BACKGROUND:

The City's administration is often notified of funding schemes made available for programmes which can be provided in the community from externally funded sources.

PURPOSE:

To ensure all optional funding sources, which have an identified application to the Cockburn community can be expeditiously accessed and that a component of the Grant recognises (in part) the City's overheads in administering these funds.

POSITION:

- (1) The City submit applications for Grant funds from external sources for any identified community service or facility which will benefit all or any part of the Cockburn community.
- (2) Applications for external grant funding are to include a minimum administration charge of 10% of the operating expenditure component of the funds being sought, in partial recognition of the cost contribution made by the City of Cockburn, as a sponsoring authority of external funding organisations.
