking and Parking Facilities Local Law 2007, any changes to regulatory signs require a Council resolution.

These legal provisions ensure that the Council has the authority to implement the proposed changes and proposed fees.

Community Consultation

Initial stakeholder consultation was undertaken during this report's conceptual development of the proposed phases. Salient feedback from this initial consultation is provided within the report.

Due to the potential perception of community impact from implementing these parking changes and noting that no community consultation on this item has been done to date, it is recommended that community consultation be undertaken with residents of Cockburn Central prior to the implementation of Phases 1, 3 and 4.

The purpose of the community consultation will be to ensure that the proposed concepts within this report consider the:

- Reliance on on-street parking by residents
- Community appetite to provide an ad-hoc dispensation to DFES's State Operations Centre requirements
- Local community support for residential and visitor parking permits.

This proposed consultation will help ensure that the proposed changes are well-informed and considerate of the needs and preferences of the local community.

788 of 790	

Risk Management Implications

Implementing paid parking can raise community concerns if the arrangements are not thoroughly thought through. Below is a summary of possible risks related to each phase proposed within the report.

Phase 1

Risk: Given its limited community use, users of Cockburn ARC will feel the most impacted.

Mitigation: The wider reputational risk will be mitigated by ensuring the hours of operation are outside those of early morning and evening users of Cockburn ARC.

Additionally, the City's officers are working on a separate item to increase the number of ACROD bays along Veterans Parade. This separate item will be presented to the Council in due course.

Phase 2

Risk: Changes to the parking regulations within this area of interest will increase parking availability for local shop owners. The reputational risk may be minor, primarily affecting motorists who currently move their cars around to avoid parking infringements.

Mitigation: The changes are designed to benefit local businesses, which should minimise any negative perceptions.

Phases 3 and 4

Risk: These parts of the parking review represent the most contentious elements of the plan.

Mitigation: Local community consultation is highly recommended to ensure the Council fully understands the community's sentiments before making a decision to implement these phases. Using the IAP2 Public Participation Spectrum, the consultation should use the 'consult' level to ensure adequate community feedback is gained before Council considers implementing these phases.
