Strategic Insights

The City of Cockburn | on the right track

Residents are happy living in the area and think the City of Cockburn is performing well as an organisation.

- 56% are 'delighted' (rating satisfaction 8+ out of 10) with the area and 91% are satisfied (6+ out of 10)
- 43% are 'delighted' with council's performance and 86% are satisfied

Over the past year, the City has continued to strengthen performance in a number of key service areas:

- Developing and communicating a clear vision for the area ▲7% points (▲13% points since 2008)
- Understanding the community's needs ▲8% points (▲15% points since 2008)
- Informing and consulting the community ▲8% points
- Promoting and adopting sustainable practices ▲8% points
- Access to public transport ▲15% points (▲20% points since 2011)
- Footpaths and cycleways ▲7% points
- Calendar reach ▲12% points

Satisfaction with other areas, such as sport and recreation facilities and control of graffiti, crime and anti-social behaviour have continued to improve, bouncing back to higher levels seen in 2005.

The City is leading the way on measures of leadership, achieving the Industry High for understanding the community's needs, and developing and communicating a clear vision for the future. The City is also the industry leader for satisfaction with efforts to promote sustainable practices and council's website.

On another positive note, concern has dropped with many 'focus' areas identified in 2012:

- Management and control of traffic
- Safety and security
- Road maintenance
- Street lighting
- Sport and recreation facilities
- Control of noise, dust, odour and emissions
- Mosquitos

Key areas to focus on improving in 2013

.....

The community has identified three key areas to focus on improving:

1. **Management and control of traffic on local roads.** Residents continue to be concerned with congestion, particularly around ‘hot spots’ such as the Gateway Shopping Centre and train station.

“My first priority would be the traffic on Beelias Drive and North Lake Road near the Gateway shopping centre. The traffic is terrible. When you're trying to get on to North Lake Rd from Waverley Rd there are no traffic lights and at certain times of the day (first thing in the morning, getting to work and school hours, and also 3pm onwards) it's really hard to get into North Lake Road and then in the right lane into Farrington Rd.”

2. **Streetscapes**, particularly in Hamilton Hill

“Hamilton Hill is untidy. The Hamilton Hill shopping centre is too old and run down and has to be re-built. Streetscapes and street lighting on Healy Road should improve.”

3. **Safety and security** and the need for increased **mobile security patrols**, particularly in Coolbellup

“There needs to be more CoSafe patrols in Coolbellup itself, more so at night time. A lot of people tell me that they don't feel safe as they usually live by themselves.”

CoSafe | an effective initiative

CoSafe appears to be having a positive impact on perceptions of safety.

Satisfaction with safety and security is higher among those aware of CoSafe compared to those who are unaware of the initiative.

Communications and events | a strong platform to build on

City Update is an effective tool that may be improved with greater coverage of local issues.

- 1 in 2 have seen or read the City Update in the local newspaper in the past 12 months.
- Those who have seen or read the Update are more satisfied with communications about council services, facilities and events, but not about local issues.
- In line with findings from focus group research conducted for the City in 2011, it appears that residents would like more communication about local issues.

Residents continue to express high levels of satisfaction with the City’s festivals and events.

- They are more likely to have heard of the Spring Fair, Aussie Day Breakfast, Teddy Bears Picnic, Coogee Beach Festival and WASO concert.
- When testing new ideas, there is greatest interest in a “Flavours of Cockburn” Street Festival, followed by Theatre in the Park, “Festival of the Lakes” at Bibra Lake, Sculptures by the Lake, and a local comedy festival.

The study

The study

In April 2013, the City of Cockburn administered the CATALYSE® Community Perceptions Survey.

Purpose: to track perceptions of local services, infrastructure & facilities, identify performance gaps, and benchmark the City against other Local Councils.

Methodology: the survey was conducted by phone with 401 randomly selected residents.

Interviewing was completed by the ECU Survey Research Centre, with quotas set by age, gender and location, and weighting applied, to match the population profile.

Sampling precision is +/- 5% at the 95% confidence interval.

Councils contributing to the Industry Standards*

* Industry Standards are provided when three or more Councils have asked the same question in the past 30 months

Overall perceptions

Overall satisfaction with City of Cockburn | as a place to live

RESIDENT SATISFACTION

% of respondents

Overall satisfaction with the City of Cockburn as a place to live is very high.

- 91% are satisfied

Satisfaction is higher among seniors, followed by older singles and couples.

INDUSTRY STANDARDS

% of respondents	Delighted	Dissatisfied
Younger singles / couples (18-34)	51%	0%
Families with younger children (0-12)	54%	4%
Families with older children (13+)	46%	2%
Older singles / couples (35-64)	62% ▲	1%
Seniors (65+)	72% ▲	4%

SATISFACTION HISTORY

▲ ▼ = significant variance ▲ ▼ = notable variance ^Small sample size (n < 30)

Q. Overall, how satisfied are you with the City of Cockburn as a place to live? Please give a rating out of 10, where 10 is totally satisfied and 0 is totally dissatisfied.

Base: All respondents who provided a valid response, excludes 'don't know' (Businesses 2011 n = 367; 2012 n = 384; 2013 n = 383)

Overall satisfaction – the City’s performance compared to others

Compared to other ‘growth Councils’, the City of Cockburn is a leading performer.

Growth Councils have been determined by the City of Cockburn as the cities of Wanneroo, Swan and Armadale.

Neighbouring Councils are Melville and Fremantle (plus Kwinana however, Kwinana has not completed a survey in the past 30 months).

* Average result for overall satisfaction with [INSERT COUNCIL] as a ‘place to live’ and as a ‘governing organisation’.

^ Overall satisfaction with [INSERT COUNCIL]

Value for money from council rates

RESIDENT SATISFACTION

INDUSTRY STANDARDS

SATISFACTION HISTORY

Satisfaction with value for money from council rates is moderate.

- 67% are satisfied

Satisfaction is higher among seniors.

There is most room to improve satisfaction among those in the Central Ward.

% of respondents	Delighted	Dissatisfied
Younger singles / couples (18-34)^	9%	12%
Families with younger children (0-12)	23%	15%
Families with older children (13+)	24%	16%
Older singles / couples (35-64)	26%	15%

Central Ward	22%	21% ▼
East Ward	28%	14%
West Ward	33%	6%

▲ ▼ = significant variance ▲ ▼ = notable variance ^Small sample size (n < 30)

Q. How satisfied are you with the value for money you get from your Council rates? Please continue to give a rating out of 10 where 10 is totally satisfied and 0 is totally dissatisfied. Base: Respondents who own / are paying a mortgage on their home, excludes 'don't know' (Residents 2007 n = 332; 2008 n = 325; 2009 n = 333; 2010 n = 319; 2011 n = 333; 2012 n = 304; 2013 n = 298)

Governance and communications

The City of Cockburn has developed and communicated a clear vision for the area

I am fairly clear about what the area is going to look and feel like in 10 years time

Most now agree that the City of Cockburn has developed and communicated a clear vision for the area, continuing to climb and up significantly from last year.

There is opportunity to continue promoting the vision to families with older children, who are less likely to agree, and to those in the East Ward or with a disability or impairment, who are more likely to disagree.

Frequency of using alternative transport

% of respondents

Overall, 58% of households have someone who walks to local destinations instead of driving and 23% have someone who cycles on a weekly basis or more often.

Over 1 in 3 residents use public transport weekly or more often.

A campaign may be needed to encourage seniors to use alternative forms of transport. They are the least likely to walk, cycle or use public transport.

Q. How satisfied are you with: Base: All respondents who provided a valid response (Residents 2013 n = varies)

Q. Which areas would you like the City of Cockburn to focus on improving? Anything else? Base: All respondents (Residents 2013 n = 401)

Key areas to focus on improving

Improving priority areas | Management and control of traffic

The main concern relating to management and control of traffic is congestion, with the areas around Gateway Shopping Centre and the train station identified as particular hotspots, for example:

- *“The intersection on Bibra Lake and North Lake Road (t-junction), they need traffic lights there because you can't get around there and it's a very dangerous intersection. The traffic there is really busy.”*
- *“Cockburn central shopping traffic management needs to be improved. Saturday morning traffic is always banked up. The traffic light sequence needs to be timed better. Traffic from Bunnings and the train station converge together more needs done to direct it so it's not banked up. “*
- *“The train station - Cockburn central station, parking around it is useless. The intersection at gateway shops, Beeliar & North Lake roads is disgusting. No forward planning at all. The major train station and shopping centre is all servicing the same two lanes. There are too many lights and it banks up and it's disgusting. ”*
- *“I guess around the Gateway shopping centre, the road going onto the freeway has been really congested along Beeliar, gets really heavy, needs improvement. Also the Beeliar and Hammond Road intersection gets congested. ”*
- *“Add more lanes on the Gateway near McDonalds, and need more parking lots. We have traffic congestion all the time.”*
- *“My first priority would be the traffic on Beeliar Drive and North Lake Road near the Gateway shopping centre. The traffic is terrible. When you're trying to get on to North Lake Rd from Waverley Rd there are no traffic lights and at certain times of the day (first thing in the morning, getting to work and school hours, and also 3pm onwards) it's really hard to get into North Lake road and then in the right lane into Farrington Rd.”*
- *“Could do something with the entrance and exit at Gateway shopping centre, absolutely shocking. And the car parking at Gateway, not enough. The other shopping centres are fine in the area”*

A full list of verbatim responses is provided in the Appendix

Q. Which areas would you most like the City of Cockburn to focus on improving? Anything else?

Improving priority areas | Streetscapes

Streetscapes have been identified as a key area to focus on improving, with Hamilton Hill in particular causing some concern, for example:

- *“Streetscaping and beautification of our suburb-Fredrick Rd, East Hamilton Hill - which is the oldest suburb and gets no streetscaping, or money put into the area.”*
- *“It would be great to have more trees on verges around Hamilton Hill residential area.”*
- *“The streetscaping in Hamilton Hill.”*
- *“Hamilton Hill is untidy. The Hamilton Hill shopping centre is too old and run down and has to be re-built. Streetscapes and street lighting on Healy Road should improve.”*
- *“Coolbellup, should be upgraded e.g. streetscapes etc.”*
- *“There are a lot of trees hanging on the roads and footpaths should be fixed on Healy road, it also needs a bit of cleaning up in that section.”*
- *“The streetscapes and the general appearance of the area should be improved. There should be more verges and cleaning up of the streets.”*
- *“Improve streetscapes, I like to see more trees planted in the street because I think it is environmentally better.”*
- *“The streetscapes around the shopping centre, on Winterfold Road. Needs to be improved, better urban furniture.”*

A full list of verbatim responses is provided in the Appendix

Q. Which areas would you most like the City of Cockburn to focus on improving? Anything else?

Improving priority areas | Safety, security and mobile patrols

Safety, security and mobile patrols have been identified as key areas to focus on improving, particularly in Coolbellup, for example:

- *“Need more security in Coolbellup, e.g. neighbour watch, as result of people cutting through houses. Protect people living in the area. Improve street lighting especially in Romeo St, Coolbellup. The actual skate path behind the IGA need more lightings. Patrolling services need to be more regular.”*
- *“Add cameras to the skate park at Coolbellup. Should be managed to improve the safety as Coolbellup requires a lot of safety.”*
- *“Like to see more skate parks monitored by police and security.”*
- *“The skate park is unmanaged and is rough, not enough security presence.”*
- *“There needs to be more CoSafe patrols in Coolbellup itself, more so at night time. A lot of people tell me that they don't feel safe as they usually live by themselves.”*
- *“In South Lake they should improve security. Even in the daytime and at local shops they are having problems with children misbehaving and the security guard couldn't do anything. They need more security.”*
- *“We need security controls at Coolbellup shopping centre, especially the clinic for disabled people in Coolbellup or Cockburn Shire.”*
- *“More protection, security, mobile security patrols.”*
- *“I think the council should do more to uplift the look of the area as the anti social behaviour should be under better control and more security to be available.”*
- *“We never see any security. I often see the Melville security but have never seen the Cockburn security. ”*

A full list of verbatim responses is provided in the Appendix

Q. Which areas would you most like the City of Cockburn to focus on improving? Anything else?

Other spontaneous suggestions | Shopping and entertainment

.....

There was also some spontaneous suggestion for more and improved shopping and entertainment facilities, particularly in Coolbellup, for example:

- *“Phoenix shopping centre should be improved. Provide more restaurants, have a cinema, so it can become a community hub, where people can meet. They should open small shops in the small suburban streets to provide a more sense of community like, a cafe or a lunch bar. They should have more workshops, for example, art, dancing etc.”*
- *“I would like them to improve the shopping mall in the area. A cinema hall should be included in there.”*
- *“More activities, more facilities in areas for all people, more cinemas.”*
- *“I feel like a second grade citizen living in Coolbellup. Luckily I have a car so I can get my services from elsewhere. We need better medical services. There's no consistency for patients as doctors keep changing. The shopping centre also needs more of a variety.”*
- *“The Coolbellup shopping centre needs to be improved. The prices in the store are too expensive and not competitive. A farmers market would be lovely, fresh fruit and vegetables. I often go to the one at Fremantle.”*
- *“Coolbellup shopping centre has to be completely demolished and rebuilt. The shopping centre is run down.”*
- *“The shopping centre, Coolbellup, re-do it, its feral.”*
- *“Coolbellup shopping centre - updated and make it more vibrant as it is sad looking as too many empty shops.”*

A full list of verbatim responses is provided in the Appendix

Q. Which areas would you most like the City of Cockburn to focus on improving? Anything else?

“Fireworks” is the exciting work of Yinjaa-Barni Artist, Maudie Jerrold.

Yinjaa-Barni Artists are traditional owners from the Fortescue River region. Their paintings depict the remarkable country of the Pilbara in Western Australia’s north-west. The contrasts of the harsh environment with the hidden gorges of cool water, the seeds and flowers bursting out after rain, are moments that belong to the great Creation stories of the Marrga.

Other works may be viewed at the Japingka Gallery in Fremantle [www.japingka.com.au].
