Mr J Blanchard, General Counsel

6. Response to Previous Public Questions Taken on Notice

Nil.

7. Written Requests for Leave of Absence

Nil.

8. Public Question Time

Stephen Shaw, Bibra Lake
Subject: CCTV Trailer, Bibra Lake Carpark

Q1. At previous Ordinary Council Meetings, the City advised that the mobile CCTV trailer at the Bibra Lake dirt-carpark exercise area resulted in no reported incidents of antisocial behaviour or illegal dumping while in operation.

The City also advised that illegal dumping costs approximately $6,600 annually in clean-up costs alone, excluding CoSafe patrols, staff time and compliance activities.

Despite the demonstrated effectiveness of CCTV, the trailer was removed and illegal dumping and antisocial behaviour continue to occur.

Given this issue has persisted for several years, does the City accept that, had a permanent solution been implemented three years ago, ratepayers could have avoided approximately $20,000 in clean-up costs alone?

A1. The Director Sustainable Development and Safety advised the City responds to numerous locations of illegal dumping and requests for CCTV. The locations of CCTV can deter some behaviour and provide evidence to support compliance action, but it cannot guarantee that illegal dumping or antisocial activity will not occur. Incidents may continue within or outside of camera coverage and they may involve vehicles or individuals who cannot be identified.

The City has received two reports of illegal dumping and no reports of anti-social behaviour in the last 12 months for this location.

The City's CCTV trailers are used across the entire City including other locations of reported illegal dumping and anti-social behaviour. The City best manages its resources within the demands and priorities presented before it.

The request for permanent CCTV at this location is being considered through the Council-requested review of the carpark.

Rina Burrows, Bibra Lake
Subject: Threats to Bibra Lake Turtle Population

Q1. Volunteers have documented several ongoing threats to Bibra Lake's turtle population during the current nesting season. Between 8 and 10 October, multiple protected turtle nests at the playground foreshore were vandalised when nest protection mesh was repeatedly removed, resulting in nests being lost to predation.

A gravid female turtle was also found deceased on the western side of Bibra Lake with injuries consistent with fox predation, while volunteers continue to report dogs off lead in nesting habitat and turtle road mortality and near misses along Hope Road and Progress Drive.

Given these documented threats, what specific actions will the City take to develop and implement a coordinated Turtle Conservation Plan for Bibra Lake that addresses nest protection, fox control on the western side of Bibra Lake, dog compliance and road mitigation measures, and what timeframe will the City commit to for implementing these actions before the next turtle nesting season in 2027?

A1. The Director Sustainable Development and Safety advised the City is not proposing to prepare a standalone Turtle Conservation Plan for Bibra Lake. The City continues to undertake a range measures to protect nesting turtles as outlined in response to public questions at the 11 February 2025, 8 July 2025, 2 September 2025 and 14 October 2025 Ordinary Council Meetings (OCMs).

These initiatives include actions to address the threats posed by off-lead dogs, feral foxes, and road mortality. Per the 11 August 2026 OCM, the City will also trial a temporary Traffic Management Plan during the 2027 nesting season at Bibra Lake and is also progressing the design of a turtle underpass.

Any instances of vandalism should be reported to the City as soon as practicable so they can be investigated and actioned.

Joyce Gadalan, North Lake
Subject: Turtle Funding

Q1. In August 2026, a local business offered to fully sponsor two LED turtle warning signs at a known turtle road mortality hotspot. However, the proposal was declined because the City's project management, installation and maintenance costs were considered to exceed the sponsorship value under the Incoming Sponsorship Policy.

Given the City acknowledged the signs have merit and indicated it would investigate funding opportunities for future nesting seasons, can the City advise what estimated costs were used to assess the proposal, whether those costings will be made public, what actions have been taken to secure funding before the next nesting season, and whether Council will consider funding turtle warning signs through the 2027/28 budget?

These signs would reduce turtle road fatalities, support turtle conservation, and improve safety for volunteers undertaking turtle monitoring and rescue activities.

A1. The Director Sustainable Development and Safety advised the City has responded to this matter via correspondence dated 16 September 2026 and 23 September 2026.

The City will consider options for funding for installation of signs in the forthcoming budget round for the 2027-28 financial year. It is considered that the signs may provide greater value at other wetland location rather than Bibra Lake, which will be subject to the temporary traffic management trial, and the City is also investigating those options.

Michael Separovich, Spearwood
Subject: Fremantle Football Club

Q1. What did the City of Cockburn do to further activate the City and to bring people, tourists, day-trips, any sort of economic activity, into the City of Cockburn as part of a very rare opportunity that we haven't seen in WA, involving the Dockers, since 2019?

A1. The Director Community and Place advised Council allocated $50,000 towards the event that if Dockers were in the grand final we would do activation. They also make comment that we would not be in competition with Fremantle as a locality on the day of the event.

We worked very strongly with the Fremantle Football Club and the City of Cockburn got some very strong coverage in regards to the state-of-the-art facilities that are provided at Cockburn ARC.

Primarily through communication of their new home, which gathered quite a lot of traction, that was the key focus of profiling where they are now located, and I think the City got some very strong and positive public recognition of the state of those amazing facilities for the Dockers.

Q2. Not disagreeing that they are fantastic facilities, because they definitely are. Just to clarify, was the agreement not to compete directly with Fremantle, because we all saw the coverage of Fremantle with about a 40,000 people getting in there, and the boost to the hospitality section in particular, that we have been trying to get at Cockburn Central for at least eight, nine years that I know of. So what was the reason for the agreement not to compete with Fremantle, was that a condition from the Fremantle Football Club, or is that something that we entered on our own volition?

A2. The Director advised it was commentary that was made in the discussion of the item at Council. Most of the arrangements that were discussed were carried out with Fremantle Football Club. They are the holders of their organisation and their event planning, so we work strongly with them, and the main focus was, if they were to have won the grand final, to have had a celebration event through the ARC and bring the cup back to Cockburn ARC. That obviously did not transpire but that is where most of the arrangements and the discussions had been.

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) ADOPTS the Schedule of Submission prepared in response to Scheme Amendment No.188 as set out in Attachment 2;

(2) ADOPTS Scheme Amendment No.188 for final approval as advertised (i.e. without modification) for the purpose of:
   1. Deleting 'Development Contribution Area 12 (Packham North)' from 'Table 10 – Development Contribution Plans' of the Scheme Text; and
   2. Deleting 'Development Contribution Area 12' from the Scheme Maps.

(3) DELEGATES authorisation and submission of the amendment documentation to the Western Australian Planning Commission along with a request for the endorsement of final approval by the Hon. Minister for Planning; and

(4) ADVISES those who made a submission of Council's decision accordingly.

CARRIED 9/0

Background

Initiated by Council at the 14 April 2026 Ordinary Council Meeting, Scheme Amendment No.188 proposes the deletion of Development Contribution Area 12 (DCA12) 'Packham North'.

As all the works funded by DCP12 (outlined in Table 10 of TPS3) are complete and paid for, the development contribution plan is redundant.

Environmental Protection Agency (EPA) consideration of the proposal under section 48A of the *Environmental Protection Act* was not required by virtue of meeting the definition of an exempt class of amendment pursuant to 33(2)(l) of the *Environmental Protection Regulations 1987* (i.e. an amendment to an existing development contribution plan that does not propose any land use change).

On 28 May 2026, the Department of Planning, Lands and Heritage (DPLH) under delegation from the Minister for Planning granted consent to advertise the proposal under section 83A of the *Planning and Development Act 2005*.

Submission

This amendment was prepared by the City to keep its Development Contribution Areas and Plans up to date, in line with the guidance of State Planning Policy 3.6 – Infrastructure Contributions.

Report

A copy of the advertised scheme amendment, inclusive of the justification for the proposed changes is attached (refer Attachment 1).

The purpose of this report is to consider the submission made during the advertising period and make a recommendation to the Minister for Planning on final determination.

Submissions

At the end of the advertising period one submission had been received in support of the proposal, querying why such a simple administrative change warrants public advertisement (refer Attachment 2).

Whilst the City agrees, it must process the proposal in accordance with the Planning and Development (Local Planning Scheme) Regulations. Part 5, Division 1, Regulation 34 of the Regulations defines any amendment to a Development Contribution Area or Plan as a 'Complex' proposal that r.38 stipulates must be advertised for a minimum period of 60 days.

Of specific relevance to this scheme amendment proposal, no change is required in response to the comments raised.

Strategic Plans/Policy Implications

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.

Budget/Financial Implications

The final audit of this plan has been completed and published on the City's webpage.

Legal Implications

- Environmental Protection Act (1986)
- Planning and Development Act (2005)
- Planning and Development (Local Planning Schemes) Regulations (2015)
- City of Cockburn Town Planning Scheme No.3
- State Planning Policy 3.6 – Infrastructure Contributions.

Community Consultation

The proposal was advertised for 61 days, in accordance with Part 5, Division 2, Regulation 38 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, from 24 June until 24 August 2026.

Advertising consisted of a notice on the City's Comment on Cockburn website including the following attachments:

- 14 April 2026 Ordinary Council Meeting Minutes
- Scheme Amendment 188 Report
- Development Contribution Plan 12 Report (including the Audit Report and Income Statement).

A hard copy of the scheme amendment documentation was also available to view during business hours at the City's Administration Building in Spearwood for the duration of the advertising period.

At the end of the advertising period the City received one submission of support. A copy of the Schedule of Submissions, inclusive of officer commentary in response to the individual matters raised, is included at Attachment 2.

Risk Management Implications

Should Council resolve to not adopt this amendment for final approval, the City would be non-compliant with SPP 3.6. Once all infrastructure and facilities identified in a DCP have been delivered, the City is required under SPP3.6 to take the appropriate steps to close the DCP within 12 months, or as soon as practicable.

Besides non-compliance with the SPP, if not removed there is a risk that DCA12 will mistakenly be considered an encumbrance or disincentive to further redevelopment.

Deleting DCA12 from TPS3 removes a redundant layer of planning control and will help to simplify the local planning framework and aligns with Governance Action 1.5 of the City's Local Planning Strategy.

Advice to Proponent(s)/Submitters

Those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 October 2026 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

Nil.

Town Planning Scheme No.3

Amendment No.188
(Complex)

Deletion of Development Contribution Area No.12

APRIL 2026

Planning and Development Act 2005

RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn
Town Planning Scheme No.3
Amendment No.188

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No. 3 by:

1. Deleting 'Development Contribution Area 12 (Packham North)' from 'Table 10 – Development Contribution Plans' of the Scheme Text.

2. Deleting 'Development Contribution Area 12' from the Scheme Maps.

The Amendment is 'complex' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it proposes to amend a development contribution area and delete a development contribution plan.

Dated this 14th day of April 2026

A/CHIEF EXECUTIVE OFFICER

AMENDMENT REPORT

1.0 INTRODUCTION

Amendment No.188 to the City of Cockburn's Town Planning Scheme No.3 (TPS3) seeks to remove Development Contribution Area 12 'Packham North' from the scheme text and maps.

2.0 BACKGROUND

There are currently 12 Development Contribution Areas (DCAs) and associated Development Contribution Plans (DCPs) operating under TPS3, collecting contributions towards infrastructure through the subdivision and development process.

The establishment and operation of a DCA is guided by State Planning Policy 3.6 (SPP3.6), and more recently the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations).

It is important to note that DCA13's requirement for contributions to city-wide community infrastructure will remain in effect for any new dwellings created before its 2031 expiration, irrespective of this proposal's outcome.

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes*) Regulations 2015, identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This proposed amendment is considered a 'complex' amendment, which Regulation 34 describes as any of the following:

a) an amendment that is not consistent with a local planning strategy for the scheme that has been endorsed by the Commission
b) an amendment that is not addressed by any local planning strategy
c) an amendment relating to development that is of a scale, or will have an impact, that is significant relative to development in the locality
d) an amendment made to comply with an order made by the Minister under section 76 or 77A of the Act
e) an amendment to identify or amend a development contribution area or to prepare or amend a development contribution plan

The proposed amendment satisfies e) of the above criteria on the basis that it proposes to delete a Development Contribution Area from TPS3.

4.0 TOWN PLANNING CONTEXT

4.1 State Planning Policy 3.6 – Infrastructure Contributions

SPP 3.6 sets out the principles and requirement that apply to the establishment and collection of infrastructure contributions in new and established areas.

Once all infrastructure and facilities identified in a DCP have been delivered, the local government is required to take the appropriate steps to close the DCP within 12 months, or as soon as practicable, having consideration for the policy provisions for a shortfall or excess funds in a DCP.

4.2 City of Cockburn Town Planning Scheme No. 3

DCAs constitute a Special Control Area pursuant to Part 5 of TPS3 and operate in accordance with provisions of clause 5.3.

High level details are included in Table 10 – 'Development Contribution Plans' of TPS3, they are also spatially defined on all scheme maps.

5.0 PROPOSAL

For Development Contribution Area 12 (Packham North), Table 10 includes the following detail:

	DCA 12
Area	**Packham North**
Infrastructure and administrative items to be funded	Contributions shall be made towards the following items: Landowners shall generally be required to contain drainage on their own site. However, where a landowner(s) is required to provide additional capacity within their subdivision or development that is to serve adjoining landowners then all landowners whose land is to be serviced by designated drainage area shall make a proportional contribution to the required drainage land and works. Such proportion is to be calculated on the basis of the area of land within the drainage catchment areas. Drainage works referred to above include internal and offsite arterial groundwater control and drainage infrastructure including detention basins, gross pollutant traps, nutrient stripping and landscaping. Infrastructure within subdivision roads and development sites is the responsibility of the land developer and is not a DCA responsibility. Landowners(s) are required to provide 10% of their landholding(s) for public open space (POS) in accordance with Element 4 of Liveable Neighbourhoods. The structure plan will generally locate POS such that the 10% requirement is satisfied on each owner or group of owners land holdings. However, where the adopted structure plan requires landowners(s) to provide more than their required 10% POS within their subdivision then the over and above POS land area shall be a DCA cost item which is contributed to by those landowners not providing 10% of their land. The above liability for POS is to be based on the value of the POS being over provided which is determined in accordance with clause 5.3.9 of the

	Scheme and apportioned to under providing owners on the basis of the area of a landowner(s) shortfall in meeting the 10% requirement. The cost of landscaping public open space including wetland restoration. The costs of any traffic management device on Integrator or Neighbourhood Connector roads as defined by Element 2 of Liveable Neighbourhoods which are required as part of the development of the DCA area. This includes existing and proposed internal and abutting roads. Preliminary professional services prefunded by the City including drainage, engineering, environmental, servicing, traffic and planning which relate to the DCA area. Costs to implement and administer cost sharing arrangements of the DCA including design, cost estimates and schedules, valuations, annual reviews of land and works, audits, legal advice and administrative costs. The DCA costs shall not apply to Lot 6 Rockingham Road or Lots 16, 17 and 18 Mell Road unless they are the subject of further development in addition to that which already exists or is the subject of a current approval. Cost including fees and interest on any loans raised by the local government to purchase land or undertake any of the DCA12 works.
Method for calculating contributions	All landowners within DCA 12 shall make a proportional contribution to land, infrastructure, works and all associated costs required as part of the development and subdivision of the Packham North Development Contribution Area. The proportional contribution is to be determined in accordance with the provisions of Clause 5.3 and this Development Contribution Plan. Contributions shall be calculated on a per hectare basis. Lots 480-482 Mell Road and Lot 483 Rockingham Road will be required to make only a pro-rata contribution toward the District/Local Water Management Strategy (35.5% for the District level portion of the Strategy only) and Ocean Road/Hamilton Road Traffic Management Device (30%) and no contribution toward the Vegetation Survey and Rare and Priority Flora Search Ocean Road Wetland Study. The pro-rata contributions have been calculated based on locational factors and differences in demand and forecast usage of infrastructure.
Period of operation	Until 30 June 2027. However, the DCP may also be extended for further periods with or without modification by subsequent Scheme Amendments.
Priority and timing	In accordance with the City of Cockburn Capital Expenditure Plan.
Review process	The plan will be reviewed when considered appropriate, though not exceeding a period of five years duration, having regard to the rate of subsequent development in the development contribution area since the last review and the degree of development potential still existing. The estimated infrastructure costs contained in the Packham North Cost Contribution Schedule will be reviewed at least annually to reflect changes in funding and revenue sources and indexed based on the Building Cost Index or other appropriate index as approved by an appropriately qualified independent person.
Participants and contributions	In accordance with the Cost Contribution Schedule adopted by the local government for DCA 12.

Its spatial extent is identified on the Scheme Maps as DCA 12. Figure 1 shows that extent in addition to the location of the funded infrastructure.

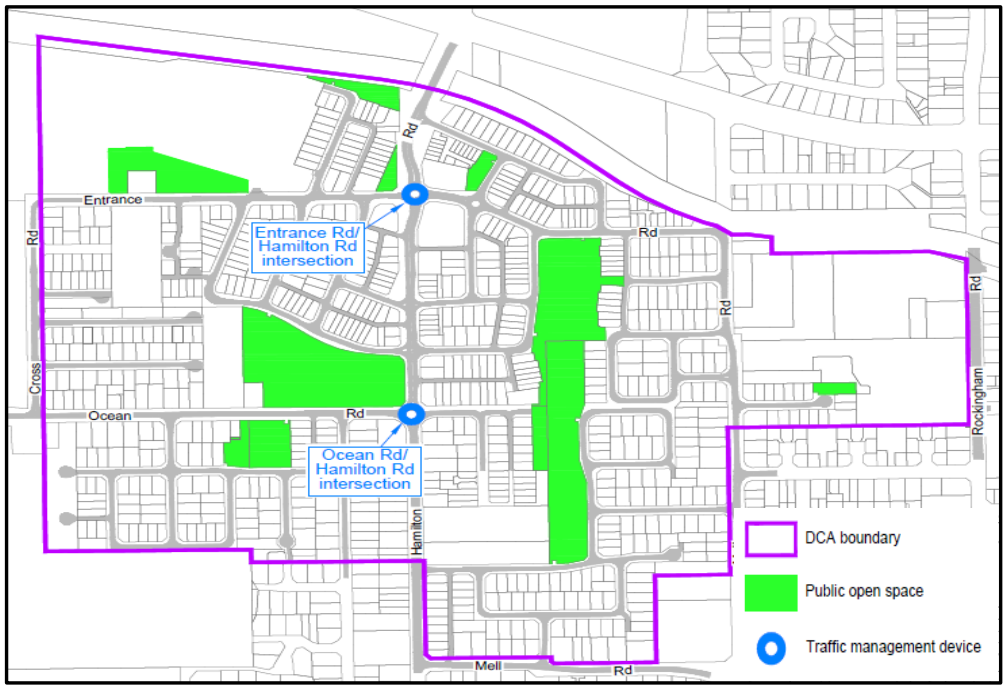

Figure 1: DCA12 Extent and Funded Infrastructure

Whilst small pockets of undeveloped land still exist within the DCA (refer Figure 2) the delivery of infrastructure is complete, with funds having been over-collected.

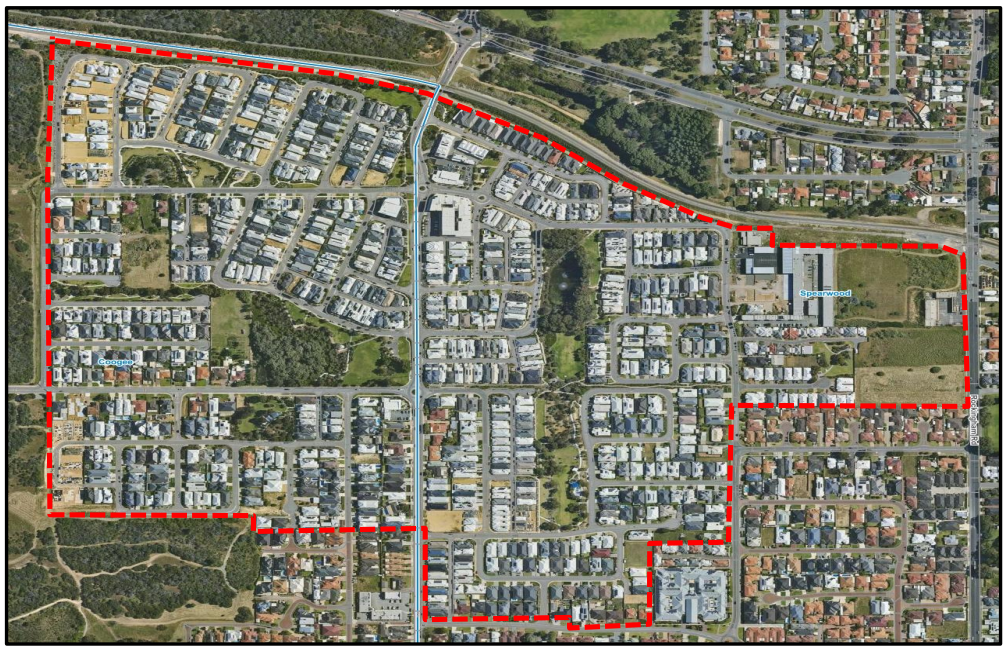

Figure 2: Aerial Photograph (2025)

Table 1 summarises the completed infrastructure items and their delivery dates:

DCP 12 Infrastructure Items	Actual cost	Completion Period
Hamilton Road Traffic Management Devices:		
Roundabout 1 – Entrance Road	$974,123	June 2014
Roundabout 2 – Ocean Road	$240,086	November 2014
Public Open Space (POS) and Drainage:		
(the over and above 10% portion, including wetland restoration and drainage only)	$4,664,337	2014/15 – 2024/25 FY

Table 1: Cost and Timing of Completed Infrastructure

The POS was constructed as a work-in-kind contribution by multiple developers whose land exceeded the standard 10% POS requirement under the Packham North District Structure Plan. Delivery occurred in stages between 2014 and 2025, in line with the sequencing of development for the relevant lots.

Clause 6.10.19 of SPP3.6 and subclause 5.3.17.2 of TPS3 establish the framework that the City must follow when refunding excess contributions to landowners.

In November 2024, the City notified contributing landowners in the DCA that it intends to return excess funds of $160,145.52. The notification outlined the amount, explained that funds would be allocated proportionally based on developed area for an equitable distribution, and provided the anticipated timing.

Following completion of refunding the surplus funds in April 2025 and an Independent Audit of the DCP in February 2026, $340 remains in the DCP account. This balance, recognised in the 2024/25 Statement of Income & Expenditure has been retained to cover the final DCP12 audit fee. This expenditure will be recorded in the 2025/26 statement, resulting in a nil balance for the DCP.

Consequently, DCA12 can now be decommissioned, including the removal of all references from the scheme text and maps.

6.0 CONCLUSION

The City has completed the necessary steps to close out the DCP for the now-ended DCA12. Ministerial approval is now required to remove this defunct DCA from TPS3.

Deleting DCA12 from TPS3 removes a redundant layer of planning control and simplifies the local planning framework. This outcome also aligns with the City's commitment to Governance Action 1.5 of the Local Planning Strategy, which aims to remove development contribution plans progressively from the Scheme as they are finalised.

Planning and Development Act 2005

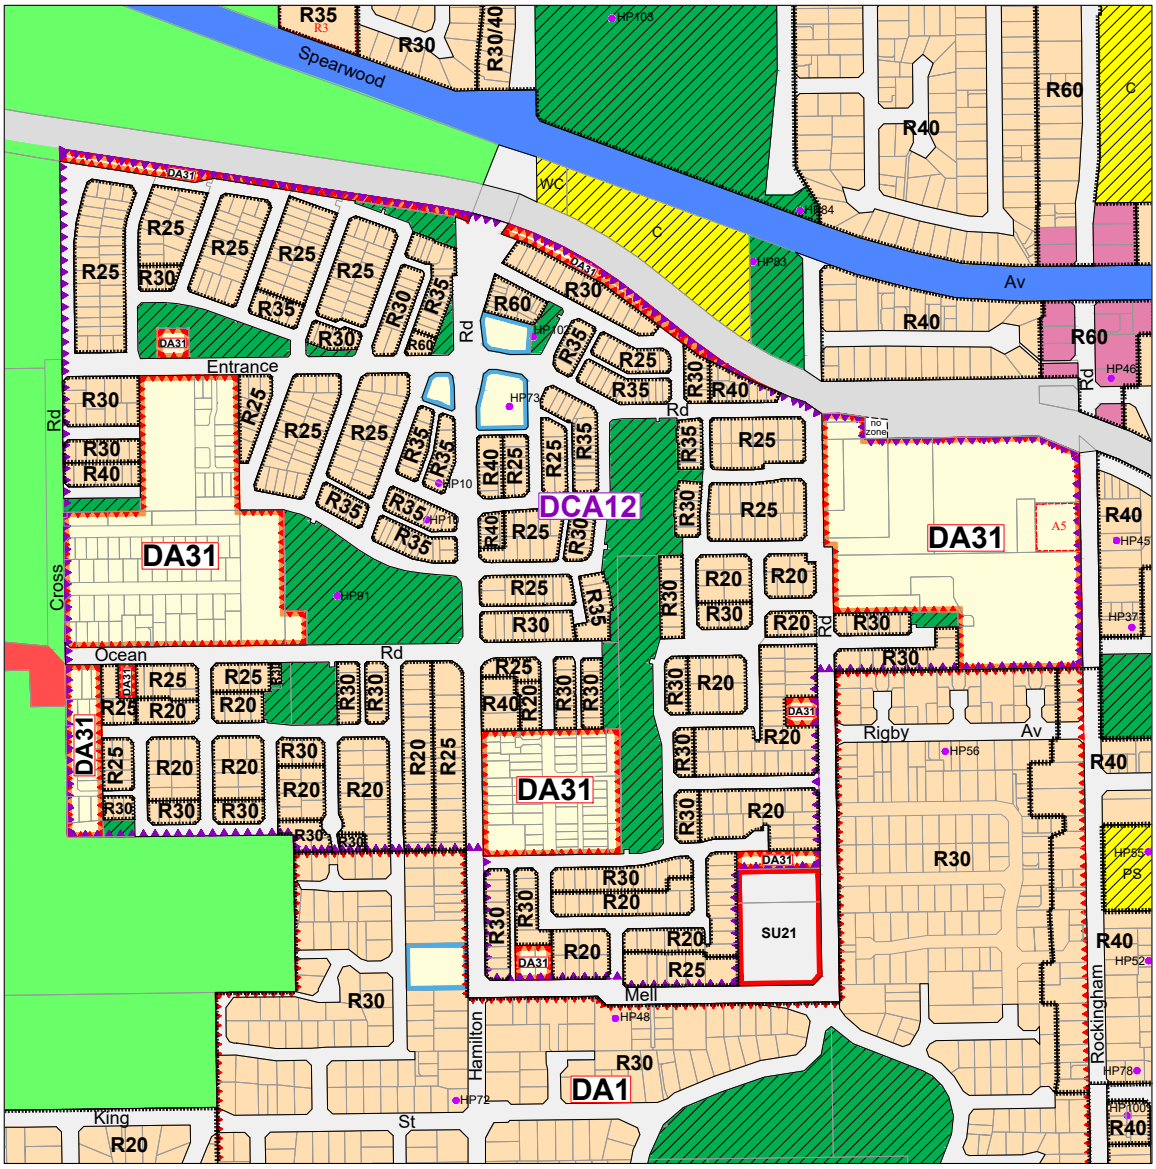

City of Cockburn
Town Planning Scheme No.3
Amendment No.188

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No. 3 by:

1. Deleting 'Development Contribution Area 12 (Packham North)' from 'Table 10 – Development Contribution Plans' of the Scheme Text.

2. Deleting 'Development Contribution Area 12' from the Scheme Maps.

The Amendment is 'complex' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it proposes to amend a development contribution area and delete a development contribution plan.

Schedule of Submissions

Amendment 188 to TPS No.3 – DCA12 closure

No.	Name/Address	Submission	Recommendation
1	James Trevor, Resident, Atwell 6164	**SUPPORT:** I understand why you have to do this, but I really wouldn't blame anyone for not caring about this matter at all. It seems like a fairly insignificant administrative change that won't effect the lives of those living in the area at all. Delete it, don't, I don't really care. My final stance: sure, why not.	While the City agrees, the proposal must be processed in accordance with the *Planning and Development (Local Planning Scheme) Regulations,* which classify amendments to a Development Contribution Area or Plan as a 'Complex' amendment requiring a minimum 60-day public advertising period.

14.1.2 (2026/MINUTE NO 0148) Parking Restrictions - Moorhen and Osprey Drives, Yangebup

Responsible Executive	Director Sustainable Development and Safety
Author	Service Leader Rangers
Attachments	1. Moorhen and Osprey Drives, Yangebup - Regulatory Signage Diagram

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council RESOLVES to regulate the stopping or parking of vehicles on Moorhen and Osprey Drives, Yangebup, as per the attached Regulatory Signage Diagram.

CARRIED 9/0

Background

Concerns were first raised by the Principal of Yangebup Primary School on the 25th March 2025.

The area of concern is Moorhen Drive between Swallow Drive and Sandpiper Loop, adjacent to Yangebup Primary School.

Reports and observations indicate that during school drop-off and pick-up periods, some motorists are driving across the footpath to access and park on the verge located between the shared path and the school boundary.

This behaviour creates a potential safety risk for pedestrians, particularly school children and parents using the footpath and shared path during peak school activity periods. Vehicles traversing the footpath to access the verge can create conflict points between motorists and pedestrians and reduces the overall safety of children, parents and other pedestrians.

As a result of concerns raised by the school, the City has investigated potential measures to discourage verge parking and improve safety.

Officers have determined that the regulation of the stopping and parking of vehicles on Moorhen Drive between Swallow Drive and Sandpiper Loop, Yangebup, as well as near the intersection of Osprey Drive and Moorhen Drive, Yangebup, is justified.

The regulation of stopping or parking in the City of Cockburn requires a Council determination under the City of Cockburn Parking Local Law 2026.

Submission

N/A

Report

Officers have inspected the location, liaised with the school principal and considered appropriate measures to address the reported safety concerns. The primary issue identified is motorists driving over the footpath to access and park on the verge adjacent to the school boundary. This practice creates a conflict between vehicle movements and pedestrians and is considered undesirable in an area with high volumes of school-aged children.

To address these concerns, it is proposed that Council prohibits the stopping and parking of vehicles along Moorhen Drive between Swallow Drive and Sandpiper Loop, as well as near the intersection of Moorhen Drive and Osprey Drive (refer Attachment 1).

The proposed restriction would prohibit vehicles from stopping or parking on the carriageway. The restriction would remove the ability for motorists to use the verge for parking purposes.

Officers consider that a permanent "No Stopping on Road or Verge" restriction represents the most effective measure to improve pedestrian safety, provide a clear and enforceable parking control, and support the safe operation of the footpath and shared path network adjacent to Yangebup Primary School.

Accordingly, it is recommended that Council prohibit the stopping and parking of vehicles on Moorhen Drive between Swallow Drive and Sandpiper Loop, and on Osprey Drive, near the intersection of Moorhen Drive (refer Attachment 1).

Strategic Plans/Policy Implications

Our Community
A diverse, active, and connected community that feels safe and has access to local services.
• Strengthen and facilitate a safe and secure Cockburn.

Budget/Financial Implications

The estimated cost of creating and installing the signs is $700, this can be covered within the existing budget “OP 6285 – Ranger & Parking Signage Replacements/Upgrades”.

Legal Implications

Per clause 1.10 of the City of Cockburn Parking Local Law 2026, a Council resolution is required to regulate the stopping or parking of vehicles in any part of the parking region.

Community Consultation

Consultation has occurred with the school principal. No further consultation is recommended as this report is addressing a substantiated safety issue.

Risk Management Implications

Failure to implement the proposed parking restrictions will result in the continued risk of vehicles traversing the footpath and parking on the verge adjacent to Yangebup Primary School, increasing the potential for conflict between vehicles and pedestrians, particularly school children. The residual risk following implementation is considered low and relates primarily to ongoing compliance and enforcement requirements.

Proposed Parking Restrictions – Yangebup Primary School

14.2 Corporate and System Services

14.2.1 (2026/MINUTE NO 0149) RFT21/2026 - Plumbing Services (City-wide)

Responsible Executive	Director Infrastructure Services
Author(s)	Service Lead City Facilities and Service Specialist Tenders and Contracts
Attachments	1. RFT21/2026 - Plumbing Services (City-Wide) - Evaluation Scores **(Confidential)** 2. RFT21/2026 - Plumbing Services (City-Wide) - Schedule of Rates **(Confidential)**

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) ACCEPTS the tender submission for RFT21/2026 – Plumbing Services (City-wide) from The Trustee for the Swift Flow Unit Trust t/a Swift Flow Pty Ltd as the most advantageous tender, for an estimated contract sum for the initial term of $2,234,775 ex GST;

(2) NOTES the contract is based on the Schedule of Rates as detailed in Confidential Attachment 2 and is for an initial contract term of three (3) years from the date of contract execution;

(3) NOTES that the Schedule of Rates may be adjusted in accordance with the applicable CPI adjustment provisions of the Contract and is subject to approved annual operational and project budgets; and

(4) ACKNOWLEDGES that the Contract includes discretionary extension options, exercisable under Delegated Authority, of:
- one (1) additional year, and
- up to a further twelve (12) months,

providing for a maximum total Contract term of five (5) years.

CARRIED 9/0

Background

The City of Cockburn is seeking a licensed and suitably experienced Contractor to provide plumbing and gas services across its public buildings, properties and facilities at locations throughout the City of Cockburn.

The intent of this Contract is to ensure the City's plumbing, water supply, sanitary, drainage and gas infrastructure is maintained in a safe, compliant and reliable condition through timely repairs, scheduled maintenance and responsive emergency services.

The Contract is intended to minimise disruption to building occupants, facility users and the public, support effective asset management, maintain accurate asset information, and deliver value for money through clear communication, quality workmanship and high standards of customer service.

The proposed Contract shall be in force for an initial period of three (3) years from the date of contract execution, with a Principal instigated option to extend the contract for a one (1) year period and up to a further twelve (12) months; to a maximum of five (5) years. The Contract is expected to commence in November 2026.

RFT21/2026 Plumbing Services (City-wide) was advertised on Wednesday 12 August 2026, in the Local Government Tenders section of “The West Australian” newspaper. It was also displayed on the City’s website and eProcurement platform, between Wednesday 12 August 2026 and 2:00pm (AWST) Tuesday, 8 September 2026.

A Mandatory Tender Briefing was held on Wednesday 19 August 2026 at 10:30am (AWST) at Success Regional Sport & Community Facility. All attendees were required to sign a register of attendance. Failing to attend this briefing, rendered tenderers ineligible to submit a tender

Submission

Tenders closed at 2:00pm (AWST) Tuesday, 8 September 2026, with seven (7) tender submissions received from:

Tenderers Name	Registered Business Entity Name
AWB Co	AWB Co.
Axis Maintenance Services	Axis Maintenance Services Pty Ltd t/a Axis Maintenance Services
DBS Drainage and Plumbing	Dalwood Family Trust t/a DBS Drainage and Plumbing
Link Plumbing and Gas Service	Gielink Pty Ltd t/a Link Plumbing and Gas Service
Maxey Plumbing	Maxey Plumbing Pty Ltd
Rowson’s Plumbing	Rowson’s Plumbing Services Pty Ltd
Swift Flow	The Trustee for The Swift Flow Unit Trust t/a Swift Flow Pty Ltd

Report

Compliance Criteria

The following criteria were used to determine whether the submissions received were compliant:

Compliance Criteria	
(a)	Compliance with the Request Document.
(b)	Compliance with the Conditions of Responding and Tendering.
(c)	Compliance with the General Conditions of Contract.
(d)	Compliance with and completion of the Price Schedule in the format provided.
(e)	Completion of Qualitative Criteria.
(f)	Compliance with ACCC Requirements and completion of Certificate of Warranty.

Compliance Tenderers

All seven (7) tenders were deemed compliant.

Evaluation Criteria

Evaluation Criteria	Weighting Percentage

Rowson's Plumbing	36.04%	14.35%	50.39%

** Recommended Submission

Evaluation Criteria Assessment

Demonstrated Experience

All tenderers provided sufficient information about their organisation, size, structure and history to demonstrate their capacity to meet the contract requirements. AWB Co, Maxey Plumbing and Swift Flow achieved the highest scores for this criterion, supported by relevant experience, particularly in local government and public sector environments. Axis Maintenance Services, DBS Drainage and Plumbing, Link Plumbing and Rowson's Plumbing scored slightly lower, as their examples were either outside local government or limited in detail.

Swift Flow received a strong score for Demonstrated Experience. Their submission showed extensive experience in plumbing maintenance across local government, port and commercial settings, including as the City's incumbent contractor. The examples provided demonstrated practical value-added initiatives and a clear understanding of the City's operational requirements.

Methodology

All tenderers scored well against this criterion and demonstrated suitable systems or processes for job tracking. They also provided acceptable examples of service and/or defect reports, invoicing and asset registers. AWB Co and Axis Maintenance Services received the highest scores due to the sophistication of their SimPRO and

AroFlo management systems and the quality of their workflow examples.
DBS Drainage and Plumbing, Link Plumbing, Maxey Plumbing and Rowson's Plumbing scored slightly lower, as their submissions provided less detail.

Swift Flow demonstrated a sound methodology for delivering plumbing services, supported by documented work allocation and prioritisation processes and use of the FieldMagic management platform for job tracking, reporting and asset management.

The evaluation panel considered the methodology suitable for managing both reactive and scheduled maintenance across the City's diverse facilities portfolio. Swift Flow's submission presented a practical and proven approach, supported by its existing contract experience and demonstrated service delivery capability within the City.

Sustainability

All tenderers demonstrated different sustainability initiatives or practices that aligned with the City's sustainability values. Swift Flow was one of the highest-scoring tenderers under this criterion and demonstrated a mature approach to environmental management.

Their submission referenced ISO 14001:2015 certification and outlined initiatives including waste minimisation, recycling, sustainable procurement, emissions reduction and environmental management systems.

AWB Co and Axis Maintenance Services also scored highly, supported by accredited management systems and strong social procurement credentials. However, Swift Flow's combination of certification, practical recycling initiatives, carbon offset programs and environmental reporting resulted in the strongest overall sustainability outcome.

Local/ Regional

Swift Flow and DBS Drainage and Plumbing achieved the highest possible score under the Local and Regional criterion.

Swift Flow operates from Yangebup within the City of Cockburn and provided a detailed response demonstrating that approximately 76% of its workforce resides within Cockburn or the broader PSWMA region and operate under "Buy Local policy, that was evidenced with examples of local business sourcing.

While DBS Drainage and Plumbing also achieved the maximum score through its strong local presence and significant local workforce participation. Axis Maintenance also identified as being within the local boundaries, in comparison to the other tenderers who were from wider Perth metropolitan area.

Swift Flow provided strong overall evidence of direct economic benefit to the City through workforce locality, supplier preference arrangements and existing community connections.

Summation

The evaluation panel determined that the Trustee for the Swift Flow Unit Trust t/as Swift Flow Pty Ltd represents the most advantageous tender and provides the best overall value for money for the City.

The recommendation is based on:

- Well demonstrated experience in performing similar work for other local governments
- Delivered value-added services and innovative solutions on previous contracts
- Evidenced a clear, job allocation process that outlines the capacity to effectively resource and deliver the required services
- Demonstrate established systems and processes for service delivery reporting, defect management and asset record maintenance
- Reference checks confirmed strong performance history
- The best value for money.

Strategic Plans/Policy Implications

Our Economy
Attracting investment, supporting business and visitor growth and boosting local jobs through vibrant hubs.
• Facilitate economic growth and employment opportunities.

Our Environment
Valuing natural assets, building climate resilience and using resources sustainably
• Enhance climate resilience and champion environmental initiatives to mitigate impacts.

Budget/Financial Implications

Provision exists within the approved operational and project budgets for the delivery of plumbing maintenance services across the City's facilities portfolio.

The estimated annual value derived from the schedule-of-rates is approximately $132,935 ex GST per annum, for scheduled maintenance, with an additional $612,000 ex GST per annum for reactive maintenance. Resulting in an estimated contract value of $2,234,775 ex GST over the initial three-year term, for all buildings, property and facilities, including parks and reserves, the Marina and Cockburn ARC.

In addition to scheduled maintenance rates, the assessment considered labour charge-out rates, emergency response rates and call-out fees.

Historical expenditure indicates the City generates approximately 900 plumbing work orders annually, comprising a combination of reactive maintenance, emergency call-outs and programmed maintenance activities.

Based on this historical workload profile, Swift Flow's submitted hourly rates, call-out charges and scheduled maintenance pricing were assessed as providing the most cost-effective whole-of-life outcome when compared with alternative submissions.

Actual annual expenditure will vary depending on service demand, asset failures, emergency incidents, approved capital projects and operational maintenance

requirements. Expenditure under the contract will continue to be managed within approved budget allocations and procurement delegations throughout the contract term.

Legal Implications

Section 3.57 of the Local Government Act 1995 and Part 4 of the Local Government (Functions and General) Regulations 1996 refers.

Community Consultation

N/A

Risk Management Implications

The City relies on responsive, professionally managed plumbing services to maintain the safety, functionality and compliance of its buildings, sporting facilities, community facilities, aquatic centres and related infrastructure. If a suitably qualified contractor is not appointed, the City may face increased risks, including service disruptions, emergency plumbing failures, regulatory non-compliance, asset deterioration, unplanned expenditure and impacts to community services.

If Council does not support the recommendation, the City may experience delays in establishing replacement contractual arrangements before the current service agreement expir

Nes. This could increase operational, compliance and financial risks. Deferring or not accepting the recommended tender may also require the City to recommence procurement activities, creating additional administrative costs, resource impacts and uncertainty for future service delivery.

The contract includes performance management provisions, insurance requirements, reporting obligations and extension options. These mechanisms support ongoing monitoring and management of contractor performance throughout the contract term and help mitigate operational and financial risks to the City.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 October 2026 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

Nil.

14.2.2 (2026/MINUTE NO 0150) Delegation of Authority to the Chief Executive Officer to Accept and Award RFQ25/2026 - Infrastructure as a Service

Responsible Executive	Director Corporate and System Services
Author(s)	Service Specialist Tenders and Contracts and Service Lead Governance and Council Support
Attachments	N/A

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council DELEGATES authority to the Chief Executive Officer to negotiate, approve, award, and execute a contract arising from RFQ25/2026 – Infrastructure as a Service (IaaS), which will lapse on the execution of the contract.

CARRIED 9/0

Background

On 11 May 2023, Council delegated authority to the CEO to accept or reject tenders up to a value of $1,000,000 (excluding GST). This delegation was subsequently amended on 9 July 2024.

The City's Information Technology and Customer team developed RFQ25/2026 seeking a suitably qualified and experienced provider to deliver Infrastructure as a Service (IaaS). The proposed solution will transition the City from internally hosted servers to a cloud-based environment, enhancing data management capability and reducing future costs associated with replacing obsolete equipment. Market research identified three suppliers with the capability and capacity to provide the required services.

The quotation process was managed by the City's Procurement & Contracts team and released via the City's eQuotes portal to selected suppliers from the WALGA Preferred Supplier Panel for Information and Communication Technologies (PSP001) between 30 July 2026 and 13 August 2026.

The quotation process, including assessment against the conditions of the request, has been completed. The procurement has now progressed to a stage where negotiations are required before any contract may be considered for award.

Under Delegated Authority 1.2.19, Minor Variations in Goods or Services, and in accordance with regulation 20(1) and 20(3) of the Local Government (Functions and General) Regulations 1996, the City may negotiate minor variations to the service requirements and proposed contract terms before entering into a contact. This process will enable the City to determine whether an acceptable value-for-money can be achieved before any award is made.

As the estimated value of the resulting contract exceeds the CEOs current delegated authority, Council approval is sought to delegate authority to the CEO to negotiate, approve, award, and execute the contract arising from RFQ25/2026 – Infrastructure as a Service (IaaS), subject to the final negotiated contract value being within the City's approved budget.

Submission

N/A

Report

RFQ25/2026 has progressed to a stage where negotiations are required to refine the service requirements, pricing and contractual terms. Any contract award will remain conditional on successful negotiations and achievement of an acceptable value for money outcome.

The anticipated contract value is expected to exceed the Chief Executive Officer's current delegated authority limit of $1,000,000 (ex GST).

Without the proposed delegation, any contract award following successful negotiations would need to return to Council in November 2026. This would delay project commencement, reduce the available delivery timeframe and may result in additional costs from extending existing infrastructure, licensing, and support arrangements.

Accordingly, this report seeks a one-off delegation to the Chief Executive Officer to negotiate, approve, award and execute the contract for RFQ25/2026 Infrastructure as a Service (IaaS), subject to:

- successful completion of negotiations and an acceptable value-for-money outcome
- current year expenditure being within the adopted Annual Budget
- future expenditure being incorporated within the Corporate Business Plan and Long-Term Financial Plan.

A contract will only be awarded following the CEO's approval of the final procurement recommendation.

Strategic Plans/Policy Implications

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.
Strive for financial sustainability and operational excellence.

Budget/Financial Implications

There are no direct budget implications arising from the recommendation, as the proposed delegation does not commit the City to any expenditure.

Any contract award will be subject to successful negotiations, an acceptable value for money outcome, and confirmation the expenditure can be accommodated within the adopted Annual Budget.

Legal Implications

The Chief Executive Officer does not currently hold delegated authority to approve, award or enter into contracts exceeding $1,000,000 (Ex GST).

If the recommendations contained within this report are not adopted, any resulting contract award for RFQ25/2026 Infrastructure as a Service (IaaS) will need to be referred to a future Ordinary Council Meeting for consideration. Given the timing of the procurement process and proposed negotiations, this may delay award consideration until the November 2026 Ordinary Council Meeting or later.

Community Consultation

N/A

Risk Management Implications

Deferring the proposed delegation presents a moderate to high risk to the City.

A delay in contract award may impact key project milestones and require existing infrastructure, licensing, and support arrangements to be extended, resulting in additional operational costs.

It would also delay planned improvements to cybersecurity, disaster recovery, operational resilience and service continuity, while prolonging reliance on ageing infrastructure.

Advice to Proponent(s)/Submitters

N/A

Implications of Section 3.18(3) Local Government Act 1995

14.2.3 Adoption of Long Term Financial Plan FY28 to FY37

14.2.3 (2026/MINUTE NO 0151) Adoption of Long Term Financial Plan FY28 to FY37

Responsible Executive	Director Corporate and System Services
Author(s)	Chief Financial Officer
Attachments	1. Long-Term Financial Plan 2028 - 2037 ⇩

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council ADOPTS the proposed Long Term Financial Plan 2027/28 to 2036/37, as attached to the Agenda.

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 9/0

Background

In accordance with the Integrated Planning and Reporting Framework, the City is required to prepare and regularly review a Long-Term Financial Plan (LTFP) to support informed decision-making and long-term financial sustainability.

The LTFP is a key informing strategy of the Strategic Community Plan and Corporate Business Plan, providing a ten-year financial outlook that aligns the City's strategic priorities, service delivery objectives and infrastructure requirements with available resources.

The 2027/28 to 2036/37 LTFP incorporates forecasts of operating and capital expenditure, revenue, reserves, borrowings and key sustainability indicators. It has been developed with regard to the City's current financial position, strategic priorities, asset renewal needs, major capital projects, growth expectations.

It also considers external factors that may influence the City's financial performance and external factors such as economic conditions, inflation, labour market pressures and legislative change.

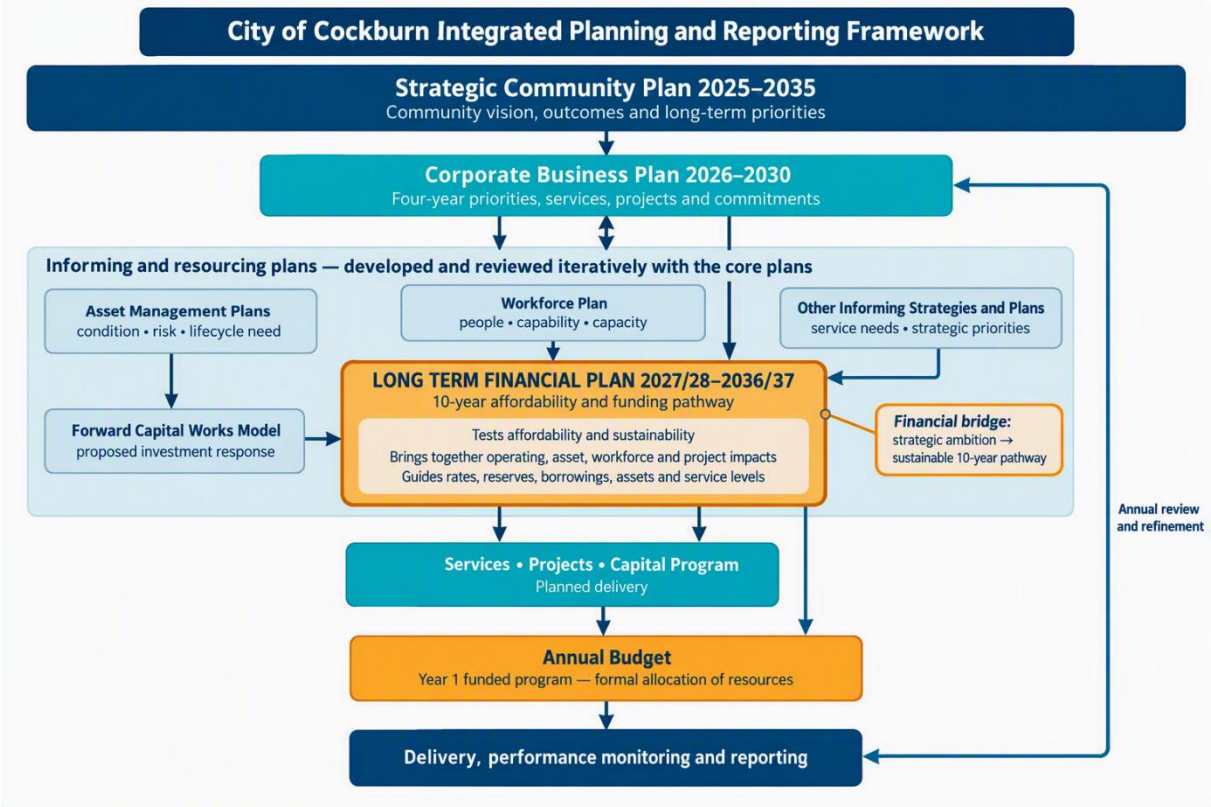

As a strategic planning document, the LTFP is reviewed annually to reflect updated assumptions, emerging risks and changing circumstances, ensuring alignment with the City's long-term objectives and service delivery commitments.

Submission

N/A

Report

The Long-Term Financial Plan (LTFP) 2027/28 to 2036/37 provides a ten-year financial roadmap that aligns the City's strategic priorities, service delivery objectives, asset management requirements and capital investment program with its long-term financial capacity.

The Plan has been developed in the context of continued economic uncertainty, rising costs and ongoing community growth. It adopts a prudent financial strategy that balances affordability for ratepayers with the need to maintain services, renew assets and invest in future infrastructure.

The preferred strategy includes annual rate increases of CPI plus 1%, together with growth in the rating base, to strengthen the City's operating position and support future asset renewal.

The LTFP provides for approximately $918 million over ten years, funded through municipal funds, reserves, grants, developer contributions and limited strategic borrowings. A further $254 million in gifted assets is forecast to be received through development activity, resulting in total forecast infrastructure investment and asset growth of approximately $1.17 billion

Financial modelling indicates the City will maintain a positive operating position throughout the planning period, with reserve balances remaining strong, borrowings within prudent limits, and key financial sustainability maintained at acceptable levels.

Overall, the LTFP demonstrates the City's capacity to sustainably fund services, maintain and renew infrastructure, and support future growth while preserving long-term financial sustainability.

Strategic Plans/Policy Implications

Listening & Leading
A community focused, sustainable, accountable and progressive organisation.
• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The Long-Term Financial Plan 2027/28 to 2036/37 establishes the financial assumptions, forecasts and funding strategies that will underpin the 2027/28 Annual Budget. It also provides the framework for future budget development and long-term financial decision-making.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The Long-Term Financial Plan is a key risk management tool that supports informed financial decision-making and long-term financial sustainability. Regular review of the Plan enables the City to respond to changing economic conditions, emerging risks and future funding requirements. Adoption of the Long-Term Financial Plan 2027/28 to 2036/37 supports prudent financial management and the sustainable delivery of services and infrastructure to the community

We acknowledge a continuing connection to Land, Waters and Culture and pay our respects to Elders, past and present.

Executive summary

The Long-Term Financial Plan 2027/28 to 2036/37 provides the City with a financially sustainable roadmap to deliver community services, maintain and renew infrastructure, and support future growth. As a key component of the City's Integrated Planning and Reporting Framework, the Plan aligns the City's strategic priorities with its long-term financial capacity.

The Plan has been developed in a period of ongoing economic uncertainty and increasing cost pressures. In response, the City has adopted a prudent financial strategy that balances affordability for ratepayers with the need to invest in essential infrastructure, maintain service levels, and plan for future asset renewal. Based on the assumptions adopted, the City is forecast to maintain a positive operating position, strengthen financial capacity over time, and preserve strong reserve balances to support future priorities.

Over the ten-year period, the Plan includes approximately $918 million in capital investment, funded through a mix of municipal funds, reserves, external contributions and limited strategic borrowings. This investment will support asset renewal, delivery of major community infrastructure, and provision of services to support a growing population. In addition, the City's asset base is expected to grow substantially through gifted assets associated with development activity, further expanding the infrastructure and services available to the community.

Although long-term financial planning is inherently uncertain, the Plan indicates that the City is well positioned to respond to future challenges, accommodate growth, and sustainably deliver infrastructure and services. Recognising that change is constant, the Plan is intended to be a living document that will evolve over its term. Regular reviews and updates will ensure it remains aligned with community expectations, Council priorities, and prevailing economic conditions.

Introduction

The City of Cockburn Long-Term Financial Plan (LTFP) 2027/28 to 2036/37 provides a ten-year financial roadmap to support the delivery of the City's Strategic Community Plan, Corporate Business Plan, and long-term community outcomes. As a key component of the Integrated Planning and Reporting Framework, the LTFP aligns the City's strategic objectives with a financially sustainable funding strategy.

The Plan has been informed by a comprehensive review of the previous LTFP, incorporating lessons learned, updated financial projections, Council priorities, and changing economic conditions. This process ensures the City maintains a realistic and evidence-based understanding of its long-term financial capacity, service obligations, infrastructure requirements, and strategic investment priorities.

The LTFP provides a strategic framework for responsible decision-making by forecasting operating performance, capital expenditure, cash flow, reserves and borrowings over a ten-year period. While it is not a fixed budget, it helps the City assess future opportunities and challenges, maintain financial sustainability, and support the equitable allocation of resources between current and future generations.

The City continues to apply the financial principles that have guided previous long-term planning and remain critical to achieving financial sustainability. These principles include:

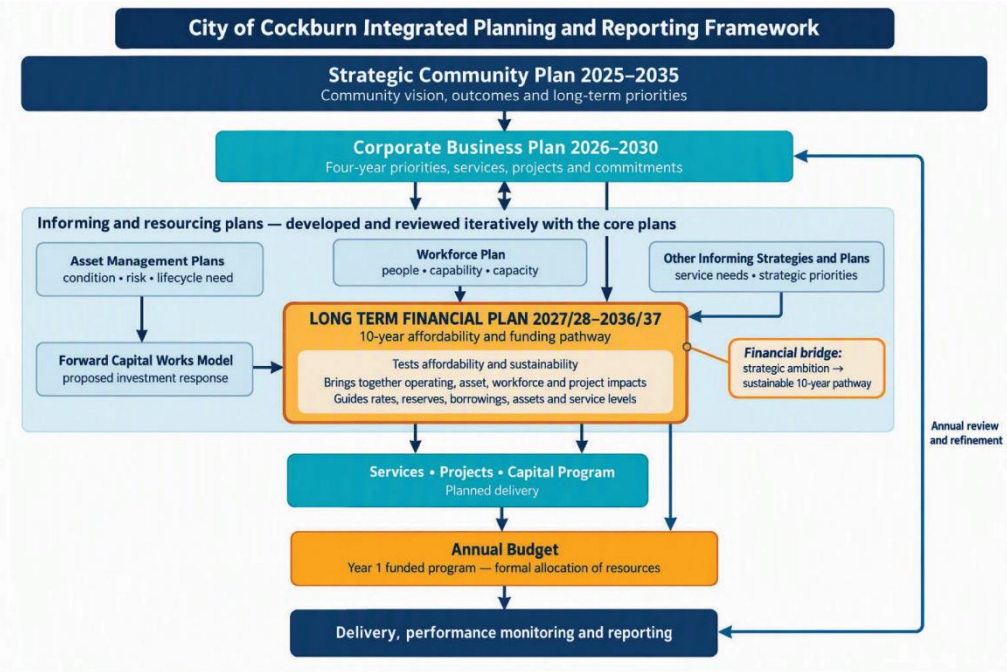

- Planning for balanced budgets, operating surpluses and strong cash reserves.
- Applying a disciplined and prudent approach to debt funding.
- Pursuing government grant funding for strategic capital projects.
- Setting rates at levels that support sustainable asset management, including the renewal, replacement, upgrade, and expansion of assets.
- Maintaining agreed service levels while providing capacity for new and expanded services to meet population growth and community expectations.
- Ensuring value for money across all programs and services.
- Optimising revenue from fees and charges through appropriate cost recovery and market-based pricing.
- Using financial reserves to support intergenerational equity, smooth future rate impacts and minimise reliance on debt.

Together, these principles underpin the assumptions, forecasts and financial strategies contained in this Plan and provide the foundation for the City's long-term financial sustainability. Recognising that change is constant, these principles will continue to guide the City's financial decision-making as the Plan is reviewed and refined over time in response to changing circumstances and priorities.

Integrated Planning and Reporting Framework

The City of Cockburn's Integrated Planning and Reporting Framework (IPRF) links the community's long-term aspirations with Council's strategic priorities and the resources required to deliver them.

At the centre of the framework is the Strategic Community Plan, which defines the City's long-term vision and desired outcomes. The Corporate Business Plan translates these outcomes into medium-term priorities, projects and services. Supporting plans, including the Long-Term Financial Plan, Asset Management Plans and Workforce Plan, ensure these priorities are aligned within the City's financial capacity, asset requirements and workforce capability.

The Long-Term Financial Plan is a key component of the framework, providing a ten-year outlook of the resources required to maintain services, renew and manage infrastructure, deliver strategic projects, and support future growth.

The LTFP brings together the financial implications of the City's asset, workforce and service planning to assess affordability, sustainability, and long-term financial capacity. As a strategic roadmap, it informs decision-making by identifying future funding requirements, risks, opportunities, and trade-offs. It is not a commitment to fund every initiative identified over the planning period.

The Annual Budget represents the first year of the LTFP, translating long-term planning into annual service delivery and resource allocation. Together, the City's strategic, financial, asset and workforce plans support the sustainable and financially responsible delivery of community priorities.

Long-Term Financial Planning Context

The Long-Term Financial Plan 2027/28–2036/37 (LTFP) provides a ten-year financial outlook that translates the priorities of the Strategic Community Plan into an affordable and sustainable program of services, assets and infrastructure. It guides the City's approach to rates, operating expenditure, capital investment, borrowings and reserves, while supporting future growth and changing community needs.

The LTFP is based on the best information available at the time of preparation. Recognising that economic conditions, service requirements, and priorities will continue to evolve, the Plan will be reviewed and updated through the annual budget process and future iterations of the LTFP.

1.1 Key Challenges and Considerations

1.1.1 Maintaining and Funding Assets

The City's long-term financial sustainability depends on balancing investment in new infrastructure with the renewal of existing assets. Over the life of the Plan, the City expects to receive approximately $254 million in gifted assets, while 52.3% of capital expenditure is allocated to new and upgraded assets. This associated operating, maintenance and renewal costs have been incorporated into the Long-Term Financial Plan.

The City seeks to cash-back depreciation through asset management reserves, helping to fund future asset replacement costs and support intergenerational equity.

Asset renewal expenditure is forecast to remain below depreciation over the Plan, with the Asset Sustainability Ratio ranging from 62.5% to 85.9%, reflecting the City's current growth phase and focus on expanding infrastructure.

As the asset base grows, maintaining an appropriate balance between new investment,

asset renewal and future replacement funding remains critical. The preferred financial strategy, including annual rate increases of CPI plus 1% and growth in the rating base, provides capacity to fund these increasing lifecycle costs and support long-term financial sustainability.

1.1.2 Financial Sustainability and Ratepayer Affordability

A key objective of the LTFP is to strengthen the City's operating position while balancing affordability for ratepayers with the funding required to maintain services, support growth and manage an expanding asset base.

The preferred financial strategy applies annual rate increases of CPI plus 1% together with growth in the rating base, providing a sustainable revenue source to meet increasing operating and lifecycle costs while maintaining adequate reserves for future asset renewal and replacement.

Under this approach, the City is forecast to return to an operating surplus of $1.56 million in 2027/28, increasing to $30.14 million by 2036/37. These improving operating outcomes strengthen the City's capacity to fund future operating, capital and asset lifecycle requirements while supporting long-term financial sustainability.

1.1.3 External Cost Pressures

The LTFP has been prepared in an environment of continuing economic and geopolitical uncertainty. Inflation, labour costs, utilities, construction costs, fuel-price volatility, interest rates, supply-chain pressures, and global conflicts may affect future financial outcomes.

Prudent escalation assumptions have been applied using the most current information available. These assumptions will continue to be monitored and adjusted where economic conditions change.

1.1.4 Community Growth, Services and Workforce

The City's population is estimated to reach approximately 142,559 residents in 2027. Over the forecast period, the population is expected to increase by around 21,630 residents, or 15.2%, while the number of dwellings is projected to increase by approximately 11,139, or 20.8%, from an estimated 53,624 dwellings.

This continued population and housing growth will increase demand for City services, community facilities and infrastructure. While growth will expand the City's revenue base, it will also create additional workforce, operating, maintenance and asset renewal requirements.

The LTFP provides for measured organisational growth to meet changing community needs while recognising opportunities to improve productivity and service delivery through

technology, automation and artificial intelligence. The City will continue to evaluate and adopt technology-enabled solutions where they support workforce effectiveness, service outcomes, and the sustainable delivery of services to a growing community.

2.1 Operating Performance

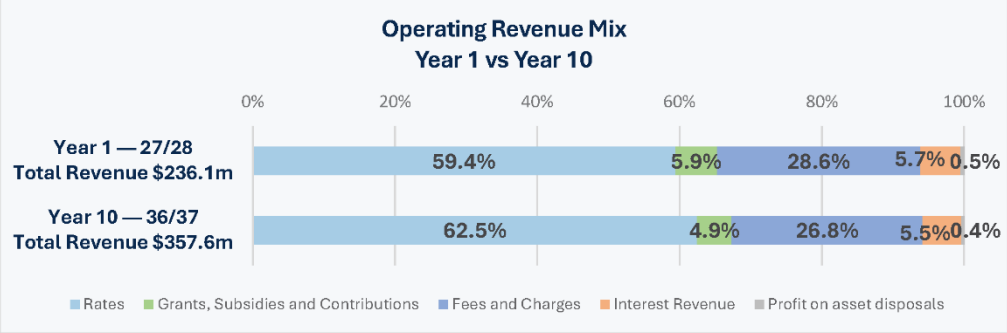

Operating performance measures the City's ability to generate sufficient revenue to fund ongoing service delivery and asset maintenance. A sustainable operating position enables the City to meet these costs while maintaining reserves and supporting future asset renewal and capital investment.

2.1.1 Operating Revenue

Operating revenue forecasts have been developed using detailed modelling and planning assumptions aligned with the Long-Term Financial Plan. Major revenue sources, including rates, fees and charges, interest earnings, grants and contributions, have been projected based on expected growth, indexation, and service demand. To improve transparency, the Waste Service Charge has been separately reported within Fees and Charges rather than Rates.

Total operating revenue is forecast to increase from $236.1 million in 2027/28 to $357.6 million in 2036/37, driven by population growth, an expanding rate base, inflation, and increased service demand.

The data used in the following graphs is drawn from the detailed Statement of Financial Performance in **Annexure 1.**

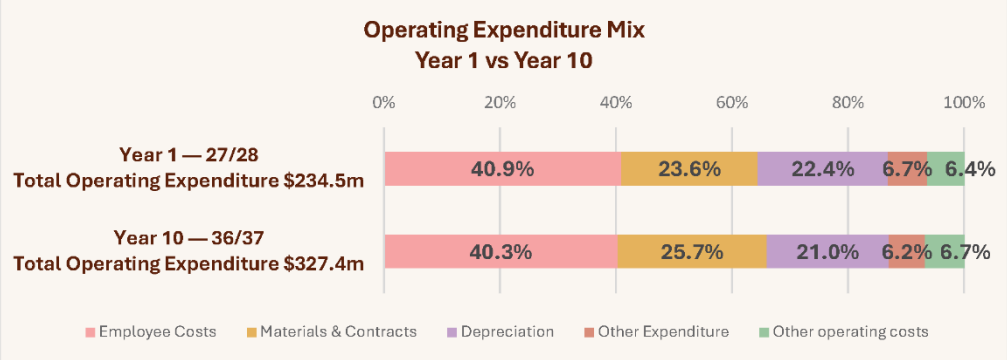

2.1.2 Operating Expenditure

Operating expenditure forecasts are based on detailed modelling and the assumptions outlined in the LTFP. Expenditure growth reflects expected increasing employee costs, contracted services, utilities, insurance, amortisation and depreciation associated with a growing asset base and service demands.

Operating expenditure is forecast to increase from $234.5 million in 2027/28 to $327.4 million in 2036/37, supporting ongoing service delivery, infrastructure maintenance, and community growth in a financially sustainable manner.

The data presented in this section is derived from the detailed financial projections in **Annexure 1**.

3.1 Financial Planning Basis

The Long-Term Financial Plan has been developed on a financially sustainable basis that balances service delivery, community growth, and asset renewal. It incorporates prudent financial management, realistic growth assumptions, and disciplined infrastructure investment.

The Plan is designed to progressively strengthen the City's financial position, increasing its capacity to fund asset renewal, maintain reserves and respond to future challenges and opportunities. The key financial assumptions underpinning the LTFP are outlined below.

3.1.1 Key Financial Assumptions

Area	Assumption Applied	What this means for long-term financial planning
CPI	**3.3% in 2027/28; 3.0% in 2028/29; 2.5% p.a. thereafter**	Reflects current cost pressures in the early years before transitioning toward longer-term inflation expectations.
Rates Strategy	**CPI + 1.0% p.a.** from 2027/28 to 2036/37	Supports gradual improvement in the operating position and increases capacity to fund future asset renewal while maintaining a predictable rates pathway.
Waste Services Charges	**CPI**	Separating the Waste Service Charge from the Rates and applying CPI improves the transparency of waste modelling by clearly matching waste costs to charge revenue.
Organic Rates Growth	**1.5% p.a.**	Reflects additional revenue from new development, subdivisions, property improvements and growth in the rating base.
Fees and Charges	**Generally, CPI**	Fees and charges increase in line with inflation unless specific modelling, demand forecasts or approved business cases support an alternative increase.

Area	Assumption Applied	What this means for long-term financial planning
Operating Grants	**CPI**	Existing operating grant streams are assumed to continue and generally increase in line with inflation, subject to future government funding decisions.
Materials and Contracts	**CPI less 2.5% in 2027/28; generally, CPI thereafter**	Reflects an initial expenditure efficiency, with subsequent expenditure generally indexed by CPI unless specific modelling supports an alternative forecast.
Employee Costs	**CPI plus organisational growth provision**	Salary and wage increases are assumed to broadly align with CPI, with controlled growth to respond to service demand and organisational requirements.
Workforce Growth	**0.75% p.a.**	Provides additional organisational capacity to respond to community growth, increased service demand and operational requirements.
Technology and Productivity	**0.25% p.a.**	Provides capacity for automation, artificial intelligence and other technology-enabled initiatives intended to improve productivity and service efficiency.
Utilities	**3.3% p.a. in 2027/28 and 2028/29; 4.0% p.a. thereafter**	Provides a prudent allowance for utility cost escalation above general inflation over the longer term.
Street Lighting	**5.9% p.a.**	Reflects the higher anticipated escalation in electricity-related street-lighting costs.
Interest Earnings	**Follows CPI/Interest rate movement plus margin**	Follows CPI and includes a 1% Margin
Insurance	**6.00% p.a.**	Recognises that insurance costs are expected to increase above general inflation and provides a consistent allowance for this cost pressure over the planning period.
Other Expenses	**3.30% in 2027/28; 3.00% in 2028/29; 2.75% in 2029/30; 2.50% p.a. thereafter**	Other operating expenses are generally escalated in line with CPI unless specific modelling or known expenditure requirements support a different forecast.
Fuel	**8% reduction from the 2026/27 Adopted Budget provision**	Assumes fuel prices moderate from the elevated allowance incorporated in the 2026/27 budget, with the adjusted cost base carried forward.
Capital Expenditure	**Escalated using adopted inflation assumptions**	Future capital expenditure is indexed where asset plans, capital programs or replacement programs are expressed in current-dollar values.
Depreciation	**Generally CPI for existing assets, plus additional depreciation for new and upgraded assets**	Reflects renewal of the existing asset base and additional depreciation as new and upgraded assets are brought into service.
Amortisation	**Based on Henderson Waste Recovery Park Landfill Rehabilitation modelling**	Based on Henderson Waste Recovery Park modelling and available landfill airspace.

For the first two years of the LTFP, CPI assumptions are based on the Local Government Cost Index (LGCI) forecasts published in WALGA's June Economic Forecast, providing a sector-specific basis for expected movements in the cost of delivering local government services. Beyond this period, inflation is assumed to moderate and return to within the Reserve Bank of Australia's target range, providing a prudent long-term basis for escalating relevant operating revenues and expenditure across the remaining years.

4.1 Asset management planning

The City of Cockburn manages infrastructure assets valued at more than $2.2 billion. These assets support residents, businesses and the broader Cockburn community.

To ensure sustainable management of its infrastructure, property, and plant assets, the City has developed a Strategic Asset Management Planning Framework (SAMPF), which is being used to guide collection and interpretation of detailed asset data at operational and strategic levels.

Under the SAMPF, the City has developed ten Asset Management Plans (AMPs):
1. Road Asset Management Plan 2024-2028
2. Footpath Asset Management Plan 2024-2028
3. Drainage Asset Management Plan 2024-2028
4. Parks & Environment Asset Management Plan 2024-2028
5. Buildings Asset Management Plan 2024-2028
6. Cockburn ARC Asset Management Plan 2024-2028
7. Fleet & Plant Asset Management Plan 2024-2028
8. Marina Asset Management Plan 2024-2028
9. Coastal Infrastructure Asset Management Plan 2024-2028
10. Bridges Asset Management Plan 2024-2028

The City's Asset Management Plans (AMPs) cover the four-year period from 2024/25 to 2027/28 and have recently been updated to incorporate the latest asset condition data and lifecycle assessments. Comprehensive condition surveys have been completed for key asset classes, providing enhanced information to support the updated Buildings, Roads and Active Reserves and Community (ARC) Asset Management Plans.

The Long-Term Financial Plan has been developed using the renewal and replacement forecasts contained within these Asset Management Plans. The capital works program incorporates these forecasts through program-based allocations, ensuring that future asset renewal investment is informed by the City's identified asset condition, lifecycle requirements and long-term service delivery objectives.

This approach strengthens the alignment between asset management planning and long-term financial planning, supporting informed decision-making regarding future funding requirements, infrastructure renewal priorities and the long-term sustainability of the City's asset portfolio.

5.1 CAPITAL PROGRAM

5.1.1 Capital Program

The City is investing approximately $918 million in capital infrastructure over the life of the Plan to renew existing assets, deliver strategic projects and support future growth. The program is informed by Council-endorsed strategic plans, asset management plans and the Forward Capital Works Program. In addition, the City expects to receive approximately $254 million in gifted assets from developer-funded infrastructure and subdivision activity,

bringing the total forecast infrastructure investment and asset growth to approximately $1.17 billion over the planning period.

5.1.2 Major Capital Projects

The projects listed below represent some of the City's most significant planned capital investments over the life of the Long-Term Financial Plan. Delivery will be subject to ongoing planning, funding availability and Council approval.

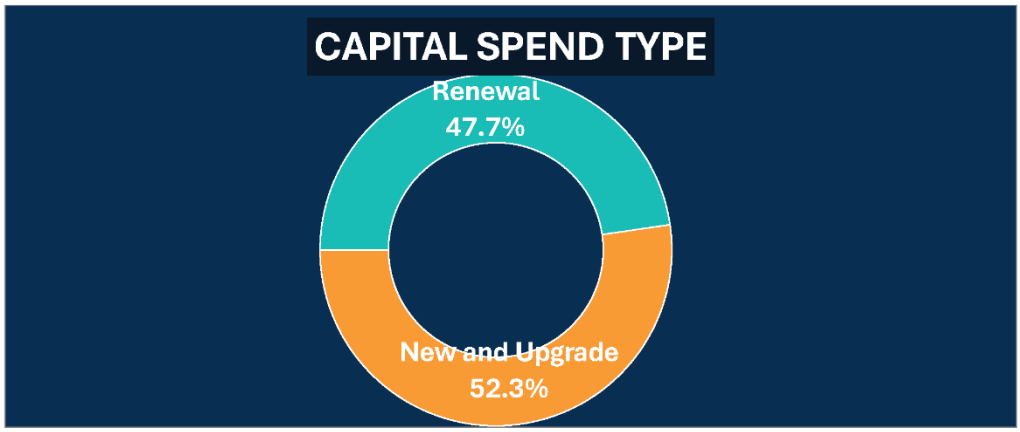

Major Project	Estimated Cost ($M)
Wally Hagan Recreation Centre	60.00
Civic Administration Facility	59.60
Beeliar Drive Extension Phase 1 (Stock Road to Hamilton Road, including bridge)	26.11
Beeliar Drive Extension Phase 2 (Hamilton Road to Cockburn Road)	26.11
Coolbellup Community Facilities Upgrade (Len Packham Clubrooms and Coolbellup Community Hub)	25.25
Jandakot Road Upgrade (Skotsch Road to Warton Road)	18.35
Success Regional Sport Reserve upgrade building	14.92
Port Coogee Community Space	11.66
Hamilton Hill Community Centre	9.40
Total of Major Projects Listed	**251.4**

These projects represent some of the City's most significant planned investments and are expected to deliver community, economic, and operational benefits. Collectively, they will enhance recreational opportunities, strengthen community infrastructure, improve transport connectivity and support efficient service delivery across the municipality. While these projects account for approximately $251.4 million of the capital program, the broader $918 million capital works portfolio also includes significant investment in roads, drainage, parks, buildings, sporting facilities, fleet, information technology, waste infrastructure and asset renewal programs. These investments are essential to maintaining service levels and supporting sustainable long-term growth.

5.1.3 Spend Type

The capital program is categorised into Renewal and New and Upgrade investments. Renewal expenditure covers the replacement and refurbishment of existing assets, while New and Upgrade expenditure relates to new assets and enhancements to existing infrastructure. Where projects include both renewal and upgrade elements, costs have

been allocated between the relevant categories. The graph below includes City-funded capital works only and excludes gifted assets..

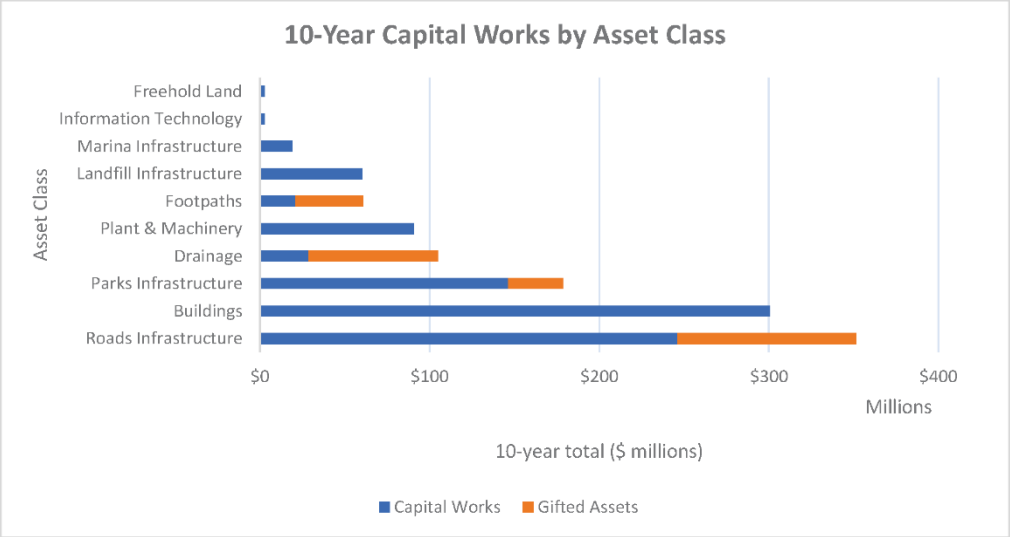

5.1.4 Spend by Asset Class

The graph and table below provide an overview of the City's planned capital investment over the next 10 years, together with forecast gifted assets. The investment is presented by asset class and demonstrates the scale and distribution of funding across the City's programs.

Total Capital Works — 10-Year LTFP

10-year capital works by asset class, with gifted assets shown as a separate component.

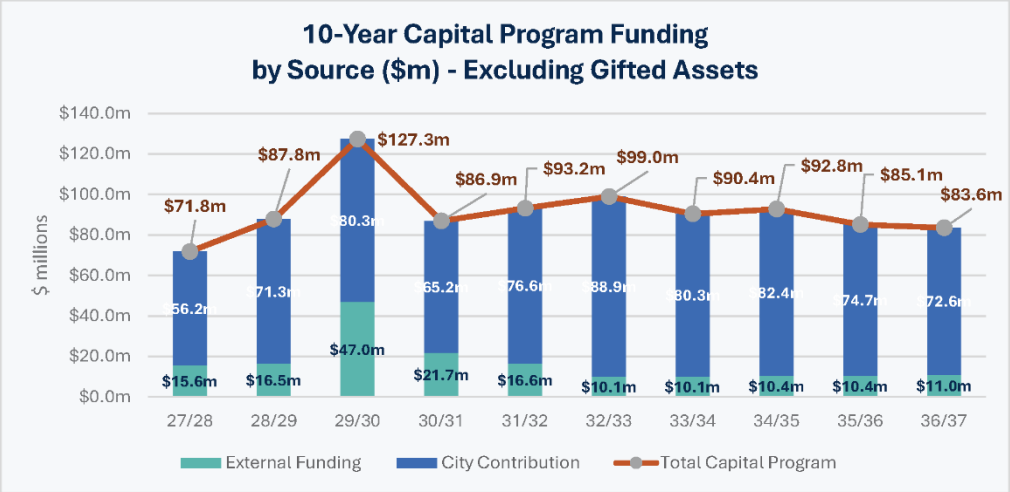

Asset Class	Capital Works	Gifted Assets	Total Capital
Roads Infrastructure	$246,160,445	$105,251,470	$351,411,915
Buildings	$300,603,312	-	$300,603,312
Parks Infrastructure	$146,277,678	$32,460,526	$178,738,204
Drainage	$28,482,877	$76,563,875	$105,046,752
Plant & Machinery	$90,610,621	-	$90,610,621
Footpaths	$20,670,432	$39,986,252	$60,656,684
Landfill Infrastructure	$60,219,303	-	$60,219,303
Marina Infrastructure	$19,064,701	-	$19,064,701
Information Technology	$2,911,937	-	$2,911,937
Freehold Land	$2,844,089	-	$2,844,089
Total	$917,845,396	$254,262,122	$1,172,107,518

5.1.5 Capital Program – Funding

The Long-Term Financial Plan includes a $918 million capital program over the ten-year planning period, supporting asset renewal, upgrades, growth infrastructure and strategic projects across the City. The program is funded through a mix of municipal funds, reserves, borrowings, grants and developer contributions, providing a balanced funding approach that supports the delivery of infrastructure while maintaining sustainability.

The graph below summarises the annual funding profile of the capital program, highlighting the mix of internal and external funding sources over the life of the Plan. Further details of the capital program and funding sources are provided in Annexure 2 – Capital Program.

6.1 Reserves

Reserves play a critical role in maintaining the City's long-term financial sustainability by funding the portion of the Capital Works Program not covered by grants, contributions or other external sources, while also supporting the renewal and replacement of community assets as they reach the end of their useful lives. To meet these funding needs, the City manages 22 reserves, of which 14 are restricted by Council and 8 are restricted by legislation or agreement. The Council Restricted Reserves are allocated to specific purposes determined by Council, including asset management, infrastructure renewal and long-term financial sustainability.

A significant proportion of the City's reserves are held within Council Restricted Reserves, which are predominantly established to support future asset renewal and replacement in accordance with the City's Asset Management Plans (AMPs). Maintaining adequate reserve balances is essential to ensure that future renewal requirements can be funded without placing undue pressure on rates, borrowings or service levels.

As the City continues to invest in new and upgraded infrastructure, careful consideration must be given to the impact these projects have on reserves. While investment in growth and improved community facilities remains important, excessive drawdowns from renewal-focused reserves may reduce the City's capacity to fund future asset renewal obligations when they fall due. The Long-Term Financial Plan therefore seeks to balance investment in new infrastructure with the ongoing renewal needs of the City's existing asset base.

The following table and accompanying graphs illustrate the projected movements in both reserve categories over the life of the Long-Term Financial Plan. Overall reserve balances are forecast to increase by approximately $11.7 million over the Plan, although balances decline during the middle years as reserves are used to fund the capital program.

Reserve Balance Outlook — 10-Year LTFP

Asset Management Reserves and Other Reserves are shown separately across the 10-year LTFP.

Financial Year	Council Restricted ($m)	Legislation or Agreement Restricted ($m)	Total Reserves ($m)	10-Year Change ($m)	Lowest Balance ($m)
27/28	$233.4m	$39.5m	$272.9m	$11.7m	$224.2m
28/29	$228.3m	$40.4m	$268.7m		
29/30	$216.9m	$26.5m	$243.4m		
30/31	$220.6m	$23.4m	$244.0m		
31/32	$215.9m	$18.1m	$234.0m		
32/33	$204.7m	$19.5m	$224.2m		
33/34	$206.2m	$20.9m	$227.1m		
34/35	$211.8m	$22.3m	$234.1m		
35/36	$230.5m	$23.8m	$254.2m		
36/37	$259.4m	$25.2m	$284.7m		

7.1 Borrowings

Two new borrowings through the Western Australian Treasury Corporation (WATC) are forecast over the life of the Plan. A $5.45 million loan is proposed in 2029/30 to support the Port Coogee Marina Expansion, followed by a $5.0 million loan in 2030/31 for the Wally Hagan Centre Redevelopment. Both loans are assumed to have a term of 10 years with an indicative interest rate of 5.88%, plus the applicable WATC guarantee fee of 0.58%, resulting in an effective borrowing cost of 6.46%.

Planned borrowings are focused on major income-generating assets expected to deliver long-term revenue benefits to the City. Revenue from the Port Coogee Marina Expansion and Wally Hagan Centre Redevelopment is expected to contribute to operating costs and debt servicing, enabling the delivery of strategic infrastructure while minimising impacts on ratepayers and preserving reserves for future priorities.

8.1 Measures of Financial Sustainability

A key objective of the LTFP is to maintain the City's long-term financial sustainability while continuing to provide the infrastructure, facilities and services required by the community. This includes ensuring the City's can fund future asset renewal, replace ageing infrastructure at the appropriate time, and meet evolving community needs.

Monitoring key financial sustainability measures helps assess the City's financial capacity and supports informed decision-making to maintain long-term service delivery and asset stewardship.

To assess its long-term financial position, the City has adopted three key financial sustainability indicators:

- Asset Sustainability Ratio – measures the extent to which asset renewal

expenditure is meeting the required level of asset consumption.

- Operating Surplus Ratio – measures the City's ability to generate sufficient operating revenue to fund ongoing operations.
- Own Source Revenue Coverage Ratio – measures the City's capacity to fund operations from its own recurring revenue sources.

Local Government Financial Ratios — 10-Year LTFP

Ratio	27/28	28/29	29/30	30/31	31/32	32/33	33/34	34/35	35/36	36/37	WA Benchmark
Asset Sustainability Ratio	81.8%	73.1%	68.4%	62.5%	64.3%	66.7%	66.6%	85.9%	79.0%	70.5%	90%–110%
Operating Surplus Ratio	0.7%	1.1%	1.4%	2.7%	3.3%	4.4%	5.1%	6.5%	7.4%	8.9%	1%–15%
Own Source Revenue Coverage Ratio	94.1%	94.2%	94.4%	94.5%	94.6%	94.7%	94.9%	94.9%	95.0%	95.1%	>90%

These indicators provide an important measure of the City's financial health and long-term viability.

8.1.1 Asset Sustainability Ratio

The Asset Sustainability Ratio remains below the WA benchmark range of 90% to 110% across the planning period, ranging from 62.5% to 85.9%. This reflects the significant capital investment and competing funding priorities within the City's long-term capital program. While renewal expenditure continues throughout the 10-year period, the ratio indicates that asset renewal funding is below the ideal long-term level and will require ongoing monitoring to ensure the City's asset base remains sustainable.

8.1.2 Operating Surplus Ratio

The Operating Surplus Ratio remains positive throughout, increasing from 0.7% in 2027/28 to 8.9% in 2036/37. While the ratio is below the benchmark range in 2027-28, it improves steadily and remains within the benchmark range for the remainder of the Plan. This trend indicates that the City is progressively generating sufficient operating revenues to fund operating expenditure and contribute towards future capital renewal requirements.

8.1.3 Own Source Revenue Coverage Ratio

The Own Source Revenue Coverage Ratio remains consistently strong throughout the planning period at approximately 94% to 95%, significantly exceeding the WA advanced benchmark of 90%. This demonstrates the City's strong financial independence and ability to fund operations and services from its own recurring revenue sources, reducing reliance on external funding and providing long-term financial resilience.

8.1.4 Summary

Collectively, the indicators demonstrate that the City maintains a strong operating position and a high level of financial self-sufficiency over the 10-year planning period. While the Asset Sustainability Ratio remains below the desired benchmark, the City's planned renewal expenditure is aligned with its Asset Management Plans (AMPs) and reflects the identified renewal needs of its asset portfolio. Renewal requirements will continue to be monitored and refined as asset condition data, priorities and Asset Management Plans are updated, helping to support the long-term sustainability of the City's infrastructure and services.

9.1 Financial Risk Management

The Long-Term Financial Plan relies on assumptions about future economic conditions, population and development growth, revenue, operating costs, capital expenditure and funding needs. As these assumptions span ten years, actual results may differ from forecasts.

The City manages this uncertainty through regular financial monitoring, annual budget reviews, asset management planning and updates to the Long-Term Financial Plan. Key financial risks are considered when assessing the affordability and timing of services, infrastructure investment, reserve utilisation and borrowings.

The following table summarises the key financial risks that may affect the Plan and the measures available to manage these risks.

Financial risk	Potential impact	Management / mitigation
Inflation and cost escalation	Higher construction, materials, utilities and service costs may increase operating and capital expenditure.	Financial assumptions are reviewed annually, with operating and capital impacts updated in annual budget and LTFP updates.
Employee costs	Employee costs may exceed forecasts due to higher wage outcomes from renewed industrial agreements, workforce growth or changing service needs.	Employee cost assumptions are reviewed through the annual budget and workforce planning processes and incorporated into annual budget and LTFP updates.
Interest rates and borrowing costs	Changes in interest rates may affect investment earnings and the cost of existing or proposed borrowings.	Borrowing requirements and interest-rate assumptions are reviewed annually, with the timing and level of new debt considered against the City's overall financial capacity.
Rates and Growth revenue	Lower than forecast development activity or rating base growth may reduce rates revenue and affect the City's capacity to fund planned services and infrastructure	Rates and growth assumptions are reviewed annually through the budget and LTFP processes to reflect current development forecasts, valuation movements and changes in the rating base.
Fees, charges and other revenue	Demand for services or changes in economic conditions may result in fees and charges being lower than forecast.	Revenue performance is monitored through regular financial reporting and assumptions are updated through the annual budget and LTFP review.
Grants and external funding	Changes to government grants, contributions or other external funding may affect the City's ability to deliver planned projects.	Operating and capital grants are reviewed against confirmed and anticipated funding, with project timing, scope and alternative funding options adjusted where necessary. Reviewed as part of annual budget and LTFP updates.

Financial risk	Potential impact	Management / mitigation
Capital project costs and timing	Cost escalation, project delays or changes in scope may increase expenditure or alter the timing of reserve and borrowing requirements.	The capital program is reviewed annually and project forecasts are updated as planning, design and cost estimates become more certain.
Asset renewal requirements	Asset renewal needs may exceed the level or timing currently provided for in the LTFP, placing pressure on future funding.	Asset Management Plans and condition information are used to inform the capital program, with renewal requirements reviewed as asset information improves.
Reserve sustainability	Higher-than-forecast expenditure or lower revenue may increase reliance on reserves and reduce balances available for future priorities.	Reserve balances and planned transfers are monitored over the ten-year period and reviewed as part of annual budget and LTFP updates.
Economic and legislative change	Changes in economic conditions, legislation, government policy or regulatory requirements may affect City revenues, expenditure or service delivery.	Emerging changes are monitored and their financial implications incorporated into the annual budget and LTFP reviews.

The LTFP is based on the best information available at the time of preparation and will be reviewed annually to reflect actual financial performance, changing assumptions, emerging priorities, and revised project delivery plans.

This process enables the City to respond to emerging financial pressures while maintaining long-term financial sustainability and responsible service delivery.

10.1 Sensitivity Review

As part of the Long-Term Financial Plan review, several key assumptions were subject to sensitivity analysis to assess their impact on the City's long-term financial sustainability. The most significant variable tested was the Consumer Price Index (CPI), as it influences a number of major revenue and expenditure assumptions, including rates revenue growth, employee costs, and materials and contract expenditure.

A range of CPI scenarios were modelled to understand the potential effects of varying inflationary conditions on the City's projected financial position over the life of the Plan. The results were presented to Elected Members and informed the assumptions adopted in the Long-Term Financial Plan.

11.1 Conclusion

The Long-Term Financial Plan has been developed using the best available information at the time of preparation and reflects a strategic, long-term approach to financial sustainability. The Plan seeks to balance the City's responsibility to deliver services and infrastructure to a growing community, while maintaining prudent financial management practices, preserving strong reserve balances, and ensuring adequate funding is available for the renewal and replacement of existing assets.

Through careful planning and modelling, the City has sought to provide a financially sustainable pathway that supports community expectations, responds to future challenges, and maintains the financial capacity to invest in the infrastructure and services required by future generations. The Plan demonstrates the City's commitment to responsible stewardship of public resources and the long-term financial viability of the organisation.

The Long-Term Financial Plan is not a static document. It is intended to remain flexible and responsive to changing economic conditions, legislative requirements, service demands, community priorities, and Council decisions. As part of the City's integrated planning framework, the Plan will be reviewed annually to ensure that assumptions, forecasts, and strategic priorities remain relevant and continue to support informed decision-making and sustainable outcomes for the City and its community.

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council AUTHORISES the amendment of the 2026-27 Municipal Budget as detailed in the attached schedule and summarised below:

Nature	Budget Surplus Impact $
FY27 Amended Budget Surplus	*300,000*
Budget amendments proposed:	
Operating expenditure - increase	(99,522)
Operating income - increase	66,448
Capital expenditure – increase	(371,815)
Capital income - increase	141,068
Net Financial Reserves drawdown - increase	277,192
Net budget decrease - attributed to these changes	13,371
Revised FY27 Budget Surplus	*313,371*

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 9/0

Background

Detailed review of budget variances are undertaken throughout the financial year. Where budget adjustments are required, they are reported to Council through an agenda item or incorporated into the statutory mid-year budget review in accordance with legislative requirements.

Submission

N/A

Report

Following adoption of the 2026–27 Annual Budget on 30 June 2026, and subsequent amendments approved in July, August, and September, further adjustments have been identified across the operating and capital budgets.

Additional refinements have also been made to projects carried forward from FY26 and adopted by Council Meeting on 11 August 2026. These adjustments were required following completion of year end processes to support preparation of the City's annual financial statements and audit requirements.

Collectively, the proposed amendments result in a net improvement of $13,371 to the FY27 Municipal Fund position, increasing the forecast surplus from $300,000 to $313,371.

For transparency, the attached Schedule of Budget Amendments details the proposed changes to individual projects and budget line-items. A summary of the amendments by category and nature is provided below:

Category/Nature		Budget Amendment ($)	Category Sub-Total ($)
Operating Expenditure			
Materials & contracts	↑	(57,548)	
Employee costs - salaries and direct oncosts	↑	(61,745)	
Asset Development	↑	(11,453)	
Other Expenses	↓	28,411	
FY27 carry forward project adjustments	↓	2,813	**(99,522)**
Operating Income			
Contributions, donations & reimbursements	↑	66,448	**66,448**
Capital Expenditure			
FY27 capital program adjustments	↓	272,556	
FY27 capital program – new capital items	↑	(724,116)	
FY27 carry forward project adjustments	↓	79,745	**(371,815)**
Capital Income			
Capital Grants	↓	86,000	
New Capital Items	↓	240,000	
FY27 carry forward project adjustments	↑	(184,932)	**141,068**

Net Reserve Transfers			
FY27 operating budget funding	↑	46,445	
FY27 capital budget funding	↓	(358,556)	
FY27 capital budget funding – new capital items	↑	484,116	
FY27 carry forward project adjustments	↓	105,187	**277,192**
Net Budget Surplus Impact (increase)	↑		**13,371**
Amended Budget Surplus	↑		**313,371**

Strategic Plans/Policy Implications

Listening & Leading
A community focused, sustainable, accountable and progressive organisation.
• Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The adopted 2026-27 Municipal Budget for 2026-27 includes a forecast surplus of $300,000.

Subject to Council approving the recommended amendments, the surplus will increase to $313,371. The net improvement of $13,371 is primarily attributable to reductions in operating expenditure, with most capital expenditure adjustments being offset by corresponding savings within approved programs.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The proposed budget amendments support effective financial management and help ensure the City's budget accurately reflects current operational and capital requirements.

If the amendments are not approved, there is a risk that the budget will not fully align with planned expenditure and project delivery requirements, which may affect financial reporting, budget management, and service delivery outcomes.

Advice to Proponent(s)/Submitters

14.2.5 (2026/MINUTE NO 0153) Payments Made from Municipal Fund and Local Procurement Summary - August 2026

Responsible Executive	Director Corporate and System Services
Author(s)	Service Lead Budgeting and Accounting and Service Manager Strategic Finance
Attachments	1. Payments Listing August 2026 ⇩ 2. Credit Cards by Cardholder August 2026 ⇩ 3. Credit Cards by Category August 2026 ⇩ 4. Store Cards August 2026 ⇩ 5. Fuel Cards August 2026 ⇩

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) RECEIVES the list of payments made by the City during August 2026, as attached; and

(2) RECEIVES the lists of transactions paid by credit and other types of purchase cards during August 2026, as attached.

CARRIED 9/0

Background

Council has delegated authority to the Chief Executive Officer and approved sub-delegates under Delegation 1.2.26 - Payment from Municipal and Trust Funds to make payments from the Municipal and Trust Fund

In accordance with Regulations 13(1) and 13A of the *Local Government (Financial Management) Regulations 1996,* Council is required to receive a monthly list of payments made under this delegation, including transactions made using credit cards, debit cards, and other purchasing cards.

Submission

N/A

Report

Payments made under delegated authority during August totalled $16.89 million. Reported amounts are inclusive of GST, noting that budget impacts are reported exclusive of GST.

A summary of payment by category is provided below, with detailed transaction listings included in the attached schedules.

Net EFT payments (suppliers, sundry creditors)	$12,461,635
Payroll payments (two fortnights)	$4,317,463
Corporate credit cards	$60,762
Bank transactional fees (BPay and merchant fees)	$49,186
Total payments for month	**$16,889,046**

The City processes several payment runs each month to ensure suppliers and other payees are paid promptly, including local and small businesses.

Two Credit Card Transaction Summary reports are attached: one by cardholder position and one by spend category, each with supporting details. During the reporting period, the CEO's corporate credit card recorded two parking transactions totalling $23.33.

The table below summarises credit card transactions by spend category.

Spend Category	**$**	**%**
Advertising	2,327.02	3.83%

Total on 50 cards used	**$60,761.82**	**100.02%**

Several store cards are used for the purchase of goods and services required for City operations, in accordance with Council's Procurement Policy. A summary of store card expenditure is provided below, with a detailed listing of transactions included in the attachments.

Type	$	Purpose
Woolworths (24 cards)	6,378	Seniors centre, youth centre, marina, community development, events, amenities, libraries, customer service, waste and sustainability
Bunnings (19 cards)	6,236	Sustainability, facilities, fleet, parks and environmental, waste services, civil works, youth services, ARC and community development
BP fuel cards	210,138	Fuel purchases for the City's plant and light vehicle fleet. The increase from the previous month reflects higher fuel costs following the cessation of the temporary fuel excise discount, resulting in an increase in average fuel prices per litre

Local Procurement

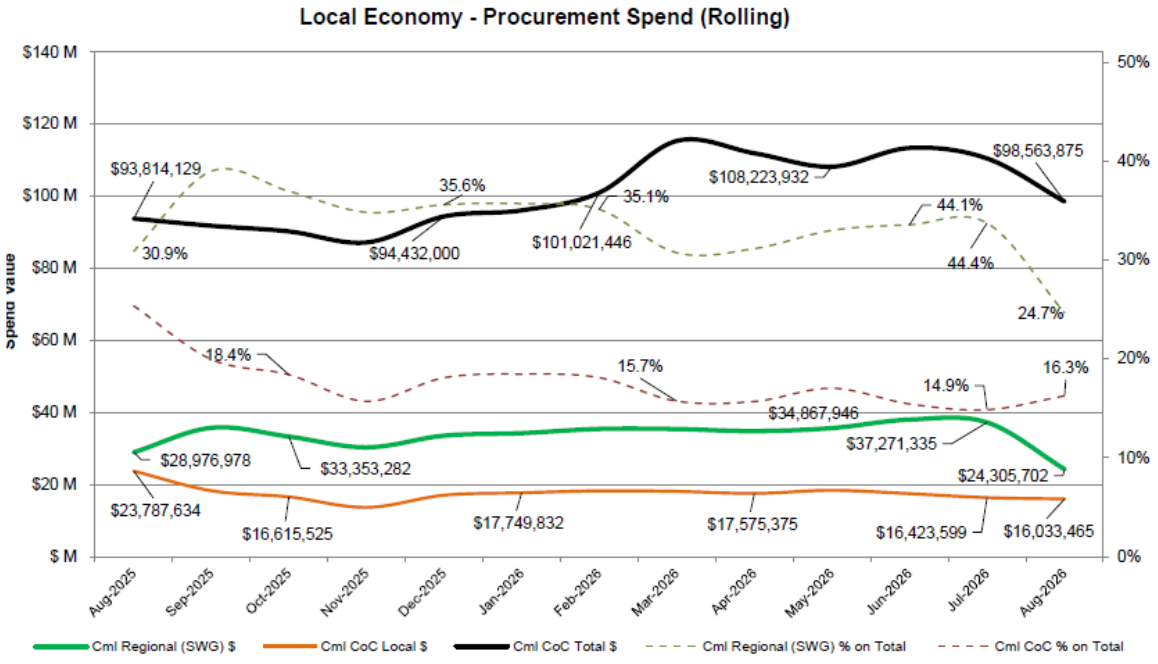

The monthly statistics on local and regional procurement spend are summarised below, detailing the spend amounts and percentages relative to the total spend.

Procurement Report - Local Buy Summary & Trends **August 2026**

Monthly Statistics	CoC Local Spend	**$742,281**	CoC Local Value	**10.56%**	CoC Local Qty	**34.01%**
	Local/Regional Spend	**$1,012,154**	Local/Regional Value	**14.40%**	Local/Regional Qty	**39.23%**
Aboriginal Engagement	Suppliers used YTD	**7**	Orders raised YTD	**47**	Committed spend YTD	**$92,116**

Expenditure with suppliers located within the City of Cockburn represented 10.56% of total monthly spend and 34.01% of all procurement transactions during the reporting period. Expenditure within the Perth South-West Metropolitan Alliance (PSWMA) region the City's monthly expenditure decreased to 14.40%, compared to 32.93% recorded in July.

The following one-year rolling chart to August 2026 tracks the City's procurement spend with businesses located within Cockburn and the PSWMA region:

As at 31 August, the City's rolling 12-month expenditure with businesses located within the City of Cockburn totalled $16.03 million, representing 16.3% of total spend. Expenditure within the PSWMA region decreased to $24.30 million, representing 24.70% of total spend.

These measures support the City's Procurement Policy objective to promote local and regional procurement.

Social Procurement

As at 31 August, the City had engaged seven Aboriginal businesses, with a total commitment of $92,116 for the 2026/27 financial year.

Strategic Plans/Policy Implications

Local Economy
A sustainable and diverse local economy that attracts increased investment and provides local employment.
• Thriving local commercial centres, local businesses and tourism industry.

Listening & Leading
A community focused, sustainable, accountable and progressive organisation.
• Best practice Governance, partnerships and value for money.
• High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

All payments are provided for within the City's Municipal Budget, as approved and amended by Council.

Legal Implications

This report supports compliance with Regulations 12, 13, and 13A of the *Local Government (Financial Management) Regulations 1996*, which require the monthly reporting of payments made under delegated authority, including transactions using credit cards, debit cards, and other purchasing cards.

Community Consultation

N/A

Risk Management Implications

Monthly reporting of payments made under delegated authority provides Council with oversight of the City’s expenditure and supports transparency, sound governance, and financial accountability. The reporting process enables Council to review payments made to meet operational and contractual obligations and seek clarification where required.

Advice to Proponent(s)/Submitters

14.2.6 (2026/MINUTE NO 0154) Monthly Financial Report - August 2026 and Contracts Variation Report - May 2026 to August 2026

Responsible Executive	Director Corporate and System Services
Author(s)	Service Lead Budgeting and Accounting and Service Manager Strategic Finance
Attachments	1. Monthly Financial Report - August 2026 ⇩ 2. Contract Variation Report - May 2026 to August 2026 **(confidential)**

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) ADOPTS the Monthly Financial Report, including the Statement of Financial Activity and associated financial information, for the month of August 2026, as attached; and

(2) RECEIVES the Contract Variation Report provided under confidential attachment for the contracts authorised under Delegated Authority or from an endorsed Council report for the period between May 2026 to August 2026.

CARRIED 9/0

Background

The *Local Government (Financial Management) Regulations 1996* require local governments to prepare a Statement of Financial Activity each month. Regulation 34(2) requires this statement to be accompanied by:

1. An explanation of the material variances between year-to-date (YTD) budget estimates and actual results.
2. Any other information considered relevant by the local government.

Regulation 34(4)(a) requires the Statement of Financial Activity and supporting documentation to be presented to Council at an ordinary meeting within two months after the end of the relevant month.

Regulation 34(5) requires Council to annually determine a materiality threshold, in accordance with the Australian Accounting Standards, for reporting budget variances in the Statement of Financial Activity. For 2026-27 (FY27), Council adopted a materiality threshold at $300,000.

Budget performance is monitored throughout the year. Where required, budget amendments are presented to Council for approval or incorporated into the Mid-Year Budget Review process.

Submission

N/A

Report

The attached Financial Report for August 2026 has been prepared in accordance with the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

The commentary below provides an overview of the City's financial position and budget performance as at 31 August 2026.

Statement of Comprehensive Income

The Statement of Comprehensive Income, presented in the same format as the adopted annual budget, reports a net result and total comprehensive income of $138.01 million as at 31 August 2026.

This statement also reports the net operating result, a key indicator of financial sustainability. The adopted 2026-27 budget had initially projected an operating deficit of $4.62 million. Following Council-approved budget amendments during the year, the projected deficit has increased to $7.72 million.

Statement of Financial Position

This Statement of Financial Position outlines the City's financial position as at 31 August 2026 compared with the previous financial year-end. Net assets increased by $138.01 million to $2.06 billion, reflecting the total comprehensive income recognised for the period.

Statement of Financial Activity

Opening Surplus

The current opening surplus $1.45 million, is $0.40 million below the amended budget of $1.85 million. As year processing and audit activities are yet to be finalised, the opening surplus remains subject to adjustment and may impact the reported closing surplus.

Closing Surplus

The City's YTD closing surplus as at 31 August 2026 was $152.11 million, compared with a budget of $142.26 million.

This represents a favourable variance of $9.85 million, primarily due to the combined effect of operating and capital budget variances. As FY26 financial balancing and finalisation activities remain in progress, some balances and allocations are subject to review and adjustment.

Operating Revenue

Year-to-date operating revenue totalled $168.64 million exceeding the YTD budget by $2.09 million for August.

The following table summarises the operating revenue budget performance by nature:

Revenue from operating activities	Amended		Actual	Variance
	Full Year Budget $	YTD Budget $	$	$
Rates	153,953,920	151,778,027	152,845,464	1,067,437
Specified Area Rates	720,000	690,335	688,254	(2,081)
Operating Grants, Subsidies, Contributions	13,469,515	1,275,509	1,412,249	136,740
Fees & Charges	43,597,121	10,371,861	11,488,300	1,116,439
Service Charges	250,000	199,813	0	(199,813)
Interest Earnings	13,241,700	2,183,577	2,147,121	(36,456)
Profit/(Loss) Asset Sale	1,315,872	51,720	58,068	6,348
Total	**226,548,128**	**166,550,842**	**168,639,456**	**2,088,614**

Year to date operating revenue is tracking broadly in line with budget, with the following key variances:

- Rates Revenue: is $1.07 million above YTD budget, primarily due to the timing of interim rates raised in July.
- Fees and Charges: are $1.12 million above budget due to timing differences in revenue recognition for leases and recreation centre memberships.

Operating Expenditure

Operating expenditure of $31.02 million as at 31 August 2026 was $6.50 million below YTD budget.

The table below summarises operating expenditure performance by expenditure nature and highlights the key variances against YTD budget:

Expenditure from Operating Activities	Amended		Actual	Variance
	Full Year Budget $	YTD Budget $	$	$
Employee costs	(89,793,498)	(14,020,539)	(12,976,805)	1,043,734
Materials & Contracts	(63,856,172)	(10,174,174)	(5,559,296)	4,614,878
Utility charges	(6,950,303)	(805,521)	(947,835)	(142,314)
Depreciation/ Amortisation	(55,969,803)	(8,851,324)	(8,551,121)	300,203
Finance costs	(1,760,888)	(33,272)	(18,703)	14,569
Insurance expenses	(2,733,065)	(1,190,351)	(1,179,955)	10,396
Other expenditure	(11,890,962)	(2,442,465)	(1,789,212)	653,253
Total	**(232,954,691)**	**(37,517,646)**	**(31,022,927)**	**6,494,719**

The City's operating expenditure to 31 August 2026 included the following key favourable variances against budget:

- Employee costs were $1.04 million below YTD budget, primarily due to vacant positions and the ongoing end-of-financial-year reconciliations.
- Materials and contracts were $4.61 million below YTD budget, including:
  - Business System Services, Software Support Expenses - $1.44 million under budget
  - Street Maintenance (Parks) contract costs - $0.50 million under budget
  - Waste contract expenses: $0.64 million below budget
  - Facilities Maintenance overhead costs: $0.48 below budget
  - Recreation Services contractor costs: $0.17 million below budget
  - Sustainability contract expenses: $0.20 million below budget.

- Depreciation and amortisation expenses were $0.30 million below budget, primarily due to the timing of capital asset acquisitions and their subsequent capitalisation.
- Other expenses were $0.65 million below YTD budget, primarily due to the timing of landfill levy payments.

Capital Expenditure

Council adopted a capital works program budget for FY27 of $64.07 million. Following adoption of the FY26 Carry Forward Program at the July Ordinary Council Meeting, the total FY2026/27 Capital Works Program increased to $79.01 million. The City's August YTD spend was $2.80 million versus a YTD budget of $6.37 million.

Year-to-date expenditure is below budget primarily due to the timing of contract awards and commencement of works occurring later than originally anticipated in the budget cashflow projections. Cashflows will be reviewed and realigned as part of future budget monitoring processes to reflect the updated project delivery timeframes.

The following table shows the budget performance by asset class:

Capital Acquisitions	Amended		YTD Actual $	YTD Variance $
	Budget $	YTD Budget $		
Land	-	-	25,092	25,092
Buildings	16,717,670	1,430,170	779,104	(651,066)
Furniture & Equipment	9,096	1,819	895	(924)
Plant and Equipment	14,290,594	713,371	38,410	(674,962)
Information Technology	433,034	320,000	23,834	(296,166)
Infrastructure - Roads	28,492,326	1,815,894	1,326,996	(488,897)
Infrastructure - Drainage	5,341,436	718,267	209,259	(509,008)
Infrastructure - Footpath	1,426,378	127,632	25,571	(102,061)
Infrastructure - Parks hard	9,955,067	869,634	366,491	(503,143)
Infrastructure - Landfill site	1,773,758	327,752	7,018	(320,734)
Infrastructure - Marina	300,000	50,000	0	(50,000)
Infrastructure - Coastal	270,000	0	0	0
Total	**79,009,358**	**6,374,538**	**2,802,668**	**(3,571,870)**

The following major project variances have been identified within the City's capital program budget:

- Buildings ($0.65 million under YTD budget), with notable variances including:
  - ARC Renewal Planning project - $0.23 million under budget
  - Bibra Lake Community Centre project - $0.10 million under budget
- Plant and Equipment ($0.67 million under YTD budget), with notable variances including:
  - Mobile CCTV acquisition - $0.12 million under budget
  - Waste Side Load purchases - $0.24 million under budget
- Roads Infrastructure (0.49 million under YTD budget), with notable variances including:
  - Beeliar Dunraven Intersection Improvement - $0.21 million under budget

  - Orsino Blvd Pantheon Avenue Intersection works - $0.15 million under budget
  - Carrington & Forrest Rd works - $0.13 million under budget
- Drainage (0.51 million under YTD budget), with notable variances including:
  - Elderberry Drive Improvement works - $0.23 million under budget
  - Carrello Circuit, Drainage Construction - $0.14 million under budget
  - Aberle Street, Drainage Construction - $0.11 million under budget
- Parks Hard Infrastructure (0.50 million under YTD budget), with notable variances including:
  - Kurrajong Board Walk Renewal - $0.13 million under budget
- Landfill Site (0.32 million under YTD budget), with notable variances including:
  - Temporary Greenwaste Hard Stand Construction - $0.20 million under budget

Non-Operating Grants, Subsidies and Contributions

The City's 2026/27 capital grants and contributions budget totals $17.01 million. Funding is primarily allocated to community recreation infrastructure and road resurfacing projects, supporting the delivery of key community outcomes and asset renewal initiatives.

As at 31 August 2026, capital grants and contributions revenue recognised of $395,548 had been recognised against a year-to-date budget of $1.77 million.

The variance is primarily due to the timing of revenue recognition. Under Australian Accounting Standards, capital grant revenue is recognised in line with project delivery rather than when funding is received. The current budget cashflow assumptions were based on anticipated project progress; however, project delivery schedules have since been refined. The associated revenue forecasts will be reviewed and adjusted through future budget review processes to better align with project timelines.

Financial Reserves

A detailed schedule of the City's financial reserves is provided in the financial report, showing a balance of $262.76 million as at the end of August. This will be subject to further adjustment as end of financial year balancing occurs.

General revenue reserves were $218.03 million, with the balance of $44.73 million for external or legislatively restricted purposes (inclusive of $31.29 million for Developer Contribution Plans and $6.59 million for POS cash in lieu purposes).

Transfers in and out of financial reserves are made in accordance with budgetary and statutory requirements.

Cash and Financial Assets

As at 31 August, the City's cash and financial assets were $342.04 million, up $54.36 million from July.

The balance comprises financial assets, including term deposits and investments totalling $324.08 million, as well as cash and cash equivalent holdings, such as bank cash and call deposits amounting to $17.96 million.

Of these funds, $264.85 million are internally and externally restricted (mostly in cash reserves). The remaining $77.19 million is unrestricted municipal money for funding the City's operations and liabilities.

Investment Performance, Ratings and Maturity

As market expectations increasingly shifted towards further near-term interest rate increases, supported by persistent inflationary pressures and ongoing geopolitical instability in the Middle East, the running yield of the City's term deposit portfolio increased to 4.82%, up from 4.62% in the previous month.

Despite this improvement, the portfolio's return remained marginally below the City's investment performance benchmark of 4.85%, comprising the 4.35% RBA Cash Rate plus the required 0.50% performance margin.

During the month, new term deposits were invested at rates ranging from 5.25% to 5.52%, reflecting prevailing market conditions. Interest rate expectations remained influenced by domestic inflation data and global economic uncertainty, including the potential inflationary impacts of higher oil prices and ongoing geopolitical tensions.

All current term deposit investments remain fully compliant with the requirements of the Council's Investment Policy, as summarised below.

Investment Policy Compliance		
Legislative Requirements	✓	Fully compliant
Portfolio Credit Rating Limit	✓	Fully compliant
Institutional Exposure Limits	✓	Fully compliant
Term to Maturity Limits	✓	Fully compliant

The portfolio also includes reverse mortgage securities acquired under previous policy and legislative frameworks. These securities have a current face value of $2.26 million and a market value of $1.47 million. In accordance with applicable accounting standards, they are carried at a book value of $0.683 million, reflecting an impairment provision of $1.575 million recognised in prior years.

Since the initial investment of $3.0 million was made, the City has received cumulative principal repayments of $0.74 million, in addition to ongoing quarterly coupon income.

The City's investments as at 31 August 2026, inclusive of accrued interest, were held with the following financial institutions:

Issuer	**Market Value**	% Total Value
Credit Union Australia Ltd t/as Great Southern Bank	**13,354,477.52**	4.04%
Defence Bank Ltd	**15,161,623.30**	4.58%
Emerald Reverse Mortgage Trust	**1,473,138.64**	0.45%
ING Bank Australia Limited	**107,665,327.38**	32.54%
Judo Bank	**10,239,313.72**	3.10%
MyState Bank Ltd	**3,075,127.41**	0.93%
National Australia Bank Ltd	**51,052,120.00**	15.43%
Rabobank Australia Ltd	**105,443,083.04**	31.87%
Unity Bank Ltd	**11,131,066.83**	3.36%
Westpac Banking Corporation Ltd	**12,234,206.02**	3.70%
Portfolio Total	**330,829,483.84**	100.00%

The City’s short-term deposits (less than 12 months) made up 50.90 percent ($168.4 m) of the City’s portfolio, compared 61.68 percent ($165.0) previous month.

These were classified under the following credit ratings:

Market Value by Security Rating Group (Short Term)

Deposits invested between 1 and 3 years made up 49.10 percent ($162.4 m) of the City's portfolio, compared to 38.32 percent ($102.5 m) previous month.

These were classified under following credit ratings:

Market Value by Security Rating Group (Long Term)

Investment in Fossil Fuel Free Banks

As at 31 August 2026, the City held $58.3 million in investments with institutions that do not finance fossil fuel-related industries, representing 17.9% of the total investment portfolio.

The proportion invested with these institutions may vary over time due to factors such as available rates, diversification requirements, and institutional capacity. The City continues to consider fossil fuel-free institutions as part of its investment portfolio in accordance with its investment objectives and approved policy.

Rates Debt Recovery

As at 31 August, the City had collected $73.49 million (40.29%) of the $182.42 million in collectible rates and charges raised for 2026-27, leaving an outstanding balance of $108.93 million (59.71%). Excluding deferred rates of $1.25 million, the outstanding collectible balance was $107.68 million (59.03%).

The City also received $0.55 million in rate prepayments for the 2027-28 and collected $0.05 million in underground power charges during August.

At 31 August 2026, 44 properties with outstanding rates had progressed to formal debt recovery, representing debts of $0.34 million in rates and associated costs. This compares with 50 properties in the previous month.

Formal debt recovery action is undertaken where ratepayers have outstanding rates and have not entered into a payment arrangement or sought assistance under the City's Financial Hardship Policy.

Trade and Sundry Debtors

The City had $3.69 million in outstanding trade and sundry debtors, compared with $3.89 million last month.

Debts overdue by more than 90 days totalled $0.52 million (14.09% of outstanding debt), compared with $0.10 million (2.59%) in the previous month. Key balances included $4.98k relating to Naval Base shacks, $13.01k for firebreak notices and $117.87k from landfill customers. These debts continue to be actively managed.

Contracts Variation Report – May 2026 to August 2026

In accordance with the *Local Government (Functions and General) Regulations 1996* and the City's Register of Delegations, contract variations and exercised extension options are reported to Council.

The attached report details 54 contract variations between May 2026 and August 2026. Variations arose from the exercise of extension options, changes to service locations or scope, contract price adjustments permitted under contract provisions, and budget-approved adjustments where original contract values were estimates.

Each variation is assessed for value for money, compliance with the original procurement process, budget availability and alignment with the approved scope of works.

KEY TERMS AND DESCRIPTIONS
FOR THE PERIOD ENDED 31 AUGUST 2026

NATURE OR TYPE DESCRIPTIONS

REVENUE

RATES
All rates levied under the *Local Government Act 1995.* Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS
Refers to all amounts received as grants, subsidies and contributions that are not non-operating grants.

NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS
Amounts received specifically for the acquisition, construction of new or the upgrading of identifiable non financial assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS
Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES
Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES
Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996* identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST EARNINGS
Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME
Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL
Excess of assets received over the net book value for assets on their disposal.

EXPENSES

EMPLOYEE COSTS
All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

MATERIALS AND CONTRACTS
All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER, ETC.)
Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE
All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL
Shortfall between the value of assets received over the net book value for assets on their disposal.

DEPRECIATION ON NON-CURRENT ASSETS
Depreciation expense raised on all classes of assets.

INTEREST EXPENSES
Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE
Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

MONTHLY FINANCIAL REPORT
FOR THE PERIOD ENDED 31 AUGUST 2026

BASIS OF PREPARATION

BASIS OF PREPARATION

REPORT PURPOSE
This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 , Regulation 34* . Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING
This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of *AASB 1051 Land Under Roads paragraph 15* and *AASB 116 Property, Plant* and Equipment *paragraph 7.*

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 31 August 2026

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES
The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY
All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.
In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.
All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies

GOODS AND SERVICES TAX
Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES
All figures shown in this statement are rounded to the nearest dollar.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 AUGUST 2026

NOTE 1
STATEMENT OF FINANCIAL ACTIVITY INFORMATION

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

Non-cash and non-current items excluded from operating activities	Notes	Amended Budget	YTD Budget (a)	YTD Actual (b)
		$	$	$
Adjustments to operating activities				
Less: (Profit)/loss on asset disposals		(1,315,872)	(51,720)	(58,068)
Less: Movement in liabilities associated with restricted cash			0	2,061,180
Add: Movement in Pensioner Rates & ESL (non-current)		0	0	26,662
Movement in accrued UGP debtors (non-current)		0	0	52,121
Movement in employee benefit provisions (non-current)		0	0	201,131
- Other Provisions		1,564,074	0	0
Add: Depreciation on assets		55,969,803	8,851,324	8,551,121

Closing funding surplus / (deficit)		**1,445,499**	**141,104,331**	**152,105,539**

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:
- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

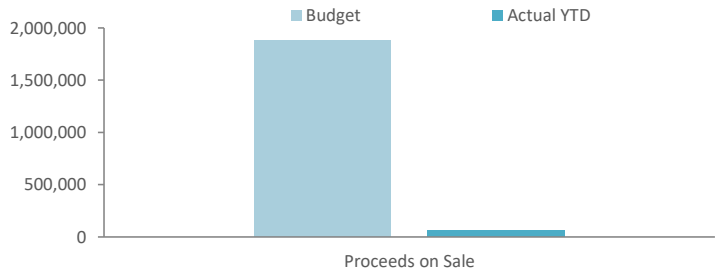

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) ADOPTS the following Asset Management Plans for the period 2024-2028:
a. Roads Asset Management Plan
b. Footpaths Asset Management Plan
c. Drainage Asset Management Plan
d. Bridges Asset Management Plan
e. Coastal Asset Management Plan
f. Buildings Asset Management Plan
g. Parks and Environment Asset Management Plan
h. Cockburn ARC Asset Management Plan
i. Marina Asset Management Plan
j. Fleet and Plant Asset Management Plan;

(2) NOTES that the Asset Management Plans will inform future reviews of the Forward Capital Works Model, Long Term Financial Plan and annual budget processes; and

(3) NOTES that the Asset Management Plans form a key component of the City's Integrated Planning and Reporting Framework and provide the evidence base for future infrastructure investment, renewal and service planning decisions.

CARRIED 9/0

Background

The City has completed a comprehensive review of its Asset Management Plan (AMP) suite covering major infrastructure, community and operational asset classes.

The AMP suite comprises ten Asset Management Plans covering:

- Roads
- Footpaths
- Drainage
- Bridges
- Coastal Infrastructure
- Buildings
- Parks and Environment
- Cockburn ARC
- Marina
- Fleet and Plant assets.

Collectively, these plans provide Council with a contemporary assessment of asset condition, performance, lifecycle requirements, risks and long-term infrastructure obligations across the City's major asset portfolios.

The AMP suite forms a key component of the City's Integrated Planning and Reporting Framework and supports evidence-based decision-making regarding asset management, infrastructure investment and long-term financial sustainability.

Council has previously been briefed on the AMP review program through Elected member Briefing Forums held in April 2026 and September 2026. Those briefings explored the key findings emerging from both the Civil and Community and Operational Asset Management Plans, together with the broader implications for future asset stewardship, infrastructure investment and long-term financial planning.

Submission

N/A

Report

The purpose of the Asset Management Plans is to provide Council with a comprehensive understanding of the condition, performance, risks, lifecycle requirements and long-term financial implications associated with the City's major infrastructure, community and operational asset portfolios.

The Asset Management Plans should not be viewed as project lists, capital works programs or funding commitments. Rather, they identify asset needs, renewal requirements, future obligations and emerging risks associated with the City's assets. They are intended to inform future decision-making and provide the foundation upon which future infrastructure planning and investment discussions can occur.

The AMP suite forms part of the City's broader Integrated Planning and Reporting Framework and should be considered alongside the Forward Capital Works Model (FCWM) and the Long-Term Financial Plan (LTFP).

Within this framework:

- The Asset Management Plans identify asset need
- The Forward Capital Works Model identifies the proposed infrastructure response
- The Long-Term Financial Plan identifies the proposed funding pathway.

Together, these documents provide a structured and integrated approach to understanding infrastructure requirements, prioritising future investment and maintaining long-term financial sustainability.

The completion of the AMP suite provides Council with the first consistent, whole-of-portfolio view of the City's major assets and highlights several important strategic themes.

The first is that the City is not facing an immediate asset crisis. Across most asset classes, assets generally continue to support current service delivery outcomes and the majority remain in fair to good condition. The AMP suite demonstrates that historical investment has largely maintained asset performance and functionality across the portfolio.

The second is that lifecycle obligations are increasing. Many asset classes are entering periods where renewal, replacement, upgrade and optimisation requirements become increasingly significant. This is particularly evident across the Buildings, Parks and Environment, Fleet and Plant and Cockburn ARC portfolios, where future investment requirements are expected to increase as assets mature and intervention requirements become more frequent.

A third theme is the relationship between historical growth and future obligations. The AMP suite demonstrates that many of the lifecycle requirements now emerging are not unexpected liabilities, but the anticipated consequence of previous investment in community facilities, public open space, recreation infrastructure, operational assets and supporting infrastructure. Every asset acquired or developed ultimately creates future maintenance, renewal, replacement and service delivery obligations.

Accordingly, the AMP suite demonstrates that growth and stewardship are increasingly interconnected. Many of the lifecycle requirements now emerging should not be viewed as unexpected liabilities, but rather the anticipated consequence of a maturing asset portfolio that has expanded significantly over several decades.
The AMP suite also highlights that the City is increasingly managing the challenges associated with both a mature and a growing local government.

Many established assets are now entering lifecycle stages where increasing levels of renewal, replacement and upgrade are required. At the same time, growth continues within areas such as Treeby, Jandakot, Cockburn Central and Cockburn Coast, generating demand for additional infrastructure, facilities and services. Future

investment decisions will therefore increasingly require balancing stewardship of existing assets with the delivery of infrastructure required to support future growth and community expectations.

Another important finding is that future infrastructure projects are becoming increasingly interconnected. Projects can rarely be categorised as purely renewal, growth or upgrade projects. Increasingly, projects are expected to deliver multiple outcomes simultaneously including asset renewal, accessibility improvements, compliance requirements, service enhancement, redevelopment opportunities and future growth capacity.

The AMP suite demonstrates the importance of considering whole-of-life costs when making future investment decisions. While growth will continue to occur, particularly within emerging growth areas, future decisions will increasingly require consideration of the operational, maintenance, renewal and replacement obligations that accompany new assets. This reinforces the importance of linking asset management, capital planning and financial planning processes.

Importantly, the AMP suite should also be viewed as the starting point of the City's Plan, Design and Deliver approach. The Asset Management Plans identify future asset needs and lifecycle requirements. Future business case development, project planning and design activities then determine the most appropriate response to those needs. Projects that emerge from this process may ultimately be incorporated within future iterations of the Forward Capital Works Model and considered through subsequent Long-Term Financial Plan reviews and annual budget processes.

The Asset Management Plans are therefore not static documents. They are intended to be actively used, reviewed and refined over time as asset information improves, service expectations evolve and future investment priorities change.

Overall, the AMP suite provides Council with a significantly improved understanding of the City's asset portfolio and establishes a stronger evidence base for future infrastructure investment, service planning and long-term financial sustainability decisions. The plans provide greater visibility regarding the timing, scale and nature of future obligations and will assist Council in balancing stewardship, growth, affordability, service delivery outcomes and community benefit over the coming decades.

The AMP suite has also largely validated the strategic direction currently reflected within the FCWM. Many of the major renewal, upgrade and redevelopment interventions identified through the Asset Management Plans align with projects already contemplated through Community Infrastructure Planning, facility masterplans, Integrated Transport Strategy and the FCWM. The AMP process therefore provides greater confidence regarding the timing, prioritisation and long-term investment requirements associated with the City's asset portfolio.

The AMP suite provides the evidence base for these discussions and will continue to inform future reviews of the Forward Capital Works Model, Long-Term Financial Plan and annual budget processes as Council considers the appropriate balance between growth, stewardship and affordability.

Strategic Plans/Policy Implications

Our Community
A diverse, active, and connected community that feels safe and has access to local services.
• Foster connected, accessible communities and services.
• Strengthen and facilitate a safe and secure Cockburn.

Our Places
Enhancing distinctive, liveable areas with well-connected, safe transport options.
• Plan for growth and sustainable development.
• Strengthen unique, liveable and adaptive places.

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.
Strive for financial sustainability and operational excellence.

Budget/Financial Implications

The Asset Management Plans do not of themselves create a financial commitment or authorise future expenditure.

The AMP suite provides an evidence-based assessment of asset condition, lifecycle requirements, renewal demand and future infrastructure obligations across the City's asset portfolio. The review process has identified a growing divergence between long-term lifecycle requirements and the financial assumptions underpinning earlier iterations of the Long-Term Financial Plan.

The plans reinforce the importance of ongoing investment in asset renewal to maintain asset condition, support sustainable Asset Sustainability Ratios and avoid the accumulation of future renewal liabilities. Where renewal requirements cannot be immediately addressed through annual funding allocations, it remains important that future Long-Term Financial Plan reviews, reserve strategies and capital investment decisions appropriately consider these obligations.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The Asset Management Plans are a key component of the City's asset management and risk management framework and provide an evidence-based understanding of asset condition, lifecycle requirements, service delivery risks and future infrastructure obligations.

Adoption of the Asset Management Plans supports informed decision-making and strengthens the City's ability to proactively identify, monitor and manage risks associated with ageing infrastructure, community facilities, operational assets and future lifecycle liabilities.

The principal risks associated with not adopting or maintaining contemporary Asset Management Plans include:

- reduced visibility of future renewal and replacement requirements
- increased likelihood of deferred maintenance and asset deterioration
- reduced ability to prioritise investment based on risk and asset condition
- increased operational and service delivery disruptions
- higher future renewal and replacement costs arising from delayed intervention
- reduced alignment between asset planning, the Forward Capital Works Model and the Long-Term Financial Plan
- diminished ability to demonstrate sound asset stewardship and long-term financial planning.

The AMP suite demonstrates that while the majority of the City's assets continue to support current service delivery outcomes, many asset classes are entering periods where renewal, replacement, upgrade and optimisation requirements will become increasingly significant. Failure to appropriately plan for these future obligations may result in declining asset condition, increased maintenance expenditure, reduced service outcomes and growing long-term financial exposure.

The Asset Management Plans also provide an important mechanism for managing strategic risks associated with the City's transition as both a mature asset owner and a growing local government. The plans improve understanding of future lifecycle obligations arising from previous asset growth and support more informed consideration of future infrastructure investment, service delivery expectations, affordability and long-term sustainability.

Adoption of the Asset Management Plans is therefore considered a risk mitigation measure that strengthens the City's capacity to manage asset, financial, operational and strategic planning risks and supports the delivery of sustainable community outcomes over the long term.

14.3.2 (2026/MINUTE NO 0156) Beale Park Redevelopment Project Update

Responsible Executive	Director Infrastructure Services
Author(s)	Service Manager Traffic and Major Projects and Group Manager Assets and Projects
Attachments	N/A

Officer Recommendation
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) RECEIVES the Beale Park Redevelopment Project Update Report.

(2) NOTES actual FY2025/26 project expenditure of $11,218,465 (Ex GST), being $710,367 (Ex GST) above the FY2025/26 budget due to project timing and cashflow variations;

(3) APPROVES funding of the FY2025/26 unbudgeted shortfall of $710,367 (Ex GST) from the Building Infrastructure Reserve;

(4) APPROVES a budget amendment for the Beale Park Redevelopment project, reducing the FY2026/27 budget by $710,367 to reflect expenditure brought forward to FY2025/26 and increasing the budget by $361,359 to complete the project, resulting in a net reduction of $349,008 to the FY2026/27 capital budget and corresponding reserve funding; and

(5) NOTES that the revised FY2026/27 project budget allocation will be $2,439,628, with a further $115,871 proposed for inclusion within the FY2027/28 Capital Works Program to facilitate project completion, delivery of the public artwork component and project close-out activities.

Council Decision
MOVED Cr C Stone SECONDED Cr K Allen
That Council:

(1) RECEIVES the Beale Park Redevelopment Project Update Report.

(2) NOTES actual FY2025/26 project expenditure of $11,218,465 (Ex GST), being $710,367 (Ex GST) above the FY2025/26 budget due to project timing and cashflow variations;

(3) APPROVES funding of the FY2025/26 unbudgeted shortfall of $710,367 (Ex GST) from the Building Infrastructure Reserve;

(4) APPROVES a budget amendment for the Beale Park Redevelopment project, reducing the FY2026/27 budget by $710,367 to reflect expenditure brought forward to FY2025/26 and increasing the budget by $361,359 to complete the project, resulting in a net reduction of $349,008 to the FY2026/27 capital budget and corresponding reserve funding;

(5) NOTES that the revised FY2026/27 project budget allocation will be $2,439,628,

with a further $115,871 proposed for inclusion within the FY2027/28 Capital Works Program to facilitate project completion, delivery of the public artwork component and project close-out activities; and

(6) ACKNOWLEDGES that Beale Park is the longstanding home of Cockburn City Soccer Club, that the Club is the primary user of the facility and a key reason for its redevelopment, and directs the Chief Executive Officer to ensure the Club is afforded priority access to the facility for its training, competitions and associated club activities throughout both the winter and summer seasons.

LOST FOR LACK OF ABSOLUTE MAJORITY 5/4

For: Cr C Stone, Cr T Widenbar, Cr T Dewan, Cr C Reeve-Fowkes and Cr K Allen
Against: Mayor L Howlett, Deputy Mayor P Corke, Cr C Zhang and Cr H Srhoy

Officer Recommendation/Council Decision
MOVED Deputy Mayor P Corke SECONDED Cr T Dewan
That Council:

(1) RECEIVES the Beale Park Redevelopment Project Update Report;

(2) NOTES actual FY2025/26 project expenditure of $11,218,465 (Ex GST), being $710,367 (Ex GST) above the FY2025/26 budget due to project timing and cashflow variations;

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 6/3

For: Mayor L Howlett, Deputy Mayor P Corke, Cr T Widenbar, Cr T Dewan, Cr C Zhang and Cr H Srhoy
Against: Cr C Stone, Cr C Reeve-Fowkes and Cr K Allen

Reason
It was not a simple decision with the Alternate Motion. I totally understand the need for certainty with the Club and I understand that they do not want to have to move all their gear around, they want to have the bar. To use the word priority, in this instance when we haven't actually worked out what is needed over the summer, would not be, I think, appropriate. Therefore, I think the Officer Recommendation, which does not include anything to do with the Expression of Interest and the usage of the Club can be voted on as such.

Background

At its Ordinary Council Meeting of 13 May 2025, Council accepted the tender submitted by Shelford Constructions Pty Ltd trading as Shelford Group for the Beale Park Redevelopment.

The purpose of the May 2025 report was to seek Council approval to award the construction contract and enter into contractual arrangements for delivery of the project. The report was supported by both public and confidential information, including an estimated Total Project Cost (TPC Estimate) of $15,254,020 (Ex GST) based on the information available at the time of tender award.

The Beale Park Redevelopment is a significant community infrastructure project and includes:

- Construction of a new clubhouse facility
- Six unisex change rooms
- Community function space
- Sports storage facilities
- Upgraded sports lighting
- Additional parking infrastructure
- Active playing field upgrades
- Associated civil, drainage, landscaping and servicing works.

The project is being delivered under two separable portions in accordance with the construction contract.

Since award of the contract, the project has progressed through construction with Separable Portion 1 achieving Practical Completion and entering the Defects Liability Period. Separable Portion 2 remains under construction and is anticipated to achieve Practical Completion on 22 November 2026.

As the project has progressed, actual expenditure has been reviewed against the cashflow assumptions presented to Council in May 2025. This review identified that some works originally forecast for FY2026/27 were completed earlier than anticipated. As a result, expenditure was brought forward into FY2025/26, creating a budget timing variance between the two financial years.

A detailed review of the remaining project costs has also been undertaken. This identified $300,000 in Western Power headworks costs that were not included in the total Project Estimate presented to Council in May 2025. While utility costs were recognised as a project risk, Western Power’s formal quotation was not received until July 2025 and could not therefore be included in the estimate supporting the tender award.

The remaining funding is required to meet outstanding contractual obligations, project completion and close out costs, and contingency through the Defects Liability Period.

The purpose of this report is to provide Council with an update on project delivery, reconcile actual expenditure against the adopted budget profile, and seek approval for budget amendments necessary to fund the FY2025/26 expenditure variance and complete the remaining stages of the project.

Submission

N/A

Report

Project Status

The Beale Park Redevelopment continues to progress in accordance with the approved project scope and remains in its final stages of delivery.

Separable Portion 1

Separable Portion 1 achieved Practical Completion during FY2025/26 and has entered the Defects Liability Period.

Completion of Separable Portion 1 delivered the primary clubhouse facility and associated infrastructure, including changerooms, community spaces and supporting building services. The facilities are now operational and available for use by stakeholders and the broader community.

In accordance with the Contract, the Contractor remains responsible for rectification of identified defects and outstanding items arising during the Defects Liability Period. The City continues to actively manage these matters through inspections, defect identification, monitoring and verification of rectification works.

Separable Portion 2

Construction activities associated with Separable Portion 2 are progressing and remain generally in accordance with the current construction programme.

Remaining works principally comprise completion of external infrastructure, associated civil works, landscaping, final site integration works and commissioning activities.

Practical Completion is currently anticipated to occur on 22 November 2026.

The City continues to closely monitor programme performance and manage completion of remaining works in collaboration with the Contractor.

Public Artwork Component

The public artwork component forms part of the overall Beale Park Redevelopment project but remains outside the scope of the building contract.

Delivery of the artwork is anticipated to occur following completion of the building works and associated site establishment activities.

Provision has been retained within future project budgets to facilitate delivery of the public artwork and associated project close-out activities.

Financial Review

As at 30 June 2026, life-to-date expenditure on the Beale Park Redevelopment Project was approximately $13 million.

In FY2025/26 expenditure exceeded the Annual Budget by $710,367. This comprised works completed earlier than originally forecast for FY2026/27 and approximately $300,000 in Western Power headworks charges that were not included in the Total Project Cost Estimate presented to Council in May 2025.

The FY 2025/26 expenditure variance has been funded from the Building Infrastructure Reserve.

As some of this expenditure relates to works originally budgeted in FY2026/27, the FY2026/27 can be reduced. However, $361,359 is required to remain available in FY2026/27 to meet outstanding contractual obligations, project completion and close-out costs, and provide a $100,000 contingency through completion of the works and the Defects Liability Period.

Accordingly, the FY2026/27 budget is proposed to reduce by a net $349,008, from $2,788,636 to $2,439,628.

A further $115,871 is proposed in FY2027/28 for final project activities, including consultant services during the Defects Liability Period, internal project management and delivery of the public artwork.

The Western Power headworks charges represent an increase in the overall project cost. To ensure sufficient funding is available to complete the project, Council approval is sought to increase the Total Project Cost from $15,254,020 to $15,554,020.

The $86,640 carry-forward allocation is proposed to be reversed through the Monthly Budget Amendment presented to this meeting. Following project completion, a final financial reconciliation will be undertaken detailing the major project costs, movements from the May 2025 Total Project Estimate, and use of contingency and variation allowances.

Project Cashflow Profile

Financial Year	Actual / Forecast Expenditure (Ex GST)
FY19	$2,250
FY20	$5,647
FY21	$101,195
FY22	$93,283
FY23	$443,782
FY24	$209,550
FY25	$924,350
FY26	$11,218,465
FY27*	$2,439,628**
FY28*	$115,871
Forecast Project Cost	**$15,554,020**

* Forecast expenditure.

** Reflects amount inclusive of $100k Contingency.

Strategic Plans/Policy Implications

Our Community
A diverse, active, and connected community that feels safe and has access to local services.
• Foster connected, accessible communities and services.
• Promote and support active, healthy lifestyles through recreation and wellness.

Our Places
Enhancing distinctive, liveable areas with well-connected, safe transport options.
• Plan for growth and sustainable development.

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Strive for financial sustainability and operational excellence.

Budget/Financial Implications

The $710,367 FY2025/26 expenditure variance has been funded from the Building Infrastructure Reserve and includes approximately $300,000 in previously unbudgeted Western Power headworks charges.

The FY2026/27 project budget is proposed to reduce by a net $349,008, from $2,788,636 to $2,439,628, reflecting expenditure brought forward from FY2025/26 while retaining sufficient funding to complete the remaining works.

A further $115,871 is proposed in FY2027/28 for final close-out activities.

Council approval is sought to increase the Total Project Cost from $15,254,020 to $15,554,020, an increase of $300,000, funded from the Building Infrastructure Reserve.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The key risks associated with the project continue to be actively managed through the construction contract and established project governance processes.

Current project risks include:

- Timely completion of Separable Portion 2
- Rectification of defects identified during the Defects Liability Period for Separable Portion 1
- Assessment and settlement of outstanding contract variations and forecast variation claims
- Final account negotiations
- Delivery of the public artwork component
- Management of remaining project costs through to final project completion and close-out.

If Council does not approve the proposed budget amendments, there is a risk that the project budget will not accurately reflect the revised expenditure profile, reducing the City's ability to meet remaining contractual obligations and complete final project delivery activities.

Approval of the recommendation will ensure the project budget aligns with actual expenditure, forecast completion costs and remaining contractual obligations while maintaining appropriate financial capacity to facilitate successful project completion.

A post-project financial reconciliation will be undertaken following project completion and financial close-out to provide transparency regarding final project expenditure, major cost drivers and utilisation of contingency and variation allowances.

14.4.1 (2026/MINUTE NO 0157) Spearwood Dalmatinac Sport and Community Club - Rates Reimbursement Request

Responsible Executive Director Community and Place

Author(s) Community Grants Coordinator

Attachments 1. Spearwood Dalmatinac Sports and Community Club request for reimbursement 2026-27 ⇩

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) RECEIVES the request from Spearwood Dalmatinac Sport and Community Club Inc. for reimbursement of 50% of its annual rates for the 2026-27 financial year, excluding the Emergency Services Levy and waste charges; and

(2) APPROVES a contribution of $10,364 towards the Club's annual rates for the 2026-27 financial year, excluding the Emergency Services Levy and waste charges.

CARRIED 9/0

Background

The Spearwood Dalmatinac Sport and Community Club Inc. (SDSCC) is located at 42 Azelia Road, Spearwood, and operates as a long-standing sporting, social and community club within the City of Cockburn. The Club provides a range of sporting, recreational and community-based activities and facilities for local residents.

Unlike most sporting clubs within the City's leasing portfolio that operate solely from City owned land, SDSCC occupies a site comprising two City owned land parcels at Lot 101 Hamilton Road and a centrally located freehold parcel owned by the Club at 42 Azelia Road. The City owned land consists of two parcels: the western parcel, which contains bowling greens, netball courts and associated hardstand areas, and the eastern parcel, which contains a soccer oval. As the owner of the freehold land, the Club is responsible for the associated municipal rates.

In recognition of the Club's community contribution and unique land tenure arrangement, Council has historically provided assistance through reimbursement of a portion of the rates payable on the freehold land.

At the Ordinary Council Meeting held on 8 June 2023, Council resolved that a report regarding the rates reimbursement arrangement be presented to Council within 12 months.

Council subsequently considered the matter at the Ordinary Council Meeting on 11 June 2024 and resolved that SDSCC must submit an annual request for a contribution towards its annual rates, excluding the Emergency Services Levy and waste charges. The request is required to outline the percentage of reimbursement sought and demonstrate the value the concession provides to the Cockburn community.

Submission

N/A

Report

SDSCC continues to provide significant sporting, recreational and community benefits within the City. The Club maintains facilities across a unique land tenure arrangement that includes both leased City land and Club-owned freehold land which attracts municipal rates. While many sporting clubs operating on City-owned land do not incur rates obligations, the Club's ownership of the central land parcel creates an atypical circumstance. The requested contribution recognises this unique arrangement and is consistent with Council's previous consideration of the matter.

In accordance with Council's resolution of 11 June 2024, SDSCC has submitted a request for reimbursement of 50% of its annual rates for the 2026-27 financial year, excluding the Emergency Services Levy and waste charges (refer Attachment 1).

The Club's submission outlines its ongoing contribution to the Cockburn community through the provision of sporting, recreational, and community activities, including opportunities for residents and community groups to access and utilise its facilities.

At the time of assessment, the Club had not provided audited financial statements as requested under the funding guidelines. While independently prepared financial statements were provided, these do not constitute an external audit. Officers have therefore assessed the application with consideration to the information available and

have noted the applicant's inability to provide audited financial statements due to cost constraints. While the application does not fully satisfy the financial reporting requirements outlined in the Guidelines, officers are satisfied that sufficient financial information has been provided to assess the Club's financial position and support the recommendation contained within this report.

The western portion of the site, comprising City owned land, is subject to a five-year lease that commenced on 22 August 2025 at a nominal rent of $1 per annum, with an estimated gross rental value of approximately $42,146.49 per annum. Under the lease, SDSCC is responsible for all utility, facility and service charges directly relating to the premises, any applicable statutory costs, and the maintenance of improvements, fixtures, fittings, playing surfaces and installed court equipment.

As of 1 January 2026, the eastern portion (Dalmatinac Park), also comprising City owned land, is managed and maintained by the City's Recreation Services team and is available for seasonal and casual hire by SDSCC and other community organisations.

The total improved commercial rates applicable to the Club-owned property for the 2026-27 financial year, excluding ESL and waste charges, are $20,727.57. The requested contribution of 50% equates to $10,364.

Council has allocated $10,364 within the 2026-27 Grants, Donations and Sponsorship budget for a potential contribution towards the Club's annual rates. Council is now required to determine whether to provide a contribution for the 2026-27 financial year, having regard to the community benefit delivered by the Club, its unique land tenure and lease arrangements, and the value of the investment to the City.

Strategic Plans/Policy Implications

Our Community
A diverse, active, and connected community that feels safe and has access to local services.
• Promote and support active, healthy lifestyles through recreation and wellness.

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.

Budget/Financial Implications

Council has allocated $10,364 within the adopted 2026-27 Grants, Donations and Sponsorship budget for a potential contribution towards the Club's annual rates. Should Council approve the request, the contribution can be funded from this existing budget allocation with no additional budget adjustment required.

Legal Implications

Any approved contribution would be provided in accordance with Council's resolution and funded through the City's Grants, Donations and Sponsorship budget allocation. The proposed contribution is consistent with Council's resolution of 11 June 2024 requiring the Club to submit an annual application demonstrating community benefit and the percentage contribution sought. No additional legal agreements are required.

Community Consultation

N/A

Risk Management Implications

The City is committed to ensuring funding and financial assistance is provided in a fair, transparent and consistent manner, aligned with approved policy and guidelines, Council decisions and strategic objectives. Providing financial assistance outside established criteria may expose the City to reputational risk and undermine community confidence in Council's decision-making. Accordingly, any contribution should demonstrate a clear community benefit and represent an appropriate use of public funds. Conversely, declining the request may be perceived as inconsistent with Council's previous recognition of the Club's unique tenure arrangements and community contribution.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 October 2026 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

Nil.

Mr Daniel Simms
Chief Executive Officer
City of Cockburn.

Dear Daniel

ANNUAL RATES REIMBURSEMENT – 2026/27

I submit for consideration by Council for reimbursement of 50% of our annual rates to reflect the value Spearwood Dalmatinac Sport and Community Club (SDSCC) provides in services and facilities, primarily for the people of Cockburn.

The list of services and facilities that are provided and funded by the club's members are as follows.

SDSCC has one of the largest netball clubs in the region with about 40 netball teams who train on 4 open courts as well as an indoor training facility. The club is in the process of planning a new netball facility to be primarily funded by the club.

SDSCC has 7 amateur soccer teams

SDSCC has a lawn bowls annex comprising of 6 men's teams and 1 women's team.

Approximately 300 darts players use our excellent darts facilities 3 nights every week and at least one Sunday each month as well as occasional regional championships.

Every second Tuesday, lunch and entertainment for seniors is held in our hall and run by the Incasa group.

A basketball club uses our indoor sports pavilion to train their junior teams.

SDSCC provides a venue for our member, particularly seniors, to socialize, e.g. playing cards, afternoon teas etc.

SDSCC has a Classic Car Club for our members and their guests who share a passion for old classic cars and meet regularly to showcase their vehicles and socialize.

Futsal has become a very popular activity using our indoor sports pavilion. A considerable amount of money has been spent recently resurfacing the floor with tiles that provide a safe surface for the players.

Bingo for seniors is very popular at our club and is played every week as well as 1 Sunday each month.

This club is in the process of introducing Padel Ball and negotiating with the Council for installation of 5 courts.

It is evident that SDSCC provides many services to the community at a very low cost to members. The only requirement the club makes is that each person should be a member. The club membership fees are very reasonable, the lowest fee being $25 per year.

SDSCC is a not-for-profit organisation and operates on a very tight budget with the aim of providing a venue for social and sports activities for our members. The workforce is primarily made up of volunteers. Most of our funding comes from bar and kitchen facilities.

On the basis of the services we provide in the Cockburn district, we seek to have 50% of our annual rates refunded.

Kind regards
Denis Tomasich

14.5 Office of the CEO

14.5.1 (2026/MINUTE NO 0158) Council and Committee Meeting Dates - 2027

Responsible Executive	Chief Executive Officer
Author(s)	Service Lead Governance and Council Support
Attachments	1. Council and Committee Meetings and Briefings Calendar 2027

Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) ADOPTS the dates for the following Council and Committee Meetings, as shown in the attached calendar:
   1. Ordinary Council Meeting
   2. Agenda Briefing Forum
   3. Special Council Meeting
   4. Audit Risk and Improvement Committee
   5. Governance Committee; and

(2) NOTES the dates for the following Council meetings and briefings, which may change with the approval of the relevant Presiding Member:
   1. Briefing Forum
   2. Quarterly Performance and Planning Update (QPPU)
   3. Budget and Planning Workshop (BPW)
   4. Grants, Funding and Events Working Group (GFEWG)
   5. CEO Performance Review Forum.

CARRIED 9/0

Background

The CEO is required, by the end of the year, to publish on the website the dates of next year's ordinary meetings of council and committee meetings.

This report presents to Council a proposed calendar of Council and Committee meetings and briefings, for Council consideration.

Submission

N/A

Report

The Council and Committee meetings and briefings calendar sets out the dates for the following meetings, aligned with the meetings and briefings structure adopted by Council in September last year:

1. Ordinary Meetings of Council
2. Special Meetings of Council (budget adoption and post local government elections)
3. Audit Risk and Improvement Committee
4. Governance Committee
5. Briefing Forum
6. Quarterly Performance and Planning Update
7. Budget and Planning Workshop
8. Grants, Funding and Events Working Group
9. CEO Performance Review Forum

The calendar was created with input from staff responsible for the above Council and Committee meetings and briefings to ensure alignment and that the proposed dates will work from an operational perspective.

The calendar was also presented to Council at the August QPPU for feedback.

The following principles informed the creation of the calendar:

- No meetings in January (other than AGM – date TBA based on adoption of annual report)
- No meetings or briefings in December after the OCM
- Agenda Briefing Forums and OCM dates are set as first and second Tuesday of each month
- Committee meetings to be the third Tuesday of the relevant month
- Preference for a Briefing Forum every month (other than December and January)
- There are to be no additional meetings/briefings the week of Agenda Briefing Forums or OCMs
- Council and Committee meetings and briefings to be avoided during the caretaker period
- Meetings and Briefings should be avoided during the WALGA AGM or ALGA NGA (noting that next year's dates have not been released – a best-guess method was adopted based on historical dates)
- WALGA Zone meetings and State Council Meetings should be avoided (State Council Meeting dates are also best-guess at this point in time)
- September OCM will be pushed forward 2 weeks to avoid the mandatory caretaker period
- Third and Fourth weeks of October reserved for Council induction and orientation (exception – QPPU)
- CEO Performance Review Forums to be standalone workshops i.e., nothing else on that night.

Additional meetings and briefings may be called throughout the year, as deemed necessary by the CEO or relevant Presiding Member.

To maintain flexibility in the scheduling of meetings, City officers recommend that Council note the proposed dates for meetings other than Ordinary Council Meetings and Committee Meetings. Formal adoption of these dates would require a further Council resolution to make any changes, which may create unnecessary practical difficulties should rescheduling be required.

Strategic Plans/Policy Implications

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.

Budget/Financial Implications

There are no significant budget or financial implications arising from the recommendations of this report.

Legal Implications

The CEO is required, by the end of the year, to publish on the website the dates of next year's ordinary meetings of council and committee meetings.

Community Consultation

N/A

Risk Management Implications

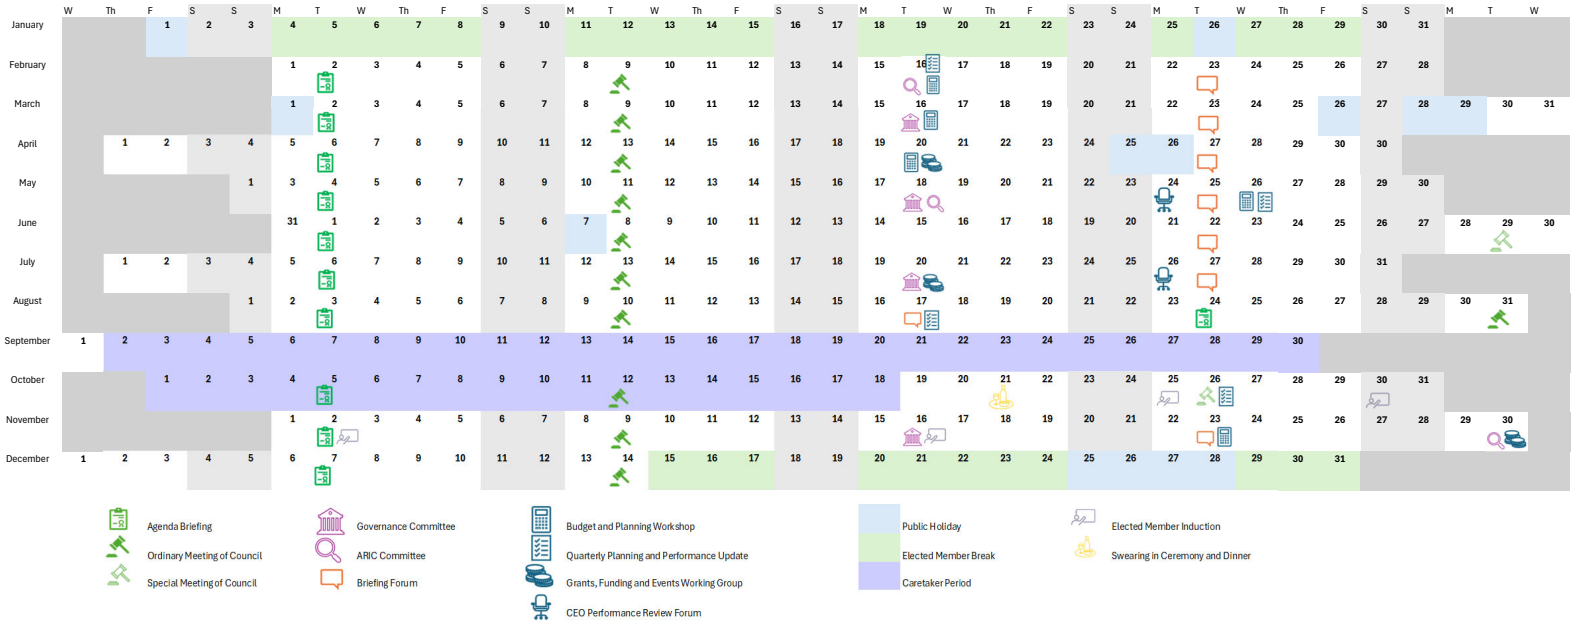

There is a low level of risk associated with adopting the officer recommendations as presented to Council. It ensures Council determines a calendar for Council and Committee meetings and briefings next year, allowing the CEO to publish the dates of the ordinary meetings of council and committee meetings on the website, as required by the *Local Government Act 1995*.

15.1 Audit Risk and Improvement Committee Meeting – 22/09/2026

15.1.1 (2026/MINUTE NO 0159) Financial Audit Results – Local Government 2025 (Office of the Auditor General)

Executive	Director Corporate and System Services
Author	Chief Financial Officer
Attachments	1. Local Government 2025 - Financial Audit Results ⇩

Officer Recommendation/Committee Decision/Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council RECEIVES the Office of the Auditor General's report on Local Government 2025 - Financial Audit Result.

CARRIED 9/0

Background

Responsibility for conducting financial audits of all local government entities rests with the Office of the Auditor General (OAG). For the 2024-25 financial year, the City's audit was delivered by KPMG, engaged by the OAG to carry out the audit activities on its behalf.

The Auditor General's report, Local Government 2025 - Financial Audit Results, (the report) was tabled in Parliament on 15 April 2026. The OAG is required by legislation to report annually to Parliament on the outcomes of financial audits conducted across the local government sector. This includes audit opinions on individual council's annual financial statements and sector-wide observations, highlighting areas for improvement and ongoing concerns.

This report is brought to the Audit, Risk and Compliance Committee for review and to address the recommendations made by the OAG.

Submission

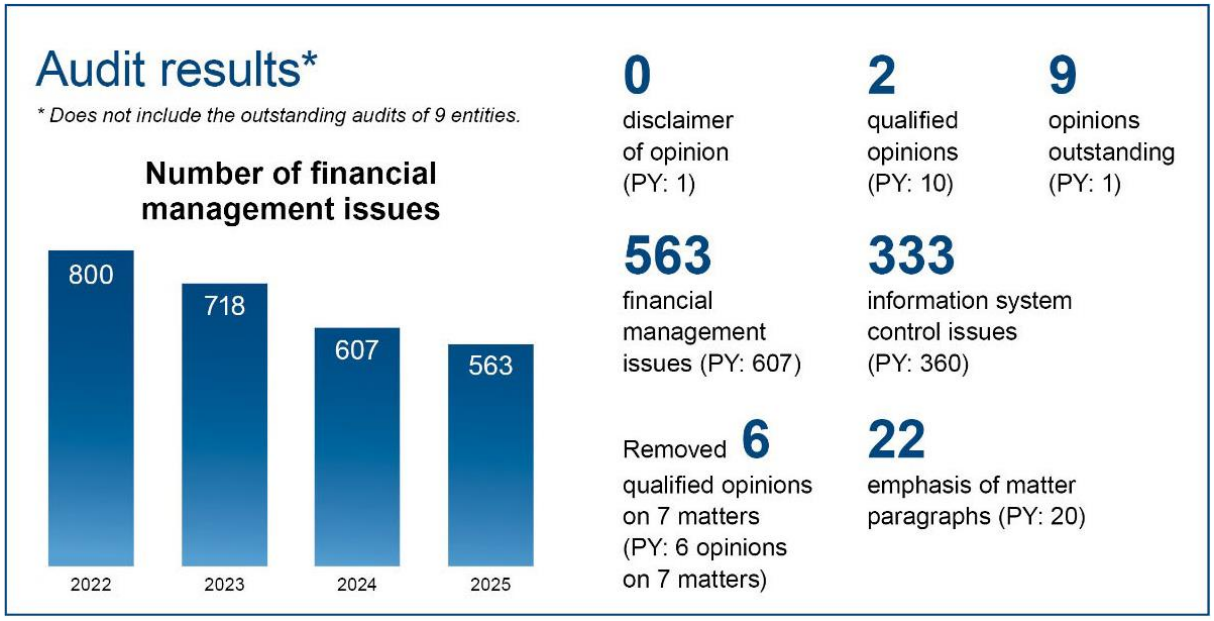

N/A

Report

The report summarises the results of financial audits for 138 of the 147 local government entities for the year ending 30 June 2025. It also includes the finalised

results of 11 audits outstanding at the time of the Local Government 2023-24 Financial Audit Results report. This marks the fourth year the OAG has audited the entire local government sector, enabling a holistic view of its financial performance.

Notably, the number of qualified audit opinions decreased from ten to two, and financial management findings declined by 7.2% compared to the previous year.

Source: OAG

The Auditor General also reported progress in audit timeliness, with 91.8% of councils receiving their audit opinions by the 31 December 2024 deadline, an increase from 89% the previous year.

The City of Cockburn's 2024-25 financial audit was completed within the timeframe agreed with the OAG, and the City received a clear audit opinion. The City was also recognised by the OAG as one of its top 10 Band 1 and 2 entities for financial reporting practices.

One minor financial management finding was identified, a reduction from the previous year. An enhanced year-end review process has been implemented to address the finding. Overall, the audit reflects a strong outcome for the City, including a clear audit opinion, timely reporting, and an audit ready financial report

OAG Recommendations

The recommendations provided by the OAG in its report are summarised in the table below, along with the City's corresponding responses.

Recommendation	City Comment
Entities should:	
a. Submit good quality, reviewed and CEO-signed financial reports for audit, no later than 30 September. Earlier submission is encouraged. CEO certification should indicate that management and those charged with governance are satisfied the financial report is complete, accurate and supported by underlying work papers. Supporting work papers and reconciliations should be available when financial reports are lodged. All content should be error free	The City agrees with this recommendation and continues to demonstrate steady improvement in the quality of its draft financial reports submitted for CEO sign off and audit by 30 September. This improvement is reflected in the City's recognition as a best practice entity among the OAG's top 10 band 1 and 2 entities.
b. Communicate to the auditor their assessment of the significance of errors and determine whether adjustments are required. Entities should also analyse the root cause of identified errors.	Consistent with the same recommendation made last year, the City agrees and remains committed to continuous improvement. This is demonstrated by its track record of addressing previous errors and adjustments in consultation with the auditor demonstrates this commitment.
c. Communicate delays to financial report submission early to minimise disruptions and enable effective resource allocation. Flexibility may be required when rescheduling audits.	Not applicable. The City consistently meets all required reporting submission deadlines.
d. evaluate opportunities to submit financial reports earlier for audit.	The City manages several complex accounting matters requiring significant year-end review, including the landfill rehabilitation valuation. While annual financial reporting deadlines are consistently met, sufficient time is required to ensure the financial statements are accurate, complete and appropriately reviewed prior to submission for audit. Opportunities to streamline processes and bring year-end processes will continue to be explored where practicable.

e. Exercise greater flexibility around committee and council meeting times.	Committee and Council meeting dates are set well in advance to support statutory reporting requirements, venue availability, elected member commitments and operational planning. Accordingly, there is limited flexibility to amend meeting dates or times once the annual meeting calendar has been adopted.
f. Ensure council attend audit entrance and exit meetings with the audit, risk and improvement committee, or that an appropriate delegation is in place. Audit entry and exit meetings are not intended to be part of public proceedings, but are undertaken to communicate audit plans, timeframes and findings with relevant entity staff and committee members.	Not applicable. Appropriate delegates attend the entrance and exit meetings on behalf of the City.

Auditor General's overview

This report summarises the results of our annual financial audits of 138 local government entities for the financial year ended 30 June 2025. It also includes results from 11 of the 12 audits outstanding at the time of the *Local Government 2023-24 – Financial Audit Results* report, which have since been finalised.

In 2025, we issued 136 clear audit opinions. Pleasingly, the number of audit qualifications has continued to decrease, with only two of the 138 entities included in this report for 2025 receiving qualified opinions. Of continuing concern is the quality of financial reports submitted for audit. The value of current year errors and the number of prior period errors increased largely as a result of issues linked to property and infrastructure assets. As my office has recommended over successive years, the sector required guidance to support a consistent understanding of valuation obligations and to improve valuation practices generally. So, it is pleasing that the Department of Local Government, Industry Regulation and Safety (LGIRS) recently published this guide on 5 March 2026 which entities can utilise in 2026.

Approximately 33% of entities provided five or more versions of their financial report to my audit teams, with one entity providing 19 versions. As I've said before, this signals a need for greater care and capability in financial reporting. Multiple revisions create delays, cost time and resources and reflect gaps in quality assurance processes. This requires priority attention by entities affected.

This year, for the first time, the online version of this report will include an interactive map graphic to provide insight on our assessment of entity performance from the perspective of financial management control issues raised. This is a useful tool for stakeholders to compare the performance of their local government to those in the surrounding areas or bands. Further, this analysis shows pockets of concerning performance and inability to meet statutory deadlines. We will update this map each year, with the view to showing year on year comparatives.

Of the audits delayed in 2024, four stand out: City of Nedlands, Shire of Coolgardie, Shire of Halls Creek and Shire of Yalgoo. These audits, in conjunction with other delayed audits in 2025 or prior years, were motivating factors behind issuing my recent *Status of Local Government Audits* report[1]. The added public oversight of audit delays is intended to improve timeliness.

This year my team performed some financial health analysis around entities' ability to meet their short-term payment obligations (current ratio) which shows numerous entities facing financial pressure (Appendix 9). Four entities had a ratio of less than one, meaning their current liabilities exceeded their current assets and they may not be able to pay their debts as and when they fall due. The four entities were the: Shire of Coolgardie, Shire of Derby-West Kimberley, Shire of Irwin and Shire of Victoria Plains. The sector-average current ratios continue to decline as do the median ratios. This reflects a sector declining in its ability to meet short-term financial obligations. Our opinion on the Shire of Coolgardie's 30 June 2024 financial report included a material uncertainty related to going concern, indicating that the Shire's ability to continue its financial operations (that is, its financial viability) was not assured. While these concerns were known to my office, they were not publicly disclosed until the Shire's audit report was issued in June 2025. Earlier intervention by councillors and CEOs, and failing that the LGIRS, the Local Government Inspector or the Minister is needed for entities in financial difficulty or crisis.

[1] Office of the Auditor General, *Status of Local Government Audits 2025*, OAG website, 28 January 2026.

It is pleasing to see the sector respond positively to our request to bring audit delivery forward by being audit ready however, there remains opportunities for improvement. The spike in issuing audit opinions (Figure 1) is not sustainable and requires all entities to prepare for earlier completion, thereby enabling more timely reporting to all key stakeholders.

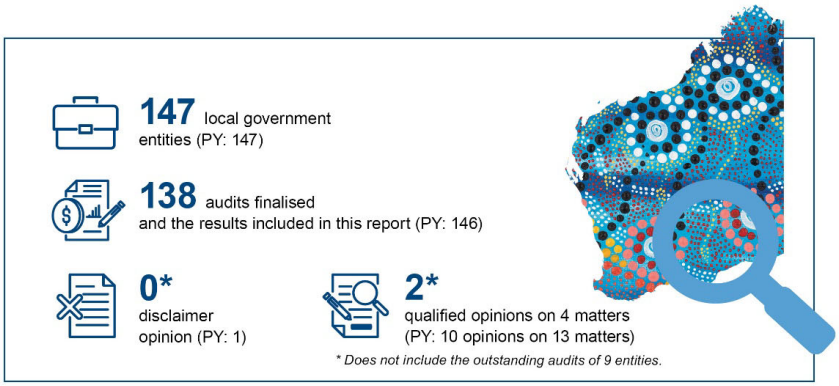

Our advocacy work with entities and LGIRS in relation to legislative reforms has helped reduce certain review requirements for entities, without reducing transparency or accountability. This was a welcome change via the local government legislative reform. It was pleasing to see how responsive LGIRS were to suggestions, and I appreciate their engagement with my office.

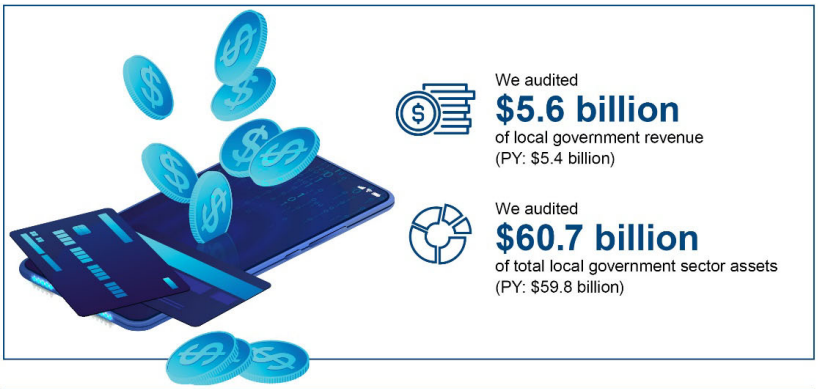

Finally, in response to sector feedback, we have refined our best practice entity reporting approach this year. To better reflect the diversity of local government entities, we have aligned our assessment to the WA Local Government banding model[2]. Stakeholders indicated that evaluating best practice at a sector-wide level was less meaningful, and that introducing a level of segmentation would provide clearer and more relevant insights. This change ensures our reporting is more comparable, equitable, and reflective of the unique operating environments within local government. I congratulate those entities recognised as best practice for 2025.

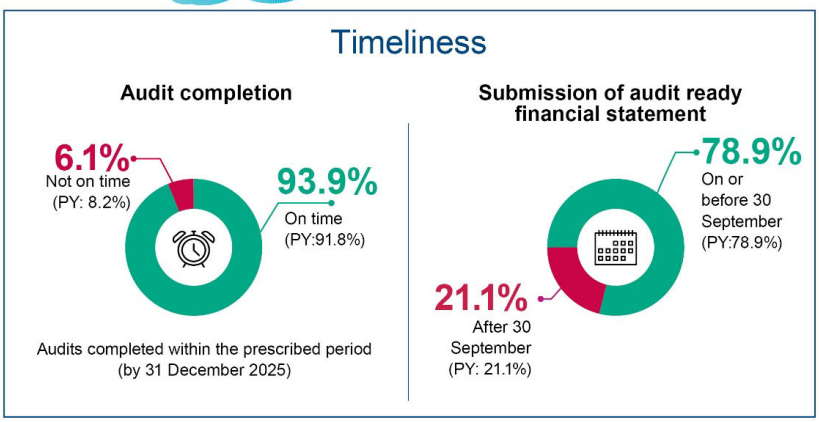

My sincere thanks also to entities, my staff and our contract audit firms for their continued diligent efforts in delivering timely reliable local government financial reports and audits for the Western Australian community.

[2] In Western Australia, local governments are classified into four bands based on the determination of the Salaries and Allowances Tribunal. These bands are used to determine the maximum and minimum number of council members based on the population of the local government district. The classification of local governments into these bands is a key aspect of the *Local Government Act 1995* and is subject to change with new regulations and amendments.

Review of the 2025 financial year

What we did

Our financial audit program is performed under the related Auditing and Assurance Standards Board standards. Our focus is on ensuring the accuracy of an entity's annual financial statements. This report summarises the results of the financial audits of local government entities for the year ended 30 June 2025. It includes the results for 138 of 147[3] entities (Appendix 1), with the remaining nine entities included in our *Status of Local Government Audits 2025* report[4]. Appendix 1 also includes opinion types by local government band to enable entities to compare their own results.

Summary of audit opinions

For the financial year ended 30 June 2025, we issued clear opinions for 136 entities by 31 December 2025, and two audit opinions were qualified. We included 22 emphasis of matter (EoM) paragraphs in the auditor's reports of 22 entities. We also issued 11 audit opinions for entities from previous financial years.

Audit year	2024	2025
Number of entities subject to OAG audit	147	147
Number of entity audits included in results report	135	138
Number of entity audits included in updated statistics	146	N/A
Clear (unqualified) audit opinions	135	136
Qualified opinions	10	2
Disclaimer of opinion	1	0
Material uncertainty related to going concern	2	0
Emphasis of matter paragraphs	20	22

Source: OAG

Table 1: Audit results for the past two years

Entities that did not make the 2024 results report cut-off included in this report

At the cut-off date of this report, with the exception of the Shire of Yalgoo, all entities outstanding in the *Local Government 2023-24 – Financial Audit Results* report have now been finalised. While many of these entities received clear 2024 audit opinions, this may not have been the case had the audits been completed on time. The delays with these audits were mostly to give entities time to provide more evidence and correct their financial report. Delays in audits present significant inefficiencies, cost impacts and resourcing pressures on audit teams.

Disclaimer removals

Following a disclaimer of opinion, we generally qualify the comparability of the current year's financial results with the prior year, as the prior year figures were not audited and may be incorrect. Further, when an entity restates figures from a disclaimer year, and they cannot be

[3] 31 December 2025 is the statutory deadline for local government entities to complete their audits and is used as the statistics cut-off date for this report.

[4] Office of the Auditor General, *Status of Local Government Audits 2025*, OAG website, 28 January 2026.

audited, another related qualification is issued. These qualifications alert users to exercise care when comparing the two years.

The 2024 audit reports for the City of Nedlands and Shire of Halls Creek (issued during 2025) featured disclaimer removals, as did the Shire of Toodyay's 2025 audit report.

The City of Nedlands 2024 audit report contained one qualification on comparability as the prior year numbers could not be audited.

The Shire of Halls Creek 2024 audit report contained three qualifications:

- one was on comparability as the prior year restated numbers could not be audited
- a related qualification, the current year disclosure note on the restated numbers could not be audited
- a third qualification for not valuing other infrastructure assets at 30 June 2022 or 2023.

The Shire of Toodyay 2025 audit report contained three qualifications:

- two were as per the Shire of Halls Creek, comparability of restated numbers which could not be audited, and the related disclosure note
- a third qualification was for unreconciled amounts in cash and cash equivalents.

Full details of the qualifications issued for these three entities can be seen in Appendix 4.

Two qualified opinions

The Shire of Boyup Brook and the Shire of Toodyay were the only entities to receive qualified audit opinions in 2025. This represents a decrease compared to 2024, which recorded 10 entities with audit qualifications out of 146 completed audits. We expect there will be more audit qualifications to come from the nine entities that did not meet their statutory deadline.

The two qualified entities in 2025 had four qualification matter paragraphs, two of which relate to prior year disclaimed opinions (refer above: disclaimer removals). The audit qualifications are included in Appendix 4.

Emphasis of matter paragraphs (EoM)

In 2025, we included 22 EoM (Appendix 5) paragraphs in 22 entity audit reports which is relatively on par with the 20 EoM paragraphs included in 20 reports the prior year. We expect the number of EoM's to increase as the outstanding nine audits are finalised. This year EoM paragraphs directed the readers' attention to:

- restatements of comparative figures or balances to correct prior period errors, largely related to property and infrastructure assets (2025: 16 entities) (2024: 16 entities)
- the basis of accounting used by the entity (2025: 2 entities) (2024: 1 entity)
- investment in associates (2025: 4 entities) (2024: 0).

This year we refined our use of EoM paragraphs relating to prior period errors. Auditing standards allow judgement in this area. We now only include an EoM where errors are deemed fundamental to users' understanding of the financial report. This ensures EoMs highlight to users what is essential for their consideration. While the number of EoM paragraphs this year is similar to 2024, all 2025 errors were serious enough to impact users' understanding of the financial report. This is more concerning, especially as the number would have been higher without our refined EoM approach.

We have a section of this report dedicated to prior period errors, refer to the prior period errors section. A full description of EoM paragraphs is included in Appendix 5.

Material uncertainty related to going concern

Under Australian Auditing Standards, we consider whether events or conditions exist that may cast significant doubt on the entity's ability to continue as a going concern. Essentially, if an entity can fund their continuing operations, they are considered to be able to continue as a going concern.

This applied to the Shire of Coolgardie's 30 June 2024 financial position. This audit was not finalised until June 2025 and therefore it was not included in our *Local Government 2023-24 – Financial Audit Results* report[5]. The audit had challenges largely stemming from the Shire's financial situation and resourcing issues.

The material uncertainty related to the Shire's ability to continue as a going concern, as it had incurred a net loss of $4.6 million for the year ended 30 June 2024. At that date, the Shire's current liabilities exceeded its current assets by $14.2 million and the unrestricted cash balance was overdrawn by $934,000. The Shire disclosed these details along with options available to them to navigate their way through these challenges in a note to the financial statements.

The Shire's 30 June 2025 audit report did not include a material uncertainty related to going concern. A case study of the Shire's financial health is included in the section on financial health of local governments.

Provision of quality financial reports enables timely financial reporting

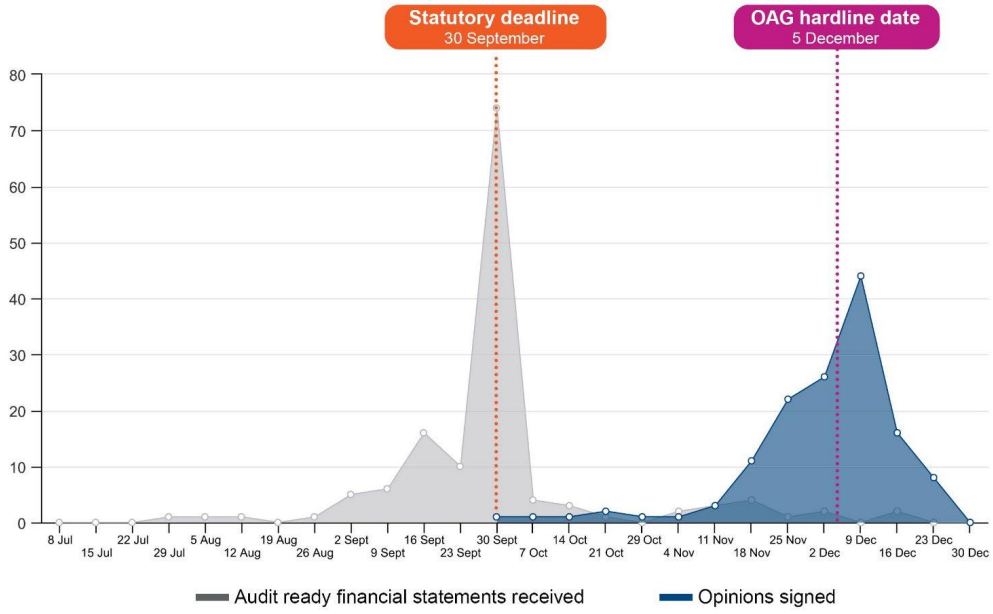

Provision of financial reports

While 84% of the 138 local government entities included within this report provided their financial report by the legislated deadline of 30 September 2025, 54% of entities provided their financial report during the week of the deadline. One-third of entities provided their financial report to the auditors on the deadline. This can be seen in the clear spikes in Figure 1 which suggests entities may be aiming for legislative compliance rather than better practice. Similarly, there is a peak in the number of audit opinions issued at the date of our hardline initiative[6], on 5 December for 2025. In the week ended 5 December 2025 we issued approximately a third of the 138 opinions included in this report. Again, this represents compliance rather than better practice. To encourage sector-wide uplift and a culture focused on improvement, we encourage entities to access our suite of better practice and audit readiness tools to assist them in earlier financial reporting.

An audit-ready financial report is the starting point for a financial audit, without this, auditors are unable to commence their work in earnest. Also of concern is the accuracy of the financial reports provided. Only 6% of entities required no adjustments to their financial report. The remaining entities needed to make adjustments to their financial report, indicating a lack of quality. Further details on audit adjustments are included in the quality section of this report.

[5] Office of the Auditor General, *Local Government 2023-24 Financial - Audit Results*, OAG website, 24 April 2025.

[6] Our hardline initiative is focused on improving the quality and timeliness of financial reports and associated workings provided for audit. As part of the approach, we will no longer wait until the entity is ready if key information and people are not reasonably available within the agreed schedule. Instead, we will issue our audit opinion on the information available, even if this results in a qualified audit opinion.

Source: OAG

Figure 1: Financial reports received and audit completion dates by week

Timeliness of reporting

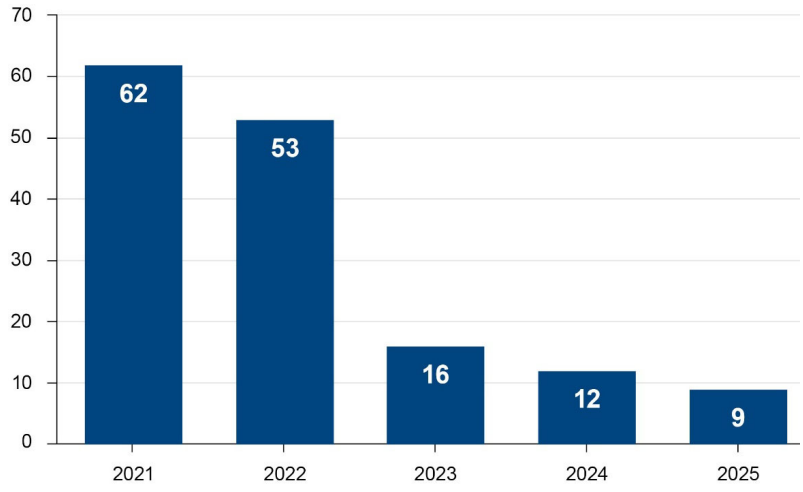

More opinions meeting statutory deadlines

For the first time, we issued a standalone report on the timeliness of local government audit opinions[7]. This new reporting initiative increases transparency, to Parliament and the community, on entity financial report progress and reinforces our commitment to issuing all audit opinions by 31 December, in line with legislated timeframes.

In 2025, 94% of local government audit opinions were issued by the statutory deadline, a continued improvement on prior years. We anticipate further improvement in 2026, with the long-term aim that all audits are completed well within the required timeframe.

Since 2023, we have provided entities with an early December target date, previously referred to as the OAG hardline initiative, to support earlier audit completion and reduce the risk that minor delays push audits beyond 31 December. For the 2025 cycle, this date was 5 December. This initiative has contributed to a significant reduction in the number of audits outstanding at 31 December, as shown in Figure 2.

[7] Office of the Auditor General, *Status of Local Government Audits 2025*, OAG website, 28 January 2026.

Source: OAG

Figure 2: Number of audits outstanding at 31 December for the last five years

For the nine outstanding audits included in the *Status of Local Government Audits 2025*[8] report in January 2026, the only substantive change is for the Shire of Yalgoo with their 2023 and 2024 audits now finalised, and the Shire of Dalwallinu with their 2025 audit now finalised. For both 2023 and 2024 the Shire of Yalgoo's audit opinions were qualified in respect of:

- bank reconciliation issues
- accrued income recoverability
- valuation of infrastructure asset (roads) not being undertaken.

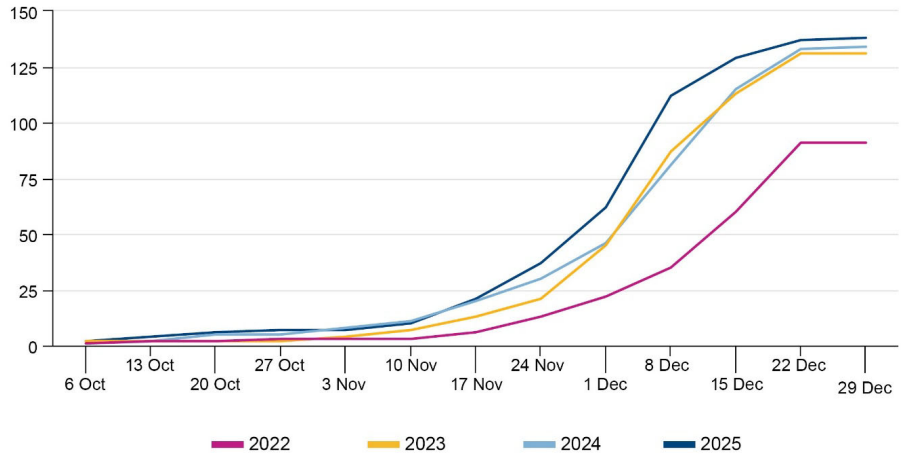

Despite delayed lodgements in 2024 the following entities, through appropriate commitment and resolve, successfully addressed the contributing issues and met the statutory deadline in 2025:

- City of Greater Geraldton
- Shire of Bridgetown-Greenbushes
- Shire of Collie
- Shire of Coolgardie
- Shire of Dundas
- Shire of Nannup
- Shire of Toodyay (last met the statutory deadline in the 2020 financial year)
- Shire of Wickepin
- Town of Cottesloe.

[8] Office of the Auditor General, *Status of Local Government Audits 2025*, OAG website, 28 January 2026.

Overall Progress is positive, but audit bottleneck continues

Figure 3 shows that 2025 was ahead of previous years in terms of number and timing of opinions issued. While the improvement in timeliness is encouraging, there continues to be a bottleneck of audit opinions being issued in December.

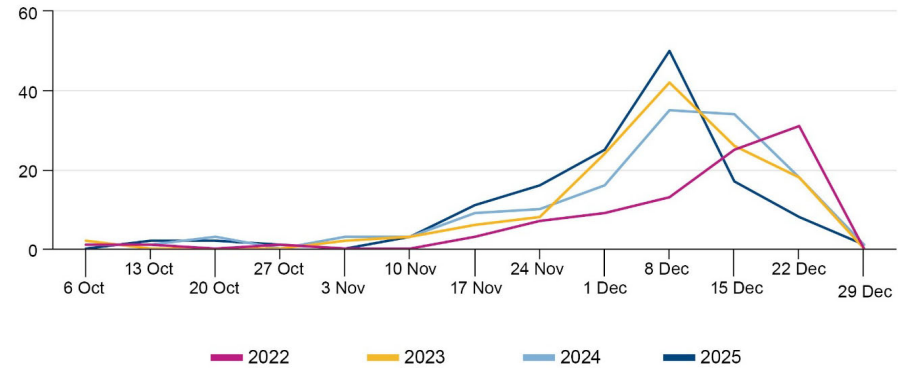

Source: OAG

Figure 3: Cumulative opinions issued from October to December for 2022 to 2025

We are pleased with the sector successfully responding to our efforts to bring audit delivery forward before the 31 December deadline, although there remain opportunities for improvement. There is concern that entities treat our hardline initiative date as their target for receiving an opinion. There were 58% of 2025 local government opinions issued in December, with 33% of opinions issued during the week ended 5 December 2025. The clear spike in opinions issued around this date is shown in Figure 4.

This spike in issuing opinions is unsustainable. Looking forward we want to see entities preparing for earlier audit completions to create a smoother curve of opinions being issued, rather than a sharp spike. This would enable earlier reporting by entities to their ratepayers and have the added benefit of reducing the pressure on finance teams and auditors.

Source: OAG

Figure 4: Opinions issued per week 2022 to 2025

Quality

Good quality financial reports are accurate, clear and complete.

Errors and the number of versions of the financial report submitted to audit are indicators of the quality of financial operations of an entity. Both are indicative of a weakness in an entity's financial report preparation process. It creates additional effort, both internally for the entity and for the auditor, which leads to increased costs (internally and audit fees).

Prior period errors are increasing

A prior period error is a significant misstatement or omission, made by an entity in previous financial years, identified during the current year. It is usually corrected retrospectively by restating the opening balances in the financial statements. Entities with prior period errors have increased by 13% from 2024, with the 2025 numbers subject to increase as the nine outstanding audits are finalised. Many errors relate to asset accounting.

Common themes were:

- found assets
- valuation errors
- duplicate assets.

The growth in prior period errors and continued presence of asset related errors demonstrates a need for entities to focus on improving their asset accounting processes. As revaluations are only required every five years, many entities are in the outer year of a valuation cycle. We expect these errors could get worse in a valuation year.

A compounding issue with prior period errors, once identified, is that many entities are unsure how to correctly account for and disclose these errors in their financial reports. This contributes to inconsistent treatment across the sector and increases the level of auditor involvement required to resolve the matters.

Financial report versions still too high

On average we received four versions of an entity's financial report in 2025, similar to 2024. While the proportion of entities with only one version of the financial report prior to finalisation has increased to 6% (3% in 2024), this proportion is insufficient.

Approximately 33% of entities provided five or more versions of their financial report to audit, which is consistent with the previous year. We consider five or more versions of a financial report to be excessive, and indicative of a lack of financial management and reporting expertise and audit readiness by entities. One entity was a concern with 19 versions of their financial report provided to audit. This is an increase from 2024 where one entity had 16 versions for their financial report before finalisation.

Each version of the financial report provided to auditors needs to be reviewed, compared to previous versions with changes being queried and validated. All of which increase audit hours and costs. Entities should be aiming for one to two versions of their financial report. Any more than this indicates inadequate quality review processes in the preparation of the report.

Value of errors increase in 2025

The number and value of adjustment errors made to financial statements increased in 2025.

Errors are identified during the audit process, and we advise entities of those that are more than clearly trivial. Material errors must be corrected to avoid a potential modified opinion,

while immaterial errors may be left unadjusted where they do not affect the fair presentation of the financial report.

Year	Adjusted errors			Unadjusted errors			Total errors	
	No. of entities	No. of errors	Value	No. of entities	No. of errors	Value	No. of errors	Value
2025	98	301	$674,314,611	55	125	$43,987,252	426	$718,301,863
2024[9]	100	297	$393,532,137	63	137	$58,713,391	434	$452,245,528
2023	100	285	$1,125,288,333	59	104	$69,157,705	389	$1,194,446,038
2022	91	335	$1,613,529,048	58	132	$50,668,884	467	$1,664,197,932

Source: OAG

Table 2: Adjusted and unadjusted errors for entities

Entities should exercise discretion when considering adjustments for immaterial errors. While these smaller errors may not affect the fair presentation of the financial report, processing and validating them consumes time and resources.

Entities need to strike a balance between the overall objective of presenting a fair financial report and the additional effort required to process adjustments. Each adjustment not only increases the entity's workload but also requires auditors to perform further validation and review additional versions of the financial report, increasing audit time and cost, and resulting in delay for both parties.

While the overall number of errors for 2025 appears relatively consistent with 2024, we expect this to increase once the nine outstanding audits are finalised.

The Shire of Toodyay and Town of Claremont had the equal largest number of adjusted errors in 2025, with 10 errors each. The Shire of Toodyay adjusted errors amounting to $10.3 million, whilst the Town of Claremont's adjustments amounted to $38.9 million. Two other entities were significant outliers due to the value of their adjustments:

- The City of Albany undertook infrastructure valuations (internally) for the 2025 financial year that indicated an increase in value of infrastructure assets of $148 million, which was recorded. However, the valuation was unable to be relied upon for audit purposes as it lacked sufficient supporting evidence. Accordingly, the revaluation adjustment was subsequently reversed.
- The City of Swan recorded $75.6 million across two adjustments to correct their works in progress (WIP) balance as disclosed in the note:
    - $18.5 million of property, plant and equipment (PPE) additions were incorrectly classified as transfers from WIP
    - $57.1 million in infrastructure additions were incorrectly classified as transfers from WIP.

  These changes only relate to the WIP balance and PPE disclosures and were not impacting the overall PPE balance in the statement of financial position.

These outliers contributed to the overall increase in value of errors; however, the uplift in error values is evident across the sector.

[9] 2024 numbers have been restated and are now inclusive of 11 entities which have been signed out since our *Local Government 2023-24 Financial Audit Results* report.

Best practice entities

This year we are reporting best practice entities in two categories:

- top 10 band 1 and 2 entities
- top 20 band 3 and 4 entities and regional councils.

This is a change from our prior reporting of a top 20 of all entities. The change better reflects differences, complexities and numbers of entities within the various bands. The number of entities in bands one and two makes up 30% of the total 147 local government entities. Bands three, four and regional councils make up the remaining 70%.

The criteria we rate entities on remains unchanged. We rate entities on their financial reporting practices against the following criteria:

- timeliness of CEO-certified financial report
- quality of financial report (including the number of errors identified)
- quality of working papers that support the financial report
- management resolution of accounting matters
- key staff availability during the audit
- number and significance of management letter findings
- clear opinion with no EoM or other audit report modifications.

We congratulate the entities we rated as the top achievers for 2025.

Best practice top entities

Table 3: Best practice entities for 2025

Control weaknesses

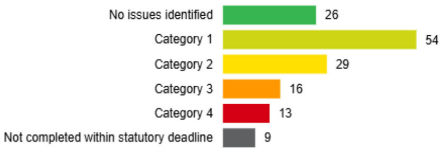

Improvements in overall control environment

An entity's control environment includes the governance and management functions as well as the attitudes, awareness and day-to-day actions that contribute to the internal control practices of importance to the entity. We reported a total of 896 control findings in 2025 which is a decrease from the prior year (967 control findings). These are made up of 563 financial management issues (2024: 607) and 333 information systems (IS) control issues (2024: 360).

For the first time in 2025 we have compiled an interactive map graphic to provide clear visuals on the comparative financial control performance of local governments. Figure 5 is only accessible via the online version of this report. This graphic can be filtered by WALGA region, local government band or metro or regional entities.

This is a useful tool for stakeholders to compare the performance of their local government to those in the surrounding areas. Further, this shows pockets of concerning performance and inability to meet statutory deadlines. We will update this map each year, with the view to showing year on year comparatives.

Source: OAG

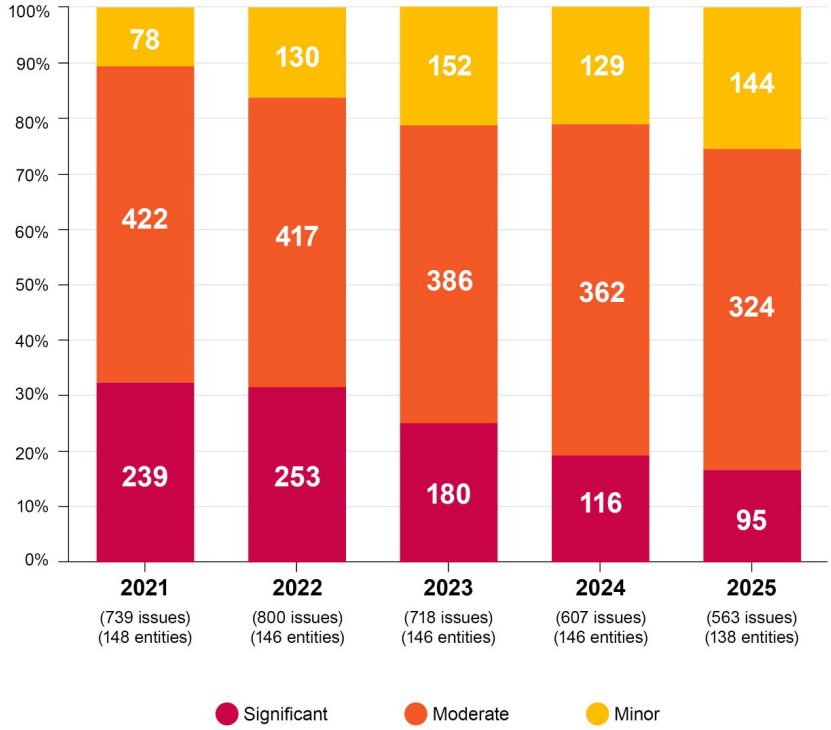

Figure 5: Entities by financial management control rating category

Our audits are primarily focused on controls that support the preparation of the financial report. A control environment with adequate systems, processes and people reduces the risk of error and fraud, and provides assurance to management, council and other stakeholders that financial reports are materially correct. We assess each entity's control environment during our risk assessment procedures. We report details of weaknesses identified through the audit process in the control environment to entities management and those charged with governance. The main themes of these weaknesses are discussed in further detail. We reported in detail the IS control findings in a separate report to Parliament.[10]

[10] Office of the Auditor General, *Local Government 2025 – Information Systems Audit Results report*, OAG website, 25 March 2026.

Financial management controls

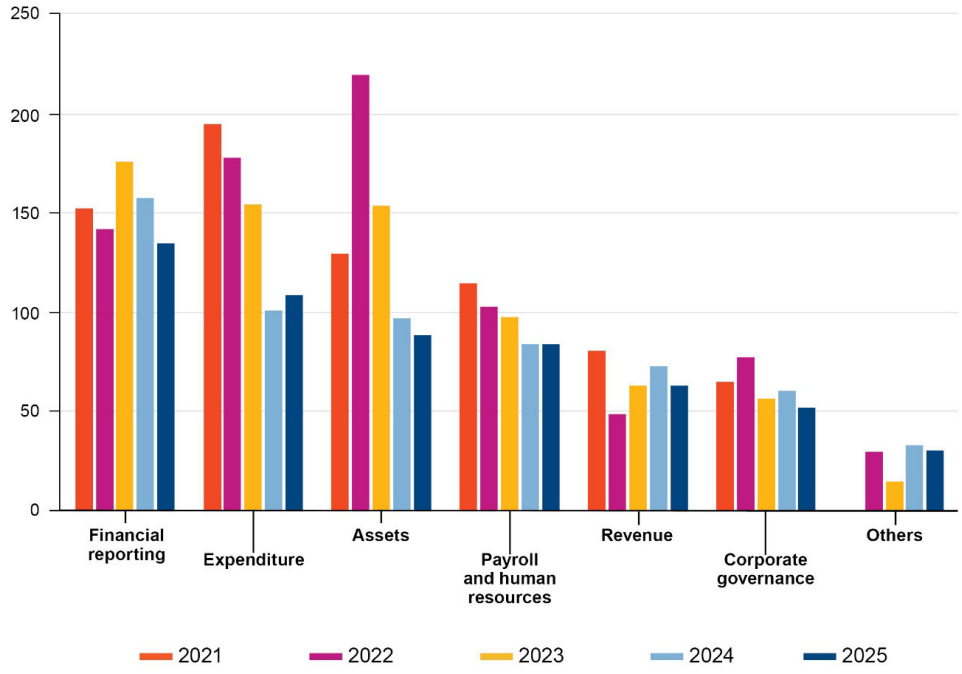

In 2025, management letter issues continued their downward trend, reducing from 607 in 2024 to 563. The number of entities with reported control weaknesses also decreased, from 130 in 2024 to 112 in 2025. The number of control weaknesses is expected to increase once the nine outstanding audits are finalised. The reduction was driven by fewer significant and moderate findings, though minor issues increased in both number and proportion as can be seen in Figure 6. Definitions of our finding risk ratings are included in Appendix 12.

Source: OAG

Figure 6: Proportion of control weaknesses reported to management in each rating category

The movement in findings by category was mixed for 2025, as seen in Figure 7. Financial reporting remained the largest area of concern, although the number of issues decreased slightly compared to 2024. Conversely, issues relating to expenditure increased modestly year on year. Other categories either decreased slightly or remained broadly consistent with 2024.

Source: OAG

Figure 7: Financial management control issues reported to entities by category

Financial reporting

We raised 135 issues (2024: 158 issues) across 70 entities (2024: 77 entities) relating to their financial reporting procedures. Of these issues, 49 were unresolved from the prior year and 14 were rated as significant.

- **Journal entries and reconciliations:** 27% of issues (36 issues) related to journal entries and general ledger reconciliations (excluding bank reconciliations). Journal entries are commonplace but present a high-risk area, as they adjust approved transactions. Key controls include appropriate review processes and segregation of duties between those who post and those who approve journals. Without these controls, the risk of error and fraud increases. Similarly, when finance system balances are not reconciled to sub-systems in a timely manner, errors within the financial report are more likely. These risks are further compounded when reconciliations are not appropriately reviewed. Importantly, these control weaknesses are readily addressed through the implementation of basic controls.
- **Policies and procedures:** 22% of issues (30 issues) related to policies and procedures, predominantly where they were outdated, not recently reviewed, or not implemented. Without up-to-date approved policies and procedures, staff may be unaware of council and management expectations regarding their responsibilities and the performance of key transactions and activities. This increases the risk of errors, fraud and non-compliance.
- **Bank reconciliations:** 16% of issues (22 issues) related to bank reconciliations. Bank reconciliations are a critical financial management control for all entities. As with

general ledger reconciliations, inadequate reconciliation processes increase the risk of errors and undetected fraud. This risk is heightened for bank reconciliations due to their direct connection to cash balances, which are more susceptible to misappropriation if controls are weak. We again found instances of basic reconciliations not being performed or reviewed in a timely manner, and reconciling items remaining long outstanding.

Preparation of an accurate financial report requires timely completion of reconciliations and high quality supporting working papers. These should be provided to auditors at the commencement of the audit. We expect the financial report to be reviewed by the CEO and council or the audit committee prior to submission, ensuring its completeness and accuracy. Following this review, the CEO should sign the financial report and submit it for audit. Guidance for entities is available in our better practice guides, accessible on our website[11].

Expenditure

We reported 109 expenditure weaknesses to 61 entities in 2025, compared with 101 issues to 64 entities in 2024. Of these 109 weaknesses, 33 were unresolved from the prior year and five were rated as significant. Poor procurement practices continue to be of concern, as they increase the risk of fraud and reduce the likelihood that entities achieve value for money. Entities need to ensure they have appropriate controls and processes in place that operate effectively to mitigate these risks.

- **Purchase orders:** As with previous years, we identified instances where purchase orders were raised after the invoice date and where entities did not seek an adequate number of quotes. Obtaining an appropriate number of quotes is an important control to ensure value for money. Purchases made without authorised purchase orders increase the risk of unauthorised spending. These issues accounted for 52% (57 issues) of all expenditure related findings.
- **Supplier master files:** Issues relating to supplier master files formed the second largest category of expenditure findings, representing 17% (19 issues). Strong controls over supplier master files are essential in preventing fraudulent payments. Where controls are weak, there is an increased risk that payments may be made to incorrect or fraudulent bank accounts.
- **Credit cards:** Credit card controls accounted for 16% (17 issues) of findings. We identified instances where credit card purchases were not supported by receipts, transactions were not appropriately reviewed or approved, and credit card policies were not complied with. This reflects non-compliance with policies and procedures and increases the risk of fraud.

Asset management

We identified 89 findings at 56 entities in 2025, compared with 97 findings at 57 entities in 2024. Of the 89 findings, 27 were prior year issues which remained unresolved, and eight were rated as significant.

- **Valuations:** Most asset management findings related to valuations, comprising 26% of issues (23 issues). This area was a key source of findings in 2023 but not in 2024. This fluctuation is partly due to the cyclical nature of valuations under local government regulations, which require entities to revalue assets every five years. Each year a different cohort of entities is due for revaluation, influencing the number and nature of findings identified.

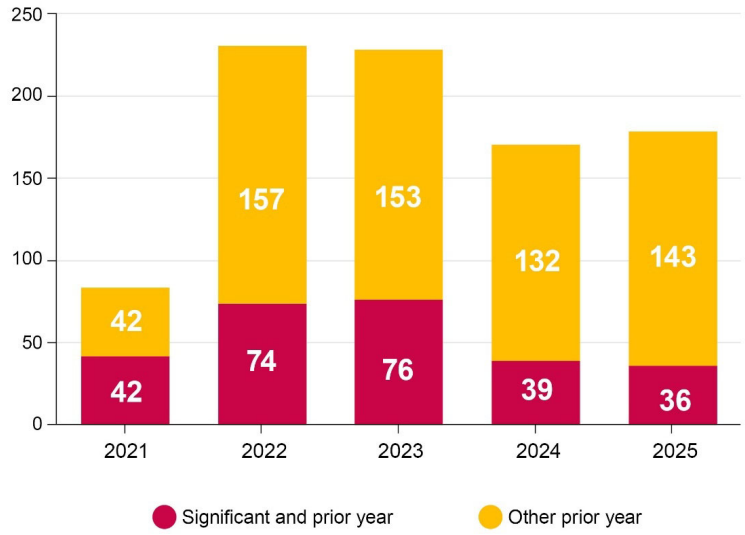

[11] Office of the Auditor General, *Better practice guidance*, OAG website, n.d., accessed 9 February 2026.

- **Capitalisation of works in progress (WIP):** The second largest category of asset management findings related to WIP, representing 20% (18 issues) in 2025. These findings generally related to late capitalisation of WIP, where assets were available for use or already in use, but were not depreciated. In some cases, errors involved assets from prior years that should have been transferred from WIP but were not, resulting in prior period errors.
- **Asset reconciliations:** Asset reconciliations were the third largest category, comprising 18% (16 issues). Reconciliations ensure that asset records are complete, accurate and aligned between the finance and asset systems. Where reconciliation processes are inadequate, entities risk losing track of assets or incorrectly recognising them, which can affect asset valuations and lead to found asset errors in future years.

Control weaknesses in asset management can lead to qualified audit opinions due to the material value of property and infrastructure assets held by local governments. Entities need to remain vigilant and ensure valuation, capitalisation and reconciliation processes are robust and consistently applied each year.

Findings unresolved from prior year

For 2025, 179 financial management control findings raised across 81 entities (2024: 171 findings across 77 entities) remained unresolved from prior years. This represents 32% of all current year findings (2024: 28%). Of these unresolved issues, 20% (36 issues) (2024: 23% 39 issues) were rated as significant, requiring urgent action. While the proportion of significant unresolved findings has remained consistent, it is concerning that the number of unresolved issues increased.

Source: OAG

Figure 8: Prior year issues per year

Unresolved findings from prior years primarily relate to financial reporting, expenditure and asset management. These unresolved issues align with the underlying themes previously identified within this report, for each category. It is concerning that these matters remain

unresolved, as they continue to add to audit time and costs. Entities need to prioritise addressing these issues, particularly those rated as significant.

Information system controls

The purpose of general computer control (GCC) audits is to assess the effectiveness of entities' computer controls relied on to accurately process and maintain the integrity, confidentiality and availability of key financial business systems and information.

For the 2025 financial year, we reported 333 general computer control weaknesses to 68 entities, compared to 360 control findings to 89 entities in 2024. Over half of these weaknesses (60%) were unaddressed prior year issues. Nine percent of findings were rated significant, 69% moderate and 22% minor (Figure 9).

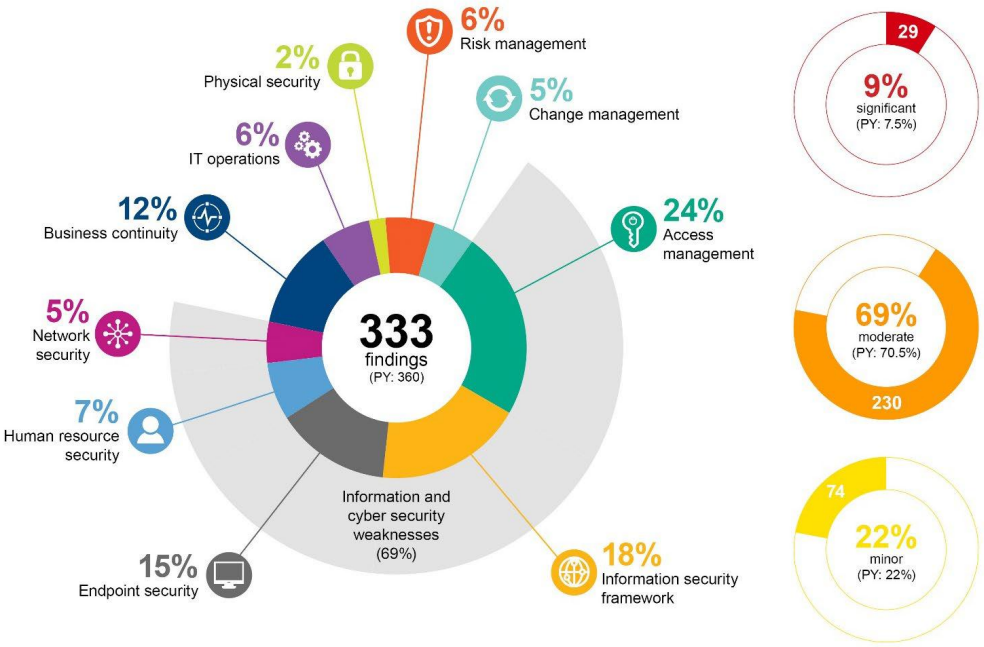

Entity controls in the following control categories showed significant weaknesses:

- access management
- business continuity
- endpoint security
- information security framework
- network security.

Of the 333 weaknesses identified, the majority related to information and cyber security controls:

- 24% related to managing access, such as delays in removing access of former staff and contractors, poor control over privileged and system accounts, and insufficient user activity monitoring.
- 18% related to information security framework weaknesses. These issues comprised insufficient information and cybersecurity policies, as well as governance and compliance weaknesses.
- 15% related to controls to protect endpoints (end user devices and servers). These included system vulnerabilities, legacy systems, and limited controls to prevent malware.

The *Local Government 2025 – Information Systems Audit Results* report presents a detailed analysis of these findings.

Figure 9: Information system weaknesses across 10 control risk categories and ratings

Improvement opportunities

Financial health of local governments

Financial sustainability is a challenge for many local governments across the country due to a combination of:

- operating losses
- declining cash reserves
- increasing compliance and complexity
- limited capacity to generate sufficient own source revenue (from existing or alternative means)
- the general economic environment.

These factors are just as relevant in Western Australia and were most evident for the Shire of Coolgardie in 2024 when we included a material uncertainty related to going concern in the Shire's 2024 audit report.

Case study 1: Historical financial viability concerns at the Shire of Coolgardie

Under the going concern basis of accounting, financial statements are prepared on the assumption that an entity will continue operating for the foreseeable future. Auditors are required to report when there is a material uncertainty about an entity's ability to continue as a going concern.

For the Shire of Coolgardie's 2024 audit, finalised on 23 June 2025, we highlighted concerns by drawing attention to note 1 of the Shire's financial report. The note disclosed that the Shire:

- recorded a net loss of $4.6 million for the year ended 30 June 2024
- had current liabilities exceeding current assets by $14.2 million
- had an overdrawn unrestricted cash balance of $934,000
- had inappropriately used restricted funds for operational purposes.

These issues, along with other disclosures in the financial report, indicated the presence of a material uncertainty that cast significant doubt on the Shire's ability to continue as a going concern.

Following the 2024 audit, the Shire undertook debt restructuring and other initiatives to improve its financial position. We were satisfied with these actions, and as a result, a material uncertainty paragraph was not required in the 2025 audit report. However, because the 2024 audit report and financial statements were the first public signal of concerns, the situation highlights the importance of stronger monitoring and guidance for entities on financial sustainability.

LGIRS has developed the Local Government Financial Indicator (LGFI) tool, which provides a point-in-time assessment of an entity's capacity to meet its short and long term financial obligations, having regard to its funding sources. The LGFI replaced the former Financial Health Indicator (FHI) and, unlike the FHI, is not designed to assess longer term

financial sustainability. Further information on the methodology and application of the LGFI is available through the MyCouncil FAQs[12].

LGFI data was first published on the MyCouncil website in May 2025 for the 2019 to 2023 financial years. As the indicator relies on audited financial information, data publication necessarily follows the completion of audit and associated validation processes. At 23 February 2026, LGFI results were available up to the 2023 reporting period, with subsequent years to be released in line with established update schedules. However, the indicator is only genuinely useful when it is updated in a timely manner after audited financial reports and grant information returns are released.

LGIRS has established a benchmark score of 70 for the LGFI. Scores below this benchmark indicate that an entity may warrant further consideration in relation to its financial position. Looking back, the LGFI for the Shire of Coolgardie had been declining for some time, indicating emerging concerns well before the issues became public in June 2025, acknowledging that the department had been engaging with the Shire, and our Office, since early 2024 in respect of a variety of concerns identified by them through other available information.

Financial analysis

For 2025, we analysed the current ratios of all local government entities with audits finalised by 31 December 2025. The current ratio is an indicator of an entity's ability to meet its short-term obligations for payment, with a ratio of less than one suggesting that an entity owes more in the short term than it may be able to afford to pay. Four entities recorded a current ratio of less than one (2024: 2; 2023: 1). The four entities with ratios less than one were:

- Shire of Coolgardie
- Shire of Derby-West Kimberley
- Shire of Irwin
- Shire of Victoria Plains.

A further 13 entities reported a ratio between 1 and 2 (2024: 11; 2023: 13), which also indicates potential financial pressure.

Appendix 9 contains a complete listing of the current ratio for each entity for 2024 and 2025.

Case study 2: Historical financial viability concerns at the Shire of Coolgardie

For 2025, the Shire of Coolgardie recorded a current ratio of 0.57. Given the heightened concern with the Shire's financial viability, we performed further audit procedures to satisfy ourselves that the going concern basis for preparation of the financial report was appropriate and a material uncertainty was not required to be included in the audit report. The procedures included:

- deeper and more intensive analysis of cashflow forecasts
- review of budgets
- status of financial facilities
- asset disposal alternatives
- year to date actual financial information for 2026.

[12] Government of Western Australia, *MyCouncil*, mycouncil.wa.gov.au, n.d., 9 February 2026.

Entities hovering around a score of one or trending downwards, should pay particular attention to their cashflow needs and forecasts. Sector-wide results also show a gradual decline. The sector-average current ratio decreased from 5.5 in both 2023 and 2024 to 5.0 in 2025. Median ratios similarly declined from 4.1 in 2023 to 3.75 in 2024 and 3.63 in 2025. The decline in the median indicates that this trend is not driven by outliers but reflects a broader sector decline in entities' ability to meet their short-term payment obligations.

While a number of entities report large surpluses each year, the sector is facing increasing cost pressures with a limited ability for entities to expand their revenue base. Local governments will need to closely monitor their financial outlays and positions to ensure they can continue to deliver essential community services and maintain appropriate levels of investment in their community infrastructure.

Valuations

This year we encountered several instances where a valuer did not comply with the LGIRS (previously the Department of Local Government, Sports and Cultural Industries) directive requiring the use of the market approach for valuing land, including the consideration of public sector restrictions. In all cases, entities were unaware that their valuations were non-compliant with the above requirements, resulting in additional auditor involvement to resolve the matter with the valuer. Adjustments were required to valuations and financial reports.

Assets (PPE and infrastructure) are generally the largest balances in the financial report, meaning that errors in this area tend to be large and carry significant exposure for entities. This is also an area where we see significant numbers of prior period errors, as discussed in the quality section of this report[13].

For several years, we have recommended LGIRS develop and finalise their valuation guidance for the sector. We have provided input on various drafts since September 2023; and this guide has recently been published on 5 March 2026. This guidance will support a consistent understanding of valuation obligations and improve valuation practices generally. Ahead of their 2026 audits, entities should review this guidance to ensure their compliance with the guidelines.

Advocacy and reform

We engage closely with stakeholders and maintain a sector-wide view of emerging risks and systemic issues through our ongoing liaison with key stakeholders. This enabled us to raise with LGIRS a duplication in review requirements. As a result, regulation 5(2)(c)[14] of the Local Government (Financial Management) Regulations 1996, which required a three-yearly CEO review of the appropriateness and effectiveness of financial management systems, was removed effective 1 January 2026. Enhancements have been made to the remaining review obligations under regulations 16 and 17 of the Local Government (Audit) Regulations 1996.

Further reforms have also progressed, importantly the Local Government Inspector has been established to strengthen the regulation of council members and local government staff conduct. In addition, audit committees have been re-constituted as audit, risk and improvement committees, with a requirement for an independent chair to enhance objectivity, accountability and oversight across the sector.

[13] Prior period errors are increasing.

[14] Government of Western Australia, *Local Government Regulations Amendment Regulations (No 4) 2025*, Western Australian Legislation, 17 Dec 2025, 9 February 2026.

We welcome these regulatory changes, which streamline oversight and reduce unnecessary administrative burden on entities. We hope to see positive impacts from these changes when we audit entities.

Governance expectations

We are often asked to meet separately with the council outside of entrance and exit meetings and may also be asked to attend the annual electors meeting. The requests stem from the requirement in 7.12A of the *Local Government Act 1995*, which requires a local government to meet with the auditor of the local government at least once in every year. LGIRS advice is if council formally delegated this responsibility, a meeting between the audit, risk and improvement committee and the auditor would satisfy this requirement.

Meeting with the auditors should occur in a non-public audit entrance and/or exit meeting. This is so conversations can occur outside of normal standing order meeting protocols and confidential matters can be discussed. These are the forum for members of council, the audit committee and administration to speak to their auditors. They are meetings to discuss risks, issues, progress, status and results. It's important these meetings are closed to the public to maintain confidentiality around audit sensitivities and to ensure public or media enquiries are addressed to the Auditor General directly for consideration, rather than audit staff.

We plan to provide guidance on meeting attendance to support a consistent approach to audit related meetings across the sector. This will help streamline processes for entities and ensure best value for money.

We are often asked by entities to meet pre-determined deliverable dates to attend meetings with council, audit, risk and improvement committees, and electors. This can become challenging when there are delays in the audit process. These delays are commonly linked to issues with entity work papers supporting the financial report, or matters requiring formal technical resolution. Greater flexibility from councils is appreciated when necessary to ensure timelines remain reasonable and achievable. The alternative is to stay with the set meetings and report based on the status at that point and specify what is outstanding and plan to resolution.

OAG insights and tips

Our observations from the year are largely unchanged from previous years, indicating entities need continued refinement of their operations.

Streamline the audit process

Entities should:

1. Submit good quality, reviewed and CEO-signed financial reports for audit, no later than 30 September. Earlier submission is encouraged. CEO certification should indicate that management and those charged with governance are satisfied the financial report is complete, accurate and supported by underlying work papers. Supporting work papers and reconciliations should be available when financial reports are lodged. All content should be error free.
2. Communicate to the auditor their assessment of the significance of errors and determine whether adjustments are required. Entities should also analyse the root cause of identified errors.
3. Communicate delays to financial report submission early to minimise disruptions and enable effective resource allocation. Flexibility may be required when rescheduling audits.
4. Evaluate opportunities to submit financial reports earlier for audit.
5. Exercise greater flexibility around committee and council meeting times.
6. Ensure council attend audit entrance and exit meetings with the audit, risk and improvement committee, or that an appropriate delegation is in place. Audit entry and exit meetings are not intended to be part of public proceedings, but are undertaken to communicate audit plans, timeframes and findings with relevant entity staff and committee members.

Better support for entities

The Department of Local Government, Industry Regulation and Safety (LGIRS) should:

7. Update LGFI data on the MyCouncil website as a priority following audit finalisation
8. Consider LGFI information along with other intelligence to proactively intervene and support entities with challenges.

LGIRS response to 7 and 8:

LGIRS recognises the importance of timely publication and updates LGFI data on the MyCouncil website once governance and quality assurance processes are completed. For future reporting years, LGFI data will be published by the end of April following finalisation of audited financial statements by 31 December and receipt of grant information by the end of February each year. This timing will be communicated to local governments via an LG Alert and on the MyCouncil website.

LGIRS continues to strengthen its governance and quality assurance processes to support timely reporting and enhanced transparency, including clearer internal verification milestones, more structured follow-up with local governments, and improved monitoring and oversight arrangements, in coordination with the Local Government Inspector where appropriate. These measures support earlier identification of emerging risks and more proactive engagement with local governments. LGFI information is considered within a

broader monitoring and assurance framework and is assessed alongside audit outcomes, compliance activity and direct engagement, rather than in isolation.

The Local Government Inspector has the statutory powers to intervene where this is considered necessary. Any proactive engagement or intervention is undertaken in a measured and proportionate manner, having regard to the specific circumstances of each local government. LGIRS' approach is focused on the early identification of risk and the provision of guidance and support to assist local governments in addressing emerging challenges.

Improve reporting and accounting for fixed assets

Entities should:

9. Conduct asset counts/stocktakes to support the completeness and accuracy of asset records.

10. Review the newly released LGIRS valuation guide to ensure compliance.

Reduce financial report errors, versions and management letter findings

Entities should:

11. Establish robust financial report quality control procedures, incorporating review by the audit, risk and improvement committee and council.

12. Seek appropriate and timely independent advice when unsure on accounting and disclosure obligations.

13. Alert OAG audit engagement leaders to new processes or systems, issues encountered during the year, or any area of concern or technical accounting determinations.

LGIRS should:

14. Provide guidance for entities via model accounts on how to account for prior period errors.

LGIRS response to 14:

Guidance on the correction of prior period errors is included in the Guidance Material Annual Financial Report Models (2025) for Class 1 and 2 local governments and for Class 3 and 4 local governments. This guidance references the relevant disclosure and retrospective application requirements under AASB 101 and AASB 108.

While the existing material provides an appropriate framework, it is acknowledged that additional practical guidance may assist entities in applying these requirements in particular circumstances. Further enhancements to the guidance are being considered for inclusion in the 2026 annual guidelines. Where a local government identifies a material prior period error, early engagement with LGIRS is expected. While this expectation is not currently formalised in published guidance, it will be communicated through an LG Alert accompanying the updated annual Model Financial Statements, which will be published in Q2 of 2026.

LGIRS will provide guidance as required, including examples where appropriate, to support compliance with the applicable accounting and disclosure requirements. This approach maintains consistency with the existing legislative and accounting framework while allowing LGIRS to provide targeted and proportionate support based on the specific circumstances of each case.

Resources

OAG provide various tools to assist entities with audit readiness and better practice and are available on our website:

- Audit Readiness Tool
- Prepared by client listing
- Financial statements review
- Going concern assessment
- Western Australian Public Sector Audit Committees –Better Practice Guide

Town of Cottesloe	13 October 2025
Town of East Fremantle	31 October 2025

Source: LGIRS

Appendix 3: Qualified and disclaimer of opinions

2025 qualifications

Entity	Details of qualification
Shire of Boyup Brook	**Biological assets** We were unable to obtain sufficient appropriate audit evidence to verify the existence and number of biological assets at 30 June 2024, nor were we able to confirm the biological assets by alternative means. Our audit opinion on the annual financial report for the period ending 30 June 2024 was modified accordingly. Since the closing balance at 30 June 2024 of biological assets is the opening balance at 1 July 2024 and forms the basis for the determination of operations for the year, we were unable to determine whether any adjustments to the operations net result for the year ended 30 June 2025 may be necessary.
Shire of Toodyay	**Financial report comparative information not supported with complete and accurate underlying records** We were unable to obtain sufficient and appropriate audit evidence regarding the prior year financial report, as the financial report was submitted for audit purposes without complete and accurate underlying records. Our opinion on the financial report for the year ended 30 June 2024 was modified accordingly. Our opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current year's figures and the corresponding figures.
	Cash and cash equivalents The Shire's bank reconciliation at 30 June 2025 included an unreconciled balance of $22,991. We were unable to confirm this figure by alternative means and consequently were unable to determine whether any adjustments were necessary on cash and cash equivalents at 30 June 2025.
	Restatement of corresponding figures We were unable to obtain sufficient and appropriate audit evidence for the restatement of corresponding figures as set out in Note 28. We were unable to confirm these restatements by alternative means and consequently were unable to determine whether any adjustments were necessary to Note 28. In addition, Note 28 does not comply with the disclosure requirements of AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors, and it did not include all corrected line items in the statement of cash flow and the statement of financial activity.

Delayed 2024 qualified and disclaimer of opinions

The below list of qualified and disclaimer of opinions is for those entities listed in Appendix 1 which had their 2024 audits finalised in 2025.

Entity	Details of qualification or disclaimer
City of Nedlands	**Qualification** **Financial report comparative information not supported with complete and accurate underlying records** We were unable to obtain sufficient and appropriate audit evidence regarding the prior year financial report, as the financial report was submitted for audit purposes without complete and accurate underlying records. The opinion on the financial report for the year ended 30 June 2023 was modified accordingly. The opinion on the current year financial report is also modified because of the

Entity	Details of qualification or disclaimer
	possible effect of this matter on the comparability of the current year's figures and the corresponding figures.
Shire of Halls Creek	**Qualification** **Financial report comparative information not supported with complete and accurate underlying records** We were unable to obtain sufficient and appropriate audit evidence regarding the prior year financial report, as the financial report was submitted for audit purposes without complete and accurate underlying records. The opinion on the financial report for the year ended 30 June 2023 was modified accordingly. The opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current year's figures and the corresponding figures.
	Qualification **Restatement of corresponding figures** We were unable to obtain sufficient and appropriate audit evidence for the restatement of corresponding figures as stated in the Statement of Comprehensive Income, Statement of Cash Flows, Statement of Financial Activity and Note 28 of the financial report. We were unable to confirm these restatements by alternative means and consequently were unable to determine whether any adjustments were necessary on the corresponding figures of these statements.
	Qualification **Infrastructure assets not revalued as required by the Local Government (Financial Management) Regulations** Other Infrastructure assets reported at the carrying values of $6,460,241 and $6,963,171 as at 30 June 2023 and 30 June 2022 respectively in Note 9 (a) of the financial report have not been revalued as required by Regulation 17A(4A)(b) of the Local Government (Financial Management) Regulations 1996 since 30 June 2018. Consequently, we were unable to determine the extent to which the carrying amounts of other infrastructure assets are misstated, as it was impracticable to do so. Additionally, we are unable to determine whether there may be any consequential impact on Revaluation Surplus as at 30 June 2023 and 30 June 2022, as well as Depreciation, Net Result for the Period and Retained Surplus as at 30 June 2023.
Shire of Nannup	**Qualification** **Land and buildings and infrastructure** The opinion in the prior year was qualified because land, buildings and infrastructure with carrying values of $1,615,000, $8,737,435 and $100,957,611 respectively disclosed in Notes 8(a) and 9(a) of the financial report as at 30 June 2023, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.
Shire of Wickepin	**Qualification** **Infrastructure asset valuation** The opinion in the prior year was qualified because infrastructure assets reported at the carrying value of $92,213,435 as disclosed in Note 7(a) as at 30 June 2023, had not been revalued as required by the Regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is modified because of the possible effects of this matter on the comparability of the current period's figures and the corresponding figures.

Entity	Details of qualification or disclaimer
Shire of Toodyay	**Disclaimer** **Financial report not supported with complete and accurate underlying records** We were unable to obtain sufficient appropriate audit evidence regarding the financial report as a whole, as the financial report was submitted for audit purposes without complete and accurate underlying records. We were unable to audit the financial report by alternative means. Consequently, we are unable to determine whether any adjustments were necessary to the financial report as a whole for the year ended 30 June 2024.

Source: OAG

Appendix 4: Prior year qualifications and disclaimers removed in 2025

Entity	Details of prior year qualification
Shire of Goomalling	**Infrastructure** The opinion in the prior year was qualified because infrastructure asset classes of roads, drainage and footpaths (as disclosed in note 8(a) of the financial report at 30 June 2023) with the carrying values of $40,811,938, $2,153,484 and $770,060 respectively, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effects of this matter on the comparability of the current period's figures and the corresponding figures.
Shire of Kent	**Infrastructure** The opinion in the prior year was qualified because other infrastructure assets (as disclosed in note 9(a) of the financial report at 30 June 2023) with a carrying value of $4,867,091, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.
Shire of Nannup	**Land and buildings and infrastructure** The opinion in the prior year was qualified because land, buildings and infrastructure assets (disclosed in notes 8(a) and 9(a) of the financial report at 30 June 2023) with carrying values of $1,615,000, $8,737,435 and $100,957,611 respectively, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.
Shire of Westonia	**Infrastructure** The opinion in the prior year was qualified because infrastructure assets (as disclosed in note 9(a) of the financial report at 30 June 2023) with a carrying value of $43,562,879, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.
Shire of Wickepin	**Infrastructure assets valuation** The opinion in the prior year was qualified because infrastructure assets (as disclosed in note 7(a) of the financial report at 30 June 2023) reported at the carrying value of $92,213,435, had not been revalued as required by the regulations. The Shire was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is modified because of the possible effects of this matter on the comparability of the current period's figures and the corresponding figures.
Town of Port Hedland	**Infrastructure assets valuations** The Town did not recognise 670 (2023:797) infrastructure assets with a value of $17,371,521 (2023: $25,112,117) in accordance with the Regulation 17A(2)(a) of the Local Government Financial Management Regulations 1996, as these assets could not be located due to weaknesses in the asset management system. The assets were instead adjusted to a nil carrying value while still being in use and accounted for in the asset register. We were unable to determine the

Entity	Details of prior year qualification
	impact on the net carrying amount of infrastructure assets and the consequential impact on retained earnings, revaluation reserves, depreciation and net surplus for the year, as it is impracticable to do so. In addition, the opinion in the prior year was qualified because drainage and other infrastructure assets, reported at a carrying value of $33,243,203 and $47,582,860 respectively (as disclosed in note 9 to the financial statements at 30 June 2023), were not all revalued as required by the regulations. The Town was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures. **Investment property** The opinion in the prior year was qualified because investment property (as disclosed in note 12 of the financial report at 30 June 2023) with the carrying value of $45,027,262, had not been revalued as required by the regulations. The Town was unable to correct these prior year figures in the current year. Consequently, the opinion on the current year financial report is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.

Appendix 5: Emphasis of matter paragraphs included in auditor reports

2025 emphasis of matter paragraphs

Entity	Description of EoM paragraphs
City of Bayswater	**Investment in Associates** We draw attention to note 27 to the financial report, which states that effective 1 July 2025, two member participants have resolved to withdraw as member participants from Eastern Metropolitan Regional Council effective from 1 July 2025. The City continues to be a member council participant. Our opinion is not modified in respect of this matter.
City of Busselton	**Restatement of Comparative balances** We draw attention to Note 32 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
City of Joondalup	**Restatement of Comparative balances** We draw attention to Note 26 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in these financial statements. Our opinion is not modified in respect of this matter.
City of Kwinana	**Restatement of comparative figures** We draw attention to Note 32 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
City of Subiaco	**Restatement of comparative balances** We draw attention to Note 31 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
City of Swan	**Investment in Associates** We draw attention to Note 25 to the financial report, which states that the City has resolved to withdraw as a member participant from Eastern Metropolitan Regional Council effective from 1 July 2025. Our opinion is not modified in respect of this matter.
Rivers Regional Council	**Basis of accounting** We draw attention to Note 1 of the financial report, which discloses that the Council has decided to wind up Rivers Regional Council. Consequently, the financial report has been prepared on a liquidation basis. Our opinion is not modified in respect of this matter.
Shire of Bruce Rock	**Restatement of comparative balances** We draw attention to Note 30 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Coolgardie	**Restatement of comparative figures** We draw attention to Note 31 to the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated

Entity	Description of EoM paragraphs
	and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Dardanup	**Restatement of comparative balances** We draw attention to Note 30 of the financial statements which states that the amounts reported in the previously issued 30 June 2024 financial statements have been restated and disclosed as comparatives in these financial statements. Our opinion is not modified in respect of this matter.
Shire of Denmark	**Restatement of Comparative balances** We draw attention to Note 29 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Manjimup	**Restatement of Comparative Balances** We draw attention to Note 30 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Meekatharra	**Restatement of Comparative balances** We draw attention to Note 25 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Mundaring	**Investment in Associates** We draw attention to Note 22 to the financial report, which states that the Shire has resolved to withdraw as a member participant from Eastern Metropolitan Regional Council effective from 1 July 2025. Our opinion is not modified in respect of this matter.
Shire of Serpentine-Jarrahdale	**Correction of Error** We draw attention to Note 34 of the financial report which states that previously unrecognised assets have been recognised prospectively at 30 June 2025 as retrospective restatement was impracticable. Our opinion is not modified in respect of this matter.
Shire of Shark Bay	**Restatement of Comparative Balances** We draw attention to Note 27 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Shire of Williams	**Restatement of comparative figures** We draw attention to Note 29 to the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Resource Recovery Group	**Basis of Accounting** We draw attention to Note 1 of the financial report which describes the basis of accounting and that the financial report has been prepared on a non-going concern basis for the reasons set out therein. Our opinion is not modified in respect of this matter.
Town of Bassendean	**Investment in Associates** We draw attention to Note 22 to the financial report, which states that effective 1 July 2025, two member participants have resolved to withdraw as member

Entity	Description of EoM paragraphs
	participants from Eastern Metropolitan Regional Council effective from 1 July 2025. The Town continues to be a member council participant. Our opinion is not modified in respect of this matter.
Town of Cambridge	**Restatement of Comparative Balances** We draw attention to Note 31 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Town of Port Hedland	**Restatement of comparative figures** We draw attention to Note 33 to the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.
Town of Victoria Park	**Restatement of comparative figures** We draw attention to Note 30 of the financial report which states that the amounts reported in the previously issued 30 June 2024 financial report have been restated and disclosed as comparatives in these financial statements. Our opinion is not modified in respect of this matter.

2024 delayed emphasis of matter paragraphs

The below list of emphasis of matter paragraphs is for those entities listed in Appendix 1 which had their 2024 audits finalised in 2025.

Entity	Description of EoM paragraphs
City of Nedlands	**Restatement of assets, liabilities and equity as at 1 July 2023** We draw attention to Note 29 of the financial report which states that historical errors in assets, liabilities and equity amounts reported have been corrected in opening balances as at 1 July 2023 in this financial report. Our opinion is not modified in respect of this matter.
Town of Cottesloe	**Restatement of Comparative balances** We draw attention to Note 30 of the financial report which states that the amounts reported in the previously issued 30 June 2023 financial report have been restated and disclosed as comparatives in this financial report. Our opinion is not modified in respect of this matter.

Source: OAG

Appendix 6: Delayed 2024 audit material uncertainty related to going concern paragraph

The below list of material uncertainty relating to going concern (MURGC) paragraph is for those entities listed in Appendix 1 which had their 2024 audits finalised in 2025.

Entity	Description of MURGC paragraph
Shire of Coolgardie	**Material uncertainty related to going concern** We draw attention to Note 1 in the financial report, which indicates that the Shire incurred a net loss of $4,617,984 for the year ended 30 June 2024 and as of that date, the Shire's current liabilities exceeded its current assets by $14,210,643 and the unrestricted cash balance was overdrawn by $934,081. As stated in Note 1, these events, or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Shire 's ability to continue as a going concern. The audit opinion is not modified in respect of this matter.

Appendix 12: Opinion and management letter definitions

In the auditor's report we include the audit opinion on the annual financial report and any other matters that, in our judgement, need to be highlighted. This year the Auditor General has issued the following types of opinions:

- **Clear opinion**: Indicates satisfactory financial controls. The financial report is based on proper accounts, complies with relevant legislation and accounting standards, and fairly represents performance and financial position.
- **Clear opinion with an EoM:** Draws attention to a matter disclosed in the financial report to aid the readers understanding but does not result in a qualified opinion.
- **Qualified opinion:** Given when the audit identifies materially misleading information, inadequate controls or conflicts with the financial reporting frameworks.
- **Disclaimer of opinion:** The most serious audit outcome, issued when the auditor is unable to form an opinion due to insufficient evidence to form an opinion after all reasonable efforts.

We report weaknesses in the control environment to the CEO, mayor, president or chairperson and the Minister for Local Government. Findings will be rated as significant, moderate or minor. We also indicate if the finding has the potential to impact the audit opinion and if it relates to the prior year and remains unresolved. Both quantitative and qualitative aspects guide our ratings.

Risk category	Audit impact	Management action required
Significant	Findings where there is potentially a significant risk to the entity should it not be addressed by the entity promptly. A significant rating could indicate the need for a modified audit opinion in the current year or in a subsequent reporting period if not addressed. However, even if the issue is not likely to impact the audit opinion, it should be addressed promptly.	Priority or urgent action by management to correct the material misstatement in the financial report to avoid a qualified opinion or for control risks, implement a detailed action plan as soon as possible, within one to two months.
Moderate	Findings which are of sufficient concern to warrant action being taken by the entity as soon as practicable.	Control weaknesses of sufficient concern to warrant action being taken as soon as practicable, within three to six months. If not addressed promptly, they may escalate to significant or high risk.
Minor	Those findings that are not of primary concern but still warrant action being taken.	Management to implement an action plan within six to 12 months to improve existing process or internal control.

Source: OAG

We give management the opportunity to review our audit findings and provide comments prior to completion of the audit. Each control finding is documented in a management letter which identifies weakness, implications for the entity, risk category and a recommended improvement action.

That Council:

(1) RECEIVES the City of Cockburn Risk Management Update; and

(2) ENDORSES the updated Strategic Risk Register shown as Attachment 1.

CARRIED 9/0

Background

At the 26 May 2026 ARIC meeting, the City presented a report to update Council on the draft City of Cockburn Strategic Risk Register resulting from the 17 February 2026 risk management workshop which was attended by the ARIC members, one non-ARIC Elected Member, and the Executive Leadership Team (ELT).

This report provides an update to the ARIC on the City's Strategic Risk Register and the approach taken by the City to review and update its Operational Register.

Submission

N/A

Report

Strategic Risk Register

The City's Strategic Risk Register emanating from the 17 February 2026 risk management workshop has been updated with Progress and Notes by the Executive Leadership Team for reporting to the ARIC and is presented (refer Attachment 1).

Strategic risks reflect the internal and external forces capable of causing uncertainty on the City's long-term business strategies or strategic objectives outlined in the City of Cockburn Strategic Community Plan 2025-2035.

Regular updates of the Strategic Risk Register with Progress and Notes by the ELT are necessary to ensure the City updates the ARIC on the City's management of risks, which area aligned to the current Strategic Community Plan.

Operational Risk Register

In accordance with a Council resolution resulting from the 26 May ARIC meeting, a review of the City's Operational Risk Register has been undertaken by the City. Before the current review, the City had listed 231operational risks. The review will focus on :

- Archiving operational risks which were no longer credible scenarios, because of changed processes, or activities no longer performed
- Combining similar identified credible risks in order to align each operational risk under each of the strategic risks which were identified during the 17 February 2026 risk management workshop.

Following this review there are now 55 listed operational risks which will be further reviewed by the Senior Leadership Team before reporting on this register to the ARIC at its December 2026 meeting.

Risk Management Framework

In accordance with a Council resolution resulting from the 26 May ARIC meeting, a review of the City's Risk Management Framework has commenced. An update on the progress of the review will be presented to the ARIC at its December 2026 meeting.

Audit, Risk and Improvement Strategy

A separate report to the ARIC is being presented to update the Committee on the progress made with this framework.

Implementation of ARIC Resolutions

Attachment 2 to this report comprises an update to the Committee on the implementation progress made so far by the City on 13 ARIC Resolutions recorded since the first ARIC meeting held on 25 November 2025.

Audit Log

A proposed Internal Audit Plan was presented to this Committee by William Buck, the City's appointed internal auditor, at the 25 August 2026 Briefing Forum. The Internal Audit Plan proposes an audit of the City's Audit Log as its first planned internal audit. The City will finalise arrangements to schedule a commencement date for this first audit.

Strategic Plans/Policy Implications

Our Governance

Transparent leadership that listens, communicates openly and plans for a sustainable future.
Facilitate transparent and accountable governance for today and tomorrow.

Budget/Financial Implications

Endorsing the Strategic Risk Register has no immediate financial impact; however, future risk treatment actions may have resourcing or budget implications that will be considered through normal planning and budget processes.

Legal Implications

Local Government (Audit) Regulations 1996 17 CEO to review certain systems and procedures

Community Consultation

N/A

Risk Management Implications

Risk management oversight and review is a function of the ARIC.

The ARIC is required to review the City's Strategic and Operational Risk as part of the City's risk management practices.

The ARIC's oversight of the Risk Register review report supports continuous improvement of risk management processes.

Adopting this report will result in the City continually improving its risk management processes.

Advice to Proponent(s)/Submitters

N/A

Implications of Section 3.18(3) Local Government Act 1995

Nil.

City of Cockburn Strategic Risk Register – As Discussed at the 17 February 2026 Council Risk Management Workshop (Updated on 14 April 2026)

Risk Identification & Analysis					Current Risk Assessment (Residual) Risk Rating								
Risk No.	Risk Title	Risk Description	Possible Causes	Existing Controls	Control Rating: R = Robust A = Adequate I = Inadequate	Consequence Category: Compliance; Environment; Operations; Reputation; Stakeholder impact	Consequence Rating	Likelihood Rating	Level of Risk	Risk Strategy (i.e., ACCEPT, TOLERATE, REDUCE / IMPROVE CONTROLS)	Risk Owner	Treatment Action Plans (TAPs)	Notes (Progress and Notes to be reported to the Audit, Risk and Compliance Committee, at its 22 September 2026 meeting).
1.	**Strategic Outcomes**	Failure to deliver strategic plan outcomes resulting in significant reduction in liveability in our suburbs.	1. Poor transport infrastructure planning and/or delivery. 2. Loss of urban canopy. 3. Mismatch of urban intensification to infrastructure delivery 4. Plans not executed 5. Ad hoc State government urban growth decisions (beyond subregional plan) 6. Constraints on funding 7. Shifts in community expectations	1. Integrated Transport Strategy 2. District Traffic Study 3. Integrated strategic, financial, asset planning framework and Roads Asset Management Plans 4. Asset management and renewal prioritisation processes 5. Ongoing monitoring of demographic trends and growth assumptions	**R**	Operations Reputation Stakeholder impact	**Insignificant 1**	**Possible 3**	**Low 3**	Accept	Director Infrastructure Services	1. Annual update: demography forecast (20-year horizon) as well as major reforecast calibrated to census data (every 5 years) 2. Development Contribution Plans (established under local planning scheme) for key roads and community infrastructure items 3. Maintain alignment between strategic planning, long-term financial planning and infrastructure prioritisation 4. Ongoing advocacy and collaboration with Federal and State Government on growth and infrastructure sequencing 5. Escalation of material misalignment between growth and service capacity to ELT and Council	1. Development Contribution plans review initiated –awaiting Minister for Planning consent to advertise. 2. Advocacy priorities adopted at the 11 August 2026 OCM. 3. 10-year Forward Works Capital Model (FWCM) reviewed and updated to reflect Council's strategic vision, FY27 Annual Budget. FWCM to be reviewed as part of the planning and direction setting for the FY28 annual budget and Long-Term Financial Plan review . 4. Mid-term review of the Integrated Transport Strategy adopted at the May 2026 OCM. 5. Draft Civil Asset Management Plans presented to the April 2026 EMSBF. Adoption of these AMP's along with the remaining 5 AMP's scheduled for September 2026.
2.	**Corporate Outcomes**	Failure to deliver services, projects, facilities and assets resulting in non-achievement of corporate business plan.	1. Insufficient organisational capability or capacity to deliver planned outcomes. 2. Financial pressures or volatility impacting service and capital delivery. 3. Ineffective prioritisation or sequencing of projects and initiatives. 4. Asset portfolios not aligned with service needs.	1. Corporate planning and performance management framework 2. Long term financial planning and budget governance 3. Procurement and contract governance 4. Project and asset management frameworks	**I**	Compliance Operations Reputation	**Medium 3**	**Possible 3**	**Moderate 9**	Tolerate	Director Corporate and System Services	1. Regular review of corporate plan deliverability and resourcing assumptions 2. ELT oversight of organisational capacity, prioritisation, and delivery pressures	1. City of Cockburn Project Management Internal Audit, by Stantons International, has made 6 recommendations to improve the City's project management systems. The City has an implementation plan for these recommendations, reported to the 26/05/2026 ARIC meeting. 2. The City has assembled a Business Continuity Planning

City of Cockburn Strategic Risk Register – As Discussed at the 17 February 2026 Council Risk Management Workshop (Updated on 14 April 2026)

Risk Identification & Analysis					Current Risk Assessment (Residual) Risk Rating								
Risk No.	Risk Title	Risk Description	Possible Causes	Existing Controls	Control Rating: R = Robust A = Adequate I = Inadequate	Consequence Category: Compliance; Environment; Operations; Reputation; Stakeholder impact	Consequence Rating	Likelihood Rating	Level of Risk	Risk Strategy (i.e., ACCEPT, TOLERATE, REDUCE / IMPROVE CONTROLS)	Risk Owner	Treatment Action Plans (TAPs)	Notes (Progress and Notes to be reported to the Audit, Risk and Compliance Committee, at its 22 September 2026 meeting).
			~~5.~~ Workforce availability, capability or succession challenges.	5. Workforce planning and capability development strategies								3. Escalation of emerging delivery or capability constraints 4. Continuous improvement of planning, governance and assurance frameworks	Group which meets regularly to review and advise ELT and Elected Members on operations and services continuity viability due to the nationwide fuel disruption cause by geopolitical events in the Middle East. 3. At 14 April 2026 OCM Council authorised the CEO to manage services, projects and facilities in accordance with the City's business continuity approach for the Fuel Supply Stock 2026 until 31 July 2006 or further decision of Council.
3.	**Cyber security**	Failure to provide cyber security resulting in loss of private data or compromise of systems.	1. Increasing sophistication and frequency of cyber threats 2. Human error or inadequate cyber awareness 3. Third-party or supply-chain vulnerabilities ~~4.~~ Rapid digitisation outpacing control maturity.	1. ICT governance and risk management arrangements 2. Security monitoring, response and recovery capabilities 3. Staff awareness and training programs 4. External assurance and testing activities.	**A**	Compliance Reputation Stakeholder Impact	**Major 4**	**Unlikely 2**	**Moderate 8**	Tolerate	Director Corporate and System Services	1. Periodic assessment of cyber maturity against risk appetite 2. ELT and ARIC oversight of cyber risk exposure and uplift priorities 3. Ongoing monitoring of threat landscape and emerging risks 4. Escalation of material incidents or control gaps to Council where [redacted]red.	1. The City undertakes regular cyber maturity and control assurance, including twice-yearly external penetration testing and annual security posture reviews. Findings inform the cyber uplift program and risk treatment priorities. 2. Cyber risk and significant uplift priorities are subject to ELT and ARIC oversight, supported by internal and external assurance activities. Recent cyber tabletop exercises have also tested executive response and identified governance improvements. 3. The Cyber Security function continuously monitors threats through security tooling, external security partners, ASCS intelligence and vulnerability testing. Material findings are assessed and assigned for remediation by priority. 4. Material cyber incidents and significant control gaps are escalated through executive

													governance and to Council when warranted.
4.	**Natural disaster**	Natural disasters resulting in loss of life, substantial property damage or compromised community or public health and environmental damage.	1. Increasing frequency and severity of extreme weather and climate events 2. Coastal and environmental exposure associated with location 3. Limitations in mitigation, adaptation or response capacity 4. Dependencies on external agencies and volunteers during emergencies 5. Community vulnerability and changing environmental conditions.	1. Coastal Adaptation Plan (2. Emergency management and disaster recovery governance 3. Training, exercising and preparedness programs 4. Business continuity and resilience planning 5. Inter-agency coordination arrangements (Memorandum of Cooperation – 7 surrounding local governments.	**A**	Environment Reputation Stakeholder Impact	**Medium 3**	**Likely 4**	**High 12**	Reduce	Director Sustainable Development and Safety	1. Strategic investment planning for resilience and adaptation 2. [illegible]dic review of [illegible]te and disaster risk assumptions 3. [illegible]ping collaboration [illegible]regional partners and emergency agencies 4. Assessment of strategic and statutory application against bush fire policy and construction code.	1. Storm surge/coastal erosion events generally occur each year (needing sand nourishment) Last event Feb-March: 20,000 cubic metres at CY O'Connor Beach plus removal from dune 2. Planning for FY27 Coastal Revegetation program (with Perth NRM). 3. Mid-term Climate Change Strategy review completed. 4. The Bushfire Risk Management Plan (BRMP) 2026-2028 has been approved by Council and now aligns with the requirements set by the Office of Bushfire Risk Management (OBRM). 5. The draft Plant and Animal Biosecurity Plan has been submitted to the Local Emergency Management Committee (LEMC) for review. 6. Multiple City service units participated in a joint LEMC exercise regarding the response and recovery to H5N1 Bird Flu with surrounding Local Governments, State departments and supporting agencies. 7. Progression on the new Coastal Hazard Risk Management and Adaption Plan underway (to replace current control: Coastal Adaptation Plan)

City of Cockburn Strategic Risk Register – As Discussed at the 17 February 2026 Council Risk Management Workshop (Updated on 14 April 2026)

Risk Identification & Analysis					Current Risk Assessment (Residual) Risk Rating								
Risk No.	Risk Title	Risk Description	Possible Causes	Existing Controls	Control Rating: R = Robust A = Adequate I = Inadequate	Consequence Category: Compliance; Environment; Operations; Reputation; Stakeholder impact	Consequence Rating	Likelihood Rating	Level of Risk	Risk Strategy (i.e., ACCEPT, TOLERATE, REDUCE / IMPROVE CONTROLS)	Risk Owner	Treatment Action Plans (TAPs)	Notes (Progress and Notes to be reported to the Audit, Risk and Compliance Committee, at its 22 September 2026 meeting).
5.	**Community and Workplace Safety**	Failure to provide a safe community or work environment resulting in loss of life or significant injuries.	1. Emerging security threats and external risk environment 2. Inadequate or ineffective safety governance systems 3. Physical or psychosocial wellbeing pressures 4. Poorly planned or managed high-risk activities or events 5. Insufficient safety culture or accountability.	1. WHS governance framework 2. Community safety and security strategies 3. Incident management, reporting and investigation processes 4. Training, supervision and leadership programs 5. Monitoring of safety performance and emerging risks.	**A**	Operations Reputation Stakeholder Impact	**Major 4**	**Possible 3**	**High 12**	Reduce	Director Corporate and System Services	1. Continued emphasis on safety culture and leadership accountability 2. Monitoring of emerging safety and wellbeing risks 3. Escalation of serious incidents or systemic issues to ELT and ARIC.	1. SLT review safety data and monitor safety performance on a monthly basis. The annual employee engagement survey identified an average of 3% improvement of commitment to safety culture on the previous survey. 2. BeSafe electronic Safety System including contractor WHS management, site inductions and visitor sign-in/out stations, has been rolled out across all sites and includes a variety of safety reporting and risks analysis. Recent Health and Safety Committee meeting identified a wellbeing risk related to inappropriate behaviours of some customers towards employees, elected members and volunteers. A working group has been convened to develop a safety management approach. 3. The BeSafe Safety System now has mandatory escalations of all incidents and hazards based on a risk assessment. This ensures escalation to leaders based on seriousness of incident for visibility and follow-up if required. 4. Revised Work Health, Safety and Wellbeing Policy recently endorsed which reflects obligations under *Work Health and Safety Act 2020* (WA) and the *Work Health and Safety (General) Regulations 2022* (WA).

Attachments 1. Wiliam Buck Proposed Three Year Strategic Internal Audit Plan

Officer Recommendation/Committee Decision/Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council RECEIVES the Internal Audit Plan Update.

CARRIED 9/0

Background

This report is an update to the Audit Risk and Improvement Committee (ARIC) on the progress made by the City to implement its Internal Audit Plan (the Plan).

Submission

N/A

Report

At the Special Audit Risk and Improvement Committee Briefing on 25 August 2026 William Buck, the City's appointed internal auditor gave an overview of the proposed structure of the City's Internal Audit Plan.

The plan presented is a three-year plan with proposed audits focussing on the City's internal audit requirements, including an audit on the City's Audit Log. The proposed three-year plan is illustrated below:

Year 1: 3 Audits		
Audit Log		Grants Management
Year 2: 3 Audits		
Procurement to pay (end to end)	Integrity risk - including conflict of interest, gifts and hospitality	Project Delivery and Capital projects
Year 3: 3 Audits (Possible 4 Audits)		
ICT Governance	Artificial Intelligence	Drainage Management / Environmental Management, and Landfill Capping.

Strategically, the City risk management framework subscribes to the four lines of defence assurance model in line with the Office of the Auditor General (OAG), as the mechanism to provide assurance of effective risk.

The structure of the OAG model ensures roles, responsibilities and accountabilities are in place to demonstrate effective governance and assurance.

The summary of the four lines of defence is provided below:

- First line - held by the Business/Service Unit Heads and employees
- Second line - held independently by the Legal and Compliance Service Unit
- Third line - provided by the City's internal/external auditing mechanism
- Fourth line - provided by the external performance and focus audits provided by the regulatory regimes – the Department of Local Government, Industry Regulation and Safety, and the OAG.

Attachment 1 to this report consists of the William Buck proposed Internal Audit Plan, which becomes the third line of defence of the OAG defence assurance model. This plan is adequate and sustainable and looks at areas which have financial, regulatory compliance, cyber security and financial impacts. The proposed plan also takes into account aspects of Procurement and Information Management - areas which were scheduled for internal auditing in the previous audit plan.

Strategic Plans/Policy Implications

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Facilitate transparent and accountable governance for today and tomorrow.
Strive for financial sustainability and operational excellence.

Budget/Financial Implications

Funding for the internal audit plan has been included in the City's budget.

Legal Implications

Regulation 17 of the *Local Government (Audit) Regulations 1996*.

Community Consultation

N/A

Risk Management Implications

The Internal Audit Plan is designed to add value and improve the City's ability to achieve its strategic objectives. The Plan will evaluate and improve the effectiveness of the City's risk management controls and governance processes, legislative compliance and financial management.

The plan has been drafted with the oversight of the ARIC. Failure to adopt this report will result in a Moderate risk to the City in its ability to align audits to identify risks which focus on the critical areas that impact the City's ability to achieve its objectives.

Advice to Proponent(s)/Submitters

Council Internal Audit Plan 8

Objectives and Scope of FY26/27 Annual Internal Audit Plan 18

Annexure: Audit Universe 22

Introduction

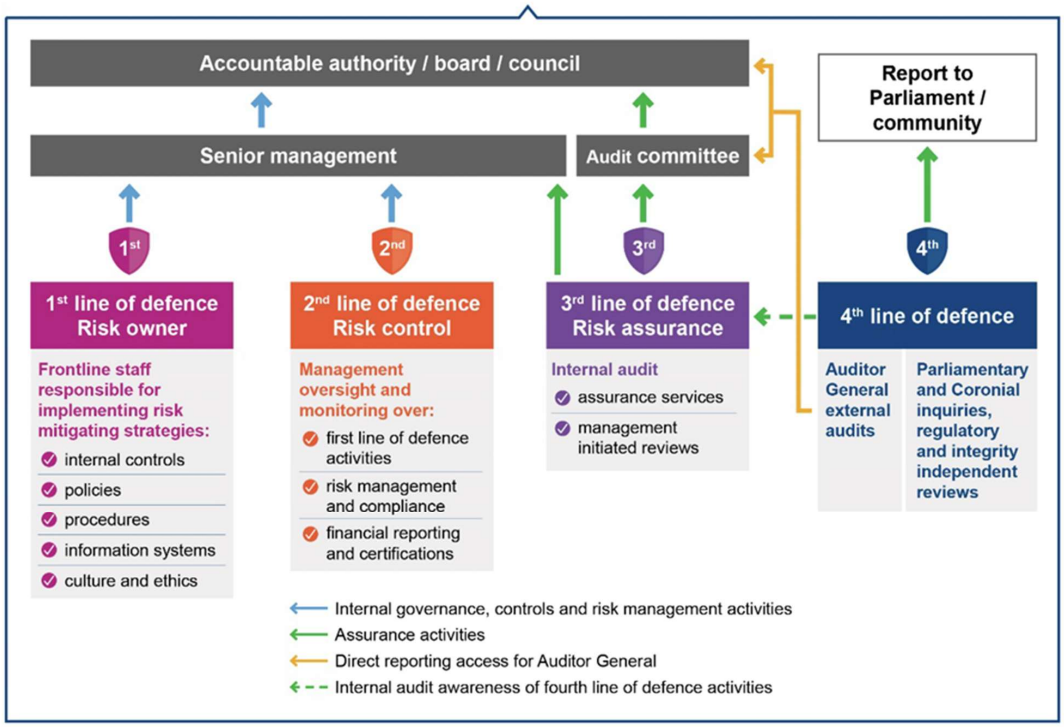

The Institute of Internal Auditors' International Professional Practices Framework requires Internal Audit to produce a risk-based plan, which considers the City of Cockburn's (the "**City**") risk management framework, knowledge of operations and internal controls derived from previous audits, its strategic objectives and priorities, the views of members of the senior leadership team and the Audit, Risk and Improvement Committee (the "**ARIC**").

The objective of the Council 3-Year and Annual Internal Audit Plan is to direct audit resources in an efficient manner to provide assurance that key risks are being managed effectively.

This document addresses these requirements by setting out a proposed and detailed Annual Internal Audit Plan for FY26/27 and the Council 3-Year Internal Audit Plan (the "**Plan**") covering the period from 1 July 2026 to 30 June 2029., The Plan has been developed based on the Strategic and Operational Risk Registers, together with consultation with Senior Management, for consideration by the ARIC.

The Annual Internal Audit Plan and rolling Council 3-year Internal Audit Plan will be reviewed and updated annually, or more frequently where required, by the ARIC to ensure that planned internal audit activities remain aligned with the City's evolving strategic, corporate and operational risks.

Internal Audit forms part of the third line of defence within the Institute of Internal Auditor's Three Lines Model. As an independent assurance function, Internal Audit plays a critical role in evaluating the effectiveness of governance, risk management and internal control processes, while providing assurance and maintaining effective liaison with Management, ARIC and Council.

Source: OAG

Internal Audit Purpose and Objectives

The aim of the City's Internal Audit Service ("**Internal Audit**") is to assist the ARIC and Management in managing risk by providing an independent, responsive, proactive and value-adding internal audit function.

The objectives of Internal Audit are to:

- Provide independent assurance over the adequacy and effectiveness of governance, risk management and internal control processes.
- Promote a culture of accountability, risk awareness and continuous improvement across the City.
- Support Management in identifying opportunities to improve organisational performance, efficiency and effectiveness.

These objectives are achieved by:

- Evaluating the City's processes for identifying, assessing and managing strategic, operational, financial and compliance risks.
- Assessing the design and effectiveness of internal controls, including compliance with policies, procedures, legislation and regulatory requirements.
- Recommending practical improvements to enhance governance, risk management and internal control frameworks.
- Monitoring emerging issues, trends and developments that may impact the City's operations and risk environment.
- Remaining responsive to the City's changing priorities and supporting continuous improvement initiatives.

Scope of Internal Audit Services

Internal Audit activities may include, but not limited to:

- Reviewing governance, risk management and internal control frameworks and recommending improvements where appropriate.
- Conducting risk-based reviews to assess and minimise the City's exposure to strategic, operational, financial and compliance risks.
- Evaluating the efficiency and effectiveness of the City's operations, programs and services, including non-financial controls.
- Assessing compliance with legislation, regulations, policies, procedures and other internal requirements
- Undertaking investigations, advisory reviews or other specific engagements requested by Management, ARIC or Council.

Internal Audit Planning Approach

The Plan aims to support the continuous improvement of the City's governance, risk management and internal control processes through a systematic and disciplined approach to evaluation and assurance.

The City's Internal Audit methodology is risk-based and aligned to the City's risk management framework. This approach enables Internal Audit resources to be directed towards areas of greatest risk and importance, ensuring audit activities remain strategic, targeted and value-adding.

By focusing on the key risk areas, Internal Audit seeks to provide assurance that:

- Management has identified, assessed, and responded appropriately to the City's key risks.
- Risk responses and control are effective, proportionate and operating as intended.
- Further action is being taken where residual risks remain outside the City's risk appetite or tolerance.
- Risk management processes and control activities are regularly monitored and reviewed by Management to ensure ongoing effectiveness.
- Risks, controls, treatments and management actions are appropriately documented, classified, monitored and reported.

Additional Internal Audit Activities

The role of Internal Audit extends beyond the audits included within the Annual Internal Audit Plan. From time to time, Internal Audit may undertake reviews of emerging risks, new initiatives, projects, systems or processes that were not identified or anticipated during the development of this Plan.

Requests for Internal Audit to undertake such reviews, advisory engagements or other related services will be considered and agreed with the relevant Corporate Executive members and, where appropriate, communicated to the ARIC.

Development of the Council 3-Year Internal Audit Plan

The Strategic Internal Audit Plan is founded on an assessment of audit need, which determines the level of assurance required over the City's key systems and controls. This assessment identifies the inherent risks facing the City and the internal audit resources necessary to provide assurance on the design and effectiveness of related controls.

A combined top-down and bottom-up methodology is used:

- The top-down component identifies the City's highest inherent risks and the key controls intended to manage them.
- The bottom-up component maps the audit universe and aligns audit coverage with the City's broader assurance environment, including activities across all lines of defence.

The audit needs assessment is informed by a review of the City's Strategic and Operational Risk Registers, previous internal audit reports, relevant external audit findings, and discussions with Executive Management.

The audit needs assessment will be revised on an on-going basis (at least annually) to take account of any changes in the City's risk profile. Any changes to the internal audit plan are to be recommended by the ARIC for Council endorsement.

Historical Audit Coverage and Audit Recommendation Follow-up

The table below outlines the Internal Audit reviews performed between FY17/18 and FY25/26 and has been used to inform the development of the proposed Internal Audit Plan. The table provides an overview of historical audit coverage and assists in identifying areas for future audit consideration. The information has been compiled based on historical records and documentation provided by the City and accordingly is subject to the completeness and accuracy of those records.

Audit Topic	FY17/18	FY18/19	FY19/20	FY20/21	FY21/22	FY22/23	FY23/24	FY24/25	FY25/26

Audit identified from Audit Log and ARIC meeting minutes

Note: Historical information is based on records provided by the City and may not represent a complete audit history

Annual Internal Audit Plan

We recognise that the City's risk profile, operating environment and priorities will continue to evolve over time. Accordingly, the Annual Internal Audit Plan will be reviewed and developed each year prior to the commencement of the relevant financial year.

In consultation with Management, ARIC and Council, we will develop a risk-based Annual Internal Audit Plan that reflects the City's key risks, priorities and assurance requirements. The proposed Annual Internal Audit Plan will be presented to the CEO and ARIC at the commencement of each financial year for review, consideration and approval.

The review process should consider, at a minimum, the proposed audit areas, audit objectives and scope, timing of engagements, resource requirements and other logistical considerations. An understanding of the City's business areas, strategic objectives, operating environment, key stakeholders and business cycles should also be incorporated to ensure the Internal Audit Plan remains relevant, practical and risk-focused.

Audit Log and Recommendation Follow-up

As part of the FY2026/27 Internal Audit Plan, Internal Audit proposes to undertake a review of the City's Audit Log and the status of historical audit findings and recommendations. The objective of this review is to assess the effectiveness of the City's processes for monitoring, reporting and implementing agreed audit actions, and to provide Management and the ARIC with a clearer understanding of the City's overall progress in addressing previously identified control weaknesses and improvement opportunities.

The review will focus on audit findings and recommendations arising from internal audits and other relevant assurance activities. Findings and recommendations issued by the Office of the Auditor General ("**OAG**") will be excluded as these are subject to annual OAG's financial audit process.

Council Internal Audit Plan

The following sections outline the proposed Council 3-Year Internal Audit Plan and Annual Internal Audit Plan.

Table 1 provides an overview of the **proposed audit topics** and their associated **risks**, supporting the risk-based prioritisation of internal audit activities.

Table 2 outlines an **overview** of the proposed 3-Year Internal Audit Plan, including the planned audit reviews and indicative hours allocated to each review across the three-year planning period.

Table 3 summarises the indicative hours allocated to internal audit administration, governance and committee support activities over the three-year planning period.

Table 4 outlines the **total** indicative Internal Audit hours required across the three financial years covered by the Plan, including planned audit engagements and related Internal Audit activities.

Table 5 outlines the estimated Internal Audit **costs** for the three-year planning period, including planned audit engagements, administrative activities and committee support services.

The following should be noted:

- Audit objectives and scope have been developed for FY26/27 only, as detailed in Table 6.
- The Annual Internal Audit Plan is a live document and will be reviewed at least annually to ensure it continues to align with the City's evolving needs, priorities and risk profile. Newly identified risks and changes in priorities will be considered throughout the year and, where necessary, the Annual Internal Audit Plan will be updated and re-presented to the ARIC. The audit reviews and associated hours identified for FY27/28 and FY28/29 are indicative and will be reassessed during each annual planning cycle.
- The audit objectives and scope for reviews scheduled in FY27/28 and FY28/29 will be determined as part of the annual review and planning process. Accordingly, the Internal Audit review hours shown in Table 2 for future years are indicative only and will be refined during subsequent annual planning reviews. William Buck will maintain flexibility in scheduling reviews to accommodate City staff availability and minimise disruption to business-as-usual operations.
- Ad hoc internal audit engagements may be requested by the City, Management or the ARIC to address emerging risks, new initiatives, incidents or other matters requiring independent review. Such engagements have not been included within this Plan and will be separately scoped, prioritised and funded. Any additional budget requirements will be agreed and approved by the City and the ARIC prior to commencement of the engagement.

Annexure A outlines the "Audit Universe" identified during the planning process.

WilliamBuck

Audit Topics and Associated Risks

Table 1: Overview of the proposed audit topics and their associated risks, supporting the risk-based prioritisation of internal audit activities.

Audit Topic	Associated Risks
Audit Log	**Governance and Oversight Risks** — Audit findings and recommendations are not adequately tracked, resulting in unresolved control weaknesses. — Management and the ARIC are not provided with accurate or timely information regarding the status of outstanding recommendations. — Repeat audit findings occur due to ineffective implementation of agreed actions. **Compliance Risks** — Failure to implement audit recommendations may result in non-compliance with legislative, regulatory, policy, or contractual requirements. — Overdue audit actions may expose the organisation to increased regulatory scrutiny or adverse audit opinions. **Operational Risks** — Recommendations are incorrectly assigned to responsible officers or business units. — Due dates are not monitored, resulting in delays in remediation activities. — Progress updates provided by management are inaccurate or unsupported. **Risk Management Risks** — High-risk findings are not prioritised appropriately. — Residual risks remain unmitigated because corrective actions have not been effectively implemented. — Emerging themes and systemic control weaknesses are not identified through analysis of audit findings. **Accountability Risks** — Roles and responsibilities for monitoring and implementing audit recommendations are unclear. — There is insufficient executive ownership and accountability for overdue actions.
Procurement-to-pay	**Governance and Compliance Risks** — Non-compliance with procurement legislation, policies, delegations and contractual obligations. — Procurement activities not conducted in a fair, transparent and accountable manner. — Failure to comply with tendering, quotation and approval requirements. — Inadequate management of conflicts of interest, gifts and hospitality declarations. **Financial Risks** — Unauthorised, inaccurate or fraudulent expenditure. — Duplicate, erroneous or unsupported payments. — Incorrect application of purchase orders, invoices and payment processing controls. — Budget overruns resulting from inadequate expenditure monitoring and approval processes.

Audit Topic	Associated Risks
	— Procurement fraud, collusion or inappropriate vendor arrangements. **Operational Risks** — Procurement activities not aligned to business needs or value-for-money principles. — Delays in sourcing goods and services impacting operational objectives. — Inefficient procurement processes resulting in excessive administrative costs. — Inadequate contract management leading to poor supplier performance or service delivery failures. **Information and Reporting Risks** — Inaccurate procurement and expenditure data impacting management decision-making. — Inadequate monitoring and reporting of procurement activities and contract performance. — Insufficient audit trails to demonstrate compliance and accountability. **Fraud and Integrity Risks** — Circumvention of procurement requirements through purchase splitting or unauthorised procurement methods. — Payments made for goods or services not received. — Favouritism, conflicts of interest or inappropriate supplier selection practices. — Creation of fictitious vendors or unauthorised amendments to vendor master data.
Grants Management	**Governance and Strategic Risks** — Grants are not aligned with organisational objectives, strategic priorities, or legislative requirements. — Inadequate governance arrangements result in inconsistent grant administration and decision-making. — Roles, responsibilities, and accountabilities for grant management are unclear. **Grant Assessment and Approval Risks** — Grant applications are not assessed consistently against established eligibility and assessment criteria. — Inappropriate influence, bias, conflicts of interest, or perceived favouritism affect funding decisions. — Funding approvals are not supported by adequate documentation or delegated authority. — Ineligible recipients receive grant funding. **Financial Management Risks** — Grant funds are not used for their intended purpose. — Payments are made without adequate verification or approval. — Duplicate, incorrect, fraudulent, or unsupported payments occur. — Overpayments or underpayments are not identified and recovered promptly. — Grant expenditure exceeds approved budgets. **Contract and Agreement Management Risks** — Grant agreements are incomplete, inaccurate, or not executed before funding is released.

Audit Topic	Associated Risks
	— Grant obligations, milestones, performance indicators, and reporting requirements are inadequately defined. — Changes to grant agreements are not properly reviewed and authorised. **Monitoring and Acquittal Risks** — Grant recipients fail to meet agreed outcomes, milestones, or performance requirements. — Progress reports and acquittals are not obtained, reviewed, or assessed appropriately. — Non-compliance by grant recipients is not detected or addressed. — Unspent funds are not identified and recovered where required. **Fraud, Integrity and Compliance Risks** — Fraudulent applications are approved. — Conflicts of interest are not declared or managed appropriately. — Grant funding is misappropriated or used for unintended purposes. — Non-compliance with legislation, funding agreements, policies, or grant program requirements results in financial or reputational damage. **Information and Reporting Risks** — Grant records are incomplete, inaccurate, or not adequately maintained. — Management reporting does not provide reliable information on grant performance and outcomes. — Decision-making is compromised by poor-quality information.
Landfill Capping	**Strategic and Environmental Risks** — Landfill capping activities do not comply with environmental licence conditions, regulatory requirements, or approved closure plans. — Failure to adequately cap landfill cells results in environmental contamination, pollution, or long-term remediation costs. — Community expectations and environmental commitments are not met, leading to reputational damage. **Planning and Design Risks** — Landfill capping designs are not developed in accordance with regulatory standards, engineering specifications, or approved closure plans. — Geotechnical, environmental, and engineering assessments are inadequate to support capping requirements. — Inappropriate capping materials or construction methods are selected. — Risks associated with settlement, erosion, gas emissions, and water infiltration are not adequately considered. **Project Management Risks** — Landfill capping projects experience cost overruns, delays, or scope changes. — Project milestones and deliverables are not effectively monitored. — Contractor performance is not adequately managed. — Project governance and decision-making arrangements are ineffective.

Audit Topic	Associated Risks
	Environmental and Compliance Risks — Capping works fail to achieve required environmental outcomes. — Surface water infiltration is not adequately controlled, resulting in contaminated leachate generation. — Landfill gas migration is not effectively managed. — Environmental monitoring and reporting obligations are not fulfilled. — Non-compliance with licence conditions results in regulatory enforcement action. **Health and Safety Risks** — Construction activities expose workers, contractors, or the public to safety hazards. — Site access, traffic management, excavation, and plant operation risks are inadequately controlled. — Occupational health and safety requirements are not complied with.
Integrity Risk – including conflict of interest, gifts and hospitality	**Governance and Ethical Conduct Risks** — Ethical standards, codes of conduct, policies and procedures are inadequate or not effectively implemented. — Governance arrangements do not adequately support ethical decision-making and accountability. — Management does not promote a culture of integrity and ethical behaviour. **Conflict of Interest Risks** — Actual, perceived or potential conflicts of interest are not identified, declared or managed appropriately. — Conflicts of interest influence procurement, recruitment, grant allocation or other business decisions. — Conflict of interest declarations are incomplete, inaccurate or not regularly updated. **Gifts and Hospitality Risks** — Gifts, benefits and hospitality are accepted or provided inappropriately. — Gifts and hospitality registers are incomplete, inaccurate or not maintained. — Staff fail to comply with gifts and hospitality policies and reporting requirements. **Fraud and Corruption Risks** — Fraud, corruption, bribery or misconduct is not prevented, detected or appropriately investigated. — Weak controls increase opportunities for inappropriate influence or personal gain. — Allegations of misconduct are not managed consistently and confidentially. **Compliance and Reputational Risks** — Non-compliance with legislation, policies and integrity frameworks. — Integrity breaches result in regulatory scrutiny, reputational damage or loss of public trust. — Failure to manage integrity risks impacts stakeholder confidence in Council decisions.

Audit Topic	Associated Risks
Project Delivery and Capital Projects	**Governance and Oversight Risks** — Project governance arrangements are inadequate to support delivery objectives. — Roles, responsibilities and accountability for projects are unclear. — Project reporting does not provide accurate or timely information. **Project Planning Risks** — Project scope, objectives, budgets and timelines are not adequately defined. — Feasibility assessments and business cases are incomplete or unsupported. — Key project risks are not identified or appropriately managed. **Delivery and Performance Risks** — Projects experience cost overruns, delays or scope creep. — Milestones and deliverables are not achieved as planned. — Project benefits and outcomes are not realised. **Procurement and Contract Risks** — Procurement activities do not comply with legislative and policy requirements. — Contractor performance is not effectively monitored and managed. — Project variations are not appropriately approved or documented. **Financial Risks** — Capital expenditure is not appropriately controlled or monitored. — Project budgets are exceeded without adequate authorisation. — Payments are made for incomplete or unsatisfactory works.
ICT Governance	**Governance and Strategic Risks** — ICT strategy is not aligned with organisational objectives and priorities — ICT investments do not deliver expected business outcomes — ICT governance arrangements are ineffective or poorly defined **Cyber Security Risks** — Cyber security controls do not adequately protect systems and data — Unauthorised access, cyberattacks or data breaches occur — Vulnerability management and security monitoring processes are inadequate **Systems and Operations Risks** — Critical ICT systems experience outages or service disruptions — System changes are not appropriately tested, approved or implemented — ICT assets are not effectively managed throughout their lifecycle **Information Management Risks** — Sensitive information is not adequately protected — Data quality, integrity and availability are compromised — Information retention and disposal practices do not comply with requirements

Audit Topic	Associated Risks
	Compliance Risks — ICT practices do not comply with legislative, regulatory or policy requirements. — Business continuity and disaster recovery arrangements are inadequate. — Third-party ICT service providers are not effectively governed.
Artificial Intelligence (AI)	**Governance and Strategic Risks** — AI initiatives are not aligned with organisational objectives or priorities. — Governance frameworks for the use of AI are not established or effective. — Roles, responsibilities and accountability for AI use are unclear. **Ethical and Decision-Making Risks** — AI-generated outputs are biased, inaccurate or unreliable. — AI tools are used without appropriate human oversight. — Decisions influenced by AI are not transparent or explainable. **Information and Security Risks** — Sensitive or confidential information is disclosed through AI platforms. — AI solutions do not comply with privacy and information security requirements. — Data used to train or support AI models is inaccurate or inappropriate. **Compliance Risks** — AI use does not comply with relevant legislation, regulations or policies. — Emerging regulatory requirements relating to AI are not identified or addressed. — AI-related risks are not incorporated into risk management processes. **Operational Risks** — Staff use AI tools without adequate guidance, training or approval. — Reliance on AI results in errors, poor decisions or service delivery impacts. — AI-generated content is not adequately reviewed before use.
Drainage Management / Environmental Management	**Strategic and Environmental Risks** — Environmental objectives, obligations and commitments are not achieved. — Environmental impacts are not effectively identified, monitored or mitigated. — Failure to manage drainage assets results in environmental harm. **Asset Management Risks** — Drainage infrastructure is not adequately maintained or monitored. — Asset condition and performance information is incomplete or inaccurate. — Asset renewal and replacement requirements are not appropriately planned. **Operational Risks** — Drainage systems are unable to effectively manage stormwater flows. — Flooding events disrupt services and damage assets or property. — Maintenance activities are not performed in accordance with plans or priorities.

Audit Topic	Associated Risks
	Compliance Risks – Environmental legislation, licence conditions and regulatory requirements are not met. – Required environmental monitoring and reporting obligations are not fulfilled. – Non-compliance results in regulatory enforcement or penalties. **Financial and Reputational Risks** – Inadequate drainage management results in increased remediation costs. – Environmental incidents result in community complaints and reputational damage. – Funding requirements for environmental and drainage initiatives are underestimated.

Planned Internal Audit Reviews

Other Services (as above)	$7,110	$5,451	$7,110
Total	**$31,287**	**$51,433**	**$53,096**

WilliamBuck

Objectives and Scope of FY26/27 Annual Internal Audit Plan

Table 6: Indicative audit objectives and scope for the internal audit reviews included in the FY26/27 Annual Internal Audit Plan.

Audit Topic	Objective/Scope
Audit Log	To undertake this review, Internal Audit will engage with Directors, Heads of Business Units and relevant managers across the City to obtain an understanding of the processes, controls and governance arrangements established to manage audit findings and recommendations. This will include assessing how audit actions are assigned, monitored, tracked, validated and reported, as well as the mechanisms used to oversee implementation progress, manage overdue actions, and maintain accountability for the timely remediation of identified issues. Internal Audit will evaluate whether business units have established appropriate governance arrangements and processes to support the effective implementation of audit recommendations. Where governance arrangements are absent, inadequate or ineffective, or where there is insufficient evidence demonstrating a structured and disciplined approach to implementing agreed management actions, Internal Audit may conclude that the relevant recommendations have not been effectively implemented. For recommendations reported by Management as completed, and where appropriate governance and implementation processes are evident, Internal Audit will select a **sample of recommendations** for detailed testing. This testing will seek to validate the reported implementation status and assess whether agreed management actions have been fully implemented, are operating effectively in practice, and have appropriately addressed the underlying risks or issues identified by the original audit. This approach will provide an **efficient and risk-based** assessment of the effectiveness of the City's audit recommendation management framework. It will also identify recurring themes, implementation barriers, systemic issues and opportunities to strengthen governance processes and drive continuous improvement in the management and closure of audit recommendations. **Internal Audit Objective** — To assess the effectiveness of the City's governance arrangements, processes and practices for managing, monitoring and reporting audit findings and recommendations, and to determine whether agreed management actions are implemented, appropriately evidenced and effectively monitored to support the timely remediation of identified risks and control weaknesses **Internal Audit Scope** **Governance and Accountability** — Roles, responsibilities and accountability for implementing audit recommendations — Roles, responsibilities and accountability — Executive and ARIC oversight — Consistency across business units **Recommendation Register Management** — Recommendation management processes and practices — Roles, responsibilities and action ownership — Tracking, monitoring and escalation processes — Management and ARIC reporting arrangements

Audit Topic	Objective/Scope
	– Consistency of practices across business units **Audit Log Administration** – Completeness of Audit Log information – Audit findings, recommendations and risk ratings – Responsible officers, due dates and status tracking – Accuracy of recommendation status reporting – Supporting evidence and closure documentation **Recommendation Status and Reporting** – Status of audit findings and recommendations – Accuracy of progress reporting – Management and ARIC reporting – Overdue and high-risk recommendations **Recommendation Implementation and Validation** – Validation of selected recommendations – Evidence supporting implementation – Closure approval processes – Timeliness of remediation actions
Procurement-to-pay review (end-to-end)	**Internal Audit Objective** – To assess whether the City's Procure-to-Pay processes are effective, efficient, and appropriately controlled to ensure procurement activities are conducted in accordance with legislative requirements, organisational policies, delegated authorities, and principles of value for money, and that payments are accurate, authorised, timely, and supported by appropriate documentation. **Internal Audit Scope** **Procurement Planning and Initiation** Assess whether: – Procurement planning considers value-for-money principles and procurement risk. – Roles, responsibilities, and approval requirements are clearly defined. **Supplier Selection and Engagement** Assess whether: – Procurement methods are selected in accordance with policy and legislative requirements. – Quotations and tenders are obtained and evaluated appropriately. – Procurement decisions are transparent, documented, and support value for money. – Conflicts of interest are declared and managed. – Supplier due diligence is undertaken before engagement.

Audit Topic	Objective/Scope
	Contract and Purchase Order Management Assess whether: — Purchase orders are raised and approved before commitments are made. — Contracts are appropriately executed and stored. — Contract variations are appropriately approved and documented. **Goods Receipt and Service Verification** Assess whether: — Goods and services received are verified before payment. — Evidence of receipt and acceptance is maintained. — Segregation of duties exists between ordering, receiving, and payment functions. — Discrepancies are identified and addressed promptly. **Accounts Payable and Invoice Processing** Assess whether: — Invoices are matched against purchase orders, contracts, and receiving records — Payments are supported by valid and complete documentation. — Duplicate or fraudulent invoices are prevented or detected. — Invoice processing occurs in accordance with organisational policies and supplier terms. **Payment Processing** Assess whether: — Payments are authorised in accordance with delegations. — Bank account changes and supplier master file amendments are appropriately controlled. — Electronic payment processes are secure. — Payments are accurate, complete, and made only for legitimate business purposes.
Grants Management	**Internal Audit Objective** — To assess whether the City's grants management framework, processes, and controls are effective in ensuring grants are administered transparently, consistently, and in accordance with legislative requirements, organisational policies, funding program objectives, and delegated authorities, and that grant funds are used for their intended purpose and deliver the expected outcomes **Internal Audit Scope** **Governance and Framework** Assess whether: — Appropriate grants management policies, procedures, and guidance exist. — Roles, responsibilities, and accountabilities are clearly defined. — Grant programs align with strategic and legislative requirements.

Audit Topic	Objective/Scope
	Grant Program Design Assess whether: — Eligibility criteria are clearly defined and documented. — Assessment methodologies are transparent and consistently applied. — Funding objectives and expected outcomes are appropriately established. **Application Assessment and Approval** Assess whether: — Applications are assessed against approved criteria. — Conflicts of interest are identified, declared, and managed. — Funding decisions are appropriately approved in accordance with delegations. — Successful and unsuccessful applications are appropriately documented. **Grant Agreements and Contract Management** Assess whether: — Funding agreements are executed before funding is released. — Agreements clearly define: — Funding amounts — Milestones and deliverables — Reporting and acquittal requirements — Performance measures — Compliance obligations — Variations to agreements are appropriately authorised and documented. **Grant Payment Processes** Assess whether: — Payments are supported by approved funding agreements. — Milestone-based payments are appropriately verified. **Monitoring and Performance Management** Assess whether: — Grant recipients submit required progress reports. — Milestone achievement is monitored and verified. — Performance against intended outcomes is assessed. **Acquittals and Close-Out** Assess whether: — Financial and performance acquittals are received and reviewed. — Supporting evidence is assessed for completeness and accuracy. — Unspent or ineligible expenditure is identified. — Recovery processes exist where funding conditions are not met.

Annexure A: Audit Universe

The table below outlines the City's auditable areas, including audit reviews incorporated within the proposed 3-Year Internal Audit Plan and additional areas that may be considered during future planning cycles.

Review of the Audit Log	Petty Cash and Storecards, e.g., Bunnings	Payroll Compliance
Procurement-to-pay (end to end)	Fraud & Integrity (bank account, credit Masterfile)	Grants Management
Asset Management (Fleet management, portable attractive assets, asset lifecycle, disposal)	Business Continuity Management & Emergency Management	Regulation 17
Revenue (fees and charges)	Information Management (Privacy, PRIS, Data Governance)	Waste Management
Childcare safety	Financial Controls	Workforce Planning
WHS including psychosocial hazards	Project Delivery and Capital Projects	Contract Management and Performance
Cybersecurity	Climate Resilience	Vulnerable People
Fraud management	Landfill Capping	Customer Service

Thank You

We look forward to working with you.

15.1.4 (2026/MINUTE NO 0162) Audit, Risk and Improvement Strategy Update

Executive Chief Executive Officer
Author Risk and Governance Advisor
Attachments 1. Audit, Risk and Improvement Strategy 2027-2029 - June 2026 ⇩

Officer Recommendation
That Council:

(1) RECEIVES the Audit, Risk and Improvement Strategy Update; and

(2) ACKNOWLEDGES the work that the City has undertaken to date on the City of Cockburn Audit, Risk and Improvement Strategy 2026-2028.

Committee Decision/Council Decision
MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes
That Council:

(1) RECEIVES the Audit, Risk and Improvement Strategy Update; and

(2) ACKNOWLEDGES the work that the City has undertaken to date on the City of Cockburn Audit, Risk and Improvement Strategy 2027-2029.

CARRIED 9/0

Background

At its 26 May 2026 Audit Risk and Improvement Committee (ARIC) Meeting , the City of Cockburn (the City) updated the Audit, Risk and Improvement Committee on the procurement process undertaken by the City that resulted in Ethical Governance being appointed to facilitate in developing and implementing the City's Integrity Strategy Improvement Framework aligned to the Integrity Strategy of the Public Sector Commission (PSC).

This report is an update to the ARIC on progress made since the 26 May 2026 update to the ARIC.

Submission

N/A

Report

The City reported to the 25 November 2025 ARIC completing the Integrity Framework Maturity Self-Assessment Tool, which allowed the City to self-assess itself against four maturity levels in 13 nominated integrity elements.

This self-assessment was supported by numerous City policies, frameworks, guidelines, processes, and systems, including but not limited to:

- The City's Risk Maturity Improvement Plan, which was informed by the Moore Australia Risk Maturity report presented to the ARC at its 25 May 2023 meeting
- The Governance Improvement Guidance Plan, which resulted from the 2024 RokSteady Governance Review of the City.

On 4 June 2026, Ethical Governance, using the City's self-assessment above as a foundation, facilitated an Integrity Framework Maturity Assessment Workshop for the City's Senior Management Leadership Team (SLT).

The SLT holds the most reliable evidence about how integrity operates in practice in the City. The purpose of the workshop was to reveal that evidence, structure it, and use it to build an Integrity Strategy Improvement Framework aligned to the Integrity Strategy of the PSC.

Following the Workshop, Ethical Governance drafted an integrity framework for the City. Subsequently, SLT was invited to review the draft framework, and the peer reviewed document titled City of Cockburn Audit, Risk and Improvement Strategy 2027-2029 (the Framework) is presented (refer Attachment 1).

The Framework is presented to the ARIC to ensure that the Committee reviews the document before the City formally publishes it in its intranet. Following publication on the intranet, the City will conduct training sessions with all workers to ensure that the integrity strategy becomes embedded in the as part of the City of Cockburn culture.

Strategic Plans/Policy Implications

Our Economy

Attracting investment, supporting business and visitor growth and boosting local jobs through vibrant hubs.

• Attract investment to the City by promoting innovation and economic opportunity.

Our Governance

Transparent leadership that listens, communicates openly and plans for a sustainable future.

• Facilitate transparent and accountable governance for today and tomorrow.
• Strive for financial sustainability and operational excellence.

Budget/Financial Implications

The engagement of Ethical Governance is being managed within existing Corporate Business Plan and Budget processes.

Legal Implications

The work undertaken to-date on the City of Cockburn Audit, Risk and Improvement Strategy 2027-2029 will assist the City to comply with its legal obligations and align it to the PSC Integrity requirements.

Community Consultation

N/A

Risk Management Implications

The Integrity Strategy can include actions to better manage any identified integrity risks.

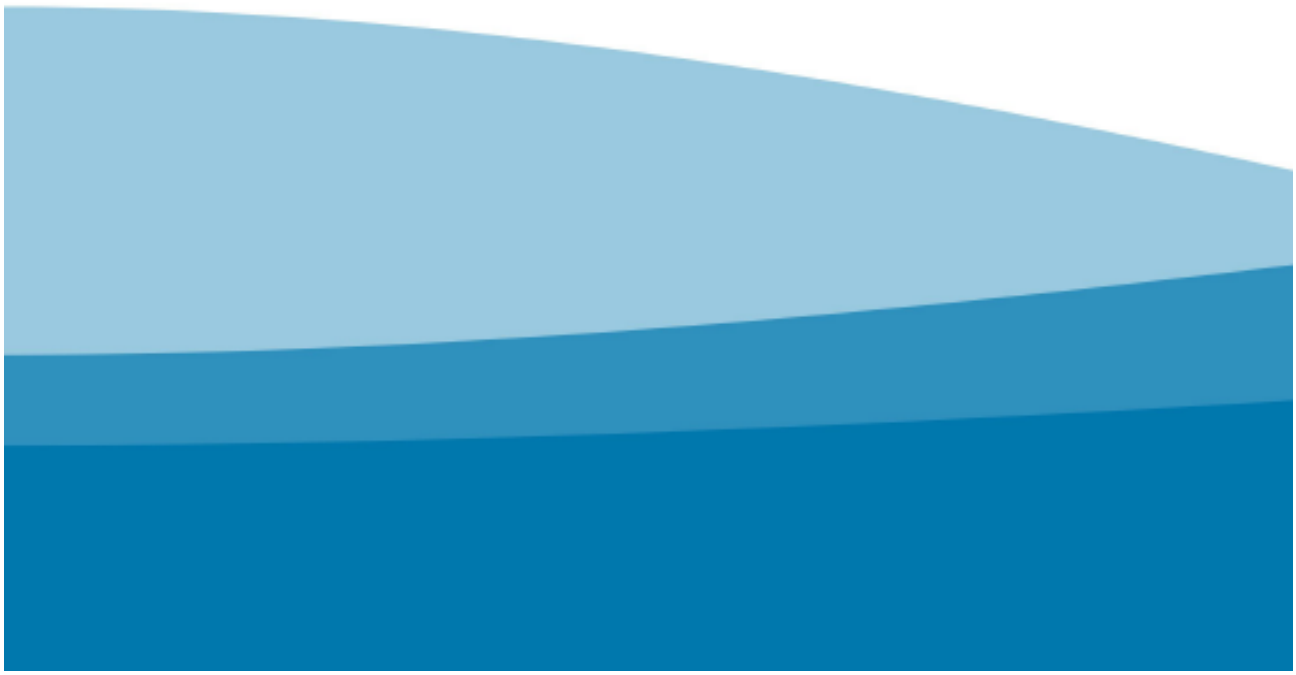

Advice to Proponent(s)/Submitters

DRAFT

1 Introduction

1.1 Public Sector Commission Integrity Strategy

The Western Australian Government has adopted an Integrity Strategy "Embedding Integrity" for WA Public Authorities 2024-2028. This strategy focuses on 4 key improvement areas with actions and controls to promote integrity and help prevent misconduct and corruption. Under each of the key improvement areas are actions for the Public Sector Commission (the PSC), public authorities, and for individuals:

1. Plan and act to improve integrity
2. Model and embody a culture of integrity
3. Learn and develop integrity knowledge and skills
4. Be accountable for integrity.

The Strategy encompasses the broad work of the City of Cockburn (the City) Audit, Risk and Compliance Committee (ARIC).

As part of the PSC Strategy, agencies are expected to conduct an Integrity Maturity Self-Assessment against a standardised tool (the Integrity Tool). This identifies 13 elements of integrity which form the building blocks of any agency's approach to integrity. The City will have many of these building blocks in place.

This is reflective of the importance placed on improvement through the ARIC and Council.

The Integrity Tool allows the City to its progression on each element. The City can then set its target for future progress in relation to each element. This future progress can then be mapped into this document, the City's Integrity Strategy, for regular reporting to the ARIC and Council.

The Integrity Strategy applies to all City workers undertaking any function for or on behalf of the City.

1.2 Executive Summary

The City of Cockburn Audit, Risk and Improvement Strategy 2026–2028 (the Strategy – this document) is the primary instrument for planning and building integrity across every level of the City. It establishes a clear framework of priorities, actions and accountabilities to advance integrity maturity across the organisation over the two-year strategy period.

The Strategy is informed by a comprehensive Integrity Framework Maturity Assessment conducted across thirteen elements and a leadership workshop. The assessment

established the City's baseline position — identifying genuine strengths the Strategy builds on, and priority development areas it directly addresses.

The City's baseline position reflects a strong foundation: governance structures are in place, delegations and compliance calendars are active, the Employee Code of Conduct has been refreshed, and the Executive Leadership Team reinforces values through regular briefings. The assessment also identified four priority areas requiring targeted action: Fraud and Corruption Detection, Response to Integrity Breaches, Organisational Culture, and Risk Analysis and Planning.

The assessment identified that strengthening confidence in reporting, escalation and constructive challenge will be critical to sustaining an embedded integrity culture. Integrity can only be sustained where people feel safe to raise concerns, challenge decisions and escalate issues without fear of adverse consequences.

The Strategy is organised around five strategic priorities, each with specific actions, accountabilities and timeframes. It is designed to build on what already works, utilise existing systems and governance structures, and deliver measurable improvements in integrity maturity by 2028.

2 Integrity Vision

2.1 What Integrity Means for the City of Cockburn

INTEGRITY VISION

To be a trusted, integrity-led local government where ethical decision-making, accountability and continuous improvement are embedded in everyday practice, strengthening confidence among our community, elected members and employees.

Integrity at the City of Cockburn means:

- Clear governance arrangements, defined responsibilities and accountable decision-making.
- Leaders who consistently reinforce organisational values through their actions and behaviours.
- A culture where risks, concerns and opportunities for improvement are identified, discussed and addressed.
- Continuous learning and improvement informed by audits, reviews, reporting and emerging risks.

2.2 Strategic Outcomes

By 2028, the City of Cockburn will have an embedded integrity culture supported by capable leaders, informed employees, effective controls and transparent oversight mechanisms that enable the City to identify, prevent and respond to integrity risks with confidence.

Successful implementation of this Strategy will deliver measurable improvements across the City's integrity maturity profile. By 2028 the City aims to:

01	02	03
Build an integrity culture where ethical behaviour is visibly reinforced by leaders at all levels.	Strengthen organisational capability to identify, detect and respond to integrity risks.	Establish a mature integrity governance framework supported by robust oversight, reporting and continuous improvement.

3 Context and Purpose

3.1 Why Integrity Matters

Integrity is essential to effective local government. It enables the City to exercise delegated authority, manage public resources and deliver services in a manner that is transparent, accountable and worthy of community trust.

The *Local Government Act 1995* (as reformed) and the Public Sector Commission's integrity framework place clear expectations on elected members, the CEO and all officers. The formation of the Audit, Risk and Improvement Committee (ARIC) — requiring independent external leadership — signals a legislative expectation that integrity oversight will be strengthened, not merely maintained.

The City operates in an environment of increasing scrutiny. Reforms to the Local Government Act, the introduction of Privacy and Responsible Information Sharing (PRIS) legislation, and the ongoing work of the PSC and the Office of the Auditor General all require the City to move beyond reactive compliance toward a proactive, embedded integrity culture.

3.2 Scope

This Strategy applies to all elected members, the Chief Executive Officer, all officers (permanent, fixed-term and casual) and contractors performing functions on behalf of the City. It covers the full range of integrity risk — misconduct, fraud and corruption, conflicts of interest, information management, procurement and culture — addressing both prevention and detection.

3.3 Strategic Design Principles

The Strategy is designed around the following principles:

◆ **Lead by Example** Integrity is reinforced through visible leadership behaviour. Leaders at every level are expected to model the standards they seek from others.	◆ **Embed, Don't Add** Integrity should be integrated into existing systems, processes and governance arrangements rather than managed through parallel structures.
◆ **Communicate Proactively** Integrity is strengthened through regular discussion, visible leadership messaging	◆ **Integrity by Design** Integrity should be supported by consistent expectations, processes and

and ongoing engagement across the organisation. Engagement includes training/learning opportunities.	accountability mechanisms that endure beyond individual roles or personalities.
◆ Courageous Accountability Leaders and employees are expected to take ownership of decisions, raise concerns, challenge constructively and address issues early.	◆ Learn and Improve Integrity is strengthened through reflection, learning and continuous improvement informed by audits, reviews, incidents and emerging risks.

4 Strategic Context and Baseline

4.1 Strategic Themes

Four cross-cutting themes inform all five strategic priorities and the sequencing of actions across the strategy period:

01	02	03	04
Leadership and Accountability Building visible integrity leadership across the organisation.	**Capability and Confidence** Ensuring employees understand expectations and feel confident navigating integrity issues.	**Risk Intelligence and Response** Strengthening the City's ability to identify, detect and respond to integrity risks.	**Continuous Improvement** Using audits, reviews and reporting to strengthen organisational performance.

4.2 Baseline Strengths

The Integrity Framework Maturity Assessment identified a number of strengths that provide a strong foundation for this Strategy:

- **Values and Standards** – The refreshed Employee Code of Conduct and regular leadership communications demonstrate a clear commitment to organisational values and expected standards of behaviour.
- **Roles and Responsibilities** – Delegations, decision-making authorities and separation of duties are clearly documented and embedded within operational processes.
- **Leadership and Culture** – The Executive Leadership Team actively reinforces organisational values and has invested in building integrity capability across leadership cohorts.
- **Governance and Compliance** – Established compliance monitoring processes, regulatory oversight mechanisms and active monitoring of legislative change support ongoing accountability.
- **Assurance and Oversight** – Internal and external audit programs, ARIC oversight and audit action tracking provide a mature foundation for assurance and continuous improvement.

4.3 Priority Development Areas

The Integrity Framework Maturity Assessment identified several priority areas where targeted investment and sustained focus will further strengthen the City's integrity maturity

over the Strategy period:

- **Fraud and Corruption Detection** – Existing controls provide a sound foundation for fraud and corruption prevention; however, detection remains largely reliant on manual processes. The Strategy prioritises the progressive introduction of analytics-supported detection capabilities and strengthened monitoring arrangements.
- **Response to Integrity Breaches** – Established reporting processes support compliance with Public Sector Commission requirements. The Strategy strengthens this capability through a more structured approach to breach response, lessons learnt, trend analysis and organisational reporting.
- **Organisational Culture** – The Cockburn Way provides a strong cultural foundation and is well understood across the organisation. The Strategy seeks to further embed integrity as a visible and ongoing part of leadership practice, team discussions and organisational decision-making.
- **Integrity Capability and Awareness** – Integrity expectations are documented and communicated; however ongoing education and practical decision-making support can be strengthened. The Strategy establishes a structured program of induction, annual training, leadership development and integrity awareness activities to build confidence and capability across the organisation.
- **Risk Analysis and Planning** – The City has established a strong foundation for a more structured and intelligence-led approach to integrity risk management. The Strategy prioritises the full operationalisation of this capability through regular integrity risk reviews, enhanced reporting, strengthened risk ownership and improved oversight across the organisation.
- **Decision-Making Consistency** – An opportunity exists to strengthen consistency in how integrity-related decisions are identified, escalated, documented and communicated across the organisation. While the City's governance arrangements provide a strong foundation, a more structured and consistent approach to integrity decision-making would support officers and managers when navigating unfamiliar, complex or high-risk situations.

5 Strategic Priorities and Actions

The Strategy is organised around five strategic priorities. Each priority translates strategic intent into specific, accountable actions. The priorities are sequenced from foundational (culture and leadership) through to systemic (detection, response and review), reflecting the logic of the PSC Integrity Framework.

STRATEGIC PRIORITY 1 | Integrity Leadership and Organisational Culture
Embedding integrity as a visible leadership responsibility and a shared organisational expectation

Integrity culture is shaped by the behaviours leaders model, the expectations they set and the actions they take when issues arise. While the City has established a strong foundation through The Cockburn Way and leadership commitment to organisational values, maintaining an effective integrity culture requires ongoing visibility, accountability and engagement at every level of the organisation.

This priority seeks to strengthen integrity as a shared organisational responsibility by embedding integrity into leadership practice, performance expectations, communication and everyday workplace conversations.

#	Strategic Action	Lead / Owner	Timeframe	Priority
1.1	Introduce an Integrity Moment as a standing item at team meetings. Leaders share a brief integrity observation, lesson learnt, ethical dilemma, case study or practical example relevant to their work area to encourage discussion and reflection. Rotate responsibility to build shared ownership across teams.	Group Managers, People Leaders	Ongoing from Q3 2026	HIGH
1.2	Incorporate integrity as a Key Performance Indicator for all people leader roles and reflect it explicitly in performance review frameworks.	People & Organisational Performance	Q1 2028	HIGH
1.3	Conduct an annual integrity pulse survey to establish a baseline and monitor staff confidence in reporting, leadership commitment to integrity and organisational	People & Organisational Performance / Service Manager Organisational Capability and	Q1 2028 (baseline), annually thereafter	HIGH

#	Strategic Action	Lead / Owner	Timeframe	Priority
	culture. Develop and communicate action plans in response to findings. Commence base survey by requesting responses from these statements: — 'I know how to report suspected misconduct and or unethical behaviour'; — 'I am confident reports of misconduct are taken seriously' — I feel safe to raise concerns without fear of reprisal' — 'I understand the City's Code of Conduct and integrity expectations'.	Performance		
1.5	Develop and implement an ongoing integrity awareness training programs to increase organisational understanding of integrity obligations, reporting pathways and expected behaviours, including aspects of conflict of interests. The program may include awareness campaigns, leadership communications, practical resources and annual activities aligned with International Anti-Corruption Day (9 December). Update the codes of conduct to implement clear and up to date policies and procedures that outline gifts that are acceptable to Employees and Elected Members, introducing new clarity to help maintain effective management of gifts.	General Counsel, Communications & Engagement	Q1 2027 (launch), ongoing thereafter	MODERATE

STRATEGIC PRIORITY 2 | Integrity Capability and Clear Expectations

Building consistent understanding of integrity obligations across all roles and levels

Integrity expectations are established through policies, codes, governance frameworks and legislative obligations. Maintaining a strong integrity culture requires these expectations to be consistently understood, applied and reinforced across the organisation.

This priority focuses on building integrity capability through induction, training, practical guidance and clear expectations, ensuring employees, leaders, contractors and elected members have the knowledge and confidence to navigate integrity-related issues in their daily work.

#	Strategic Action	Lead / Owner	Timeframe	Priority
2.1	Develop and deliver a compulsory online integrity induction for all workers as part of the development of the City's improved induction approach. This to include training on elements identified throughout this Strategy.	People & Organisational Performance / External Provider	Q4 2026	HIGH
2.2	Require all workers to complete compulsory online integrity induction every three years as part of the development of the City's improved mandatory training approach. This to include training on elements identified throughout this Strategy.	People & Organisational Performance / External Provider	Q4 2028	HIGH
2.3	Review all position descriptions to incorporate explicit integrity and ethical decision-making requirements, prioritising high-risk roles and leadership positions in the first instance.	People & Organisational Performance or External Provider	Q4 2026 (high-risk roles), Q2 2028 (all roles)	MODERATE
2.4	Develop and promote a simple and consistent conflict of interest disclosure process with defined decision points for leaders.	General Counsel / Governance Office or External Consultant	Q3 2026 (launch), annually refreshed	HIGH
2.5	Develop a consistent guidance for integrity-related decisions, providing officers and managers with a structured guide for	General Counsel / Governance Office or External Consultant	Q2 2028	HIGH

#	Strategic Action	Lead / Owner	Timeframe	Priority
	identifying, escalating, documenting and reporting integrity matters.			
2.8	Develop and deliver integrity awareness sessions for people leaders, focusing on leadership responsibilities, Public Sector Commission integrity expectations and fostering a positive speak-up culture.	People & Organisational Performance or External Provider	Q2 2028	MODERATE

STRATEGIC PRIORITY 3 | Risk Intelligence and Internal Controls

Advancing from manual processes to analytics-supported risk detection and control

Risk Analysis and Planning and Fraud and Corruption Detection were identified as key development areas through the Integrity Framework Maturity Assessment. This priority strengthens the City's ability to identify, assess and respond to integrity risks through improved risk intelligence, enhanced internal controls, strengthened risk ownership and the effective use of enabling technologies.

#	Strategic Action	Lead / Owner	Timeframe	Priority
3.1	Establish an annual integrity risk review cycle including confirmation of risk ownership, control effectiveness and accountability for treatment actions as part of the City's operational risk register review.	Risk & Audit Function, Finance Services	Q2 2026 (first cycle), annually thereafter	HIGH
3.2	Deliver a financial accountability program incorporating budget accountability concepts into induction, team briefings and manager development.	Finance Services, People & Organisational Performance or External Facilitator	Q1 2026	MODERATE
3.3	Implement a program of regular and random line manager audits of staff	People Leaders, Finance Services	Q1 2028 (launch), bi-annual cycle	MODERATE

#	Strategic Action	Lead / Owner	Timeframe	Priority
	exercising delegated powers, with outcomes reported to Finance and the delegations register updated in real time.			
3.4	Assess opportunities to enhance compliance monitoring and reporting through existing technology platforms and automation capabilities.	Finance Services, General Counsel	Q2 2028 (pilot), Q4 2028 (recommendation)	LOW

STRATEGIC PRIORITY 4 | Reporting, Breaches and Closing the Loop

Making integrity reporting visible, trusted and acted upon

Response to Integrity Breaches is a key development area. This priority ensures that every issue raised is acknowledged, tracked, acted upon and — where appropriate — communicated back to the organisation. Strengthening confidence in reporting and constructive challenge is essential to sustaining an embedded integrity culture.

#	Strategic Action	Lead / Owner	Timeframe	Priority
4.1	Operationalise the Audit Action Log as a tracked register of all audit recommendations from internal audits, external audits and ARC. Provide regular reporting to ARIC on implementation progress, action status and any emerging risks or barriers to completion.	General Counsel, Finance Services	Q3 2026	HIGH
4.2	Develop and distribute clear written guidance for line managers on responding to integrity breaches — identification, initial steps, escalation pathways and documentation. Incorporate into manager induction.	General Counsel, People & Organisational Performance or External Consultant (guidance review)	Q4 2026	HIGH
4.3	Report integrity breach data —	General Counsel,	Annually	HIGH

#	Strategic Action	Lead / Owner	Timeframe	Priority
	de-identified and thematic — to ARIC annually following the PSC Integrity and Conduct Annual Collection.	Finance Services	from 2028	
4.4	Review and simplify existing reporting and escalation processes. Where processes are complex, provide decision-support tools. Ensure staff understand how to raise integrity concerns and what occurs after a matter is reported.	General Counsel, People & Organisational Performance	Q1 2028	MODERATE
4.5	Communicate integrity case outcomes to the organisation — without identifying individuals — through intranet or team briefings, to demonstrate that reporting leads to action and to build confidence in reporting pathways.	General Counsel, CEO	Ongoing from Q3 2026	MODERATE

STRATEGIC PRIORITY 5 | Oversight, Governance and Continuous Improvement

Embedding Audit, Risk and Improvement Committee (ARIC)as an effective oversight body and building a culture of continuous improvement

The transition to the Audit, Risk and Improvement Committee — with mandatory independent external leadership — represents a governance step-change. This priority ensures that the ARIC operates with the mandate, structure and information flows needed to provide effective integrity oversight, and that the City builds a culture of continuous self-improvement.

#	Strategic Action	Lead / Owner	Timeframe	Priority
5.1	Develop and adopt a rolling three-year internal audit plan — ensuring audit activities are informed by integrity risks and include consideration of internal control effectiveness where appropriate.	General Counsel, Finance Services, ARIC	Q3 2026	HIGH

#	Strategic Action	Lead / Owner	Timeframe	Priority
5.2	Establish a consistent integrity reporting rhythm to ARIC: risk dashboard, audit action log, policy compliance summary, breach data (when applicable) and survey results (when available).	General Counsel	Q3 2026 (first report), regularly thereafter	HIGH
5.3	Conduct a biennial Integrity Framework Maturity Assessment (next assessment 2028) and present findings to ARIC with a progress report against this Strategy. Use results to update the Strategy.	General Counsel or external consultant (assessment facilitation)	2028	MODERATE
5.4	Establish a structured policy governance framework to ensure policies remain current, aligned with legislative requirements and reviewed in accordance with approved review cycles.	General Counsel, CEO	Q4 2026	MODERATE

6 Implementation Roadmap

The following roadmap summarises the sequencing of strategic actions across the two-year Strategy period. All actions are oriented toward what the City will build and achieve from Q3 2026 onward. Phases reflect urgency, dependencies and organisational capacity.

Strategic Action	Phase 1: Q3 2026–Q2 2027	Phase 2: Q3 2027–Q2 2028	Phase 3: Q3 2028 Onwards
PRIORITY 1 — Integrity Leadership and Organisational Culture			
1.1 Integrity Moment in team meetings	Launch and establish	Sustained and reviewed	Embedded in culture
1.2 Integrity Working Group	Establish Q3 2026	Active program	Embedded in governance rhythm
1.3 Integrity KPI for people leaders	Design and implement Q4 2026	First annual review	Ongoing
1.4 Integrity pulse survey (annual)	Baseline Q1 2028	Year 2 survey + action plan	Annual — action plans communicated
1.5 Integrity leadership forums (annual)	Q1 2028 (first forum)	Annual cycle	Annual cycle
1.6 Integrity awareness program	Launch Q3 2026	Ongoing	Ongoing
PRIORITY 2 — Integrity Capability and Clear Expectations			
2.1 Compulsory integrity induction	Build and launch Q4 2026	Annual update	Annual update
2.2 Annual integrity awareness training	First cycle Q1 2028	Annual cycle + action plans	Annual cycle
2.3 Statement of Business Ethics	Q3 2026		
2.4 Position description review	High-risk roles Q4 2026	All roles Q2 2027	
2.5 Team debriefs after training	Establish Q3 2026	Sustained	Sustained
2.6 COI and PID guidance	Launch Q3 2026	Annual refresh	Annual refresh
2.7 Integrity decision-making framework	Q4 2026	Reviewed and embedded	

Strategic Action	Phase 1: Q3 2026–Q2 2027	Phase 2: Q3 2027–Q2 2028	Phase 3: Q3 2028 Onwards
2.8 Integrity awareness sessions for leaders	Q2 2028	Annual cycle	Annual cycle
PRIORITY 3 — Risk Intelligence and Internal Controls			
3.1 Risk management platform operationalisation	Q3 2026		
3.2 Annual integrity risk review cycle	First cycle Q4 2026	Annual	Annual
3.3 Information governance consolidation	Complete Q4 2026	Sustained	Sustained
3.4 ASD Essential 8 maturity	Annual targets from Q3 2026	Progress against roadmap	Full maturity target
3.5 Financial accountability program	Q1 2028	Annual refresh	Annual
3.6 Risk awareness and management training	Q2 2028	Annual cycle	Annual cycle
3.7 Line manager delegation audits	Q1 2028 (launch)	Annual cycle	Annual cycle
3.8 Technology-enabled compliance monitoring		Pilot Q2 2027	Implement if approved

7 Governance and Accountability

7.1 Oversight

The Audit, Risk and Improvement Committee (ARIC) holds primary oversight responsibility for this Strategy. The General Counsel is responsible for coordinating implementation of the Strategy and monitoring progress against strategic actions. General Counsel provides the ARIC with a quarterly integrity dashboard covering: action status, audit findings, policy compliance, risk register updates and any reportable breach data. The CEO is accountable for Strategy implementation and reports progress to Council.

7.2 Executive Leadership Accountability

Each member of the Executive Leadership Team is accountable for implementing this Strategy within their service area. Integrity performance — including participation in induction, training completion rates, risk register currency and breach response timeliness — will be a standing ELT reporting item on a quarterly basis.

7.3 Integrity Working Group

The Integrity Working Group (Action 1.2) will support implementation of the Strategy by promoting integrity awareness, providing practical feedback on implementation initiatives, identifying emerging issues and sharing lessons learnt across the organisation. The Working Group will act as a conduit between operational areas, the General Counsel and the Executive Leadership Team to support continuous improvement in integrity maturity. The Working Group will report to the General Counsel quarterly.

7.4 Reporting to Council

The CEO will provide Council with an annual report on integrity performance, including progress against this Strategy, the results of any culture surveys, the aggregate findings of the ARIC's integrity oversight work, and any matters of significance identified through the audit program or PSC reporting.

7.5 Strategy Review

The Strategy will be reviewed annually by General Counsel in consultation with ELT and the ARIC, and comprehensively refreshed following the 2028 Integrity Framework Maturity Assessment. It is a living document — actions may be added, amended or reprioritised in response to emerging risks, legislative change or assessment findings. Progress against strategic actions will be monitored through regular implementation reporting and reviewed annually as part of the Strategy review process.

8 Expected Outcomes by 2029

The following table presents the key outcome targets across priority areas.

Integrity Element (13)	Current Position	Target by 2029
Clear Expectations	Developing — expectations documented but inconsistently understood and applied	Embedded — mandatory induction, plain-language guidance and position description requirements in place
Roles & Responsibilities	Embedded — delegations documented, separation of duties active	Excelling — delegation audits operational; roles reviewed and integrity obligations explicit in all position descriptions
Legislation & Regulations	Embedded — compliance calendars and regulatory monitoring active	Excelling — PRIS obligations integrated; regulatory change monitoring sustained
Risk Analysis & Planning	Developing — manual management; no automated controls	Embedded — Risk management systems fully operational; annual integrity risk review cycle established.
Internal Controls, Audit & Governance	Embedded — external and internal audit programs active	Excelling — Audit Action Log operational; quarterly ARIC reporting; three-year audit plan in place
Fraud & Corruption Detection	Developing — reliant on manual controls; no analytics-driven detection	Embedded — analytics-supported detection capability operational; Essential 8 maturity advanced
Values & Standards	Embedded — refreshed Code of Conduct; ELT briefings active	Excelling — values embedded in induction, performance frameworks and team-level integrity practice
Leadership & Management Attitude	Embedded — ELT actively reinforces values	Excelling — integrity KPIs in place for all people leaders; integrity a sustained leadership behaviour at all levels
Organisational Culture	Developing — integrity not yet a routine leadership conversation at team level	Embedded — Integrity Moment embedded in all teams; annual pulse survey with action plans tracking year-on-year improvement

Integrity Education & Capacity	Developing — training ad hoc; no mandatory annual requirement	Embedded — mandatory annual cycle operational; 100% completion tracking in place; induction compulsory for all new starters
Response to Integrity Breaches	Developing — inconsistent; no systematic lessons-learnt process	Embedded — structured breach response cycle; annual thematic report with action plans to ARIC
Self-Analysis & Review	Developing — audits completed; close-out inconsistent	Embedded — Audit Action Log operational; quarterly ARIC reporting; biennial maturity assessment cycle
Oversight	Developing — transitioning from ARC to ARIC	Embedded — ARIC fully operational with quarterly integrity reporting rhythm and independent external leadership

That Council:

(1) NOTES the Notice of Motion received from Deputy Mayor Corke requesting the City change from weekly to fortnightly recycling collection services commencing 1 July 2027; and

(2) REQUESTS the Chief Executive Officer to undertake a review of the current and proposed kerbside recycling service levels and present the outcome to the April 2027 Ordinary Council Meeting, to enable Council to determine its recycling collection model and acknowledge community consultation is required prior to any implementation

LOST 4/5

For: Deputy Mayor P Corke, Cr T Dewan, Cr C Zhang and Cr H Srhoy
Against: Mayor L Howlett, Cr C Stone, Cr T Widenbar, Cr C Reeve-Fowkes and Cr K Allen

Background

On 18 September 2026, the following Notice of Motion was received from Deputy Mayor Corke:

> That the City changes from weekly to fortnightly recycling waste collections commencing 1 July 2027.
>
> **Reason**
> Since the introduction of Containers for Change the quantity of recycling waste the City is receiving has fallen substantially and is now at a level that means weekly pick-ups are no longer required. Recycling does not decay, so weekly collection is not necessary for health reasons. Local governments across Western Australia are moving to bi-weekly collections to meet environmental initiatives, cost savings and alignment with the Waste Avoidance and Resource Recovery Strategy 2030. The operational savings could be redirected to other services areas.

Submission

N/A

Report

The City currently provides a weekly kerbside recycling collection service to residents. The weekly kerbside recycling collection service is currently delivered by the City's internal waste teams with delivery of material to Veolia recycling facility located in Bibra lake.

Since the introduction of the State Government's Containers for Change program in October 2020, there is evidence of a significant shift in the composition and volume of materials presented in household recycling bins. High-value recyclable materials, particularly aluminium cans, glass bottles and plastic beverage containers, are increasingly being diverted through the refund scheme rather than the kerbside recycling system.

As outlined in the Waste Services review recycling bin presentation rates and tonnages have reduced across the City as a result of the WA Government's Containers for Change program. With the change to the composition of the recycling materials that can be received, early data indicates further reduction in volumes of kerbside recycling being collected.

In order to respond to Deputy Mayors Notice of Motion the following areas are being proposed to review and present back to Council:

- Current and projected recycling volumes and bin presentation data
- Operational and fleet management implications
- Financial impacts, including potential savings and implementation costs of a revised level of service

- Potential impacts on service levels and customer experience
- Benchmark against other Western Australian Local Government Associations
- Alignment to the WA State Waste Strategy
- Environmental considerations and alignment with relevant waste management objectives
- Community engagement requirements and options, including considerations associated with proceeding with or without community consultation; and implementation options and indicative timeframes.

The Notice of Motion identifies an opportunity to review whether the City's existing weekly recycling collection frequency remains the most appropriate service model. Before determining whether any change should occur, further information is required regarding recycling volumes, operational and fleet impacts, financial implications, service impacts, environmental considerations, community engagement requirements and implementation options.

It is recommended a report be prepared for the April 2027 Ordinary Council Meeting. This will enable Council to make an informed decision on whether to retain weekly collections, transition to fortnightly collections, undertake community consultation in the new year, or determine another appropriate course of action.

Strategic Plans/Policy Implications

Our Environment
Valuing natural assets, building climate resilience and using resources sustainably.
• Facilitate sustainable waste management and resource conservation.
• Enhance climate resilience and champion environmental initiatives to mitigate impacts.

Our Governance
Transparent leadership that listens, communicates openly and plans for a sustainable future.
• Strengthen engagement, communication and enhance customer experience.
Strive for financial sustainability and operational excellence.

Budget/Financial Implications

There are no significant financial implications arising directly from the recommendation to undertake the investigation.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

The recommendation to investigate the proposal allows Council to fully assess the operational, financial, environmental and community impacts before making a final decision, thereby reducing the risk of implementing an inappropriate service model while ensuring informed decision-making.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 October 2026 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

The City has considered section 3.18(3) of the *Local Government Act 1995*. The proposed investigation into moving from weekly to fortnightly recycling collections relates to a review of the frequency and efficiency of an existing waste collection service and does not involve the establishment of a new service or facility. Accordingly, there are no significant implications arising from section 3.18(3).

17.2 (2026/MINUTE NO 0165) Use of Camera Glasses at ARC and Sporting Facilities

Responsible Executive	Director Community and Place
Author(s)	Service Manager Recreation Services
Attachments	N/A

Council Decision
MOVED Cr C Stone SECONDED Deputy Mayor P Corke
That Council:

(1) NOTES that the Conditions of Entry at Cockburn ARC bans photography within changerooms and restricts photography in the rest of ARC to people who have provided informed consent and are known to the photographer;

(2) NOTES that the conditions of hire at sports facilities booked by sports clubs and the City's status as the owner of the facilities, means there are controls where illegal behaviour can be responded to; and

(3) NOTES that the City's existing Conditions of Entry, conditions of hire and applicable legislation provide appropriate controls to manage the use of camera-enabled devices, including camera glasses, and therefore no amendments are proposed at this time.

CARRIED 9/0

Background

The following Notice of Motion was received from Deputy Mayor Phoebe Corke on 23 September 2026:

> That Council change the Terms and Conditions of entry at Cockburn ARC, and for the using all other sporting facilities, to ban the use of camera glasses, exempting use by those who require them as a disability aid.
>
> **Reason**
> It is now possible to buy camera glasses for under $100. The only way to identify camera glasses is a small recording light which can be easily covered and concealed. It is impossible for parents, children, or women getting changed to know if they are being covertly recorded. The Federal Government is currently consulting on changes to the Privacy Act to introduce legislative protections that address the risks of such emerging technologies, but legislative changes take time. We, however, can make changes that have immediate effect to protect our residents from potential harassment.

Submission

N/A

Report

The City's current conditions of entry for Cockburn ARC ban photography within changerooms. They also restrict photography in the rest of ARC to people who have provided informed consent and are known to the photographer. Other patrons and staff are not to be captured.

As the City has care, control and management of the Cockburn ARC, the conditions of entry already enable Cockburn ARC team members to request any person wearing camera glasses to remove them or leave if they decline. Centre Managers in other municipalities have confirmed that they have similar conditions of entry which ban or restrict photography.

As sporting facilities do not have City staff present when used by sports clubs, the management controls are different to the Cockburn ARC. Sports clubs are required to comply with conditions of hire as part of their seasonal agreement and any illegal behaviours can be responded to.

Under the Surveillance Devices Act 1998, it is illegal to take photographs or video where there is a reasonable expectation of privacy. In a sporting club context, it would be illegal to use smart glasses to record in changerooms. The City would look to the WA Police to enforce against any illegal activity.

As the City owns (or has care, control and management) of facilities, it is open to the City to control and manage behaviour in these facilities, including providing reasonable direction to people. Where there are sporting facilities used by sporting clubs, they have their own powers and responsibilities in relation to participant safety.

As the current conditions of entry, City status as owner of the facilities and conditions of hire already provide the controls required to respond to illegal activity, no further adjustments are proposed to the conditions at this time.

The situation in relation to the governance of camera glasses is dynamic. Both the State and Federal Governments have adopted privacy legislation, and the State Government maintains the Surveillance Devices Act. The City anticipates legislative change in response to the evolving technology.

While camera glasses present emerging privacy concerns, a blanket prohibition would be difficult to enforce in practice, particularly in community sporting environments where City staff are not routinely present. Similar recording capabilities are now available in a range of devices including smart watches, mobile phones and wearable technology. Accordingly, operational controls focused on behaviour, privacy expectations and enforcement of existing conditions are considered more practical and effective than attempting to regulate specific devices.

Officers will continue to monitor if any further changes to operational practices and conditions of entry are required.

Strategic Plans/Policy Implications

Our Community:
A diverse, active, and connected community that feels safe and has access to local services.
• Promote and support active, healthy lifestyles through recreation and wellness.
• Strengthen and facilitate a safe and secure Cockburn.

Budget/Financial Implications

N/A

Legal Implications

The Conditions of entry for Cockburn ARC ban photography in changerooms and restrict photography in the rest of ARC to people who have provided informed consent and are known to the photographer. The conditions of entry already enable City staff to request any person wearing smart glasses to remove them or leave the centre if they decline. The Notice of Motion is not required to enable the City to take these operational steps.

Community Consultation

N/A

Risk Management Implications

The primary risk associated with camera glasses is the potential for covert recording and privacy breaches. This risk is mitigated through existing Conditions of Entry at Cockburn ARC, restrictions on photography in changerooms, conditions of hire for sporting clubs, staff authority to direct patrons to cease prohibited activities or leave facilities, and the application of relevant legislation. A blanket ban on a specific device would present practical enforcement challenges and may be less effective than regulating inappropriate behaviour regardless of the technology used.
