

City of Cockburn family Day Care Services Transcript

Hi, I'm Lara Tibbs

I am with the City of Cockburn Family Day Care Service

I enjoy my job, love children!

The City of Cockburn is a great support with all their assistance in any matters, guidance and training

I enjoy working for the family Day Care because of the small setting, the one on one and the relationship you can form with them

From a parents point of view, being a parent myself as well as in different settings of child care, Family Day Care then puts that child that needs the smaller environment, needs that more one on one and needs that more closeness to a person and security it's really good for that.
